

## MRC Global Announces Update to Third Quarter 2019 Revenue Estimates and Share Repurchase Program

September 5, 2019

HOUSTON, Sept. 5, 2019 /PRNewswire/ -- MRC Global Inc. (NYSE: MRC), the largest global distributor, based on sales, of pipe, valves and fittings and related products and services to the energy industry, today provided updated revenue estimates for the third quarter of 2019.

Due to continued reductions in customer spending levels and lower demand in the third quarter, primarily in the midstream and upstream sectors in the U.S. and the upstream sector in Canada, the company is lowering its revenue estimates for the third quarter of 2019. Typically, the third quarter is the company's highest revenue-generating quarter; however, this year is not following historical patterns. The company is now forecasting revenue for the third quarter of 2019 to be between \$930 million and \$950 million, a sequential decline from the second quarter of 2019 of 4.5% at the mid-point. Previously, the company expected revenue for the third quarter of 2019 to increase sequentially 2% to 4%. Given the lower third quarter estimate, revenue for the second half of 2019 is now expected to be lower than the first half of the year. The company expects current conditions to persist, and slower activity levels to continue into the fourth quarter.

Given the change in the company's forecasted revenue discussed above, the most recent annual guidance provided on August 1, 2019 no longer reflects the company's current expectations.

As a result of lower customer spending levels in the second half of 2019, the company will be implementing further operating cost reductions in the second half of the year, above the initial 125 to 150 headcount reductions previously forecasted. This will result in additional severance charges as the operating costs are aligned with a lower revenue outlook.

Additionally, during August 2019, the company purchased \$13 million of its common stock at an average price of \$13.59 per share. There is \$12 million remaining available under the current authorization.

### About MRC Global Inc.

MRC Global is the largest distributor of pipe, valves and fittings (PVF) and related infrastructure products and services to the energy industry, based on sales. Through approximately 300 service locations worldwide, over 3,500 employees and with nearly 100 years of history, MRC Global provides innovative supply chain solutions and technical product expertise to customers globally across diversified end-markets including the upstream, midstream (including gas utilities) and downstream (including industrials). MRC Global manages a complex network of over 200,000 SKUs and 11,000 suppliers simplifying the supply chain for its over 15,000 customers. With a focus on technical products, value-added services, a global network of valve and engineering centers and an unmatched quality assurance program, MRC Global is the trusted PVF expert.
