## MRC Global Announces Updated Third Quarter 2019 Revenue Estimates and a Share Repurchase Program Update

Houston, TX – September 5, 2019 – MRC Global Inc. (NYSE: MRC), the largest global distributor, based on sales, of pipe, valves and fittings and related products and services to the energy industry, today provided updated revenue estimates for the third quarter of 2019.

Due to continued reductions in customer spending levels and lower demand in the third quarter, primarily in the midstream and upstream sectors in the U.S. and the upstream sector in Canada, the company is lowering its revenue estimates for the third quarter of 2019. Typically, the third quarter is the company's highest revenue-generating quarter; however, this year is not following historical patterns. The company is now forecasting revenue for the third quarter of 2019 to be between \$930 million and \$950 million, a sequential decline from the second quarter of 2019 of 4.5% at the mid-point. Previously, the company expected revenue for the third quarter of 2019 to increase sequentially 2% to 4%. Given the lower third quarter estimate, revenue for the second half of 2019 is now expected to be lower than the first half of the year. The company expects current conditions to persist, and slower activity levels to continue into the fourth quarter.

Given the change in the company's forecasted revenue discussed above, the most recent annual guidance provided on August 1, 2019 no longer reflects the company's current expectations.

As a result of lower customer spending levels in the second half of 2019, the company will be implementing further operating cost reductions in the second half of the year, above the initial 125 to 150 headcount reductions previously forecasted. This will result in additional severance charges as the operating costs are aligned with a lower revenue outlook.

Additionally, during August 2019, the company purchased \$13 million of its common stock at an average price of \$13.59 per share. There is \$12 million remaining available under the current authorization.
