Forward Looking Statements and Non-GAAP Disclaimer

This presentation contains forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act. Words such as “will,” “expect,” “expected,” “looking forward,” “guidance” and similar expressions are intended to identify forward-looking statements. Statements about the company’s business, including its strategy, the impact of changes in oil prices and customer spending, its industry, the company’s future profitability, the company’s guidance on its sales, adjusted EBITDA, adjusted gross profit, tax rate, capital expenditures and cash flow, growth in the company’s various markets and the company’s expectations, beliefs, plans, strategies, objectives, prospects and assumptions are not guarantees of future performance. These statements are based on management’s expectations that involve a number of business risks and uncertainties, any of which could cause actual results to differ materially from those expressed in or implied by the forward-looking statements. These statements involve known and unknown risks, uncertainties and other factors, most of which are difficult to predict and many of which are beyond our control, including the factors described in the company’s SEC filings that may cause our actual results and performance to be materially different from any future results or performance expressed or implied by these forward-looking statements.

For a discussion of key risk factors, please see the risk factors disclosed in the company’s SEC filings, which are available on the SEC’s website at www.sec.gov and on the company’s website, www.mrcglobal.com. Our filings and other important information are also available on the Investor Relations page of our website at www.mrcglobal.com.

Undue reliance should not be placed on the company’s forward-looking statements. Although forward-looking statements reflect the company’s good faith beliefs, reliance should not be placed on forward-looking statements because they involve known and unknown risks, uncertainties and other factors, which may cause the company’s actual results, performance or achievements or future events to differ materially from anticipated future results, performance or achievements or future events expressed or implied by such forward-looking statements. The company undertakes no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events, changed circumstances or otherwise, except to the extent required by law.

Statement Regarding Use of Non-GAAP Measures:

The Non-GAAP financial measures contained in this presentation (Adjusted EBITDA and Adjusted Gross Profit) are not measures of financial performance calculated in accordance with U.S. Generally Accepted Accounting Principles (GAAP) and should not be considered as alternatives to net income or gross profit. They should be viewed in addition to, and not as a substitute for, analysis of our results reported in accordance with GAAP. Management believes that these non-GAAP financial measures provide investors a view to measures similar to those used in evaluating our compliance with certain financial covenants under our credit facilities and provide meaningful comparisons between current and prior year period results. They are also used as a metric to determine certain components of performance-based compensation. They are not necessarily indicative of future results of operations that may be obtained by the Company.

Global Leader in PVF Distribution

Largest pipe, valves and fittings (PVF) distributor - Sales of \$3.5B TTM

Key Role in Global Supply Chains of Energy Companies

- Create value for both customers and suppliers
- Closely integrated into customer supply chains
- Volume purchasing savings and capital efficiencies for customer

Differentiated Global Capabilities

- Footprint with ~300 locations in 22 countries
- Premier quality program, material sourcing & customer service
- Serve broad PVF needs making it convenient and efficient for customers

Diversified Business Mix

- Balanced portfolio across upstream, midstream & downstream sectors
- Product mix focused on higher margin offerings
- Strategic focus on maintenance, repair and operations (MRO) contracts
- Growing integrated supply & project business
- Serve 200+ fabrication customers and ~\$300M in annual revenue

Upstream 29%

Midstream 43%

Downstream 28%

Diversified by Region, Industry Sector and Product Line - Well Positioned Through Cycle

Revenue by Geography

Revenue by Product Line

Revenue by Industry Sector

Note: Percentage of sales are for the twelve months ended September 30, 2017.

1. Other industrial includes: metals & mining, fabrication, pulp & paper, power generation and general industrial.

Upstream – Providing Completion Infrastructure to E&P Operators

- Provide well hook-ups via on-site product trailers, above-ground infrastructure PVF products for flow lines & tank batteries
- Serve E&P operators including Shell, Chevron, Statoil and Canadian Natural Resources
- Primary drivers are customers' capital budgets for well completions & production tank battery upgrades and expansions
- Walk-in counter sales at strategically located branches in active oil and gas production areas
- Located in all major basins
- Upstream revenue follows basin market activity levels

Serving Midstream Customers

Gas Utilities

- Provide PVF and integrated supply services including smart meters
- Business drivers:
 - integrity projects
 - pipeline enhancement projects
 - independent of commodity prices
 - residential and commercial, new & upgrade installations
- Relatively stable, steady growth

Transmission & Gathering

- Provide PVF to midstream gathering customers (e.g. MLPs)
- Provide PVF bulks & shorts and logistical services to long-haul transmission customers
- Benefit from recent pipeline approvals & modernization projects replacing older pipelines

Serving Downstream Customers

Refining

- Recurring MRO revenue from planned & unplanned maintenance
- Provide on-location “zone store” inventory
- Customers include Shell, Chevron, Phillips 66, Marathon Petroleum Company, BP and Valero

Chemical & Industrial

- Low gas prices provide stable, advantaged feedstock for plastics
- Positioned to benefit from \$185B of planned U.S. petrochemical projects¹
 - Including: ExxonMobil – Gulf Coast
 - Shell – Franklin, PA
 - LyondellBasell – Gulf Coast

MRC Global's Differentiated Value Proposition

Organic Growth

Strong record of winning new customers and expanding existing relationships resulting in growth

Operational Optimization

Driving enhanced profitability and return on capital through operational efficiencies, disciplined cost management and products & services portfolio optimization

Strategic Capital Decisions

Active balance sheet management and robust cash flow create financial flexibility and capital allocation opportunities

Global M&A Platform

Solid history of strategic acquisitions in advantageous geographies, sectors and product lines

Strong Record of Customer Contract Wins and Renewals – Yields Growth Opportunities

1. Renew Existing & Obtain New MRO Contract Customers

- Approximately 52% of sales are from our top 25 customers¹

2. Expand Global Chemical and Valves businesses

- 2017 Target - 40% of total revenue from valves, automation, measurement and instrumentation

3. Continue to Expand the Integrated Supply Business

- Approx. \$800 million in revenue¹

4. Continue to Develop “Next 75” Customers

- Drive share through focused sales efforts and exceptional customer service

Leader in Executing Global PVF Contracts - a Platform for Growth

Customers prefer a dependable supplier who can offer global procurement capabilities and excellent service everywhere they operate

MRC Global has executed the only global PVF contracts with IOCs in the industry

- Shell – Global valves & North American PFF
- Chevron – Global PVF
- ExxonMobil – Global valves, initially focused on downstream

2017

Shell

- 5 year renewal term
- Global valves & North American PFF

First global valve contract in 2012

2017

Chevron

- 7 year renewal term
- Global PVF
- Leveraged U.S. agreement to add Canada, Europe, Australia, Thailand, Gulf of Mexico, Kazakhstan

Strategic geographic expansion since original 2003 contract

2017

ExxonMobil

- 5 year renewal term
- Global valves for MRO & projects. Initially focused on downstream for the U.S., Europe & Asia Pacific.

Opportunity to expand

Expanding Higher Margin Product Offerings Increases Growth Opportunities and Profitability

Organic growth through expansion of higher margin products:

Valves

- Entered into Global Enterprise Distributor Program (EDP) with Cameron
- Access to several valve lines previously sold directly to customers
- Across upstream, midstream & downstream

Measurement & Instrumentation (M&I)

- Exclusive EDP with Cameron for M&I products in North America
- Previously sold directly to customers
- Includes 1,300 new SKUs
- Opportunity to expand to midstream and downstream customers

On-track to deliver 2017 annual revenue \$125-\$150 million from expanded Cameron agreements

MRC Global is the largest distributor of Cameron products

Investing in Technology for Long-Term Growth & Efficiency

Benefits of implementing ERP system in International segment:

- Moves from 14 systems to one
- Makes interaction with customers streamlined and efficient
- Provides one view of inventory, procurement and strategic inventory management
- Standardization of processes resulting in lower costs
- Completed in 2017

MRCGO™ online catalog increased functionality added

- B-2-B for contract customers allows for easy and efficient ordering
- Customized for each customer's contract terms, part numbers, commonly ordered items
- Real-time inventory, pricing and order status
- \$100 million of YTD revenue generated through MRCGO™

35% of the **top 25** U.S. customers' 2016 revenue was transacted through e-commerce (e.g. catalog, EDI)

Focus on Optimizing Operations

Working Capital Management

- Expect to maintain capital efficiency with working capital as a percentage of revenue at approximately 20%
- Reduced the gap between days sales outstanding and days payable outstanding over the past two years
- Investments in working capital are weighted to higher margin products

Optimizing Net Working Capital¹

Actively Managing Costs

- High operating leverage - SG&A as a percentage of sales is declining as sales increase and operating costs are controlled
- Successfully executed cost reduction measures in downturn with ~\$200M of annual savings realized from 2014
- Expect modest North American headcount increases in 2017 commensurate with growth expectations in N.A.
- Headcount reductions planned for International segment in 4Q 2017

Actively Managing SG&A Costs

Declining SG&A as % of Revenue

1. Working capital defined as Current Assets (excluding Cash) – Current Liabilities. Sales are on trailing twelve months basis.

Strategic Capital Decisions Support Growth

Effectively Positioned the Balance Sheet ...

- Advantageous debt agreements with favorable terms, low interest rate and maturities 2022+
- Liquidity of \$529 million – sufficient to cover working capital and M&A
- Net leverage expected to decrease as EBITDA increases in 2017

... For Capital Deployment Opportunities

- Organic growth initiatives - Investments to drive share gains & efficiencies
- Opportunistic share repurchases:
 - New \$100 million authorization in October 2017
 - \$125 million authorization completed in 1Q 2017
- Accretive M&A - 39% of cash flow deployed on M&A since 2010
- Debt repayment \$1.12 billion in 2015 & 2016

Net Leverage

Use of Cash Flow (2010 – 3Q 2017¹)

1. Investing and Financing cash flows from 2010 through 3Q 2017. Net Financing equals the total issuance less repayment of debt and equity excluding share repurchases.

Global Platform For Continued M&A

North American Consolidation

Global Acquisitions

Differentiated Position

Targeted Sectors

- Merger in 2007 created the largest PVF distributor to energy companies in North America
- Augmented North American platform through seven bolt-on acquisitions and organic growth
- Acquired an international valve company in 2009 as a platform for international expansion
- Expanded markets served and enhanced product portfolio through several subsequent acquisitions
- Acquired leading Norwegian supplier in 2014, which added a differentiated offshore production facility capability and provided expertise to grow in offshore production facility markets
- Global service capability enables expanded relationships with customers and organic growth opportunity
- Diversified across the energy infrastructure complex, serving upstream, midstream and downstream customers
- Focus in 2015 & 2016 was on debt reduction
- In 2017, continue to target global assets and build scale with a focus on valves & alloys
