Forward Looking Statements

This presentation contains forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act. Words such as “will,” “expect,” “look forward,” “guidance,” “targeted,” “goals”, and similar expressions are intended to identify forward-looking statements. Statements about the company’s business, including its strategy, its industry, the company’s future profitability, the company’s guidance on its sales, adjusted EBITDA, adjusted net income, adjusted diluted EPS, adjusted SG&A, gross profit, gross profit percentage, adjusted gross profit, adjusted gross profit percentage, net debt, tax rate, capital expenditures and cash from operations, free cash flow, free cash flow after dividends, growth in the company’s various markets and the company’s expectations, beliefs, plans, strategies, objectives, prospects and assumptions are not guarantees of future performance. These statements are based on management’s expectations that involve a number of business risks and uncertainties, any of which could cause actual results to differ materially from those expressed in or implied by the forward-looking statements. These statements involve known and unknown risks, uncertainties and other factors, most of which are difficult to predict and many of which are beyond our control, including the factors described in the company’s SEC filings that may cause our actual results and performance to be materially different from any future results or performance expressed or implied by these forward-looking statements, including the company’s Current Report on Form 8-K dated July 29, 2021.

For a discussion of key risk factors, please see the risk factors disclosed in the company’s SEC filings, which are available on the SEC’s website at www.sec.gov and on the company’s website, www.mrcglobal.com. Our filings and other important information are also available on the Investor Relations page of our website at www.mrcglobal.com.

Undue reliance should not be placed on the company’s forward-looking statements. Although forward-looking statements reflect the company’s good faith beliefs, reliance should not be placed on forward-looking statements because they involve known and unknown risks, uncertainties and other factors, which may cause the company’s actual results, performance or achievements or future events to differ materially from anticipated future results, performance or achievements or future events expressed or implied by such forward-looking statements. The company undertakes no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events, changed circumstances or otherwise, except to the extent required by law.

Non-GAAP Disclaimer

In this presentation, the company is providing certain non-GAAP financial measures. These are not measures of financial performance calculated in accordance with U.S. Generally Accepted Accounting Principles (GAAP) and should not be considered as alternatives. The following GAAP measures have the following non-GAAP measures presented and derived from the respective GAAP measures:

- **net income (adjusted EBITDA)**
- **net income margin (adjusted EBITDA margin)**
- **gross profit (adjusted gross profit)**
- **gross profit percentage (adjusted gross profit percentage)**
- **net income (adjusted net income)**
- **diluted earnings per share (adjusted diluted EPS)**
- **selling, general and administrative expense (adjusted SG&A)**
- **net cash provided by operations (free cash flow and free cash flow after dividends)**
- **long-term debt, net (net debt)**

They should be viewed in addition to, and not as a substitute for, analysis of our results reported in accordance with GAAP. Management believes that these non-GAAP financial measures provide investors a view to measures similar to those used in evaluating our compliance with certain financial covenants under our credit facilities and provide meaningful comparisons between current and prior year period results. They are also used as a metric to determine certain components of performance-based compensation. They are not necessarily indicative of future results of operations that may be obtained by the company.

Diversified Portfolio - Revenue by End-Market Sector and Product Line

Gas Utilities – Underpinned by Secular Growth and Independent of Commodity Prices

Growth Drivers

- Multi-year pipeline integrity projects, new installations and climate change considerations such as low-emissions valves
- Annual customer budget growth ~5-7%
- Valve Engineering & Modification Center drives market penetration

Attributes

- **Independent of commodity prices**
- Contracts with 9 of the top 10 and 18 of the top 25 largest gas utilities in the U.S.
- Targeting \$1 billion in revenue in 2022 (one year early)

Downstream & Industrial – Broad Customer Base with Multiple Growth Avenues

Growth Drivers

- Increasing secular demand for plastics leading to petrochemical investments
- Valve-centric strategy and Downstream Center of Excellence targeting chemicals & petrochemicals industries
- Energy transition & decarbonization projects

Attributes

- **Less commodity price dependent**
- Recurring MRO revenue plus greenfield and upgrade projects
- Contracts with the 10 largest refiners in the U.S.
- Heavily valve-centric

Upstream Production – Economic Recovery & Energy Transition Driving Growth

Growth Drivers

- Global economic recovery, industrialization & population growth
- Capital budgets for well completions
- Exploration & Production companies (E&Ps) leading energy transition & decarbonization efforts

Attributes

- Provide surface equipment for well hook-ups, flow lines & tank batteries
- Located in all major basins - revenue follows basin market activity levels
- Customer mix weighted to IOCs and independents

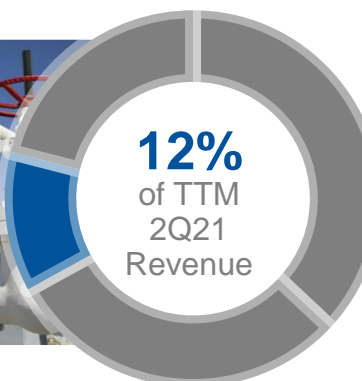

Midstream Pipeline – Infrastructure Modernization & Energy Transition Driving Growth

Growth Drivers

- Modernization & replacement projects, production growth and hydrocarbon exports in the U.S.
- Energy transition & decarbonization projects
- Valve Engineering & Modification Center drives market penetration

Attributes

- Transmission and gathering customers
- Supply PVF “bulks & shorts” for transmission projects
- Provide staging and logistical services

Well-Positioned for Growth in Global Energy Transition

Massive Opportunity

Provide Products & Services for Green Energy and Decarbonization Solutions

- Trillions of dollars to be spent through private investment and government stimulus
- Solutions include: Biofuels, carbon capture, utilization and storage (CCUS), hydrogen, geothermal, hydro, wind and solar
- Covers a broad set of global customers across all segments and sectors
- Greenfield projects, conversions and MRO activities
- Currently represents a small portion of MRC Global revenue and profits

MRC Global Capabilities

Skills, Assets & Experience to Accelerate Growth Opportunities

- Existing energy customers pivoting portfolios toward green energy and decarbonization
- Global footprint to serve multinational customers
- Efficient and well-established supply chain network
- Deep knowledge of PVF products and value-added services
- Experience with multiple forms of green energy and CCUS projects

Partnering in the Energy Transition

Technical and Value-Added Supply-Chain Solutions

Providing customers technical, engineered products and supply-chain solutions:

- Valve Engineering Centers and Valve Engineering and Modification Center
 - Actuation, modification, ValidTorque™
 - Complete engineering documentation (CAD drawings)
 - Testing services (e.g., hydrostatic testing, weld x-rays)
 - Steam system surveys and audits
 - On-site product assistance, training and demonstrations
- Quality Assurance Program – Approved Manufacturers List Qualification & Supplier Audits
- Integrated Supply Solutions – Complete inventory management services including warehouse and logistics solutions, stock replenishment and product rationalization

Committed to ESG Principles and Sustainability

Environmental

- Pollution control for customers – Offer low-e valves reducing fugitive waste emissions, such as methane
- Reduced our North American Scope 1 emissions ~**44%** from **2013** to **2020**
- Continually improving impact by reducing transportation moves

Diversity & Inclusion

- **33%** of Board of Directors from Diversity Groups
- Women make up **45%** of global corporate employees

Social Responsibility

- **Strong safety culture**
- Top Quartile Safety Performance in 2020 National Association Wholesaler-Distributors Survey
- Supplier Quality Process (Processes, Policies & Audits)

Governance

- Adopted SASB reporting standards
- **Executive compensation tied to safety metric**
- ESG Management Committee reports to Governance Committee
