### Our Company

We are the largest global distributor of pipe, valves and fittings (“PVF”) and related products and services to the energy industry based on sales and hold the leading position in our industry across each of the upstream (exploration, production, and extraction of underground oil and natural gas), midstream (gathering and transmission of oil and natural gas, natural gas utilities, and the storage and distribution of oil and natural gas) and downstream (crude oil refining, petrochemical processing and general industrials) end markets. We currently serve our customers through over 400 global service locations, including over 180 branches, 6 distribution centers and over 190 pipe yards located in the most active oil and natural gas regions in North America and over 30 branch locations throughout Europe, Asia and Australasia.

McJunkin Red Man Holding Corporation was incorporated in Delaware on November 20, 2006 and McJunkin Red Man Corporation was incorporated in West Virginia on March 21, 1922 and was reincorporated in Delaware on June 14, 2010. Our principal executive office is located at 2 Houston Center, 909 Fannin, Suite 3100, Houston, Texas 77010. We also have corporate offices located at 835 Hillcrest Drive, Charleston, West Virginia 25311 and 8023 East 63<sup>rd</sup> Place, Tulsa, Oklahoma 74133. Our telephone number is (877) 294-7574. Our website address is [www.mrcpvf.com](http://www.mrcpvf.com). Information contained on our website is expressly not incorporated by reference into this prospectus.

Our business is segregated into two operating segments, one consisting of our North American operations and one consisting of our international operations. These segments represent our business of providing PVF and related products and services to the energy and industrial sectors, across each of the upstream, midstream and downstream markets.

### History

McJunkin Corporation (“McJunkin”) was founded in 1921 in Charleston, West Virginia and initially served the local oil and natural gas industry, focusing primarily on the downstream end market. In 1989, McJunkin broadened its upstream end market presence by merging its oil and natural gas division with Appalachian Pipe & Supply Co. to form McJunkin Appalachian Oilfield Supply Company (“McJunkin Appalachian”, which was a subsidiary of McJunkin Corporation, but has since been merged with and into McJunkin Red Man Corporation), which focused primarily on upstream oil and natural gas customers.

In April 2007, we acquired Midway-Tristate Corporation (“Midway”), a regional PVF oilfield distributor, primarily serving the upstream Appalachia and Rockies regions. This extended our leadership position in Appalachia/Marcellus shale region, while adding additional branches in the Rockies.

Red Man Pipe & Supply Co. (“Red Man”) was founded in 1976 in Tulsa, Oklahoma and began as a distributor to the upstream end market and subsequently expanded into the midstream and downstream end markets. In 2005, Red Man acquired an approximate 51% voting interest in Canadian oilfield distributor Midfield Supply ULC (“Midfield”), giving Red Man a significant presence in the Western Canadian Sedimentary Basin.

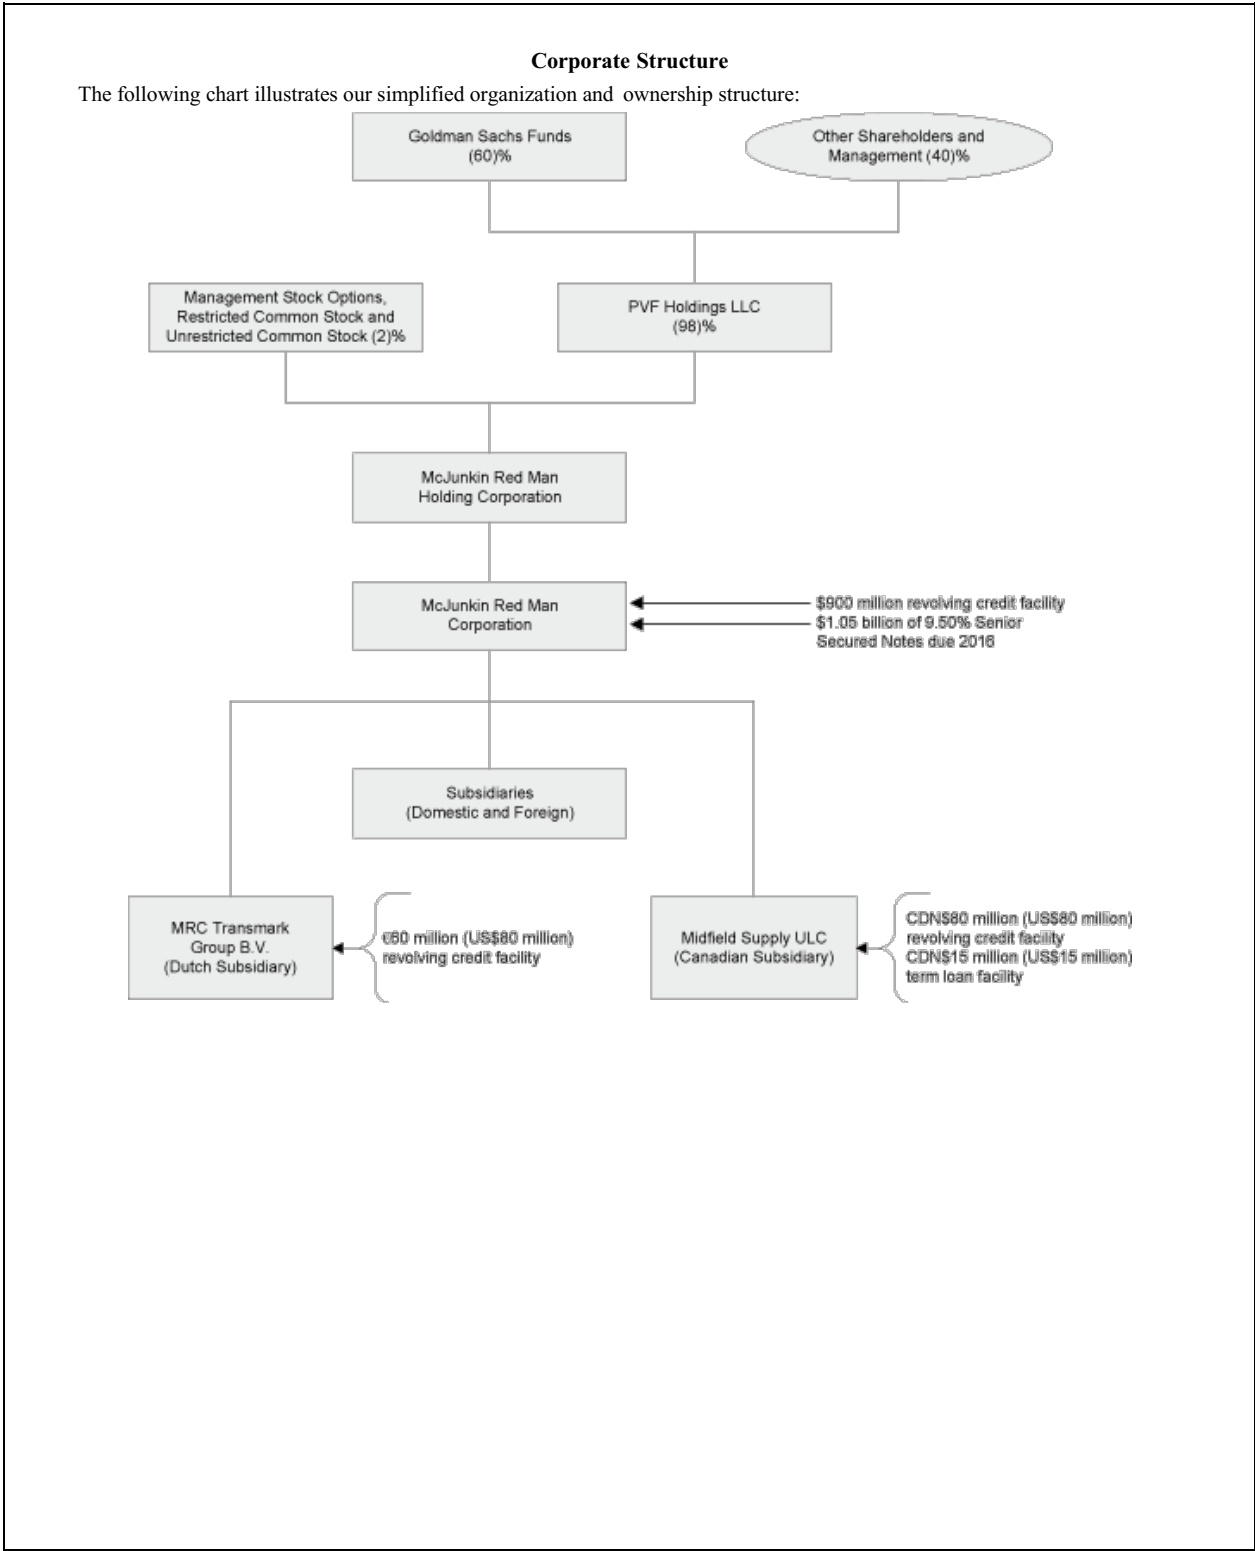

In October 2007, McJunkin and Red Man completed a business combination transaction to form the combined company, McJunkin Red Man Corporation. This transformational merger combined leadership positions in the upstream, midstream and downstream end markets, while creating a “one stop” PVF leader across all end markets.

with full geographic coverage across North America. Red Man has since been merged with and into McJunkin Red Man Corporation.

On July 31, 2008, we acquired the remaining voting and equity interest in Midfield. Also, in October 2008, we acquired LaBarge Pipe & Steel Company (“LaBarge”). LaBarge is engaged in the sale and distribution of carbon steel pipe (predominately large diameter pipe) for use primarily in the North American midstream energy infrastructure market. The acquisition of LaBarge expanded our midstream end market leadership, while adding a new product line in large outside diameter pipe.

On October 30, 2009, we acquired Transmark Fcx Group B.V. (“Transmark”) and as part of the acquisition, we renamed Transmark as MRC Transmark Group B.V. (“MRC Transmark”). MRC Transmark is a leading distributor of valves and flow control products in Europe, Southeast Asia and Australasia. Transmark was formed from a series of acquisitions, the most significant being the acquisition of FCX European and Australasian distribution business in July 2005. The acquisition of Transmark provided geographic expansion internationally, additional downstream diversification and enhanced valve market leadership.

During 2010, we acquired The South Texas Supply Company, Inc. (“South Texas Supply”) and also certain operations and assets from Dresser Oil Tools, Inc. (“Dresser”). With these two acquisitions, we expanded our footprint in the Eagle Ford and Bakken shale regions, expanding our local presence in two of the emerging active shale basins in North America.

The Goldman Sachs Funds are managed by the Principal Investment Area of Goldman Sachs (“GS PIA”). GS PIA is one of the world’s largest private equity and mezzanine investors, having invested approximately \$67 billion in over 750 companies globally since 1986, and manages a diverse global portfolio of companies from the firm’s New York, London, Hong Kong, Tokyo, San Francisco and Mumbai offices. - junior in priority to our revolving credit facility (to the extent of the collateral that secures our revolving credit facility) and to any other debt incurred after the issue date that has a priority security interest relative to the exchange notes in the collateral that secures the revolving credit facility;
- equal in priority to any other indebtedness incurred before or after the issue date which is secured on an equal basis with the exchange notes and guarantees, including the outstanding notes; and
- junior in priority to the existing and future claims of creditors and holders of preferred stock of our subsidiaries that do not guarantee the exchange notes.

As of December 31, 2010:

- we and the Subsidiary Guarantors had \$286 million outstanding under our revolving credit facility and outstanding letters of credit of approximately \$5 million (with \$360 million of available borrowings under our revolving credit facility), all of which would rank senior to the exchange notes to the extent of the collateral securing the revolving credit facility on a senior basis;

	<ul style="list-style-type: none"> <li>• our non-guarantor subsidiaries had indebtedness of \$46 million and borrowing availability of an additional \$115 million, all of which would rank senior to the exchange notes;</li> <li>• we and the guarantors had \$1.05 billion of outstanding notes outstanding plus certain outstanding interest rate swap agreements, all of which would rank pari passu with the exchange notes;</li> <li>• we and the guarantors had no subordinated indebtedness; and</li> <li>• our parent guarantor had no indebtedness other than its guarantee of the outstanding notes.</li> </ul> <p>See “Description of Exchange Notes — Brief Description of the Notes and the Note Guarantees”.</p>
Intercreditor Agreement	<p>The collateral trustee has entered into an intercreditor agreement with the Issuer, the Subsidiary Guarantors and The CIT Group/Business Credit Inc. and Bank of America, N.A., as co-collateral agents under our revolving credit facility, which governs the relationship of noteholders and the lenders under our revolving credit facility with respect to collateral and certain other matters. See “Description of Exchange Notes — The Intercreditor Agreement”.</p>
Collateral Trust Agreement	<p>The Issuer and the Subsidiary Guarantors have entered into a collateral trust agreement with the collateral trustee and the trustee under the indenture governing the notes. The collateral trust agreement sets forth the terms on which the collateral trustee will receive, hold, administer, maintain, enforce and distribute the proceeds of all liens upon the collateral which it holds in trust. See “Description of Exchange Notes — The Collateral Trust Agreement”.</p>
Sharing of Liens and Collateral	<p>The liens securing the exchange notes secure the outstanding notes on an equal and ratable basis with the exchange notes. The Issuer and the Subsidiary Guarantors may issue additional senior secured indebtedness under the indenture governing the notes. The liens securing the notes may also secure, together on an equal and ratable basis with the notes, other Priority Lien Debt (as such term is defined in “Description of Exchange Notes — Certain Definitions”) permitted to be incurred by the Issuer under the indenture governing the notes, including additional notes of the same class under the indenture governing the notes. The Issuer and the Subsidiary Guarantors may also grant additional liens on the collateral securing the notes on a junior basis to secure Subordinated Lien Debt (as such term is defined in “Description of Exchange Notes — Certain Definitions”) permitted to be incurred under the indenture governing the notes.</p>
Optional Redemption	<p>We may redeem the exchange notes, in whole or in part, at any time on or after December 15, 2012 at the redemption prices set forth in this prospectus. In addition, at any time prior to December 15, 2012, we may redeem some or all of the exchange notes at a price equal to 100% of the principal amount of the exchange notes plus a make-whole premium and accrued and unpaid interest to the redemption date, in each case, as described in this prospectus under “Description of Exchange Notes — Optional Redemption”.</p>

Offers to Purchase	<p>We may also, at any time prior to December 15, 2012, redeem up to 35% of the aggregate principal amount of the notes issued under the indenture governing the notes with the net proceeds of certain equity offerings at the redemption price set forth in this prospectus. See “Description of Exchange Notes — Optional Redemption”.</p> <p>If we sell certain assets without applying the proceeds in a specified manner, or experience certain change of control events, each holder of exchange notes may require us to purchase all or a portion of its notes at the purchase prices set forth in this prospectus, plus accrued and unpaid interest and special interest, if any, to the purchase date. See “Description of Exchange Notes — Repurchase at the Option of Holders”. Our revolving credit facility or other agreements may restrict us from repurchasing any of the exchange notes, including any purchase we may be required to make as a result of a change of control or certain asset sales. See “Risk Factors — Risks Related to the Exchange Notes — We May Not Have the Ability to Raise the Funds Necessary to Finance the Change of Control Offer or the Asset Sale Offer Required by the Indenture Governing the Notes”.</p>
Covenants	<p>The indenture governing the exchange notes contains covenants that impose significant restrictions on our business. The restrictions that these covenants place on us and our restricted subsidiaries include limitations on our ability and the ability of our restricted subsidiaries to, among other things:</p> <ul style="list-style-type: none"> <li>• incur additional indebtedness;</li> <li>• issue certain preferred stock or disqualified capital stock;</li> <li>• create liens;</li> <li>• pay dividends or make other restricted payments;</li> <li>• make certain payments on debt that is subordinated or secured on a basis junior to the exchange notes;</li> <li>• make investments;</li> <li>• sell assets;</li> <li>• create restrictions on the payment of dividends or other amounts to us from restricted subsidiaries;</li> <li>• consolidate, merge, sell or otherwise dispose of all or substantially all of our assets;</li> <li>• enter into transactions with our affiliates; and</li> <li>• designate our subsidiaries as unrestricted subsidiaries.</li> </ul>
Original Issue Discount	<p>These covenants are subject to a number of important exceptions and qualifications, which are described under “Description of Exchange Notes”.</p> <p>The outstanding notes were issued with original issue discount for United States federal income tax purposes, and the exchange notes will be treated as issued with the same amount of original issue discount as the outstanding notes exchanged therefor. For United States federal income tax purposes, U.S. Holders will be required</p>

No Assurance of Active Trading Market

to include the original issue discount in gross income (as ordinary income) as it accrues on a constant yield basis in advance of the receipt of the cash payment to which such income is attributable (regardless of whether such U.S. Holders use the cash or accrual method of tax accounting). See “Certain Material United States Federal Tax Considerations — Stated Interest and Original Issue Discount”.

The exchange notes will not be listed on any securities exchange or on any automated dealer quotation system. We cannot assure you that an active or liquid trading market for the exchange notes will exist or be maintained. If an active or liquid trading market for the exchange notes is not maintained, the market price and liquidity of the exchange notes may be adversely affected. See “Risk Factors — Risks Related to the Exchange Notes — There is no Prior Public Market for the Exchange Notes. If an Actual Trading Market does Not Exist or is Not Maintained for the Exchange Notes, You May Not Be Able To Resell Them Quickly, for the Price That You Paid or at All.”

**Risk Factors**

Despite our competitive strengths discussed elsewhere in this prospectus, investing in our exchange notes involves substantial risk. In addition, our ability to execute our business strategy is subject to certain risks. The risks described under the heading “Risk Factors” immediately following this summary may cause us not to realize the full benefits of our strengths or may cause us to be unable to successfully execute all or part of our business strategy as well as impact our ability to service the exchange notes. You should carefully consider all the information in this prospectus, including matters set forth under the heading “Risk Factors”.

## **SUMMARY HISTORICAL CONSOLIDATED FINANCIAL AND OTHER DATA**

On January 31, 2007, McJunkin Red Man Holding Corporation, an affiliate of The Goldman Sachs Group, Inc., acquired a majority of the equity of the entity now known as McJunkin Red Man Corporation (then known as McJunkin Corporation) (the “GS Acquisition”). In this prospectus, the term “Predecessor” refers to McJunkin Corporation and its subsidiaries prior to January 31, 2007 and the term “Successor” refers to the entity now known as McJunkin Red Man Holding Corporation and its subsidiaries on and after January 31, 2007. As a result of the change in McJunkin Corporation’s basis of accounting in connection with the GS Acquisition, Predecessor’s financial statement data for the one month ended January 30, 2007 and earlier periods is not comparable to Successor’s financial data for the eleven months ended December 31, 2007 and subsequent periods.

McJunkin Corporation completed a business combination transaction with Red Man Pipe & Supply Co. (the “Red Man Transaction”) on October 31, 2007. At that time, McJunkin Corporation was renamed McJunkin Red Man Corporation. Operating results for the eleven-month period ended December 31, 2007 include the results of McJunkin Red Man Holding Corporation for the full period and the results of Red Man Pipe & Supply Co. (“Red Man”) for the two months after the business combination on October 31, 2007. Accordingly, our historical results for the years ended December 31, 2010, 2009 and 2008 and the 11 months ended December 31, 2007 are not comparable to McJunkin’s historical results for the one month ended January 30, 2007 and the year ended December 31, 2006.

- (1) Cost of sales is exclusive of depreciation and amortization, which is shown separately.
- (2) We define Adjusted EBITDA as net income plus interest, income taxes, depreciation and amortization, amortization of intangibles and other non-recurring and non-cash charges (such as gains/losses on the early extinguishment of debt, changes in the fair value of derivative instruments, goodwill impairment and equity based compensation). Our revolving credit facility uses a measure substantially similar to Adjusted EBITDA. We present Adjusted EBITDA because it is an important factor in determining the interest rate and commitment fee we pay under our revolving credit facility. In addition, we believe it is a useful factor indicator of our operating performance. We believe this for the following reasons:
- our management uses Adjusted EBITDA for planning purposes, including the preparation of our annual operating budget and financial projections, as well as for determining a significant portion of the compensation of our executive officers;
  - Adjusted EBITDA is widely used by investors to measure a company's operating performance without regard to items, such as interest expense, income tax expense and depreciation and amortization, that can vary substantially from company to company depending upon their financing and accounting methods, the book value of their assets, their capital structures and the method by which their assets were acquired; and
  - securities analysts use Adjusted EBITDA as a supplemental measure to evaluate the overall operating performance of companies.

Particularly, we believe that Adjusted EBITDA is a useful indicator of our operating performance because Adjusted EBITDA measures our company's operating performance without regard to certain non-recurring, non-cash and/or transaction-related expenses. Adjusted EBITDA, however, does not represent and should not be considered as an alternative to net income, cash flow from operations, or any other measure of financial performance calculated and presented in accordance with GAAP. Our Adjusted EBITDA may not be comparable to similar measures reported by other companies because other companies may not calculate Adjusted EBITDA in the same manner as we do. Although we use Adjusted EBITDA as a measure to assess the operating performance of our business, Adjusted EBITDA has significant limitations as an analytical tool because it excludes certain material costs. For example, it does not include interest expense, which has been a necessary element of our costs. Because we use capital assets, depreciation expense is a necessary element of our costs and our ability to generate revenue. In addition, the omission of the amortization expense associated with our intangible assets further limits the usefulness of this measure. Adjusted EBITDA also does not include the payment of certain taxes, which is also a necessary element of our operations. Furthermore, Adjusted EBITDA does not account for LIFO expense, and therefore, to the extent that recently purchased inventory accounts for a relatively large portion of our sales, Adjusted EBITDA may overstate our operating performance. Because Adjusted EBITDA does not account for certain expenses, its utility as a measure of our operating performance has material limitation. Because of these limitations, management does not view Adjusted EBITDA in isolation or as a primary performance measure and also uses other measures, such as net income and sales, to measure operating performance.

The following table reconciles Adjusted EBITDA with our net income (loss), as derived from our financial statements (in millions):

## RISK FACTORS

*Before investing in the securities offered hereby, you should carefully consider the following risk factors as well as the other information contained in this prospectus. The risks described below are not the only risks we face. Additional risks not presently known to us or which we currently consider immaterial also may adversely affect us and your investment. If any of these risks or uncertainties actually occurs, our business, financial condition and operating results could be materially adversely affected.*

### Risks Related to the Exchange Notes

#### ***Our Substantial Level of Indebtedness Could Adversely Affect Our Business, Financial Condition or Results of Operations and Prevent Us from Fulfilling Our Obligations Under the Exchange Notes.***

We have substantial indebtedness. As of December 31, 2010, we had \$1.36 billion of total indebtedness and our revolving credit facilities would permit additional borrowings of up to \$475 million.

Our substantial indebtedness could have important consequences to you, including the following:

- it may be more difficult for us to satisfy our obligations with respect to the exchange notes;
- our ability to obtain additional financing for working capital, debt service requirements, general corporate purposes or other purposes may be impaired;
- we must use a substantial portion of our cash flow to pay interest and principal on the exchange notes and our other indebtedness, which will reduce the funds available to us for other purposes;
- we may be subject to restrictive financial and operating covenants in the agreements governing our and our subsidiaries' long term indebtedness;
- we may be exposed to potential events of default (if not cured or waived) under financial and operating covenants contained in our or our subsidiaries' debt instruments that could have a material adverse effect on our business, results of operations and financial condition;
- we may be vulnerable to economic downturns and adverse industry conditions, including a downturn in pricing of the products we distribute;
- our ability to capitalize on business opportunities and to react to pressures and changing market conditions in our industry and in our customers' industries as compared to our competitors may be compromised due to our high level of indebtedness;
- our ability to compete with other companies who are not as highly leveraged may be limited; and
- our ability to refinance our indebtedness, including the exchange notes, may be limited.

#### ***We May Be Unable to Service Our Indebtedness, Including the Exchange Notes.***

Our ability to make scheduled debt payments, to refinance our obligations with respect to our indebtedness and to fund capital and non-capital expenditures necessary to maintain the condition of our operating assets, properties and systems software, as well as to provide capacity for the growth of our business, depends on our financial and operating performance, which, in turn, is subject to prevailing economic conditions and financial, business, competitive, legal and other factors. Our business may not generate sufficient cash flow from operations, and future borrowings may not be available to us under our credit facilities in an amount sufficient to enable us to pay our indebtedness or to fund our other liquidity needs. We may seek to sell assets to fund our liquidity needs but may not be able to do so.

In addition, prior to the repayment of the exchange notes, we will be required to refinance our revolving credit facility. We can give no assurance that we will be able to refinance any of our debt, including our revolving credit facility, on commercially reasonable terms or at all. If we were unable to make payments or refinance our debt or obtain new financing under these circumstances, we would have to consider other options, such as sales of assets, sales of equity and/or negotiations with our lenders to restructure the applicable debt. Our revolving credit facility

and the indenture governing the exchange notes may restrict, or market or business conditions may limit, our ability to avail ourselves of some or all of these options.

The borrowings under certain of our credit facilities bear interest at variable rates and other debt we incur could likewise be variable-rate debt. If market interest rates increase, variable-rate debt will create higher debt service requirements, which could adversely affect our cash flow. While we may enter into agreements limiting our exposure to higher interest rates, any such agreements may not offer complete protection from this risk.

***Despite Our Current Indebtedness Level, We and Our Subsidiaries May Still Be Able to Incur Substantially More Debt, Which Could Exacerbate the Risks Associated with Our Substantial Indebtedness.***

As of December 31, 2010, we had \$311 million of secured indebtedness outstanding under our and our subsidiaries' revolving credit facilities and up to \$475 million would have been available for borrowing under our and our subsidiaries' revolving credit facilities. The terms of the indenture governing the exchange notes and our revolving credit facility permit us to incur substantial additional indebtedness in the future, including secured indebtedness. If we incur any additional indebtedness that ranks equal to the exchange notes, the holders of that debt will be entitled to share ratably with the holders of the exchange notes in any proceeds distributed in connection with any insolvency, liquidation, reorganization, dissolution or other winding up of us. In particular, the terms of the indenture allow us to incur a substantial amount of incremental debt which ranks equal to the exchange notes and is secured by the same collateral as the exchange notes, including various amounts of debt permitted under the definition of "Permitted Liens" in the Description of Exchange Notes. See "Description of Exchange Notes — Certain Covenants — Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock." If new debt is added to our or our subsidiaries' current debt levels, the related risks that we now face could intensify.

***Our Debt Instruments, Including the Indenture Governing the Exchange Notes and Our Revolving Credit Facility, Impose Significant Operating and Financial Restrictions on us. If We Default Under Any of These Debt Instruments, We May Not Be Able to Make Payments on the Exchange Notes.***

The indenture and our revolving credit facility impose significant operating and financial restrictions on us. These restrictions limit our ability to, among other things:

- incur additional indebtedness or guarantee obligations;
- issue certain preferred stock or disqualified capital stock;
- pay dividends or make certain other restricted payments;
- make certain payments on debt that is subordinated or secured on a basis junior to the exchange notes;
- make investments or acquisitions;
- create liens or other encumbrances;
- transfer or sell certain assets or merge or consolidate with another entity;
- create restrictions on the payment of dividends or other amounts to us from restricted subsidiaries;
- engage in transactions with affiliates; and
- engage in certain business activities.

Any of these restrictions could limit our ability to plan for or react to market conditions and could otherwise restrict corporate activities. See "Description of Certain Indebtedness" and "Description of Exchange Notes".

Our ability to comply with these covenants may be affected by events beyond our control, and an adverse development affecting our business could require us to seek waivers or amendments of covenants, alternative or additional sources of financing or reductions in expenditures. We can give no assurance that such waivers, amendments or alternative or additional financings could be obtained or, if obtained, would be on terms acceptable to us.

A breach of any of the covenants or restrictions contained in any of our existing or future financing agreements could result in a default or an event of default under those agreements. Such a default or event of default could allow the lenders under our financing agreements, if the agreements so provide, to discontinue lending, to accelerate the related debt as well as any other debt to which a cross-acceleration or cross-default provision applies, and to declare all borrowings outstanding thereunder to be due and payable. In addition, the lenders could terminate any commitments they had made to supply us with further funds. If the lenders require immediate repayments, we may not be able to repay them and also repay the exchange notes in full.

***Your Right to Receive Payments on the Exchange Notes is Effectively Subordinated to the Rights of Lenders Under Our Revolving Credit Facility to the Extent of the Value of the Collateral Securing the Revolving Credit Facility on a Senior Lien Basis.***

The exchange notes and the guarantees by our subsidiaries are secured by (1) a senior lien on substantially all of our and such guarantors' tangible and intangible assets, other than the collateral securing our revolving credit facility and (2) a junior lien on our and such guarantors' accounts receivable, inventory and related assets which secure our revolving credit facility on a senior lien basis, in each case subject to certain excluded assets and permitted liens. The lenders under our revolving credit facility and certain other permitted secured debt will have claims that are prior to the claims of holders of the exchange notes to the extent of the value of the assets securing that other indebtedness on a senior basis. In the event of any distribution or payment of our assets in any foreclosure, dissolution, winding-up, liquidation, reorganization or other bankruptcy proceeding, the lenders under our revolving credit facility will have a prior claim to those of our assets that constitute their collateral. After claims of the lenders under the revolving credit facility have been satisfied in full, to the extent of the value of the collateral securing the revolving credit facility on a senior lien basis, there may be no assets remaining under the revolving credit facility collateral that may be applied to satisfy the claims of holders of the exchange notes. As a result, holders of exchange notes may receive less, ratably, than the lenders under our revolving credit facility.

As of December 31, 2010, the notes and the related guarantees were effectively subordinated to \$286 million of secured debt under our revolving credit facility to the extent of the collateral securing the revolving credit facility on a senior basis, and up to \$360 million was available for borrowing as additional secured debt under our revolving credit facility. In addition, the indenture governing the notes allows us to increase the size of the revolving credit facility, or refinance or replace the revolving credit facility, and the notes and guarantees would be effectively subordinated to amounts borrowed under such increased, refinanced or replacement revolving credit facility. We expect that this subordination will continue until the notes are retired, repaid or otherwise redeemed.

***Your Right to Receive Payment on the Exchange Notes Will Be Structurally Subordinated to the Liabilities of Our Non-Guarantor Subsidiaries.***

Not all of our subsidiaries will be required to guarantee the exchange notes. For example, our foreign subsidiaries, certain immaterial subsidiaries and our subsidiaries (other than wholly-owned domestic subsidiaries) that do not guarantee the revolving credit facility or any other indebtedness of the Issuer or the Subsidiary Guarantors will not guarantee the exchange notes. Creditors of our non-guarantor subsidiaries (including trade creditors) will generally be entitled to payment from the assets of those subsidiaries before those assets can be distributed to us. As a result, the exchange notes will be structurally subordinated to the prior payment of all of the debts (including trade payables) of our non-guarantor subsidiaries. In the event of a bankruptcy, liquidation or reorganization of any of our non-guarantor subsidiaries, holders of their indebtedness and their trade creditors will generally be entitled to payment of their claims from the assets of those subsidiaries before any assets are made available for distribution to us.

As of December 31, 2010, the notes and the related guarantees were effectively subordinated to \$286 million of secured debt under our revolving credit facility to the extent of the collateral securing the revolving credit facility on a senior basis, and up to \$360 million was available for borrowing as additional secured debt under our revolving credit facility. In addition, the indenture governing the notes allows us to increase the size of the revolving credit facility, or refinance or replace the revolving credit facility, and the notes and guarantees would be effectively subordinated to amounts borrowed under such increased, refinanced or replacement revolving credit facility. We expect that this subordination will continue until the notes are retired, repaid or otherwise redeemed.

***We May Not Have the Ability to Raise the Funds Necessary to Finance the Change of Control Offer or the Asset Sale Offer Required by the Indenture Governing the Exchange Notes.***

Upon the occurrence of a “change of control”, as defined in the indenture governing the exchange notes, we must offer to buy back the exchange notes at a price equal to 101% of the principal amount, together with any accrued and unpaid interest, if any, to the date of the repurchase. Similarly, we must offer to buy back the exchange notes (or repay other indebtedness in certain circumstances) at a price equal to 100% of the principal amount of the exchange notes (or other debt) purchased, together with accrued and unpaid interest, if any, to the date of repurchase, with the proceeds of certain asset sales (as defined in the indenture). Our failure to purchase, or give notice of purchase of, the exchange notes would be a default under the indenture governing the exchange notes, which would also trigger a cross default under our revolving credit facility. See “Description of Exchange Notes — Repurchase at the Option of Holders — Change of Control”.

If a change of control or asset sale occurs that would require us to repurchase the exchange notes, it is possible that we may not have sufficient liquidity or assets to make the required repurchase of exchange notes or to satisfy all obligations under our revolving credit facility and the indenture governing the exchange notes. A change of control would also trigger a default under our revolving credit facility. In order to satisfy our obligations, we could seek to refinance the indebtedness under our revolving credit facility and the indenture governing the exchange notes or obtain a waiver from the lenders or you as a holder of the exchange notes. We can give no assurance that we would be able to obtain a waiver or refinance our indebtedness on terms acceptable to us, if at all.

***Certain Restrictive Covenants in the Indenture Governing the Exchange Notes Will Be Suspended if Such Notes Achieve Investment Grade Ratings.***

Most of the restrictive covenants in the indenture governing the exchange notes will not apply for so long as the exchange notes achieve investment grade ratings from Moody’s Investors Service, Inc. and Standard & Poor’s Rating Services, and no default or event of default has occurred. If these restrictive covenants cease to apply, we may take actions, such as incurring additional debt, undergoing a change of control transaction or making certain dividends or distributions that would otherwise be prohibited under the indenture. Ratings are given by these rating agencies based upon analyses that include many subjective factors. We can give no assurance that the exchange notes will achieve investment grade ratings, nor that investment grade ratings, if granted, will reflect all of the factors that would be important to holders of the exchange notes.

***Certain Affiliates of The Goldman Sachs Group, Inc. Own a Significant Majority of the Equity of Our Indirect Parent. Conflicts of Interest May Arise Because Affiliates of the Principal Stockholder of Our Indirect Parent Have Continuing Agreements and Business Relationships with Us.***

Certain affiliates of The Goldman Sachs Group, Inc. (the “Goldman Sachs Funds”), an affiliate of Goldman, Sachs & Co., are the majority owners of PVF Holdings LLC, our indirect parent company. The Goldman Sachs Funds will have the power, subject to certain exceptions, to direct our affairs and policies. A majority of the voting power of the Board of Directors of PVF Holdings LLC is held by directors who have been designated by the Goldman Sachs Funds. Through such representation on the Board of Directors of PVF Holdings LLC, the Goldman Sachs Funds will be able to substantially influence the appointment of management, the entering into of mergers and sales of substantially all assets and other extraordinary transactions. Furthermore, an affiliate of the Goldman Sachs Funds is a joint lead arranger for our revolving credit facility.

The interests of the Goldman Sachs Funds and their respective affiliates could conflict with your interests. For example, if we encounter financial difficulties or are unable to pay our debts as they mature, the interests of the Goldman Sachs Funds as an equity holder might conflict with your interests as an exchange note holder. The Goldman Sachs Funds may also have an interest in pursuing acquisitions, divestitures, financings or other transactions that, in their judgment, could enhance their equity investments, although such transactions might involve risks to you as a holder of exchange notes. The Goldman Sachs Funds are in the business of making investments in companies and may directly, or through affiliates, from time to time, acquire and hold interests in businesses that compete directly or indirectly with us and they may either directly, or through affiliates, also maintain business relationships with companies that may directly compete with us. In general, the Goldman Sachs

Funds or their affiliates could pursue business interests or exercise their power as majority owners of PVF Holdings LLC in ways that are detrimental to you as a holder of exchange notes but beneficial to themselves or to other companies in which they invest or with whom they have a material relationship. Conflicts of interest could also arise with respect to business opportunities that could be advantageous to the Goldman Sachs Funds and they may pursue acquisition opportunities that may be complementary to our business, and as a result, those acquisition opportunities may not be available to us. Under the terms of our certificate of incorporation, the Goldman Sachs Funds have no obligation to offer us corporate opportunities. See “Principal Stockholders”, “Certain Relationships and Related Party Transactions”, and “Description of Exchange Notes”.

As a result of these relationships, the interests of the Goldman Sachs Funds may not coincide with your interests as holders of exchange notes. So long as the Goldman Sachs Funds continue to own a significant majority of our equity, the Goldman Sachs Funds will continue to be able to strongly influence or effectively control our decisions, including potential mergers or acquisitions, asset sales and other significant corporate transactions.

***You May Have Difficulty Selling the Outstanding Notes Which You do Not Exchange.***

If you do not exchange your outstanding notes for the exchange notes offered in this exchange offer, you will continue to be subject to the restrictions on the transfer and exchange of your outstanding notes. Those transfer restrictions are described in the indenture relating to the exchange notes and in the legend contained on the outstanding notes, and arose because we originally issued the outstanding notes under exemptions from, and in transactions not subject to, the registration requirements of the Securities Act.

In general, you may offer or sell your outstanding notes only if they are registered under the Securities Act and applicable state securities laws, or if they are offered and sold under an exemption from, or in a transaction not subject to, those requirements. After completion of this exchange offer, we do not intend to register the outstanding notes under the Securities Act.

If a large number of outstanding notes are exchanged for notes issued in the exchange offer, it may be more difficult for you to sell your unexchanged outstanding notes. In addition, upon completion of the exchange offer, holders of any remaining outstanding notes will not be entitled to any further registration rights under the exchange and registration rights agreements, except under limited circumstances.

***There is no Prior Public Market for the Exchange Notes. If an Actual Trading Market does Not Exist or is Not Maintained for the Exchange Notes, You May Not Be Able To Resell Them Quickly, for the Price That You Paid or at All.***

We cannot assure you that an established trading market for the exchange notes will exist or be maintained. Although the exchange notes may be resold or otherwise transferred by the holders without compliance with the registration requirements under the Securities Act, they will constitute a new issue of securities with no established trading market.

We do not intend to apply for the notes or the exchange notes to be listed on any securities exchange or to arrange for quotation of the notes on any automated dealer quotation systems. The initial purchasers of the outstanding notes have advised us that they intend to make a market in the exchange notes, but they are not obligated to do so. Each initial purchaser may discontinue any market making in the exchange notes at any time, in its sole discretion. As a result, we cannot assure you as to the liquidity of any trading market for the notes or the exchange notes. Because Goldman, Sachs & Co. may be construed to be our affiliate, Goldman, Sachs & Co. may be required to deliver a current “market making” prospectus and otherwise comply with the registration requirements of the Securities Act in any secondary market sale of the exchange notes. Accordingly, the ability of Goldman, Sachs & Co. to make a market in the exchange notes may, in part, depend on our ability to maintain a current market making prospectus.

We also cannot assure you that you will be able to sell your exchange notes at a particular time or at all, or that the prices that you receive when you sell them will be favorable. If no active trading market exists or is maintained,

you may not be able to resell your exchange notes at their fair market value, or at all. The liquidity of, and trading market for, the exchange notes may also be adversely affected by, among other things:

- prevailing interest rates;
- our operating performance and financial condition;
- the interest of securities dealers in making a market; and
- the market for similar securities.

Historically, the market for non-investment grade debt has been subject to disruptions that have caused volatility in prices of securities similar to the exchange notes. It is possible that the market for the exchange notes will be subject to disruptions. Any disruptions may have a negative effect on holders of the exchange notes, regardless of our prospects and financial performance.

***Assuming the Issuance of Outstanding Notes on February 11, 2010 Constituted a “Qualified Reopening” of our 9.50% Senior Secured Notes due December 15, 2016 for United States Federal Income Tax Purposes, the Exchange Notes Issued in Exchange for Those Outstanding Notes Will Be Treated As Issued with the Same Amount of Original Issue Discount as the Exchange Notes Issued in Exchange for the Outstanding Notes Issued on December 21, 2009 for United States Federal Income Tax Purposes.***

We issued \$1,000,000,000 and \$50,000,000 aggregate principal amount of our 9.50% senior secured notes due December 15, 2016 on December 21, 2009 and February 11, 2010, respectively.

The stated principal amount of the notes issued on December 21, 2009 (the “outstanding December notes”) exceeded the issue price of the outstanding December notes by an amount in excess of the statutory de minimis amount. Accordingly, the outstanding December notes were issued with original issue discount for United States federal income tax purposes.

We have taken the position that the issuance of outstanding notes on February 11, 2010 (the “outstanding February notes”) constituted a “qualified reopening” of our 9.50% senior secured notes due December 15, 2016 for United States federal income tax purposes. Accordingly, we have treated all of the outstanding February notes as having the same issue price as the outstanding December notes and therefore as having been issued with the same amount of original issue discount as the outstanding December notes for United States federal income tax purposes.

However, the application of the qualified reopening rules is not entirely clear, and it is possible that the outstanding February notes could be treated as a separate issue from the outstanding December notes, with an issue price determined by the first price at which a substantial amount of the outstanding February notes was sold (other than to bond houses, brokers or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers). In that event, the outstanding February notes would have been issued with original issue discount in an amount different from the amount of original issue discount on the outstanding December notes, the outstanding February notes would not have been fungible with the outstanding December notes for United States federal income tax purposes and the exchange notes received in exchange for the outstanding February notes would not be fungible with the exchange notes received in exchange for the outstanding December notes for United States federal income tax purposes. See “Certain Material United States Federal Tax Considerations — Qualified Reopening”.

For United States federal income tax purposes, U.S. Holders will be required to include the original issue discount in gross income (as ordinary income) as it accrues on a constant yield basis in advance of the receipt of the cash payment to which such income is attributable (regardless of whether such U.S. Holders use the cash or accrual method of tax accounting). See “Certain Material United States Federal Tax Considerations — Stated Interest and Original Issue Discount”. Additionally, in the event we enter into bankruptcy, you may not have a claim for all or a portion of any unamortized amount of the original issue discount on the exchange notes.

## **Risks Related to the Collateral and the Guarantees**

### ***The Value of the Collateral Securing the Exchange Notes May Not Be Sufficient to Satisfy Our Obligations Under the Exchange Notes.***

No appraisal of the fair market value of the collateral securing the exchange notes has been made in connection with this offering and the value of the collateral will depend on market and economic conditions, the availability of buyers and other factors. We can give no assurance to you of the value of the collateral or that the net proceeds received upon a sale of the collateral would be sufficient to repay all, or would not be substantially less than, amounts due on the exchange notes following a foreclosure upon the collateral (and any payments in respect of prior liens) or a liquidation of our assets or the assets of the guarantors that may grant these security interests.

In the event of a liquidation or foreclosure, the value of the collateral securing the exchange notes is subject to fluctuations based on factors that include general economic conditions, the actual fair market value of the collateral at such time, the timing and the manner of the sale and the availability of buyers and similar factors. The value of the assets pledged as collateral for the exchange notes also could be impaired in the future as a result of our failure to implement our business strategy, competition or other future trends. In addition, courts could limit recoverability with respect to the collateral if they apply laws of a jurisdiction other than the State of New York to a proceeding and deem a portion of the interest claim usurious in violation of applicable public policy. By its nature, some or all of the collateral may be illiquid and may have no readily ascertainable market value. Likewise, we can give no assurance to you that the collateral will be saleable or, if saleable, that there will not be substantial delays in its liquidation. A portion of the collateral includes assets that may only be usable, and thus retain value, as part of our existing operating business. Accordingly, any such sale of the collateral separate from the sale of certain of our operating businesses may not be feasible or of significant value. To the extent that liens, rights and easements granted to third parties encumber assets located on property owned by us or the subsidiary guarantors or constitute senior, *pari passu* or subordinate liens on the collateral, those third parties have or may exercise rights and remedies with respect to the property subject to such encumbrances (including rights to require marshalling of assets) that could adversely affect the value of the collateral located at a particular site and the ability of the collateral trustee to realize or foreclose on the collateral at that site.

In addition, the asset sale covenant and the definition of asset sale in the indenture governing the exchange notes have a number of significant exceptions pursuant to which we will be able to sell Notes Priority Collateral (as such term is defined in the indenture governing the exchange notes) without being required to reinvest the proceeds of such sale into assets that will comprise Notes Priority Collateral or to make an offer to the holders of the exchange notes to repurchase the exchange notes.

### ***The Intercreditor Agreement Limits the Ability of Holders of Exchange Notes to Exercise Rights and Remedies with Respect to the ABL Priority Collateral.***

The rights of the holders of the exchange notes with respect to the ABL Priority Collateral (as such term is defined in the indenture governing the exchange notes) securing the exchange notes on a junior basis are substantially limited by the terms of the lien ranking and other provisions in the intercreditor agreement. Under the terms of the intercreditor agreement, at any time that any obligations that have the benefit of senior liens on the ABL Priority Collateral are outstanding, almost any action that may be taken in respect of the ABL Priority Collateral, including the rights to exercise remedies with respect to, release liens on, challenge the liens on or object to actions taken by the administrative agent under our revolving credit facility with respect to, the ABL Priority Collateral, will be at the direction of the holders of the obligations secured by the senior liens on the ABL Priority Collateral, and the collateral trustee, on behalf of noteholders with junior liens on the ABL Priority Collateral, will not have the ability to control or direct such actions, even if the rights of noteholders are adversely affected. The lenders under the revolving credit facility may cause the collateral agent for such facility to dispose of, release or foreclose on or take other actions with respect to, the ABL Priority Collateral with which holders of the exchange notes may disagree or that may be contrary to the interests of holders of the exchange notes.

In addition, the intercreditor agreement contains certain provisions benefiting holders of indebtedness under our revolving credit facility that prevent the collateral trustee from objecting to a number of important matters

regarding the ABL Priority Collateral following the filing of a bankruptcy. After such filing, the value of the ABL Priority Collateral could materially deteriorate and noteholders would be unable to raise an objection.

See “Description of Exchange Notes — The Intercreditor Agreement”.

***The Rights of the Holders of Exchange Notes to the ABL Priority Collateral Are Subject to Any Exceptions, Defects, Encumbrances, Liens and Other Imperfections That Are Accepted by the Lenders Under Our Revolving Credit Facility and Rights of the Holders of the Exchange Notes to the Notes Priority Collateral Are Similarly Subject to Any Exceptions, Defects, Encumbrances, Liens and Other Imperfections Permitted by the Indenture.***

The ABL Priority Collateral is subject to any and all exceptions, defects, encumbrances, liens and other imperfections as may be accepted by the lenders under our revolving credit facility and other creditors that have the benefit of first priority liens on the collateral from time to time, whether on or after the date the exchange notes and guarantees are issued. The indenture for the exchange notes and the related security documents also permit the collateral for the exchange notes to be subject to specified exceptions, defects, encumbrances, liens and other imperfections, generally referred to as “Permitted Liens”.

The existence of any such exceptions, defects, encumbrances, liens and other imperfections could adversely affect the value of the collateral securing the exchange notes as well as the ability of the collateral agent to realize or foreclose on such collateral. The initial purchasers of the outstanding notes did not analyze the effect of such exceptions, defects, encumbrances, liens and imperfections, and the existence thereof could adversely affect the value of the collateral securing the exchange notes as well as the ability of the collateral agent to realize or foreclose on such collateral.

***The Collateral Securing the Exchange Notes May Be Diluted Under Certain Circumstances.***

The loan agreement governing our revolving credit facility and the indenture governing the exchange notes will permit us to issue additional senior secured indebtedness, including additional notes, subject to our compliance with the restrictive covenants in the indenture governing the notes and the loan agreement governing our revolving credit facility at the time we issue such additional senior secured indebtedness.

Any additional notes issued under the indenture governing the exchange notes would be guaranteed by the same guarantors and would have the same security interests, with the same priority, as currently secure the notes. As a result, the collateral securing the exchange notes (and the outstanding notes) would be shared by any additional notes the Issuer may issue under the indenture, and an issuance of such additional notes would dilute the value of the collateral compared to the aggregate principal amount of notes issued.

In addition, the indenture and our other security documents permit us and certain of our subsidiaries to incur additional priority lien debt and subordinated lien debt up to respective maximum priority lien and subordinated lien debt threshold amounts by issuing additional debt securities under one or more new indentures or by borrowing additional amounts under new credit facilities. Any additional priority lien debt or subordinated lien debt secured by the collateral would dilute the value of the rights of the holders of exchange notes to the collateral.

***The Rights of Holders of Exchange Notes in the Collateral May Be Adversely Affected by the Failure to Perfect Security Interests in the Collateral (or Record Mortgages) and Other Issues Generally Associated with the Realization of Security Interests in the Collateral.***

Applicable law requires that a security interest in certain tangible and intangible assets can only be properly perfected and its priority retained through certain actions undertaken by the secured party. The senior liens in all Notes Priority Collateral from time to time owned by the Issuer or the guarantors and/or the junior liens in all ABL Priority Collateral from time to time owned by the Issuer or the guarantors may not be perfected with respect to the exchange notes and the exchange note guarantees if the grantor of such liens (or, if applicable, the collateral trustee) has not taken the actions necessary to perfect any of those liens upon or prior to the issuance of the exchange notes. For example, the collateral trustee for the exchange notes will not have the benefit of control agreements to perfect its security interest in deposit accounts or securities accounts of the Issuer or the Subsidiary Guarantors, except that

we have agreed to use our commercially reasonable efforts to maintain a specified deposit account at PNC Bank (or any replacement of such account) subject to an account control agreement. The inability or failure of any party to take all actions necessary to create properly perfected security interests in the collateral may result in the loss of the priority of the security interest for the benefit of the noteholders to which they would have been entitled as a result of such non-perfection.

In addition, applicable law requires that certain property and rights acquired after the grant of a general security interest can only be perfected at the time such property and rights are acquired and identified. The Issuer and the guarantors will have limited obligations to perfect the security interest of the holders of exchange notes in specified collateral. Moreover, if owned real property is acquired by us or our guarantor subsidiaries in the future, a lien to secure the exchange notes with such real property would only be created and perfected by a mortgage, deed of trust or similar instrument entered into after such acquisition. We can give no assurance to you that the collateral trustee for the exchange notes or the administrative agent under our revolving credit facility will monitor, or that the Issuer or the guarantors will inform such collateral trustee or administrative agent of, the future acquisition of property and rights that constitute collateral, and that the necessary action will be taken to properly perfect the security interest in such after-acquired collateral. The collateral trustee for the exchange notes has no obligation to monitor the acquisition of additional property or rights that constitute collateral or the perfection of any security interest and will have no responsibility for any resulting loss of the security interest in the collateral or the priority of the security interest in favor of the exchange notes and the exchange note guarantees against third parties.

The security interest of the collateral trustee will be subject to practical challenges generally associated with the realization of security interests in the collateral. For example, the collateral trustee may need to obtain the consent of a third party to obtain or enforce a security interest in an asset. We can give no assurance to you that the collateral trustee will be able to obtain any such consent or that the consents of any third parties will be given when required to facilitate a foreclosure on such assets. As a result, the collateral trustee may not have the ability to foreclose upon those assets and the value of the collateral may significantly decrease.

***The Collateral for the Exchange Notes Will Not Include Certain “Excluded Assets”.***

The collateral for the exchange notes will not include “Excluded Assets”. These Excluded Assets include, among other things, all of the shares or other securities issued by us or our subsidiaries. Accordingly, the collateral trustee for the exchange notes would not be able to foreclose on the shares or other securities issued by us or our subsidiaries as a remedy after an event of default. One parcel of real estate that we currently own, but is a non-core asset, with a net book value of approximately \$1 million as of December 31, 2010, will not be collateral for the exchange notes. The guarantee of the exchange notes provided by McJunkin Red Man Holding Corporation will be unsecured. See “Description of Exchange Notes — Certain Definitions — Excluded Assets”.

***Because Each Guarantor’s Liability Under Its Guarantee May Be Reduced to Zero, Voided or Released Under Certain Circumstances, You May Not Receive any Payments from Some or All of the Guarantors.***

The exchange notes have the benefit of the guarantees of the guarantors. However, the guarantees by the guarantors are limited to the maximum amount that the guarantors are permitted to guarantee under applicable law. As a result, a guarantor’s liability under its guarantee could be reduced to zero, depending upon the amount of other obligations of such guarantor. Furthermore, under the circumstances discussed more fully below, a court under federal or state fraudulent conveyance and transfer statutes could void the obligations under a guarantee or further subordinate it to all other obligations of the guarantor. In addition, the exchange notes will lose the benefit of a particular guarantee if it is released under certain circumstances described under “Description of Exchange Notes”.

***Federal and State Laws Allow Courts, Under Specific Circumstances, to Void Guarantees and Grants of Security and Require Holders of the Exchange Notes to Return Payments Received from Guarantors.***

The issuer’s creditors and the creditors of the guarantors could challenge the exchange note guarantees as fraudulent transfers or on other grounds. Under U.S. federal bankruptcy law and comparable provisions of state fraudulent transfer laws, the delivery of any exchange note guarantee and the grant of security by the applicable guarantor could be found to be a fraudulent transfer and declared void, or subordinated to all indebtedness and other

liabilities of such guarantor, if a court determined that the applicable guarantor, at the time it incurred the indebtedness evidenced by its exchange note guarantee (1) delivered such exchange note guarantee with the intent to hinder, delay or defraud its existing or future creditors or (2) received less than reasonably equivalent value or did not receive fair consideration for the delivery of such exchange note guarantee and any one of the following three conditions apply:

- the applicable guarantor was insolvent or was rendered insolvent as a result of such transaction;
- the applicable guarantor was engaged in a business or transaction, or was about to engage in a business or transaction, for which its remaining assets constituted unreasonably small capital to carry on its business; or
- the applicable guarantor intended to incur, or believed that it would incur, debt beyond its ability to pay such debt as it matured.

A court likely would find that a guarantor did not receive equivalent value or fair consideration for its exchange note guarantee unless it benefited directly or indirectly from the issuance of the exchange notes. If a court declares the issuance of the exchange notes, any exchange note guarantee or the related security agreements to be void, or if any exchange note guarantee must be limited or voided in accordance with its terms, any claim holders may make against us or the guarantors for amounts payable on the exchange notes or, in the case of the security agreements, a claim with respect to the related collateral, would, with respect to amounts claimed against the applicable guarantor, be unenforceable to the extent of any such limitation or avoidance. Sufficient funds to repay the exchange notes may not be available from other sources, including the remaining guarantors, if any. Moreover, the court could order holders to return any payments previously made by the applicable guarantor to a fund for the benefit of our creditors if such payment is made to an insider within a one year period prior to the a bankruptcy filing or within 90 days for any outside party and such payment would give the creditors more than such creditors would have received in a distribution under Title 11 of the U.S. Bankruptcy Code. In addition, the loss of a guarantee (other than in accordance with the terms of the indenture) will constitute a default under the indenture, which default could cause all notes to become immediately due and payable. If the liens were voided, holders of the exchange notes would not have the benefits of being a secured creditor against the applicable guarantor.

The measures of insolvency for purposes of these fraudulent transfer laws will vary depending upon the law applied in any proceeding to determine whether a fraudulent transfer has occurred. Generally, however, a guarantor would be considered insolvent if:

- the sum of its debts, including contingent liabilities, was greater than the fair saleable value of all of its assets;
- if the present fair saleable value of its assets was less than the amount that would be required to pay its probable liability on its existing debts, including contingent liabilities, as they become absolute and mature; or
- it could not pay its debts as they become due.

On the basis of historical financial information, recent operating history and other factors, we believe that, after giving effect to the offering of the outstanding notes and the application of the proceeds therefrom, we were not insolvent, did not have unreasonably small capital for the business in which we are engaged and did not incur debts beyond our ability to pay such debts as they mature. However, we can give no assurance as to what standard a court would apply in making these determinations or, regardless of the standard, that a court would not limit or void any of the note guarantees.

In addition, although each guarantee will contain a provision intended to limit that guarantor's liability to the maximum amount that it could incur without causing the incurrence of obligations under its guarantee to be a fraudulent transfer, this provision may not be effective to protect those guarantees from being voided under fraudulent transfer law, or may reduce that guarantor's obligation to an amount that effectively makes its guarantee worthless.

In the event that any of the guarantees are voided, the exchange notes will become structurally subordinated to any debt, leases or any other liabilities at that guarantor.

Finally, as a court of equity, the bankruptcy court may subordinate the claims in respect of the exchange notes to other claims against us under the principle of equitable subordination, if the court determines that: (i) the holder of the exchange notes is engaged in some type of inequitable conduct; (ii) such inequitable conduct resulted in injury to our other creditors or conferred an unfair advantage upon the holder of the exchange notes; and (iii) equitable subordination is not inconsistent with the provisions of the U.S. Bankruptcy Code.

***The Collateral Is Subject to Casualty Risks.***

The indenture governing the exchange notes, the loan agreement governing our revolving credit facility and the security documents require the Issuer and the guarantors to maintain adequate insurance or otherwise insure against risks to the extent customary with companies in the same or similar business operating in the same or similar locations. There are, however, certain losses, including losses resulting from terrorist acts, which may be either uninsurable or not economically insurable, in whole or in part. As a result, we can give no assurance that the insurance proceeds will compensate us fully for our losses. If there is a total or partial loss of any of the collateral securing the exchange notes, we can give no assurance that any insurance proceeds received by us will be sufficient to satisfy all the secured obligations, including the exchange notes.

In the event of a total or partial loss to any of the mortgaged facilities, certain items of equipment and inventory may not be easily replaced. Accordingly, even though there may be insurance coverage, the extended period needed to manufacture replacement units or inventory could cause significant delays.

***Any Future Note Guarantees or Additional Liens on Collateral Could Also Be Avoided by a Trustee in Bankruptcy.***

The indenture governing the exchange notes provides that certain of our future subsidiaries will guarantee the exchange notes and secure their exchange note guarantees with liens on their assets. The indenture governing the exchange note also requires the Issuer and the Subsidiary Guarantors to grant liens on certain assets that they acquire. Any future exchange note guarantee or additional lien in favor of the collateral trustee for the benefit of the holders of the exchange notes might be avoidable by the grantor (as debtor-in-possession) or by its trustee in bankruptcy or other third parties if certain events or circumstances exist or occur. For instance, if the entity granting the future exchange note guarantee or additional lien were insolvent at the time of the grant and if such grant was made within 90 days before that entity commenced a bankruptcy proceeding (or one year before commencement of a bankruptcy proceeding if the creditor that benefited from the exchange note guarantee or lien is an “insider” under the U.S. Bankruptcy Code), and the granting of the future exchange note guarantee or additional lien enabled the holders to receive more than they would if the grantor were liquidated under chapter 7 of the U.S. Bankruptcy Code, then such note guarantee or lien could be avoided as a preferential transfer.

***The Value of the Collateral Securing the Exchange Notes May Not Be Sufficient to Secure Post-Petition Interest. Should the Issuer’s Obligations Under the Exchange Notes Equal or Exceed the Fair Market Value of the Collateral Securing the Exchange Notes, Holders of Exchange Notes may be Deemed to Have an Unsecured Claim.***

In the event of a bankruptcy, liquidation, dissolution, reorganization or similar proceeding against the Issuer or the guarantors, holders of the exchange notes will be entitled to post-petition interest under the U.S. Bankruptcy Code only if the value of their security interest in the collateral is greater than their pre-bankruptcy claim. Exchange note holders may be deemed to have an unsecured claim if the Issuer’s obligations under the exchange notes equal or exceed the fair market value of the collateral securing the exchange notes. Exchange note holders that have a security interest in the collateral with a value equal to or less than their pre-bankruptcy claim will not be entitled to post-petition interest under the U.S. Bankruptcy Code. The bankruptcy trustee, the debtor-in-possession or competing creditors could possibly assert that the fair market value of the collateral with respect to the exchange notes on the date of the bankruptcy filing was less than the then-current principal amount of the exchange notes. Upon a finding by a bankruptcy court that the exchange notes are under-collateralized, the claims in the bankruptcy proceeding with respect to the exchange notes would be bifurcated between a secured claim and an unsecured claim, and the unsecured claim would not be entitled to the benefits of security in the collateral. Other consequences of a finding of under-collateralization would be, among other things, a lack of entitlement on the part of exchange

note holders to receive post-petition interest and a lack of entitlement on the part of the unsecured portion of the exchange notes to receive other “adequate protection” under U.S. federal bankruptcy laws. In addition, if any payments of post-petition interest were made at the time of such a finding of under-collateralization, such payments could be re-characterized by the bankruptcy court as a reduction of the principal amount of the secured claim with respect to exchange notes. No appraisal of the fair market value of the collateral securing the exchange notes has been prepared in connection with this offering and, therefore, the value of the collateral trustee’s interest in the collateral may not equal or exceed the principal amount of the exchange notes. We can give no assurance that there will be sufficient collateral to satisfy our and the Subsidiary Guarantors’ obligations under the exchange notes.

***U.S. Federal Bankruptcy Laws May Significantly Impair the Ability of Exchange Note Holders to Realize Value from the Collateral.***

The right of the collateral trustee to repossess and dispose of the collateral securing the exchange notes upon the occurrence of an event of default under the indenture governing the exchange notes is likely to be significantly impaired by U.S. federal bankruptcy law if bankruptcy proceedings were to be commenced by or against the Issuer or any guarantor prior to or possibly even after the collateral trustee has repossessed and disposed of the collateral. Under the U.S. Bankruptcy Code, a secured creditor is prohibited from repossessing its security from a debtor in a bankruptcy proceeding, or from disposing of security repossessed from such debtor, without the approval of the bankruptcy court. Moreover, the U.S. Bankruptcy Code permits the debtor to continue to retain and to use the collateral, and the proceeds, products, rents or profits of the collateral, even after the debtor is in default under the applicable debt instruments, provided that the secured creditor is given “adequate protection”. The meaning of the term “adequate protection” may vary according to circumstances, but it is intended in general to protect the value of the secured creditor’s interest in the collateral and may include cash payments or the granting of additional security, if and at such times as the court in its discretion determines, for any diminution in the value of the collateral as a result of the stay of repossession or disposition or any use of the collateral by the debtor during the pendency of the bankruptcy proceeding. Generally, adequate protection payments, in the form of interest or otherwise, are not required to be paid by a debtor to a secured creditor unless the bankruptcy court determines that the value of the secured creditor’s interest in the collateral is declining during the pendency of the bankruptcy case. In addition, the bankruptcy court may determine not to provide cash payments as adequate protection to the holders of the exchange notes if, among other possible reasons, the bankruptcy court determines that the fair market value of the collateral with respect to the exchange notes on the date of the bankruptcy filing was less than the then-current principal amount of the exchange notes. In view of the broad discretionary powers of a bankruptcy court, the imposition of the stay, and the lack of a precise definition of the term “adequate protection”, we cannot predict (1) how long payments on the exchange notes could be delayed following commencement of a bankruptcy proceeding, (2) whether or when the collateral trustee would repossess or dispose of the collateral or (3) whether or to what extent exchange note holders would be compensated for any delay in payment of loss of value of the collateral through the requirements of “adequate protection”. Furthermore, in the event the bankruptcy court determines that the value of the collateral is not sufficient to repay all amounts due on the exchange notes, holders would have “undersecured claims”. U.S. federal bankruptcy laws do not permit the payment or accrual of interest, costs and attorneys’ fees for “undersecured claims” during the debtor’s bankruptcy proceeding.

***In the Event of a Bankruptcy Proceeding, Holders of the Exchange Notes may not be Entitled to Recover the Principal Amount of the Exchange Notes to the Extent of any Unamortized Original Issue Discount.***

In the event of a bankruptcy proceeding, the bankruptcy court could decide that holders of the exchange notes are only entitled to recover the amortized portion of the original issue discount on the exchange notes. Accordingly, to the extent the original issue discount on the exchange notes has not been amortized, holders of the exchange notes may not be entitled to recover the full principal amount of the exchange notes.

## Risks Related to Our Business

### ***Decreased Capital and Other Expenditures in the Energy Industry, Which Can Result from Decreased Oil and Natural Gas Prices, Among Other Things, Can Materially and Adversely Affect Our Business, Results of Operations and Financial Condition.***

A large portion of our revenue depends upon the level of capital and other expenditures in the oil and natural gas industry, including capital and other expenditures in connection with exploration, drilling, production, gathering, transportation, refining and processing operations. Demand for the products we distribute and services we provide is particularly sensitive to the level of exploration, development and production activity of, and the corresponding capital and other expenditures by, oil and natural gas companies. A material decline in oil or natural gas prices could depress levels of exploration, development and production activity, and therefore could lead to a decrease in our customers' capital and other expenditures. If our customers' expenditures decline, our business will suffer.

Prices for oil and natural gas are subject to large fluctuations in response to relatively minor changes in the supply of and demand for oil and natural gas, market uncertainty, and a variety of other factors that are beyond our control. Oil and natural gas prices during much of 2008 were at levels higher than historical long term averages, and worldwide oil and natural gas drilling and exploration activity during much of 2008 was also at very high levels. Oil and natural gas prices decreased during the second half of 2008 and during 2009. This sustained decline in oil and natural gas prices has resulted, and may continue to result, in decreased capital expenditures in the oil and natural gas industry, and has had an adverse effect on our business, results of operations and financial condition. A further sustained decrease in capital expenditures in the oil and natural gas industry could have a material adverse effect on our business, results of operations and financial condition.

Many factors affect the supply of and demand for energy and therefore influence oil and natural gas prices, including:

- the level of domestic and worldwide oil and natural gas production and inventories;
- the level of drilling activity and the availability of attractive oil and natural gas field prospects, which may be affected by governmental actions, such as regulatory actions or legislation, or other restrictions on drilling, including those related to environmental concerns;
- the discovery rate of new oil and natural gas reserves and the expected cost of developing new reserves;
- the actual cost of finding and producing oil and natural gas;
- depletion rates;
- domestic and worldwide refinery overcapacity or undercapacity and utilization rates;
- the availability of transportation infrastructure and refining capacity;
- increases in the cost of the products that we provide to the oil and natural gas industry, which may result from increases in the cost of raw materials such as steel;
- shifts in end-customer preferences toward fuel efficiency and the use of natural gas;
- the economic and/or political attractiveness of alternative fuels, such as coal, hydrocarbon, wind, solar energy and biomass-based fuels;
- increases in oil and natural gas prices and/or historically high oil and natural gas prices, which could lower demand for oil and natural gas products;
- worldwide economic activity including growth in countries that are not members of the Organisation for Economic Co-operation and Development ("non-OECD countries"), including China and India;
- interest rates and the cost of capital;
- national government policies, including government policies which could nationalize or expropriate oil and natural gas exploration, production, refining or transportation assets;

- the ability of the Organization of Petroleum Exporting Countries (“OPEC”) to set and maintain production levels and prices for oil;
- the impact of armed hostilities, or the threat or perception of armed hostilities;
- pricing and other actions taken by competitors that impact the market;
- environmental regulation;
- technological advances;
- global weather conditions and natural disasters;
- an increase in the value of the U.S. dollar relative to foreign currencies; and
- tax policies.

Oil and natural gas prices have been and are expected to remain volatile. This volatility has historically caused oil and natural gas companies to change their strategies and expenditure levels from year to year. We have experienced in the past, and we will likely experience in the future, significant fluctuations in operating results based on these changes. In particular, such volatility in the oil and natural gas markets could materially adversely affect our business, results of operations and financial condition.

***Our Business, Results of Operations and Financial Condition May Be Materially and Adversely Affected by General Economic Conditions.***

Many aspects of our business, including demand for the products we distribute and the pricing and availability of supplies, are affected by U.S. and global general economic conditions. General economic conditions and predictions regarding future economic conditions also affect our forecasts, and a decrease in demand for the products we distribute or other adverse effects resulting from an economic downturn may cause us to fail to achieve our anticipated financial results. General economic factors beyond our control that affect our business and end markets include interest rates, recession, inflation, deflation, consumer credit availability, consumer debt levels, performance of housing markets, energy costs, tax rates and policy, unemployment rates, commencement or escalation of war or hostilities, the threat or possibility of war, terrorism or other global or national unrest, political or financial instability, and other matters that influence spending by our customers. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency or increase in magnitude. The global economic downturn has adversely affected our business, results of operations and financial condition, and continued adverse economic conditions could have a material adverse effect on our business, results of operations and financial condition.

***We May Be Unable to Compete Successfully with Other Companies in Our Industry.***

We sell products and services in very competitive markets. In some cases, we compete with large oilfield services providers with substantial resources and smaller regional players that may increasingly be willing to provide similar products and services at lower prices. Our revenues and earnings could be adversely affected by competitive actions such as price reductions, improved delivery and other actions by competitors. Our business, results of operations and financial condition could be materially and adversely affected to the extent that our competitors are successful in reducing our customers’ purchases of products and services from us. Competition could also cause us to lower our prices which could reduce our margins and profitability.

***Demand for the Products We Distribute Could Decrease if the Manufacturers of Those Products Were to Sell a Substantial Amount of Goods Directly to End Users in the Markets We Serve.***

Historically, users of PVF and related products have purchased certain amounts of such products through distributors and not directly from manufacturers. If customers were to purchase the products that we sell directly from manufacturers, or if manufacturers sought to increase their efforts to sell directly to end users, our business, results of operations and financial condition could be materially and adversely affected. These or other

developments that remove us from, or limit our role in, the distribution chain, may harm our competitive position in the marketplace and reduce our sales and earnings.

***We May Experience Unexpected Supply Shortages.***

We distribute products from a wide variety of manufacturers and suppliers. Nevertheless, in the future we may have difficulty obtaining the products we need from suppliers and manufacturers as a result of unexpected demand or production difficulties. Also, products may not be available to us in quantities sufficient to meet our customer demand. Our inability to obtain sufficient products from suppliers and manufacturers, in sufficient quantities, could have a material adverse effect on our business, results of operations and financial condition.

***We May Experience Cost Increases From Suppliers, Which We May Be Unable to Pass on to Our Customers.***

In the future, we may face supply cost increases due to, among other things, unexpected increases in demand for supplies, decreases in production of supplies or increases in the cost of raw materials or transportation. Our inability to pass supply price increases on to our customers could have a material adverse effect on our business, results of operations and financial condition. For example, we may be unable to pass increased supply costs on to our customers because significant amounts of our sales are derived from stocking program arrangements, contracts and MRO arrangements which provide our customers time limited price protection, which may obligate us to sell products at a set price for a specific period. In addition, if supply costs increase, our customers may elect to purchase smaller amounts of products or may purchase products from other distributors. While we may be able to work with our customers to reduce the effects of unforeseen price increases because of our relationships with them, we may not be able to reduce the effects of such cost increases. In addition, to the extent that competition leads to reduced purchases of products or services from us or a reduction of our prices, and such reductions occur concurrently with increases in the prices for selected commodities which we use in our operations, including steel, nickel and molybdenum, the adverse effects described above would likely be exacerbated and could result in a prolonged downturn in profitability.

***We Do Not Have Contracts with Most of Our Suppliers. The Loss of a Significant Supplier Would Require Us to Rely More Heavily on Our Other Existing Suppliers or to Develop Relationships with New Suppliers, and Such a Loss May Have a Material Adverse Effect on Our Business, Results of Operations and Financial Condition.***

Given the nature of our business, and consistent with industry practice, we do not have contracts with most of our suppliers. Purchases are generally made through purchase orders. Therefore, most of our suppliers have the ability to terminate their relationships with us at any time. Approximately 39% of our total purchases during the year ended December 31, 2010 were from our ten largest suppliers. Although we believe there are numerous manufacturers with the capacity to supply the products we distribute, the loss of one or more of our major suppliers could have a material adverse effect on our business, results of operations and financial condition. Such a loss would require us to rely more heavily on our other existing suppliers or develop relationships with new suppliers, which may cause us to pay higher prices for products due to, among other things, a loss of volume discount benefits currently obtained from our major suppliers.

***Price Reductions by Suppliers of Products Sold by Us Could Cause the Value of Our Inventory to Decline. Also, Such Price Reductions Could Cause Our Customers to Demand Lower Sales Prices for These Products, Possibly Decreasing Our Margins and Profitability on Sales to the Extent that Our Inventory of Such Products Was Purchased at the Higher Prices Prior to Supplier Price Reductions and We Are Required to Sell Such Products to Our Customers at the Lower Market Prices.***

The value of our inventory could decline as a result of price reductions by manufacturers of products sold by us. We have been selling the same types of products to our customers for many years (and therefore do not expect that our inventory will become obsolete). However, there is no assurance that a substantial decline in product prices would not result in a write-down of our inventory value. Such a write-down could have a material adverse effect on our financial condition.

Also, decreases in the market prices of products sold by us could cause customers to demand lower sale prices from us. These price reductions could reduce our margins and profitability on sales with respect to such lower-priced products. Reductions in our margins and profitability on sales could have a material adverse effect on our business, results of operations, and financial condition.

***A Substantial Decrease in the Price of Steel Could Significantly Lower Our Gross Profit or Cash Flow.***

We distribute many products manufactured from steel and, as a result, our business is significantly affected by the price and supply of steel. When steel prices are lower, the prices that we charge customers for products may decline, which affects our gross profit and cash flow. The steel industry as a whole is cyclical and at times pricing and availability of steel can be volatile due to numerous factors beyond our control, including general domestic and international economic conditions, labor costs, sales levels, competition, consolidation of steel producers, fluctuations in the costs of raw materials necessary to produce steel, import duties and tariffs and currency exchange rates. When steel prices decline, customer demands for lower prices and our competitors' responses to those demands could result in lower sale prices and, consequently, lower gross profit or cash flow.

***If Steel Prices Rise, We May Be Unable to Pass Along the Cost Increases to Our Customers.***

We maintain inventories of steel products to accommodate the lead time requirements of our customers. Accordingly, we purchase steel products in an effort to maintain our inventory at levels that we believe to be appropriate to satisfy the anticipated needs of our customers based upon historic buying practices, contracts with customers and market conditions. Our commitments to purchase steel products are generally at prevailing market prices in effect at the time we place our orders. If steel prices increase between the time we order steel products and the time of delivery of such products to us, our suppliers may impose surcharges that require us to pay for increases in steel prices during such period. Demand for the products we distribute, the actions of our competitors, and other factors will influence whether we will be able to pass such steel cost increases and surcharges on to our customers, and we may be unsuccessful in doing so.

***We Do Not Have Long-Term Contracts or Agreements with Many of Our Customers and the Contracts and Agreements That We Do Have Generally Do Not Commit Our Customers to Any Minimum Purchase Volume. The Loss of a Significant Customer May Have a Material Adverse Effect on Our Business, Results of Operations and Financial Condition.***

Given the nature of our business, and consistent with industry practice, we do not have long-term contracts with many of our customers and our contracts, including our MRO contracts, generally do not commit our customers to any minimum purchase volume. Therefore, a significant number of our customers may terminate their relationships with us or reduce their purchasing volume at any time, and even our MRO customers are not required to purchase products from us. Furthermore, the long-term customer contracts that we do have are generally terminable without cause on short notice. Our ten largest customers represented approximately half of our sales for the year ended December 31, 2010. The products that we may sell to any particular customer depend in large part on the size of that customer's capital expenditure budget in a particular year and on the results of competitive bids for major projects. Consequently, a customer that accounts for a significant portion of our sales in one fiscal year may represent an immaterial portion of our sales in subsequent fiscal years. The loss of a significant customer, or a substantial decrease in a significant customer's orders, may have a material adverse effect on our business, results of operations and financial condition.

***Changes in Our Customer and Product Mix Could Cause Our Gross Margin Percentage to Fluctuate.***

From time to time, we may experience changes in our customer mix and in our product mix. Changes in our customer mix may result from geographic expansion, daily selling activities within current geographic markets and targeted selling activities to new customer segments. Changes in our product mix may result from marketing activities to existing customers and needs communicated to us from existing and prospective customers. If customers begin to require more lower-margin products from us and fewer higher-margin products, our business, results of operations and financial condition may suffer.

***We face Risks Associated with Our Acquisition of Transmark Fcx Group B.V. in October 2009, and This Acquisition May Not Yield All of Its Intended Benefits.***

We are currently continuing the process of integrating the business operated by Transmark Fcx Group B.V., now known as MRC Transmark Group B.V. (“MRC Transmark”) with our business. If we cannot successfully integrate this business, we may not achieve the expected synergies and benefits we hope to obtain from the acquisition. The difficulty of combining the companies presents challenges to our management, including:

- operating a significantly larger combined company with operations in more geographic areas and with more business lines;
- integrating personnel with diverse backgrounds and organizational cultures;
- coordinating sales and marketing functions;
- retaining key employees, customers or suppliers;
- integrating the information systems;
- preserving the collaboration, distribution, marketing, promotion and other important relationships; and
- consolidating other corporate and administrative functions.

If the risks associated with this acquisition materialize and we are unable to sufficiently address them, there is a possibility that the results of operations of our combined company could be less successful than the separate results of operations of our company and Transmark, taken together, if this acquisition had never occurred.

***We May Be Unable to Successfully Execute or Effectively Integrate Acquisitions.***

One of our key operating strategies is to selectively pursue acquisitions, including large scale acquisitions, in order to continue to grow and increase profitability. However, acquisitions, particularly of a significant scale, involve numerous risks and uncertainties, including intense competition for suitable acquisition targets; the potential unavailability of financial resources necessary to consummate acquisitions in the future; increased leverage due to additional debt financing that may be required to complete an acquisition; dilution of our stockholders’ net current book value per share if we issue additional equity securities to finance an acquisition; difficulties in identifying suitable acquisition targets or in completing any transactions identified on sufficiently favorable terms; assumption of undisclosed or unknown liabilities; and the need to obtain regulatory or other governmental approvals that may be necessary to complete acquisitions. In addition, any future acquisitions may entail significant transaction costs and risks associated with entry into new markets. For example, we incurred \$17.4 million in fees and expenses during 2009 related to our acquisition of Transmark.

In addition, even when acquisitions are completed, integration of acquired entities can involve significant difficulties, such as:

- failure to achieve cost savings or other financial or operating objectives with respect to an acquisition;
- strain on the operational and managerial controls and procedures of our business, and the need to modify systems or to add management resources;
- difficulties in the integration and retention of customers or personnel and the integration and effective deployment of operations or technologies;
- amortization of acquired assets, which would reduce future reported earnings;
- possible adverse short-term effects on our cash flows or operating results;
- diversion of management’s attention from the ongoing operations of our business;
- failure to obtain and retain key personnel of an acquired business; and
- assumption of known or unknown material liabilities or regulatory non-compliance issues.

Failure to manage these acquisition growth risks could have a material adverse effect on our business, results of operations and financial condition.

***Changes in Our Credit Profile may Affect Our Relationship with Our Suppliers, Which Could Have a Material Adverse Effect on Our Liquidity.***

Changes in our credit profile may affect the way our suppliers view our ability to make payments and may induce them to shorten the payment terms of their invoices, particularly given our high level of outstanding indebtedness. Given the large dollar amounts and volume of our purchases from suppliers, a change in payment terms may have a material adverse effect on our liquidity and our ability to make payments to our suppliers, and consequently may have a material adverse effect on our business, results of operations and financial condition.

***Our Business, Results of Operations and Financial Condition Could Be Materially and Adversely Affected if Restrictions on Imports of Line Pipe, Oil Country Tubular Goods or Certain of the Other Products that We Sell Are Lifted.***

U.S. law currently imposes tariffs and duties on imports from certain foreign countries of line pipe and oil country tubular goods, and, to a lesser extent, on imports of certain other products that we sell. If these restrictions are lifted, if the tariffs are reduced or if the level of such imported products otherwise increases, and these imported products are accepted by our customer base, our business, results of operations and financial condition could be materially and adversely affected to the extent that we would then have higher-cost products in our inventory or if prices and margins are driven down by increased supplies of such products. If prices of these products were to decrease significantly, we might not be able to profitably sell these products and the value of our inventory would decline. In addition, significant price decreases could result in a significantly longer holding period for some of our inventory, which could also have a material adverse effect on our business, results of operations and financial condition.

***We Are Subject to Strict Environmental, Health and Safety Laws and Regulations that May Lead to Significant Liabilities and Negatively Impact the Demand for Our Products.***

We are subject to a variety of federal, state, local, foreign and provincial environmental, health and safety laws and regulations, including those governing the discharge of pollutants into the air or water, the management, storage and disposal of, or exposure to, hazardous substances and wastes, the responsibility to investigate and clean up contamination, and occupational health and safety. Fines and penalties may be imposed for non-compliance with applicable environmental, health and safety requirements and the failure to have or to comply with the terms and conditions of required permits. Historically, the costs to comply with environmental and health and safety requirements have not been material. However, the failure by us to comply with applicable environmental, health and safety requirements could result in fines, penalties, enforcement actions, third party claims for property damage and personal injury, requirements to clean up property or to pay for the costs of cleanup, or regulatory or judicial orders requiring corrective measures, including the installation of pollution control equipment or remedial actions.

Under certain laws and regulations, such as the U.S. federal Superfund law or its foreign equivalent, the obligation to investigate and remediate contamination at a facility may be imposed on current and former owners or operators or on persons who may have sent waste to that facility for disposal. Liability under these laws and regulations may be imposed without regard to fault or to the legality of the activities giving rise to the contamination. Although we are not aware of any active litigation against us under the U.S. federal Superfund law or its state or foreign equivalents, contamination has been identified at several of our current and former facilities, and we have incurred and will continue to incur costs to investigate and remediate these conditions.

Moreover, we may incur liabilities in connection with environmental conditions currently unknown to us relating to our existing, prior or future sites or operations or those of predecessor companies whose liabilities we may have assumed or acquired. We believe that indemnities contained in certain of our acquisition agreements may cover certain environmental conditions existing at the time of the acquisition, subject to certain terms, limitations and conditions. However, if these indemnification provisions terminate or if the indemnifying parties do not fulfill

their indemnification obligations, we may be subject to liability with respect to the environmental matters that may be covered by such indemnification obligations.

In addition, environmental, health and safety laws and regulations applicable to our business and the business of our customers, including laws regulating the energy industry, and the interpretation or enforcement of these laws and regulations, are constantly evolving and it is impossible to predict accurately the effect that changes in these laws and regulations, or their interpretation or enforcement, may have upon our business, financial condition or results of operations. Should environmental laws and regulations, or their interpretation or enforcement, become more stringent, our costs could increase, which may have a material adverse effect on our business, financial condition and results of operations.

In particular, legislation and regulations limiting emissions of greenhouse gases (“GHGs”), including carbon dioxide associated with the burning of fossil fuels, are at various stages of consideration and implementation, at the international, national, regional and state levels. In 2005, the Kyoto Protocol to the 1992 United Nations Framework Convention on Climate Change, which established a binding set of emission targets for GHGs, became binding on the countries that ratified it. Certain states have adopted or are considering legislation or regulation imposing overall caps on GHG emissions from certain facility categories or mandating the increased use of electricity from renewable energy sources. Similar legislation has been proposed at the federal level. In addition, the U.S. Environmental Protection Agency (the “EPA”) has begun to implement regulations that would require permits for and reductions in greenhouse gas emissions for certain categories of facilities, the first of which became effective in January 2010. The EPA also intends to set GHG emissions standards for power plants in May 2012 and for refineries in November 2012. These laws and regulations could negatively impact the market for the products we distribute and, consequently, our business.

In addition, the federal government and certain state governments are considering enhancing the regulation of hydraulic fracturing, a practice involving the injection of certain substances into rock formations to stimulate production of hydrocarbons, particularly natural gas, from shale basin regions. Any increased federal or state regulation of hydraulic fracturing could reduce the demand for our products in these regions.

***We May Not Have Adequate Insurance for Potential Liabilities, Including Liabilities Arising from Litigation.***

In the ordinary course of business, we have and in the future may become the subject of various claims, lawsuits and administrative proceedings seeking damages or other remedies concerning our commercial operations, the products we distribute, employees and other matters, including potential claims by individuals alleging exposure to hazardous materials as a result of the products we distribute or our operations. Some of these claims may relate to the activities of businesses that we have acquired, even though these activities may have occurred prior to our acquisition of such businesses. The products we distribute are sold primarily for use in the energy industry, which is subject to inherent risks that could result in death, personal injury, property damage, pollution or loss of production. In addition, defects in the products we distribute could result in death, personal injury, property damage, pollution or damage to equipment and facilities. Actual or claimed defects in the products we distribute may give rise to claims against us for losses and expose us to claims for damages.

We maintain insurance to cover certain of our potential losses, and we are subject to various self-retentions, deductibles and caps under our insurance. It is possible, however, that judgments could be rendered against us in cases in which we would be uninsured and beyond the amounts that we currently have reserved or anticipate incurring for such matters. Even a partially uninsured claim, if successful and of significant size, could have a material adverse effect on our business, results of operations and financial condition. Furthermore, we may not be able to continue to obtain insurance on commercially reasonable terms in the future, and we may incur losses from interruption of our business that exceed our insurance coverage. Finally, even in cases where we maintain insurance coverage, our insurers may raise various objections and exceptions to coverage which could make uncertain the timing and amount of any possible insurance recovery.

***Due to Our Position as a Distributor, We Are Subject to Personal Injury, Product Liability and Environmental Claims Involving Allegedly Defective Products.***

Certain of the products we distribute are used in potentially hazardous applications that can result in personal injury, product liability and environmental claims. A catastrophic occurrence at a location where the products we distribute are used may result in us being named as a defendant in lawsuits asserting potentially large claims, even though we did not manufacture the products, and applicable law may render us liable for damages without regard to negligence or fault. Particularly, certain environmental laws provide for joint and several and strict liability for remediation of spills and releases of hazardous substances. Certain of these risks are reduced by the fact that we are a distributor of products produced by third-party manufacturers, and thus in certain circumstances we may have third-party warranty or other claims against the manufacturer of products alleged to have been defective. However, there is no assurance that such claims could fully protect us or that the manufacturer would be able financially to provide such protection. There is no assurance that our insurance coverage will be adequate to cover the underlying claims and our insurance does not provide coverage for all liabilities (including liability for certain events involving pollution).

***We Are a Defendant in Asbestos-Related Lawsuits, and Exposure to These and Any Future Lawsuits Could Have a Material Adverse Effect on Our Business, Results of Operations and Financial Condition.***

We are a defendant in lawsuits involving approximately 940 claims as of December 31, 2010 alleging, among other things, personal injury, including mesothelioma and other cancers, arising from exposure to asbestos-containing materials included in products distributed by us in the past. Each claim involves allegations of exposure to asbestos-containing materials by a single individual, his or her spouse and/or family members. The complaints in these lawsuits typically name many other defendants. In the majority of these lawsuits, little or no information is known regarding the nature of the plaintiffs' alleged injuries or their connection with the products we distributed. Based on our experience with asbestos litigation to date, as well as the existence of certain insurance coverage, we do not believe that the outcome of these claims will have a material impact on us. However, the potential liability associated with asbestos claims is subject to many uncertainties, including negative trends with respect to settlement payments, dismissal rates and the types of medical conditions alleged in pending or future claims, negative developments in the claims pending against us, the current or future insolvency of co-defendants, adverse changes in relevant laws or the interpretation thereof, and the extent to which insurance will be available to pay for defense costs, judgments or settlements. Further, while we anticipate that additional claims will be filed against us in the future, we are unable to predict with any certainty the number, timing and magnitude of such future claims. Therefore, we can give no assurance that pending or future asbestos litigation will not ultimately have a material adverse effect on our business, results of operations and financial condition. See "Management's Discussion and Analysis of Financial Condition and Results of Operations — Contractual Obligations, Commitments and Contingencies — Legal Proceedings" and "Business — Overview of Our Business — Legal Proceedings" for more information.

***If We Lose Any of Our Key Personnel, We May Be Unable to Effectively Manage Our Business or Continue Our Growth.***

Our future performance depends to a significant degree upon the continued contributions of our management team and our ability to attract, hire, train and retain qualified managerial, sales and marketing personnel. Particularly, we rely on our sales and marketing teams to create innovative ways to generate demand for the products we distribute. The loss or unavailability to us of any member of our management team or a key sales or marketing employee could have a material adverse effect on our business, results of operations and financial condition to the extent we are unable to timely find adequate replacements. We face competition for these professionals from our competitors, our customers and other companies operating in our industry. We may be unsuccessful in attracting, hiring, training and retaining qualified personnel, and our business, results of operations and financial condition could be materially and adversely affected under such circumstances.

***Interruptions in the Proper Functioning of Our Information Systems Could Disrupt Operations and Cause Increases in Costs and/or Decreases in Revenues.***

The proper functioning of our information systems is critical to the successful operation of our business. We depend on our information technology systems to process orders, track credit risk, manage inventory and monitor accounts receivable collections. Our information systems also allow us to efficiently purchase products from our vendors and ship products to our customers on a timely basis, maintain cost-effective operations and provide superior service to our customers. However, our information systems are vulnerable to natural disasters, power losses, telecommunication failures and other problems. If critical information systems fail or are otherwise unavailable, our ability to procure products to sell, process and ship customer orders, identify business opportunities, maintain proper levels of inventories, collect accounts receivable and pay accounts payable and expenses could be adversely affected. Our ability to integrate our systems with our customers' systems would also be significantly affected. We maintain information systems controls designed to protect against, among other things, unauthorized program changes and unauthorized access to data on our information systems. If our information systems controls do not function properly, we face increased risks of unexpected errors and unreliable financial data.

***The Loss of Third-Party Transportation Providers upon Whom We Depend, or Conditions Negatively Affecting the Transportation Industry, Could Increase Our Costs or Cause a Disruption in Our Operations.***

We depend upon third-party transportation providers for delivery of products to our customers. Strikes, slowdowns, transportation disruptions or other conditions in the transportation industry, including, but not limited to, shortages of truck drivers, disruptions in rail service, increases in fuel prices and adverse weather conditions, could increase our costs and disrupt our operations and our ability to service our customers on a timely basis. We cannot predict whether or to what extent recent increases or anticipated increases in fuel prices may impact our costs or cause a disruption in our operations going forward.

***We May Need Additional Capital in the Future and It May Not Be Available on Acceptable Terms.***

We may require more capital in the future to:

- fund our operations;
- finance investments in equipment and infrastructure needed to maintain and expand our distribution capabilities;
- enhance and expand the range of products we offer; and
- respond to potential strategic opportunities, such as investments, acquisitions and international expansion.

We can give no assurance that additional financing will be available on terms favorable to us, or at all. The terms of available financing may place limits on our financial and operating flexibility. If adequate funds are not available on acceptable terms, we may be forced to reduce our operations or delay, limit or abandon expansion opportunities. Moreover, even if we are able to continue our operations, the failure to obtain additional financing could reduce our competitiveness.

***Hurricanes or Other Adverse Weather Events or Natural Disasters Could Negatively Affect Our Local Economies or Disrupt Our Operations, Which Could Have an Adverse Effect on Our Business or Results of Operations.***

Certain areas in which we operate are susceptible to hurricanes and other adverse weather conditions or natural disasters, such as earthquakes. Such events can disrupt our operations, result in damage to our properties and negatively affect the local economies in which we operate. Additionally, we may experience communication disruptions with our customers, vendors and employees. These events can cause physical damage to our branches and require us to close branches in order to secure our employees. Additionally, our sales order backlog and shipments can experience a temporary decline immediately following such events.

We cannot predict whether or to what extent damage caused by such events will affect our operations or the economies in regions where we operate. These adverse events could result in disruption of our purchasing and/or distribution capabilities, interruption of our business that exceeds our insurance coverage, our inability to collect from customers and increased operating costs. Our business or results of operations may be adversely affected by these and other negative effects of such events.

***We Have a Substantial Amount of Goodwill and Other Intangibles Recorded on Our Balance Sheet, Partly Because of Our Recent Acquisitions and Business Combination Transactions. The Amortization of Acquired Assets Will Reduce Our Future Reported Earnings and, Furthermore, If Our Goodwill or Other Intangible Assets Become Impaired, We May Be Required to Recognize Charges that Would Reduce Our Income.***

As of December 31, 2010, we had \$1.4 billion of goodwill and other intangibles recorded on our balance sheet. A substantial portion of these intangible assets result from our use of purchase accounting in connection with the acquisitions we have made over the past several years. In accordance with the purchase accounting method, the excess of the cost of an acquisition over the fair value of identifiable tangible and intangible assets is assigned to goodwill. The amortization expense associated with our identifiable intangible assets will have a negative effect on our future reported earnings. Many other companies, including many of our competitors, will not have the significant acquired intangible assets that we have because they have not participated in recent acquisitions and business combination transactions similar to ours. Thus, their reported earnings will not be as negatively affected by the amortization of identifiable intangible assets as our reported earnings will be.

Additionally, under U.S. generally accepted accounting principles, goodwill and certain other intangible assets are not amortized, but must be reviewed for possible impairment annually, or more often in certain circumstances where events indicate that the asset values are not recoverable. Such reviews could result in an earnings charge for the impairment of goodwill, which would reduce our net income even though there would be no impact on our underlying cash flow. For example, we recorded a non-cash impairment charge in the amount of \$310 million during the year ended December 31, 2009. This charge was based on the results of our annual goodwill impairment test which indicated that the book value of our equity exceeded fair value by this amount.

***We face Risks Associated with Conducting Business in Markets Outside of North America.***

We currently conduct substantial business in countries outside of North America, principally as a result of our recent acquisition of Transmark. In addition, we are evaluating the possibility of establishing distribution networks in certain other foreign countries, particularly in Europe, Asia, the Middle East and South America. Our business, results of operations and financial condition could be materially and adversely affected by economic, legal, political and regulatory developments in the countries in which we do business in the future or in which we expand our business, particularly those countries which have historically experienced a high degree of political and/or economic instability. Examples of risks inherent in such non-North American activities include changes in the political and economic conditions in the countries in which we operate, including civil uprisings and terrorist acts, unexpected changes in regulatory requirements, changes in tariffs, the adoption of foreign or domestic laws limiting exports to certain foreign countries, fluctuations in currency exchange rates and the value of the U.S. dollar, restrictions on repatriation of earnings, expropriation of property without fair compensation, governmental actions that result in the deprivation of contract or proprietary rights, the acceptance of business practices which are not consistent with or antithetical to prevailing business practices we are accustomed to in North America including export compliance and anti-bribery practices, and governmental sanctions. If we begin doing business in a foreign country in which we do not presently operate, we may also face difficulties in operations and diversion of management time in connection with establishing our business there.

***We May be Unable to Comply with United States and International Laws and Regulations Required to do Business in Foreign Countries.***

Doing business on a worldwide basis requires us to comply with the laws and regulations of the U.S. government and various international jurisdictions. These regulations place restrictions on our operations, trade practices, partners and investment decisions. In particular, our international operations are subject to U.S. and

foreign anti-corruption laws and regulations, such as the Foreign Corrupt Practices Act (“FCPA”), and economic sanction programs, including those administered by the U.S. Treasury Department’s Office of Foreign Assets Control (“OFAC”). As a result of doing business in foreign countries, we are exposed to a heightened risk of violating anti-corruption laws and sanctions regulations.

The FCPA prohibits us from providing anything of value to foreign officials for the purposes of obtaining or retaining business or securing any improper business advantage. It also requires us to keep books and records that accurately and fairly reflect the Company’s transactions. As part of our business, we may deal with state-owned business enterprises, the employees of which are considered foreign officials for purposes of the FCPA. In addition, the United Kingdom Bribery Act (the “Bribery Act”) has been enacted, although the date of implementation has not yet been determined. The provisions of the Bribery Act extend beyond bribery of foreign public officials and are more onerous than the FCPA in a number of other respects, including jurisdiction, non-exemption of facilitation payments and penalties. Some of the international locations in which we operate lack a developed legal system and have higher than normal levels of corruption. Our continued expansion outside the U.S., including in developing countries, and our development of new partnerships and joint venture relationships worldwide, could increase the risk of FCPA, OFAC or Bribery Act violations in the future.

Economic sanctions programs restrict our business dealings with certain sanctioned countries. In addition, because we act as a distributor, we face the risk that our customers might further distribute our products to an ultimate end-user in a sanctioned country, which might subject us to an investigation concerning compliance with the OFAC or other sanctions regulations.

Violations of anti-corruption laws and sanctions regulations are punishable by civil penalties, including fines, denial of export privileges, injunctions, asset seizures, debarment from government contracts and revocations or restrictions of licenses, as well as criminal fines and imprisonment. We have established policies and procedures designed to assist our compliance with applicable U.S. and international laws and regulations, including the forthcoming Bribery Act, and have trained our employees to comply with such laws and regulations. However, there can be no assurance that all of our employees, consultants, agents or partners will not take actions in violation of our policies and these laws, and that our policies and procedures will effectively prevent us from violating these regulations in every transaction in which we may engage. In particular, we may be held liable for the actions taken by our local, strategic or joint venture partners outside of the United States, even though our partners are not subject to the FCPA. Such a violation, even if prohibited by our policies, could have a material adverse effect on our reputation, business, financial condition and results of operations. In addition, various state and municipal governments, universities and other investors maintain prohibitions or restrictions on investments in companies that do business with sanctioned countries, which could adversely affect the market for the notes or our other securities.

***The Requirements of Being a Publicly Reporting Company in Connection with the Exchange Offer, Including Compliance with the Reporting Requirements of the Exchange Act and Certain of the Requirements of the Sarbanes-Oxley Act, may Strain Our Resources, Increase Our Costs and Distract Management, and We May Be Unable to Comply with These Requirements in a Timely or Cost-Effective Manner.***

As a publicly reporting company, we will be subject to the reporting requirements of the Securities Exchange Act of 1934, or the Exchange Act, and certain requirements imposed by the Sarbanes-Oxley Act of 2002, or the Sarbanes-Oxley Act, after consummation of this offering. These requirements may place a strain on our management, systems and resources. The Exchange Act will require that we file annual, quarterly and current reports with respect to our business and financial condition within specified time periods. The Sarbanes-Oxley Act will require that we maintain effective disclosure controls and procedures and internal control over financial reporting and will require management to report on the effectiveness of those controls. Due to our limited operating history, our disclosure controls and procedures and internal controls may not meet all of the standards applicable to companies subject to the Sarbanes-Oxley Act. In order to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, significant resources and management oversight will be required. We cannot be assured that the oversight methods will be effective. Management’s attention may be diverted from other business concerns, which could have a material adverse effect on our business, financial condition and results of operations.

We also expect that it could be difficult and will be significantly more expensive to obtain directors' and officers' liability insurance, and we may be required to accept reduced policy limits and coverage or incur substantially higher costs to obtain the same or similar coverage. As a result, it may be more difficult for us to attract and retain qualified persons to serve on our board of directors or as executive officers. We cannot predict or estimate the amount of additional costs we may incur or the timing of such costs.

***We Will Be Exposed to Risks Relating to Evaluations of Controls Required by Section 404 of the Sarbanes-Oxley Act After Consummation of the Exchange Offer Related to the Notes.***

Following consummation of this offering, we will be required to evaluate our internal controls systems in order to allow management to report on, and our independent auditors to audit, our internal control over financial reporting. We will be required to perform the system and process evaluation and testing (and any necessary remediation) required to comply with the management certification and auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act, and will be required to comply with Section 404 beginning with our second annual report which we file after consummation of this offering (subject to any change in applicable SEC rules). Furthermore, upon completion of this process, we may identify control deficiencies of varying degrees of severity under applicable SEC and Public Company Accounting Oversight Board ("PCAOB") rules and regulations that remain unremediated. As a publicly reporting company, we will be required to report, among other things, control deficiencies that constitute a "material weakness" or changes in internal controls that, or that are reasonably likely to, materially affect internal control over financial reporting. A "material weakness" is a significant deficiency or combination of significant deficiencies in internal control over financial reporting that results in a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected on a timely basis.

Following this offering, if we fail to implement the requirements of Section 404 in a timely manner, we might be subject to sanctions or investigation by regulatory authorities such as the SEC or the PCAOB. If we do not implement improvements to our disclosure controls and procedures or to our internal controls in a timely manner, our independent registered public accounting firm may not be able to certify as to the effectiveness of our internal control over financial reporting pursuant to an audit of our internal control over financial reporting. This may subject us to adverse regulatory consequences or a loss of confidence in the reliability of our financial statements. We could also suffer a loss of confidence in the reliability of our financial statements if our independent registered public accounting firm reports a material weakness in our internal controls, if we do not develop and maintain effective controls and procedures or if we are otherwise unable to deliver timely and reliable financial information. Any loss of confidence in the reliability of our financial statements or other negative reaction to our failure to develop timely or adequate disclosure controls and procedures or internal controls could affect our access to the capital markets. In addition, if we fail to remedy any material weakness, our financial statements may be inaccurate and we may face restricted access to the capital markets.

***The Securities and Exchange Commission Moving Forward to a Single Set of International Accounting Standards Could Materially Impact Our Results of Operations.***

The SEC continues to move forward with a convergence to a single set of international accounting standards (such as International Financial Reporting Standards ("IFRS")) and associated changes in regulatory accounting may negatively impact the way we record revenues, expenses, assets and liabilities. Currently, under IFRS, the LIFO method of valuing inventory is not permitted. If we had ceased valuing our inventory under the LIFO method at December 31, 2010, we would have been required to make tax payments approximating \$122 million over the subsequent four years.

***The Financial Statements Presented in this Prospectus May Not Provide an Accurate Indication of What Our Future Results of Operations Are Likely to Be.***

Given our recent history of consummating numerous acquisitions, our financial statements may not represent an accurate picture of what our future performance will be. We acquired the remaining 15% majority voting interest in McJunkin Appalachian in January 2007, we acquired Midway-Tristate Corporation in April 2007, we entered into a business combination with Red Man in October 2007 (effectively doubling our size) (the “Red Man Transaction”), we acquired the remaining approximately 49% noncontrolling interest in Midfield in July 2008, we acquired LaBarge in October 2008 and we acquired Transmark in October 2009. Our limited combined operating history may make it difficult to forecast our future operating results and financial condition. In particular, because of the significance of the Red Man Transaction, the financial statements for periods prior to that transaction are not comparable with those after the transaction.

## RATIO OF EARNINGS TO FIXED CHARGES

The following table presents our ratio of earnings to fixed charges for the period indicated. For purposes of computing the ratio of earnings to fixed charges, earnings consist of income before income taxes and change in accounting principle, net of taxes, plus fixed charges, exclusive of capitalized interest. Fixed charges consist of interest expense, capitalized interest and a portion of operating rental expense that management believes is representative of the interest component of rental expense.

## USE OF PROCEEDS

This exchange offer is intended to satisfy certain of our obligations under the exchange and registration rights agreements entered into in connection with the issuance of the outstanding notes. We will not receive any cash proceeds from the issuance of the exchange notes and have agreed to pay the expenses of the exchange offer. In consideration for issuing the exchange notes, we will receive in exchange outstanding notes in like principal amount. The outstanding notes surrendered in exchange for the exchange notes will be retired and canceled and cannot be reissued. Accordingly, issuance of the exchange notes will not result in any increase in our outstanding indebtedness or any change in our capitalization.

## SELECTED HISTORICAL CONSOLIDATED FINANCIAL AND OTHER DATA

On January 31, 2007, McJunkin Red Man Holding Corporation, an affiliate of The Goldman Sachs Group, Inc., acquired a majority of the equity of the entity now known as McJunkin Red Man Corporation (then known as McJunkin Corporation) (the “GS Acquisition”). In this prospectus, the term “Predecessor” refers to McJunkin Corporation and its subsidiaries prior to January 31, 2007 and the term “Successor” refers to the entity now known as McJunkin Red Man Corporation and its subsidiaries on and after January 31, 2007. As a result of the change in McJunkin Corporation’s basis of accounting in connection with the GS Acquisition, Predecessor’s financial statement data for the one month ended January 30, 2007 and earlier periods is not comparable to Successor’s financial data for the eleven months ended December 31, 2007 and subsequent periods.

McJunkin Red Man Corporation acquired Transmark on October 30, 2009. Operating results for the year ended December 31, 2009 include the results of McJunkin Red Man Corporation for the full period and the results of Transmark for the two months after the business combination on October 30, 2009.

McJunkin Corporation completed a business combination transaction with Red Man Pipe & Supply Co. (“Red Man”, which has since been merged with and into McJunkin Red Man Corporation) on October 31, 2007. At that time McJunkin Corporation was renamed McJunkin Red Man Corporation. Operating results for the eleven-month period ended December 31, 2007 include the results of McJunkin Red Man Corporation for the full period and the results of Red Man for the two months after the business combination on October 31, 2007. Accordingly, McJunkin Red Man Corporation’s results for the 11 months ended December 31, 2007 are not comparable to McJunkin’s results for the years ended December 31, 2006 and 2005.

## MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

*You should read the following discussion and analysis of our financial condition and results of operations in conjunction with our financial statements and related notes included elsewhere in this prospectus. This discussion and analysis contains forward-looking statements that involve risks, uncertainties and assumptions. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of a number of factors, including, but not limited to, those set forth under "Risk Factors" and elsewhere in this prospectus. All references throughout this section (and elsewhere in this report) to amounts available for borrowing under various credit facilities refer to amounts actually available for borrowing after giving effect to any borrowing base limitations imposed by the facility.*

### Overview

We are the largest global distributor of pipe, valves and fittings ("PVF") and related products and services to the energy industry based on sales and hold the leading position in our industry across each of the upstream (exploration, production and extraction of underground oil and natural gas), midstream (gathering and transmission of oil and natural gas, natural gas utilities and the storage and distribution of oil and natural gas) and downstream (crude oil refining, petrochemical processing and general industrials) end markets. We currently operate approximately 220 branches, including over 180 branches located in the most active oil and natural gas regions in North America and over 30 branches throughout Europe, Asia and Australasia. In North America, we operate six major distribution centers, five in the United States and one in western Canada. Internationally, we operate distribution centers in several locations throughout Europe, Asia and Australasia. We also serve our customers through more than ten valve actuation and other service locations and more than 190 pipe yards. We offer a wide array of PVF and oilfield supplies encompassing a complete line of products, from our global network of suppliers, to our more than 10,000 active customers. We are diversified, both by geography and end market. We seek to provide best-in-class service to our customers by satisfying the most complex, multi-site needs of many of the largest companies in the energy and industrial sectors as their primary PVF supplier. We believe the critical role we play in our customers' supply chain, together with our extensive product offering, broad global presence, customer-linked scalable information systems and efficient distribution capabilities, serve to solidify our long-standing customer relationships and drive our growth. As a result, we have an average relationship of over 20 years with our top ten customers and our sales in 2010 were nearly twice that of our nearest competitor.

We have benefited historically from several growth trends within the energy industry, including high levels of expansion and maintenance expenditures by our customers. Although these trends have been offset in the last two years due to adverse economic conditions, we believe that longer-term growth in PVF spending within the energy industry will continue. The long-term growth in spending has been driven by several factors, including underinvestment in North American energy infrastructure, production and capacity constraints and market expectations of future improvements in the oil, natural gas, refined products and petrochemical markets. In addition, the products we distribute are often used in extreme operating environments, leading to the need for a regular replacement cycle. As a result, approximately two-thirds of our sales in 2010 were attributable to multi-year maintenance, repair and operations ("MRO") contracts. We consider MRO contracts to be normal, repetitive business that deals primarily with the regular maintenance, repair or operational work to existing energy infrastructure. Project activities including facility expansions or new construction projects are more commonly associated with a customer's capital expenditures budget and can be sensitive to global oil and natural gas prices and general economic conditions. We mitigate our exposure to price volatility by limiting the length of any price-protected contracts. As pricing rebounds, we believe that we will have the ability to pass price increases on to the marketplace.

### Key Drivers of Our Business

Our revenues are predominantly derived from the sale of PVF and other oilfield service supplies to the energy industry in North America, Europe, Asia and Australasia. Our business is therefore dependent upon both the current conditions and future prospects in the energy industry and, in particular, maintenance and expansionary operating, capital and other expenditures by our customers in the upstream, midstream and downstream end markets of the industry. Long-term growth in spending has been, and we believe will continue to be, driven by several factors,

including underinvestment in global energy infrastructure, production and capacity constraints, and anticipated strength in the oil, natural gas, refined products and petrochemical markets. Though oil and natural gas prices are currently below the record levels set in 2008, oil and, to a lesser extent, natural gas prices, have remained elevated relative to their historical levels and we believe will continue to drive capital and other expenditures by our customers. The outlook for future oil, natural gas, refined products and petrochemical spending for PVF is influenced by numerous factors, including the following:

- *Oil and Natural Gas Commodity Prices.* Sales of PVF and related products to the oil and natural gas industry constitute a significant portion of our sales. As a result, we depend upon the oil and natural gas industry and its ability and willingness to make capital and other expenditures to explore for, produce and process oil and natural gas and refined products. Oil and natural gas prices, both current and projected, impact other drivers of our business, including rig counts, drilling and completion spending, additions and maintenance to pipeline mileage and refinery utilization.
- *Steel Prices, Availability and Supply and Demand.* Fluctuations in steel prices can lead to volatility in the pricing of the products we distribute, especially carbon steel tubular products, which can influence the buying patterns of our customers. A majority of the products we distribute contain various types of steel, and the worldwide supply and demand for these products, or other steel products that we do not supply, impacts the pricing and availability of our products and, ultimately, our sales and operating profitability.
- *Economic Conditions.* The demand for the products we distribute is dependent on the general economy, the energy and industrials sectors and other factors. Changes in the general economy or in the energy and industrials sectors (domestically or internationally) can cause demand for the products we distribute to materially change. For instance, the recent economic downturn decreased demand for the products we distribute, resulting in lower sales volumes, and a prolonged economic downturn could have a material impact on our business.
- *Customer, Manufacturer and Distributor Inventory Levels of PVF and Related Products.* Customer, manufacturer and distributor inventory levels of PVF and related products can change significantly from period to period. Increases in our customers' inventory levels can have an adverse effect on the demand for the products we distribute when customers draw from inventory rather than purchase new products. Reduced demand, in turn, would likely result in reduced sales volume and overall profitability. Increased inventory levels by manufacturers or other distributors can cause an oversupply of PVF and related products in our markets and reduce the prices that we are able to charge for the products we distribute. Reduced prices, in turn, would likely reduce our profitability. Conversely, decreased customer and manufacturer inventory levels may ultimately lead to increased demand for our products and would likely result in increased sales volumes and overall profitability.

## Outlook

During 2010, the industry has seen oil prices stabilize, while natural gas prices have weakened. U.S. drilling activity has increased, primarily in the shale basin regions, and oil drilling now represents over 40% of the total rig count, its highest level since 1988. In the United States, we have seen the activity increase across the major shale regions, such as the Marcellus, Eagle Ford and Bakken, and have shipped approximately 23% more tons of energy carbon steel tubular products during 2010 as compared to 2009. Major capital projects in the downstream market continue to be delayed and our major customers are working from relatively conservative budgets, so we anticipate that there will be a time lag before we see a significant increase in our downstream activity.

Our upstream end market performance increased slightly in 2010 as compared to 2009, with an increase in drilling activities in the major shale regions, in particular the Eagle Ford and Bakken shale regions. In the U.S., the average total rig count was up 42% in 2010 as compared to 2009. However, lower natural gas prices have begun to impact certain shale regions, such as Haynesville and Barnett, and rig counts in those areas have begun to decline. In the Gulf of Mexico, the United States government initiated a moratorium on deepwater drilling, which applied to any deepwater floating facilities with drilling activities, which was scheduled to last through November 2010. The moratorium on deepwater drilling was lifted in October 2010, but there remains uncertainty on the timing of approval for permits under the new rules and we do not anticipate a recovery in deepwater drilling until the third to

fourth quarter of 2011. In Canada, the average total rig count was up 59% in 2010 as compared to 2009, although lower natural gas prices are starting to impact the rig count in Canada as well. We have seen an increase in maintenance, repair and operations (“MRO”), particularly in the Canadian heavy oil, and tar sands regions, which has mitigated the downturn in project oriented work elsewhere in Canada.

With natural gas prices weakening and oil drilling increasing, we have strengthened our position within the large oil and natural gas liquids regions in North America. During 2010, we acquired The South Texas Supply Company, Inc. (“South Texas Supply”) and operations and assets from Dresser Oil Tools, Inc. (“Dresser”) as part of our strategic focus to increase our presence and commitment to our customers in the active shale regions across North America. South Texas Supply is located in a high activity area of the emerging Eagle Ford shale development and the Dresser assets are located in the Bakken shale development. Both of these formations have heavy concentrations of oil and natural gas liquids and are seeing significant increases in drilling activity. In addition to these acquisitions, we recently have opened new facilities in Horseheads, New York, supporting the activity in the northern Marcellus Shale and in Shreveport, Louisiana and Center, Texas, supporting the activity in the Haynesville Shale.

Our midstream end market performance was relatively stable in 2010 compared to 2009. Our revenues from our natural gas utilities customers were impacted by the colder than average winter weather in early 2010, along with a decrease in pipe pricing for carbon steel and polyethylene pipe. Looking into 2011, we expect the natural gas utility companies to increase their focus on their pipeline integrity. Our sequential gathering and transmission pipeline revenues were up during 2010, as a result of the increase in drilling activity, primarily in the shale basins, and the need for additional pipeline infrastructure.

Our downstream and other industrials end market performance is beginning to experience a slow recovery. Refineries are recognizing slightly improved margins on gasoline and distillates, which normally drive consistent maintenance programs from the MRO portion of this market. The downstream market participants still appear to be very cautious in adding additional major capital spending in refining, based on the current oversupply of capacity in the United States markets. Our maintenance and small capital projects activity to the chemical and general industrials end markets has increased in 2010 and continues to improve along with the general economy. We have seen a slowing of downstream capital and operating expenditures in Europe during the last half of 2010, which has impacted both MRO and small project work. Australasian activity remains steady and significant capital outlays have been announced for the liquefied natural gas (“LNG”) green field development in this area.

We witnessed global steel price increases throughout much of 2010, and steel prices for the products that we sell continue a generally upward trend, as a result of relatively greater demand, as evidenced by generally stronger drilling and completion activities, industrial activity, and higher raw material commodity prices. Finally, the flooding in Australia has disrupted the supply of coking coal, iron ore and nickel, and this and other factors have led to further increases in steel’s raw material prices.

The breakdown of our sales by end market for the years ended December 31, 2010, 2009 and 2008 was as follows:

	Year Ended December 31,		
	2010	2009	2008
Upstream	45%	44%	45%
Midstream	23%	24%	22%
Downstream and other industrials	32%	32%	33%
	<u>100%</u>	<u>100%</u>	<u>100%</u>

As a percentage of sales, our upstream activity increased slightly, approximating 45% of our sales during 2010, compared to 44% of our sales during 2009. North America natural gas rig counts, which account for approximately 58% of the total North America rig count activity, increased approximately 18% on a year-over-year basis. We saw an improvement of approximately 7% in our North America upstream sales from 2009 to 2010, due to an increase in our MRO activity, as well as higher OCTG volumes, although OCTG prices remained relatively stable in the second half of 2010. Internationally, our upstream activity decreased due to significant reductions in E&P spending in the North Sea.

As a percentage of sales, our midstream activity, including pipelines, well tie-ins and natural gas utilities, remained relatively consistent, to 23% of sales during 2010 from 24% of sales during 2009. Our gathering and transmission pipeline sales increased approximately 6% in 2010, primarily in the Haynesville and Marcellus shale plays. Our natural gas utilities MRO activity declined 11%, offsetting the increase in our gathering and transmission pipeline sales. Additionally, the proportion of our end market revenues shifted slightly to the upstream and downstream markets with the acquisition of Transmark in October 2009.

As a percentage of sales, our downstream and other industrials sales were relatively stable year-over-year at 32% of sales. Despite some recent improvement, U.S. refineries continue to be challenged by tight margins and overseas production capacity additions. Although U.S. refinery utilization improved in 2010 from a low point of 77% at the end of January to a high point of 91% at the end of July, utilization has declined to 88% at the end of December. In North America, customers continue to delay certain project work, as they seek to preserve capital and delay capital and other expenditures until 2011 or later. Our sales to the chemicals and the general industrials markets continued to improve in line with the general economy during 2010, increasing 24% year over-year. Our International segment, operated through MRC Transmark, has a greater focus on oil and a lesser focus on natural gas as compared to our North American segment. Our downstream activity in Europe declined, as we have seen slowdowns in capital expenditure projects in the refining sector of Europe, due to shrinking refining margins and capital investment constraints. In Asia and Australasia, activity has decreased due to reductions in our customers' capital spending programs.

*Sales.* Our sales were \$3.85 billion for the year ended December 31, 2010, as compared to the \$3.66 billion for the year ended December 31, 2009, an increase of 5%.

Although our North American sales were down slightly year-over-year, we started to see signs of an improving economy beginning in the fourth quarter of 2009. The previous year's results included the carryover effect from high average capital and other expenditures during 2008, which was evident in our strong results through the first four months of 2009. As the economic environment in which we operate improved, including the year-over-year growth in rig counts and commodity prices, our sales have followed. The fourth quarter of 2010 represented our fifth consecutive quarter of revenue growth. During the year ended December 31, 2010, the U.S. Gross Domestic Product ("GDP") expanded by 2.9%, compared with a 2.6% contraction during the year ended December 31, 2009.

Internationally, our sales have weakened in 2010, due to reduced capital and other expenditures and project delays by our customers, especially in our downstream end market.

Sales of energy carbon steel tubular products accounted for approximately 38% and 40% of our total sales for the years ended December 31, 2010 and 2009. The change in sales of our energy carbon steel tubular products from 2009 to 2010 can be attributed to an approximate 22% increase in sales volumes, offset by an approximate 11% decrease in price. Substantially all of our energy carbon steel tubular products are sold in North America. Our valves, fittings, flanges and other products are not as susceptible to significant price fluctuations and pricing was largely consistent with 2009 levels.

We operate in many foreign countries and are subject to foreign currency rate fluctuations. Approximately 20% of our 2010 revenues were generated in domiciles outside of the United States, compared to 12% in 2009 (principally as a result of the acquisition of Transmark at the end of October 2009).

*Gross Margin.* Our gross margin was \$589 million (or 15.3% of sales) for the year ended December 31, 2010, as compared to \$609 million (or 16.6% of sales) for the year ended December 31, 2009.

Our North American gross margin decreased to 14.0% in 2010, from 16.4% in 2009. During the year ended December 31, 2010, we recognized \$75 million in increased cost of sales related to our use of the last in-first-out ("LIFO") method of accounting for inventory costs, compared to an \$116 million decrease in cost of sales for the year ended December 31, 2009. Also, during the year ended December 31, 2009, we recognized a \$46 million inventory write-down; there was no significant inventory write-down during the year ended December 31, 2010. In addition, we continue to work through higher cost inventory, from the carryover effect of 2008. Although a majority of the inventory was worked through in 2009, and to a lesser extent in 2010, some small amounts remain. These factors resulted in a reduction in our gross margins from 2009 to 2010.

Internationally, our margin remained strong, increasing to 34.0% of sales in 2010 from 31.7% of sales in 2009.

*Selling, General and Administrative ("SG&A") Expenses.* Our selling, general and administrative expenses were \$448 million (or 11.6% of sales) for the year ended December 31, 2010, as compared to \$409 million (or 11.2% of sales) for the year ended December 31, 2009. Our North American SG&A expenses as a percentage of sales decreased to 10.7% from 11.0%, as we implemented various cost savings initiatives, including reducing employee headcount by 2%, to right size our operations in light of the economic environment we faced. With our International business softening, we are currently evaluating similar cost savings initiatives for our International segment for 2011.

*Goodwill Impairment Charge.* During 2009, our earnings progressively decreased due to the reductions in our customers' expenditure programs caused by the global economic recession, reductions in oil and natural gas commodity prices and other factors. These reductions resulted in reduced demand for our products and lower sales prices/margins, which altered our view of our marketplace. Consequently, we revised certain long-term projections for our business, which in turn impacted its estimated fair value. As a result, we concluded that the carrying value of our North American reporting unit exceeded its fair value and recorded a non-cash goodwill impairment charge in the amount of \$310 million during the year ended December 31, 2009. There was no such goodwill impairment charge recorded during the year ended December 31, 2010.

*Operating Income (Loss).* Operating income was \$70 million for the year ended December 31, 2010, as compared to an operating loss of \$170 million for the year ended December 31, 2009, an improvement of \$240 million. The results of 2009 were impacted by the \$310 million non-cash goodwill impairment charge, as well as the \$46 million non-cash inventory write-down.

*Interest Expense.* Our interest expense was \$140 million for the year ended December 31, 2010, as compared to \$117 million for the year ended December 31, 2009. The increase was due to a higher weighted-average interest rate, including the impact of our interest rate swap agreements and various commitment fees, which increased to 8.5% during 2010 from 6.6% in 2009. The issuance of our 9.50% senior secured notes in December 2009 and February 2010 had the impact of increasing the interest rate that we pay on \$1.05 billion of debt by approximately 250 basis points. Also, in connection with the amendment to our principal revolving credit facility, the interest rate and commitment fees on such facility increased by approximately 200 basis points and 12.5 basis points, respectively.

*Other, net.* We use derivative instruments to help manage our exposure to interest rate risks and certain foreign currency risks. The change in the fair market value of our derivatives reduced earnings by \$5 million for the year ended December 31, 2010 and increased earnings by \$9 million for the year ended December 31, 2009.

*Income Tax Benefit (Expense).* Our income tax benefit was \$23 million for the year ended December 31, 2010, as compared to income tax expense of \$13 million for the year ended December 31, 2009. Our effective tax rates were 31.1% for the year ended December 31, 2010 and (4.7)% for the year ended December 31, 2009. The 2010 rate differs from the federal statutory rate of 35% principally as a result of the impact of differing foreign income tax rates, which included the establishment of a valuation allowance related to certain foreign net operating loss carryforwards. The 2009 rate differs from the federal statutory rate primarily as a result of our nondeductible goodwill impairment charge.

*Net (Loss).* Our net loss was \$52 million for the year ended December 31, 2010 as compared to \$292 million for the year ended December 31, 2009, an improvement of \$240 million, primarily as a result of the \$310 million goodwill impairment charge recorded in 2009.

*Adjusted EBITDA.* Adjusted EBITDA (as calculated for purposes of the indenture governing the exchange notes) was \$150 million for the year ended December 31, 2010, as compared to \$334 million for the year ended December 31, 2009.

The following table reconciles Adjusted EBITDA with our net income (loss), as derived from our financial statements (in millions):

	Year Ended December 31,	
	2010	2009
Net (loss)	\$ (51.8)	\$(291.7)

- (1) Other non-recurring and non-cash expenses include transaction related expenses, equity based compensation and other items added back to net income pursuant to our debt agreements.
- (2) Adjusted EBITDA includes the impact of our LIFO costing methodology, which resulted in an increase in cost of sales of \$75 million in 2010 and a decrease in cost of sales of \$116 million in 2009.

*Sales.* Our sales were \$3.66 billion for the year ended December 31, 2009, as compared to \$5.26 billion for the year ended December 31, 2008.

Our North American sales decreased approximately \$1.6 billion (31%), primarily due to reduced operating expenses and capital and other expenditures by our customers. Although our strong 2008 results carried over into the first four months of 2009, our results suffered from the global economic slowdown. Both the average rig counts in North America and commodity prices substantially fell, as the U.S. Gross Domestic Product contracted by 2.6% in 2009, compared to being virtually flat for the 2008 year.

*Gross Margin.* Our gross margin was \$609 million (or 16.6% of sales) for the year ended December 31, 2009, as compared to \$1,038 million (or 19.8% of sales) for the year ended December 31, 2008.

Our North American gross margin decreased to 16.4% from 19.8%. During the year ended December 31, 2009, we recognized a \$116 million decrease in our cost of sales related to our use of the LIFO method of accounting for inventory costs, compared to an \$126 million increase in cost of sales for the year ended December 31, 2008.

We perform an internal analysis of our inventory on a quarterly basis, comparing the carrying value of our inventory to the estimated market value of the inventory. As a result of this analysis, we recognized a \$46 million inventory write-down; there was no such inventory write-down during the year ended December 31, 2008.

*Selling, General and Administrative ("SG&A") Expenses.* Our selling, general and administrative expenses were \$409 million (or 11% of sales) for the year ended December 31, 2009, as compared to \$482 million (or 9% of sales) for the year ended December 31, 2008. Our North American SG&A expenses decreased 17%, due to a decrease in personnel costs and an overall effort to reduce our expenses due to a reduction in our sales volumes. As part of our cost savings initiatives, we reduced our North American headcount by approximately 18%.

*Goodwill Impairment Charge.* During 2009, our earnings progressively decreased due to the reductions in our customers' expenditure programs caused by the global economic recession, reductions in oil and natural gas commodity prices and other factors. These reductions resulted in reduced demand for our products and lower sales prices/margins, which altered our view of our marketplace. Consequently, we revised certain long-term projections for our business, which in turn impacted its estimated fair value. As a result, we concluded that the carrying value of our North American reporting unit exceeded its fair value and recorded a non-cash goodwill impairment charge in the amount of \$310 million during the year ended December 31, 2009. There was no such goodwill impairment charge recorded during the year ended December 31, 2008.

*Operating (Loss) Income.* Including the impact of the \$310 million goodwill impairment charge, our operating loss was \$171 million for the year ended December 31, 2009, as compared to operating income of \$500 million for the year ended December 31, 2008.

*Interest Expense.* Our interest expense was \$117 million for the year ended December 31, 2009, as compared to \$85 million for the year ended December 31, 2008. The increase of \$32 million was due to an increase in the average debt balances during the year. The increase in the average debt balances was due to: (i) debt assumed in conjunction with the LaBarge acquisition (October 2008), (ii) debt incurred for working capital expansion during the first quarter of 2009, (iii) debt incurred for the May 2008 dividend recapitalization transaction, and (iv) debt assumed in conjunction with the Transmark acquisition (October 2009). Also, as a result of the 2009 de-designation and termination of our \$700 million interest rate swap agreement, we recorded \$12 million and \$16 million, respectively, to interest expense. Our weighted average interest rates increased slightly to 6.6% from 6.5%.

*Other, net.* We recorded a net gain on early extinguishment of debt of \$1 million for the year ended December 31, 2009. We purchased and retired \$10 million of junior term loan facility debt in March 2009, resulting in a gain on early extinguishment of debt of \$6 million (\$4 million, net of deferred income taxes). We purchased and retired \$25 million of junior term loan facility debt in April 2009, resulting in a gain of \$10 million (\$6 million, net of deferred income taxes). We used the proceeds from the sale of the notes issued in December 2009 to pay off our term loan facility and our junior term loan facility. In connection with these payoffs, we wrote off approximately \$14 million of unamortized debt issue costs that pertained to those facilities. We had no such extinguishments of debt during the year ended December 31, 2008.

We use derivative instruments to help manage our exposure to interest rate risks and certain foreign currency risks. The change in the fair market value of our derivatives increased our earnings by \$9 million for the year ended December 31, 2009 and reduced our earnings by \$6 million for the year ended December 31, 2008.

*Income Tax Benefit (Expense).* Our income tax expense was \$13 million for the year ended December 31, 2009, as compared to \$153 million for the year ended December 31, 2008. Our effective tax rates were (4.7%) and 37.7% for the years ended December 31, 2009 and 2008, respectively. These rates differ from the federal statutory rate of 35% principally as a result of our goodwill impairment charge and state income taxes. Partially offsetting these decreases was an increase in taxes attributable to our international operations. Excluding the impact of our goodwill impairment charge, our effective tax rate for the year ended December 31, 2009 would have been 41.9%.

**Net (Loss).** Our net loss was \$292 million for the year ended December 31, 2009 as compared to net income of \$253 million for the year ended December 31, 2008. Excluding the impact of MRC Transmark (\$4 million), net income decreased \$550 million as a result of the items noted above, including, in particular, the \$310 million goodwill impairment charge.

**Adjusted EBITDA.** Adjusted EBITDA (as calculated for purposes of the indenture governing the exchange notes) was \$334 million for the year ended December 31, 2009, as compared to \$618 million for the year ended December 31, 2008.

The following table reconciles Adjusted EBITDA with our net (loss) income, as derived from our financial statements (in millions):

## Financial Condition and Cash Flows

### Financial Condition

The following table sets forth selected balance sheet data for the periods indicated below (in millions):

	December 31, 2010	December 31, 2009
Inventory	\$ 765.4	\$ 871.7
Working capital	842.6	930.2
Long-term debt, including current portion	1,360.2	1,452.6

Starting in 2010, we have been emphasizing a shift in our sales to higher gross margin products. Typically, oil country tubular goods (within our energy carbon steel tubular product portfolio) has generated the lowest gross margin. In alignment with this shift in emphasis, we have been re-balancing our inventories. At the end of 2010, our energy carbon steel tubular products constituted approximately 45% of our inventory balance, down from 56% at the end of 2009. Conversely, our oilfield and natural gas distribution products, which typically generate a higher gross margin, comprised 55% of our inventory at the end of 2010, up from 44% at the end of 2009.

Our working capital decreased 9%, as reduction in inventories was offset by volume related increases in accounts receivable and accounts payable, resulting in a \$92 million reduction in long-term borrowings. We closely monitor our working capital position to ensure that we have the appropriate flexibility for our operations.

## Cash Flows

The following table sets forth our cash flows for the periods indicated below (in millions):

	Year Ended December 31,		
	2010	2009	2008
Net cash provided by (used in):			
Operating activities	\$ 112.5	\$ 505.5	\$ (137.4)
Investing activities	(16.2)	(66.9)	(314.2)
Financing activities	(97.9)	(393.9)	452.0
Net (decrease) increase in cash and cash equivalents	\$ (1.6)	\$ 44.7	\$ 0.4
Effect of foreign exchange rate on cash	\$ 1.7	\$ (0.6)	\$ 1.7

### *Operating Activities*

Net cash provided by operating activities decreased by \$393 million to \$113 million for the year ended December 31, 2010, primarily from operations. Net cash provided by operations increased \$643 million from 2008 to 2009, primarily from changes in our working capital, most notably inventory, as we implemented our Inventory Reduction Plan in response to changing market conditions. This provided \$367 million of cash in 2009 as compared to using \$462 million in 2008.

### *Investing Activities*

Net cash used in investing activities decreased by \$51 million to \$16 million for the year ended December 31, 2010. In each year, our net cash used primarily related to our acquisition activity. In 2010, \$12 million was used to acquire South Texas and Dresser. In 2009, \$56 million was used to acquire Transmark. In 2008, \$299 million was used for three transactions: (1) acquisition of LaBarge Pipe & Steel Company (\$152 million), (2) purchase of the remaining 49% interest in Midfield Supply ULC (\$132 million), and (3) carryover from the Red Man Pipe & Supply Co. acquisition (\$15 million).

Our capital expenditures, net, are typically approximately 0.3% of our sales for any given year.

### *Financing Activities*

Net cash provided by (used in) financing activities decreased by \$296 million to \$98 million for the year ended December 31, 2010. The decrease represents our discipline in managing our working capital and paying down our indebtedness. The decrease from 2008 to 2009 reflected our efforts to reduce our working capital, primarily inventories, the proceeds of which were used to reduce our outstanding debt balances. During 2009, we substantially reduced the balance of our indebtedness. Excluding the impact of the Transmark acquisition and costs associated with the notes, our debt is down from its peak in February 2009 to its low point in April 2010 by approximately \$580 million. As a result of this reduction, we reduced the balance of our revolving credit facilities by approximately \$343 million during 2009. Also, in conjunction with the various amendments to our credit facilities and the issuance of the notes, we paid \$27 million in debt issuance costs, which will be amortized over the life of the respective facility. During 2008, we increased the balance on our revolving credit facilities to support the growth of our business, both for acquisitions and for working capital. In 2008, we received proceeds of \$897 million, partially offset by our dividend recapitalization of \$475 million to our shareholders.

## Liquidity and Capital Resources

Our primary sources of liquidity consist of cash generated from our operating activities, existing cash balances and borrowings under our existing revolving credit facilities. Our ability to generate sufficient cash flows from our operating activities will continue to be primarily dependent on our sales of PVF and other products and services to our customers at margins sufficient to cover our fixed and variable expenses. As of December 31, 2010 and 2009, we had cash and cash equivalents of \$56 million. A substantial portion of our cash and cash equivalents is maintained in

the accounts of our various foreign subsidiaries and, if such amounts were transferred among countries or repatriated to the U.S., such amounts may be subject to additional tax liabilities.

Our credit facilities consist of a \$900 million revolving credit facility in the U.S., two credit facilities of our Canadian subsidiary and a credit facility of our international subsidiary. We maintain these facilities primarily to finance our working capital, as well as certain mergers and acquisitions. At December 31, 2010, we had \$475 million available under these credit facilities. As noted above, our ability to transfer funds among countries could be hampered by additional tax liabilities imposed as a result of these transfers. From time to time, we may consider opportunistic refinancing of our outstanding indebtedness based on market conditions and the needs of our business.

We also have \$1.05 billion of 9.50% senior secured notes due December 15, 2016 (the “notes”) outstanding. In December 2009, \$1.0 billion of notes were issued and the net proceeds of the offering of the notes were primarily used to pay all the outstanding borrowings under our \$575 million term loan facility (the “Term Loan Facility”) and our \$450 million junior term loan facility (the “Junior Term Loan Facility”). This financing transaction enabled us to gain more operating flexibility, in that several of our most restrictive covenants were eliminated. In February 2010, we issued an additional \$50.0 million of notes and applied the net proceeds to repay amounts outstanding under our Revolving Credit Facility.

Our credit ratings are below “investment grade” and as such could impact both our ability to raise new funds as well as the interest rates on our future borrowings. Our ability to incur additional debt is restricted by our existing obligations. We were in compliance with covenants under our various credit facilities at December 31, 2010.

We believe our sources of liquidity will be sufficient to satisfy the anticipated cash requirements associated with our existing operations for at least the next twelve months. However, our future cash requirements could be higher than we currently expect as a result of various factors. Additionally, our ability to generate sufficient cash from our operating activities depends on our future performance, which is subject to general economic, political, financial, competitive and other factors beyond our control. Our business may not generate sufficient cash flow from operations, and future borrowings may not be available to us under our credit facilities in an amount sufficient to enable us to pay our indebtedness or to fund our other liquidity needs. We may seek to sell assets to fund our liquidity needs but may not be able to do so.

## Contractual Obligations, Commitments and Contingencies

### *Contractual Obligations*

The following table summarizes our minimum payment obligations as of December 31, 2010 relating to long-term debt, interest payments, capital leases, operating leases, purchase obligations and other long-term liabilities for the periods indicated (in millions):

	<u>Total</u>	<u>2011</u>	<u>2012 to 2013</u>	<u>2014 to 2015</u>	<u>After 2015</u>
Long-term debt	\$ 1,360.2	\$ —	\$ 332.3	\$ —	\$ 1,027.9
Interest payments(1)	625.4	110.8	219.5	199.5	95.6
Interest rate swap	12.0	9.5	2.5	—	—
Capital leases	8.6	1.2	2.4	1.8	3.2
Operating leases	90.9	27.6	38.7	19.0	5.6
Purchase obligations(2)	349.9	349.9	—	—	—
Other long-term liabilities	17.8	—	—	—	17.8
Total	<u>\$ 2,464.8</u>	<u>\$ 499.0</u>	<u>\$ 595.4</u>	<u>\$ 220.3</u>	<u>\$ 1,150.1</u>

(1) Interest payments are based on interest rates in effect at December 31, 2010 and assume contractual amortization payments.

(2) Purchase obligations reflect our commitments to purchase PVF products in the ordinary course of business. While our vendors often allow us to cancel these purchase orders without penalty, in certain cases cancellations may subject to cancellation fees or penalties, depending on the terms of the contract.

We historically have been an acquisitive company. We expect to fund future acquisitions primarily with cash flows from (i) borrowings, either the unused portion of our facilities or new debt issuances, (ii) cash provided by operations, and/or (iii) may also issue additional equity in connection with such acquisitions.

## **Description of Our Indebtedness**

### ***Revolving Credit Facility***

McJunkin Red Man Corporation is the borrower under a \$900 million Revolving Credit Facility. The description of the Revolving Credit Facility presented below gives effect to the amendment to the Revolving Credit Facility entered into in December 2009. See “Amendment” below.

*Letter of Credit and Swingline Sublimits.* The Revolving Credit Facility provides for the extension of both revolving loans and swingline loans and the issuance of letters of credit. The aggregate principal amount of revolving loans outstanding at any time under the Revolving Credit Facility may not exceed \$900 million, subject to adjustments based on changes in the borrowing base and less the sum of aggregate letters of credit outstanding and the aggregate principal amount of swingline loans outstanding, provided that the borrower may elect to increase the limit on the revolving loans outstanding as described in “Incremental Facilities” below. There is a \$60 million sub-limit on swingline loans and the total letters of credit outstanding at any time may not exceed \$60 million.

*Maturity.* The revolving loans have a maturity date of October 31, 2013 and the swingline loans have a maturity date of October 24, 2013. Any letters of credit outstanding under the Revolving Credit Facility will expire on October 24, 2013.

*Borrowing Base.* Availability under the \$900 million facility is subject to a borrowing base. The borrowing base under the Revolving Credit Facility at any time is equal to 85% of the sum of eligible accounts receivable and the net orderly liquidation value of eligible inventory of us and the guarantors of the facility, in each case subject to customary reserves and eligibility criteria. As of December 31, 2010, \$286 million of borrowings were outstanding and, due to limitations imposed by the borrowing base, \$360 million was available under the Revolving Credit Facility.

*Interest Rate and Fees.* The revolving loans bear interest at a rate per annum equal to, at the borrower’s option, either (i) the greater of the prime rate and the federal funds effective rate plus 0.50%, plus in either case (a) 2.00% if the borrower’s consolidated total debt to Consolidated EBITDA ratio is greater than or equal to 2.75 to 1.00, (b) 1.75% if such ratio is greater than or equal to 2.00 to 1.00 but less than 2.75 to 1.00, or (c) 1.50% if such ratio is less than 2.00 to 1.00; or (ii) LIBOR plus (a) 3.00% if the borrower’s consolidated total debt to Consolidated EBITDA ratio is greater than or equal to 2.75 to 1.00, (b) 2.75% if such ratio is greater than or equal to 2.00 to 1.00 but less than 2.75 to 1.00, or (c) 2.50% if such ratio is less than 2.00 to 1.00. Interest on swingline loans is calculated on the basis of the rate described in clause (i) of the preceding sentence. At December 31, 2010, our consolidated total debt to Consolidated EBITDA ratio was 8.8 to 1.0. The weighted average interest rate on the revolving loans outstanding at December 31, 2010 was 3.34%.

During the period from and including the effective date of the amendment (December 21, 2009) to but excluding the date that we delivered financial statements to the Revolving Credit Facility lenders for the fiscal quarter ending on March 31, 2010, the revolving loans bore interest at a rate per annum equal to, at our option, either the greater of the prime rate and the federal funds effective rate plus 2.50%, or LIBOR plus 3.00%, without regard to the ratio of our consolidated total debt to Consolidated EBITDA.

Additionally, the borrower is required to pay a commitment fee with respect to unutilized revolving credit commitments at a rate per annum equal to (i) 0.50% if the borrower’s consolidated total debt to Consolidated EBITDA ratio is greater than or equal to 2.75 to 1.00 and (ii) 0.375% if such ratio is less than 2.75 to 1.00. The borrower is also required to pay fees on the stated amounts of outstanding letters of credit for the account of all revolving lenders at a per annum rate equal to (i) 2.875% if the borrower’s consolidated total debt to Consolidated EBITDA ratio is greater than or equal to 2.75 to 1.00, (ii) 2.625% if such ratio is greater than or equal to 2.00 to 1.00 but less than 2.75 to 1.00, or (iii) 2.375% if such ratio is less than 2.00 to 1.00. The borrower is required to pay a fronting fee for the account of the letter of credit issuer in respect of each letter of credit issued by it at a rate for each day equal to 0.125% per annum on the average daily stated amount of such letter of credit. The borrower is also

obligated to pay directly to the letter of credit issuer upon each issuance of, drawing under, and/or amendment of, a letter of credit issued by it such amount as the borrower and the letter of credit issuer agree upon for issuances of, drawings under or amendments of, letters of credit issued by the letter of credit issuer. At December 31, 2010, our consolidated total debt to Consolidated EBITDA ratio was 8.8 to 1.0.

*Prepayments.* The borrower may voluntarily prepay revolving loans and swingline loans in whole or in part at the borrower's option, in each case without premium or penalty. If at any time the aggregate amount of outstanding loans, unreimbursed letter of credit drawings and undrawn letters of credit under the Revolving Credit Facility exceeds the total revolving credit commitments and the borrowing base, the borrower will be required to repay outstanding loans or cash collateralize letters of credit in an aggregate amount equal to such excess, with no reduction of the commitment amount. If the amount available under the Revolving Credit Facility is less than 7% of total revolving credit commitments for any period of five consecutive business days, or an event of default pursuant to certain provisions of the Revolving Credit Facility has occurred, the borrower would be required to transfer funds from certain blocked accounts daily into a collection account under the exclusive control of the agent under the Revolving Credit Facility. While we will continue to draw down and repay the facility during the normal course of business, we currently have no plan to prepay the Revolving Credit Facility in full prior to its maturity date.

*Incremental Facilities.* Subject to certain terms and conditions, the borrower may request an increase in revolving loan commitments. The increase in revolving loan commitments may not exceed the sum of (i) \$150 million, plus (ii) only after the entire amount in the preceding clause (i) is drawn, an amount such that on a pro forma basis after giving effect to the new revolving credit commitments and certain other specified transactions, the secured leverage ratio will be no greater than 4.75 to 1.00. The borrower's ability to borrow under such incremental facilities, however, would still be limited by the borrowing base. Any lender that is offered to provide all or part of the new revolving loan commitments may elect or decline, in its sole discretion, to provide such new commitments. No lender is required to fund any of such amounts.

*Collateral and Guarantors.* The obligations under the Revolving Credit Facility are guaranteed by the borrower's wholly owned domestic subsidiaries and secured, subject to certain significant exceptions, by a senior security interest in personal property consisting of and arising from inventory and accounts receivable.

*Covenants.* The Revolving Credit Facility contains customary covenants. This agreement, among other things, restricts, subject to certain exceptions, the ability of the borrower and its subsidiaries to incur additional indebtedness, create liens on assets, engage in mergers, consolidations or sales of assets, dispose of subsidiary interests, make investments, loans or advances, pay dividends, make payments with respect to subordinated indebtedness, enter into sale and leaseback transactions, change the business conducted by the borrower and its subsidiaries taken as a whole, and enter into agreements that restrict subsidiary dividends or limit the ability of the borrower or any subsidiary guarantor to create or keep liens for the benefit of the lenders with respect to the obligations under the Revolving Credit Facility. The Revolving Credit Facility requires the borrower to enter into interest rate swap, cap and hedge agreements for purposes of ensuring that no less than 50% of the aggregate principal amount of the total indebtedness of the borrower and its subsidiaries then outstanding is either subject to such interest rate agreements or bears interest at a fixed rate. At December 31, 2010, we had 100% of our floating interest rate debt hedged with interest rate contracts.

Although the Revolving Credit Facility does not require the borrower to comply with any financial ratio maintenance covenants, if less than 7% of the then-outstanding credit commitments are available to be borrowed under the Revolving Credit Facility at any time, the borrower will not be permitted to borrow additional amounts unless its pro forma ratio of Consolidated EBITDA to consolidated fixed charges is at least 1.00 to 1.00.

*Events of Default.* The Revolving Credit Facility contains customary events of default. The events of default include the failure to pay interest and principal when due, failure to pay fees and any other amounts owed under the Revolving Credit Facility when due, a breach of certain covenants in the Revolving Credit Facility, a breach of any representation or warranty contained in the Revolving Credit Facility in any material respect, defaults in payments with respect to any other indebtedness in excess of \$30 million, defaults with respect to other indebtedness in excess of \$30 million that have the effect of accelerating such indebtedness, bankruptcy, certain events relating to employee benefits plans, failure of a material subsidiary's guarantee to remain in full force and effect, failure of the security agreement, pledge agreements pursuant to which the stock of any material subsidiary is pledged, or any

mortgage for the benefit of the lenders under the Revolving Credit Facility to remain in full force and effect, entry of one or more judgments or decrees against the borrower or its restricted subsidiaries involving a liability of \$30 million or more in the aggregate, and the invalidation of subordination provisions of any document evidencing permitted additional debt having a principal amount in excess of \$15 million. If an event of default were to occur with respect to this facility, the maturity of this facility would be accelerated to payable upon demand. The event of default on this facility would cause us to cross-default on the notes, whereby the note holders would have the right to accelerate the maturity of the notes to payable upon demand.

The Revolving Credit Facility also contains an event of default upon the occurrence of a change of control. Under the Revolving Credit Facility, a “change of control” shall have occurred if (i) the Goldman Sachs Funds and certain of their affiliates shall cease to beneficially own at least 35% of the voting power of the outstanding voting stock of the borrower (other than as a result of one or more widely distributed offerings of the common stock of the borrower or any direct or indirect parent of the borrower); or (ii) any person, entity or “group” (within the meaning of Section 13(d) or 14(d) of the Securities Exchange Act of 1934, as amended) shall have acquired beneficial ownership of a percentage of the voting power of the outstanding voting stock of the borrower that exceeds the percentage of the voting power of such voting stock then beneficially owned, in the aggregate, by the Goldman Sachs Funds and certain of their affiliates, unless, in the case of either clause (i) or (ii) above, the Goldman Sachs Funds and certain of their affiliates have, at such time, the right or the ability by voting power, contract or otherwise to elect or designate for election at least a majority of the board of directors of the borrower; or (iii) a majority of the board of directors of the borrower ceases to consist of “continuing directors”, defined as individuals who (a) were members of the board of directors of the borrower on October 31, 2007, (b) who have been a member of the board of directors for at least 12 preceding months, (c) who have been nominated to be a member of the board of directors, directly or indirectly, by the Goldman Sachs Funds and certain of their affiliates or persons nominated by the Goldman Sachs Funds and certain of their affiliates or (d) who have been nominated to be a member of the board of directors by a majority of the other continuing directors then in office.

*Amendment.* In connection with the issuance of the notes in December 2009, we amended the Revolving Credit Facility to permit the issuance of the notes and permit the payment of a one-time dividend by McJunkin Red Man Corporation to McJunkin Red Man Holding Corporation for purposes of repaying the Junior Term Loan Facility. Pursuant to the amendment, we agreed to increase the interest rate margin on outstanding borrowings by an additional 1.50% per annum in all cases whether determined by reference to the greater of prime rate and the federal funds effective rate or to LIBOR, and for all levels of our ratio of consolidated total debt to Consolidated EBITDA. The amendment also fixed the applicable margin at a rate equivalent to the otherwise maximum margin during the period from and including the effective date of the amendment to but excluding the date that we delivered financial statements to the Revolving Credit Facility lenders for the fiscal quarter ending on March 31, 2010. We also agreed to increase the commitment fee under this facility by an additional 0.125% per annum for all levels of our ratio of consolidated total debt to Consolidated EBITDA.

### *Notes*

On December 21, 2009, McJunkin Red Man Corporation issued \$1.0 billion of 9.50% senior secured notes due December 15, 2016 (the “notes”). The proceeds of the offering of the notes were used to pay all the outstanding borrowings under the Term Loan Facility and the Junior Term Loan Facility. McJunkin Red Man Corporation issued an additional \$50 million of notes on February 11, 2010.

The notes mature on December 15, 2016. Interest accrues at 9.50% per annum and is payable semi-annually in arrears on June 15 and December 15, commencing on June 15, 2010. The notes are guaranteed on a senior secured basis by McJunkin Red Man Holding Corporation and all of the current and future wholly owned domestic subsidiaries of McJunkin Red Man Corporation (other than certain excluded subsidiaries) and any of McJunkin Red Man Corporation’s future restricted subsidiaries that guarantee any indebtedness of McJunkin Red Man Corporation or any subsidiary guarantor, including the Revolving Credit Facility (the “Subsidiary Guarantors”).

*Redemption and Repurchase.* At any time prior to December 15, 2012 and subject to certain conditions, the Issuer may, on any one or more occasions, redeem up to 35% of the aggregate principal amount of notes issued under the indenture governing the notes (the “Indenture”) at a redemption price of 109.50%, plus accrued and

unpaid interest, with the cash proceeds of certain qualifying equity offerings. Additionally, at any time prior to December 15, 2012, the Issuer may, on any one or more occasions, redeem all or a part of the notes at a redemption price equal to 100%, plus any accrued and unpaid interest, and plus a make-whole premium. On or after December 15, 2012, the Issuer may redeem all or a part of the notes upon not less than 15 nor more than 60 days' notice, at the redemption prices (expressed as percentages of principal amount) set forth below plus accrued and unpaid interest:

Year	Percentage
2012	107.125%
2013	104.750%
2014	102.375%
2015 and thereafter	100.000%

Upon the occurrence of a change of control, the Issuer will be required to make an offer to repurchase each holder's notes at a repurchase price equal to 101% of their principal amount, plus accrued and unpaid interest to the date of repurchase.

*Covenants.* The Indenture contains covenants that limit the ability of McJunkin Red Man Corporation and its restricted subsidiaries to, among other things, incur additional indebtedness, issue certain preferred stock or disqualified capital stock, create liens, pay dividends or make other restricted payments, make certain payments on debt that is subordinated or secured on a basis junior to the notes, make investments, sell assets, create restrictions on the payment of dividends or other amounts to McJunkin Red Man Corporation from restricted subsidiaries, consolidate, merge, sell or otherwise dispose of all or substantially all of McJunkin Red Man Corporation's assets, enter into transactions with affiliates, and designate subsidiaries as unrestricted subsidiaries.

In connection with issuing the notes, we entered into registration rights agreements in which we agreed to file a registration statement which will permit the Issuer to offer to exchange the notes for a new issue of identical debt securities registered under the Securities Act of 1933. We agreed to file a registration statement for the exchange offer by April 5, 2011 (the "Filing Deadline"), and to use our commercially reasonable efforts to cause the registration statement to be declared effective within 110 days after the Filing Deadline (the "Effectiveness Deadline"). The exchange offer is required to be completed within 30 business days of the Effectiveness Deadline. We also agreed to provide a shelf registration statement to cover resales of the notes under certain circumstances.

*Collateral.* The notes and the guarantees by the Subsidiary Guarantors are secured on a senior basis (subject to permitted prior liens), together with any other notes issued under the Indenture or other debt that is secured equally and ratably with the notes, subject to certain conditions ("Priority Lien Obligations"), equally and ratably by security interests granted to the collateral trustee in all Notes Priority Collateral (as such term is defined in the Indenture) from time to time owned by McJunkin Red Man Corporation or the Subsidiary Guarantors. The guarantee of McJunkin Red Man Holding Corporation of the notes is not secured. The Notes Priority Collateral generally comprises substantially all of McJunkin Red Man Corporation's and the Subsidiary Guarantors' tangible and intangible assets, other than specified excluded assets.

The notes and the guarantees by the Subsidiary Guarantors are also secured on a junior basis (subject to the lien to secure the Revolving Credit Facility and other permitted prior liens) by security interests granted to the collateral trustee in all ABL Priority Collateral (as such term is defined in the Indenture) from time to time owned by McJunkin Red Man Corporation or the Subsidiary Guarantors. Subject to certain exceptions, the ABL Priority Collateral generally comprises substantially all of McJunkin Red Man Corporation's and the Subsidiary Guarantors' accounts receivable, inventory, general intangibles and other assets relating to the foregoing, deposit and securities accounts, and proceeds and products of the foregoing, other than specified excluded assets. Assets owned by the Issuer's non-guarantor subsidiaries and by McJunkin Red Man Holding Corporation are not part of the collateral securing the notes or the Revolving Credit Facility.

***Midfield Supply ULC CAD\$80 Million (USD\$80 million) Revolving Credit Facility***

One of our subsidiaries, Midfield Supply ULC (“Midfield”), is the borrower under a CAD\$80 million (USD\$80 million) revolving credit facility (the “Midfield Revolving Credit Facility”) with Bank of America, N.A. and certain other lenders from time to time parties thereto.

On November 18, 2009, the facility was amended to, among other things, reduce the total revolving credit commitments under the facility from CAD\$150 million (USD\$150 million) to CAD\$60 million (USD\$60 million), extend the maturity from November 2, 2010 to November 18, 2012 and change the pricing terms of the facility. On September 10, 2010, the facility was amended to defer compliance with a leverage ratio covenant until March 31, 2011 and to modify the calculation of a fixed charge covenant ratio for the compliance period ended September 30, 2010. On October 20, 2010, the facility was amended to increase the maximum limit of the facility to CAD\$80 million (USD\$80 million).

The facility provides for the extension of up to CAD\$80 million (USD\$80 million) in revolving loans, subject to adjustments based on the borrowing base and less the aggregate letters of credit outstanding under the facility. Letters of credit may be issued under the facility subject to certain conditions, including a CAD\$10 million (USD\$10 million) sub-limit. The revolving loans have a maturity date of November 18, 2012. All letters of credit issued under the facility must expire at least 20 business days prior to November 18, 2012.

***Borrowing Base.*** Availability under the Midfield Revolving Credit Facility is subject to a borrowing base that at any time is equal to the lesser of 60% of eligible inventory and 85% of the net orderly liquidation value of eligible inventory, subject to customary reserves and eligibility criteria. As of December 31, 2010, USD\$2 million of borrowings were outstanding and USD\$69 million were available under the Midfield Revolving Credit Facility.

***Interest Rate and Fees.*** From the period from November 18, 2009 to December 31, 2009, the revolving loans bore interest at a rate equal to either (i) the Canadian prime rate plus 2.00% or (ii) the greater of 2.00% and the rate of interest per annum equal to the rates applicable to Canadian Dollar Bankers’ Acceptances having a comparable term as the proposed loan displayed on the “CDOR Page” of Reuter Monitor Money Rates Service (the “BA Equivalent Rate”), plus 3.50%. After December 31, 2009, the revolving loans bear interest at a rate equal to either:

- the Canadian prime rate, plus (a) 2.25% if the “average daily availability” (as defined in the loan and security agreement for the facility) for the previous fiscal quarter was less than CAD\$30 million (USD\$30 million), (b) 2.00% if the average daily availability for the previous fiscal quarter was greater than or equal to CAD\$30 million (USD\$30 million) but less than CAD\$60 million (USD\$60 million), or (c) 1.75% if the average daily availability for the previous fiscal quarter was greater than or equal to CAD\$60 million (USD\$60 million), or, at the borrower’s option,
- the BA Equivalent Rate plus (a) 3.75% if the average daily availability for the previous fiscal quarter was less than CAD\$30 million (USD\$30 million), (b) 3.50% if the average daily availability for the previous fiscal quarter was greater than or equal to CAD\$30 million (USD\$30 million) but less than CAD\$60 million (USD\$60 million), or (c) 3.25% if the average daily availability for the previous fiscal quarter was greater than or equal to CAD\$60 million (USD\$60 million).

At December 31, 2010, the weighted average interest rate on borrowings outstanding under the Midfield Revolving Credit Facility was 5.00%.

The borrower must pay a monthly unused line fee with respect to unutilized revolving loan commitments equal to (i) 1.00% if the outstanding amount of borrowings under the facility for the immediately preceding fiscal quarter are greater than 50% of the revolving loan commitments, or (ii) 1.25% if otherwise. The borrower must pay a monthly fronting fee equal to 0.125% per annum of the stated amount of letters of credit issued and must also pay a monthly fee to the agent on the average daily stated amount of letters of credit issued equal to (i) 3.75% if the average daily availability for the previous fiscal quarter was less than CAD\$30 million (USD\$30 million), (ii) 3.50% if the average daily availability for the previous fiscal quarter was greater than or equal to CAD\$30 million (USD\$30 million) but less than CAD\$60 million (USD\$60 million), or (iii) 3.25% if the average daily availability for the previous fiscal quarter was greater than or equal to CAD\$60 million (USD\$60 million).

*Prepayments.* The borrower may prepay the revolving loans from time to time without premium or penalty. While we will continue to draw down and repay the facility during the normal course of business, we currently have no plan to prepay the revolving loans in full prior to its maturity date.

*Collateral and Guarantors.* The Midfield Revolving Credit Facility is secured by substantially all of the personal property of Midfield Supply ULC and its subsidiary guarantors, Mega Production Testing Inc. and Hagan Oilfield Supply Ltd.

*Certain Covenants and Events of Default.* The Midfield Revolving Credit Facility contains customary covenants. These agreements, among other things, restrict, subject to certain exceptions, the ability of the borrower and its subsidiaries to incur additional indebtedness, create liens on assets, make distributions, make investments, sell, lease or transfer assets, make loans or advances, pay certain debt, amalgamate, merge, combine or consolidate with another entity, enter into certain types of restrictive agreements, engage in any business other than the business conducted by the borrower and its subsidiaries on November 18, 2009, enter into transactions with affiliates, become a party to certain employee benefit plans, enter into certain amendments with respect to subordinated debt, make acquisitions, enter into transactions which would reasonably be expected to have a material adverse effect or cause a default, enter into sale and leaseback transactions, and terminate certain agreements.

The Midfield Revolving Credit Facility requires the borrower to maintain Canadian Adjusted EBITDA (as such term is defined in the loan and security agreement for the facility) of (i) CAD\$1.5 million for the two fiscal quarters ending December 31, 2009, (ii) CAD\$4.8 million for the three fiscal quarters ending March 31, 2010 and (iii) CAD\$3.7 million for the four fiscal quarters ending June 30, 2010. Midfield's Adjusted EBITDA was \$5.0 million, \$6.3 million and \$5.5 million for those periods, respectively. The facility also requires the borrower, beginning with the fiscal quarter ending March 31, 2011, to (i) maintain a leverage ratio of no greater than 3.50 to 1.00 and (ii) maintain a fixed charge coverage ratio of at least 1.15 to 1.00. The facility also prohibits the borrower and its subsidiaries from making capital expenditures in excess of CAD\$10 million (USD\$10 million) in the aggregate during any fiscal year, subject to exceptions for certain expenditures and provided that if the actual amount of capital expenditures made in any fiscal year is less than the amount permitted to be made in such fiscal year, up to CAD\$0.25 million (USD\$0.25 million) of such excess may be carried forward and used to make capital expenditures in the succeeding fiscal year. During the year ended December 31, 2010, Midfield's capital expenditures totaled CAD\$0.7 million (USD\$0.7 million).

The Midfield Revolving Credit Facility contains customary events of default. The events of default include, among others, the failure to pay interest, principal and other obligations under the facility's loan documents when due, a breach of any representation or warranty contained in the loan documents, breaches of certain covenants, the failure of any loan document to remain in full force and effect, a default with respect to other indebtedness in excess of CAD\$0.25 million (USD\$0.25 million) if the other indebtedness may be accelerated due to such default, judgments against the borrower and its subsidiaries in excess of CAD\$0.25 million (USD\$0.25 million) in the aggregate, the occurrence of any loss or damage with respect to the collateral if the amount not covered by insurance exceeds CAD\$0.50 million (USD\$0.50 million), cessation or governmental restraint of a material part of the borrower's or a subsidiary's business, insolvency, certain events related to benefits plans, the criminal indictment of a senior officer of the borrower or a guarantor or the conviction of a senior officer of the borrower or a guarantor of certain crimes, an amendment to the shareholders agreement among Midfield Supply ULC, the entity now known as McJunkin Red Man Canada Ltd. and Midfield Holdings (Alberta) Ltd. without the prior written consent of Bank of America, N.A., a "change of control" (as defined in the loan and security agreement for the facility) occurs, and any event or condition that has a material adverse effect on the borrower or a guarantor. If an event of default were to occur with respect to this facility, Bank of America, N.A. would have the right to accelerate the maturity of this facility to payable upon demand. The event of default on this facility would cause us to cross-default on the Revolving Credit Facility, which in turn would cause us to cross-default on the notes. In each instance of cross-default, the debt holders would have the right to accelerate the maturity of the respective obligation to payable upon demand.

### ***Midfield Supply ULC CAD\$15 Million (USD\$15 Million) Facility***

One of our subsidiaries, Midfield Supply ULC (“Midfield”), is also the borrower under a CAD\$15 million (USD\$15 million) credit facility with Alberta Treasury Branches. The facility provides for revolving loans until July 31, 2011 (subject to extension under certain circumstances), after which the revolving loans outstanding under the facility convert to term loans that mature on July 31, 2012 (subject to extension under certain circumstances). The facility is secured by substantially all of the real property and equipment of Midfield Supply ULC and its subsidiary guarantors. The facility contains the same customary covenants and events of default as the Midfield Revolving Credit Facility, as well as its ratio of tangible asset value to borrowings outstanding must be at least 2.00 to 1.00 (at December 31, 2010, this ratio was 2.03 to 1.00). At December 31, 2010, USD\$14 million was outstanding under this facility and the weighted average interest rate on borrowings was 5.86%.

On September 16, 2010, we amended our Midfield term loan facility to defer compliance with a leverage covenant until March 31, 2011 and to defer compliance with a fixed charge coverage ratio until December 31, 2010.

The Midfield CAD\$15 million (USD\$15 million) facility and the Midfield CAD\$80 million (USD\$80 million) facility are subject to an intercreditor agreement which relates to, among other things, priority of liens and proceeds of sale of collateral.

At December 31, 2010, we were in compliance with these covenants, as amended.

### ***Transmark Facility***

Transmark Fcx Group B.V. and its subsidiaries are parties to a credit facility with HSBC Bank PLC, dated September 17, 2010 (the “Transmark Facility”), which consists of a €60 million (USD\$80 million) revolving credit facility, with a €20 million (USD\$27 million) sublimit on letters of credit. At December 31, 2010, USD\$23 million was outstanding on the revolving credit facility, and USD\$46 million was available under the facility and the weighted average interest rate on borrowings was 2.61%.

The facility will be reduced by €10 million (USD\$13 million) over its term, as follows: €0.5 million (USD\$0.7 million) per quarter starting in the fourth quarter of 2010 through the third quarter of 2012, and then by €1.5 million (USD\$2.0 million) per quarter, starting in the fourth quarter of 2012 through the third quarter of 2013.

The facility bears interest at LIBOR or, in relation to any loan in Euros, EURIBOR, plus an applicable margin. The margin is calculated according to the following table:

<b>Leverage Ratio</b>	<b>Margin</b>
Less than or equal to 0.75:1	1.50%
Greater than 0.75:1, but less than or equal to 1.00:1	1.75%
Greater than 1.00:1, but less than or equal to 1.50:1	2.00%
Greater than 1.50:1, but less than or equal to 2.00:1	2.25%
Greater than 2.00:1	2.50%

The facility is secured by substantially all of the assets of MRC Transmark and its wholly owned subsidiaries.

The facility also requires MRC Transmark to maintain: (i) an interest coverage ratio not less than 3.50:1 and (ii) a leverage ratio not to exceed 2.50:1. We were in compliance with these covenants as of and for the year ended December 31, 2010.

### ***Other Commitments***

In the normal course of business with customers, vendors and others, we are contingently liable for performance under standby letters of credit and bid, performance and surety bonds. We were contingently liable for approximately \$16 million of standby letters of credit and bid, performance and surety bonds at December 31, 2010. Management does not expect any material amounts to be drawn on these instruments.

Certain of our international subsidiaries also have trade guarantees given by bankers on their behalf. The amount of these guarantees at December 31, 2010 was approximately €6 million (USD \$8 million).

### Legal Proceedings

We are involved in various legal proceedings and claims, both as a plaintiff and a defendant, which arise in the ordinary course of business. These legal proceedings include claims where we are named as a defendant in lawsuits brought against a large number of entities by individuals seeking damages for injuries allegedly caused by certain products containing asbestos. As of December 31, 2010, we are a defendant in lawsuits involving approximately 940 such claims. Each claim involves allegations of exposure to asbestos-containing materials by a single individual or an individual, his or her spouse and/or family members. The complaints typically name many other defendants. In a majority of these lawsuits, little or no information is known regarding the nature of the plaintiff's alleged injuries or their connection with the products distributed by us. Through December 31, 2010, lawsuits involving over 11,700 claims have been brought against us. No asbestos lawsuit has resulted in a judgment against us to date, with the majority being settled, dismissed or otherwise resolved. In total, since the first asbestos claim brought against us through December 31, 2010, approximately \$1.2 million has been paid to asbestos claimants in connection with settlements of claims against us without regard to insurance recoveries. Of this amount, approximately \$1.0 million has been paid to settle claims alleging mesothelioma, \$0.2 million for claims alleging lung cancer and \$0.1 million for non-malignant claims. The following chart summarizes, for each year since 2006, the approximate number of pending claims, new claims, settled claims, dismissed claims, and approximate total settlement payments, average settlement amount and total defense costs:

	Claims Pending at End of Period	Claims Filed	Claims Settled	Claims Dismissed	Settlement Payments \$	Average Settlement Amount \$	Defense Costs \$
Fiscal year ended December 31, 2006	815	27	6	11	75,000	12,500	179,791
Fiscal year ended December 31, 2007	828	23	4	6	75,500	18,875	218,900
Fiscal year ended December 31, 2008	849	43	15	7	292,500	19,500	336,497
Nine months ended September 28, 2009	894	61	11	5	192,500	17,500	540,113
Fiscal year ended September 30, 2010	942	111	29	34	482,000	16,620	538,354

With the assistance of accounting and financial consultants and our asbestos litigation counsel, we annually conduct analyses of our asbestos-related litigation in order to estimate the adequacy of the reserve for pending and probable asbestos-related claims. These analyses consist of separately estimating our reserve with respect to pending claims (both those scheduled for trial and those for which a trial date had not been scheduled), mass filings (including lawsuits brought in West Virginia each involving many — in some cases over a hundred — plaintiffs, which include little information regarding the nature of each plaintiff's claim and historically have rarely resulted in any payments to plaintiff) and probable future claims. A key element of the analysis is categorizing our claims by the type of disease alleged by the plaintiffs and developing "benchmark" estimated settlement values for each claim category based on our historical settlement experience. These estimated settlement values are applied to each of our pending individual claims. With respect to pending claims where the disease type is unknown, the outcome is projected based on the historic ratio of disease types among filed claims (or "disease mix") and dismissal rate. The reserve with respect to mass filings is estimated by determining the number of individual plaintiffs included in the mass filings likely to have claims resulting in settlements based on our historical experience with mass filings. Finally, probable claims expected to be asserted against us over the next fifteen years are estimated based on public health estimates of future incidences of certain asbestos-related diseases in the general U.S. population. Estimated settlement values are applied to those projected claims. Our annual assessment, dated September 30, 2010, projected that our payments to asbestos claimants over the next fifteen years are estimated to range from \$5 million to \$10 million. Given these estimates and existing insurance coverage that historically has been available to cover substantial portions of our past payments to claimants and defense costs, we believe that our current accruals and associated estimates relating to pending and probable asbestos-related litigation likely to be asserted over the next

fifteen years are currently adequate. Our belief that our accruals and associated estimates are currently adequate, however, relies on a number of significant assumptions, including:

- That our future settlement payments, disease mix and dismissal rates will be materially consistent with historic experience;
- That future incidences of asbestos-related diseases in the U.S. will be materially consistent with current public health estimates;
- That the rates at which future asbestos-related mesothelioma incidences result in compensable claims filings against us will be materially consistent with its historic experience;
- That insurance recoveries for settlement payments and defense costs will be materially consistent with historic experience;
- That legal standards (and the interpretation of these standards) applicable to asbestos litigation will not change in material respects;
- That there are no materially negative developments in the claims pending against us; and
- That key co-defendants in current and future claims remain solvent.

If any of these assumptions prove to be materially different in light of future developments, liabilities related to asbestos-related litigation may be materially different than amounts accrued and/or estimated. Further, while we anticipate that additional claims will be filed in the future, we are unable to predict with any certainty the number, timing and magnitude of such future claims.

Also, there is a possibility that resolution of certain legal contingencies for which there are no liabilities recorded could result in a loss. Management is not able to estimate the amount of such loss, if any. However, in our opinion, after consultation with counsel, the ultimate resolution of all pending matters is not expected to have a material effect on our financial position, although it is possible that such resolutions could have a material adverse impact on results of operations in the period of resolution.

#### **Off-Balance Sheet Arrangements**

We do not have any “off-balance sheet arrangements” as such term is defined within the rules and regulations of the SEC.

#### **Critical Accounting Estimates**

We prepare our consolidated financial statements in accordance with U.S. generally accepted accounting principles. In order to apply these principles, management must make judgments and assumptions and develop estimates based on the best available information at the time. Actual results may differ based on the accuracy of the information utilized and subsequent events. Our accounting policies are described in the notes to our audited financial statements included elsewhere in this prospectus. These critical accounting policies could materially affect the amounts recorded in our financial statements. We believe the following describes significant judgments and estimates used in the preparation of our consolidated financial statements:

*Allowance for Doubtful Accounts:* We evaluate the adequacy of the allowance for losses on receivables based upon periodic evaluation of accounts that may have a higher credit risk using information available about the customer and other relevant data. This formal analysis is inherently subjective and requires us to make significant estimates of factors affecting doubtful accounts, including customer-specific information, current economic conditions, volume, growth and composition of the account, and other factors such as financial statements, news reports and published credit ratings. The amount of the allowance for the remainder of the trade balance is not evaluated individually, but is based upon historical loss experience, adjusted for current economic conditions. Because this process is subjective and based on estimates, ultimate losses may differ materially from those estimates. During 2010 we reduced our allowance for doubtful accounts by approximately \$2 million, as the economic conditions in which we, and our customers, operate improved. At December 31, 2010 and 2009, the allowance for doubtful accounts was \$4.5 million and \$8.8 million, or 0.7% and 1.7% of gross accounts receivable.

*Inventories:* Our inventories are generally valued at the lower of cost (principally last-in, first-out method (“LIFO”)) or market. We record an estimate each month, if necessary, for the expected annual effect of inflation and estimated year-end inventory volume. These estimates are adjusted to actual results determined at year-end. This practice excludes certain inventories, which are held outside of the U.S., totaling \$140 million (approximately 18% of the consolidated total) at December 31, 2010, which were valued at the lower of weighted-average cost or market.

Under the LIFO inventory valuation method, changes in the cost of inventory are recognized in cost of sales in the current period even though these costs may have been incurred at significantly different values. Since the company values most of its inventory using the LIFO inventory costing methodology, a rise in inventory costs has a negative effect on operating results, while, conversely, a fall in inventory costs results in a benefit to operating results. In a period of rising prices, cost of sales recognized under LIFO is generally higher than the cash costs incurred to acquire the inventory sold. Conversely, in a period of declining prices, costs of sales recognized under LIFO are generally lower than cash costs of the inventory sold.

The LIFO inventory valuation methodology is not utilized by many of the companies with which we compete, including foreign competitors. As such, our results of operations may not be comparable to those of our competitors during periods of volatile material costs due, in part, to the differences between the LIFO inventory valuation method and other acceptable inventory valuation methods.

During 2008, in addition to an increase in sales volumes, we experienced inflation in the cost of our products of approximately 21% on a weighted average basis. The increase in our tubular products was even more significant, with 2008 inflation of approximately 28%. In 2009, this trend reversed, with our overall product mix experiencing 15% deflation, with tubular products deflating approximately 20%. As a result of lengthening lead times from our manufacturers during mid to late 2008, we continued to receive inventory during the fourth quarter and into the first quarter of 2009 that was ordered to support the greater demand during mid to late 2008. The resulting inventory overstock, coupled with the deflation we experienced, resulted in the cost of our inventory balance being above market value. As a result of our lower-of-cost-or-market assessment, we recorded a \$46.5 million write-down of our inventory during the year ended December 31, 2009. There were no significant write-downs during the year ended December 31, 2010.

*Impairment of Long-Lived Assets:* Our long-lived assets consist primarily of amortizable intangible assets, which comprise approximately 18% of our total assets. These assets are recorded at fair value at the date of acquisition and are amortized over their estimated useful lives. We make significant judgments and estimates in both calculating the fair value of these assets, as well as determining their estimated useful lives.

The carrying value of these assets is subject to an impairment test when events or circumstances indicate a possible impairment. When events or circumstances indicate a possible impairment, we assess recoverability from future operations using an undiscounted cash flow analysis, derived from the lowest appropriate asset group. If the carrying value exceeds the undiscounted cash flows, we would recognize an impairment charge to the extent that the carrying value exceeds the fair value, which is determined based on a discounted cash flow analysis. During 2009, as the key factors affecting our business declined and our profitability progressively declined throughout the year, we determined that an impairment indicator existed and performed an impairment test on our long-lived assets. This test required us to make forecasts of our future operating results, the extent and timing of future cash flows, working capital, profitability and growth trends. We performed our impairment test as of October 27, 2009 which did not result in an impairment charge. During 2010, no indicators of impairment existed. While we believe our assumptions and estimates are reasonable, the actual results may differ materially from the projected results.

*Goodwill and Other Indefinite-Lived Intangible Assets:* Our goodwill and other indefinite-lived intangible assets comprise approximately 29% of our total assets. Goodwill and intangible assets with indefinite useful lives are tested for impairment annually or more frequently if circumstances indicate that impairment may exist. Historically, we have evaluated the company as one reporting unit and have elected to perform our annual tests for indications of goodwill impairment as of the end of October of each year, updating on an interim basis should indications of impairment exist. As a result of our Transmark acquisition, which closed on October 30, 2009, we began evaluating goodwill for impairment at two reporting units that mirror our two reportable segments (North America and International).

The goodwill impairment test compares the carrying value of the reporting unit that has the goodwill with the estimated fair value of that reporting unit. If the carrying value is more than the estimated fair value, the second step is performed, whereby we calculate the implied fair value of goodwill by deducting the fair value of all tangible and intangible net assets of the reporting unit from the estimated fair value of the reporting unit. Impairment losses are recognized to the extent that recorded goodwill exceeds implied goodwill. Our impairment methodology uses discounted cash flow and multiples of cash earnings valuation techniques, plus valuation comparisons to similar businesses. These valuation methods require us to make certain assumptions and estimates regarding future operating results, the extent and timing of future cash flows, working capital, sales prices, profitability, discount rates and growth trends. As a result of our impairment test, we recognized a \$309.9 million pre-tax impairment charge during the year ended December 31, 2009. No such impairment charges were recognized during the year ended December 31, 2010. While we believe that such assumptions and estimates are reasonable, the actual results may differ materially from the projected results.

**Income Taxes:** Our tax provision is based upon our expected taxable income and statutory rates in effect in each country in which we operate. This provision involves the interpretation of the respective tax laws in each country in which we operate, as well as significant judgments regarding future events, such as the amount, timing and character of income, deductions and tax credits. Changes in tax laws, regulations and our profitability in each respective country could impact our tax liability for any given year. Deferred tax assets and liabilities are recorded for differences between the financial reporting and tax bases of assets and liabilities using the tax rate expected to be in effect when the taxes will actually be paid or refunds received. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in earnings in the period that includes the enactment date. Each reporting period, we assess the likelihood that we will be able to recover our deferred tax assets. If recovery is not likely, we record a valuation allowance against the deferred tax assets that we believe will not be recoverable. The ultimate recovery of our deferred tax assets is dependent on various factors and is subject to change. The benefit of an uncertain tax position that meets the “probable recognition threshold” is recognized in the financial statements. Recognized income tax positions are measured at the largest amount that is greater than 50% likely of being realized.

### **Recently Issued Accounting Standards**

In October 2009, the Financial Accounting Standards Board (“FASB”) issued an amendment to ASC 605, Revenue Recognition, related to the accounting for revenue in arrangements with multiple deliverables including how the arrangement consideration is allocated among delivered and undelivered items of the arrangement. Among the amendments, this standard eliminated the use of the residual method for allocating arrangement considerations and requires an entity to allocate the overall consideration to each deliverable based on an estimated selling price of each individual deliverable in the arrangement in the absence of having vendor-specific objective evidence or other third-party evidence of fair value of the undelivered items. This standard also provides further guidance on how to determine a separate unit of accounting in a multiple-deliverable revenue arrangement and expands the disclosure requirements about the judgments made in applying the estimated selling price method and how those judgments affect the timing or amount of revenue recognition. This standard will become effective on January 1, 2011. We do not expect that the adoption of this standard will have a material impact on our consolidated financial statements.

In January 2010, FASB issued Accounting Standards Update (“ASU”) No. 2010-06, *Improving Disclosures about Fair Value Measurements*, an amendment to ASC Topic 820, *Fair Value Measurement and Disclosures*. This amendment will require us to disclose separately the amounts of significant transfers in and out of Levels 1 and 2 fair value measurements and describe the reasons for the transfers and present separate information for Level 3 activity pertaining to gross purchases, sales, issuances and settlements. This amendment is effective for reporting periods beginning after December 31, 2009, except for the disclosures about purchases, sales, issuances and settlements in the roll forward activity in Level 3 fair value measurements, which are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. Our adoption of this amendment, pertaining to the Level 1 and Level 2 disclosures, on January 1, 2010 did not have a material impact on our consolidated financial statements. We do not believe that the Level 3 amendment disclosures will have a material impact on our consolidated financial statements.

In February 2010, FASB issued ASU No. 2010-09, *Amendments to Certain Recognition and Disclosure Requirements*, an amendment to ASC Topic 855, Subsequent Events, that removed the requirements for SEC

registrants to disclose the date through which subsequent events were evaluated. There were no changes to the accounting for or disclosure of events that occur after the balance sheet date but before the financial statements are issued. Our adoption of this amendment on January 1, 2010 did not have a material impact on our consolidated financial statements.

In July 2010, FASB issued ASU No. 2010-20, *Disclosures about the Credit Quality of Financing Receivables and the Allowance for Credit Losses*, which amended ASC Topic 310, *Receivables*. This amendment enhances the disclosure requirements regarding the nature of credit risk inherent in our portfolio of accounts receivable, how that risk is assessed in arriving at our allowance for doubtful accounts and the changes and reasons for those changes in the allowance for doubtful accounts. The adoption of this amendment did not have a material impact on our consolidated financial statements.

In December 2010, FASB issued ASU No. 2010-29, *Disclosure of Supplementary Pro Forma Information for Business Combinations*, which amended ASC Topic 805, *Business Combinations*. This ASU amended certain existing and added additional pro forma disclosure requirements. The standard will become effective on January 1, 2011. We do not expect that the adoption of this standard will have a material impact on our consolidation financial statements.

We are the largest global distributor of pipe, valves and fittings (“PVF”) and related products and services to the energy industry based on sales and hold the leading position in our industry across each of the upstream (exploration, production, and extraction of underground oil and natural gas), midstream (gathering and transmission of oil and natural gas, natural gas utilities, and the storage and distribution of oil and natural gas) and downstream (crude oil refining, petrochemical processing and general industrials) end markets. We currently serve our customers through over 400 global service locations, including over 180 branches, 6 distribution centers and over 190 pipe yards located in the most active oil and natural gas regions in North America and over 30 branch locations throughout Europe, Asia and Australasia.

McJunkin Red Man Holding Corporation was incorporated in Delaware on November 20, 2006 and McJunkin Red Man Corporation was incorporated in West Virginia on March 21, 1922 and was reincorporated in Delaware on June 14, 2010. Our principal executive office is located at 2 Houston Center, 909 Fannin, Suite 3100, Houston, Texas 77010. We also have corporate offices located at 835 Hillcrest Drive, Charleston, West Virginia 25311 and 8023 East 63rd Place, Tulsa, Oklahoma 74133. Our telephone number is (877) 294-7574. Our website address is [www.mrcpvf.com](http://www.mrcpvf.com). Information contained on our website is expressly not incorporated by reference into this prospectus.

Our business is segregated into two operating segments, one consisting of our North American operations and one consisting of our international operations. These segments represent our business of providing PVF and related products and services to the energy and industrial sectors, across each of the upstream, midstream and downstream markets.

Financial information regarding our reportable segments appears in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and in Note 13 of the Notes to the Consolidated Financial Statements included in this prospectus.

### Our Strengths

*Global Market Leader with Worldwide Branch Network and Significant Scale.* We are the leading global distributor of PVF and related products to the energy industry based on sales, with over twice the sales of our nearest competitor in 2010. We have a significant market presence through a global network of over 400 service locations worldwide providing us with substantial economies of scale, global reach and product breadth that we believe makes us a more effective competitor. The benefits of our size and extensive international presence include: (1) the ability to act as a single-source supplier to large, multi-national customers operating across all segments of the global energy industry; (2) the ability to commit significant financial resources to further develop our operating infrastructure, including our information systems, and provide a strong platform for future expansion; (3) volume purchasing benefits from our suppliers; (4) an ability to leverage our extensive global inventory coverage to provide greater overall breadth and depth of product offerings; (5) the ability to attract and retain effective managers and salespeople; and (6) a business model exhibiting a high degree of operating leverage. Our presence and scale have also enabled us to establish an efficient supply chain and logistics platform, allowing us to better serve our customers and further differentiate us from our competitors.

The following chart summarizes our revenue by geography for the year ended December 31, 2010:

	Year Ended December 31, 2010
United States	80%
Canada	13%
International	7%
	<u>100%</u>

(International includes Europe, Asia and Australasia)

*High Level of Integration and MRO Contracts with a Blue Chip Customer Base.* We have a diversified customer base with over 10,000 active customers and serve as the sole or primary supplier in all end markets or in specified end markets or geographies for many of our customers. Our top ten customers, with whom we have had relationships for more than 20 years on average, accounted for approximately half of our sales for 2010, and no single customer accounted for more than 5% of sales in either period. We enjoy fully integrated relationships, including interconnected technology systems and daily communication, with many of our customers and we provide an extensive range of integrated and outsourced supply services, allowing us to market a “total transaction cost” concept as opposed to individual product prices. We provide such services as multiple daily deliveries, zone stores management, valve tagging, truck stocking and significant system support for tracking and replenishing inventory, which we believe results in deeply integrated customer relationships. We sell products to many of our customers through multi-year MRO contracts which are typically renegotiated every three to five years. Although there are typically no guaranteed minimum purchase amounts under these contracts, these MRO customers, representing approximately two-thirds of our 2010 sales, provide a relatively stable revenue stream and help mitigate against industry downturns. We believe we have been able to retain customers by ensuring a high level of service and integration. Furthermore, during 2010 we signed several new MRO contracts, including both contracts with new customers that displace competitors and contracts with existing customers that broaden existing customer relationships.

*Business and Geographic Diversification in High-Growth Areas.* We are well diversified across the upstream, midstream and downstream operations of the energy industry, as well as through our participation in selected industrial end markets. During the year ended December 31, 2010, we generated approximately 45% of our sales in the upstream sector, 23% in the midstream sector, and 32% in the downstream, industrial and other energy end markets. This diversification affords us some measure of protection in the event of a downturn in any one end market while providing us the ability to offer a “one stop” solution for our integrated energy customers. In North America, our more than 180 branches are located near major hydrocarbon and refining regions, including rapidly expanding oil and natural gas E&P areas such as the Bakken, Barnett, Fayetteville, Haynesville and Marcellus shales, where MRO expenditures for PVF are typically over five times that of MRO expenditures for PVF in conventional upstream areas. Outside North America, we have a network of over 30 branch locations throughout Europe, Asia and Australasia. Our geographic diversity enhances our ability to quickly respond to customers worldwide, gives us a strong presence in these high growth areas and reduces our exposure to a downturn in any one region.

For the years ended December 31, 2008, December 31, 2009, and December 31, 2010, the breakdown of our revenue by end market was as follows:

	Year Ended December 31,		
	2008	2009	2010
Upstream	45%	44%	45%
Midstream	22%	24%	22%
Downstream and industrial	33%	32%	33%
	<u>100%</u>	<u>100%</u>	<u>100%</u>

The shift to midstream markets in the year ended December 31, 2009 is a direct result of our acquisition of LaBarge Pipe & Steel Company (“LaBarge”) in October 2008 (the “LaBarge Acquisition”), which increased our presence in the midstream market. Our acquisition of Transmark in October 2009 increased our presence in the downstream and industrial market.

*Strategic Supplier Relationships.* We have extensive relationships with our suppliers and have key supplier relationships dating back in certain instances over 60 years. Approximately 39% of our total purchases for the year ended December 31, 2010 were from our top ten suppliers. We believe our customers view us as an industry leader for the formal processes we use to evaluate vendor performance and product quality. We employ individuals, certified by the International Registry of Certificated Auditors, who specialize in conducting manufacturer assessments both domestically and internationally. Our Supplier Registration Process (“SRP”), which allows us to maintain the MRC Approved Supplier List (“MRC ASL”), serves as a significant strategic advantage to us in

developing, maintaining and institutionalizing key supplier relationships. For our suppliers, being included on the MRC ASL represents an opportunity for them to increase their product sales to our customers. The SRP also adds value to our customers, as they collaborate with us regarding specific manufacturer performance, our past experiences with products and the results of our on-site supplier assessments. Having a timely, uninterrupted supply of those mission critical products from approved vendors is an essential part of our customers' day-to-day operations and we work to fulfill that need through our SRP.

*An IT Platform Focused on Customer Service.* Our business is supported by our integrated, scalable, customer-linked and highly customized information systems. These systems and our more than 3,600 employees (including Transmark) are linked by a wide area network. We recently combined our North American business operations onto one legacy enterprise server-based sales, inventory & management system ("SIMS"). This enabled real-time access to our business resources, including customer order processing, purchasing and material requests, distribution requirements planning, warehousing and receiving, inventory control and accounting and financial functions. Significant elements of our systems include firm-wide pricing controls resulting in disciplined pricing strategies, advanced scanning and customized bar-coding capabilities allowing for efficient warehousing activities at customer as well as our own locations, and significant levels of customer-specific integrations. We believe that the customized integration of our customers' systems into our own information systems has increased customer retention by reducing our customers' expenses, thus creating switching costs when comparing us to alternative sources of supply. Typically, smaller regional and local competitors do not have IT capabilities that are as advanced as ours.

*Highly Efficient, Flexible Operating Structure Drives Significant Free Cash Flow Generation.* We place a particular emphasis on practicing financial discipline as evidenced by our strong focus on return on assets, minimal routine capital expenditures and high free cash flow generation. Our disciplined cost control, coupled with our active asset management strategies, result in a business model exhibiting a high degree of operating leverage. As is typical with the flexibility associated with a distribution operating model, our variable cost base includes substantially all of our cost of goods sold and a large portion of our operating costs. Furthermore, our capital expenditures were approximately 0.3% of our sales for the year ended December 31, 2010. This cost structure allows us to adjust to changing industry dynamics and, as a result, during periods of decreased sales activity, we typically generate significant free cash flow as our costs are reduced and working capital contracts. During the year ended December 31, 2010, we generated approximately \$101 million of free cash flow, which we define as net cash provided by operations, less capital expenditures.

*Experienced and Motivated Management Team.* Our senior management team has an average of approximately 30 years of experience (over 225 years in total) in the oilfield and industrial supply business, the majority of which has been with McJunkin Red Man or its predecessors. Employees own approximately 7% of our company, including approximately 4% that is owned by senior management, either directly or indirectly through their equity interests in PVF Holdings LLC, our indirect parent company. We also seek to incentivize and align management with shareholder interests through equity-linked compensation plans. Furthermore, executive compensation is based on profitability and return-on-investment targets which we believe drives accountability and further aligns the organization with our shareholders.

## **Our Business Strategy**

Our goal is to grow our market position as the largest global distributor of PVF and related products to the energy industry. Our strategy is focused on pursuing growth by increasing organic market share and growing our business with current customers, expanding into new geographies and end markets, increasing recurring revenues through integrated supply, maintenance, repair and operations ("MRO") and project business, continuing to increase our operational efficiency and making and integrating strategic acquisitions. We also seek to extend our current North American MRO contracts internationally, as well as cross-sell certain products, most notably pipe, flanges, fittings and other products ("PFF") into MRC Transmark's existing customer base, branch network and valve-focused platform. We will also look at future complementary PFF distribution acquisitions that would supplement MRC Transmark's valve leadership position, and we will look at future "bolt-on" acquisitions in North America that broaden our geographic footprint or expand our product offering to our major customers.

*Increase Organic Market Share and Grow Business with Current Customers.* We are committed to expanding upon existing deep relationships with our current customer base while at the same time striving to

secure new customers. To accomplish this, we are focused on providing a global “one stop” PVF procurement solution across the upstream, midstream and downstream sectors of the energy industry, maximizing cross-selling opportunities by leveraging our extensive product offering and increasing our penetration of existing customers’ new multi-year projects.

The migration of existing customer relationships to sole or primary sourcing arrangements is a core strategic focus. We seek to position ourselves as the sole or primary provider of a broad complement of PVF products and services for a particular customer, often by end market and/or geography, or in certain instances across all of a customer’s global upstream, midstream and downstream operations. Several of our largest customers have recently switched to sole or primary sourcing contracts with us. Additionally, we believe that significant opportunities exist to expand our deep customer and supplier relationships and thereby increase our market share. There is also a significant opportunity to extend our current North American MRO contracts internationally as well as cross-sell certain products, most notably pipe, flanges, fittings and other products, into Transmark’s existing customer base, branch network and valve-focused product platform.

We also aim to increase our penetration of our existing customers’ new projects. For example, while we often provide nearly 100% of the PVF products for certain customers under MRO contracts, increased penetration of those customers’ new downstream and midstream projects remains a strategic priority. Initiatives are in place to deepen relationships with engineering and construction firms and to extend our product offering into certain niches.

*Increase Recurring Revenues through Integrated Supply, MRO and Project Contracts.* We have entered into and continue to pursue integrated supply, MRO and project contracts with certain of our customers. Under these arrangements, we are typically the sole or primary source provider of the upstream, midstream, and/or downstream requirements of our customers. In certain instances we are the sole or primary source provider for our customers across all the energy sectors and/or North American geographies within which the customer operates and we will seek to extend these contracts internationally as a result of the Transmark acquisition.

Our customers have, over time, increasingly moved toward centralized PVF procurement management at the corporate level rather than at individual local units. While these developments are partly due to significant consolidation among our customer base, sole or primary sourcing arrangements allow customers to focus on their core operations and provide economic benefits by generating immediate savings for the customer through administrative cost and working capital reductions, while providing for increased volumes, more stable revenue streams and longer term visibility for us. We believe we are well positioned to obtain these arrangements due to our (1) geographically diverse and strategically located global branch network, (2) experience, technical expertise and reputation for premier customer service operating across all segments of the energy industry, (3) breadth of available product lines, value added services and scale in purchasing, and (4) existing deep relationships with customers and suppliers.

We also have both exclusive and non-exclusive MRO contracts and new project contracts in place. Our customers over the long term are increasing their maintenance and capital spending, which is being driven by aging infrastructure, increasing regulatory, safety and environmental requirements, the increased utilization of existing facilities and the decreasing quality of energy feedstocks. Our customers benefit from MRO agreements through lower inventory investment and the reduction of transaction costs associated with the elimination of the bid submission process, and our company benefits from the recurring revenue stream that occurs with an MRO contract in place. We believe there are additional opportunities to utilize MRO arrangements through our “one-stop” PVF solution, both in North America and globally as a result of our Transmark acquisition, for servicing the requirements of our customers and we are actively pursuing such agreements.

We recently significantly enhanced our business development efforts by implementing global account management processes more closely aligned with our customers’ procurement operations at the national and local level in order to continue to grow our business. Our global account management strategy is based on aligning key sales executives as single-point MRC contacts servicing the upstream, midstream and downstream requirements of customer accounts that represent the largest percentage of our revenue. As a result in part of this effort, during 2009 our executive sales force has had success in increasing sales under, and in obtaining new, MRO contracts, and we continue to focus on increasing our MRO business both in North America and globally.

*Continued Focus on Operational Efficiency.* We strive for continued operational excellence. Our branch managers, regional management and corporate leadership team continually examine branch profitability, working

capital management, and return on managed assets and utilize this information to optimize global, regional and local strategies, reduce operating costs and maximize cash flow generation. As part of this effort, management incentives are centered on achieving adjusted EBITDA and return on assets targets.

In response to the recent downturn in certain of our end markets, our management team has focused on several restructuring initiatives to align our cost structure with the level of business activity. For example, during 2008 and 2009 we streamlined our organization by realigning our eight North American geographic regions into four and merged, converted, reorganized or closed over 47 branches as part of this process. These cost saving initiatives include branch consolidations, supplier rationalizations, regional realignments and reductions in corporate overhead, personnel and profit sharing programs. Several of these cost saving initiatives were put in place as part of the McJunkin Red Man merger integration plan and thus we believe will not need to be reversed once activity returns to more normalized levels.

In order to improve efficiencies and profitability, we work to leverage operational best practices, optimize our vendor relationships, purchasing, and inventory levels, and source inventory internationally when appropriate. As part of this strategy, we have integrated our purchasing functions and believe we have developed strong relationships with vendors that value our international footprint, large sales force and volume purchasing capabilities. Because of this, we are often considered the preferred distribution channel. As we continue to consolidate our vendor relationships, we plan to devote additional resources to assist our customers in identifying products that improve their processes, day-to-day operations and overall operating efficiencies. We believe that offering these value added services maximizes our value to our customers and helps differentiate us from competitors.

*Expand into New Geographies and End Markets.* We intend to selectively establish new branches in order to facilitate our expansion into new geographies, and enter end markets where extreme operating environments generate high PVF product replacement rates. We continue to evaluate establishing branches and service and supply centers in select domestic and international regions as well as identifying existing branches for overlap and strategic elimination.

We believe that an attractive opportunity also exists to continue to expand internationally. We continue to actively evaluate opportunities to extend our offering to key international markets, particularly in Asia, the Middle East and South America, and recently expanded our global presence through our acquisition of Transmark. The current installed base of energy infrastructure internationally, including the upstream, midstream and downstream end markets, is significantly larger than in North America, and as a result we believe represents an attractive long term opportunity both for us and our largest customers. In addition, the increased focus, particularly by foreign-owned integrated oil companies that traditionally have not used distributors for their PVF procurement requirements, on efficiency, cost savings, process improvements and core competencies, has also generated potential growth opportunities to add new customers that we will continue to monitor closely.

We also believe opportunities exist for expansion into new and under-penetrated end markets where PVF products are used in specialized, highly corrosive applications. These end markets include pulp and paper, waterworks, food and beverage and other general industrial markets, in addition to other energy end markets such as power generation, solar, liquefied natural gas, coal, nuclear and ethanol. We believe our extensive global branch network, comprehensive PVF product offering, large sales force and reputation for high customer service and technical expertise positions us to participate in the growth in these end markets.

We believe there also remains an opportunity to continue to expand into certain niche and specialty products that complement our current extensive product offering.

*Focus on Acquisition Integration.* Since January 2007, we have completed five acquisitions and one major merger that have provided us with additional product, end market or geographic adjacencies and diversification. In addition, prior to the investment in our company by the Goldman Sachs Principal Investment Area in January 2007, we completed 18 acquisitions between 2000 and 2006. As part of these transactions, we believe we have demonstrated a track record of successful acquisition integration, including expediently bringing new systems onto ours, consolidating redundant branches, leveraging operational best practices and generating cost savings in purchasing and administrative functions. Acquisitions, particularly of “tuck-in” family owned competitors, remain an attractive growth opportunity and we believe are a core competency of our company.

*Further Penetrate the Canadian Oil Sands, Particularly the Downstream Sector.* The Canadian Oil Sands region and its attendant downstream markets represent long-term growth areas for our company. Improvements in mining and in-situ technology are driving significant long-term investment in the area and, according to the Alberta Energy Resources and Conservation Board, the Canadian Oil Sands contain an ultimately recoverable crude bitumen resource of 315 billion barrels, with established reserves of 170 billion barrels in 2008. Canada has the second largest recoverable crude oil reserves in the world, behind Saudi Arabia. Capital and maintenance investments in the Canadian Oil Sands are expected to experience significant growth due to advancements in recovery and upgrading technologies. According to the Alberta Ministry of Energy, an estimated CDN\$91.0 billion (US\$91.0 billion) was invested in Canadian Oil Sands projects from 1999 to 2009. These large facilities require significant ongoing PVF maintenance well in excess of traditional energy infrastructure, given the extremely harsh operating environments and highly corrosive conditions. MRO expenditures for PVF in the Canadian Oil Sands are typically over five times that of MRO expenditures for PVF in traditional downstream environments. According to the Alberta Ministry of Energy, almost CDN\$170 billion (US\$170 billion) in Canadian Oil Sands-related projects were underway or proposed as of September 2009, which we estimate could generate significant PVF expenditures. However, current uncertainties regarding oil prices and market conditions may postpone some of these projects.

While Midfield has historically focused on the upstream and midstream sectors in Canada, we believe that a significant opportunity exists to penetrate the Canadian Oil Sands and downstream markets which include the upgrader, refinery and petrochemical markets. We are the leading provider of PVF products to the downstream market in the U.S. and believe this sector expertise and existing customer relationships can be utilized by our upstream and midstream Canadian operations to grow our downstream sector presence in this region. We also believe there is a significant opportunity to penetrate the Canadian Oil Sands extraction market involving in-situ recovery methods, including SAGD (steam assisted gravity drainage) and CSS (cyclic steam stimulation) techniques used to extract the bitumen. We utilize a full team overseen by senior management and have made targeted inventory and facility investments in Canada, including a 60,000 square foot distribution center located near Edmonton and a recently opened approximately 16,000 square foot distribution center near Fort McMurray, to address this opportunity. Finally, we also believe that an attractive opportunity exists to more fully penetrate the MRO market in Canada, particularly in Eastern Canada, including refineries, petrochemical facilities, gas utilities and pulp and paper and other general industrial markets. We recently opened a branch in Sarnia, Ontario to target these end markets.

## History

McJunkin Corporation (“McJunkin”) was founded in 1921 in Charleston, West Virginia and initially served the local oil and natural gas industry, focusing primarily on the downstream end market. In 1989, McJunkin broadened its upstream end market presence by merging its oil and natural gas division with Appalachian Pipe & Supply Co. to form McJunkin Appalachian Oilfield Supply Company (“McJunkin Appalachian”, which was a subsidiary of McJunkin Corporation, but has since been merged with and into McJunkin Red Man Corporation), which focused primarily on upstream oil and natural gas customers.

In April 2007, we acquired Midway-Tristate Corporation (“Midway”), a regional PVF oilfield distributor, primarily serving the upstream Appalachia and Rockies regions. This extended our leadership position in Appalachia/Marcellus shale region, while adding additional branches in the Rockies.

Red Man Pipe & Supply Co. (“Red Man”) was founded in 1976 in Tulsa, Oklahoma and began as a distributor to the upstream end market and subsequently expanded into the midstream and downstream end markets. In 2005, Red Man acquired an approximate 51% voting interest in Canadian oilfield distributor Midfield Supply ULC (“Midfield”), giving Red Man a significant presence in the Western Canadian Sedimentary Basin.

In October 2007, McJunkin and Red Man completed a business combination transaction to form the combined company, McJunkin Red Man Corporation. This transformational merger combined leadership positions in the upstream, midstream and downstream end markets, while creating a “one stop” PVF leader across all end markets with full geographic coverage across North America. Red Man has since been merged with and into McJunkin Red Man Corporation.

On July 31, 2008, we acquired the remaining voting and equity interest in Midfield. Also, in October 2008, we acquired LaBarge Pipe & Steel Company (“LaBarge”). LaBarge is engaged in the sale and distribution of carbon

steel pipe (predominately large diameter pipe) for use primarily in the North American midstream energy infrastructure market. The acquisition of LaBarge expanded our midstream end market leadership, while adding a new product line in large outside diameter pipe.

On October 30, 2009, we acquired Transmark Fcx Group B.V. (“Transmark”) and as part of the acquisition, we renamed Transmark as MRC Transmark Group B.V. (“MRC Transmark”) MRC Transmark is a leading distributor of valves and flow control products in Europe, Southeast Asia and Australasia. Transmark was formed from a series of acquisitions, the most significant being the acquisition of FCX European and Australasian distribution business in July 2005. The acquisition of Transmark provided geographic expansion internationally, additional downstream diversification and enhanced valve market leadership.

During 2010, we acquired The South Texas Supply Company, Inc. (“South Texas Supply”) and also certain operations and assets from Dresser Oil Tools, Inc. (“Dresser”). With these two acquisitions, we expanded our footprint in the Eagle Ford and Bakken shale regions, expanding our local presence in two of the emerging active shale basins in North America.

## Industry

We primarily serve the global oil and natural gas industry, generating approximately 90% of our sales from supplying products and various services to customers throughout the energy industry. Of our total sales, 95% are comprised of PVF and related oilfield supplies. Given the diverse requirements and various factors that drive the growth of the upstream, midstream and downstream end markets, our sales to each end market may vary over time, though the overall strength of the global energy market and the level of our customers’ capital and other expenditures are typically good indicators of our performance. While customer spending improved in 2010 over 2009, as part of the broader global economic recovery, overall oil and natural gas drilling and completion spending still remained at 2006 levels. Over the longer term we expect customer spending to increase due to a variety of global supply and demand fundamentals. Globally, the energy industry has, during the past several years, experienced a number of favorable supply and demand dynamics that have led companies to make substantial investments to expand their physical infrastructure and processing capacities. On the demand side, world energy markets are benefiting from: (i) increased consumption of energy, caused in part by the industrialization of China, India and other non-OECD countries, (ii) continued global energy infrastructure expansion and (iii) increased use of natural gas, as opposed to coal, in power generation. At the same time, energy supply has been generally constrained due to increasing scarcity of natural resources, declining excess capacity of existing energy assets, geopolitical instability, natural and other unforeseen disasters, and more stringent regulatory, safety and environmental standards. These demand and supply dynamics underscore the need for investment in energy infrastructure and the next level of global exploration, extraction, production, transportation, refining and processing of energy inputs. Furthermore, as companies in the energy industry continue to focus on improving operating efficiencies, they have been increasingly looking to outsource their procurement and related administrative functions to distributors such as MRC.

The following table summarizes our revenue by end market for the years ended December 31, 2010, 2009 and 2008:

	Year Ended December 31,		
	2010	2009	2008
Upstream	45%	44%	45%
Midstream	23%	24%	22%
Downstream and industrial	32%	32%	33%
	<u>100%</u>	<u>100%</u>	<u>100%</u>

*Upstream:* Exploration and production (“E&P”) companies, commonly referred to as upstream companies, search for oil and natural gas underground and extract it to the surface. Representative companies include Anadarko, Canadian Natural Resources, Ltd., Chesapeake Energy Corporation, Chevron Corporation, ConocoPhillips Company, EnCana Corporation, Exxon Mobil Corporation, Husky Energy Inc., Marathon and Royal Dutch

Shell plc. E&P companies typically purchase oilfield supplies, including carbon steel and other pipe, valves, sucker rods, tools, pumps, production equipment and meters.

Notwithstanding the significant decrease in 2009 and slight increase in 2010, the capital spending budgets of E&P companies have grown over the past decade as tight supply conditions and strong global demand for oil and natural gas have spurred companies to expand their operations.

Rig counts are indicative of activity levels in the upstream end market. The average North American rig count increased at an approximate 4% compound annual growth rate between 2006 and 2008, but, due to the global economic recession that started in late 2008, the average fell by more than 40% in 2009. As the economy recovered, the rig count recovered, increasing by 45% in 2010. Furthermore, more technically sophisticated drilling methods, such as deep and horizontal drilling and the multiple fracturing of hydrocarbon production zones, coupled with higher oil and natural gas prices relative to long term averages, have made E&P in previously underdeveloped areas, such as Appalachia and the Rockies, more economically feasible. As part of this trend, there has been growing commercial interest by our customers in several shale deposit areas in the United States, including the Bakken, Barnett, Fayetteville, Haynesville, Eagle Ford and Marcellus shales, where we have an extensive local presence. During 2010, there was a significant shift towards oil prospects, with an average oil rig count of approximately 39% of the total for 2010, the highest percentage in the United States in the last twenty years. Additionally, we believe improved E&P technologies will allow for more deepwater drilling both offshore in the Gulf of Mexico and offshore in certain international areas, where we maintain a presence. In the Gulf of Mexico, new drilling and safety requirements will have to be met in 2011 before there will be a significant activity increase. In Canada, improvements in mining and in-situ technology are driving increased investment in the Canadian Oil Sands.

*Midstream:* The midstream end market of the oil and natural gas industry is comprised of companies that provide gathering, storage, transmission, distribution and other services related to the movement of oil, natural gas and refined petroleum products from sources of production to demand centers. Representative midstream companies include AGL Resources Inc., Atmos Energy Corporation, Chesapeake Midstream Partners, Consolidated Edison, Inc., DCP Midstream Partners, LP, El Paso Natural Gas Company, Enterprise Products Partners L.P., Kinder Morgan Energy Partners, L.P., Magellan Midstream Partners, L.P., NiSource, Inc., Vectren Energy and Williams Partners L.P. Core products supplied for midstream infrastructure include carbon steel line pipe for gathering and transporting oil and natural gas, actuation systems for the remote opening and closing of valves, polyethylene pipe for “last mile” transmission to end user locations, and metering equipment for the measurement of oil and natural gas delivery.

The natural gas utilities portion of the midstream sector has been one of our fastest growing markets since regulatory changes enacted in the late 1990s encouraged utilities to outsource through distribution their PVF purchasing and procurement needs. Outsourcing provides significant labor and working capital savings to customers through the consolidation of standardized product procurement spending and the delegation of warehousing operations to us. We estimate that less than one-half of natural gas utilities currently outsource in varying degrees and we anticipate that some of the remaining large natural gas utilities will most likely switch from the direct sourcing model to a distributor model. Furthermore, we believe natural gas utilities will increasingly seek operating efficiencies as large natural gas pipelines and related distribution networks continue to be built, and will increasingly rely on companies such as ours to optimize their supply chains and enable them to focus on their core operations.

The gathering and transmission pipeline activity is anticipated to exhibit significant growth over the next several years due to the new discoveries of natural gas reserves in various shale natural gas fields and the need for additional pipelines to carry heavy sour crude from Canada to refineries in the United States. Recent heightened activity in oil and natural gas fields such as the Bakken, Eagle Ford, Niobrara and Marcellus shale regions remain largely unsupported by transmission facilities of the appropriate scale necessary to bring the oil and natural gas to

market. This need for large pipelines to transport energy feedstocks to markets is creating significant growth for PVF and other products we sell. Drivers of pipeline development and growth include the development of natural gas production in new geographies, increased pipeline interconnection driven by a need to lower price differences within regions, and the need to link facilities that may be developed over the next decade.

The need for increased safety and governmental demands for pipeline integrity have also accelerated the MRO cycle for PVF products in this segment. Governmentally mandated programs have hastened the testing of existing lines to ensure that the integrity of the pipe remains consistent with its original design criteria. All pipe falling outside the necessary performance criteria as it relates to safety and overall integrity must be replaced. These regulations for pipeline integrity management should continue to stimulate MRO demand for products as older pipelines are inspected and eventually replaced.

*Downstream:* Typical downstream activities include the refining of crude oil and the selling and distribution of products derived from crude oil, as well as the production of petrochemicals. Representative downstream companies include BP plc, Chevron, ConocoPhillips Company, Exxon Mobil Corporation, Marathon Oil Corporation, Royal Dutch Shell plc and Valero Energy Corporation. Refinery infrastructure products include carbon steel line pipe and gate valves, fittings to construct piping infrastructure and chrome or high alloy pipe and fittings for high heat and pressure applications. Chemical/petrochemical products include corrosive-resistant stainless steel or high alloy pipes, multi-turn valves and quarter-turn valves.

Over the past year, refinery utilization rates have decreased significantly as part of the global economic slowdown. As a result, several new projects to increase capacity have been delayed, or in some cases cancelled. The number of operable refineries in the U.S. declined from 223 in 1985 to approximately 148 in 2010, and we believe that the continued stress on this refinery infrastructure caused by demand for petroleum products will accelerate PVF replacement rates over the longer term. This trend is most pronounced outside the U.S. where capacity utilization rates are the highest and the demand for petroleum products is growing the fastest.

### Percent Utilization of Refinery Operable Capacity(1)

(1) Source — BP Statistical Review of World Energy June 2010 ([www.bp.com/statisticalreview](http://www.bp.com/statisticalreview))

The pre-recession gap between fuel consumption and domestic refining capacity, coupled with an anticipated recovery in refinery utilization levels, may necessitate new projects and generate new project and MRO contract opportunities for MRC. Further, as refineries look for ways to improve margins and value-added capabilities, they are also increasingly broadening the crude processed to include heavier, sourer crude. Heavier, sour crude is harsher and more corrosive than light sweet crude, and requires high-grade alloys in many parts of the refining process, shortening product replacement cycles and creating additional MRO contract opportunities for us following project completion. Thus, we believe that this need will create greater demand for our specialty products that include, among others, corrosion resistant components and steam products used in various process applications in refineries.

Petrochemical plants generally use crude oil, natural gas or coal in production of a variety of primary petrochemicals (e.g. ethylene and propylene) that are the building blocks for many of the manufactured goods produced in the world today. The burgeoning economies in China, India and other non-OECD countries have generated increasing demand for petrochemicals and we expect that future increases in demand will require additional capital and other expenditures to increase capacity. Industry participants include integrated oil and natural gas companies with significant petrochemical operations and large industrial chemical companies, such as BP Chemicals, Celanese Chemicals, E.I. du Pont de Nemours and Company, Eastman Chemicals Company and Exxon Mobil Corporation.

*Other Industries Served.* Beyond the oil and natural gas industry, we also supply products and services to other energy sectors such as chemical, petrochemical, coal, power generation, liquefied natural gas and alternative energy facilities. We also serve more general industrial end markets such as pulp and paper, metals processing, fabrication, pharmaceutical, food and beverage and manufacturing, which together make use of products such as corrosion resistant piping products as well as automation and instrumentation products. Some of the customers we serve in these markets include Alcoa, Inc., Arcelor Mittal, Eli Lilly and Company, Georgia Pacific Corporation, International Paper Company and U.S. Steel Corporation. These other markets are typically characterized by large physical plants requiring significant ongoing maintenance and capital programs to ensure efficient and reliable operations. We include these industries within our downstream end market category.

#### North American Operations

Our North American segment represented approximately 93% of our consolidated revenues in 2010 and is comprised of our business of distributing pipe, valves and fittings to the energy and industrial sectors, across each of the upstream, midstream and downstream end markets, through our distribution operations located throughout North America.

*Products:* Through our over 180 branches strategically located throughout North America, we distribute a complete line of PVF products, primarily used in specialized applications in the energy infrastructure market, from our global network of suppliers. The products we distribute are used in the construction, maintenance, repair and overhaul of equipment used in extreme operating conditions such as high pressure, high/low temperature, high

corrosive and high abrasive environments. The breadth and depth of our product offerings and our extensive North American presence allow us to provide high levels of service to our customers. Due to our national inventory coverage, we are able to fulfill more orders more quickly, including those with lower volume and specialty items, than we would be able to if we operated on a smaller scale and/or only at a local or regional level. Key product types are described below:

- *Carbon Steel Fittings and Flanges.* Products include carbon weld fittings, flanges and piping components used primarily to connect piping and valve systems for the transmission of various liquids and gases. These products are used across all the industries in which we operate.
- *Carbon Steel Line Pipe and Oil Country Tubular Goods ("OCTG").* Carbon standard and line pipe are typically used in high-yield, high-stress, abrasive applications such as the gathering and transmission of oil, natural gas and phosphates. OCTG is used as down hole well casing, production casing and tubing for the conveying of hydrocarbons to the surface and is either classified as carbon or alloy depending on the grade of material.
- *Natural Gas Distribution Products.* Products include risers, meters, polyethylene pipe and fittings and various other components and supplies used primarily in the distribution of natural gas to residential and commercial customers.
- *Oilfield Supplies.* We offer a full range of oilfield supplies and completion equipment. Products offered include high density polyethylene pipe and fittings, valves, well heads, pumping units and rods. Additionally, we can supply a wide range of production equipment including meter runs, tanks and separators used in our upstream end market.
- *Stainless Steel and Alloy Pipe and Fittings.* Products include stainless, alloy and corrosion resistant pipe, tubing, fittings and flanges. These are used most often in the chemical, refining and power generation industries but are used across all of the end markets in which we operate. Alloy products are principally used in high-pressure, high-temperature and high-corrosion applications typically seen in process piping applications.
- *Valves and Specialty Products.* Products offered include ball, butterfly, gate, globe, check, needle and plug valves which are manufactured from cast steel, stainless/alloy steel, forged steel, carbon steel or cast and ductile iron. Valves are generally used in oilfield and industrial applications to control direction, velocity and pressure of fluids and gases within transmission networks. Specialty products include lined corrosion resistant piping systems, valve automation and top work components used for regulating flow and on/off service, and a wide range of steam and instrumentation products used in various process applications within our refinery, petrochemical and general industrial end markets.

*Services:* We provide many of our customers with a comprehensive array of services including multiple deliveries each day, zone store management, valve tagging and significant system interfaces that directly tie the customer into our proprietary information systems. This allows us to interface with our customers' information technology ("IT") systems and provide an integrated supply service. Such services strengthen our position with our customers as we become more integrated into the customer's business and supply chain and are able to market a "total transaction cost" solution rather than individual product prices.

Our comprehensive legacy information systems, which provide for customer and supplier electronic integrations, information sharing and e-commerce applications, further strengthen our ability to provide high levels of service to our customers. In 2010, we processed over 1.5 million EDI/EDE customer transactions. Our highly specialized implementation group focuses on the integration of our information systems and implementation of improved business processes with those of a new customer during the initiation phase. By maintaining a specialized team, we are able to utilize best practices to implement our systems and processes, thereby providing solutions to customers in a more organized, efficient and effective manner. This approach is valuable to large, multi-location customers who have demanding service requirements.

As major integrated and large independent energy companies have implemented efficiency initiatives to focus on their core business, many of these companies have begun outsourcing certain of their procurement and inventory management requirements. In response to these initiatives and to satisfy customer service requirements, we offer integrated supply services to customers who wish to outsource all or a part of the administrative burden associated

with sourcing PVF and other related products, and we also often have MRC employees on-site full-time at many customer locations. Our integrated supply group offers procurement-related services, physical warehousing services, product quality assurance and inventory ownership and analysis services.

*Suppliers:* We source the products we distribute from a global network of suppliers. Our suppliers benefit from access to our diversified customer base and, by consolidating customer orders, we benefit from stronger purchasing power and preferred vendor programs. Our purchases from our top ten suppliers in 2010 approximated 41% of our North American total purchases, with our single largest supplier constituting approximately 12%. We are the largest buyer for many of our suppliers and we source a significant majority of the products we distribute directly from the manufacturer. The remainder of the products we distribute are sourced from manufacturer representatives, trading companies and, in some instances, other distributors.

We believe our customers and suppliers recognize us as an industry leader for the quality of products we supply and for the formal processes we use to evaluate vendor performance. This vendor assessment process is referred to as the MRC Supplier Registration Process, which involves employing individuals, certified by the International Registry of Certificated Auditors, who specialize in conducting on-site assessments of our manufacturers as well as monitoring and evaluating the quality of goods produced. The result of this process is the MRC Approved Supplier List ("MRC ASL"). Products from the manufacturers on this list are supplied across many of the end markets we support. Given that many of our largest customers, especially those in the refinery and chemical industries, maintain their own formal Approved Manufacturer List ("AML") listing, we are recognized as an important source of information sharing with our key customers regarding the results of our on-site assessment. For this reason, together with our commitment to promote high quality products that bring the best overall value to our customers, we often become the preferred provider of AML products to these customers. Many of our customers regularly collaborate with us regarding specific manufacturer performance, our own experience with vendors' products and the results of our on-site supplier assessments. The emphasis placed on the MRC ASL by both our customers and suppliers helps secure our central and critical position in the global PVF supply chain.

We utilize a variety of freight carriers in addition to our corporate truck fleet to ensure timely and efficient delivery of our products. With respect to deliveries of products from us to our customers, or our outbound needs, we utilize both our corporate fleet and third-party transportation providers. With respect to shipments of products from suppliers to us, or our inbound needs, we principally use third party carriers. We utilize third parties for approximately 20% of our outbound deliveries and for nearly all of our inbound shipments.

*Seasonality:* Our business experiences mild seasonal effects as demand for the products we distribute is generally higher during the months of August, September and October. Demand for the products we distribute during the months of November and December and early in the year generally tends to be lower due to a lower level of activity in our end markets near the end of the calendar year and due to winter weather disruptions. In addition, certain E&P activities, primarily in Canada, typically experience a springtime reduction due to seasonal thaws and regulatory restrictions, limiting the ability of drilling rigs to operate effectively during these periods.

*Customers:* Our principal customers are companies active in the upstream, midstream and downstream sectors of the energy industry as well as in other industrial and energy sectors. Due to the demanding operating conditions in the energy industry and high costs associated with equipment failure, our customers require highly reliable products from distributors with established qualifications and experience. As our PVF products typically represent a fraction of the total cost of a given project, our customers place a premium on service given the high cost to them of maintenance or new project delays. We strive to build long-term relationships with our customers by maintaining our reputation as a supplier of high-quality, efficient and reliable products and value-added services and solutions.

We have a diverse customer base of over 10,000 active customers. We are not dependent on any one customer or group of customers. A majority of our customers are offered terms of net 30 days (due within 30 days of the date of the invoice). Customers generally have the right to return products we have sold, subject to certain conditions and limitations, although returns have historically been immaterial to our sales. For the years ended December 31, 2010 and 2009, our top twenty-five North American customers represented approximately half of our North American sales. For many of our largest customers, we are often their sole or primary PVF provider by end market or geography, their largest or second largest supplier in aggregate or, in certain instances, the sole provider for their upstream, midstream and downstream procurement needs. We believe that many customers for which we are not the

end market exclusive or comprehensive North American sole source PVF provider will continue to reduce their number of suppliers in an effort to reduce costs and administrative burdens and focus on their core operations. As such, we believe these customers will seek to select PVF distributors with the most extensive product offering and broadest geographic presence. Furthermore, we believe our business will benefit as companies in the energy industry continue to consolidate and the larger, resulting companies look to larger distributors such as ourselves as their sole or primary source PVF provider.

*Backlog:* Backlog is determined by the amount of unshipped third-party customer orders, either specific or general (including under pipe programs) in nature, which may be revised or cancelled by the customer in certain instances. There can be no assurance that the backlog amounts will be ultimately realized as revenue, or that the Company will earn a profit on the backlog of orders. Our backlog at December 31, 2010 was \$519 million. At December 31, 2009, our backlog, which at that time generally excluded oil and gas well program orders, was \$264 million.

*Competition:* We are the largest North American PVF distributor to the energy industry based on sales. The broad PVF distribution industry is fragmented and includes large, nationally recognized distributors, major regional distributors and many smaller local distributors. The principal methods of competition include offering prompt local service, fulfillment capability, breadth of product and service offerings, price and total costs to the customer. Our competitors include nationally recognized distributors, such as Wilson Industries, Inc. (a subsidiary of Schlumberger) and National Oilwell Varco, Inc., several large regional or product-specific competitors and many local, family-owned PVF distributors.

*Employees:* As of December 31, 2010, we had approximately 3,120 employees in North America. Twenty-two employees in the United States belong to a union and are covered by collective bargaining agreements. We consider our relationships with our employees to be good.

## **International Operations**

Our International segment represents our valve distribution business to the energy and general industrial sectors, across each of the upstream and downstream end markets, through our distribution operations located throughout Europe, Asia and Australasia. Our International segment represented approximately 7% of our consolidated revenues in 2010.

*Products:* Through our over 30 strategic branch and service facilities throughout Europe, Asia and Australasia, we distribute a complete line of valve and specialty products. The products we distribute are used in the construction, maintenance, repair and overhaul of equipment used in extreme operating conditions such as high pressure, high/low temperature, high corrosive and high abrasive environments.

Due to our geographical footprint, we are able to service our global customers at several of their locations. Key product types are described below:

- *Valves and Specialty Products.* Products offered include ball, butterfly, gate, globe, check, needle and plug valves which are manufactured from cast steel, stainless/alloy steel, forged steel, carbon steel or cast and ductile iron. Valves are generally used in oilfield and industrial applications to control direction, velocity and pressure of fluids and gases within transmission networks. Specialty products include lined corrosion resistant piping systems, valve automation and top work components used for regulating flow and on/off service and a wide range of steam and instrumentation products used in various process applications within our offshore refinery, petrochemical and general industrial end markets.

*Services:* We provide our customers with a comprehensive array of services, including multiple daily deliveries, zone stores management, valve tagging and significant system interfaces that directly tie the customer into our proprietary information systems. This allows us to interface with our customers' IT systems and provide an integrated supply service. *Employees:* As of December 31, 2010, we had approximately 490 employees. Five employees in New Zealand belong to a union and are covered by collective bargaining agreements. We consider our relationships with our employees to be good.

## **Environmental Matters**

We are subject to a variety of federal, state, local, foreign and provincial environmental, health and safety laws and regulations, including those governing the discharge of pollutants into the air or water, the management, storage and disposal of, or exposure to, hazardous substances and wastes, the responsibility to investigate and clean up contamination and occupational health and safety. Fines and penalties may be imposed for non-compliance with applicable environmental, health and safety requirements and the failure to have or to comply with the terms and

conditions of required permits. Historically, the costs to comply with environmental and health and safety requirements have not been material. We are not aware of any pending environmental compliance or remediation matters that, in the opinion of management, are reasonably likely to have a material effect on our business, financial position or results of operations. However, the failure by us to comply with applicable environmental, health and safety requirements could result in fines, penalties, enforcement actions, third party claims for property damage and personal injury, requirements to clean up property or to pay for the costs of cleanup, or regulatory or judicial orders requiring corrective measures, including the installation of pollution control equipment or remedial actions.

Under certain laws and regulations, such as the U.S. federal Superfund law or its foreign equivalent, the obligation to investigate and remediate contamination at a facility may be imposed on current and former owners or operators or on persons who may have sent waste to that facility for disposal. Liability under these laws and regulations may be imposed without regard to fault or to the legality of the activities giving rise to the contamination. Although we are not aware of any active litigation against us under the U.S. federal Superfund law or its state or foreign equivalents, contamination has been identified at several of our current and former facilities, and we have incurred and will continue to incur costs to investigate and remediate these conditions. Moreover, we may incur liabilities in connection with environmental conditions currently unknown to us relating to our prior, existing or future sites or operations or those of predecessor companies whose liabilities we may have assumed or acquired.

In addition, environmental, health and safety laws and regulations applicable to our business and the business of our customers, including laws regulating the energy industry, and the interpretation or enforcement of these laws and regulations, are constantly evolving and it is impossible to predict accurately the effect that changes in these laws and regulations, or their interpretation or enforcement, may have upon our business, financial condition or results of operations. Should environmental laws and regulations, or their interpretation or enforcement, become more stringent, our costs could increase, which may have a material adverse effect on our business, financial condition and results of operations.

In particular, legislation and regulations limiting emissions of greenhouse gases (“GHGs”), including carbon dioxide associated with the burning of fossil fuels, are at various stages of consideration and implementation at the international, national, regional and state levels. In 2005, the Kyoto Protocol to the 1992 United Nations Framework Convention on Climate Change, which established a binding set of emission targets for GHGs, became binding on the countries that ratified it. Certain states have adopted or are considering legislation or regulation imposing overall caps on GHG emissions from certain facility categories or mandating the increased use of electricity from renewable energy sources. Similar legislation has been proposed at the federal level. In addition, the U.S. Environmental Protection Agency (the “EPA”) has begun to implement regulations that would require permits for and reductions in greenhouse gas emissions for certain categories of facilities, the first of which became effective in January 2010. The EPA also intends to set GHG emissions standards for power plants in May 2012 and for refineries in November 2012. These laws and regulations could negatively impact the market for the products we distribute and, consequently, our business.

In addition, the federal government and certain state governments are considering enhancing the regulation of hydraulic fracturing, a practice involving the injection of certain substances into rock formations to stimulate production of hydrocarbons, particularly natural gas, from shale basin regions. Any increased federal or state regulation of hydraulic fracturing could reduce the demand for our products in these regions.

#### **Exchange Rate Information**

## **Board of Directors**

Our board of directors currently consists of twelve members. The current directors are included above. Our directors are elected annually to serve until the next annual meeting of stockholders or until their successors are duly elected and qualified. Each director who is an employee of Goldman Sachs & Co. is entitled to six (6) votes and all other directors are entitled to one (1) vote on all matters that come before the board of directors.

## **Board Leadership Structure**

Our board of directors currently combines the positions of CEO and Chairman. These positions are currently held by Mr. Lane. The responsibilities of the chairman include presiding at all meetings of the board, reviewing and approving meeting agendas, meeting schedules and other information, as appropriate, and performing such other duties as required from time to time. We believe that the current model is effective for the company as the combined position of CEO and Chairman maximizes strategic advantages and company and industry expertise. Mr. Lane has extensive leadership experience in our industry and is best positioned to set and execute strategic priorities. Mr. Lane's leadership enhances the board's exercise of its responsibilities. In addition, this model provides enhanced efficiency and effective decision-making and clear accountability. The board evaluates this structure periodically.

In addition, each of our audit committee and compensation committee is led by a chair, each of whom is an independent director. The board believes that having these two key committees with independent chairs provides a structure for strong independent oversight of our management.

## **Risk Oversight**

The Board of Directors administers its risk oversight function primarily through the audit committee, which oversees the Company's risk management practices. The audit committee is responsible for, among other things, discussing with management on a regular basis the Company's guidelines and policies that govern the process for risk assessment and risk management. This discussion includes the Company's major risk exposures and actions taken to monitor and control such exposures. The board believes that its administration of risk management has not affected the board's leadership structure, as described above.

In addition, we have established a risk management committee. Our risk management committee is currently comprised of Andrew R. Lane, James F. Underhill, Stephen W. Lake, Gary A. Ittner, Rory M. Isaac, Scott A. Hutchinson, Neil P. Wagstaff, Diana D. Morris, Elton Bond, Theresa L. Dudding and Hugh Brown. The principal responsibilities of the risk management committee are to review and monitor any material risks or exposures associated with the conduct of our business, the internal risk management systems implemented to identify, minimize, monitor or manage such risks or exposures, and the Company's policies and procedures for risk management. While the audit committee is responsible for reviewing the Company's policies and practices with respect to risk assessment and risk management, it is the responsibility of senior management of the Company to determine the appropriate level of the Company's exposure to risk.

## **Committees of the Board**

*Audit Committee.* Our audit committee is currently comprised of Leonard M. Anthony, Rhys J. Best, Christopher A.S. Crampton and John A. Perkins. Mr. Anthony is chairman of the audit committee. Our board of directors has determined that Mr. Anthony qualifies as an "audit committee financial expert" and an "independent director" under the rules of the New York Stock Exchange. The audit committee's primary duties and responsibilities are to assist the board of directors in oversight of the integrity of our financial statements, the integrity and adequacy of our auditing, accounting and financial reporting processes and systems of internal controls for financial reporting, compliance with legal and regulatory requirements, including internal controls designed for that purpose, the independence, qualifications and performance of our independent auditor and the performance of our internal audit function.

*Compensation Committee.* Our compensation committee is currently comprised of Rhys J. Best, Peter C. Boylan, III, Christopher A.S. Crampton and John F. Daly. Mr. Best is chairman of the compensation committee. The

principal responsibilities of the compensation committee are to establish policies and periodically determine matters involving executive compensation, recommend changes in employee benefit programs, grant or recommend the grant of stock options and stock awards and provide counsel regarding key personnel selection.

*International Committee.* Our international committee is currently comprised of Gerard P. Krans, Rhys J. Best, Christopher A.S. Crampton, John F. Daly, Dr. Cornelis A. Linse and John A. Perkins. Mr. Krans is chairman of the international committee. ## **Code of Ethics**

We have adopted a code of ethics that applies to our principal executive officer, principal financial officer, principal accounting officer or controller and persons performing similar functions. A copy of the code of ethics has been posted on our website at [www.mrcpvf.com](http://www.mrcpvf.com). In the event that we amend or waive provisions of this code of ethics with respect to such officers, we intend to also disclose the same on our website.

## **Executive Compensation**

### **Compensation Discussion and Analysis**

#### **Overview**

Since the GS Acquisition in January 2007, the overriding objective of our owners and management has been to increase the economic value and size of our company during our owners' period of ownership, and our compensation programs have been designed to support this continuing goal. In addition, compensation decisions during 2007 and 2008 were made to successfully integrate the compensation programs of McJunkin Corporation and Red Man. This integration was largely completed by the end of 2008.

The compensation committee of our board of directors (the "Committee") oversees company-wide compensation practices; reviews, develops and administers executive compensation programs; and approves or makes recommendations to our board of directors regarding certain compensation matters. During 2010, the Committee was comprised of Rhys J. Best, Peter C. Boylan, III (appointed in November 2010), Christopher A.S. Crampton, John F. Daly, Harry K. Hornish, Jr. and Sam B. Rovit (appointed in May 2010), with Mr. Best serving as chairman. Each of the directors serving on the Committee during 2010 also currently serves on the Committee, with the exception of Messrs. Hornish and Rovit, who resigned from our board of directors in January 2011 and February 2011, respectively. Each member of the Committee is a non-employee director.

Generally, the Committee has decision-making authority with respect to executive compensation matters, including determination of the compensation and benefits of the executive officers. With respect to equity-based compensation awards (including to the executive officers), the Committee approves grants or makes recommendations to the entire board of directors for final approval.

Pursuant to the Committee's charter, its duties include:

- Subject to the terms of any employment contracts, reviewing and determining, or making recommendations to our board of directors with respect to, the annual salary, bonus, stock options and other compensation, incentives and benefits, direct and indirect, of the CEO and other executive officers. In determining long-term incentive compensation of the CEO and other executive officers, the Committee will consider, among other things, the Company's performance and relative shareholder return, the value of similar incentive awards to chief executive officers and other executive officers of comparable companies and the awards given to the CEO and the executive officers in the past.
- Reviewing and approving corporate goals and objectives relevant to compensation of the CEO and other executive officers and evaluating the CEO's and other executive officers' performance in light of those goals and objectives on an annual basis, and, either separately or together with other independent directors (as directed by the Board), determining and approving the CEO's and other executive officers' compensation level based on this evaluation or making recommendations to the board of directors with respect thereto.

- Reviewing and authorizing or recommending to our board of directors to authorize, as determined by the Committee, the Company to enter into, amend or terminate any employment, consulting, change in control, severance or termination, or other compensation agreements or arrangements with the CEO and other executive officers of the Company (and, at the option of the Committee, other officers and employees of the Company).
- Periodically reviewing and considering the competitiveness and appropriateness of our executive compensation.
- Reviewing new executive compensation programs, reviewing on a periodic basis the operation of our existing executive compensation programs to determine whether they integrate appropriately, and establishing and periodically reviewing policies for the administration of executive compensation programs.
- Overseeing the administration of incentive compensation plans and equity-based compensation plans and exercising all authority and discretion provided to the Committee under those plans and performing such duties and responsibilities as may be assigned by our board of directors with respect to such plans.
- Conducting a review at least annually of, and determining or making recommendations to our board of directors regarding compensation for non-employee directors (including compensation for service on the board of directors and committees thereof, meeting fees and equity-based compensation). The Committee is also responsible for and oversees administration of any plans or programs providing for the compensation of non-employee directors.
- Overseeing the procedures and substance of the Company's compensation and benefit policies (subject, if applicable, to shareholder approval), including establishing, reviewing, approving and making recommendations to our board of directors with respect to any incentive-compensation and equity-based plans of the Company that are subject to board approval.

### ***Compensation Philosophy and Objectives***

The Committee believes that our executive compensation programs should be structured to reward the achievement of specific annual, long-term and strategic performance goals of our company. Accordingly, the executive compensation philosophy of the Committee is threefold:

- To align the interests of our executive officers with those of our shareholders, thereby providing long-term economic benefit to our shareholders;
- To provide competitive financial incentives in the form of salary, bonus and benefits, with the goal of attracting and retaining talented executive officers; and
- To maintain a compensation program that includes at-risk, performance based awards whereby executive officers who demonstrate exceptional performance will have the opportunity to realize appropriate economic rewards.

### ***Setting Executive Compensation***

#### ***Role of the Compensation Committee***

The Committee has granted short-term cash incentive and long-term equity incentive awards to motivate our executive officers to achieve the business goals established by our company. In addition to considering our philosophy and objectives, the Committee considers the impact of the duties and responsibilities of each executive officer on the results and success of the Company. Based on these factors, the Committee has devised a compensation program designed to keep our executive officers highly incentivized and also to achieve parity among executive officers with similar duties and responsibilities.

#### ***Role of Executive Officers***

Since Andrew R. Lane was hired as chief executive officer in September 2008, he has met periodically with Diana D. Morris, our senior vice president of human resources, to discuss executive compensation issues.

Ms. Morris makes quarterly presentations to the Committee with respect to issues and developments regarding compensation and our compensation programs. Mr. Lane and Ms. Morris work together annually to develop tally sheets, which Mr. Lane presents to the Committee. These tally sheets present the current compensation of each executive officer, divided into each element of compensation, and also present the proposed changes to such compensation for the upcoming year (except that no proposals are made with respect to changes to Mr. Lane's compensation). Such changes to Mr. Lane's compensation are left to the discretion of the Committee. Following Mr. Lane's presentation of the tally sheets, the Committee determines appropriate changes in compensation for the upcoming year. During the first quarter of each year, the Committee approves the executive officers' annual target bonuses (expressed in each case as a percentage of base salary) and the performance metrics for the Variable Compensation Plan with respect to such year. Certain elements of compensation (such as annual base salary and annual target bonus percentage) are set forth in employment agreements entered into between the company and certain executive officers. Decisions with respect to equity-based compensation awards granted to our named executive officers are made by the Committee, which may recommend such awards to the entire board of directors for final approval.

#### *Role of Compensation Consultant*

Pursuant to the Committee's charter, the Committee has the power to retain or terminate compensation consultants and engage other advisors. In 2008, the Company engaged Hewitt Associates, a third-party global human resources consulting firm, to review and make recommendations with respect to the structure of our compensation programs, including executive compensation, following the business combination of McJunkin Corporation and Red Man Pipe & Supply Co. in October 2007. During this engagement Hewitt Associates worked with a team from the Company to review and assess compensation. The primary task of Hewitt Associates in 2008 was to assist the Company in successfully integrating the compensation programs of McJunkin Corporation and Red Man Pipe & Supply Co. As part of this process, Hewitt Associates reviewed existing McJunkin Corporation and Red Man compensation programs and made recommendations as to how such programs could be integrated based on its review and survey data. As part of Hewitt Associates' integration work in 2008, an executive compensation specialist from Hewitt Associates advised the Committee regarding the appropriate allocation of executive compensation among each element of compensation using benchmark data. Certain recommendations from the Hewitt study were approved by the Compensation Committee. Starting on January 1, 2009, McJunkin Red Man implemented a new compensation program structure, which included integration of multiple heritage plans previously maintained by McJunkin Corporation and Red Man Pipe & Supply Co. The Committee did not engage Hewitt Associates or any other compensation consultant during 2009. In December 2010, the Committee engaged Meridian Compensation Partners, LLC (an independent consultant specializing in executive compensation) to formulate a report and make recommendations to the Committee regarding executive compensation during 2011, based on peer group and other market data, as well as industry trends and current practices.

#### *Components of Executive Compensation*

Our named executive officers for the fiscal year ended December 31, 2010 were Andrew R. Lane, James F. Underhill, Neil P. Wagstaff, Gary A. Ittner and Scott A. Hutchinson. In addition, the company has elected to also describe and disclose compensation earned by Rory M. Isaac and Stephen W. Lake, who are not named executive officers and who shall be referred to as "additional executive officers" throughout the executive compensation disclosure. The principal components of compensation for our named executive officers and the additional executive officers are:

- Base salary;
- Short-term incentive compensation;
- Long-term equity compensation;
- Retirement benefits; and
- Perquisites and other personal benefits.

### *Base Salary*

We provide our named executive officers and additional executive officers with base salary to compensate them for services rendered during the fiscal year. Base salary for executives (including the named executive officers and additional executive officers) is reviewed on an annual basis and is determined based on each executive's position, responsibilities, performance, current compensation (both individually and as compared to other executives) and survey data. Each of Messrs. Lane, Underhill, Wagstaff and Lake is party to an employment agreement. The initial base salaries of these executive officers are set forth in their respective agreements, and are reviewed by the Committee annually and may be adjusted upward at the time of such review based on the factors described above.

### *Short-term Incentive Compensation*

We utilize an annual cash bonus plan called the Variable Compensation Plan, in which each of our named executive officers and additional executive officers participates, to provide appropriate incentives to achieve annual objectives. Each of the named executive officers and additional executive officers had a target annual bonus for the 2010 performance year equal to 100% of his annual base salary. The target annual bonus percentages for each of Messrs. Lane, Underhill, Wagstaff and Lake are set forth in their respective employment agreements with us. The Committee determined in early 2009 that all of our executive vice presidents (including Messrs. Ittner, Hutchinson and Isaac) should have annual target bonuses equal to 100% of annual base salary during 2009 due to the responsibilities and duties associated with these positions. These target annual bonuses remained in effect during 2010. The payment of awards under the Variable Compensation Plan for the 2010 performance year depended on the achievement of three weighted performance metrics. Those metrics were adjusted earnings before interest, taxes, depreciation and amortization ("EBITDA"); return on net assets ("RONA"), calculated as EBITDA divided by net assets; and individualized key performance indicators ("KPIs") established for each participant in the plan. Achievement of goals with respect to EBITDA, RONA and KPIs constituted 70%, 20% and 10% of annual awards, respectively.

KPIs for the named executive officers and additional executive officers normally comprise 10% of annual bonuses, but were capped at 5% for 2010. These KPIs during 2010 related directly to the functions of their respective disciplines which contributed to the achievement of the Company's financial goals for 2010. The following is a summary of the achievements by the named executive officers in 2010 with respect to their individual KPI goals. Andrew R. Lane led a growth focused plan which resulted in the company meeting revenue goals with stronger balance sheet positions for inventory management and debt reduction. Mr. Lane has also led improvements in business processes and more strategic account management plans for major customers. Mr. Lane also engaged outside consultants to assess growth opportunities and strategies and furthered the growth potential and market position of the company by targeting strategic acquisitions. In addition, Mr. Lane examined opportunities internally for more efficient operational structures and processes. James F. Underhill successfully met goals relating to the improvement of timely financial reporting as well as the preparation of public reporting documents on Forms 10-K, 10-Q, and 8-K. Mr. Underhill also made significant progress and achieved success with respect to internal audit capacity and the implementation of certain compliance measures as well as measurable improvement in the finance and accounting areas relating to process improvements and consolidation of accounting and financial reporting for all operating entities. Neil P. Wagstaff led efforts of MRC Transmark to integrate project and global contract groups with the North American operating sector and expanded the capabilities of MRC Transmark by opening a new facility in Singapore and a business development office in London. Mr. Wagstaff also managed the operational efficiency of MRC Transmark by reducing expenses and divesting of non-core operations while maintaining attractive gross margin levels. Gary A. Ittner successfully managed our inventory and supply chain purchases. Mr. Ittner also integrated the activities of support functions, information technology, human resources, and business processes, safety and quality to address and organize process improvements and operational support for the company. Scott A. Hutchinson managed strategic growth by expanding operations in the markets serving the oil and gas shale plays through target acquisitions in key geographic areas and the opening or relocation of branch operations. Mr. Hutchinson also furthered and enhanced the efficiency of operations through improved processes, strong leadership of this regional operations management, and close cooperation with the executive team including the business development and administrative groups. Rory M. Isaac successfully streamlined the business development organization to align with market opportunities, strengthened the pricing organization increasing resources

to maximize revenue potential as well as the development of a gross margin enhancement strategy, and led the negotiation and execution of new customer contracts and the renewal of existing customer contracts. Stephen W. Lake, as General Counsel, assisted in closing the sale of two acquisitions during 2010 as well as the closing of certain non core asset divestitures. Mr. Lake's oversight and guidance was also instrumental in the development of processes and reporting as required for public companies and was responsible for the rollout of and training for key global policies including with respect to import/export policy, ethics, Foreign Corrupt Practices Act, Office of Foreign Assets Control and antitrust. Mr. Lake also implemented systems to track and review the terms of company contracts.

For the 2010 performance year, the EBITDA and RONA performance goals were determined by a budgeting process that involved an examination of our company's markets, customers and general outlook with respect to 2010. The final budget was approved by our board of directors. 70% of annual incentive awards are earned based on achievement of EBITDA, 20% are earned based on achievement of RONA and 10% are earned based on achievement of KPIs applicable to the particular participant. The 2010 EBITDA and RONA performance goals related to the performance of the entire MRC organization. No awards under the Variable Compensation Plan were payable with respect to the EBITDA or RONA performance metrics unless at least 51% of the relevant performance goal was achieved. At 51% achievement of each such performance metric, there was a payout of 2% of each participant's target annual incentive bonus related to such performance metric; this portion of the payout increased with respect to such performance metric in 2% increments for each additional percent of achievement up to full achievement of the relevant performance goal. Achievement of KPIs was determined on a discretionary basis. Upon full achievement of each of the performance metrics (EBITDA, RONA and KPIs), 100% of the target annual incentive bonus could be paid. In 2010, the maximum award possible under the executive plan was 115% of target if goals were exceeded. The achievement of the performance metrics is evaluated on an annual basis in connection with awards to the named executive officers and additional executive officers under this plan. In 2010, the Company failed to reach its full EBITDA and RONA goals. As a result, the Committee determined that the maximum achievable percentage of the annual awards for KPIs should be capped at a maximum of 5% for 2010 in recognition of the overall financial goals not being met.

Messrs. Lane, Underhill, Wagstaff, Ittner, Hutchinson and Lake were paid 57% of their target annual incentive bonus under the Variable Compensation Plan and Mr. Isaac was paid 56% of this target annual incentive bonus under the Variable Compensation Plan. The amounts paid under the Variable Compensation Plan to the named executive officers and additional executive officers for performance in respect of the 2010 performance year are as follows: \$399,000 for Mr. Lane; \$285,000 for Mr. Underhill; \$189,064 for Mr. Wagstaff; \$213,750 for Mr. Ittner; \$196,650 for Mr. Hutchinson; \$210,000 for Mr. Isaac; and \$213,750 for Mr. Lake.

#### *Long-Term Equity Compensation*

We believe that long-term equity compensation is important to assure that the interests of management remain aligned with those of stockholders. Since the GS Acquisition, however, the form of long-term equity compensation that has been granted to executives (including the named executive officers and additional executive officers) has evolved. In connection with the GS Acquisition and the Red Man Transaction, certain executives (including Messrs. Underhill, Ittner, Hutchinson, Isaac and Lake) were granted profits units in PVF Holdings LLC. The number of profits units awarded in connection with those transactions was determined based on various factors, including a consideration of what size award was required to adequately incentivize the executives (as part of the executives' overall compensation package) and, most notably, negotiations between executives and our company as part of the overall negotiations relating to the GS Acquisition and the Red Man Transaction. Starting in 2008, our board of directors along with the Committee decided to grant executives equity compensation in the form of stock options in respect of our common stock and restricted common stock.

We do not currently have a formal policy regarding the timing of equity award grants. In connection with the GS Acquisition and the Red Man transaction, equity awards were made to various executives. Since the Red Man transaction, our board of directors has approved grants of equity awards in connection with new hires and changes in position and has made grants in its discretion to employees to reward their service to our company. The Committee is currently considering a periodic program of equity-based incentive plans.

### *Profits Units*

Profits units are governed by Articles III and VII of the Amended and Restated Limited Liability Company Agreement of PVF Holdings LLC dated as of October 31, 2007, and amended on December 18, 2007 and October 30, 2009 (the “PVF LLC Agreement”). Messrs. Underhill, Ittner, Hutchinson and Isaac were granted profits units in PVF Holdings LLC on January 31, 2007 and Mr. Lake was granted profits units in PVF Holdings LLC on January 7, 2008. Grantees who received profits units were not required to make any capital contribution in exchange for their profits units, which were awarded as compensation. Profits units have no voting rights, and PVF Holdings LLC may from time to time distribute its available cash to holders of profits units along with its other equity holders. Distributions by PVF Holdings LLC are made, first, to holders of common units (including restricted common units), pro rata in proportion to the number of such units outstanding at the time of distribution, until each holder has received an amount equal to such holder’s net aggregate capital contributions (for purposes of the PVF LLC Agreement) and, second, to holders of all units (including profits units) pro rata in proportion to the number of units outstanding at the time of such distribution. Please see the table titled “Outstanding Equity Awards at 2010 Fiscal Year-End” below for the number of profits units held by the named executive officers and additional executive officers as of December 31, 2010.

Pursuant to the PVF LLC Agreement, profits units generally become vested in one-third increments on each of the third, fourth and fifth anniversaries of the date of grant. In the event of a termination of employment other than for Cause (as defined in the PVF LLC Agreement), all unvested profits units will be forfeited. However, in the event of a termination for Cause, unless otherwise determined by the board of directors of PVF Holdings LLC, all profits units, whether vested or unvested, will be forfeited. In the event of a termination by reason of death or Disability (as defined in the PVF LLC Agreement), all unvested profits units will become vested and nonforfeitable. Also, in the event of a Transaction (as defined in the PVF LLC Agreement), all unvested profits units will become vested and nonforfeitable.

The PVF LLC Agreement also specifies that profits units may be subject to different vesting schedules if approved by the board of directors of PVF Holdings LLC. The terms of the profits units held by Messrs. Underhill, Ittner, Hutchinson, Isaac and Lake, including the vesting schedules, are governed solely by the PVF LLC Agreement.

### *Stock Options and Restricted Stock*

We maintain a restricted stock plan and a stock option plan (which has a sub-plan for participants residing in Canada). Pursuant to these plans, awards of restricted stock and stock options may be granted to key employees, directors and consultants of the Issuer and its subsidiaries and affiliates. The terms and conditions to which each award is subject are set forth in individual award agreements.

In connection with the hiring of Mr. Lane in September 2008, Mr. Lane purchased 170,218 shares of our common stock, and was granted stock options in respect of 1,758,929 shares of our common stock, with an exercise price of \$17.63 (taking into account the October 2008 stock split). Mr. Lane’s options will become vested in equal installments on each of the second, third, fourth and fifth anniversaries of the date of grant, conditioned on continued employment through the applicable vesting date. Mr. Lane’s options are subject to pro-rata accelerated vesting in the event his employment is terminated (i) by us other than for Cause (as defined in his employment agreement), (ii) by Mr. Lane for Good Reason (as defined in his employment agreement) or (iii) by reason of Mr. Lane’s death or disability. In addition, Mr. Lane’s options will become fully vested and exercisable upon the occurrence of a Change in Control (as defined in his employment agreement). All of Mr. Lane’s stock options, whether vested or unvested, will be forfeited in the event his employment is terminated by us for Cause (as defined in the stock option plan).

In February 2009, Mr. Lane was granted 50,000 shares of our restricted common stock. This restricted stock award becomes fully vested on the fifth anniversary of the date of grant, and is conditioned on continued employment through the vesting date. Mr. Lane’s restricted stock award will become fully vested in the event of a Transaction (as defined in the restricted stock agreement) or upon the termination of Mr. Lane’s employment due to his death or disability. All shares of restricted stock, whether vested or unvested, will be forfeited if his employment is terminated by us for Cause (as defined in the restricted stock plan).

In June 2009, Mr. Lane transferred all common stock, restricted stock and stock options held by him in respect of the Issuer to Andy & Cindy Lane Family, L.P. for no consideration. The terms and conditions of the stock option and restricted stock awards, including conditions relating to Mr. Lane's employment, continue to govern these awards following such transfer. In September 2009, the option exercise price of the stock options held by Andy & Cindy Lane Family, L.P. was reduced from \$17.63 to \$12.50, which is not less than the fair market value of our common stock as of the date of such amendment. This reduction in exercise price was made to maintain the incentive value of this award. In December 2009, in connection with the \$2.9 million cash dividend paid by McJunkin Red Man Corporation to McJunkin Red Man Holding Corporation, the option exercise price of the stock options held by Andy & Cindy Lane Family, L.P. was reduced to \$12.48.

In December 2009, Messrs. Underhill, Ittner, Hutchinson, Isaac and Lake were granted stock options and on April 1, 2010, Mr. Wagstaff was granted options, in each case that follow the generally applicable vesting schedule of three equal installments on the third, fourth and fifth anniversaries of the date of grant and are conditioned on continued employment through the applicable vesting date. These options will become fully vested and exercisable upon the occurrence of a Transaction (as defined in the stock option plan) or upon the termination of the executive's employment due to death or Disability (as defined in the stock option plan). All stock options granted, whether vested or unvested, will be forfeited in the event of a termination of employment for Cause (as defined in the stock option plan).

#### *Retirement and Other Benefits*

On December 31, 2007, we adopted the McJunkin Red Man Corporation Nonqualified Deferred Compensation Plan. Under the terms of the plan, select members of management and highly compensated employees may defer receipt of a specified amount or percentage of cash compensation, including annual bonuses. The plan was adopted in part to compensate certain participants for benefits forgone in connection with the GS Acquisition. Participants in this plan include Messrs. Underhill, Ittner, Hutchinson and Isaac. Pursuant to this plan, prior to 2009, McJunkin Red Man Corporation made predetermined annual contributions to each participant's account, less any discretionary matching contributions made on behalf of the participant by our company to a defined contribution plan for such calendar year. The Committee resolved in 2009 that no further company contributions would be made to participant accounts under this plan. On August 10, 2010, this plan was frozen by resolution of the Committee. As of such date, no company contributions or participant deferral elections have been permitted and any existing participant deferral elections were cancelled. Amounts deferred by participants or contributed by the Company to accounts under the plan prior to August 10, 2010 shall continue to be governed by the applicable provisions of the plan.

If a participant's account balance as of the beginning of a calendar year is less than \$100,000, such balance will be credited quarterly with interest at the "Prime Rate" (as defined in the plan) plus 1%. If a participant's account balance at the beginning of a calendar year is \$100,000 or greater, the participant may choose between being credited quarterly with interest at the Prime Rate plus 1% or having his or her account deemed converted into a number of phantom common units of PVF Holdings LLC. If no investment election is made, a participant's account will be credited quarterly with interest at the Prime Rate plus 1%. At December 31, 2010, Mr. Underhill had an account balance of \$147,813, Mr. Ittner had an account balance of \$126,698, Mr. Hutchinson had an account balance of \$84,464 and Mr. Isaac had an account balance of \$126,698. None of these executives elected to convert their balances into phantom common units. As of December 31, 2007, all existing participants were fully vested in their entire accounts, including contributions by McJunkin Red Man Corporation. People who became participants after December 31, 2007 are fully vested in their elective deferral amounts and will become vested in contributions by McJunkin Red Man Corporation as determined by the administrator of the plan. For additional information, please see the table titled "Nonqualified Deferred Compensation for 2010" below.

Participants receive the vested balance of their accounts, in cash, upon a Separation from Service (as defined in Section 409A of the Internal Revenue Code of 1986, as amended ("Section 409A")). Such amount is paid in three annual installments (with interest) commencing on January 1 of the second calendar year following the calendar year in which the Separation from Service occurs. In the event of a participant's death or Permanent Disability (as defined in the plan), or upon a Change in Control (as defined in the plan) of McJunkin Red Man Corporation, the full amount of a participant's account, vested and unvested, shall be paid within 30 days following such event to the

participant's beneficiary, in the case of death, or to the participant, in the case of Permanent Disability or a Change in Control. Notwithstanding the foregoing regarding the timing of payments, distributions to "specified employees" (as defined in Section 409A) may be required to be delayed in accordance with Section 409A.

#### *Perquisites and Other Personal Benefits*

The Committee reviews the perquisites and personal benefits provided to certain of the named executive officers and additional executive officers on an annual basis to ensure the reasonableness of such programs. Mr. Wagstaff is provided with an automobile allowance, which is the continuation of a perquisite provided prior to the acquisition of Transmark FCX. Other than Mr. Wagstaff, none of the named executive officers or additional executive officers currently receive any perquisites or other personal benefits.

In addition, our named executive officers and additional executive officers who have entered into employment agreements with the Issuer or an affiliate will be provided certain severance payments and benefits in the event of a termination of their employment under certain circumstances. These agreements are designed to promote stability and continuity of senior management. Additional information regarding payment under these severance provisions is provided below, in the section titled "Potential Payments upon Termination or a Change in Control."

#### *Relation among Various Components of Compensation*

With respect to setting executive compensation amounts generally, since the Red Man Transaction, achieving parity among executives with similar duties and responsibilities has been an important goal as part of our integration process. In determining the amount of compensation of the executive officers attributable to each element of compensation, the Committee considers various factors, including the value of unvested outstanding equity awards, amount of base salary and target bonus. These segments, in total, are then viewed in light of competitiveness of the compensation package in the marketplace and the impact of the executive's position on the success of the company.

#### *Tax and Accounting Implications*

All deferred compensation arrangements have been structured in a manner intended to comply with Section 409A.

#### *Compensation Committee Interlocks and Insider Participation*

During 2010, the Committee consisted of Rhys J. Best, Peter C. Boylan, III (appointed in November 2010), Christopher A.S. Crampton, John F. Daly, Harry K. Hornish, Jr. and Sam B. Rovit (appointed in May 2010), with Mr. Best serving as chairman. Mr. Hornish resigned from the board of directors in January 2011 and Mr. Rovit resigned from the board of directors in February 2011. No member of the Committee was an officer or employee of the Issuer or any of its subsidiaries during 2010 and no member of the Committee was formerly an officer of MRC or any of its subsidiaries. In addition, during 2010, none of our executive officers served as a member of a compensation committee or board of directors of any other entity an executive officer of which served as a member of our board.

#### *Stock Ownership Guidelines*

We do not have any formal policies regarding stock ownership by directors or officers. We believe that awards made pursuant to our long-term equity programs are sufficient to ensure that the interests of directors and officers remain aligned with those of stockholders.

## Compensation Committee Report

The compensation committee reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on such review and discussions, the compensation committee recommended to our board of directors that the Compensation Discussion and Analysis be included in this Annual Report.

## Risk in Relation to Compensation Programs

We have performed an internal review of all of our material compensation programs and have concluded that there are no plans that provide meaningful incentives for employees, including the named executive officers and additional executive officers, to take risks that would be reasonably likely to have a material adverse effect on us. Because our current compensation plans have an upside cap on the amount of variable compensation that can be paid under such plan, risk of windfall or excessive compensation is negligible. This limit also has the effect of not encouraging operational or strategic decisions that expose the business to risk.

## Summary Compensation Table for 2010

These options will become fully vested and exercisable upon the occurrence of a Transaction (as defined in the stock option plan) or upon the termination of the executive's employment due to death or Disability (as defined in the stock option plan).

- (2) For Mr. Lane, the amounts in these columns are in respect of an award of restricted stock made in February 2009 (and currently held by Andy & Cindy Lane Family, L.P.). For Messrs. Underhill, Ittner, Hutchinson and Isaac in 2007 and to Mr. Lake in 2008. Profits units held by Messrs. Underhill, Ittner, Hutchinson, Isaac and Lake become vested in equal increments on each of the third,

fourth and fifth anniversaries of the date of grant, subject to accelerated vesting in the event of certain terminations of employment or a Transaction (as defined in the PVF LLC Agreement). Messrs. Underhill, Ittner, Hutchinson and Isaac became vested in 33.33% of their profits units on January 31, 2010.

- (3) The market value of Mr. Lane's restricted stock is based on a per share value of the company's stock of \$7.51 as of December 31, 2010. The market value of unvested profits units is based on the value of profits units in PVF Holdings LLC as of December 31, 2010, which was \$3,373.23 per unit.
- (4) In September 2009, the option exercise price of the stock options held by Andy & Cindy Lane Family, L.P. was reduced from \$17.63 to \$12.50, which is not less than the fair market value of our common stock as of the date of such amendment. In December 2009, in connection with the \$2.9 million cash dividend paid by McJunkin Red Man Corporation to McJunkin Red Man Holding Corporation, the option exercise price for Mr. Lane's options reduced to \$12.48. Also in connection with the December 2009 cash dividend, options granted to Messrs. Underhill, Ittner, Hutchinson, Isaac and Lake were reduced from \$11.44 to \$11.42.

However, during 2010 the accounts of the named executive officers with accounts under such plan were credited with interest in accordance with the plan.

Please see the section of the Compensation Discussion and Analysis titled "Retirement and Other Benefits" for a discussion of the terms and conditions of the McJunkin Red Man Corporation Nonqualified Deferred Compensation Plan.

## Potential Payments upon Termination or Change in Control

Each of the named executive officers and additional executive officers would be entitled to certain payments and benefits following a termination of employment under certain circumstances and upon a change in control. These benefits are summarized below. The amounts of potential payments and benefits reflected in the tables below assume that the relevant trigger event (termination of employment or a change in control, as applicable) took place on December 31, 2010.

The narrative and tables below describe our obligations to each of the named executive officers and additional executive officers pursuant to their employment agreements (in the case of Messrs. Lane, Underhill, Wagstaff and Lake) as well as pursuant to other compensatory arrangements.

### *Voluntary Separation*

In the event of a voluntary separation from employment by a named executive officer or additional executive officer, all unvested profits units in PVF Holdings LLC and all stock option and restricted stock awards in respect of McJunkin Red Man common stock held by such executive would be forfeited. As of December 31, 2010, all stock options held by Messrs. Underhill, Wagstaff, Ittner, Hutchinson, Isaac and Lake were unvested, all restricted stock held by Mr. Lane was unvested, and 75% of options held by Mr. Lane were unvested. As of December 31, 2010, profit units held by Messrs. Underhill, Ittner, Hutchinson and Isaac were one-third vested and all profits units held by Mr. Lake were unvested. The fully vested accounts in the McJunkin Red Man Corporation Nonqualified Deferred Compensation Plan held by Messrs. Underhill, Ittner, Hutchinson and Isaac would become payable (subject to the requirements of Section 409A). In addition, each named executive officer and additional executive officer would be paid the value of any accrued but unused vacation time as of December 31, 2010.

Stephen W. Lake	27,404	—	27,404

(1) These amounts represent accrued but unused vacation time as of December 31, 2010.

### *Termination Not for Cause and Termination for Good Reason*

The employment agreements to which Messrs. Lane, Underhill, Wagstaff and Lake are parties provide that if their employment is terminated other than for “Cause” or “Disability” (as such terms are defined in the agreements) or if they resign for “Good Reason” (as such term is defined in the agreements), they are entitled to the following severance payment and benefits:

- All accrued, but unpaid, obligations (including, but not limited to, salary, bonus, expense reimbursement and vacation pay);
- In the case of Messrs. Lane and Wagstaff, monthly payments equal to  $\frac{1}{12}$  of base salary at the rate in effect immediately prior to termination and  $\frac{1}{12}$  target annual bonus for 18 months following termination. In the case of Messrs. Underhill and Lake, continuation of base salary for 12 months following termination, at the rate in effect immediately prior to termination;
- Continuation of medical benefits for 18 months for Messrs. Lane and Wagstaff and 12 months for Messrs. Underhill and Lake or, in each case (except in the case of Mr. Wagstaff), until such earlier time as the executive becomes eligible for medical benefits from a subsequent employer;

- A pro-rata annual bonus for the fiscal year in which termination occurs, based on actual performance through the end of the fiscal year; and
- Solely in the case of Mr. Lane, a pro-rata portion of the stock options granted to him, which are currently held by Andy & Cindy Lane Family, L.P., would become vested. However, the restricted stock granted to Mr. Lane, which is currently held by Andy & Cindy Lane Family, L.P., would be forfeited.

The payments and the provision of benefits described in this paragraph are generally subject to the execution of a release and compliance with restrictive covenants prohibiting competition, solicitation of employees and interference with business relationships during employment and thereafter during the applicable restriction period. These restrictions apply to each of Messrs. Lane, Underhill, Wagstaff and Lake during their employment and for 18 months following termination for Messrs. Lane and Wagstaff, and for 12 months following termination for Messrs. Underhill and Lake. In addition, Messrs. Lane, Underhill, Lake and Wagstaff are subject to perpetual restrictive covenants regarding confidentiality, non-disparagement and proprietary rights.

As of December 31, 2010, all stock options held by Messrs. Underhill, Wagstaff, Ittner, Hutchinson, Isaac and Lake were unvested, all restricted stock held by Mr. Lane was unvested and 75% of options held by Mr. Lane were unvested. As of December 31, 2010, profits units held by Messrs. Underhill, Ittner, Hutchinson and Isaac were one-third vested and all profits units held by Mr. Lake were unvested. The vesting schedules of these profits units, stock options and shares of restricted stock are described in the narrative following the table titled “Outstanding Equity Awards at 2010 Fiscal Year End.” In the event of a termination of employment by us without Cause (as defined in their respective agreements) or upon an executive’s resignation for Good Reason (as defined in their respective agreements), the profits units held by Messrs. Underhill, Ittner, Hutchinson, Isaac and Lake that are currently unvested would be forfeited pursuant to the PVF LLC Agreement.

The fully vested account in the McJunkin Red Man Corporation Nonqualified Deferred Compensation Plan held by certain named executive officers and additional executive officers would become payable (subject to the requirements of Section 409A) upon a termination by us of such executive officer’s employment other than for Cause or a termination of employment by such executive officer for Good Reason.

In addition, each named executive officer and additional executive officers would also be paid the value of any accrued but unused vacation time as of December 31, 2010.

Stephen W. Lake	27,404	375,000	213,750	18,708	0	—	634,862

- (1) These amounts represent accrued but unused vacation time as of December 31, 2010.
- (2) Each of the named executive officers and additional executive officers has an annual target bonus of 100% of annual base salary in effect at the beginning of the relevant fiscal year. Assuming a termination date of December 31, 2010, each of Messrs. Lane, Underhill, Wagstaff, Ittner, Hutchinson and Lake would be entitled to receive 57% of his target annual incentive bonus and Mr. Isaac would be entitled to receive 56% of his target annual bonus.
- (3) In the case of Mr. Lane, the amount in this column represents the value of the pro-rata acceleration of the vesting of his stock options. Because the exercise price of these options is \$12.48 per share, which was above the per share value of the company’s stock as of December 31, 2010, which was \$7.51, there would be no value realized upon this accelerated vesting. The restricted stock award granted to Mr. Lane would not be subject to accelerated vesting under these circumstances. In the case of Messrs. Underhill, Ittner, Hutchinson, Isaac and

Lake, all of their unvested profits units held as of December 31, 2010 would be forfeited as of such date. Additionally, because the exercise price of awarded options is \$11.42 for Messrs. Underhill, Ittner, Hutchinson, Isaac and Lake and \$11.44 for Mr. Wagstaff, there would be no value realized upon this accelerated vesting.

#### ***Termination by Us for Cause***

Upon a termination by us for Cause (as defined in the stock option plan), pursuant to the applicable award agreements, stock options held by Messrs. Lane, Underhill, Wagstaff, Ittner, Hutchinson, Isaac and Lake and restricted stock held by Mr. Lane, whether vested or unvested, would in each case be forfeited immediately for no consideration. Under these circumstances, the profits units held by Messrs. Underhill, Ittner, Hutchinson, Isaac and Lake whether or not vested, would also be forfeited immediately for no consideration.

In addition, as described in the narrative above following the table titled “Nonqualified Deferred Compensation for 2010,” the fully vested accounts in the McJunkin Red Man Corporation Nonqualified Deferred Compensation Plan would become payable (subject to the requirements of Section 409A).

Each named executive officer and additional executive officer would also be paid the value of any accrued but unused vacation time as of December 31, 2010.

Stephen W. Lake	27,404	—	27,404

(1) These amounts represent accrued but unused vacation time as of December 31, 2010.

#### ***Termination due to Death or Disability***

Pursuant to the employment agreements with Messrs. Lane, Underhill, Wagstaff and Lake, upon a termination of employment due to death or disability, they (or their beneficiaries) would be entitled to receive a pro-rata portion of the annual bonus for the fiscal year in which termination occurs, based on actual performance through the end of the fiscal year.

Pursuant to the applicable award agreements, all unvested stock options and restricted stock awards granted to the named executive officers and additional executive officers would become fully vested in the event of a termination due to death or Disability (as defined in the applicable plan). Pursuant to the PVF LLC Agreement, all unvested profits units held by Messrs. Underhill, Ittner, Hutchinson, Isaac and Lake would become fully vested and nonforfeitable in the event of a termination due to death or Disability (as defined in the PVF LLC Agreement). In the event of termination due to death or Permanent Disability (as such term is defined in the McJunkin Red Man Nonqualified Deferred Compensation Plan), the full amount of each account, whether or not vested, would be payable. Each named executive officer and additional executive officer (or their beneficiaries) would also be paid the value of any accrued but unused vacation time as of December 31, 2010.

Name	Accrued Obligations (S)(1)	Value of Accelerated Vesting of Equity (S)(2)	Deferred Compensation Account Balance (S)	Total (S)
Andrew R. Lane	75,385	375,500	—	450,885

Rory M. Isaac	43,269	857,543	126,698	1,027,510
Stephen W. Lake	27,404	428,738	—	456,142

- (1) These amounts represent accrued but unused vacation time as of December 31, 2010.
- (2) In the case of Mr. Lane, the amount in this column includes the value of the pro-rata acceleration of the vesting of his unvested stock options and the full acceleration of vesting of his entire restricted stock award. Because the exercise price of his options is \$12.48 per share, which was above the per share value of the company's stock as of December 31, 2010, which was \$7.51, there would be no value realized upon this accelerated vesting. The value of the accelerated vesting of Mr. Lane's restricted stock is based on the per share value of the company's stock as of December 31, 2010, which was \$7.51. In the case of Messrs. Underhill, Ittner, Hutchinson, Isaac and Lake, all of their profits units and stock options, and in the case of Mr. Wagstaff, stock options, held as of December 31, 2010 would become fully vested as of such date. With respect to profits units, the value realized upon such acceleration is based on the value of profits units in PVF Holdings LLC as of December 31, 2010, which was \$3,373.23 per unit. With respect to options, because the exercise price of their options is \$11.42 per share for Messrs. Underhill, Ittner, Hutchinson, Isaac and Lake, and \$11.44 per share for Mr. Wagstaff, which was above the per share value of the company's stock as of December 31, 2010, which was \$7.51, there would be no value realized upon this accelerated vesting.

### ***Change in Control***

The PVF LLC Agreement provides that in the event of a Transaction (as defined in the PVF LLC Agreement), profits units will become fully vested and nonforfeitable. This accelerated vesting of the profits units was negotiated as part of the PVF LLC Agreement in connection with overall negotiations relating to the GS Acquisition. The PVF LLC Agreement defines "Transaction" as (i) any event which results in the GSCP Members (as defined in the PVF LLC Agreement) and its or their Affiliates (as defined in the PVF LLC Agreement) ceasing to directly or indirectly beneficially own, in the aggregate, at least 35% of the equity interests of McJunkin Red Man Corporation that they beneficially owned directly or indirectly as of January 31, 2007; or (ii) in a single transaction or a series of related transactions, the occurrence of the following event: a majority of the outstanding voting power of PVF Holdings LLC, McJunkin Red Man Holding Corporation or McJunkin Red Man Corporation, or substantially all of the assets of McJunkin Red Man Corporation, shall have been acquired or otherwise become beneficially owned, directly or indirectly, by any Person (as defined in the PVF LLC Agreement) (other than any Member (as defined in the PVF LLC Agreement) on the effective date of the PVF LLC Agreement or any of its or their affiliates, or PVF Holdings LLC or any of its affiliates) or any two or more Persons (other than any Member on the date of the PVF LLC Agreement or any of its or their affiliates, or McJunkin Red Man Corporation or any of its affiliates) acting as a partnership, limited partnership, syndicate or other group, entity or association acting in concert for the purpose of voting, acquiring, holding or disposing of the voting power of PVF Holdings LLC, McJunkin Red Man Holding Corporation or McJunkin Red Man Corporation; it being understood that, for this purpose, the acquisition or beneficial ownership of voting securities by the public shall not be an acquisition or constitute beneficial ownership by any Person or Persons acting in concert. The table below assumes that a Transaction as so defined has occurred.

The McJ Holding Corporation 2007 Stock Option Plan and the McJ Holding Corporation 2007 Restricted Stock Plan, pursuant to which stock options and restricted stock have been granted to our named executive officers and additional executive officers, provide that in the event of a Transaction (as defined in the applicable plan), outstanding stock options and restricted stock shall become fully vested (and exercisable in the case of options). The

definition of “Transaction” in each of the plans is the same as that set forth in the PVF LLC Agreement. The table below assumes that a Transaction as so defined has occurred.

Pursuant to the McJunkin Red Man Corporation Nonqualified Deferred Compensation Plan, the full amount of a participant’s account becomes vested to the extent not already vested upon a Change in Control and shall be paid within thirty days of such Change in Control. The plan defines “Change in Control” as, in a single transaction or a series of related transactions, the occurrence of the following event: a majority of the outstanding voting power of PVF Holdings LLC, McJunkin Red Man Holding Corporation or McJunkin Red Man Corporation, or substantially all of the assets of McJunkin Red Man Corporation, shall have been acquired or otherwise become beneficially owned, directly or indirectly, by any Person (as defined in the plan) (other than any Member (as defined in the PVF LLC Agreement) or any of its or their affiliates, or PVF Holdings LLC or any of its affiliates) or any two or more Persons (other than any Member or any of its or their affiliates, or PVF Holdings LLC or any of its affiliates) acting as a partnership, limited partnership, syndicate or other group, entity or association acting in concert for the purpose of voting, acquiring, holding or disposing of the voting power of PVF Holdings LLC, McJunkin Red Man Holding Corporation or McJunkin Red Man Corporation; it being understood that, for this purpose, the acquisition or beneficial ownership of voting securities by the public shall not be an acquisition or constitute beneficial ownership by any Person or Persons acting in concert. The table below assumes that a Change in Control as so defined has occurred. The accelerated vesting of accounts under the McJunkin Red Man Corporation Nonqualified Deferred Compensation Plan in the event of a Change in Control does not provide an extra benefit to the named executive officers with accounts because each of their accounts was fully vested as of the effective date of the plan, which was December 31, 2007.

Name	Accrued Obligations (S)(1)	Value of Accelerated Vesting of Equity (S)(2)	Deferred Compensation Account Balance (S)	Total (S)

Scott A. Hutchinson	39,808	371,561	84,464	495,833
Rory M. Isaac	43,269	857,543	126,698	1,027,510
Stephen W. Lake	27,404	428,738	—	456,142

- (1) These amounts represent accrued but unused vacation time as of December 31, 2010.
- (2) In the case of Mr. Lane, all restricted stock and unvested stock options he held as of December 31, 2010 would become fully vested as of such date. Because the exercise price of his options is \$12.48 per share, which was above the per share value of the company’s stock as of December 31, 2010, which was \$7.51, there would be no value realized upon this accelerated vesting. The value of the accelerated vesting of Mr. Lane’s restricted stock is based on the per share value of the company’s stock as of December 31, 2010, which was \$7.51. In the case of Messrs. Underhill, Wagstaff, Ittner, Hutchinson, Isaac and Lake, all of the profits units and stock options they held as of December 31, 2010 would become fully vested as of such date. With respect to profits units, the value realized upon such acceleration is based on the value of profits units in PVF Holdings LLC as of December 31, 2010, which was \$3,373.23 per unit. With respect to options, because the exercise price of their options is \$11.42 per share, which was above the per share value of the company’s stock as of December 31, 2010, which was \$7.51, there would be no value realized upon this accelerated vesting.

Under the terms of the merger agreement for the GS Acquisition, McJunkin Red Man Corporation is required to use its commercially reasonable efforts promptly following the closing of the merger to sell certain of its assets (the "Non-Core Assets") for cash and to distribute 95% of the net proceeds of such sales, less 40% of taxable gains, to McJunkin Red Man Corporation's shareholders of record immediately prior to the merger, including H.B. Wehrle, III. The remaining Non-Core Asset that has not yet been sold is certain real property located in Charleston, West Virginia, including a building. At December 31, 2010, this asset had a net book value of approximately \$1.4 million. McJunkin Red Man Corporation is currently in the process of selling this remaining Non-Core Asset.

In connection with the GS Acquisition, on December 4, 2006 we entered into an indemnity agreement with certain former shareholders of McJunkin Red Man Corporation, including H.B. Wehrle, III and Stephen D. Wehrle. Under the indemnity agreement, certain former shareholders of McJunkin Red Man Corporation agreed to jointly and severally indemnify (i) McJunkin Red Man Corporation, (ii) McJunkin Red Man Holding Corporation and (iii) the wholly owned subsidiary of McJunkin Red Man Holding Corporation which merged with and into McJunkin Red Man Corporation in connection with the GS Acquisition, and their respective shareholders, members, partners, officers, directors, employees, attorneys, accountants, affiliates, agents, other advisors and successors, from and against all costs incurred by such indemnified parties relating to the holding and disposition of certain of the Non-Core Assets, and the distribution of net proceeds with respect to such disposition, to the extent the costs for each Non-Core Asset exceeds the net proceeds received in the sale of such asset.

Additionally, the indemnity agreement provided that from and after the effective time of the merger that was consummated in connection with the GS Acquisition, the indemnifying shareholders would jointly and severally indemnify the indemnified parties for (i) any amounts paid or payable by McJunkin Red Man Corporation or any of its subsidiaries to any of its officers, directors or employees in excess of \$965,000 in the nature of any “stay-pay bonuses” as a result of the merger, other than payments to certain specific employees, and (ii) any failure to properly withhold any amounts required to be withheld by McJunkin Red Man Corporation or any of its subsidiaries relating to stay-pay bonuses or any similar such payments (which indemnity only applied to withholding obligations that arose before the effective time of the merger on January 31, 2007).

#### **Registration Rights Agreement**

Pursuant to the Amended and Restated Registration Rights Agreement, dated as of October 31, 2007, as amended, by and among PVF Holdings LLC, the Goldman Sachs Funds and certain holders of common units of PVF Holdings LLC, PVF Holdings LLC may be required to register the sale of common units held by the Goldman Sachs Funds. Under the Amended and Restated Registration Rights Agreement, the Goldman Sachs Funds have the right to request that PVF Holdings LLC use its reasonable best efforts to register the sale of common units held by the Goldman Sachs Funds on its behalf on up to five occasions. The Goldman Sachs Funds' right to demand registration is subject to certain limitations, including PVF Holdings LLC's right to decline to cause a registration statement for a demand registration to be declared effective within 180 days after the effective date of any of our other registration statements. In addition, the Goldman Sachs Funds and certain holders of common units of PVF Holdings LLC that are party to the Amended and Restated Registration Rights Agreement and their respective transferees, will have the ability to exercise certain piggyback registration rights. The Amended and Restated Registration Rights Agreement also includes provisions dealing with allocation of securities included in registration statements, registration procedures, indemnification, contribution and allocation of expenses.

#### **Management Stockholders Agreement**

Each holder of a stock option and/or restricted stock award, including the members of the board of directors of McJunkin Red Man Holding Corporation who have received awards, is a party to a management stockholders agreement. Employees or directors that purchase common stock of McJunkin Red Man Holding Corporation must also become a party to the management stockholders agreement. The management stockholders agreement sets forth the terms and conditions governing common stock of McJunkin Red Man Holding Corporation, including vested restricted stock and shares of common stock received upon the exercise of stock option awards.

The management stockholders agreement provides that upon the termination of a shareholder's employment with McJunkin Red Man Holding Corporation or its affiliates (including, in the case of a non-employee member of our board of directors, the termination of his or her service on our board), McJunkin Red Man Holding Corporation may exercise its right to purchase from shareholder (or his or her permitted transferee) all or a portion of the shareholder's vested restricted stock, common stock received upon the exercise of the shareholder's stock options, and/or common stock purchased by the shareholder. In the event of a termination by the company or its affiliates for cause (as defined in the management stockholders agreement), the call option price would be the lesser of (i) the fair market value on the date of repurchase (determined in accordance with the management stockholders agreement) or

(ii) the price paid for the stock by such shareholder. Under all other circumstances, the call option price would be the fair market value of the stock subject to the call option on the date of repurchase (determined in accordance with the management stockholders agreement). Prior to the consummation of an initial public offering of our common stock, if PVF Holdings LLC proposes to (i) transfer common stock to any person who is not its affiliate or (ii) effect an Exit Event (as defined in the management stockholders agreement), PVF Holdings LLC may require shareholders to transfer a proportionate number of their shares of common stock to such person. In such event, shareholders would receive the same price for their common stock as PVF Holdings LLC receives for its common stock and would be required to pay for a proportionate share of all transaction expenses.

Other than as described above in this section, the management stockholders agreement prohibits the transfer of any shares of common stock of McJunkin Red Man Holding Corporation (including vested shares restricted stock) by a shareholder, other than following the death of such holder pursuant to the terms of any trust or will of the deceased or by the laws of intestate succession.

Our directors hold various equity interests in respect of our shares of common stock. Andrew R. Lane, Leonard Anthony, Cornelis Linse and John Perkins hold shares of our common stock that they have purchased for fair market value; Andrew R. Lane and Leonard Anthony hold awards of restricted stock; and Andrew R. Lane, Leonard Anthony, Rhys Best, Peter C. Boylan III, Gerard P. Krans, John Perkins and Dr. Cornelis A. Linse hold stock options to purchase shares of our common stock. Accordingly, each of them is a party to the management stockholders agreement. Upon the consummation of an initial public offering of our common stock, none of Messrs. Lane, Anthony, Linse or Perkins will be a party to the management stockholders agreement in respect of common stock purchased by them, and neither Mr. Lane nor Mr. Anthony will be a party to the management stockholders agreement in respect of common stock acquired by them upon exercise of their stock options.

### **Related Party Transaction Policy**

We have in place a formal policy for the review, approval, ratification and disclosure of related party transactions. This policy applies to any transaction, arrangement or relationship (or any series of similar transactions, arrangements or relationships) in which we were, are or will be a participant and the amount involved exceeds \$120,000, and in which any related party had or will have a direct or indirect material interest. The audit committee of the board of directors of McJunkin Red Man Holding Corporation must review, approve and ratify a related party transaction if such transaction is consistent with the Related Party Transaction Policy and is on terms, taken as a whole, which the audit committee believes are no less favorable to us than could be obtained in an arm's-length transaction with an unrelated third party, unless the audit committee otherwise determines that the transaction is not in our best interests. Any related party transaction or modification of such transaction which the board of directors of McJunkin Red Man Holding Corporation has approved or ratified by the affirmative vote of a majority of directors, who do not have a direct or indirect material interest in such transaction, does not need to be approved or ratified by the audit committee. In addition, related party transactions involving compensation will be approved by the compensation committee in lieu of our audit committee.

In addition we are bound by a provision in the PVF LLC Agreement which provides that neither we nor any of our subsidiaries may enter into any transactions with any of the Goldman Sachs Funds or any of their affiliates except for transactions which (i) are otherwise permitted or contemplated by the PVF LLC Agreement or (ii) are on fair and reasonable terms not materially less favorable to us than we would obtain in a hypothetical comparable arm's length transaction with a person that was not an affiliate of the Goldman Sachs Funds. Our credit facilities also contain covenants which, subject to certain exceptions, require us to conduct all transactions with any of our affiliates on terms that are substantially as favorable to us as we would obtain in a comparable arm's length transaction with a person that is not an affiliate.

### ***Board of Directors***

As a private company whose securities are not listed on any national securities exchange, McJunkin Red Man Holding Corporation is not required to have a majority of, or any, independent directors. Further, even if McJunkin Red Man Holding Corporation were listed on a national securities exchange, because Goldman, Sachs & Co. beneficially owns more than 50% of the membership interests of PVF Holdings LLC and PVF Holdings LLC owns

a substantial majority of the common stock of McJunkin Red Man Holding Corporation, McJunkin Red Man Holding Corporation would be deemed a “controlled company” under the rules of the NYSE and Nasdaq and, therefore, would not need to have a majority of independent directors or all-independent compensation and nominating committees. However, the rules of the SEC require us to disclose in this prospectus which of our directors would be considered independent within the meaning of the rules of a national securities exchange that we may choose. McJunkin Red Man Holding Corporation currently has five directors who would be considered independent within the definitions of either the NYSE or Nasdaq: Messrs. Leonard M. Anthony, Rhys J. Best, Peter C. Boylan III, Dr. Cornelis A. Linse and John A. Perkins.

## THE EXCHANGE OFFER

### Purpose of the Exchange Offer

In connection with the sale of the outstanding notes on December 21, 2009 and February 11, 2010, respectively, we, the guarantors and the initial purchasers entered into exchange and registration rights agreements. Pursuant to the exchange and registration rights agreements, we and the guarantors agreed to file with the SEC a registration statement on the appropriate form under the Securities Act with respect to publicly registered notes having identical terms to the outstanding notes. Upon the effectiveness of the exchange offer registration statement, we and the guarantors will, pursuant to the exchange offer, offer to the holders of outstanding notes who are able to make certain representations the opportunity to exchange their notes for the exchange notes.

If we and the guarantors fail to file the exchange offer registration statement within 470 days of the date of original issuance of the outstanding notes, or by April 5, 2011, if the exchange offer registration statement is not declared effective within 110 days of April 5, 2011, or July 24, 2011, if the exchange offer has not been completed within 30 business days of July 24, 2011, or September 6, 2011, or if the exchange offer registration statement is declared effective but thereafter ceases to be effective or usable in connection with resales or exchanges of the outstanding notes during the periods specified in the exchange and registration rights agreements, then we will pay additional interest to each holder of the outstanding notes, with respect to the first 90-day period immediately following the occurrence of the first registration default in an amount equal to one-quarter of one percent (0.25%) per annum on the principal amount of notes held by such holder. The amount of the additional interest will increase by an additional one-quarter of one percent (0.25%) per annum on the principal amount of notes with respect to each subsequent 90-day period until all registration defaults have been cured, up to a maximum amount of additional interest for all registration defaults of 1.0% per annum. There can exist only one registration default at any one time.

Each broker-dealer that receives the exchange notes for its own account in exchange for outstanding notes, where such outstanding notes were acquired by such broker-dealer as a result of market-making activities or other trading activities, must acknowledge that it will deliver a prospectus in connection with any resale of such exchange notes. See “Plan of Distribution.”

A copy of the registration rights agreement is attached as an exhibit to the registration statement of which this prospectus is a part.

### Terms of the Exchange Offer

This prospectus and the accompanying letter of transmittal together constitute the exchange offer. Upon the terms and subject to the conditions set forth in this prospectus and in the letter of transmittal, we will accept for exchange outstanding notes, which are properly tendered on or before the expiration date and are not withdrawn as permitted below, for exchange notes. The expiration date for this exchange offer is 5:00 p.m., New York City time, on \_\_\_\_\_, 2011, or such later date and time to which we, in our sole discretion, extend the exchange offer.

The form and terms of the exchange notes are the same as the form and terms of the outstanding notes, except that:

- the exchange notes will have been registered under the Securities Act;
- the exchange notes will not bear the restrictive legends restricting their transfer under the Securities Act; and
- the exchange notes will not contain the registration rights and additional interest provisions contained in the outstanding notes.

Notes tendered in the exchange offer must be in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess thereof.

We expressly reserve the right, in our sole discretion:

- to extend the expiration date;

- to delay accepting any outstanding notes due to an extension of the exchange offer;
- if the condition set forth below under “— Condition to the Exchange Offer” has not been satisfied, to terminate the exchange offer and not accept any outstanding notes for exchange; or
- to amend the exchange offer in any manner.

We will give oral or written notice of any extension, delay, non-acceptance, termination or amendment as promptly as practicable by a public announcement, and in the case of an extension, no later than 9:00 a.m., New York City time, on the next business day after the previously scheduled expiration date. Without limiting the manner in which we may choose to make a public announcement of any extension, delay, non-acceptance, termination or amendment, we shall have no obligation to publish, advertise or otherwise communicate any such public announcement, other than by making a timely release to an appropriate news agency, which may be an agency controlled by us. Notwithstanding the foregoing, in the event of a material change in the exchange offer, including our waiver of a material condition, we will extend the exchange offer period if necessary so that at least five business days remain in the exchange offer following notice of the material change.

During an extension, all outstanding notes previously tendered will remain subject to the exchange offer and may be accepted for exchange by us. Any outstanding notes not accepted for exchange for any reason will be returned without cost to the holder that tendered them promptly after the expiration or termination of the exchange offer.

### **How to Tender Outstanding Notes for Exchange**

When the holder of outstanding notes tenders, and we accept such notes for exchange pursuant to that tender, a binding agreement between us and the tendering holder is created, subject to the terms and conditions set forth in this prospectus and the accompanying letter of transmittal. Except as set forth below, a holder of outstanding notes who wishes to tender such notes for exchange must, on or prior to the expiration date:

- transmit a properly completed and duly executed letter of transmittal, including all other documents required by such letter of transmittal, to U.S. Bank National Association, which will act as the exchange agent, at the address set forth below under the heading “— The Exchange Agent”;

- comply with DTC’s Automated Tender Offer Program, or ATOP, procedures described below; or

- if outstanding notes are tendered pursuant to the book-entry procedures set forth below, the tendering holder must transmit an agent’s message to the exchange agent as per DTC, Euroclear Bank S.A./N.V., as operator of the Euroclear system (“Euroclear”), or Clearstream Banking S.A. (“Clearstream”) (as appropriate) procedures.

In addition, either:

- the exchange agent must receive the certificates for the outstanding notes and the letter of transmittal;

- the exchange agent must receive, prior to the expiration date, a timely confirmation of the book-entry transfer of the outstanding notes being tendered, along with the letter of transmittal or an agent’s message; or

- the holder must comply with the guaranteed delivery procedures described below.

The term “agent’s message” means a message, transmitted to DTC, Euroclear or Clearstream, as appropriate, and received by the exchange agent and forming a part of a book-entry transfer, or “book-entry confirmation,” which states that DTC, Euroclear or Clearstream, as appropriate, has received an express acknowledgement that the tendering holder agrees to be bound by the letter of transmittal and that we may enforce the letter of transmittal against such holder.

The method of delivery of the outstanding notes, the letters of transmittal and all other required documents is at the election and risk of the holders. If such delivery is by mail, we recommend registered mail, properly insured, with return receipt requested. In all cases, you should allow sufficient time to assure timely delivery. No letters of transmittal or outstanding notes should be sent directly to us.

Signatures on a letter of transmittal or a notice of withdrawal must be guaranteed by an eligible institution unless the outstanding notes surrendered for exchange are tendered:

- by a registered holder of the outstanding notes; or
- for the account of an eligible institution.

An “eligible institution” is a firm which is a member of a registered national securities exchange or a member of the Financial Industry Regulatory Authority or a commercial bank or trust company having an office or correspondent in the United States.

If outstanding notes are registered in the name of a person other than the signer of the letter of transmittal, the outstanding notes surrendered for exchange must be endorsed by, or accompanied by a written instrument or instruments of transfer or exchange, in satisfactory form as determined by us in our sole discretion, duly executed by the registered holder with the holder’s signature guaranteed by an eligible institution.

We will determine all questions as to the validity, form, eligibility (including time of receipt) and acceptance of outstanding notes tendered for exchange in our sole discretion. Our determination will be final and binding. We reserve the absolute right to:

- reject any and all tenders of any outstanding note improperly tendered;
- refuse to accept any outstanding note if, in our judgment or the judgment of our counsel, acceptance of the outstanding note may be deemed unlawful; and
- waive any defects or irregularities or conditions of the exchange offer as to any particular outstanding note based on the specific facts or circumstances presented either before or after the expiration date, including the right to waive the ineligibility of any holder who seeks to tender outstanding notes in the exchange offer.

Notwithstanding the foregoing, we do not expect to treat any holder of outstanding notes differently from other holders to the extent they present the same facts or circumstances.

Our interpretation of the terms and conditions of the exchange offer as to any particular outstanding notes either before or after the expiration date, including the letter of transmittal and the instructions to it, will be final and binding on all parties. Holders must cure any defects and irregularities in connection with tenders of notes for exchange within such reasonable period of time as we will determine, unless we waive such defects or irregularities. Neither we, the exchange agent nor any other person shall be under any duty to give notification of any defect or irregularity with respect to any tender of outstanding notes for exchange, nor shall any of us incur any liability for failure to give such notification.

If a person or persons other than the registered holder or holders of the outstanding notes tendered for exchange signs the letter of transmittal, the tendered outstanding notes must be endorsed or accompanied by appropriate powers of attorney, in either case signed exactly as the name or names of the registered holder or holders that appear on the outstanding notes.

If trustees, executors, administrators, guardians, attorneys-in-fact, officers of corporations or others acting in a fiduciary or representative capacity sign the letter of transmittal or any outstanding notes or any power of attorney, these persons should so indicate when signing, and you must submit proper evidence satisfactory to us of those persons’ authority to so act unless we waive this requirement.

By tendering, each holder will represent to us that: (i) it is not an “affiliate” of the Issuer, as defined in Rule 405 of the Securities Act, or if it is such an “affiliate,” it will comply with the registration and prospectus delivery requirements of the Securities Act to the extent applicable; (ii) it is not engaged in and does not intend to engage in, and has no arrangement or understanding with any person to participate in, a distribution of the exchange notes; (iii) it is acquiring the exchange notes in its ordinary course of business; (iv) if it is a broker-dealer that holds outstanding notes that were acquired for its own account as a result of market-making activities or other trading activities (other than outstanding notes acquired directly from the Issuer or any of our affiliates), it will deliver a prospectus meeting the requirements of the Securities Act in connection with any resales of the exchange notes

received by it in the exchange offer; (v) if it is a broker-dealer, that it did not purchase the outstanding notes to be exchanged in the exchange offer from the Issuer or any of its affiliates; and (vi) it is not acting on behalf of any person who could not truthfully and completely make the representation contained in the foregoing subclauses (i) through (v).

If any holder or any other person receiving exchange notes from such holder is an “affiliate,” as defined under Rule 405 of the Securities Act, of us, or is engaged in or intends to engage in or has an arrangement or understanding with any person to participate in a distribution (within the meaning of the Securities Act) of the notes to be acquired in the exchange offer in violation of the provisions of the Securities Act, the holder or any other person:

- may not rely on applicable interpretations of the staff of the SEC; and
- must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale transaction.

Each broker-dealer who acquired its outstanding notes as a result of market-making activities or other trading activities, and thereafter receives exchange notes issued for its own account in the exchange offer, must acknowledge that it will deliver this prospectus in connection with any resale of such exchange notes issued in the exchange offer. The letter of transmittal states that by so acknowledging and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an “underwriter” within the meaning of the Securities Act. See “Plan of Distribution” for a discussion of the exchange and resale obligations of broker-dealers.

#### **Acceptance of Outstanding Notes for Exchange; Delivery of Exchange Notes Issued in the Exchange Offer**

Upon satisfaction or waiver of all the conditions to the exchange offer, we will accept, promptly after the expiration date, all outstanding notes properly tendered and will issue exchange notes registered under the Securities Act in exchange for the tendered outstanding notes. For purposes of the exchange offer, we shall be deemed to have accepted properly tendered outstanding notes for exchange when, as and if we have given oral or written notice to the exchange agent, with written confirmation of any oral notice to be given promptly thereafter, and complied with the applicable provisions of the exchange and registration rights agreements. See “— Condition to the Exchange Offer” for a discussion of the condition that must be satisfied before we accept any outstanding notes for exchange.

For each outstanding note accepted for exchange, the holder will receive an exchange note registered under the Securities Act having a principal amount equal to that of the surrendered outstanding note. Registered holders of exchange notes issued in the exchange offer on the relevant record date for the first interest payment date following the consummation of the exchange offer will receive interest accruing from the most recent date to which interest has been paid. Under the exchange and registration rights agreements, we may be required to make payments of additional interest to the holders of the outstanding notes under circumstances relating to the timing of the exchange offer.

In all cases, we will issue exchange notes for outstanding notes that are accepted for exchange only after the exchange agent timely receives:

- certificates for such outstanding notes or a timely book-entry confirmation of such outstanding notes into the exchange agent’s account at DTC, Euroclear or Clearstream, as appropriate;
- a properly completed and duly executed letter of transmittal or an agent’s message; and
- all other required documents.

If for any reason set forth in the terms and conditions of the exchange offer we do not accept any tendered outstanding notes, or if a holder submits outstanding notes for a greater principal amount than the holder desires to exchange, we will return such unaccepted or nonexchanged notes without cost to the tendering holder. In the case of outstanding notes tendered by book-entry transfer into the exchange agent’s account at DTC, Euroclear or Clearstream, the nonexchanged notes will be credited to an account maintained with DTC, Euroclear or Clearstream,. We will return the outstanding notes or have them credited to DTC, Euroclear or Clearstream accounts, as appropriate, promptly after the expiration or termination of the exchange offer.

## **Book-Entry Transfer**

The participant should transmit its acceptance to DTC, Euroclear or Clearstream, as the case may be, on or prior to the expiration date or comply with the guaranteed delivery procedures described below. DTC, Euroclear or Clearstream, as the case may be, will verify the acceptance and then send to the exchange agent confirmation of the book-entry transfer. The confirmation of the book-entry transfer will include an agent's message confirming that DTC, Euroclear or Clearstream, as the case may be, has received an express acknowledgment from the participant that the participant has received and agrees to be bound by the letter of transmittal and that we may enforce the letter of transmittal against such participant. Delivery of exchange notes issued in the exchange offer may be effected through book-entry transfer at DTC, Euroclear or Clearstream, as the case may be. However, the letter of transmittal or facsimile thereof or an agent's message, with any required signature guarantees and any other required documents, must:

be transmitted to and received by the exchange agent at the address set forth below under “— The Exchange Agent” on or prior to the expiration date; or

comply with the guaranteed delivery procedures described below.

DTC's ATOP program is the only method of processing exchange offers through DTC. To accept an exchange offer through ATOP, participants in DTC must send electronic instructions to DTC through DTC's communication system. In addition, such tendering participants should deliver a copy of the letter of transmittal to the exchange agent unless an agent's message is transmitted in lieu thereof. DTC is obligated to communicate those electronic instructions to the exchange agent through an agent's message. To tender outstanding notes through ATOP, the electronic instructions sent to DTC and transmitted by DTC to the exchange agent must contain the character by which the participant acknowledges its receipt of and agrees to be bound by the letter of transmittal. Any instruction through ATOP is at your risk and such instruction will be deemed made only when actually received by the exchange agent.

In order for an acceptance of an exchange offer through ATOP to be valid, an agent's message must be transmitted to and received by the exchange agent prior to the expiration date, or the guaranteed delivery procedures below must be complied with. Delivery of instructions to DTC does not constitute delivery to the exchange agent.

## **Guaranteed Delivery Procedures**

If a holder of outstanding notes desires to tender such notes and the holder's outstanding notes are not immediately available, or time will not permit the holder's outstanding notes or other required documents to reach the exchange agent before the expiration date, or the procedure for book-entry transfer cannot be completed on a timely basis, a tender may be effected if:

the holder tenders the outstanding notes through an eligible institution;

prior to the expiration date, the exchange agent receives from such eligible institution a properly completed and duly executed notice of guaranteed delivery, acceptable to us, by mail, hand delivery, overnight courier or facsimile transmission, setting forth the name and address of the holder of the outstanding notes tendered, the certificate number or numbers of such outstanding notes and the amount of the outstanding notes being tendered. The notice of guaranteed delivery shall state that the tender is being made and guarantee that within three New York Stock Exchange trading days after the expiration date, the certificates for all physically tendered outstanding notes, in proper form for transfer, or a book-entry confirmation, as the case may be, together with a properly completed and duly executed letter of transmittal or agent's message with any required signature guarantees and any other documents required by the letter of transmittal will be deposited by the eligible institution with the exchange agent; and

the exchange agent receives the certificates for all physically tendered outstanding notes, in proper form for transfer, or a book-entry confirmation, as the case may be, together with a properly completed and duly executed letter of transmittal or agent's message with any required signature guarantees and any other documents required by the letter of transmittal, within three New York Stock Exchange trading days after the expiration date.

## **Withdrawal Rights**

You may withdraw tenders of your outstanding notes at any time prior to the expiration of the offer.

For a withdrawal to be effective, you must send a written notice of withdrawal to the exchange agent at the address set forth below under “— The Exchange Agent.” Any such notice of withdrawal must:

specify the name of the person that has tendered the outstanding notes to be withdrawn;

identify the outstanding notes to be withdrawn, including the principal amount of such outstanding notes; and

where certificates for outstanding notes are transmitted, specify the name in which outstanding notes are registered, if different from that of the withdrawing holder.

If certificates for outstanding notes have been delivered or otherwise identified to the exchange agent, then, prior to the release of such certificates, the withdrawing holder must also submit the serial numbers of the particular certificates to be withdrawn and signed notice of withdrawal with signatures guaranteed by an eligible institution unless such holder is an eligible institution. If outstanding notes have been tendered pursuant to the procedure for book-entry transfer described above, any notice of withdrawal must specify the name and number of the account at DTC, Euroclear or Clearstream, as applicable, to be credited with the withdrawn notes and otherwise comply with the procedures of such facility. We will determine all questions as to the validity, form and eligibility (including time of receipt) of notices of withdrawal and our determination will be final and binding on all parties. Any tendered notes so withdrawn will be deemed not to have been validly tendered for exchange for purposes of the exchange offer. Any outstanding notes which have been tendered for exchange but which are not exchanged for any reason will be returned to the holder thereof without cost to such holder. In the case of outstanding notes tendered by book-entry transfer into the exchange agent’s account at DTC, Euroclear or Clearstream, as applicable, the outstanding notes withdrawn will be unlocked with DTC, Euroclear or Clearstream, as applicable, for the outstanding notes. The outstanding notes will be returned promptly after withdrawal, rejection of tender or termination of the exchange offer. Properly withdrawn outstanding notes may be re-tendered by following one of the procedures described under “— How to Tender Outstanding Notes for Exchange” above at any time on or prior to 5:00 p.m., New York City time, on the expiration date.

## **Condition to the Exchange Offer**

Notwithstanding any other provisions of this exchange offer, we are not required to accept the outstanding notes in the exchange offer or to issue the exchange notes, and we may terminate or amend the exchange offer, if at any time before the expiration of the exchange offer that acceptance or issuance would violate any applicable law or any interpretations of the staff of the SEC.

The preceding condition is for our sole benefit, and we may assert it regardless of the circumstances giving rise to any such condition. We may waive the preceding condition in whole or in part at any time and from time to time in our sole discretion. Our failure at any time to exercise the foregoing right shall not be deemed a waiver of such right, and such right shall be deemed an ongoing right which we may assert at any time and from time to time.

The exchange offer is not conditioned upon any minimum aggregate principal amount of outstanding notes being tendered in the exchange.

### **Fees and Expenses**

We will not make any payment to brokers, dealers or others soliciting acceptance of the exchange offer except for reimbursement of mailing expenses.

The cash expenses to be incurred in connection with the exchange offer will be paid by us.

### **Transfer Taxes**

Holders who tender their outstanding notes for exchange notes will not be obligated to pay any transfer taxes in connection with the exchange. If, however, exchange notes issued in the exchange offer or substitute outstanding notes not tendered or exchanged are to be delivered to, or are to be issued in the name of, any person other than the holder of the outstanding notes tendered, or if a transfer tax is imposed for any reason other than the exchange of outstanding notes in connection with the exchange offer, then the holder must pay any applicable transfer taxes, whether imposed on the registered holder or on any other person. If satisfactory evidence of payment of, or exemption from, transfer taxes is not submitted with the letter of transmittal, the amount of the transfer taxes will be billed directly to the tendering holder.

### **Consequences of Failure to Exchange Outstanding Notes**

Holders who desire to tender their outstanding notes in exchange for exchange notes registered under the Securities Act should allow sufficient time to ensure timely delivery. Neither the exchange agent nor we are under any duty to give notification of defects or irregularities with respect to the tenders of outstanding notes for exchange.

Outstanding notes that are not tendered or are tendered but not accepted will, following the consummation of the exchange offer, continue to accrue interest and to be subject to the provisions in the indenture regarding the transfer and exchange of the outstanding notes and the existing restrictions on transfer set forth in the legend on the outstanding notes and in the offering circulars dated December 16, 2009 and February 8, 2010, respectively, relating

to the outstanding notes. After completion of this exchange offer, we will have no further obligation to provide for the registration under the Securities Act of those outstanding notes except in limited circumstances with respect to specific types of holders of outstanding notes, and we do not intend to register the outstanding notes under the Securities Act. In general, outstanding notes, unless registered under the Securities Act, may not be offered or sold except pursuant to an exemption from, or in a transaction not subject to, the Securities Act and applicable state securities laws.

Upon completion of the exchange offer, holders of any remaining outstanding notes will not be entitled to any further registration rights under the exchange and registration rights agreements, except under limited circumstances.

### **Exchanging Outstanding Notes**

Based on interpretations of the staff of the SEC, as set forth in no-action letters to third parties, we believe that the notes issued in the exchange offer may be offered for resale, resold or otherwise transferred by holders of such notes, other than by any holder that is a broker-dealer who acquired outstanding notes for its own account as a result of market-making or other trading activities or by any holder which is an “affiliate” of us within the meaning of Rule 405 under the Securities Act. The exchange notes may be offered for resale, resold or otherwise transferred without compliance with the registration and prospectus delivery provisions of the Securities Act, if:

the holder is not a broker-dealer tendering notes acquired directly from us;

the person acquiring the exchange notes in the exchange offer, whether or not that person is a holder, is acquiring them in the ordinary course of its business;

neither the holder nor that other person has any arrangement or understanding with any person to participate in the distribution of the exchange notes issued in the exchange offer; and

the holder is not our affiliate.

However, the SEC has not considered the exchange offer in the context of a no-action letter, and we cannot guarantee that the staff of the SEC would make a similar determination with respect to the exchange offer as in these other circumstances.

Each holder must furnish a written representation, at our request, that:

it is not an affiliate of us or, if an affiliate, that it will comply with the registration and prospectus delivery requirements of the Securities Act to the extent applicable;

it is not engaged in, and does not intend to engage in, and has no arrangement or understanding with any person to participate in, a distribution of the exchange notes issued to be issued in the exchange offer;

it is acquiring the exchange notes in the ordinary course of its business

if it is a broker-dealer that hold outstanding notes that were acquired for its own account as a result of market-making activities or other trading activities (other than outstanding securities acquired directly from us or any of our affiliates), it will deliver a prospectus meeting the requirements of the Securities Act in connection with any resales of the exchange notes received by it in the exchange offer;

if it is a broker-dealer, that it did not purchase the outstanding notes to be exchanged in the exchange offer from us or any of our affiliates; and

it is not acting on behalf of any person who could not truthfully and completely make the foregoing representations.

Each holder who cannot make such representations:

- will not be able to rely on the interpretations of the staff of the SEC in the above-mentioned interpretive letters;
- will not be permitted or entitled to tender outstanding notes in the exchange offer; and
- must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any sale or other transfer of outstanding notes, unless the sale is made under an exemption from such requirements.

In addition, each broker-dealer that receives exchange notes for its own account in exchange for outstanding notes, where such outstanding notes were acquired by that broker-dealer as a result of market-making or other trading activities, must acknowledge that it will deliver this prospectus in connection with any resale of such notes issued in the exchange offer. See “Plan of Distribution” for a discussion of the exchange and resale obligations of broker-dealers in connection with the exchange offer.

In addition, to comply with state securities laws of certain jurisdictions, the exchange notes may not be offered or sold in any state unless they have been registered or qualified for sale in such state or an exemption from registration or qualification is available and complied with by the holders selling the exchange notes. We have not agreed to register or qualify the exchange notes for offer or sale under state securities laws.

## DESCRIPTION OF EXCHANGE NOTES

The outstanding notes were issued, and the exchange notes will be issued, under an indenture (the “*indenture*”), dated December 21, 2009, among the Issuer, the Guarantors and U.S. Bank National Association, as trustee (the “*trustee*”). On December 21, 2009, the Issuer issued and sold \$1.0 billion of 9.50% senior secured notes due 2016 (“original first lien notes”). On February 11, 2010, the Issuer issued and sold \$50 million of 9.50% senior secured notes due 2016 (“additional first lien notes”). The original first lien notes and the additional first lien notes:

- are *pari passu* in right of payment;
- are secured equally and ratably;
- vote together on any matter submitted to the holders for a vote, including waivers and amendments; and
- are otherwise treated as a single class for all purposes under the indenture, including redemptions and offers to purchase.

Unless otherwise indicated, the exchange notes offered hereby, the original first lien notes and the additional first lien notes are collectively referred to herein as the “notes”. The terms of the notes include those stated in the indenture and those made part of the indenture by reference to the Trust Indenture Act of 1939, as amended, which is referred to in this prospectus as the Trust Indenture Act, or TIA.

You can find the definitions of certain terms used in this description under “— Certain Definitions”. Certain defined terms used in this description but not defined below under the caption “— Certain Definitions” have the meanings assigned to them in the indenture, the collateral trust agreement, the intercreditor agreement and/or the exchange and registration rights agreements. In this description, the term “*Parent*” refers only to McJunkin Red Man Holding Corporation, a Delaware corporation, and not to any of its subsidiaries or direct or indirect equityholders, the term “*Issuer*” refers only to McJunkin Red Man Corporation, a West Virginia corporation and a Wholly Owned Restricted Subsidiary of Parent, and not to any of its subsidiaries, the term “*refinancing transactions*” means the issuance of the original first lien notes and the application of the use of proceeds therefrom, and the term “*current transactions*” means the issuance of the additional first lien notes and the application of the use of proceeds therefrom.

The following description is a summary of the material provisions of the indenture, the collateral trust agreement, the intercreditor agreement and the registration rights agreement. It does not restate those agreements in their entirety. We urge you to read the indenture, the collateral trust agreement, the intercreditor agreement and the exchange and registration rights agreements because they, and not this description, define your rights as a holder of the notes. Copies of the indenture, the collateral trust agreement, the intercreditor agreement and the exchange and registration rights agreements from the Issuer without charge upon request.

The registered holder of a note will be treated as the owner of it for all purposes. Only registered holders will have rights under the indenture.

### Brief Description of the Notes and the Note Guarantees

#### *The Notes*

The notes:

- are general senior secured obligations of the Issuer;
- share, equally and ratably with all obligations of the Issuer under any other Priority Lien Debt, in the benefits of Liens held by the collateral trustee on all Notes Priority Collateral from time to time owned by the Issuer, which Liens will be junior to all Permitted Prior Liens on the Notes Priority Collateral and senior to the Liens on the Notes Priority Collateral securing any future Subordinated Lien Obligations;
- share, equally and ratably with all obligations of the Issuer under any other Priority Lien Debt, in the benefits of the Liens held by the collateral trustee on the ABL Priority Collateral, which Liens will be junior to all Permitted Prior Liens on the ABL Priority Collateral, including Liens securing the ABL Debt Obligations,

and, consequently, the notes will be effectively junior to all ABL Debt Obligations to the extent of the value of the ABL Priority Collateral;

- are structurally subordinated to any existing and future Indebtedness and other liabilities of the Issuer's non-Guarantor Subsidiaries;
- are *pari passu* in right of payment with all existing and future Indebtedness of the Issuer that is not subordinated;
- are senior in right of payment to any existing and future subordinated Indebtedness of the Issuer; and
- are guaranteed on a senior secured basis by the Subsidiary Guarantors, and on a senior unsecured basis by Parent, as described under the caption "— The Note Guarantees".

As of December 31, 2010, the Issuer would have had outstanding \$1.05 billion in aggregate principal amount of Priority Lien Debt (consisting solely of the notes) plus certain outstanding interest rate swap agreements that have been designated as Priority Lien Debt, approximately \$286 million in aggregate principal amount of drawn ABL Debt and outstanding letters of credit of approximately \$5 million (and \$360 million of available borrowings under the ABL Credit Facility) and no Subordinated Lien Debt. Pursuant to the indenture, the Issuer is permitted to incur additional Indebtedness as Priority Lien Debt in an amount not to exceed the Priority Lien Cap. The Issuer is also permitted to incur additional ABL Debt in an amount not to exceed the ABL Lien Cap and additional Subordinated Lien Debt in an amount not to exceed the Subordinated Lien Cap. Any future incurrence of Priority Lien Debt, ABL Debt or Subordinated Lien Debt will be subject to all of the covenants described below, including the covenants described under the captions "— Certain Covenants — Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock" and "— Certain Covenants — Liens".

### ***The Note Guarantees***

The notes are guaranteed by Parent and by all of the current and future Wholly Owned Domestic Subsidiaries of the Issuer (other than Excluded Subsidiaries) and any of the Issuer's future Restricted Subsidiaries that guarantee any Indebtedness of the Issuer or any Subsidiary Guarantor, including the ABL Credit Facility.

Each guarantee by a Subsidiary Guarantor of the notes:

- is a general senior secured obligation of that Subsidiary Guarantor;
- shares, equally and ratably with all obligations of that Subsidiary Guarantor under any other Priority Lien Debt, in the benefit of Liens on all Notes Priority Collateral from time to time owned by that Subsidiary Guarantor, which Liens will be junior to all Permitted Prior Liens on the Notes Priority Collateral and senior to the Liens on the Notes Priority Collateral securing any future Subordinated Lien Obligations;
- shares, equally and ratably with all obligations of that Subsidiary Guarantor under any other Priority Lien Debt, in the benefits of the Liens held by the collateral trustee on the ABL Priority Collateral of that Subsidiary Guarantor, which Liens will be junior to all Permitted Prior Liens on the ABL Priority Collateral, including Liens securing the ABL Debt Obligations, and, consequently, the Note Guarantees will be effectively junior to all ABL Debt Obligations to the extent of the value of the ABL Priority Collateral of that Subsidiary Guarantor;
- is *pari passu* in right of payment with all existing and future Indebtedness of that Subsidiary Guarantor that is not subordinated; and
- is senior in right of payment to any future subordinated Indebtedness of that Subsidiary Guarantor.

Not all of the Issuer's Subsidiaries guarantee the notes. In the event of a bankruptcy, liquidation or reorganization of any of these non-Guarantor Subsidiaries, the non-Guarantor Subsidiaries will pay the holders of their debt and their trade creditors before they will be able to distribute any of their assets to the Issuer. As of December 31, 2010, the Issuer's non-Guarantor Subsidiaries had consolidated total liabilities (excluding intercompany liabilities of Subsidiaries that are not Guarantors) of approximately \$453 million, including trade payables, and consolidated total assets of \$505 million, which represented 16% of the Issuer's and its Subsidiaries'

consolidated total assets. In addition, for the fiscal year ended December 31, 2010, the Issuer's non-Guarantor subsidiaries had consolidated total revenue of \$727 million, which represented 19% of the Issuer's consolidated total revenue. See "Risk Factors — Risks Related to the Exchange Notes — Your Right to Receive Payment on the Exchange Notes Will Be Structurally Subordinated to the Liabilities of Our Non-Guarantor Subsidiaries".

The guarantee by Parent of the notes is a general senior unsecured obligation of Parent, is *pari passu* in right of payment with all existing and future Indebtedness of Parent that is not subordinated, is senior in right of payment to any future subordinated Indebtedness of Parent and is effectively subordinated to any future secured Indebtedness of Parent and structurally subordinated to any Indebtedness of the Issuer and its Subsidiaries. Parent has no significant assets other than its interest in the Issuer, and has no income from operations independent of the Issuer and its Subsidiaries.

If the Issuer or any of its Restricted Subsidiaries acquires or creates another Wholly Owned Domestic Subsidiary (other than an Excluded Subsidiary), such Wholly Owned Domestic Subsidiary must become a Subsidiary Guarantor, execute a supplemental indenture and deliver an Opinion of Counsel to the trustee. In addition, any Restricted Subsidiary of the Issuer that guarantees any Indebtedness of the Issuer or any Subsidiary Guarantor, including the ABL Credit Facility, must become a Subsidiary Guarantor, execute a supplemental indenture and deliver an Opinion of Counsel to the trustee.

The Note Guarantee of a Guarantor will be released under specified circumstances, including, in the case of a Subsidiary Guarantor, in connection with a disposition of the Subsidiary Guarantor's Capital Stock if various conditions are satisfied. See "— Certain Covenants — Guarantees".

As of the date the Issuer issued the notes, all of the Issuer's Subsidiaries were "Restricted Subsidiaries". However, under the circumstances described below under the caption

"— Certain Covenants — Designation of Restricted and Unrestricted Subsidiaries", the Issuer is permitted to designate certain of its Subsidiaries as "Unrestricted Subsidiaries". Any Unrestricted Subsidiaries will not be subject to any of the covenants in the indenture and will not guarantee the notes. The notes are not guaranteed by PVF Holdings LLC, which is the direct parent of Parent and the indirect parent of the Issuer.

#### **Principal, Maturity and Interest**

The indenture provides for the issuance by the Issuer of notes with an unlimited principal amount. The Issuer may issue additional notes (the "*additional notes*") from time to time after this offering. Any offering of additional notes is subject to the covenants described below under the captions "— Certain Covenants — Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock" and "— Certain Covenants — Liens". The original first lien notes, the additional first lien notes, the exchange notes and any additional notes subsequently issued under the indenture would be treated as a single class for all purposes under the indenture, including, without limitation, waivers, amendments, redemptions and offers to purchase. We intend to take the position that the additional first lien notes will be fungible with the original first lien notes for U.S. federal income tax purposes. See "Certain Material United States Federal Tax Considerations — Qualified Reopening". However, any additional notes may not be fungible with the additional first lien notes and the original first lien notes for U.S. federal income tax purposes. Any additional notes, if any, will be issued in denominations of \$2,000 and integral multiples of \$1,000 in excess of \$2,000. The notes will mature on December 15, 2016.

Interest on the notes accrues at the rate of 9.50% per annum and is payable semi-annually in arrears on June 15 and December 15, having commenced on June 15, 2010. The Issuer will make each interest payment to the holders of record on the immediately preceding June 1 and December 1, respectively.

Interest on the additional first lien notes will be deemed to accrue from December 21, 2009. Interest will be computed on the basis of a 360-day year comprised of twelve 30-day months.

#### **Methods of Receiving Payments on the Notes**

If a holder has given wire transfer instructions to the Issuer, the Issuer will pay all principal, interest and premium on that holder's notes in accordance with those instructions. All other payments on the notes will be made

at the office or agency of the paying agent and registrar within the City and State of New York unless the Issuer elects to make interest payments by check mailed to the holders at their addresses set forth in the register of holders.

#### **Paying Agent and Registrar for the Notes**

The trustee currently acts as paying agent and registrar. The Issuer may change the paying agent or registrar without prior notice to the holders, and the Issuer or any of its Subsidiaries may act as paying agent or registrar.

#### **Transfer and Exchange**

A holder may transfer or exchange notes in accordance with the indenture and the procedures described in “Notice to Investors”. The registrar and the trustee may require a holder, among other things, to furnish appropriate endorsements and transfer documents and the Issuer may require a holder to pay any taxes and fees required by law or permitted by the indenture. The Issuer is not required to transfer or exchange any note selected for redemption. Also, the Issuer is not required to transfer or exchange any note (1) for a period of 15 days before a selection of notes to be redeemed or (2) tendered and not withdrawn in connection with a Change of Control Offer or an Asset Sale Offer.

#### **Security**

The obligations of the Issuer with respect to the notes, the obligations of the Subsidiary Guarantors under the Note Guarantees, all other existing and future Priority Lien Obligations and the performance of all other obligations of the Issuer and the Subsidiary Guarantors under the note documents are secured by Liens held by the collateral trustee on the Notes Priority Collateral and the ABL Priority Collateral. The Liens on the Notes Priority Collateral securing the notes are senior to the Liens on the Notes Priority Collateral securing any future Subordinated Lien Obligations. The Liens on the ABL Priority Collateral securing the notes are junior to the Liens on the ABL Priority Collateral securing the ABL Debt Obligations, but senior to the Liens on the ABL Priority Collateral securing any future Subordinated Lien Obligations. All such Liens are subject to Permitted Prior Liens.

On December 21, 2009, the Issuer and the Subsidiary Guarantors entered into a collateral trust agreement with the collateral trustee and the trustee. The collateral trust agreement sets forth the terms on which the collateral trustee will receive, hold, administer, maintain, enforce and distribute the proceeds of all Liens upon all Collateral owned by the Issuer or any Subsidiary Guarantor for the benefit of all present and future holders of Priority Lien Obligations and all future holders of Subordinated Lien Obligations (if any). The Priority Lien Obligations and the Subordinated Lien Obligations are collectively referred to as the “*Secured Obligations*”.

#### ***Collateral Trustee***

The collateral trustee acts for the benefit of the holders of:

- the notes;
- all other Priority Lien Obligations outstanding from time to time; and
- all Subordinated Lien Obligations outstanding from time to time, if any.

U.S. Bank National Association currently acts as collateral trustee under the collateral trust agreement. Neither the Issuer nor any of its Affiliates may act as collateral trustee. No Secured Debt Representative may serve as collateral trustee; provided that the trustee may serve as collateral trustee if the notes are the only Secured Obligations outstanding (other than Hedging Obligations).

The collateral trustee holds (directly or through co-trustees or agents), and is entitled to enforce on behalf of the holders of Priority Lien Obligations and Subordinated Lien Obligations, if any, all Liens on the Collateral created by the security documents for their benefit, subject to the provisions of the intercreditor agreement and the collateral trust agreement, in each case as described below.

Except as provided in the collateral trust agreement or as directed by an Act of Required Debtholders in accordance with the collateral trust agreement, the collateral trustee is not obligated:

- (1) to act upon directions purported to be delivered to it by any Person;
- (2) to foreclose upon or otherwise enforce any Lien; or
- (3) to take any other action whatsoever with regard to any or all of the security documents, the Liens created thereby or the Collateral.

The Issuer will deliver to each Secured Debt Representative copies of all security documents delivered to the collateral trustee.

On December 21, 2009, the collateral trustee entered into an intercreditor agreement (the “*intercreditor agreement*”) with the Issuer, the Subsidiary Guarantors, the trustee, and The CIT Group/ Business Credit Inc. and Bank of America, N.A., each as co-collateral agent under the ABL Credit Facility (collectively in such capacity, and together with any other collateral agent, collateral trustee or other representative of lenders or holders of ABL Debt Obligations that becomes party to the intercreditor agreement upon the refinancing or replacement of the ABL Credit Facility, or any successor representative acting in such capacity, the “*ABL Collateral Agent*”), to provide for, among other things, the junior nature of the Liens on the ABL Priority Collateral securing the Priority Lien Obligations. The Liens held by the collateral trustee on the Notes Priority Collateral securing Priority Lien Obligations are senior to the Liens securing any future Subordinated Lien Obligations. The Liens held by the collateral trustee on the ABL Priority Collateral securing Priority Lien Obligations are junior to the Liens held by the ABL Collateral Agent on the ABL Priority Collateral securing the ABL Debt Obligations, but senior to the Liens on the ABL Priority Collateral securing any future Subordinated Lien Obligations. All such Liens are subject to Permitted Prior Liens.

### ***Collateral***

The Notes Priority Collateral comprises substantially all of the tangible and intangible assets of the Issuer and the Subsidiary Guarantors, other than the ABL Priority Collateral and Excluded Assets.

The ABL Priority Collateral comprises substantially all accounts, inventory or documents of title, customs receipts, insurance certificates, shipping documents and other written materials related to the purchase or import of any inventory, all letter of credit rights, chattel paper, instruments, investment property and general intangibles pertaining to the foregoing, deposit accounts (other than the Net Available Cash Account, to the extent that it constitutes a deposit account) and securities accounts (other than the Net Available Cash Account, to the extent it constitutes a securities account), including all cash, marketable securities, securities entitlements, financial assets and other funds held in or on deposit in any of the foregoing, all records, “supporting obligations” (as defined in Article 9 of the UCC) and related letters of credit, commercial tort claims or other claims and causes of action, in each case, to the extent not primarily related to the Notes Priority Collateral and, to the extent not otherwise included, all substitutions, replacements, accessions, products and proceeds (including, without limitation, insurance proceeds, investment property, licenses, royalties, income, payments, claims, damages and proceeds of suit) of any or all of the foregoing, in each case held by the Issuer and the Subsidiary Guarantors, other than the Excluded ABL Assets.

### ***ABL Debt***

As of December 31, 2010, the Issuer had approximately \$286 million in aggregate principal amount of drawn ABL Debt outstanding, all of which consisted of borrowings under the ABL Credit Facility, and outstanding letters of credit of approximately \$5 million. As of December 31, 2010, the Issuer had approximately \$360 million available for borrowing under the ABL Credit Facility. The indenture and the security documents provide that the Issuer and the Subsidiary Guarantors may incur additional ABL Debt, in an amount not to exceed the ABL Lien Cap. Any additional ABL Debt would be secured by Liens on the ABL Priority Collateral that would be effectively senior to the Liens on the ABL Priority Collateral securing the notes and other Priority Lien Debt. Additional ABL Debt will only be permitted if such Indebtedness and the related Liens are permitted to be incurred under the

covenants described below under the captions “— Certain Covenants — Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock” and “— Certain Covenants — Liens”.

#### ***Additional Priority Lien Debt***

The indenture and the security documents provide that the Issuer may incur additional Priority Lien Debt, in an amount not to exceed the Priority Lien Cap, by issuing additional notes under the indenture or under one or more additional indentures, incurring additional Indebtedness under Credit Facilities (other than the ABL Credit Facility) or otherwise issuing or increasing a new Series of Secured Debt secured by Priority Liens on the Notes Priority Collateral and junior Liens on the ABL Priority Collateral. All additional Priority Lien Debt will be *pari passu* in right of payment with the notes, will be guaranteed on a *pari passu* basis by each Subsidiary Guarantor and will be secured equally and ratably with the notes by Liens on the Collateral held by the collateral trustee for as long as the notes and the Note Guarantees are secured by the Collateral, subject to the covenants contained in the indenture. The collateral trustee under the collateral trust agreement holds all Priority Liens in trust for the benefit of the holders of the notes, any future Priority Lien Debt and all other Priority Lien Obligations. Additional Priority Lien Debt will only be permitted to be secured by the Collateral if such Indebtedness and the related Liens are permitted to be incurred under the covenants described below under the captions “— Certain Covenants — Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock” and “— Certain Covenants — Liens”.

#### ***Future Subordinated Lien Debt***

The indenture and the security documents provide that the Issuer and the Guarantors may incur Subordinated Lien Debt in the future, in an amount not to exceed the Subordinated Lien Cap, by issuing notes under one or more new indentures, incurring additional Indebtedness under other Credit Facilities (other than the ABL Credit Facility) or otherwise issuing or increasing a new Series of Secured Debt secured by Subordinated Liens on the Collateral. Subordinated Lien Debt will be permitted to be secured by the Collateral only if such Subordinated Lien Debt and the related Subordinated Liens are permitted to be incurred under the covenants described below under the captions “— Certain Covenants — Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock” and “— Certain Covenants — Liens”. The collateral trustee under the collateral trust agreement holds all Subordinated Liens in trust for the benefit of the holders of any future Subordinated Lien Debt and all other Subordinated Lien Obligations. The Liens on the Notes Priority Collateral securing any future Subordinated Lien Obligations will be junior to the Liens on the Notes Priority Collateral held by the collateral trustee securing the Priority Lien Obligations and the Liens on the Notes Priority Collateral held by the ABL Collateral Agent securing the ABL Debt Obligations. The Liens on the ABL Priority Collateral securing any future Subordinated Lien Obligations will be junior to the Liens on the ABL Priority Collateral securing the ABL Debt Obligations and the Liens securing the Priority Lien Obligations. All such Liens will be subject to Permitted Prior Liens.

#### **The Intercreditor Agreement**

On December 21, 2009, the collateral trustee, on behalf of all current and future holders of Priority Lien Obligations and all future holders of Subordinated Lien Obligations, entered into the intercreditor agreement with the Issuer, the Subsidiary Guarantors and the ABL Collateral Agent to provide for, among other things, the junior nature of the Liens on the ABL Priority Collateral securing the Priority Lien Obligations. The intercreditor agreement includes certain intercreditor arrangements relating to the rights of the collateral trustee in the ABL Priority Collateral.

The intercreditor agreement permits the ABL Debt Obligations, the Priority Lien Obligations and the Subordinated Lien Obligations to be refunded, refinanced or replaced by certain permitted replacement facilities without affecting the lien priorities set forth in the intercreditor agreement, in each case without the consent of any holder of ABL Debt Obligations, Priority Lien Obligations (including holders of the notes) or Subordinated Lien Obligations.

#### ***Certain Definitions Used in the Intercreditor Agreement***

“*ABL Default*” means an “Event of Default” (as defined in the ABL Credit Facility).

**“Priority Lien Default”** means an “Event of Default” (as defined in any of the Priority Lien Documents).

**“Subordinated Lien Default”** means an “Event of Default” (as defined in any of the Subordinated Lien Documents).

#### ***Relative Lien Priorities***

The intercreditor agreement provides that, notwithstanding the date, time, method, manner or order of grant, attachment or perfection of any Liens securing the Priority Lien Obligations granted on the Collateral, of any Liens securing the Subordinated Lien Obligations granted on the Collateral or of any Liens securing the ABL Debt Obligations granted on the Collateral and notwithstanding any provision of any UCC, or any other applicable law or the relevant other documents or any defect or deficiencies in, or failure to perfect, the relevant Liens or any other circumstance whatsoever, any Lien of the ABL Collateral Agent on the ABL Priority Collateral, shall be senior in all respects and prior to any Lien on the ABL Priority Collateral securing any Priority Lien Obligations or Subordinated Lien Obligations.

#### ***Prohibition on Contesting Liens***

The intercreditor agreement provides that the ABL Collateral Agent, the Collateral Trustee, and each holder of ABL Debt Obligations, Priority Lien Obligations and Subordinated Lien Obligations will not (and will waive any right to) contest or support any other Person in contesting, in any proceeding (including any Insolvency or Liquidation Proceeding), the perfection, priority, validity or enforceability of a Lien held by or on behalf of any holder of ABL Debt Obligations, Priority Lien Obligations or Subordinated Lien Obligations in all or any part of the Collateral, or the provisions of the intercreditor agreement. The intercreditor agreement provides that nothing therein can be construed to prevent or impair the rights of the ABL Collateral Agent, the Collateral Trustee, or any holder of ABL Debt Obligations, Priority Lien Obligations or Subordinated Lien Obligations to enforce the intercreditor agreement.

#### ***Enforcement***

The intercreditor agreement provides that, except as provided below in this paragraph, until the Discharge of ABL Debt Obligations, whether or not any Insolvency or Liquidation Proceeding has been commenced by or against the Issuer or any Guarantor, neither the Collateral Trustee nor any holder of any Priority Lien Obligations or Subordinated Lien Obligations will:

(1) exercise or seek to exercise any rights or remedies with respect to any ABL Priority Collateral (including the exercise of any right of setoff or any right under any lockbox, pledged or blocked account agreement, securities account control agreement, armored car agreement, credit card processing agreement or any similar agreement among the Collateral Trustee and/or the ABL Collateral Agent and the Issuer or a Guarantor and the relevant service provider, depository or securities intermediary, landlord waiver or bailee’s letter or similar arrangement to which the Collateral Trustee or any holder of Priority Lien Obligations or Subordinated Lien Obligations is a party) or institute any action or proceeding with respect to such rights or remedies (including any action of foreclosure), until after the passage of the Collateral Trustee Standstill Period, *provided* that the Collateral Trustee, each holder of Priority Lien Obligations and each holder of Subordinated Lien Obligations shall not exercise any rights or remedies with respect to the ABL Priority Collateral if, notwithstanding the expiration of the Collateral Trustee Standstill Period, the ABL Collateral

Agent or the holders of ABL Debt Obligations shall have commenced and be diligently pursuing the exercise of their rights and remedies with respect to all or any material portion of the ABL Priority Collateral;

(2) contest, protest or object to any foreclosure proceeding or action brought by the ABL Collateral Agent or any holder of ABL Debt Obligations or any other exercise by such Persons of any rights and remedies relating to the ABL Priority Collateral, whether under the ABL Debt Documents or otherwise; and

(3) subject to their rights under clause (1) above and except as may be permitted in clauses (1) through (7) of the third paragraph of this subsection, object to the forbearance by the ABL Collateral Agent or any holder of ABL Debt Obligations from bringing or pursuing any Enforcement.

Until the Discharge of ABL Debt Obligations (whether or not any Insolvency or Liquidation Proceeding has been commenced by or against the Issuer or any Guarantor), the ABL Collateral Agent and the holders of ABL Debt Obligations have the right to enforce rights, exercise remedies (including set-off and the right to credit bid their debt) and, in connection therewith (including voluntary dispositions of ABL Priority Collateral by the respective Subsidiary Guarantors after an ABL Default), make determinations regarding the release, disposition or restrictions with respect to the ABL Priority Collateral without any consultation with or the consent of the Collateral Trustee or any holder of Priority Lien Obligations or Subordinated Lien Obligations, *provided* that the Liens securing the Priority Lien Obligations and the Subordinated Lien obligations shall remain on the proceeds (other than those properly applied to the ABL Debt Obligations) of such Collateral released or disposed of subject to the relative priorities described in the intercreditor agreement.

Notwithstanding the preceding paragraph, the Collateral Trustee and any holder of Priority Lien Obligations and any holder of Subordinated Lien Obligations may:

(1) file a claim or statement of interest with respect to the Priority Lien Obligations or Subordinated Lien Obligations, as applicable; *provided* that an Insolvency or Liquidation Proceeding has been commenced by or against the Issuer or a Subsidiary Guarantor;

(2) take any action (not adverse to the priority status of the Liens on the ABL Priority Collateral, or the rights of the ABL Collateral Agent or any holder of ABL Debt Obligations to exercise remedies in respect thereof) in order to create, perfect, preserve or protect its Lien on any of the Collateral;

(3) file any necessary responsive or defensive pleadings in opposition to any motion, claim or other pleading objecting to or otherwise seeking the disallowance of the claims of the holders of Priority Lien Obligations or Subordinated Lien Obligations, if any, in each case, in accordance with the terms of the intercreditor agreement;

(4) file any pleadings, objections, motions or agreements which assert rights or interests available to unsecured creditors of the Issuer or the Subsidiary Guarantors arising under either any Insolvency or Liquidation Proceeding or applicable non-bankruptcy law, in each case not prohibited by the terms of the intercreditor agreement;

(5) vote on any plan of reorganization, file any proof of claim, make other filings and make any arguments and motions that are, in each case, not prohibited by the terms of the intercreditor agreement, with respect to the Priority Lien Obligations or the Subordinated Lien Obligations;

(6) exercise any of its rights or remedies with respect to any of the ABL Priority Collateral after the termination of the Collateral Trustee Standstill Period to the extent permitted by the intercreditor agreement; and

(7) make a cash bid on all or any portion of the ABL Priority Collateral in any foreclosure proceeding or action.

The Collateral Trustee, on behalf of itself and each holder of Priority Lien Obligations and each holder of Subordinated Lien Obligations, has agreed that it will not take or receive any ABL Priority Collateral or any proceeds of such ABL Priority Collateral in connection with the exercise of any right or remedy (including set-off) with respect to any such ABL Priority Collateral in its capacity as a creditor in violation of the intercreditor agreement. Unless and until the Discharge of ABL Debt Obligations, except as expressly provided in the provisions

set forth in the first and third paragraph under the caption “— Enforcement”, and the provisions under the caption “— Agreements With Respect to Insolvency or Liquidation Proceedings” as they relate to adequate protection, the sole right of the Collateral Trustee, the holders of Priority Lien Obligations and the holders of Subordinated Lien Obligations with respect to the ABL Priority Collateral will be to hold a Lien (if any) on such Collateral pursuant to the respective Priority Lien Documents or Subordinated Lien Documents, as applicable, for the period and to the extent granted therein and to receive a share of the proceeds thereof, if any, after the Discharge of ABL Debt Obligations.

Subject to the provisions set forth in the first and third paragraph under the caption “— Enforcement”, and the provisions under the caption “— Agreements With Respect to Insolvency or Liquidation Proceedings” as they relate to adequate protection,

(1) the Collateral Trustee, on behalf of itself, the holders of Priority Lien Obligations and the holders of Subordinated Lien Obligations, has agreed that such Persons will not take any action that would hinder any exercise of remedies under the ABL Credit Documents or that is otherwise prohibited under the intercreditor agreement, including any sale, lease, exchange, transfer or other disposition of the ABL Priority Collateral, whether by foreclosure or otherwise;

(2) the Collateral Trustee, on behalf of itself, the holders of Priority Lien Obligations and the holders of Subordinated Lien Obligations, has agreed to waive any and all rights such Persons may have as a junior lien creditor or otherwise to object to the manner in which the ABL Collateral Agent or the holders of ABL Debt Obligations seek to enforce or collect the ABL Debt Obligations or the Liens securing the ABL Debt Obligations granted in any of the ABL Debt Documents or undertaken in accordance with the intercreditor agreement, regardless of whether any action or failure to act by or on behalf of the ABL Collateral Agent or the holders of ABL Debt Obligations is adverse to the interest of the holders of Priority Lien Obligations or Subordinated Lien Obligations; and

(3) the Collateral Trustee has acknowledged that no covenant, agreement or restriction contained in any Priority Lien Document or Subordinated Lien Document (in each case, other than the intercreditor agreement) shall be deemed to restrict in any way the rights and remedies of the ABL Collateral Agent or the holders of ABL Debt Obligations with respect to the enforcement of the Liens on the ABL Priority Collateral as set forth in the intercreditor agreement and the ABL Debt Documents.

Except as otherwise set forth under the first paragraph under the caption “— Enforcement”, the fourth paragraph under the caption “— Enforcement”, and the provisions related to set-off and priorities of proceeds of Collateral as set forth in the intercreditor agreement, the Collateral Trustee and the holders of Priority Lien Obligations and the holders of Subordinated Lien Obligations may exercise rights and remedies as unsecured creditors against the Issuer or any Guarantor that has guaranteed or granted Liens to secure the Priority Lien Obligations or the Subordinated Lien Obligations, as applicable, and the Collateral Trustee may exercise rights and remedies with respect to the Notes Priority Collateral in accordance with the terms of the Priority Lien Documents and Subordinated Lien Documents, as applicable, and applicable law; *provided, however*, that in the event that the Collateral Trustee or any holder of Priority Lien Obligations or Subordinated Lien Obligations becomes a judgment Lien creditor in respect of ABL Priority Collateral as a result of its enforcement of such rights as an unsecured creditor with respect to the Priority Lien Obligations or Subordinated Lien Obligations, as applicable, such judgment Lien shall be subject to the terms of the intercreditor agreement for all purposes (including in relation to the ABL Debt Obligations) as the other Liens securing the Priority Lien Obligations and Subordinated Lien Obligations are subject to the intercreditor agreement.

#### ***Collateral Access Rights***

The intercreditor agreement provides that the ABL Collateral Agent and the Collateral Trustee will not commence Enforcement until the earlier of the date on which (a) an Enforcement Notice has been given to the Collateral Trustee or the ABL Collateral Agent, as the case may be, or (b) any Insolvency or Liquidation Proceeding is commenced by or against the Issuer or any Subsidiary Guarantor that has not been dismissed. Subject to the provisions under the caption “— Enforcement”, the Collateral Trustee may, to the extent permitted by applicable law, join in any judicial proceedings commenced by the ABL Collateral Agent to enforce Liens on the Collateral,

*provided* that neither the Collateral Trustee, nor any holder of Priority Lien Obligations or Subordinated Lien Obligations shall interfere with the Enforcement actions of the ABL Collateral Agent with respect to the ABL Priority Collateral.

If the Collateral Trustee, or any of its agents or representatives, or any third party pursuant to any Enforcement undertaken by the Collateral Trustee or any receiver, shall obtain possession or physical control of any real estate assets that are part of the Collateral, the Collateral Trustee shall notify the ABL Collateral Agent of such possession or physical control. The ABL Collateral Agent will be permitted, upon notice to the Collateral Trustee within at least 10 business days thereafter, to exercise access rights under the intercreditor agreement, at which time the parties shall confer in good faith to coordinate with respect to the ABL Collateral Agent's exercise of such access rights. After delivery of such notice to the Collateral Trustee, the ABL Collateral Agent will have a nonexclusive rent free access right to use such property for a period of approximately 180 days, subject to certain adjustments (the "*Access Period*") for the purposes specified in the intercreditor agreement. The intercreditor agreement provides that if the Collateral Trustee shall foreclose or otherwise sell any of the Notes Priority Collateral, the Collateral Trustee will notify the buyer thereof that the buyer is acquiring such Notes Priority Collateral subject to the terms of the intercreditor agreement.

The intercreditor agreement also addresses the relative rights of the ABL Collateral Agent and the Collateral Trustee to use the Issuer's and the Subsidiary Guarantor's intellectual property rights and equipment and agreements with landlords in connection with enforcement or exercise of remedies with respect to the Collateral.

#### ***Application of Proceeds***

The intercreditor agreement provides that, subject to the provisions related to reorganization securities under the caption "*— Insolvency or Liquidation Proceedings*", so long as the Discharge of ABL Debt Obligations has not occurred, whether or not any Insolvency or Liquidation Proceeding has been commenced by or against the Issuer or any Guarantor, all ABL Priority Collateral or proceeds thereof received in connection with the sale or other disposition of, or collection on, such Collateral upon the exercise of remedies by the ABL Collateral Agent or the holders of ABL Debt Obligations, shall be applied by the ABL Collateral Agent to the ABL Debt Obligations in such order as specified in the relevant ABL Debt Documents. Upon the Discharge of ABL Debt Obligations, the ABL Collateral Agent will deliver to the Collateral Trustee any Collateral and proceeds of Collateral held by it or as a court of competent jurisdiction may otherwise direct to be applied by the Collateral Trustee in such order as specified in the Priority Lien Documents and Subordinated Lien Documents.

#### ***Payments Over in Violation of Intercreditor Agreement***

The intercreditor agreement provides that, whether or not any Insolvency or Liquidation Proceeding has been commenced by or against the Issuer or any Guarantor, any Collateral or proceeds thereof received by any holder of ABL Debt Obligations, Priority Lien Obligations or Subordinated Lien Obligations in connection with the exercise of any right or remedy (including set-off) relating to the Collateral in contravention of the intercreditor agreement shall be segregated and held in trust and forthwith paid over to the ABL Collateral Agent or the Collateral Trustee, as appropriate, in the same form as received, with any necessary endorsements, or as a court of competent jurisdiction may otherwise direct. The Collateral Trustee and the ABL Collateral Agent will each be irrevocably authorized to make any such endorsements as agent for the other Person.

#### ***Releases***

The intercreditor agreement provides that if, in connection with the exercise of the ABL Collateral Agent's remedies in respect of any Collateral as provided for under the caption "*— Enforcement*", the ABL Collateral Agent, for itself and/or on behalf of any holder of ABL Debt Obligations, releases its Liens on any part of the ABL Priority Collateral, then the Liens, if any, of the Collateral Trustee, the holders of Priority Lien Obligations and the holders of Subordinated Lien Obligations, on the Collateral sold or disposed of in connection with such exercise, shall be automatically, unconditionally and simultaneously released.

The intercreditor agreement provides that if, in connection with any sale, lease, exchange, transfer or other disposition of any Collateral (collectively, a "*Disposition*") permitted under the terms of the ABL Debt Documents,

the Priority Lien Documents and the Subordinated Lien Documents (including voluntary Dispositions of ABL Priority Collateral by the Issuer or the respective Guarantors after an ABL Default, voluntary Dispositions of Notes Priority Collateral by the Issuer or the respective Guarantors after a Priority Lien Default and voluntary Dispositions of Notes Priority Collateral by the Issuer or the respective Guarantors after a Subordinated Lien Default), the ABL Collateral Agent, for itself and/or on behalf of any holder of ABL Debt Obligations, releases any of its Liens on any part of the ABL Priority Collateral (in each case other than in connection with the Discharge of ABL Debt Obligations or after the occurrence and during the continuance of a Priority Lien Default or a Subordinated Lien Default) then the Liens, if any, of the Collateral Trustee, for itself and/or on behalf of any of the holders of Priority Lien Obligations or any of the holders of Subordinated Lien Obligations, on such Collateral shall be automatically, unconditionally and simultaneously released.

### ***Insurance***

The intercreditor agreement provides that unless and until the Discharge of ABL Debt Obligations has occurred and subject to the terms of, and the rights of the Issuer and the Guarantors under, the ABL Debt Documents:

(1) the ABL Collateral Agent and the holders of ABL Debt Obligations shall have the sole and exclusive right to adjust settlement for any insurance policy covering the ABL Priority Collateral or the Liens with respect thereto in the event of any loss thereunder or with respect thereto and to approve any award granted in any condemnation or similar proceeding (or any deed in lieu of condemnation) affecting such Collateral; and

(2) all proceeds of any such policy and any such award (or any payments with respect to a deed in lieu of condemnation) if in respect to such ABL Priority Collateral and to the extent required by the ABL Debt Documents shall be paid to the ABL Collateral Agent for the benefit of the holders of ABL Debt Obligations pursuant to the terms of the ABL Debt Documents (including, without limitation, for purposes of cash collateralization of letters of credit) and thereafter, to the extent no ABL Debt Obligations are outstanding, and subject to the terms of, and the rights of the Issuer and the Guarantors under, the Priority Lien Documents or Subordinated Lien Documents, as applicable, to the Collateral Trustee for the benefit of the holders of Priority Lien Obligations or the holders of Subordinated Lien Obligations, as applicable, to the extent required under the Priority Lien Documents or Subordinated Lien Documents, as applicable, and then, to the extent no Priority Lien Obligations or Subordinated Lien Obligations which were secured by such Collateral are outstanding, to the owner of the subject property, such other Person as may be entitled thereto or as a court of competent jurisdiction may otherwise direct.

The ABL Collateral Agent and Collateral Trustee have each received separate lender's loss payable endorsements naming themselves as loss payee and additional insured, as their interests may appear, with respect to policies which insure the Collateral. To the extent any proceeds are received for business interruption or for any liability or indemnification and those proceeds are not compensation for a casualty loss with respect to the Notes Priority Collateral or Subordinated Lien Collateral, such proceeds shall (subject to the rights of the Issuer and the Guarantors) first be applied to repay the ABL Debt Obligations and then be applied, to the extent required by the Priority Lien Documents or the Subordinated Lien Documents, to the Priority Lien Obligations or Subordinated Lien Obligations, as applicable.

### ***Bailees for Perfection***

The intercreditor agreement provides that the ABL Collateral Agent will:

(1) agree to hold that part of the Collateral that is in its (or its agents' or bailees') possession or control to the extent that possession or control thereof is taken to perfect a Lien thereon under the UCC (such Collateral being the "*Pledged Collateral*") as collateral agent for the holders of Priority Lien Obligations and the holders of Subordinated Lien Obligations and as bailee for the Collateral Trustee and any assignee solely for the purpose of perfecting the security interest granted under the Priority Lien Documents and the Subordinated Lien Documents, subject to the terms and conditions under this caption "*Bailees for Perfection*";

(2) have no obligation whatsoever to any other Person to ensure that the Pledged Collateral is genuine or owned by the Issuer or any of the Guarantors or to preserve rights or benefits of any Person except as expressly set forth under this caption “— Bailees for Perfection”;

(3) not have a fiduciary relationship with any other Person with respect to such acts; and

(4) upon the Discharge of ABL Debt Obligations, deliver the remaining Pledged Collateral (if any) together with any necessary endorsements, first, to the Collateral Trustee to the extent the Priority Lien Obligations or the Subordinated Lien Obligations which are secured by such Pledged Collateral remain outstanding, and second, to the Issuer or the applicable Guarantor.

The duties or responsibilities of the ABL Collateral Agent described under this caption “— Bailees for Perfection” will be limited solely to holding the Pledged Collateral as bailee in accordance therewith and delivering the Pledged Collateral upon a Discharge of ABL Debt Obligations as provided in the paragraph above, so that, subject to the terms of the intercreditor agreement, until a Discharge of ABL Debt Obligations, the ABL Collateral Agent will be entitled to deal with the Pledged Collateral or ABL Priority Collateral within its “control” in accordance with the terms of the intercreditor agreement and other ABL Debt Documents as if the Liens (if any) of the Collateral Trustee did not exist.

#### ***Agreements With Respect to Insolvency or Liquidation Proceedings***

Until the Discharge of ABL Debt Obligations has occurred, if the Issuer or any Subsidiary Guarantor shall be subject to any Insolvency or Liquidation Proceeding and the ABL Collateral Agent shall, acting in accordance with the ABL Credit Facility, agree to permit the use of “Cash Collateral” (as such term is defined in Section 363(a) of the Bankruptcy Code) other than the identifiable cash proceeds of any Priority Lien Collateral or Subordinated Lien Collateral, in each case, on which a Lien has been granted to the ABL Collateral Agent pursuant to the ABL Debt Documents, or to the Issuer or any Subsidiary Guarantor to obtain financing, whether from the holders of ABL Debt Obligations or any other Person under Section 364 of the Bankruptcy Code or any similar Bankruptcy Law ( “DIP Financing”); *provided* that, the aggregate principal amount of the DIP Financing plus the aggregate outstanding principal amount of ABL Debt Obligations plus the aggregate face amount of any letters of credit issued and not reimbursed under the ABL Credit Facility does not exceed the ABL Lien Cap, then each holder of Priority Lien Obligations and each holder of Subordinated Lien Obligations will agree that it will raise no objection to or contest such Cash Collateral use or DIP Financing so long as such Cash Collateral use or DIP Financing meet the following requirements:

(1) it is on commercially reasonable terms; and

(2) the holders of Priority Lien Obligations and the holders of Subordinated Lien Obligations retain the right to object to any ancillary agreements or arrangements regarding the Cash Collateral use or the DIP Financing that are materially prejudicial to their perfected interests in the Notes Priority Collateral or Subordinated Lien Collateral, as applicable.

To the extent the Liens securing the ABL Debt Obligations are subordinated to or *pari passu* with such DIP Financing which meets the requirements of clauses (1) and (2) above, the Collateral Trustee will agree (a) to subordinate any Liens in the ABL Priority Collateral to the Liens securing such DIP Financing (and all Obligations relating thereto) and will not request adequate protection or any other relief in connection therewith (except, as expressly agreed by the ABL Collateral Agent or to the extent permitted by terms of the intercreditor agreement), and (b) to permit a sale of the ABL Priority Collateral free and clear of Liens or other claims, under Section 363 of the Bankruptcy Code or otherwise, then each holder of Priority Lien Obligations and each holder of Subordinated Lien Obligations will agree that it will not raise any objection to or contest such sale or request adequate protection or any other relief in connection therewith (it being understood that the holders of Priority Lien Obligations and the holders of Subordinated Lien Obligations will still, but subject to the intercreditor agreement, have rights with respect to the proceeds of such Collateral).

Until the Discharge of ABL Debt Obligations has occurred, the Collateral Trustee, each holder of Priority Lien Obligations and each holder of Subordinated Lien Obligations, agrees not to seek (or support any other Person seeking) relief from the automatic stay or any other stay in any Insolvency or Liquidation Proceeding in respect of

the ABL Priority Collateral, without the prior written consent of the ABL Collateral Agent, and until both the Discharge of Priority Lien Obligations and the Discharge of Subordinated Lien Obligations have occurred, the ABL Collateral Agent, on behalf of itself and the holders of ABL Debt Obligations, will not seek (or support any other Person seeking) relief from the automatic stay or any other stay in any Insolvency or Liquidation Proceeding in respect of the Notes Priority Collateral and Subordinated Lien Collateral (other than to the extent such relief is required to exercise its rights as set forth under the captions “— Collateral Access Rights” or with respect to the provisions of the intercreditor agreement regarding intellectual property rights, access to information or use of equipment, without the prior written consent of the Collateral Trustee).

The Collateral Trustee, each holder of Priority Lien Obligations and each holder of Subordinated Lien Obligations, agrees not to contest (or support any other Person contesting): (a) any request by the ABL Collateral Agent for adequate protection with respect to the ABL Priority Collateral or (b) any objection by the ABL Collateral Agent to any motion, relief, action or proceeding based on the ABL Collateral Agent or the holders of ABL Debt Obligations claiming a lack of adequate protection with respect to the ABL Priority Collateral.

Notwithstanding the foregoing paragraph, in any Insolvency or Liquidation Proceeding, (i) if the holders of ABL Debt Obligations (or any subset thereof) are granted adequate protection in the form of additional collateral (even if such collateral is not of a type which would otherwise have constituted ABL Priority Collateral) in connection with any Cash Collateral use or DIP Financing, then the Collateral Trustee, on behalf of itself, any of the holders of Priority Lien Obligations or any of the holders of Subordinated Lien Obligations, may seek or request adequate protection with respect to its interests in such Collateral in the form of a Lien on the same additional collateral, which Lien will be subordinated (except to the extent that the Collateral Trustee already had a Lien on such Collateral (in which case the priorities set forth in the intercreditor agreement shall apply)) to the Liens securing the ABL Debt Obligations and such Cash Collateral use or DIP Financing (and all Obligations relating thereto) on the same basis as the other Liens of the Collateral Trustee on the ABL Priority Collateral and (ii) in the event the Collateral Trustee, on behalf of itself, any of the holders of Priority Lien Obligations or any of the holders of Subordinated Lien Obligations, seeks or requests adequate protection of their respective interest in the ABL Priority Collateral and such adequate protection is granted in the form of additional collateral, then the Collateral Trustee, on behalf of itself, any of the holders of Priority Lien Obligations or any of the holders of Subordinated Lien Obligations, will agree that it will not oppose any request by the ABL Collateral Agent for adequate protection in the form of a Lien on such additional collateral as security for the ABL Debt Obligations and for any Cash Collateral use or DIP Financing provided by the holders of the ABL Debt Obligations and that any Lien on such additional collateral securing the Priority Lien Obligations and/or Subordinated Lien Obligations shall be subordinated to the Lien on such collateral securing the ABL Debt Obligations and any such DIP Financing provided by the holders of ABL Debt Obligations (and all obligations relating thereto) and to any other Liens granted to the holders of ABL Debt Obligations as adequate protection on the same basis as the other Liens securing the Priority Lien Obligations and the Subordinated Lien Obligations are so subordinated to such ABL Debt Obligations under the intercreditor agreement.

The intercreditor agreement provides that:

(1) except as otherwise expressly set forth in the first paragraph under the caption “— Agreements With Respect to Insolvency or Liquidation Proceedings” or in connection with the exercise of remedies with respect to the ABL Priority Collateral, nothing in the intercreditor agreement will limit the rights of any holder of Priority Lien Obligations or any holder of Subordinated Lien Obligations from seeking adequate protection with respect to their rights in the Collateral in any Insolvency or Liquidation Proceeding (including adequate protection in the form of a cash payment, periodic cash payments or otherwise);

(2) if any holder of ABL Debt Obligations, any holder of Priority Lien Obligations or any holder of Subordinated Lien Obligations is required in any Insolvency or Liquidation Proceeding or otherwise to turn over or otherwise pay to the estate of the Issuer or any Guarantor any amount paid in respect of ABL Debt Obligations, Priority Lien Obligations or Subordinated Lien Obligations, as the case may be (a “*Recovery*”), then such Person shall be entitled to a reinstatement of ABL Debt Obligations, Priority Lien Obligations or Subordinated Lien Obligations, as the case may be, with respect to all such recovered amounts and, if the intercreditor agreement is terminated prior to such Recovery, the intercreditor agreement will be reinstated in

full force and effect, and such prior termination shall not diminish, release, discharge, impair or otherwise affect the obligations of the parties to the intercreditor agreement from such date of reinstatement;

(3) if, in any Insolvency or Liquidation Proceeding,

(a) the holders of Priority Lien Obligations or the holders of Subordinated Lien Obligations receive pursuant to a plan of reorganization or similar dispositive restructuring plan a distribution of debt obligations ("*Junior Lien Reorganization Securities*") in whole or in part on account of their junior Liens on the ABL Priority Collateral (such Collateral, the "*Applicable Junior Collateral*") that are secured by Liens on such Applicable Junior Collateral, and

(b) the holders of ABL Debt Obligations receive pursuant to such plan of reorganization or similar dispositive restructuring plan a distribution of debt obligations ("*Senior Lien Reorganization Securities*") in whole or in part on account of their ABL Debt Obligations that are secured by Liens on such Applicable Junior Collateral, then the holders of Priority Lien Obligations and holders of Subordinated Lien Obligations, as applicable, shall be entitled to retain their Junior Lien Reorganization Securities and shall not be obligated to turnover the same to any or all of the holders of ABL Debt Obligations, and, to the extent the Junior Lien Reorganization Securities and the Senior Lien Reorganization Securities are secured by Liens upon the same Applicable Junior Collateral, the provisions of the intercreditor agreement will survive the distribution of such Junior Lien Reorganization Securities and Senior Lien Reorganization Securities and will apply with like effect to the Junior Lien Reorganization Securities and Senior Lien Reorganization Securities, to such Liens securing such Junior Lien Reorganization Securities and Senior Lien Reorganization Securities and to the distribution of proceeds of such Applicable Junior Collateral;

(4) the holders of ABL Debt Obligations, the holders of Priority Lien Obligations and the holders of Subordinated Lien Obligations acknowledge and agree that (i) the grants of Liens pursuant to the ABL Debt Documents, the Priority Lien Documents and the Subordinated Lien Documents constitute three separate and distinct grants of Liens and (ii) because of, among other things, their differing rights in the Collateral, the Priority Lien Obligations, the Subordinated Lien Obligations and the ABL Debt Obligations are fundamentally different from each other and must be separately classified in any plan of reorganization proposed or adopted in an Insolvency or Liquidation Proceeding. To further effectuate the intent of the parties as provided in the immediately preceding sentence, if it is held that the claims of the holders of ABL Debt Obligations, the holders of Priority Lien Obligations and the holders of Subordinated Lien Obligations in respect of the Collateral constitute only one secured claim (rather than separate classes of senior and junior secured claims), then the holders of ABL Debt Obligations shall be entitled to receive, in addition to amounts distributed to them in respect of principal, pre-petition interest and other claims, all amounts owing in respect of post-petition interest, fees, costs and other charges, irrespective of whether a claim for such amounts is allowed or allowable in such Insolvency or Liquidation Proceeding, before any distribution from, or in respect of, any Collateral is made in respect of the claims held by the holders of Priority Lien Obligations or the holders of Subordinated Lien Obligations, with the holders of Priority Lien Obligations and the holders of Subordinated Lien Obligations agreeing to turn over to the holders of ABL Debt Obligations amounts otherwise received or receivable by them to the extent necessary to effectuate the intent of this sentence, even if such turnover has the effect of reducing the claim or recovery of the holders of Priority Lien Obligations or the holders of Subordinated Lien Obligations;

(5) neither the Collateral Trustee nor any holder of Priority Lien Obligations or any holder of Subordinated Lien Obligations will oppose or seek to challenge any claim by the ABL Collateral Agent or any holder of ABL Debt Obligations for allowance in any Insolvency or Liquidation Proceeding of ABL Debt Obligations consisting of post-petition interest, fees or expenses to the extent of the value of the Lien securing any holder of ABL Debt Obligation's claim, without regard to the existence of the Lien of the Collateral Trustee on behalf of the holders of Priority Lien Obligations and the holders of Subordinated Lien Obligations on the Collateral; and

(6) neither the ABL Collateral Agent nor any holder of ABL Debt Obligations shall oppose or seek to challenge any claim by the Collateral Trustee, any holder of Priority Lien Obligations or any holder of

Subordinated Lien Obligations for allowance in any Insolvency or Liquidation Proceeding of Priority Lien Obligations or Subordinated Lien Obligations, as applicable, consisting of post-petition interest, fees or expenses to the extent of the value of the Lien securing any holder of Priority Lien Obligation's or holder of Subordinated Lien Obligation's, as applicable, claim, without regard to the existence of the Lien of the ABL Collateral Agent on behalf of the holders of ABL Debt Obligations on the Collateral.

### ***Notice Requirements and Procedural Provisions***

The intercreditor agreement also provides for various advance notice requirements and other procedural provisions typical for agreements of this type, including procedural provisions to allow any successor ABL Collateral Agent to become a party to the intercreditor agreement (without the consent of any holder of ABL Debt Obligations, Priority Lien Obligations or Subordinated Lien Obligations) upon the refinancing or replacement of the ABL Debt Obligations, Priority Lien Obligations or Subordinated Lien Obligations as permitted by the applicable ABL Debt Documents, Priority Lien Documents and Subordinated Lien Documents.

### **The Collateral Trust Agreement**

On December 21, 2009, the Issuer and the Subsidiary Guarantors entered into a collateral trust agreement with the collateral trustee and the trustee. The collateral trust agreement sets forth the terms on which the collateral trustee will receive, hold, administer, maintain, enforce and distribute the proceeds of all Liens on all Collateral owned by the Issuer or any Subsidiary Guarantor for the benefit of all present and future holders of Priority Lien Obligations and all future holders of Subordinated Lien Obligations (if any).

### ***Enforcement of Liens***

If the collateral trustee at any time receives written notice stating that any event has occurred that constitutes a default under any Secured Debt Document entitling the collateral trustee to foreclose upon, collect or otherwise enforce its Liens thereunder, it will promptly deliver written notice thereof to each Secured Debt Representative. Thereafter, the collateral trustee may await direction by an Act of Required Debtholders and will act, or decline to act, as directed by an Act of Required Debtholders, in the exercise and enforcement of the collateral trustee's interests, rights, powers and remedies in respect of the Collateral or under the security documents or applicable law and, following the initiation of such exercise of remedies, the collateral trustee will act, or decline to act, with respect to the manner of such exercise of remedies as directed by an Act of Required Debtholders, subject to the limitations set forth in the intercreditor agreement with respect to the rights of the collateral trustee in the ABL Priority Collateral. Unless it has been directed to the contrary by an Act of Required Debtholders, the collateral trustee in any event may (but will not be obligated to) take or refrain from taking such action with respect to any default under any Secured Debt Document as it may deem advisable and in the best interest of the holders of Secured Obligations, subject in all cases to the limitations in the intercreditor agreement.

Until the Discharge of Priority Lien Obligations, the holders of the notes and the holders of other future Priority Lien Obligations will have, subject to the intercreditor agreement and the exceptions set forth below in clauses (1) through (4) and the provisions described below under the caption “— Provisions of the Indenture Relating to Security — Relative Rights”, and subject to the rights of the holders of Permitted Prior Liens, the exclusive right to authorize and direct the collateral trustee with respect to the Collateral (including, without limitation, the exclusive right to authorize or direct the collateral trustee to enforce, collect or realize on any Collateral or exercise any other right or remedy with respect to the Collateral) and the provisions of the security documents relating thereto, and no Subordinated Lien Representative or holder of Subordinated Lien Obligations may authorize or direct the collateral trustee with respect to such matters. Notwithstanding the foregoing, the holders of Subordinated Lien Obligations may, subject to the rights of the holders of Permitted Prior Liens and subject to the limitations set forth in the intercreditor agreement, direct the collateral trustee with respect to Collateral:

- (1) without any condition or restriction whatsoever, at any time after the Discharge of Priority Lien Obligations;
- (2) as necessary to redeem any Collateral in a creditor's redemption permitted by law or to deliver any notice or demand necessary to enforce (subject to the prior Discharge of Priority Lien Obligations) any right to

claim, take or receive proceeds of Collateral remaining after the Discharge of Priority Lien Obligations in the event of foreclosure or other enforcement of any Permitted Prior Lien;

(3) as necessary to perfect or establish the priority (subject to the priority of the Liens securing Priority Lien Obligations, Liens securing ABL Debt Obligations and Permitted Prior Liens) of the Subordinated Liens upon any Collateral; *provided* that, unless otherwise agreed to by the collateral trustee in the security documents, the holders of Subordinated Lien Obligations may not require the collateral trustee to take any action to perfect any Subordinated Liens on any Collateral through possession or control; or

(4) as necessary to create, prove, preserve or protect (but not enforce) the Subordinated Liens upon any Collateral.

Subject to the intercreditor agreement and the provisions described below under the caption “— Provisions of the Indenture Relating to Security — Relative Rights”, both before and during an Insolvency or Liquidation Proceeding, until the Discharge of Priority Lien Obligations, none of the holders of Subordinated Lien Obligations, the collateral trustee (unless acting pursuant to an Act of Required Debtholders) or any Subordinated Lien Representative will be permitted to:

(1) request judicial relief, in an Insolvency or Liquidation Proceeding or in any other court, that would hinder, delay, limit or prohibit the lawful exercise or enforcement of any right or remedy otherwise available to the holders of Priority Lien Obligations in respect of the Priority Liens or that would limit, invalidate, avoid or set aside any Priority Lien or subordinate the Priority Liens to the Subordinated Liens or grant the Subordinated Liens equal ranking to the Priority Liens;

(2) oppose or otherwise contest any motion for relief from the automatic stay or from any injunction against foreclosure or enforcement of Priority Liens made by any holder of Priority Lien Obligations or any Priority Lien Representative in any Insolvency or Liquidation Proceeding;

(3) oppose or otherwise contest any lawful exercise by any holder of Priority Lien Obligations or any Priority Lien Representative of the right to credit bid Priority Lien Debt at any sale of Collateral in foreclosure of Priority Liens;

(4) oppose or otherwise contest any other request for judicial relief made in any court by any holder of Priority Lien Obligations or any Priority Lien Representative relating to the lawful enforcement of any Priority Lien; or

(5) challenge the validity, enforceability, perfection or priority of the Priority Liens.

Notwithstanding the foregoing and subject to the terms of the intercreditor agreement, both before and during an Insolvency or Liquidation Proceeding, the holders of Subordinated Lien Obligations or Subordinated Lien Representatives may take any actions and exercise any and all rights that would be available to a holder of unsecured claims, including, without limitation, the commencement of an Insolvency or Liquidation Proceeding against the Issuer or any Guarantor in accordance with applicable law; *provided* the applicable Secured Debt Documents will provide that no holder of Subordinated Lien Obligations or Subordinated Lien Representative will be permitted to take any action prohibited by the intercreditor agreement or any of the actions prohibited by the provisions described in clauses (1) through (5) of the immediately preceding paragraph or oppose or contest any order that it has agreed not to oppose or contest under the provisions described below under the caption “— Insolvency or Liquidation Proceedings”.

The collateral trust agreement provides that, at any time prior to the Discharge of Priority Lien Obligations and after:

(1) the commencement of any Insolvency or Liquidation Proceeding in respect of the Issuer or any Guarantor; or

(2) the collateral trustee and each Subordinated Lien Representative have received written notice from any Priority Lien Representative that:

(a) any Series of Priority Lien Debt has become due and payable in full (whether at maturity, upon acceleration or otherwise), or

(b) the holders of Priority Liens securing one or more Series of Priority Lien Debt have become entitled under any Priority Lien Document to and desire to enforce any or all of the Priority Liens by reason of a default under such Priority Lien Documents, no payment of money (or the equivalent of money) will be made from the proceeds of Collateral by the Issuer or any Subsidiary Guarantor to the collateral trustee (other than distributions to the collateral trustee for the benefit of the holders of Priority Lien Obligations), any Subordinated Lien Representative or any holder of Subordinated Lien Obligations (including, without limitation, payments and prepayments made for application to Subordinated Lien Obligations).

All proceeds of Collateral received by the collateral trustee, any Subordinated Lien Representative or any holder of Subordinated Lien Obligations in violation of the provisions described in the immediately preceding paragraph will be held by such Person for the account of, prior to the Discharge of Priority Lien Obligations, the holders of Priority Liens and remitted to any Priority Lien Representative upon demand by such Priority Lien Representative. The Subordinated Liens will remain attached to and, subject to the provisions described under the caption “— Provisions of the Indenture Relating to Security — Ranking of Subordinated Liens”, enforceable against all proceeds so held or remitted. All proceeds of Collateral received by the collateral trustee, any Subordinated Lien Representative or any holder of Subordinated Lien Obligations not in violation of the immediately preceding paragraph will be received by such Person free from the Priority Liens and all other Liens except Subordinated Liens and Permitted Prior Liens, subject to the terms of the intercreditor agreement.

#### ***Waiver of Right of Marshalling***

The collateral trust agreement provides that, prior to the Discharge of Priority Lien Obligations, the holders of Subordinated Lien Obligations, each Subordinated Lien Representative and the collateral trustee may not assert or enforce any right of marshalling accorded to a junior lienholder, as against the holders of Priority Lien Obligations or the Priority Lien Representatives (in their capacity as priority lienholders) with respect to the Collateral. Following the Discharge of Priority Lien Obligations, the holders of Subordinated Lien Obligations and any Subordinated Lien Representative may assert their right under the Uniform Commercial Code or otherwise to any proceeds remaining following a sale or other disposition of Collateral by, or on behalf of, the holders of Priority Lien Obligations, subject to the terms of the intercreditor agreement.

#### ***Insolvency or Liquidation Proceedings***

The collateral trust agreement provides that, if in any Insolvency or Liquidation Proceeding and prior to the Discharge of Priority Lien Obligations, the holders of Priority Lien Obligations or any Priority Lien Representative consent to any order:

(1) for use of cash collateral;

(2) approving a debtor-in-possession financing secured by a Lien that is senior to or on a parity with all Priority Liens upon any property of the estate in such Insolvency or Liquidation Proceeding;

(3) granting any relief on account of Priority Lien Obligations as adequate protection (or its equivalent) for the benefit of the holders of Priority Lien Obligations in the Collateral; or

(4) relating to a sale of assets of the Issuer or any Subsidiary Guarantor that provides, to the extent the Collateral sold is to be free and clear of Liens, that all Priority Liens and Subordinated Liens will attach to the proceeds of the sale;

then, the holders of Subordinated Lien Obligations and the Subordinated Lien Representatives, in their capacity as holders or representatives of secured claims, will not oppose or otherwise contest the entry of such order, so long as none of the holders of Priority Lien Obligations or any Priority Lien Representative opposes or otherwise contests

any request made by the holders of Subordinated Lien Obligations or a Subordinated Lien Representative for the grant to the collateral trustee, for the benefit of the holders of Subordinated Lien Obligations and the Subordinated Lien Representatives, of a junior Lien upon any property on which a Lien is (or is to be) granted under such order to secure the Priority Lien Obligations, co-extensive in all respects with, but subordinated to, such Lien and all Priority Liens on such property.

Notwithstanding the foregoing and subject to the terms of the intercreditor agreement, both before and during an Insolvency or Liquidation Proceeding, the holders of Subordinated Lien Obligations and the Subordinated Lien Representatives may take any actions and exercise any and all rights that would be available to a holder of unsecured claims, including, without limitation, the commencement of Insolvency or Liquidation Proceedings against the Issuer or any Guarantor in accordance with applicable law; *provided* that the applicable Secured Debt Documents will provide that no holder of Subordinated Lien Obligations or Subordinated Lien Representative will be permitted to take any action prohibited by the intercreditor agreement or any of the actions prohibited by the provisions described in clauses (1) through (5) of the third paragraph under the caption “— Enforcement of Liens”, or oppose or contest any order that it has agreed not to oppose or contest under the provisions described in clauses (1) through (4) of the immediately preceding paragraph.

The holders of Subordinated Lien Obligations or any Subordinated Lien Representative will not file or prosecute in any Insolvency or Liquidation Proceeding any motion for adequate protection (or any comparable request for relief) based upon their interest in the Collateral under the Subordinated Liens, except that, subject to the provisions of the intercreditor agreement:

- (1) they may freely seek and obtain relief: (a) granting a junior Lien co-extensive in all respects with, but subordinated to, all Liens granted in the Insolvency or Liquidation Proceeding to, or for the benefit of, the holders of Priority Lien Obligations; or (b) in connection with the confirmation of any plan of reorganization or similar dispositive restructuring plan; and
- (2) they may freely seek and obtain any relief upon a motion for adequate protection (or any comparable relief), without any condition or restriction whatsoever, at any time after the Discharge of Priority Lien Obligations.

### ***Order of Application***

The collateral trust agreement provides that if any Collateral is sold or otherwise realized upon by the collateral trustee in connection with any foreclosure, collection or other enforcement of Priority Liens granted to the collateral trustee in the security documents, the proceeds received by the collateral trustee from such foreclosure, collection or other enforcement will be distributed by the collateral trustee, subject to the provisions of the intercreditor agreement, in the following order of application:

FIRST, to the payment of all amounts payable under the collateral trust agreement on account of the collateral trustee’s fees and any reasonable legal fees, costs and expenses or other liabilities of any kind incurred by the collateral trustee or any co-trustee or agent of the collateral trustee in connection with any security document;

SECOND, to the repayment of Indebtedness and other obligations (other than Secured Debt Obligations) secured by a Permitted Prior Lien on the Collateral sold or realized upon, to the extent that such other Indebtedness or obligation is (or is required) to be discharged in connection with such sale or other realization;

THIRD, to the respective Priority Lien Representatives for application to the payment of all outstanding notes and other Priority Lien Debt and any other Priority Lien Obligations that are then due and payable in such order as may be provided in the Priority Lien Documents in an amount sufficient to pay in full in cash all outstanding notes and other Priority Lien Debt and all other Priority Lien Obligations that are then due and payable (including all interest accrued thereon after the commencement of any Insolvency or Liquidation Proceeding at the rate, including any applicable post-default rate, specified in the Priority Lien Documents, even if such interest is not enforceable, allowable or allowed as a claim in such proceeding, and including the discharge or cash collateralization (at the lower of (1) 105% of the aggregate undrawn amount and (2) the

percentage of the aggregate undrawn amount required for release of Liens under the terms of the applicable Priority Lien Document) of all outstanding letters of credit constituting Priority Lien Debt);

FOURTH, to the respective Subordinated Lien Representatives for application to the payment of all outstanding Subordinated Lien Debt and any other Subordinated Lien Obligations that are then due and payable in such order as may be provided in the Subordinated Lien Documents in an amount sufficient to pay in full in cash all outstanding Subordinated Lien Debt and all other Subordinated Lien Obligations that are then due and payable (including all interest accrued thereon after the commencement of any Insolvency or Liquidation Proceeding at the rate, including any applicable post-default rate, specified in the Subordinated Lien Documents, even if such interest is not enforceable, allowable or allowed as a claim in such proceeding, and including the discharge or cash collateralization (at the lower of (1) 105% of the aggregate undrawn amount and (2) the percentage of the aggregate undrawn amount required for release of Liens under the terms of the applicable Subordinated Lien Document) of all outstanding letters of credit, if any, constituting Subordinated Lien Debt); and

FIFTH, any surplus remaining after the payment in full in cash of the amounts described in the preceding clauses will be paid to the Issuer or the applicable Guarantor, as the case may be, or its successors or assigns, or as a court of competent jurisdiction may direct.

If any Subordinated Lien Representative or any holder of a Subordinated Lien Obligation collects or receives any proceeds with respect to Subordinated Lien Obligations of such foreclosure, collection or other enforcement that should have been applied to the payment of the Priority Lien Obligations in accordance with the provisions described in the immediately preceding paragraph, whether after the commencement of an Insolvency or Liquidation Proceeding or otherwise, such Subordinated Lien Representative or such holder of a Subordinated Lien Obligation, as the case may be, will forthwith deliver the same to the collateral trustee, for the account of the holders of the Priority Lien Obligations to be applied in accordance with the provisions described in the immediately preceding paragraph. Until so delivered, such proceeds will be held by that Subordinated Lien Representative or that holder of a Subordinated Lien Obligation, as the case may be, for the benefit of the holders of the Priority Lien Obligations. These provisions will not apply to payments received by any holder of Subordinated Lien Obligations if such payments are not proceeds of realization upon Collateral.

The provisions described above under the caption “— Order of Application” are intended for the benefit of, and will be enforceable by, each present and future holder of Secured Obligations, each present and future Secured Debt Representative and the collateral trustee, as holder of Priority Liens and Subordinated Liens, in each case, as a party to the collateral trust agreement or as a third party beneficiary thereof. The Secured Debt Representative of each future Series of Secured Debt will be required to deliver a Lien Sharing and Priority Confirmation to the collateral trustee and each other Secured Debt Representative at the time of incurrence of such Series of Secured Debt.

No appraisal of the fair market value of the Collateral has been made in connection with this offering of the exchange notes or was made at the time of the offering of the original first lien notes or the additional first lien notes, and the value of the Collateral will depend on market and economic conditions, the availability of buyers and other factors. As a result, liquidating the Collateral may not produce proceeds in an amount sufficient to pay any amounts due on the notes. There can be no assurance that the value of the Collateral or that the net proceeds received upon a sale of the Collateral would be sufficient to repay all, or would not be substantially less than, amounts due on the notes following a foreclosure upon the Collateral (and any payments in respect of Permitted Prior Liens) or a liquidation of the Issuer’s assets or the assets of the Subsidiary Guarantors. See “Risk Factors — Risks Related to the Collateral and the Guarantees — The Value of the Collateral Securing the Exchange Notes May Not Be Sufficient to Satisfy Our Obligations Under the Exchange Notes.”

#### ***Release of Liens on Collateral***

The collateral trust agreement provides that the collateral trustee’s Liens on the Collateral will be released:

(1) in whole, upon (a) payment in full and discharge of all outstanding Secured Debt and all other Secured Obligations that are outstanding, due and payable at the time all of the Secured Debt is paid in full and

discharged and (b) termination or expiration of all commitments to extend credit under all Secured Debt Documents and the cancellation or termination or cash collateralization (at the lower of (1) 105% of the aggregate undrawn amount and (2) the percentage of the aggregate undrawn amount required for release of Liens under the terms of the applicable Secured Debt Documents) of all outstanding letters of credit issued pursuant to any Secured Debt Documents;

(2) as to any Collateral that is sold, transferred or otherwise disposed of by the Issuer or any Subsidiary Guarantor (including indirectly, by way of a sale or other disposition of Capital Stock of a Subsidiary Guarantor) to a Person that is not (either before or after such sale, transfer or disposition) the Issuer or a Restricted Subsidiary of the Issuer in a transaction or other circumstance that is not prohibited by either the “Asset Sale” provisions of the indenture or by the terms of any applicable Secured Debt Documents, at the time of such sale, transfer or other disposition or to the extent of the interest sold, transferred or otherwise disposed of; *provided* that the collateral trustee’s Liens upon the Collateral will not be released if the sale or disposition is subject to the covenant described below under the caption “— Certain Covenants — Merger, Consolidation or Sale of Assets”;

(3) upon completion of any Asset Sale Offer conducted in compliance with the provision of the indenture described below under the caption “— Repurchase at the Option of Holders — Asset Sales”, to the extent any Net Proceeds constituted Excess Proceeds with respect to such Asset Sale Offer and remain unexpended following the consummation of such Asset Sale Offer;

(4) as to less than all or substantially all of the Collateral, if consent to the release of all Priority Liens (or, at any time after the Discharge of Priority Lien Obligations, consent to the release of all Subordinated Liens) on such Collateral has been given by an Act of Required Debtholders;

(5) as to all or substantially all of the Collateral, if (a) release of that Collateral is permitted under each Series of Secured Debt at the time outstanding as provided for in the applicable Secured Debt Documents, and (b) the Issuer has delivered an Officers’ Certificate to the collateral trustee certifying that all requirements for such release have been complied with;

(6) if and to the extent (a) required by all Series of Secured Debt at the time outstanding or (b) upon request of the Issuer, if such release is permitted for all Series of Secured Debt at the time outstanding without the consent of the holders thereof, in each case as provided for in the applicable Secured Debt Documents; or

(7) if and to the extent required by the provisions of the intercreditor agreement described above under the caption “— The Intercreditor Agreement — Releases”, and, in each such case, upon request of the Issuer, the collateral trustee will execute (with such acknowledgements and/or notarizations as are required) and deliver evidence of such release to the Issuer; *provided, however*, to the extent the Issuer requests the collateral trustee to deliver evidence of the release of Collateral in accordance with this paragraph, the Issuer will deliver to the collateral trustee an Officers’ Certificate to the effect that such release of Collateral pursuant to the provisions described in this paragraph did not violate the terms of any applicable Secured Debt Document.

The security documents provide that the Liens securing the Secured Debt will extend to the proceeds of any sale of Collateral. As a result, the collateral trustee’s Liens will apply to the proceeds of any such Collateral received in connection with any sale or other disposition of assets described in the immediately preceding paragraph, subject to the provisions of the intercreditor agreement.

#### ***Release of Liens in Respect of Notes***

The indenture and the collateral trust agreement provide that the collateral trustee’s Liens upon the Collateral will no longer secure the notes outstanding under the indenture or any other Obligations under the indenture, and the right of the holders of the notes and such Obligations to the benefits and proceeds of the collateral trustee’s Liens on the Collateral will terminate and be discharged:

(1) upon satisfaction and discharge of the indenture as described under the caption “— Satisfaction and Discharge”;

(2) upon a Legal Defeasance or Covenant Defeasance of the notes as described under the caption “— Legal Defeasance and Covenant Defeasance”;

(3) upon payment in full and discharge of all notes outstanding under the indenture and all Obligations that are outstanding, due and payable under the indenture at the time the notes are paid in full and discharged;

(4) in whole or in part, with the consent of the holders of the requisite percentage of notes in accordance with the provisions described below under the caption “— Amendment, Supplement and Waiver”; or

(5) if and to the extent required by the provisions of the intercreditor agreement described above under the caption “— The Intercreditor Agreement — Releases”.

#### ***Amendment of Security Documents***

The collateral trust agreement provides that:

(1) no amendment or supplement to the provisions of any security document will be effective without the approval of the collateral trustee acting as directed by an Act of Required Debtholders, except that any amendment or supplement that has the effect solely of (a) adding or maintaining Collateral, securing additional Secured Debt that was otherwise permitted by the terms of the Secured Debt Documents to be secured by the Collateral or preserving, perfecting or establishing the priority of the Liens thereon or the rights of the collateral trustee therein; (b) curing any ambiguity, defect, mistake, omission or inconsistency; (c) providing for the assumption of the Issuer’s or any Subsidiary Guarantor’s obligations under any security document in the case of a merger or consolidation or sale of all or substantially all of the assets of the Issuer or such Guarantor, as applicable; (d) making any change that would provide any additional rights or benefits to the secured parties or the collateral trustee or that does not adversely affect in any material respect the legal rights under the indenture or any other Secured Debt Document of any holder of notes, any other secured party or the collateral trustee; (e) conforming the text of any security document to any provision of this Description of Exchange Notes to the extent that such provision in this Description of Exchange Notes was intended to be a verbatim recitation of any security document; or (f) complying with any requirement of the Commission, will, in each case, become effective when executed and delivered by the Issuer and any applicable Subsidiary Guarantor party thereto and the collateral trustee;

(2) no amendment or supplement to the provisions of any security document that

(a) reduces, impairs or adversely affects the right of any holder of Secured Obligations:

(i) to vote its outstanding Secured Debt as to any matter described as subject to an Act of Required Debtholders or direction by the Required Priority Lien Debtholders,

(ii) to share in the order of application described above under “— Order of Application” in the proceeds of enforcement of or realization after default on any Collateral that has not been released in accordance with the provisions described above under “— Release of Liens on Collateral”, or

(iii) to require that Liens securing Secured Obligations be released only as set forth in the provisions described above under the caption “— Release of Liens on Collateral”, or

(b) amends the provisions described in this clause (2) or the definition of “Act of Required Debtholders”, “Required Priority Lien Debtholders” or “Required Subordinated Lien Debtholders”, will become effective without the consent of the requisite percentage or number of holders of each Series of Secured Debt so affected as specified under the applicable Secured Debt Documents; and

(3) no amendment or supplement to the provisions of any security document that imposes any obligation upon the collateral trustee or any Secured Debt Representative or adversely affects the rights of the collateral trustee or any Secured Debt Representative, in its individual capacity as such will become effective without the consent of the collateral trustee or such Secured Debt Representative, as applicable.

Any amendment or supplement to the provisions of the security documents that releases Collateral will be effective only if such release is granted in accordance with the applicable Secured Debt Document in compliance

with each then outstanding Series of Secured Debt, except as specified in the next sentence. Any amendment or supplement that results in the collateral trustee's Liens upon all or substantially all of the Collateral no longer securing the notes and all related Obligations under the note documents may only be effected in accordance with the provisions described above under the caption "— Release of Liens in Respect of Notes".

The collateral trust agreement provides that, notwithstanding anything to the contrary in the provisions described under the caption "— Amendment of Security Documents", but subject to the provisions described in clauses (2) and (3) of the first paragraph under that caption, any amendment or waiver of, or any consent under, any provision of the collateral trust agreement or any other security document that secures Priority Lien Obligations will apply automatically to any comparable provision of any comparable Subordinated Lien Document without the consent of or notice to any Subordinated Lien Representative or holder of Subordinated Lien Obligations and without any action by the Issuer, any Subsidiary Guarantor, any holder of notes or other Priority Lien Obligations or any Subordinated Lien Representative or holder of Subordinated Lien Obligations.

### ***Voting***

In connection with any matter under the collateral trust agreement requiring a vote of holders of Secured Debt, each Series of Secured Debt will cast its votes in accordance with the Secured Debt Documents governing such Series of Secured Debt. The amount of Secured Debt to be voted by a Series of Secured Debt will equal (1) the aggregate principal amount of Secured Debt held by such Series of Secured Debt (including outstanding letters of credit whether or not then available or drawn), *plus* (2) other than in connection with an exercise of remedies, the aggregate unfunded commitments to extend credit which, when funded, would constitute Indebtedness of such Series of Secured Debt. Following and in accordance with the outcome of the applicable vote under its Secured Debt Documents, the Secured Debt Representative of each applicable Series of Secured Debt will vote the total amount of Secured Debt under that Series of Secured Debt as a block in respect of any vote under the collateral trust agreement. See "Act of Required Debtholders".

### **Provisions of the Indenture Relating to Security**

#### ***Equal and Ratable Sharing of Collateral by Holders of Priority Lien Debt***

The indenture provides that, notwithstanding:

- (1) anything to the contrary contained in the security documents;
- (2) the time of incurrence of any Series of Priority Lien Debt;
- (3) the order or method of attachment or perfection of any Lien securing any Series of Priority Lien Debt;
- (4) the time or order of filing or recording of financing statements or other documents filed or recorded to perfect any Liens securing any Series of Priority Lien Debt;
- (5) the time of taking possession or control over any Collateral securing any Series of Priority Lien Debt;
- (6) that any Priority Lien may not have been perfected or may be or have become subordinated, by equitable subordination or otherwise, to any other Lien; or
- (7) the rules for determining priority under any law governing relative priorities of Liens, all Priority Liens granted at any time by the Issuer or any Subsidiary Guarantor will secure, equally and ratably, all present and future Priority Lien Obligations of the Issuer or such Subsidiary Guarantor, as the case may be.

The provisions described in the immediately preceding paragraph are intended for the benefit of, and will be enforceable by, each present and future holder of Priority Lien Obligations, each present and future Priority Lien Representative and the collateral trustee, as holder of Priority Liens, in each case, as a party to the collateral trust agreement or as a third party beneficiary thereof. The Priority Lien Representative of each future Series of Priority Lien Debt will be required to deliver a Lien Sharing and Priority Confirmation to the collateral trustee and the trustee at the time of incurrence of such Series of Priority Lien Debt.

### ***Ranking of Subordinated Liens***

The indenture requires the Subordinated Lien Documents, if any, to provide that, notwithstanding:

- (1) anything to the contrary contained in the security documents;
- (2) the time of incurrence of any Series of Secured Debt;
- (3) the order or method of attachment or perfection of any Liens securing any Series of Secured Debt;
- (4) the time or order of filing or recording of financing statements or other documents filed or recorded to perfect any Lien upon any Collateral;
- (5) the time of taking possession or control over any Collateral;
- (6) that any Priority Lien may not have been perfected or may be or have become subordinated, by equitable subordination or otherwise, to any other Lien;
- (7) the rules for determining priority under any law governing relative priorities of Liens; or
- (8) all Subordinated Liens at any time granted by the Issuer or any Subsidiary Guarantor will be subject and subordinate to all Priority Liens securing all present and future Priority Lien Obligations of the Issuer or such Subsidiary Guarantor, as the case may be.

The indenture also requires the Subordinated Lien Documents, if any, to provide that the provisions described in the foregoing clauses (1) through (8) are intended for the benefit of, and will be enforceable by, each present and future holder of Priority Lien Obligations, each present and future Priority Lien Representative and the collateral trustee as holder of Priority Liens, in each case, as a party to the collateral trust agreement or as a third party beneficiary thereof. The Subordinated Lien Representative of each future Series of Subordinated Lien Debt will be required to deliver a Lien Sharing and Priority Confirmation to the collateral trustee at the time of incurrence of such Series of Subordinated Lien Debt.

### ***Relative Rights***

Nothing in the note documents will:

- (1) impair, as between the Issuer and the holders of the notes, the obligation of the Issuer to pay principal, interest, premium, if any, or Special Interest, if any, on the notes in accordance with their terms or any other obligation of the Issuer or any Guarantor under the note documents;
- (2) affect the relative rights of holders of notes as against any other creditors of the Issuer or any Guarantor (other than as expressly specified in the intercreditor agreement or the collateral trust agreement);
- (3) restrict the right of any holder of notes to sue for payments that are then due and owing (but not the right to enforce any judgment in respect thereof against any Collateral to the extent specifically prohibited by the provisions of the intercreditor agreement or the collateral trust agreement, as generally described above under the captions “— The Intercreditor Agreement” and “— The Collateral Trust Agreement”;
- (4) restrict or prevent any holder of notes or other Priority Lien Obligations, the trustee, the collateral trustee or any other person from exercising any of its rights or remedies upon a Default or Event of Default not specifically restricted or prohibited by the provisions of the intercreditor agreement or the collateral trust agreement, as generally described above under the captions “— The Intercreditor Agreement” and “— The Collateral Trust Agreement”; or
- (5) restrict or prevent any holder of notes or other Priority Lien Obligations, the trustee, the collateral trustee or any other person from taking any lawful action in an Insolvency or Liquidation Proceeding not specifically restricted or prohibited by the provisions of the intercreditor agreement or the collateral trust agreement, as generally described above under the captions “— The Intercreditor Agreement” and “— The Collateral Trust Agreement”.

### ***Further Assurances***

The indenture provides that the Issuer and each of the Subsidiary Guarantors will do or cause to be done all acts and things that may be reasonably required, or that the collateral trustee from time to time may reasonably request, to assure and confirm that the collateral trustee holds, for the benefit of the holders of Obligations under the notes documents, duly created and enforceable and perfected Liens upon the Collateral (including any property or assets that are acquired or otherwise become Collateral), in each case, as and to the extent contemplated by, and with the Lien priority required under, the Secured Debt Documents.

The collateral trust agreement provides that, upon the reasonable request of the collateral trustee or any Secured Debt Representative at any time and from time to time, the Issuer and each of the Subsidiary Guarantors will promptly execute, acknowledge and deliver such security documents, instruments, certificates, notices and other documents, and take such other actions as may be reasonably required, or that the collateral trustee may reasonably request, to create, perfect, protect, assure or enforce the Liens and benefits intended to be conferred, in each case as and to the extent contemplated by the Secured Debt Documents for the benefit of the holders of Secured Obligations.

### ***Insurance***

The indenture requires that the Issuer and the Subsidiary Guarantors:

- (1) keep their properties insured and maintain such general liability, automobile liability, workers' compensation/employers' liability, property casualty insurance and any excess umbrella coverage related to any of the foregoing as is customary for companies in the same or similar businesses operating in the same or similar locations;
- (2) maintain such other insurance as may be required by law; and
- (3) maintain such other insurance as may be required by the security documents relating to the Notes.

The indenture provides that upon the request of the trustee or the collateral trustee, the Issuer and the Subsidiary Guarantors will furnish to the trustee or collateral trustee full information as to their property and liability insurance carriers. The indenture requires that the Issuer (x) provide the trustee and the collateral trustee with notice of cancellation or modification with respect to its property and casualty policies before the effective date of such cancellation or modification and (y) name the trustee or collateral trustee as a co-loss payee on property and casualty policies and as an additional insured as its interests may appear on the liability policies listed in clause (1) above.

### ***Compliance with the Trust Indenture Act***

The indenture has been qualified under and is subject to and governed by the Trust Indenture Act. To the extent applicable, the indenture requires the Issuer to comply with the provisions of TIA § 314 and to cause TIA § 313(b), relating to reports, and TIA § 314(d), relating to the release of property or securities or relating to the substitution therefor of any property or securities to be subjected to the Lien of the security documents, to be complied with. Any certificate or opinion required by TIA § 314(d) may be made by an officer of the Issuer except in cases where TIA § 314(d) requires that such certificate or opinion be made by an independent Person, which Person will be an independent engineer, appraiser or other expert selected by or reasonably satisfactory to the trustee.

Notwithstanding anything to the contrary in the preceding paragraph, the Issuer will not be required to comply with all or any portion of TIA § 314(d) if the Issuer determines, in good faith, that under the terms of TIA § 314(d) and/or any interpretation or guidance as to the meaning thereof of the Commission and its staff, including "no action" letters or exemptive orders, all or any portion of TIA § 314(d) is inapplicable to released collateral. The Issuer and the Guarantors may, subject to the provisions of the indenture, among other things, without any release or consent by the trustee or the collateral trustee or any holder of Priority Lien Obligations, conduct ordinary course activities with respect to the Collateral.

## Mandatory Redemption

The Issuer is not required to make mandatory redemption or sinking fund payments with respect to the notes.

## Optional Redemption

At any time prior to December 15, 2012, the Issuer may, on any one or more occasions, redeem up to 35% of the aggregate principal amount of notes issued under the indenture (including the exchange notes offered hereby, the original first lien notes, the additional first lien notes and any additional notes) at a redemption price of 109.50% of the principal amount thereof, *plus* accrued and unpaid interest and Special Interest (if any) thereon to the applicable redemption date, with all or a portion of the net cash proceeds of one or more Qualified Equity Offerings; *provided* that:

(1) at least 65% of the aggregate principal amount of notes issued under the indenture (including any additional notes) remains outstanding immediately after the occurrence of such redemption (excluding notes held by the Issuer and its Subsidiaries); and

(2) the redemption must occur within 90 days of the date of the closing of such Qualified Equity Offering.

At any time prior to December 15, 2012, the Issuer may, on any one or more occasions, redeem all or a part of the notes, upon not less than 15 nor more than 60 days' notice, at a redemption price equal to 100% of the principal amount of the notes redeemed, *plus* the Applicable Premium as of, and accrued and unpaid interest and Special Interest (if any) to, the date of redemption, subject to the rights of holders of notes on the relevant record date to receive interest due on the relevant interest payment date.

Except pursuant to the two preceding paragraphs, the notes will not be redeemable at the Issuer's option prior to December 15, 2012.

On or after December 15, 2012, the Issuer may redeem all or a part of the notes upon not less than 15 nor more than 60 days' notice, at the redemption prices (expressed as percentages of principal amount) set forth below *plus* accrued and unpaid interest and Special Interest, if any, thereon, to the applicable redemption date, if redeemed during the 12-month period beginning on December 15 of the years indicated below, subject to the rights of holders of notes on the relevant record date to receive interest on the relevant interest payment date:

Year	Percentage
2012	107.125%
2013	104.750%
2014	102.375%
2015 and thereafter	100.000%

If less than all of the notes are to be redeemed at any time, the trustee will select notes for redemption on a *pro rata* basis (or, in the case of notes issued in global form as discussed under "— Book-Entry, Delivery and Form", based on a method that most nearly approximates a *pro rata* selection as the trustee deems fair and appropriate) unless otherwise required by law or applicable stock exchange or depositary requirements.

No notes of \$2,000 or less shall be redeemed in part. Notices of redemption shall be sent electronically or mailed by first class mail or as otherwise provided in accordance with the procedures of DTC at least 15 but not more than 60 days before the redemption date to each holder of notes to be redeemed at its registered address, except that redemption notices may be mailed more than 60 days prior to a redemption date if the notice is issued in connection with a defeasance of the notes or a satisfaction and discharge of the indenture. Notices of redemption may be given prior to the completion thereof, and any redemption or notice may, at the Issuer's discretion, be subject to one or more conditions precedent, including, but not limited to, completion of the Qualified Equity Offering.

If any note is to be redeemed in part only, the notice of redemption that relates to that note shall state the portion of the principal amount thereof to be redeemed. A new note in principal amount equal to the unredeemed portion of the original note will be issued in the name of the holder thereof upon cancellation of the original note. Notes called for redemption become due on the date fixed for redemption. On and after the redemption date, unless the Issuer

defaults in the payment of the redemption price, interest ceases to accrue on notes or portions of them called for redemption.

The Issuer or its Affiliates may acquire notes by means other than a redemption from time to time, including through open market purchases, privately negotiated transactions, tender offers, exchange offers or otherwise so long as the acquisition does not otherwise violate the terms of the indenture, upon such terms and at such prices as the Issuer or its Affiliates may determine which may be more or less than the consideration for which the notes offered hereby are being sold and could be for cash or other consideration.

#### **Repurchase at the Option of Holders**

##### ***Change of Control***

If a Change of Control occurs, each holder of notes will have the right to require the Issuer to repurchase all or any part (equal to \$2,000 or an integral multiple of \$1,000 in excess thereof) of that holder's notes pursuant to a Change of Control Offer on the terms set forth in the indenture. In the Change of Control Offer, the Issuer will offer a Change of Control Payment in cash equal to 101% of the aggregate principal amount of notes repurchased *plus* accrued and unpaid interest and Special Interest (if any) thereon, to the date of purchase, subject to the rights of holders of notes on the relevant record date to receive interest due on the relevant interest payment date. Within 30 days following any Change of Control (or prior to the Change of Control if a definitive agreement is in place for the Change of Control), the Issuer will send a notice to each holder electronically or by first class mail at its registered address or otherwise in accordance with the procedures of DTC, describing the transaction or transactions that constitute the Change of Control and offering to repurchase notes on the Change of Control Payment Date specified in such notice, which date shall be no earlier than 30 days and no later than 60 days from the date such notice is mailed, pursuant to the procedures required by the indenture and described in such notice. The Issuer will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent such laws and regulations are applicable in connection with the repurchase of the notes as a result of a Change of Control. To the extent that the provisions of any securities laws or regulations conflict with the Change of Control provisions of the indenture, the Issuer will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under the Change of Control provisions of the indenture by virtue of such compliance.

On the Change of Control Payment Date, the Issuer will, to the extent lawful:

- (1) accept for payment all notes or portions thereof properly tendered pursuant to the Change of Control Offer;
- (2) deposit with the paying agent an amount equal to the Change of Control Payment in respect of all notes or portions thereof properly tendered; and
- (3) deliver or cause to be delivered to the trustee the notes so accepted together with an Officers' Certificate of the Issuer stating the aggregate principal amount of notes or portions thereof being purchased by the Issuer.

The paying agent will promptly mail or wire transfer to each holder of notes properly tendered and so accepted the Change of Control Payment for such notes, and the trustee will promptly authenticate and mail (or cause to be transferred by book entry) to each holder a new note equal in principal amount to any unpurchased portion of the notes surrendered, if any; *provided* that each such new note will be in a principal amount of \$2,000 or an integral multiple of \$1,000 in excess thereof. Any note so accepted for payment will cease to accrue interest on and after the Change of Control Payment Date.

The provisions described above that require the Issuer to make a Change of Control Offer in connection with a Change of Control will be applicable regardless of whether any other provisions of the indenture are applicable. Except as described above with respect to a Change of Control, the indenture does not contain provisions that permit the holders of the notes to require that the Issuer repurchase or redeem the notes in the event of a takeover, recapitalization or similar transaction.

The Change of Control purchase feature of the notes may in certain circumstances make more difficult or discourage a sale or takeover of the Issuer and, thus, the removal of incumbent management. The Change of Control purchase feature is a result of negotiations between the Issuer and the initial purchasers.

The Issuer will not be required to make a Change of Control Offer upon a Change of Control if (1) a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in the indenture applicable to a Change of Control Offer made by the Issuer and purchases all notes properly tendered and not withdrawn under such Change of Control Offer or (2) a notice of redemption has been given for all of the notes pursuant to the indenture as described above under the caption “— Optional Redemption”, unless and until there is a default in payment of the applicable redemption price. Notwithstanding anything to the contrary contained herein, a Change of Control Offer may be made in advance of a Change of Control, subject to one or more conditions precedent, including but not limited to the consummation of such Change of Control, if a definitive agreement is in place for the Change of Control at the time the Change of Control Offer is made.

The ABL Credit Facility provides that certain change of control events will constitute a default under the ABL Credit Facility. Credit agreements that the Issuer enters into in the future may contain similar provisions. Such defaults could result in amounts outstanding under the ABL Credit Facility and such other agreements being declared immediately due and payable or lending commitments being terminated. Additionally, the Issuer’s ability to pay cash to holders of notes following the occurrence of a Change of Control may be limited by its then existing financial resources; sufficient funds may not be available to the Issuer when necessary to make any required repurchases of notes. See “Risk Factors — Risks Related to the Exchange Notes — We May Not Have the Ability to Raise the Funds Necessary to Finance the Change of Control Offer or the Asset Sale Offer Required by the Indenture Governing the Notes”.

The definition of Change of Control includes a phrase relating to the direct or indirect sale, transfer, conveyance or other disposition of “all or substantially all” of the properties or assets of the Issuer and its Subsidiaries taken as a whole. Although there is a limited body of case law interpreting the phrase “substantially all”, there is no precise established definition of the phrase under applicable law. Accordingly, the ability of a holder of notes to require the Issuer to repurchase such notes as a result of a sale, transfer, conveyance or other disposition of less than all of the assets of the Issuer and its Subsidiaries taken as a whole to another Person or group may be uncertain.

A Change of Control would be triggered at such time as a majority of the members of the Board of Directors of the Issuer or Parent are not Continuing Directors (defined as directors serving on December 21, 2009, nominated by directors a majority of whom were serving on December 21, 2009 or nominated or elected by our sponsor). You should note, however, that recent case law suggests that, in the event that incumbent directors are replaced as a result of a contested election, issuers may nevertheless avoid triggering a Change of Control under a clause similar to the provision described in the prior sentence if the outgoing directors were to approve the new directors for the purpose of such Change of Control clause.

#### ***Asset Sales***

The Issuer will not, and will not permit any of its Restricted Subsidiaries to, consummate an Asset Sale unless:

- (1) the Issuer (or the Restricted Subsidiary, as the case may be) receives consideration at the time of such Asset Sale at least equal to the fair market value of the assets or Equity Interests issued or sold or otherwise disposed of;
- (2) with respect to Asset Sales involving aggregate consideration in excess of \$25.0 million, such fair market value is determined in good faith by the Board of Directors of the Issuer or Parent; and
- (3) at least 75% of the consideration therefor received by the Issuer or such Restricted Subsidiary is in the form of cash, Cash Equivalents or Replacement Assets or a combination of cash, Cash Equivalents or

Replacement Assets; *provided* that, for purposes of this provision, each of the following shall be deemed to be cash:

- (a) any liabilities (as shown on the Issuer's or such Restricted Subsidiary's most recent balance sheet or in the footnotes thereto), of the Issuer or any Restricted Subsidiary (other than contingent liabilities, Indebtedness that is by its terms contractually subordinated in right of payment to the notes or any Note Guarantee and liabilities to the extent owed to the Issuer or any Restricted Subsidiary of the Issuer) that are assumed by the transferee of any such assets or Equity Interests pursuant to an agreement that releases the Issuer or such Restricted Subsidiary, as the case may be, from further liability;
- (b) any securities, notes or other obligations received by the Issuer or any such Restricted Subsidiary, as the case may be, from such transferee that are converted by the Issuer or such Restricted Subsidiary into cash or Cash Equivalents within 180 days (to the extent of the cash or Cash Equivalents received in that conversion); and
- (c) any Designated Non-Cash Consideration received by the Issuer or any Restricted Subsidiary in such Asset Sale having an aggregate fair market value, taken together with all other Designated Non-Cash Consideration received pursuant to this clause (c) that is at the time outstanding, not to exceed the greater of (x) \$75.0 million and (y) 2.5% of the Issuer's Consolidated Total Assets at the time of the receipt of such Designated Non-Cash Consideration, with the fair market value of each item of Designated Non-Cash Consideration being measured at the time received and without giving effect to subsequent changes in value.

Within 365 days after the receipt of any Net Proceeds from an Asset Sale other than (1) a Sale of Notes Priority Collateral or (2) a Sale of a Subsidiary Guarantor, the Issuer or such Restricted Subsidiary may apply such Net Proceeds at its option and to the extent it so elects:

- (1) to repay, repurchase or redeem Priority Lien Obligations (including Priority Lien Obligations under the notes) or ABL Debt Obligations;
- (2) to repay any Indebtedness secured by a Permitted Prior Lien;
- (3) to repay Indebtedness and other obligations of a Restricted Subsidiary that is not a Guarantor, other than Indebtedness owed to the Issuer or another Restricted Subsidiary;
- (4) to repay other Indebtedness of the Issuer or any Subsidiary Guarantor (other than any Disqualified Stock or any Indebtedness that is contractually subordinated in right of payment to the notes), other than Indebtedness owed to Parent, the Issuer or a Restricted Subsidiary of the Issuer; *provided* that the Issuer shall equally and ratably redeem or repurchase the notes as described under the caption "— Optional Redemption", through open market purchases (to the extent such purchases are at or above 100% of the principal amount thereof) or by making an offer (in accordance with the procedures set forth below for an Asset Sale Offer) to all holders to purchase the notes at 100% of the principal amount thereof, *plus* the amount of accrued but unpaid interest, if any, on the amount of notes that would otherwise be prepaid;
- (5) to acquire all or substantially all of the assets of, or any Capital Stock of, another Permitted Business, if, after giving effect to any such acquisition of Capital Stock, the Permitted Business is or becomes a Restricted Subsidiary of the Issuer;
- (6) to make an Investment in Replacement Assets or make a capital expenditure in or that is used or useful in a Permitted Business; or
- (7) any combination of the foregoing;

*provided* that the Issuer will be deemed to have complied with the provisions described in clauses (5) and (6) of this paragraph if and to the extent that, within 365 days after the Asset Sale that generated the Net Proceeds, the Issuer has entered into and not abandoned or rejected a binding agreement to acquire the assets or Capital Stock of a Permitted Business, make an Investment in Replacement Assets or make a capital expenditure in compliance with the provision described in clauses (5) and (6) of this paragraph, and that acquisition, purchase or capital expenditure is thereafter completed within 180 days after the end of such 365-day period. Pending the final application of any

such Net Proceeds, the Issuer may temporarily reduce revolving credit borrowings or otherwise invest such Net Proceeds in any manner that is not prohibited by the indenture.

Within 365 days after the receipt of any Net Proceeds from an Asset Sale that constitutes (1) a Sale of Notes Priority Collateral or (2) a Sale of a Subsidiary Guarantor, the Issuer (or the applicable Restricted Subsidiary, as the case may be) may apply an amount equal to such Net Proceeds:

- (1) to make an Investment in other assets or property that would constitute Notes Priority Collateral;
- (2) to make an Investment in Capital Stock of another Permitted Business if, after giving effect to such Investment, the Permitted Business becomes a Subsidiary Guarantor or is merged into or consolidated with the Issuer or any Subsidiary Guarantor;
- (3) to make a capital expenditure with respect to assets that constitute Notes Priority Collateral;
- (4) to repay Indebtedness secured by a Permitted Prior Lien on any Notes Priority Collateral that was sold in such Asset Sale;
- (5) to repay, repurchase or redeem Priority Lien Obligations (including Priority Lien Obligations under the notes); *provided* that the Issuer shall equally and ratably redeem or repurchase the notes as described under the caption “— Optional Redemption”, through open market purchases (to the extent such purchases are at or above 100% of the principal amount thereof) or by making an offer (in accordance with the procedures set forth below for an Asset Sale Offer) to all holders to purchase the notes at 100% of the principal amount thereof, *plus* the amount of accrued but unpaid interest, if any, on the amount of notes that would otherwise be prepaid; or
- (6) any combination of the foregoing;

*provided* that the Issuer will be deemed to have complied with the provision described in clauses (1), (2) and (3) of this paragraph if, and to the extent that, within 365 days after the Asset Sale that generated the Net Proceeds, the Issuer has entered into and not abandoned or rejected a binding agreement to make an Investment in assets or property that would constitute Notes Priority Collateral or make an Investment in Capital Stock of another Permitted Business or to make a capital expenditure with respect to assets that constitute Notes Priority Collateral in compliance with the provisions described in clauses (1), (2) and (3) of this paragraph, and that purchase or capital expenditure is thereafter completed within 180 days after the end of such 365-day period.

Any Net Proceeds from Asset Sales that are not applied or invested as described in the two preceding paragraphs will constitute “*Excess Proceeds*”. Within 10 business days after the aggregate amount of Excess Proceeds exceeds \$35.0 million, the Issuer will make an Asset Sale Offer to all holders of notes and all holders of other Priority Lien Debt containing provisions similar to those set forth in the indenture with respect to offers to purchase with the proceeds of sales of assets, to purchase the maximum principal amount of notes and such other Priority Lien Debt that may be purchased out of the Excess Proceeds. The offer price for the notes and any other Priority Lien Debt in any Asset Sale Offer will be equal to 100% of the principal amount of the notes and such other Priority Lien Debt purchased, *plus* accrued and unpaid interest and Special Interest (if any) on the notes and any other Priority Lien Debt to the date of purchase, and will be payable in cash. If any Excess Proceeds remain after consummation of an Asset Sale Offer, the Issuer may use such Excess Proceeds for any purpose not otherwise prohibited by the indenture. If the aggregate principal amount of notes and such other Priority Lien Debt tendered into such Asset Sale Offer exceeds the amount of Excess Proceeds, the notes and such other Priority Lien Debt shall be purchased on a *pro rata* basis based on the principal amount of notes and such other Priority Lien Debt tendered. Upon completion of each Asset Sale Offer, the amount of Excess Proceeds shall be reset at zero. The Issuer may satisfy the foregoing obligation with respect to any Net Proceeds prior to the expiration of the relevant 365 day period (as such period may be extended in accordance with the indenture) or with respect to Excess Proceeds of \$35.0 million or less.

The ABL Credit Facility provides that certain asset sales will constitute a default under the ABL Credit Facility. Credit agreements that the Issuer enters into in the future may contain similar provisions. Such defaults could result in amounts outstanding under the ABL Credit Facility and such other agreements being declared immediately due and payable or lending commitments being terminated. Additionally, the Issuer’s ability to pay cash to holders of notes following the occurrence of an Asset Sale may be limited by their then existing financial

resources; sufficient funds may not be available to the Issuer when necessary to make any required repurchases of notes. See “Risk Factors — Risks Related to the Exchange Notes — We May Not Have the Ability to Raise the Funds Necessary to Finance the Change of Control Offer or the Asset Sale Offer Required by the Indenture Governing the Exchange Notes”.

The Issuer will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent such laws and regulations are applicable in connection with each repurchase of notes pursuant to an Asset Sale Offer. To the extent that the provisions of any securities laws or regulations conflict with the Asset Sale provisions of the indenture, the Issuer will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under the Asset Sale provisions of the indenture by virtue of such compliance.

## **Certain Covenants**

### ***Effectiveness of Certain Covenants***

If on any date following December 21, 2009:

(1) the notes are rated Baa3 or better by Moody’s and BBB- or better by S&P (or, if either such entity ceases to rate the notes for reasons outside of the control of the Issuer, the equivalent investment grade credit rating from any other “nationally recognized statistical rating organization” within the meaning of Rule 15c3-1(c)(2)(vi)(F) under the Exchange Act selected by the Issuer as a replacement agency); and

(2) no Default or Event of Default shall have occurred and be continuing, then, beginning on that day and subject to the provisions of the following paragraph, the covenants specifically listed under the following captions in this offering circular will be suspended:

- (1) “— Repurchase at the Option of Holders — Asset Sales”;
- (2) “— Certain Covenants — Restricted Payments”;
- (3) “— Certain Covenants — Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock”;
- (4) “— Certain Covenants — Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries”;
- (5) clause (3) of “— Certain Covenants — Merger, Consolidation or Sale of Assets”;
- (6) “— Certain Covenants — Transactions with Affiliates”;
- (7) “— Certain Covenants — Designation of Restricted and Unrestricted Subsidiaries”;
- (8) “— Certain Covenants — Guarantees”; and
- (9) “— Certain Covenants — Reports”.

During any period that the foregoing covenants have been suspended, the Issuer’s or Parent’s Board of Directors may not designate any of the Issuer’s Subsidiaries as Unrestricted Subsidiaries pursuant to the covenant described below under the caption “— Designation of Restricted and Unrestricted Subsidiaries”.

Notwithstanding the foregoing, if the rating assigned by either such rating agency should subsequently decline to below Baa3 or BBB-, respectively, the foregoing covenants will be reinstituted as of and from the date of such rating decline. Calculations under the reinstated “Restricted Payments” covenant will be made as if the “Restricted Payments” covenant had been in effect since December 21, 2009 except that no Default will be deemed to have occurred solely by reason of a Restricted Payment made while that covenant was suspended.

### ***Restricted Payments***

(A) The Issuer will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly:

(1) declare or pay any dividend or make any other payment or distribution on account of the Issuer's or any of its Restricted Subsidiaries' Equity Interests (including, without limitation, any payment in connection with any merger or consolidation involving the Issuer or any of its Restricted Subsidiaries) or to the direct or indirect holders of the Issuer's or any of its Restricted Subsidiaries' Equity Interests in their capacity as such (other than dividends, payments or distributions (a) payable in Equity Interests (other than Disqualified Stock) of the Issuer or to the Issuer or a Restricted Subsidiary of the Issuer or (b) payable by a Restricted Subsidiary so long as, in the case of any dividend, payment or distribution payable on or in respect of any class or series of securities issued by a Restricted Subsidiary other than a Wholly Owned Restricted Subsidiary, the Issuer or a Restricted Subsidiary receives at least its pro rata share of such dividend or distribution in accordance with its Equity Interests in such class or series of securities);

(2) purchase, redeem or otherwise acquire or retire for value (including, without limitation, in connection with any merger or consolidation involving the Issuer) any Equity Interests of the Issuer or any Restricted Subsidiary of the Issuer held by Persons other than the Issuer or any Restricted Subsidiary of the Issuer;

(3) make any payment on or with respect to, or purchase, redeem, defease or otherwise acquire or retire for value any, Subordinated Lien Debt or any Indebtedness of the Issuer or any Subsidiary Guarantor that is unsecured or contractually subordinated to the notes or to any Note Guarantee (excluding any intercompany Indebtedness between or among the Issuer and any of its Restricted Subsidiaries), except payments of (x) interest, (y) principal at the Stated Maturity thereof (or the satisfaction of a sinking fund obligation) or (z) principal and accrued interest, due within one year of the date of such payment, purchase, redemption, defeasance, acquisition or retirement; or

(4) make any Restricted Investment (all such restricted payments and other restricted actions set forth in clauses (1) through (4) above (other than any exceptions thereto) being collectively referred to as "*Restricted Payments*"), unless, at the time of and after giving effect to such Restricted Payment:

(1) no Default or Event of Default shall have occurred and be continuing or would occur as a consequence thereof;

(2) the Issuer would, at the time of such Restricted Payment and after giving *pro forma* effect thereto as if such Restricted Payment had been made at the beginning of the applicable four-quarter period, have been permitted to incur at least \$1.00 of additional Indebtedness pursuant to the Fixed Charge Coverage Ratio test set forth in the first paragraph of the covenant described below under the caption "— Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock"; and

(3) such Restricted Payment, together with the aggregate amount of all other Restricted Payments made by the Issuer and its Restricted Subsidiaries after December 21, 2009 permitted by the provisions described in clauses (1), (6), (7), (9), (10), (12), (18) and (19) of the next succeeding paragraph (B), is less than the sum, without duplication, of:

(a) 50% of the Consolidated Net Income of the Issuer for the period (taken as one accounting period) from the first day of the first fiscal quarter beginning after December 21, 2009 to the end of the Issuer's most recently ended fiscal quarter for which internal financial statements are available at the time of such Restricted Payment (or, if such Consolidated Net Income for such period is a deficit, less 100% of such deficit), *plus*

(b) 100% of the aggregate net cash proceeds and the fair market value of assets other than cash received by the Issuer since December 21, 2009 as a contribution to its equity capital or from the issue or sale of Equity Interests of the Issuer or from the issue or sale of Equity Interests of any direct or indirect parent of the Issuer to the extent such net cash proceeds are actually contributed to the Issuer as equity (other than Excluded Contributions, Refunding Capital Stock, Disqualified Stock and Designated Preferred Stock) or from the issue or sale of convertible or exchangeable Disqualified Stock or convertible or exchangeable debt securities of the Issuer that have been converted into or exchanged

for such Equity Interests (other than Equity Interests (or Disqualified Stock or debt securities) sold to a Restricted Subsidiary of the Issuer), *plus*

(c) the net cash proceeds and the fair market value of assets other than cash received by the Issuer or any Restricted Subsidiary of the Issuer from (i) the disposition, sale, liquidation, retirement or redemption of all or any portion of any Restricted Investment made after December 21, 2009, net of disposition costs and repurchases and redemptions of such Restricted Investments from the Issuer or its Restricted Subsidiaries and repayments of loans or advances, and releases of guarantees which constitute Restricted Investments by the Issuer or its Restricted Subsidiaries, and (ii) the sale (other than to the Issuer or a Restricted Subsidiary of the Issuer) of the Capital Stock of an Unrestricted Subsidiary, *plus*

(d) without duplication, (i) to the extent that any Unrestricted Subsidiary of the Issuer that was designated as such after December 21, 2009 is redesignated as a Restricted Subsidiary, the fair market value of the Issuer's direct or indirect Investment in such Subsidiary as of the date of such redesignation, *plus* (ii) an amount equal to the net reduction in Investments in Unrestricted Subsidiaries resulting from payments of dividends, repayments of the principal of loans or advances or other transfers of assets from Unrestricted Subsidiaries of the Issuer to the Issuer or any Restricted Subsidiary of the Issuer after December 21, 2009, except, in each case, to the extent that any such Investment or net reduction in Investment is included in the calculation of Consolidated Net Income, *plus*

(e) without duplication, in the event the Issuer or any Restricted Subsidiary of the Issuer makes any Investment in a Person that, as a result of or in connection with such Investment, becomes a Restricted Subsidiary of the Issuer, an amount equal to the fair market value of the existing Investment in such Person that was previously treated as a Restricted Payment.

(B) The preceding provisions will not prohibit:

(1) the payment of any dividend or distribution or the consummation of any redemption within 60 days after the date of declaration thereof or the giving of a redemption notice related thereto, as the case may be, if at said date of declaration or notice such payment would have complied with the provisions of the indenture;

(2) (a) the making of any Restricted Payment in exchange for, or out of the proceeds of the substantially concurrent sale of, Equity Interests of the Issuer or any direct or indirect parent of the Issuer (other than any Disqualified Stock or any Equity Interests sold to a Restricted Subsidiary of the Issuer or to an employee stock ownership plan or any trust established by the Issuer) or from substantially concurrent contributions to the equity capital of the Issuer (collectively, including any such contributions, "*Refunding Capital Stock*"); *provided*, that for the purposes hereof, Restricted Payments will be deemed to be made substantially concurrent with any such sale or contributions if the Restricted Payment occurs within 45 days of such sale or contribution; and

ownership plan or any trust established by the Issuer) of, or in exchange for, Equity Interests of the Issuer (other than Disqualified Stock); *provided*, that for the purposes hereof, Restricted Investments will be deemed to be acquired substantially concurrent with such contribution or the sale of any such Equity Interests if the acquisition occurs within 45 days of such contribution or sale; *provided, further*, that the amount of any such net cash proceeds that are utilized for any such acquisition and the fair market value of any assets so acquired or exchanged shall be excluded from the amount described in clause (3)(b) of the preceding paragraph (A) and clause (2) of this paragraph (B) and shall not constitute Excluded Contributions;

(5) the repurchase of Equity Interests deemed to occur (i) upon the exercise of options or warrants if such Equity Interests represent all or a portion of the exercise price thereof and (ii) in connection with the withholding of a portion of the Equity Interests granted or awarded to a director or an employee to pay for the taxes payable by such director or employee upon such grant or award;

(6) the payment of dividends on the Issuer's common stock (or the payment of dividends to Parent or any other direct or indirect parent of the Issuer to fund the payment of dividends on its common stock) following any public offering of common stock of the Issuer or Parent or any other direct or indirect parent of the Issuer, in an aggregate amount of up to 6.0% per annum of the net proceeds received by the Issuer (or by Parent or any other direct or indirect parent of the Issuer and contributed to the Issuer) from such public offering; *provided, however* that the aggregate amount of all such dividends pursuant to this clause (6) since December 21, 2009 shall not exceed the aggregate amount of net proceeds received by the Issuer (or by a direct or indirect parent of the Issuer and contributed to the Issuer) from such public offering;

(a) to holders of any class or series of Designated Preferred Stock (other than Disqualified Stock) of the Issuer issued after December 21, 2009;

The amount of all Restricted Payments (other than cash) shall be the fair market value on the date of the Restricted Payment of the asset(s) or securities proposed to be transferred or issued to or by the Issuer or such Restricted Subsidiary, as the case may be, pursuant to the Restricted Payment. #### ***Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock***

The Issuer will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, incur any Indebtedness (including Acquired Debt) or issue any shares of Disqualified Stock, and the Issuer will not permit any of its Restricted Subsidiaries to issue any preferred stock (other than in each case Disqualified Stock or preferred stock of Restricted Subsidiaries held by the Issuer or a Restricted Subsidiary, so long as so held); *provided, however*,

that (i) the Issuer or any Restricted Subsidiary may incur Indebtedness (including Acquired Debt) and issue Disqualified Stock and (ii) any Restricted Subsidiary may issue preferred stock, if the Fixed Charge Coverage Ratio for the Issuer's most recently ended four full fiscal quarters for which internal financial statements are available immediately preceding the date on which such additional Indebtedness is incurred or Disqualified Stock or preferred stock is issued would have been at least 2.0 to 1, determined on a *pro forma* basis (including a *pro forma* application of the net proceeds therefrom), as if the additional Indebtedness had been incurred or the Disqualified Stock or preferred stock had been issued, as the case may be, and the application of proceeds therefrom had occurred, at the beginning of such four-quarter period; *provided, further*, that the amount of Indebtedness (excluding Acquired Debt not incurred in connection with or in contemplation of the applicable merger, acquisition or other similar transaction), Disqualified Stock and preferred stock that may be incurred or issued, as applicable, by Restricted Subsidiaries that are not Guarantors, pursuant to the foregoing, shall not exceed \$60.0 million at any one time outstanding.

The covenant described by the first paragraph under the caption “— Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock” will not prohibit the incurrence or issuance of any of the following (collectively, “*Permitted Debt*”):

(1) Indebtedness incurred by the Issuer or any Subsidiary Guarantor under Credit Facilities (and the incurrence by the Subsidiary Guarantors of Guarantees thereof) in an aggregate principal amount at any one time outstanding under the provision described in this clause (1) (with letters of credit being deemed to have a principal amount equal to the maximum potential liability of the Issuer and its Restricted Subsidiaries thereunder) not to exceed (as of any date of incurrence of Indebtedness under the provision described in this clause (1) and after giving *pro forma* effect to such incurrence and the application of the net proceeds therefrom) the greater of (a) \$1.25 billion and (b) the amount of the Borrowing Base as of the date of such incurrence;

(2) Indebtedness incurred by the Issuer and the Subsidiary Guarantors represented by the notes and the Note Guarantees issued on December 21, 2009 and the exchange notes and related exchange guarantees to be issued in exchange for the notes and the Note Guarantees pursuant to the exchange and registration rights agreement (other than any additional notes, but including exchange notes and related exchange guarantees to be issued in exchange for additional notes otherwise permitted to be incurred hereunder pursuant to a registration rights agreement);

(3) Existing Indebtedness;

(4) Indebtedness of the Issuer or any of its Restricted Subsidiaries (including without limitation Capital Lease Obligations, mortgage financings or purchase money obligations), Disqualified Stock issued by the Issuer or any Restricted Subsidiary and preferred stock issued by any Restricted Subsidiary, in each case incurred for the purpose of financing all or any part of the purchase price or cost of design, construction, installation, repair or improvement of property (real or personal), plant or equipment or other fixed or capital assets used in the business of the Issuer or such Restricted Subsidiary or in a Permitted Business (whether through the direct purchase of assets or the Capital Stock of any Person owning such assets (but no other material assets)), in an aggregate principal amount at any time outstanding, including all Permitted Refinancing Indebtedness incurred to refund, refinance or replace any Indebtedness incurred pursuant to the provision described in this clause (4), not to exceed as of any date of incurrence the greater of (a) 1.0% of the Issuer's Consolidated Total Assets and (b) \$30.0 million;

(5) Permitted Refinancing Indebtedness incurred by the Issuer or any of its Restricted Subsidiaries in exchange for, or the net proceeds of which are used to refund, refinance or replace, Indebtedness (other than intercompany Indebtedness) that was permitted by the indenture to be incurred or Disqualified Stock or Preferred Stock permitted to be issued under the provisions described in the first paragraph of this covenant or clauses (2), (3), (4), (5), (8), (9), (10), (15), (16) or (17) of this paragraph;

(6) intercompany Indebtedness incurred by the Issuer or any of its Restricted Subsidiaries and owing to and held by the Issuer or any of its Restricted Subsidiaries; *provided, however*, that:

(a) if the Issuer or any Subsidiary Guarantor is the obligor on such Indebtedness, such Indebtedness must be unsecured and expressly subordinated to the prior payment in full in cash of all Obligations with respect to the notes, in the case of the Issuer, or the Note Guarantee, in the case of a Subsidiary Guarantor; and

(b) (i) any subsequent issuance or transfer of Equity Interests that results in any such Indebtedness being held by a Person other than the Issuer or a Restricted Subsidiary thereof and (ii) any sale or other transfer of any such Indebtedness to a Person that is not either the Issuer or a Restricted Subsidiary thereof, shall be deemed, in each case, to constitute an incurrence of such Indebtedness by the Issuer or such Restricted Subsidiary, as the case may be, that was not permitted by the provision described in this clause (6);

(7) (a) the Guarantee by the Issuer or any of the Subsidiary Guarantors of Indebtedness of the Issuer or a Restricted Subsidiary of the Issuer that was permitted to be incurred by another provision of this covenant, (b) the Guarantee by any Foreign Subsidiary of Indebtedness of another Foreign Subsidiary of the Issuer that was permitted to be incurred by another provision of this covenant or (c) any Guarantee by a Restricted Subsidiary of Indebtedness of the Issuer (so long as such Restricted Subsidiary also guarantees the Notes if required pursuant to the covenant under the caption “— Guarantees”);

(8) (x) Indebtedness, Disqualified Stock or Preferred Stock of the Issuer or any of its Restricted Subsidiaries incurred to finance an acquisition or (y) Acquired Debt; *provided* that, in either case, after giving effect to the transactions that result in the incurrence or issuance thereof, on a *pro forma* basis, either (a) the Issuer would be permitted to incur at least \$1.00 of additional Indebtedness pursuant to the Fixed Charge Coverage Ratio test set forth in the first paragraph of this covenant or (b) the Fixed Charge Coverage Ratio for the Issuer would not be less than immediately prior to such transactions;

(9) preferred stock of a Restricted Subsidiary of the Issuer issued to the Issuer or another Restricted Subsidiary of the Issuer; *provided* that (a) any subsequent issuance or transfer of Equity Interests that results in any such preferred stock being held by a Person other than the Issuer or a Restricted Subsidiary thereof and (b) any sale or other transfer of any such preferred stock to a Person that is not either the Issuer or a Restricted Subsidiary thereof will be deemed, in each case, to constitute an issuance of such preferred stock that was not permitted by the provision described in this clause (9);

(10) additional Indebtedness of the Issuer or any of its Restricted Subsidiaries incurred in an aggregate principal amount at any time outstanding, including all Permitted Refinancing Indebtedness incurred to refund, refinance or replace any Indebtedness incurred pursuant to the provision described in this clause (10), not to exceed as of any date of incurrence the greater of 4.0% of the Issuer’s Consolidated Total Assets and \$125.0 million;

(11) Indebtedness incurred by the Issuer or any Restricted Subsidiary to the extent that the net proceeds thereof are promptly deposited to defease or to satisfy and discharge the notes;

(12) Indebtedness of the Issuer or any Restricted Subsidiary consisting of obligations to pay insurance premiums or take-or-pay obligations contained in supply arrangements incurred in the ordinary course of business;

(13) Indebtedness in respect of any bankers’ acceptance, bank guarantees, letter of credit, warehouse receipt or similar facilities, and reinvestment obligations related thereto, entered into in the ordinary course of business;

(14) Guarantees (a) incurred in the ordinary course of business in respect of obligations of (or to) suppliers, customers, franchisees, lessors and licensees that, in each case, are non-Affiliates or (b) otherwise constituting Investments permitted under the indenture;

(15) (a) Indebtedness of Foreign Subsidiaries outstanding on December 21, 2009 and (b) additional Indebtedness of Foreign Subsidiaries incurred in an aggregate principal amount at any time outstanding, including all Permitted Refinancing Indebtedness incurred to refund, refinance or replace any Indebtedness incurred pursuant to the provision described in this clause (15)(b), not to exceed as of any date of incurrence the greater of 4.0% of the Issuer's Consolidated Total Assets and \$125.0 million;

(16) Indebtedness issued by the Issuer or any of its Restricted Subsidiaries to any current, future or former director, officer, consultant or employee of the Issuer, the direct or indirect parent of the Issuer or any Restricted Subsidiary of the Issuer (or any of their Affiliates), or their estates or the beneficiaries of such estates to finance the purchase, redemption, acquisition or retirement for value of Equity Interests permitted by clause (2) of the second paragraph of the covenant described under the caption "— Restricted Payments", in an aggregate principal amount at any time outstanding, including all Permitted Refinancing Indebtedness incurred to refund, refinance or replace any Indebtedness incurred pursuant to the provision described in this clause (16), not to exceed \$5.0 million as of any date of incurrence;

(17) Contribution Indebtedness;

(18) (a) Indebtedness incurred in connection with any permitted Sale and Leaseback Transaction and (b) any refinancing, refunding, renewal or extension of any Indebtedness specified in subclause (a) above, *provided* that, except to the extent otherwise permitted hereunder, the principal amount of any such Indebtedness is not increased above the principal amount thereof outstanding immediately prior to such refinancing, refunding, renewal or extension and the direct and contingent obligors with respect to such Indebtedness are not changed;

(b) Indebtedness in respect of overdraft facilities, employee credit card programs and other cash management arrangements in the ordinary course of business; and

(c) Indebtedness representing deferred compensation to employees of the Issuer (or any direct or indirect parent thereof) and its Restricted Subsidiaries incurred in the ordinary course of business; and

(19) cash management obligations and other Indebtedness in respect of netting services, automatic clearinghouse arrangements, overdraft protections and similar arrangements in each case in connection with deposit accounts.

For purposes of determining compliance with this covenant, in the event that any proposed Indebtedness or preferred stock meets the criteria of more than one of the categories of Permitted Debt described in clauses (1) through (19) above, or is entitled to be incurred or issued pursuant to the first paragraph of this covenant, the Issuer, in its sole discretion, will be permitted to divide and classify at the time of its incurrence or issuance, and may from time to time divide or reclassify, all or a portion of such item of Indebtedness or Disqualified Stock or preferred stock such that it will be deemed to have been incurred pursuant to another of such clauses or the first paragraph of this covenant to the extent that such reclassified Indebtedness could be incurred pursuant to such new clause or the first paragraph of this covenant at the time of such reclassification (including in part pursuant to one or more clauses and/or in part pursuant to the first paragraph of this covenant), *provided, however*, that Indebtedness under the ABL Credit Facility outstanding on December 21, 2009 will be deemed to have been incurred on that date in reliance on the exception provided by clause (1) of the definition of Permitted Debt.

For the purpose of determining compliance with any U.S. dollar-denominated restriction on the incurrence of Indebtedness, the U.S. dollar-equivalent principal amount of Indebtedness denominated in a foreign currency shall be calculated based on the relevant currency exchange rate in effect on the date such Indebtedness was incurred or first committed (in the case of revolving credit debt); *provided* that if such Indebtedness denominated in a foreign currency is incurred to refinance other Indebtedness denominated in a foreign currency, and such refinancing would cause the applicable U.S. dollar denominated restriction to be exceeded if calculated at the relevant currency exchange rate in effect on the date of such refinancing, such U.S. dollar-denominated restriction shall be deemed not to have been exceeded so long as the principal amount of such Permitted Refinancing Indebtedness does not exceed the principal amount of such Indebtedness being refinanced, plus the amount of any reasonable premium (including reasonable tender premiums), defeasance costs and any reasonable fees and expenses incurred in connection with the issuance of such new Indebtedness. The principal amount of any Indebtedness incurred to refinance other

Indebtedness, if incurred in a different currency from the Indebtedness being refinanced, shall be calculated based on the currency exchange rate applicable to the currencies in which such respective Indebtedness is denominated that is in effect on the date of such refinancing.

Notwithstanding any other provision of this covenant, the maximum amount of Indebtedness that may be incurred pursuant to this covenant will not be deemed to be exceeded, with respect to any outstanding Indebtedness, due solely to the result of fluctuations in the exchange rates of currencies. In addition, for purposes of determining any particular amount of Indebtedness, any Guarantees, Liens or obligations with respect to letters of credit, in each case, supporting Indebtedness otherwise included in the determination of such particular amount, will not be included.

The Issuer will not incur, and will not permit any Subsidiary Guarantor to incur, any Indebtedness (including Permitted Debt) that is contractually subordinated in right of payment to any other Indebtedness of the Issuer or such Subsidiary Guarantor unless such Indebtedness is also contractually subordinated in right of payment to the notes and the applicable Note Guarantees on substantially identical terms; *provided, however*, that no Indebtedness will be deemed to be contractually subordinated in right of payment to any other Indebtedness of the Issuer solely by virtue of being unsecured or by virtue of being secured on a junior priority basis or by virtue of the fact that the holders of any secured Indebtedness have entered into intercreditor agreements giving one or more of such holders priority over the other holders in the collateral held by them.

### ***Liens***

The Issuer will not, and will not permit any of its Restricted Subsidiaries to, create, incur, assume or otherwise cause or suffer to exist or become effective any Lien of any kind (other than Permitted Liens) upon any of their property or assets, now owned or hereafter acquired.

### ***Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries***

The Issuer will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, create or permit to exist or become effective any consensual encumbrance or consensual restriction on the ability of any Restricted Subsidiary to:

- (1) pay dividends or make any other distributions on its Capital Stock (or with respect to any other interest or participation in, or measured by, its profits) to the Issuer or any of its Restricted Subsidiaries or pay any Indebtedness owed to the Issuer or any of its Restricted Subsidiaries;

- (2) existing under, by reason of or with respect to any other Credit Facility of the Issuer permitted under the indenture; *provided* that the applicable encumbrances and restrictions contained in the agreement or agreements governing the other Credit Facility are not materially more restrictive, taken as a whole, than those contained in the ABL Credit Facility (with respect to other credit agreements) or the indenture (with respect to other indentures), in each case as in effect on December 21, 2009;
- (3) existing under, by reason of or with respect to applicable law, rule, regulation or administrative or court order;

(4) with respect to any Person or the property or assets of a Person acquired by the Issuer or any of its Restricted Subsidiaries existing at the time of such acquisition and not incurred in connection with or in contemplation of such acquisition, which encumbrance or restriction is not applicable to any Person or the properties or assets of any Person, other than the Person, or the property or assets of the Person, so acquired and any amendments, modifications, restatements, renewals, extensions, increases, supplements, refundings, replacements or refinancings thereof; *provided* that the encumbrances and restrictions in any such amendments, modifications, restatements, renewals, extensions, increases, supplements, refundings, replacement or refinancings are entered into in the ordinary course of business or not materially more restrictive, taken as a whole, than those contained in the ABL Credit Facility, the indenture, Existing Indebtedness or such other agreements as in effect on the date of the acquisition;

(5) in the case of the provision described in clause (3) of the first paragraph of this covenant:

(a) that restrict in a customary manner the subletting, assignment or transfer of any property or asset that is a lease, license, conveyance or contract or similar property or asset,

(b) existing by virtue of any transfer of, agreement to transfer, option or right with respect to, or Lien on, any property or assets of the Issuer or any Restricted Subsidiary thereof not otherwise prohibited by the indenture,

(c) existing under, by reason of or with respect to (i) purchase money obligations for property acquired in the ordinary course of business or (ii) capital leases or operating leases that impose encumbrances or restrictions on the property so acquired or covered thereby, or

(d) arising or agreed to in the ordinary course of business, not relating to any Indebtedness, and that do not, individually or in the aggregate, detract from the value of property or assets of the Issuer or any Restricted Subsidiary thereof in any manner material to the Issuer or any Restricted Subsidiary thereof;

(6) existing under, by reason of or with respect to customary provisions in joint venture, operating or similar agreements, asset sale agreements and stock sale agreements arising in connection with the entering into of such transactions;

(7) existing under, by reason of or with respect to any agreement for the sale or other disposition of some or all of the Capital Stock of, or any property and assets of, a Restricted Subsidiary that restricted distributions by that Restricted Subsidiary pending the closing of such sale or other disposition;

(8) existing under, by reason of or with respect to Permitted Refinancing Indebtedness; *provided* that the encumbrances and restrictions contained in the agreements governing that Permitted Refinancing Indebtedness are not materially more restrictive, taken as a whole, than those contained in the agreements governing the Indebtedness being refinanced;

(9) restricting cash or other deposits or net worth imposed by customers under contracts entered into in the ordinary course of business;

(10) existing under, by reason of or with respect to customary provisions contained in leases or licenses of intellectual property and other agreements, in each case, entered into in the ordinary course of business;

(11) existing under, by reason of or with respect to the indenture, the notes, the Note Guarantees and the security documents; and

(12) existing under, by reason of or with respect to Indebtedness of a Restricted Subsidiary not prohibited to be incurred under the indenture; *provided* that (a) such encumbrances or restrictions are ordinary and customary in light of the type of Indebtedness being incurred and the jurisdiction of the obligor and (b) such encumbrances or restrictions will not affect in any material respect the Issuer's or any Subsidiary Guarantor's ability to make principal and interest payments on the notes, as determined in good faith by the Issuer.

For purposes of determining compliance with this covenant, (1) the priority of any Preferred Stock in receiving dividends or liquidating distributions prior to distributions being paid on common stock shall not be deemed a restriction on the ability to make distributions on Capital Stock and (2) the subordination of loans or advances made

to the Issuer or a Restricted Subsidiary of the Issuer to other Indebtedness incurred by the Issuer or any such Restricted Subsidiary shall not be deemed a restriction on the ability to make loans or advances.

***Merger, Consolidation or Sale of Assets***

*The Issuer will not, directly or indirectly:* (1) consolidate or merge with or into another Person (whether or not the Issuer is the surviving corporation) or (2) sell, assign, transfer, convey, lease or otherwise dispose of all or substantially all of the properties and assets of the Issuer and its Restricted Subsidiaries taken as a whole, in one or more related transactions, to another Person or Persons, unless:

(1) either: (a) the Issuer is the surviving corporation; or (b) the Person formed by or surviving such consolidation or merger (if other than the Issuer) or to which such sale, assignment, transfer, conveyance, lease or other disposition shall have been made (i) is a corporation, limited liability company, partnership (including a limited partnership) or trust organized or existing under the laws of the United States, any state or territory thereof or the District of Columbia (*provided* that if such Person is not a corporation, (A) a corporate Wholly Owned Restricted Subsidiary of such Person organized or existing under the laws of the United States, any state or territory thereof or the District of Columbia, or (B) a corporation of which such Person is a Wholly Owned Restricted Subsidiary organized or existing under the laws of the United States, any state or territory thereof or the District of Columbia, is a co-issuer of the notes or becomes a co-issuer of the notes in connection therewith) and (ii) assumes all the obligations of the Issuer under the notes, the indenture and the exchange and registration rights agreements pursuant to agreements reasonably satisfactory to the trustee;

(2) immediately after giving effect to such transaction no Event of Default exists;

(3) immediately after giving effect to such transaction and any related financing transactions as if the same had occurred at the beginning of the applicable four-quarter period, on a *pro forma* basis, either

(a) the Issuer or the Person formed by or surviving any such consolidation or merger (if other than the Issuer) would be permitted to incur at least \$1.00 of additional Indebtedness pursuant to the Fixed Charge Coverage Ratio test set forth in the first paragraph of the covenant described above under the caption “— Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock”; or

(b) the Fixed Charge Coverage Ratio for the Issuer or the Person formed by or surviving any such consolidation or merger (if other than the Issuer) would not be less than the Fixed Charge Coverage Ratio for the Issuer immediately prior to such transactions; and

(4) each Guarantor, unless such Guarantor is the Person with which the Issuer has entered into a transaction under the covenant described under the caption “— Merger, Consolidation or Sale of Assets”, shall have by amendment to its Note Guarantee confirmed that its Note Guarantee shall apply to the obligations of the Issuer or the surviving Person in accordance with the notes and the indenture.

The provision described in clause (3) of the immediately preceding paragraph will not apply to (a) any merger, consolidation or sale, assignment, lease, transfer, conveyance or other disposition of assets between or among the Issuer and any of its Restricted Subsidiaries or (b) any merger between the Issuer and an Affiliate of the Issuer, or between a Restricted Subsidiary and an Affiliate of the Issuer, in each case in this clause (b) solely for the purpose of reincorporating the Issuer or such Restricted Subsidiary, as the case may be, in the United States, any state thereof, the District of Columbia or any territory thereof, so long as the amount of Indebtedness of the Issuer and its Restricted Subsidiaries is not increased thereby.

***Transactions with Affiliates***

The Issuer will not, and will not permit any of its Restricted Subsidiaries to, make any payment to, or sell, lease, transfer or otherwise dispose of any of its properties or assets to, or purchase any property or assets from, or enter into, make, amend, renew or extend any transaction, contract, agreement, understanding, loan, advance or

Guarantee with, or for the benefit of, any Affiliate involving aggregate consideration in excess of \$3.5 million (each, an “*Affiliate Transaction*”), unless:

(1) such Affiliate Transaction is on fair and reasonable terms not materially less favorable to the Issuer or the relevant Restricted Subsidiary than it would obtain in a hypothetical comparable arm’s-length transaction by the Issuer or such Restricted Subsidiary with a Person that was not an Affiliate of the Issuer; and

(2) the Issuer delivers to the trustee with respect to any Affiliate Transaction or series of related Affiliate Transactions involving aggregate consideration in excess of \$25.0 million, a resolution of the Board of Directors of Parent set forth in an Officers’ Certificate certifying that such Affiliate Transaction or series of related Affiliate Transactions complies with this covenant and that such Affiliate Transaction or series of related Affiliate Transactions has been approved by a majority of the disinterested members of Parent’s Board of Directors.

The following items shall not be deemed to be Affiliate Transactions and, therefore, will not be subject to the provisions of the prior paragraph:

- (1) transactions between or among the Issuer and/or its Restricted Subsidiaries;
- (2) payment of reasonable fees and compensation to, and indemnification and similar arrangements on behalf of, current, former or future directors of Parent, any other direct or indirect parent of the Issuer, the Issuer or any Restricted Subsidiary of the Issuer;
- (3) Restricted Payments that are permitted by the provisions of the indenture described above under the caption “— Restricted Payments” and the definition of Permitted Investments (including any payments that are excluded from the definitions of Restricted Payment and Restricted Investment);
- (4) any sale of Equity Interests (other than Disqualified Stock) of the Issuer;
- (5) loans and advances to officers and employees of Parent, any other direct or indirect parent of the Issuer, the Issuer or any of the Issuer’s Restricted Subsidiaries or guarantees in respect thereof or otherwise made on the Issuer’s or any of its Restricted Subsidiaries’ behalf (or the cancellation of such loans, advances or guarantees), in both cases for bona fide business purposes in the ordinary course of business;
- (6) any employment, consulting, service or termination agreement, or customary indemnification arrangements, entered into by the Issuer or any of its Restricted Subsidiaries with current, former or future officers and employees of Parent, the Issuer or any of its Restricted Subsidiaries and the payment of compensation to officers and employees of Parent, the Issuer or any of its Restricted Subsidiaries (including amounts paid pursuant to employee benefit plans, employee stock option or similar plans), in each case in the ordinary course of business;
- (7) transactions with a Person that is an Affiliate of the Issuer solely because the Issuer, directly or indirectly, owns Equity Interests in, or controls, such Person;
- (8) payments by the Issuer or any of its Restricted Subsidiaries to The Goldman Sachs Group, Inc. and its Affiliates for any financial advisory services, financing, mergers and acquisitions advisory, insurance brokerage, underwriting or placement services or in respect of other investment banking services, including without limitation, in connection with acquisitions or divestitures, which payments are approved by a majority of the disinterested members of the Board of Directors of Parent in good faith;
- (9) transactions pursuant to any contracts, instruments or other agreements or arrangements in each case as in effect on December 21, 2009, and any transactions contemplated thereby, or any amendment, modification or supplement thereto or any replacement thereof entered into from time to time, as long as such agreement or arrangement as so amended, modified, supplemented or replaced, taken as a whole, is not materially more disadvantageous to the Issuer and its Restricted Subsidiaries at the time executed than the original agreement or arrangement as in effect on December 21, 2009;
- (10) any Guarantee by Parent or any other direct or indirect parent of the Issuer of Indebtedness of the Issuer that was permitted by the indenture;

(11) transactions with Affiliates solely in their capacity as holders of Indebtedness or Equity Interests of the Issuer or any of its Subsidiaries, so long as such transaction is with all holders of such class (and there are such non-Affiliate holders) and such Affiliates are treated no more favorably than all other holders of such class generally;

(12) transactions with customers, clients, suppliers, joint venture partners or purchasers or sellers of goods or services (including pursuant to joint venture agreements) in the ordinary course of business on terms not materially less favorable as might reasonably have been obtained at such time from a Person that is not an Affiliate of the Issuer, as determined in good faith by the Issuer;

(13) transactions in which the Issuer or any of its Restricted Subsidiaries, as the case may be, delivers to the Trustee a letter from an independent financial advisor stating that such transaction is fair to the Issuer or such Restricted Subsidiary from a financial point of view or meets the requirements of prong (1) of the previous paragraph of this covenant;

(14) the existence of, or the performance by the Issuer or any of its Restricted Subsidiaries of its obligations under the terms of, any registration rights agreement to which it is a party or becomes a party in the future;

(15) any contribution to the common equity capital of the Issuer;

(16) any transaction with any Person who is not an Affiliate immediately before the consummation of such transaction that becomes an Affiliate as a result of such transaction;

(17) the pledge of Equity Interests of any Unrestricted Subsidiary to lenders to support the Indebtedness of such Unrestricted Subsidiary owed to such lenders; and

(18) payments by the Issuer (or Parent or any other direct or indirect parent of the Issuer) or any of the Restricted Subsidiaries pursuant to any tax sharing, allocation or similar agreement.

#### ***Designation of Restricted and Unrestricted Subsidiaries***

The Board of Directors of the Issuer or Parent may designate any Subsidiary (including any existing Subsidiary and any newly acquired or newly formed Subsidiary) to be an Unrestricted Subsidiary; *provided* that:

(1) any Guarantee by the Issuer or any Restricted Subsidiary of the Issuer of any Indebtedness of the Subsidiary being so designated will be deemed to be an incurrence of Indebtedness by the Issuer or such Restricted Subsidiary (or both, if applicable) at the time of such designation, and such incurrence of Indebtedness would be permitted under the covenant described above under the caption “— Certain Covenants — Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock”;

(2) the aggregate fair market value of all outstanding Investments owned by the Issuer and its Restricted Subsidiaries in the Subsidiary being so designated (including any Guarantee by the Issuer or any Restricted Subsidiary of the Issuer of any Indebtedness of such Subsidiary) will be deemed to be an Investment made as of the time of such designation and that such Investment would be permitted under the covenant described above under the caption “— Certain Covenants — Restricted Payments”;

(3) such Subsidiary does not own any Equity Interests of, or hold any Liens on any property of, the Issuer or any Restricted Subsidiary of the Issuer (other than Equity Interests of any Restricted Subsidiary of such Subsidiary that is concurrently being designated as an Unrestricted Subsidiary);

(4) the Subsidiary being so designated, after giving effect to such designation:

(a) is not party to any agreement, contract, arrangement or understanding with the Issuer or any Restricted Subsidiary of the Issuer that would not be permitted under “— Certain Covenants — Transactions with Affiliates” after giving effect to the exceptions thereto;

(b) is a Person with respect to which neither the Issuer nor any of its Restricted Subsidiaries has any direct or indirect obligation (i) to subscribe for additional Equity Interests or (ii) to maintain or preserve such Person’s financial condition or to cause such Person to achieve any specified levels of operating

results except to the extent permitted under “— Certain Covenants — Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock” and “— Certain Covenants — Restricted Payments”; and

(c) (i) has not guaranteed or otherwise directly or indirectly provided credit support for any Indebtedness of the Issuer or any of its Restricted Subsidiaries, except to the extent such Guarantee or credit support would be released upon such designation and (ii) to the extent the Indebtedness of the Subsidiary is non-recourse Indebtedness, any Guarantee or credit support by the Issuer or a Restricted Subsidiary would be permitted under “— Certain Covenants — Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock” and “— Certain Covenants — Restricted Payments”; and

(5) no Event of Default would be in existence following such designation.

Any designation of a Restricted Subsidiary of the Issuer as an Unrestricted Subsidiary shall be evidenced to the trustee by filing with the trustee a certified copy of the resolution of the Board of Directors of the Issuer or Parent giving effect to such designation and an Officers’ Certificate certifying that such designation complied with the preceding conditions and was permitted by the indenture. If, at any time, any Unrestricted Subsidiary would fail to meet any of the preceding requirements described in clause (4) above, it shall thereafter cease to be an Unrestricted Subsidiary for purposes of the indenture and any Indebtedness, Investments or Liens on the property of such Subsidiary shall be deemed to be incurred or made by a Restricted Subsidiary of the Issuer as of such date and, if such Indebtedness, Investments or Liens are not permitted to be incurred or made as of such date under the indenture, the Issuer shall be in default under the indenture.

The Board of Directors of the Issuer or Parent may at any time designate any Unrestricted Subsidiary to be a Restricted Subsidiary; *provided* that:

(1) such designation shall be deemed to be an incurrence of Indebtedness by a Restricted Subsidiary of the Issuer of any outstanding Indebtedness of such Unrestricted Subsidiary and such designation shall only be permitted if such Indebtedness is permitted under the covenant described under the caption “— Certain Covenants — Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock”; calculated on a *pro forma* basis as if such designation had occurred at the beginning of the four-quarter reference period;

(2) all outstanding Investments owned by such Unrestricted Subsidiary will be deemed to be made as of the time of such designation and such Investments shall only be permitted if such Investments would be permitted under the covenant described above under the caption “— Certain Covenants — Restricted Payments”;

(3) all Liens upon property or assets of such Unrestricted Subsidiary existing at the time of such designation would be permitted under the caption “— Certain Covenants — Liens”; and

(4) no Default or Event of Default would be in existence following such designation.

### ***Guarantees***

If the Issuer or any of its Restricted Subsidiaries (a) acquires or creates another Wholly Owned Domestic Subsidiary (other than an Excluded Subsidiary) on or after December 21, 2009 or (b) any Restricted Subsidiary of the Issuer becomes a guarantor with respect to the ABL Credit Facility or any other indebtedness of the Issuer or any Subsidiary Guarantor, then, within 45 days of the date of such acquisition or guarantee, as applicable, such Subsidiary must become a Subsidiary Guarantor and execute a supplemental indenture and deliver an Opinion of Counsel to the trustee.

The Issuer will not permit any of its Restricted Subsidiaries, directly or indirectly, to Guarantee any other Indebtedness of the Issuer or any Subsidiary Guarantor (including, but not limited to, any Indebtedness under any Credit Facility) unless such subsidiary is a Subsidiary Guarantor or simultaneously executes and delivers a supplemental indenture providing for the Guarantee of the payment of the notes by such Restricted Subsidiary, which Guarantee shall be senior in right of payment to *or pari passu* in right of payment with such Restricted Subsidiary’s Guarantee of such other Indebtedness. This covenant shall not be applicable to any guarantee of any Restricted Subsidiary that existed at the time such Person became a Restricted Subsidiary and was not incurred in

connection with, or in contemplation of, such Person becoming a Restricted Subsidiary. In addition, in the event that any Wholly Owned Domestic Subsidiary that is an Excluded Subsidiary ceases to be an Excluded Subsidiary, or if any Excluded Subsidiary becomes a guarantor with respect to the ABL Credit Facility or any other Indebtedness of the Issuer or any Subsidiary Guarantor, then such Subsidiary must become a Subsidiary Guarantor and execute a supplemental indenture and deliver an Opinion of Counsel to the trustee within 45 days of the date of such event. The form of the Note Guarantee will be attached as an exhibit to the indenture.

A Guarantor may not sell or otherwise dispose of all or substantially all of its assets to, or consolidate with or merge with or into (whether or not such Guarantor is the surviving Person), another Person, other than the Issuer or another Guarantor, unless:

(1) immediately after giving effect to that transaction, no Default or Event of Default exists; and

(2) either:

(a) the Person acquiring the property in any such sale or disposition or the Person formed by or surviving any such consolidation or merger (if other than the Guarantor) (i) is organized or existing under the laws of the United States, any state thereof or the District of Columbia *provided* that the provisions described in this clause (i) shall not apply if such Guarantor is organized under the laws of a jurisdiction other than the United States, any state thereof or the District of Columbia) and (ii) assumes all the obligations of that Guarantor under the indenture, its Note Guarantee and the exchange and registration rights agreements pursuant to a supplemental indenture satisfactory to the trustee; or

(b) in the case of a Subsidiary Guarantor, such sale or other disposition or consolidation or merger complies with the covenant described above under the caption “— Repurchase at the Option of Holders — Asset Sales”.

Notwithstanding the foregoing, any Guarantor may (i) merge with the Issuer or a Restricted Subsidiary of the Issuer solely for the purpose of reincorporating the Guarantor in the United States, any state thereof, the District of Columbia or any territory thereof or (ii) convert into a corporation, partnership, limited partnership, limited liability company or trust organized under the laws of the jurisdiction of organization of such Guarantor, in each case without regard to the requirements set forth in clause (1) of the preceding paragraph.

The Note Guarantee of Parent will automatically and unconditionally be released without the need for any further action by any party upon written notice from the Issuer to the trustee. The Note Guarantee of a Subsidiary Guarantor will automatically and unconditionally be released without the need for any action by any party:

(1) in connection with any sale or other disposition of Capital Stock of a Subsidiary Guarantor (including by way of consolidation or merger or otherwise) to a Person that is not (either before or after giving effect to such transaction) a Subsidiary of the Issuer, such that, immediately after giving effect to such transaction, such Guarantor would no longer constitute a Subsidiary of the Issuer, if the sale of such Capital Stock of that Subsidiary Guarantor complies with the covenants described above under the caption “— Repurchase at the Option of Holders — Asset Sales” and “— Certain Covenants — Restricted Payments”;

(2) in connection with the merger or consolidation of a Subsidiary Guarantor with any other Subsidiary Guarantor;

(3) in the event of the release of the guarantee under the ABL Credit Facility of a Subsidiary Guarantor that is not (a) a Wholly Owned Domestic Subsidiary or (b) a Restricted Subsidiary that guarantees Indebtedness of the Issuer or any Subsidiary Guarantor;

(4) if the Issuer properly designates any Restricted Subsidiary that is a Subsidiary Guarantor as an Unrestricted Subsidiary under the indenture;

(5) upon the Legal Defeasance or Covenant Defeasance or satisfaction and discharge of the indenture;

(6) solely in the case of a Note Guarantee created pursuant to the provision described in the second paragraph under the caption “— Guarantees”, upon the release or discharge of the Guarantee which resulted in

the creation of such Note Guarantee pursuant to the covenant described under the caption “— Guarantees”, except a discharge or release by or as a result of payment under such Guarantee”; or

(7) upon a liquidation or dissolution of a Subsidiary Guarantor permitted under the indenture.

In addition, the Note Guarantee of any Subsidiary Guarantor will be released in connection with a sale of all of the assets of such Subsidiary Guarantor in a transaction that complies with the conditions in the third paragraph under the caption “— Guarantees” above. Also, notwithstanding any other provision in the indenture, any Restricted Subsidiary of the Issuer (including any Subsidiary Guarantor) may be liquidated at any time, so long as all assets owned by such entity which constitute Collateral remain Collateral owned by the Issuer or a Subsidiary Guarantor following any such liquidation.

### ***Reports***

Whether or not the Issuer is subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act, so long as any notes are outstanding, the Issuer will furnish to the holders of notes or cause the trustee to furnish to the holders of notes or post on its website or file with the Commission for public availability:

(1) all quarterly and annual reports that would be required to be filed with the Commission on Forms 10-Q and 10-K if the Issuer were required to file such reports, including a “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and, with respect to the annual information only, a report (whether or not unqualified) thereon by the Issuer’s certified independent accountants, which reports shall be filed (a) in the case of quarterly reports, within 15 days after the time period specified in the Commission’s rules and regulations and (b) in the case of annual reports, within 30 days after the time period specified in the Commission’s rules and regulations; and

(2) as soon as practicable, and in any event 5 days after the time periods specified in the Commission’s rules and regulations, all current reports that would be required to be filed with the Commission on Form 8-K if the Issuer were required to file such reports;

*provided, however*, that if the last day of any such time period is not a business day, such report will be due on the next succeeding business day.

All such reports will be prepared in all material respects in accordance with all of the rules and regulations applicable to such reports, except that such reports will not be required to contain separate financial information for Subsidiary Guarantors or Subsidiaries whose securities are pledged to secure the notes that would be required under Rule 3-10 or Rule 3-16 of Regulation S-X promulgated by the Commission, except to the extent required by the rules and regulations of the Commission actually applicable to the Issuer at such time.

If, at any time after consummation of the exchange offer contemplated by the registration rights agreement, the Issuer is no longer subject to the periodic reporting requirements of the Exchange Act for any reason, the Issuer will nevertheless continue filing the reports specified in the preceding paragraphs of this covenant with the Commission within the time periods specified above unless the Commission will not accept such a filing. The Issuer will not take any action for the purpose of causing the Commission not to accept any such filings. If, notwithstanding the foregoing, the Commission will not accept the Issuer’s filings for any reason, the Issuer will post the reports referred to in the preceding paragraphs on its website within the time periods specified above.

If the Issuer has designated any of its Subsidiaries as Unrestricted Subsidiaries, then the quarterly and annual financial information required by the preceding paragraphs will include a reasonably detailed presentation, either on the face of the financial statements or in the footnotes thereto, and in Management’s Discussion and Analysis of Financial Condition and Results of Operations, of the financial condition and results of operations of the Issuer and its Restricted Subsidiaries separate from the financial condition and results of operations of the Unrestricted Subsidiaries of the Issuer.

In the event that (1) the rules and regulations of the Commission permit the Issuer and Parent, or any other direct or indirect parent of the Issuer, to report at such parent entity’s level on a consolidated basis and (2) such parent entity of the Issuer is not engaged in any business in any material respect other than incidental to its

ownership, directly or indirectly, of the Capital Stock of the Issuer, the information and reports required by this covenant may be those of such parent company on a consolidated basis.

Notwithstanding the foregoing, prior to completion of the exchange offer or effectiveness of the shelf registration statement contemplated by the exchange and registration rights agreements, the requirements above will be deemed satisfied (1) by the filing with the Commission of the exchange offer registration statement or shelf registration statement and any amendments thereto, within the time periods set forth above, with such financial information that satisfies Regulation S-X of the Securities Act or (2) by posting reports that would be required to be filed substantially in the form required by the Commission on the Issuer's website (or the website of Parent or other direct or indirect parent of the Issuer) or providing such reports to the trustee, subject to exceptions consistent with the presentation of financial information in this prospectus.

In addition, the Issuer and the Guarantors agree that, for so long as any notes remain outstanding, if at any time they are not required to file with the Commission the reports required by the preceding paragraphs, they will furnish to the holders of notes and to securities analysts and prospective investors, upon their request, the information required to be delivered pursuant to Rule 144A(d)(4) under the Securities Act.

Notwithstanding anything herein to the contrary, the Issuer will not be deemed to have failed to comply with any of its agreements set forth under this covenant for purposes of clause (4) under "Events of Default and Remedies" until 90 days after the date any report required to be provided by this covenant is due.

### **Events of Default and Remedies**

Each of the following is an Event of Default:

- (1) default for 30 consecutive days in the payment when due of interest on, or Special Interest with respect to, the notes;
- (2) default in payment when due (whether at maturity, upon acceleration, redemption or otherwise) of the principal of, or premium, if any, on the notes;
- (3) failure by the Issuer or any of its Restricted Subsidiaries to comply with the provisions described under the captions "— Repurchase at the Option of Holders — Change of Control", "— Repurchase at the Option of Holders — Asset Sales", or "— Certain Covenants — Merger, Consolidation or Sale of Assets" or the provisions described in the third paragraph under the caption "— Certain Covenants — Guarantees" for 30 days after written notice by the trustee or holders representing 25% or more of the aggregate principal amount of notes outstanding;
- (4) failure by the Issuer or any of its Restricted Subsidiaries for 60 days after written notice by the trustee or holders representing 25% or more of the aggregate principal amount of notes outstanding to comply with any of the agreements in the indenture or the security documents for the benefit of the holders of the notes other than those referred to in clauses (1)-(3) above;
- (5) default under any mortgage, indenture or instrument under which there is issued or by which there is secured or evidenced any Indebtedness for money borrowed by the Issuer or any of the Issuer's Significant Subsidiaries (or any group of Restricted Subsidiaries of the Issuer that together would constitute a Significant Subsidiary of the Issuer), or the payment of which is guaranteed by the Issuer or any of the Issuer's Significant Subsidiaries (or any group of Restricted Subsidiaries of the Issuer that together would constitute a Significant Subsidiary of the Issuer), whether such Indebtedness or Guarantee now exists, or is created after December 21, 2009, if that default:
  - (a) is caused by a failure to make any payment when due at the final maturity of such Indebtedness (after giving effect to any applicable grace period) (a "Payment Default"); or
  - (b) results in the acceleration of such Indebtedness prior to its express maturity,

and, in each case, the principal amount of any such Indebtedness, together with the principal amount of any other such Indebtedness under which there has been a Payment Default or the maturity of which has been so accelerated, aggregates \$50.0 million or more;

(6) failure by the Issuer or any of the Issuer's Significant Subsidiaries (or any group of Restricted Subsidiaries of the Issuer that together would constitute a Significant Subsidiary of the Issuer) to pay non-appealable final judgments aggregating in excess of \$50.0 million (excluding amounts covered by insurance provided by a carrier that has acknowledged coverage and has the ability to perform), which judgments are not paid, discharged or stayed for a period of more than 60 days after such judgments have become final and non-appealable and, in the event such judgment is covered by insurance, an enforcement proceeding has been commenced by any creditor upon such judgment or decree which is not promptly stayed;

(7) the occurrence of any of the following:

(a) any security document for the benefit of holders of the notes is held in any judicial proceeding to be unenforceable or invalid or ceases for any reason to be in full force and effect in any material respect, other than in accordance with the terms of the relevant security documents; or

(b) except as permitted by the indenture, any Priority Lien for the benefit of holders of the notes purported to be granted under any security document for the benefit of holders of the notes on Collateral, individually or in the aggregate, having a fair market value in excess of \$50.0 million ceases to be an enforceable and perfected first-priority Lien in any material respect, subject only to Permitted Prior Liens, and such condition continues for 60 days after written notice by the trustee or the collateral trustee of failure to comply with such requirement; provided that it will not be an Event of Default under this clause 7(b) if such condition results from the action or inaction of the trustee or the collateral trustee; or

(c) the Issuer or any Significant Subsidiary that is a Subsidiary Guarantor (or any such Subsidiary Guarantors that together would constitute a Significant Subsidiary), or any Person acting on behalf of any of them, denies or disaffirms, in writing, any material obligation of the Issuer or such Significant Subsidiary that is a Guarantor (or such Subsidiary Guarantors that together constitute a Significant Subsidiary) set forth in or arising under any security document for the benefit of holders of the notes;

(8) except as permitted by the indenture, any Note Guarantee of a Subsidiary Guarantor that is a Significant Subsidiary of the Issuer (or any such Subsidiary Guarantors that together would constitute a Significant Subsidiary) shall be held in any judicial proceeding to be unenforceable or invalid or shall cease for any reason to be in full force and effect in any material respect or any Guarantor, or any Person acting on behalf of any Guarantor, shall deny or disaffirm in writing its obligations under its Note Guarantee if, and only if, in each such case, such Default continues for 21 days after notice of such Default shall have been given to the trustee; and

(9) certain events of bankruptcy or insolvency with respect to the Issuer or any Significant Subsidiary of the Issuer (or any Restricted Subsidiaries of the Issuer that together would constitute a Significant Subsidiary).

In the case of an Event of Default arising from certain events of bankruptcy or insolvency, with respect to the Issuer or any Significant Subsidiary of the Issuer (or any group of Restricted Subsidiaries of the Issuer that, taken together, would constitute a Significant Subsidiary), all outstanding notes will become due and payable immediately without further action or notice. If any other Event of Default occurs and is continuing, the trustee or the holders of at least 25% in aggregate principal amount of the then outstanding notes may declare all the notes to be due and payable immediately by notice in writing to the Issuer specifying the Event of Default(s).

Holders of the notes may not enforce the indenture or the notes except as provided in the indenture. Subject to certain limitations, holders of a majority in principal amount of the then outstanding notes may direct the trustee in its exercise of any trust or power. The trustee may withhold from holders of the notes notice of any Default or Event of Default (except a Default or Event of Default relating to the payment of principal or interest or premium, if any, or Special Interest, if any) if it determines that withholding notice is in their interest. In addition, the trustee shall have no obligation to accelerate the notes if in the best judgment of the trustee acceleration is not in the best interest of the holders of the notes.

In the event of any Event of Default specified in clause (5) above, such Event of Default and all consequences thereof (excluding any resulting payment default, other than as a result of acceleration of the notes) shall be

annulled, waived and rescinded, automatically and without any action by the trustee or the holders, if within 20 days after such Event of Default arose:

- (1) the Indebtedness or guarantee that is the basis for such Event of Default has been discharged;
- (2) the holders thereof have rescinded or waived the acceleration, notice or action (as the case may be) giving rise to such Event of Default; or
- (3) the default that is the basis for such Event of Default has been cured.

The holders of a majority in aggregate principal amount of the notes then outstanding by notice to the trustee may on behalf of the holders of all of the notes waive any existing Default or Event of Default and its consequences under the indenture or the security documents except a continuing Default or Event of Default in the payment of interest or Special Interest, if any, on, premium, if any, on, or the principal of, the notes and may rescind any acceleration with respect to the notes and its consequences (provided such rescission would not conflict with any judgment of a court of competent jurisdiction). No such rescission shall affect any subsequent default or impair any right consequent thereon. The holders of a majority in principal amount of the then outstanding notes will have the right to direct the time, method and place of conducting any proceeding for exercising any remedy available to the trustee. However, the trustee may refuse to follow any direction that conflicts with law or the indenture, that may involve the trustee in personal liability, or that the trustee determines in good faith may be unduly prejudicial to the rights of holders of notes not joining in the giving of such direction and may take any other action it deems proper that is not inconsistent with any such direction received from holders of notes. A holder may not pursue any remedy with respect to the indenture or the notes unless each of the following conditions is met:

- (1) the holder gives the trustee written notice of a continuing Event of Default;
- (2) the holders of at least 25% in aggregate principal amount of outstanding notes make a written request to the trustee to pursue the remedy;
- (3) such holder or holders offer the trustee indemnity, security or prefunding reasonably satisfactory to the trustee against any costs, loss, liability or expense;
- (4) the trustee does not comply with the request within 60 days after receipt of the request and the offer of indemnity; and
- (5) during such 60-day period, the holders of a majority in aggregate principal amount of the outstanding notes do not give the trustee a direction that is inconsistent with the request.

However, such limitations do not apply to the right of any holder of a note to receive payment of the principal of, premium, if any, or Special Interest, if any, or interest on, such note or to bring suit for the enforcement of any such payment, on or after the due date expressed in the notes, which right shall not be impaired or affected without the consent of the holder, except to the extent that the institution or prosecution thereof or the entry of judgment thereon would, under applicable law, result in the surrender, impairment, waiver or loss of any Lien of a security document upon any property subject to such Lien.

The Issuer is required to deliver to the trustee annually within 120 days after the end of each fiscal year a statement regarding compliance with the indenture. Within 30 days of becoming aware of any Default or Event of Default, the Issuer is required to deliver to the trustee a statement specifying such Default or Event of Default unless such Default or Event of Default has been cured before the end of the 30 day period.

In addition to acceleration of maturity of the notes, if an Event of Default occurs and is continuing, the trustee, the collateral trustee and/or the holders of the notes will have the right to exercise remedies with respect to the Collateral, such as foreclosure, as are available under the indenture, the security documents and at law.

#### **No Personal Liability of Directors, Officers, Employees, Incorporators and Stockholders**

No director, officer, employee, incorporator or stockholder of the Issuer or any Guarantor, as such, or of Parent or any other direct or indirect parent of the Issuer, shall have any liability for any obligations of the Issuer or the Guarantors under the notes, the indenture, the Note Guarantees or the note documents or for any claim based on, in

respect of, or by reason of, such obligations or their creation. Each holder of notes by accepting a note waives and releases all such liability. The waiver and release are part of the consideration for issuance of the notes. The waiver may not be effective to waive liabilities under the federal securities laws.

### **Legal Defeasance and Covenant Defeasance**

The Issuer may, at its option and at any time, elect to have all of its obligations discharged with respect to the outstanding notes and all obligations of the Guarantors discharged with respect to their Note Guarantees (“*Legal Defeasance*”) and cure all then existing Events of Default except for:

- (1) the rights of holders of outstanding notes to receive payments in respect of the principal of, or interest or premium and Special Interest, if any, on such notes when such payments are due from the trust referred to below;
- (2) the Issuer’s obligations with respect to the notes concerning issuing temporary notes, registration of notes, mutilated, destroyed, lost or stolen notes and the maintenance of an office or agency for payment and money for security payments held in trust;
- (3) the rights, powers, trusts, duties and immunities of the trustee, and the Issuer’s and the Guarantors’ obligations in connection therewith;
- (4) the Legal Defeasance provisions of the indenture; and
- (5) the optional redemption provisions of the indenture to the extent that Legal Defeasance is to be effected together with a redemption.

In addition, the Issuer may, at its option and at any time, elect to have the obligations of the Issuer and the Guarantors released with respect to certain covenants that are described in the indenture (“*Covenant Defeasance*”) and thereafter any omission to comply with those covenants shall not constitute a Default or Event of Default with respect to the notes. In the event Covenant Defeasance occurs, certain events (not including non-payment, bankruptcy, receivership, rehabilitation and insolvency events) described under “Events of Default and Remedies” will no longer constitute Events of Default with respect to the notes.

In order to exercise either Legal Defeasance or Covenant Defeasance:

- (1) the Issuer must irrevocably deposit with the trustee, in trust, for the benefit of the holders of the notes, cash in U.S. dollars, non-callable Government Securities, or a combination thereof, in such amounts as will be sufficient, in the opinion of a nationally recognized firm of independent public accountants, a nationally recognized investment bank or a nationally recognized appraisal or valuation firm, to pay the principal of, or interest and premium and Special Interest, if any, on the outstanding notes on the Stated Maturity or on the applicable redemption date, as the case may be, and the Issuer must specify whether the notes are being defeased to maturity or to a particular redemption date;
- (2) in the case of Legal Defeasance, the Issuer shall have delivered to the trustee an Opinion of Counsel reasonably acceptable to the trustee confirming that, subject to customary assumptions and exclusions, (a) the Issuer has received from, or there has been published by, the Internal Revenue Service a ruling or (b) since December 21, 2009, there has been a change in the applicable U.S. federal income tax law, in either case to the effect that, and based thereon such Opinion of Counsel shall confirm that, the holders of the outstanding notes will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such Legal Defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Legal Defeasance had not occurred;
- (3) in the case of Covenant Defeasance, the Issuer shall have delivered to the trustee an Opinion of Counsel reasonably acceptable to the trustee confirming that, subject to customary assumptions and exclusions, the holders of the outstanding notes will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such Covenant Defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Covenant Defeasance had not occurred;

(4) no Default or Event of Default shall have occurred and be continuing on the date of such deposit (other than a Default or Event of Default resulting from borrowing funds to be applied to make the deposit required to effect such Legal Defeasance or Covenant Defeasance and any similar and simultaneous deposit relating to other Indebtedness and, in each case, the granting of Liens in connection therewith);

(5) such Legal Defeasance or Covenant Defeasance will not result in a breach or violation of, or constitute a default under, any material agreement or instrument (other than the indenture) to which the Issuer or any of its Subsidiaries is a party or by which the Issuer or any of its Subsidiaries is bound (other than that resulting with respect to any Indebtedness being defeased from any borrowing of funds to be applied to make the deposit required to effect such Legal Defeasance or Covenant Defeasance and any similar and simultaneous deposit relating to such Indebtedness, and the granting of Liens in connection therewith);

(6) the Issuer must deliver to the trustee an Officers' Certificate stating that the deposit was not made by the Issuer with the intent of preferring the holders of notes over the other creditors of the Issuer with the intent of defeating, hindering, delaying or defrauding creditors of the Issuer or others;

(7) if the notes are to be redeemed prior to their Stated Maturity, the Issuer must deliver to the trustee irrevocable instructions to redeem all of the notes on the specified redemption date; and

(8) the Issuer must deliver to the trustee an Officers' Certificate and an Opinion of Counsel, each stating that all conditions precedent relating to the Legal Defeasance or the Covenant Defeasance have been complied with.

The Collateral will be released from the Lien securing the notes, as provided under the caption "— The Collateral Trust Agreement — Release of Liens in Respect of Notes", upon a Legal Defeasance or Covenant Defeasance in accordance with the provisions described above.

### **Amendment, Supplement and Waiver**

Except as provided in the next three succeeding paragraphs, the indenture, the notes, the Note Guarantees, or the security documents relating to the notes (subject to compliance with the intercreditor agreement and the collateral trust agreement) may be amended or supplemented with the consent of the holders of at least a majority in aggregate principal amount of the notes then outstanding (including, without limitation, consents obtained in connection with a purchase of, or tender offer or exchange offer for, notes), and any existing Default or Event of Default or compliance with any provision of the indenture, the notes, the Note Guarantees or the security documents relating to the notes may be waived with the consent of the holders of a majority in aggregate principal amount of the then outstanding notes (including, without limitation, consents obtained in connection with a purchase of, or tender offer or exchange offer for, notes).

Without the consent of each holder affected, an amendment or waiver may not (with respect to any notes held by a non-consenting holder):

(1) reduce the percentage of the aggregate principal amount of notes whose holders must consent to an amendment, supplement or waiver;

(2) reduce the principal of, or change the Stated Maturity of, any note or alter the provisions, or waive any payment, with respect to the redemption of such notes (other than provisions relating to the covenants described under "— Repurchase at the Option of Holders" (except to the extent provided in clause (9) below));

(3) reduce the rate of, or change the time for, payment of interest on any note;

(4) waive a Default or Event of Default in the payment of principal of, or interest or premium, if any, or Special Interest, if any, on the notes (except a rescission of acceleration of the notes by the holders of at least a majority in aggregate principal amount of the notes and a waiver of the payment default that resulted from such acceleration); (5) make any note payable in money other than U.S. dollars;

(6) make any change in the provisions of the indenture relating to waivers of past Defaults or the rights of holders of notes to receive payments of principal of, or interest or premium, if any, or Special Interest, if any, on the notes;

(7) release any Guarantor from any of its obligations under its Note Guarantee or the indenture, except in accordance with the terms of the indenture or the Note Guarantees;

(8) impair the right of any holder to institute suit for the enforcement of any payment on or with respect to such holder's notes or the Note Guarantees;

(9) amend, change or modify the obligation of the Issuer to make and consummate an Asset Sale Offer with respect to any Asset Sale in accordance with the covenant described under the caption "— Repurchase at the Option of Holders — Asset Sales" after the obligation to make such Asset Sale Offer has arisen, or the obligation of the Issuer to make and consummate a Change of Control Offer in the event of a Change of Control in accordance with the covenant described under the caption "— Repurchase at the Option of Holders — Change of Control" after such Change of Control has occurred, including, in each case, amending, changing or modifying any definition relating thereto; or

(10) make any change in the amendment and waiver provisions, except to increase any such percentage required for such actions or to provide that certain other provisions of the indenture cannot be modified or waived without the consent of the holder of each outstanding note affected thereby.

In addition, any amendment to, or waiver of, the provisions of the indenture or any security document that has the effect of releasing all or substantially all of the Collateral from the Liens securing the notes will require the consent of the holders of at least 6 2/3% in aggregate principal amount of the notes then outstanding (but only to the extent any such consent is required under the Collateral Trust Agreement).

Notwithstanding the preceding, without notice to or the consent of any holder of notes, the Issuer, the Guarantors and the trustee may amend or supplement the indenture, the notes, the Note Guarantees or the security documents relating to the notes to:

(1) cure any ambiguity, omission, mistake, defect or inconsistency;

(2) provide for uncertificated notes in addition to or in place of certificated notes;

(3) provide for the assumption of the Issuer's or any Guarantor's obligations to holders of notes in the case of a merger or consolidation or sale of all or substantially all of such issuer's or Guarantor's assets;

(4) make any change that would provide any additional rights or benefits to the holders of notes or that does not adversely affect the legal rights of such holder under the indenture in any material respect;

(5) comply with requirements of the Commission in order to effect or maintain the qualification of the indenture under the Trust Indenture Act;

(6) comply with the provisions described under "— Certain Covenants — Guarantees";

(7) conform the text of the indenture, the notes, the Note Guarantees or any security document to any provision of this Description of Exchange Notes to the extent that such provision in this

Description of Exchange Notes was intended to be a verbatim recitation of the indenture, the notes, the Note Guarantees or any security document;

(8) evidence and provide for the acceptance of appointment by a successor trustee, provided that the successor trustee is otherwise qualified and eligible to act as such under the terms of the indenture, or evidence and provide for a successor or replacement collateral trustee under the security documents;

(9) provide for the issuance of additional notes (and the grant of security for the benefit of the additional notes) in accordance with the terms of the indenture and the collateral trust agreement;

(10) make, complete or confirm any grant of Collateral permitted or required by the indenture or any of the security documents or any release, termination or discharge of Collateral that becomes effective as set forth in the indenture or any of the security documents;

(11) grant any Lien for the benefit of the holders of any future Subordinated Lien Debt or any present or future Priority Lien Debt in accordance with the terms of the indenture and the collateral trust agreement;

(12) add additional secured parties to the extent Liens securing obligations held by such parties are permitted under the indenture;

(13) mortgage, pledge, hypothecate or grant a security interest in favor of the collateral agent for the benefit of the trustee and the holders of the notes as additional security for the payment and performance of the Issuer's and any Guarantor's obligations under the indenture, in any property, or assets, including any of which are required to be mortgaged, pledged or hypothecated, or in which a security interest is required to be granted to the trustee or the collateral trustee in accordance with the terms of the indenture or otherwise;

(14) provide for the succession of any parties to the security documents (and other amendments that are administrative or ministerial in nature) in connection with an amendment, renewal, extension, substitution, refinancing, restructuring, replacement, supplementing or other modification from time to time of any agreement in accordance with the terms of the indenture and the relevant security document;

(15) provide for a reduction in the minimum denominations of the notes;

(16) add a Guarantor or other guarantor under the indenture or release a Guarantor in accordance with the terms of the indenture;

(17) add covenants for the benefit of the holders or surrender any right or power conferred upon the Issuer or any Guarantor;

(18) make any amendment to the provisions of the indenture relating to the transfer and legending of notes as permitted by the indenture, including, without limitation, to facilitate the issuance and administration of the notes, *provided* that compliance with the indenture as so amended may not result in notes being transferred in violation of the Securities Act or any applicable securities laws;

(19) provide for the assumption by one or more successors of the obligations of any of the Guarantors under the indenture and the Note Guarantees;

(20) provide for the issuance of exchange notes in accordance with the terms of the indenture; or

(21) comply with the rules of any applicable securities depository.

The consent of the holders of the notes is not necessary under the indenture to approve the particular form of any proposed amendment. It is sufficient if the consent approves the substance of the proposed amendment.

#### **Satisfaction and Discharge**

The indenture will be discharged and will cease to be of further effect as to all notes issued thereunder, when:

(1) either:

(a) all notes that have been authenticated (except lost, stolen or destroyed notes that have been replaced or paid and notes for whose payment money has theretofore been deposited in trust or segregated and held in trust by the Issuer and thereafter repaid to the Issuer or discharged from such trust) have been delivered to the trustee for cancellation; or

(b) all notes that have not been delivered to the trustee for cancellation have become due and payable by reason of the making of a notice of redemption or otherwise, will become due and payable within one year or are to be called for redemption within one year under arrangements satisfactory to the trustee for the giving of notice of redemption by the trustee in the name, and at the expense, of the Issuer, and the Issuer or any Guarantor has irrevocably deposited or caused to be deposited with the trustee as trust funds in trust solely for the benefit of the holders, cash in U.S. dollars, non-callable Government Securities, or a combination thereof, in such amounts as will be sufficient without consideration of any reinvestment of interest, to pay and discharge the entire indebtedness on the notes not delivered to the trustee for cancellation for principal, premium, if any, and Special Interest, if any, and accrued interest to the date of maturity or redemption;

(2) no Default or Event of Default shall have occurred and be continuing (other than that resulting from borrowing funds to be applied to make such deposit and any similar and simultaneous deposit relating to other Indebtedness and, in each case, the granting of Liens in connection therewith) with respect to the indenture and the notes issued thereunder on the date of such deposit or shall occur as a result of such deposit and such deposit will not result in a breach or violation of, or constitute a default under, any other material instrument to which the Issuer or any Guarantor is a party or by which the Issuer or any Guarantor is bound (other than any such default resulting from any borrowing of funds to be applied to make the deposit and any similar simultaneous deposit relating to other Indebtedness, and the granting of Liens in connection therewith);

(3) the Issuer or any Guarantor has paid or caused to be paid all sums payable by it under the indenture and not provided for by the deposit required by clause 1(b) above; and

(4) the Issuer has delivered irrevocable instructions to the trustee under the indenture to apply the deposited money toward the payment of the notes at maturity or the redemption date, as the case may be.

In addition, the Issuer must deliver an Officers' Certificate and an Opinion of Counsel to the trustee stating that all conditions precedent to satisfaction and discharge have been satisfied.

The Collateral will be released from the Lien securing the notes, as provided under the caption "— The Collateral Trust Agreement — Release of Liens in Respect of Notes", upon a satisfaction and discharge in accordance with the provisions described above.

### **Concerning the Trustee**

U.S. Bank National Association is the trustee under the indenture and has been appointed by the Issuer as paying agent and registrar with respect to the notes.

If the trustee becomes a creditor of the Issuer or any Guarantor, the indenture limits its right, to obtain payment of claims in certain cases, or to realize on certain property received in respect of any such claim as security or otherwise. The trustee is permitted to engage in other transactions; however, if it acquires any conflicting interest it must eliminate such conflict within 90 days, apply to the Commission for permission to continue or resign.

The indenture provides that in case an Event of Default shall occur and be continuing, the trustee will be required, in the exercise of its power, to use the degree of care of a prudent person in the conduct of such person's own affairs. Subject to such provisions, the trustee is under no obligation to exercise any of its rights or powers under the indenture at the request of any holder of notes, unless such holder shall have offered to the trustee security, indemnity or prefunding satisfactory to it against any loss, liability or expense.

### **Book-Entry, Delivery and Form**

Except as set forth below, the notes will be issued in registered, global form in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. The notes may be issuable from time to time in denominations of less than \$2,000 solely to the extent necessary to accommodate book-entry positions that have been created in denominations of less than \$2,000 by DTC.

Except as set forth below, global notes may be transferred, in whole and not in part, only to another nominee of DTC or to a successor of DTC or its nominee. Beneficial interests in global notes may not be exchanged for definitive notes in registered certificated form ("*Certificated Notes*") *except in the limited circumstances described below. See "— Exchange of Global Notes for Certificated Notes". Except in the limited circumstances described below, owners of beneficial interests in global notes will not be entitled to receive physical delivery of notes in certificated form.*

Transfers of beneficial interests in global notes will be subject to the applicable rules and procedures of DTC and its direct or indirect participants (including, if applicable, those of Euroclear and Clearstream), which may change from time to time.

## Depository Procedures

The following description of the operations and procedures of DTC, Euroclear and Clearstream are provided solely as a matter of convenience. These operations and procedures are solely within the control of the respective settlement systems and are subject to changes by them. The Issuer and the Guarantors take no responsibility for these operations and procedures and urge investors to contact the system or their participants directly to discuss these matters.

DTC has advised the Issuer that DTC is a limited-purpose trust company created to hold securities for its participating organizations (collectively, the “*Participants*”) and to facilitate the clearance and settlement of transactions in those securities between the Participants through electronic book-entry changes in accounts of its Participants. The Participants include securities brokers and dealers (including the initial purchasers), banks, trust companies, clearing corporations and certain other organizations. Access to DTC’s system is also available to other entities such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Participant, either directly or indirectly (collectively, the “*Indirect Participants*”). Persons who are not Participants may beneficially own securities held by or on behalf of DTC only through the Participants or the Indirect Participants. The ownership interests in, and transfers of ownership interests in, each security held by or on behalf of DTC are recorded on the records of the Participants and Indirect Participants.

DTC has also advised the Issuer that, pursuant to procedures established by it:

- (1) upon deposit of the global notes, DTC will credit the accounts of the Participants designated by the initial purchasers with portions of the principal amount of the global notes; and
- (2) ownership of these interests in the global notes will be shown on, and the transfer of ownership of these interests will be effected only through, records maintained by DTC (with respect to the Participants) or by the Participants and the Indirect Participants (with respect to other owners of beneficial interest in the global notes).

All interests in a global note, including those held through Euroclear or Clearstream, may be subject to the procedures and requirements of DTC. Those interests held through Euroclear or Clearstream may also be subject to the procedures and requirements of such systems. The laws of some states require that certain Persons take physical delivery in definitive form of securities that they own. Consequently, the ability to transfer beneficial interests in a global note to such Persons will be limited to that extent. Because DTC can act only on behalf of the Participants, which in turn act on behalf of the Indirect Participants, the ability of a Person having beneficial interests in a global note to pledge such interests to Persons that do not participate in the DTC system, or otherwise take actions in respect of such interests, may be affected by the lack of a physical certificate evidencing such interests.

**Except as described below, owners of interests in the global notes will not have notes registered in their names, will not receive physical delivery of notes in certificated form and will not be considered the registered owners or “holders” thereof under the indenture for any purpose.**

Payments in respect of the principal of, and interest (including Special Interest, if any) and premium, if any, on, a global note registered in the name of DTC or its nominee will be payable to DTC in its capacity as the registered holder under the indenture. Under the terms of the indenture, the Issuer and the trustee will treat the Persons in whose names the notes, including the global notes, are registered as the owners of the notes for the purpose of receiving payments and for all other purposes. Consequently, neither the Issuer, the trustee nor any agent of the Issuer or the trustee has or will have any responsibility or liability for:

- (1) any aspect of DTC’s records or any Participant’s or Indirect Participant’s records relating to or payments made on account of beneficial ownership interest in the global notes or for maintaining, supervising or reviewing any of DTC’s records or any Participant’s or Indirect Participant’s records relating to the beneficial ownership interests in the global notes; or
- (2) any other matter relating to the actions and practices of DTC or any of its Participants or Indirect Participants.

DTC has advised the Issuer that its current practice, upon receipt of any payment in respect of securities such as the notes (including principal and interest), is to credit the accounts of the relevant Participants with the payment on the payment date unless DTC has reason to believe that it will not receive payment on such payment date. Each relevant Participant is credited with an amount proportionate to its beneficial ownership of an interest in the principal amount of the relevant security as shown on the records of DTC. Payments by the Participants and the Indirect Participants to the beneficial owners of notes will be governed by standing instructions and customary practices and will be the responsibility of the Participants or the Indirect Participants and will not be the responsibility of DTC, the trustee or the Issuer. Neither the Issuer nor the trustee will be liable for any delay by DTC or any of the Participants or the Indirect Participants in identifying the beneficial owners of the notes, and the Issuer and the trustee may conclusively rely on and will be protected in relying on instructions from DTC or its nominee for all purposes.

Transfers between the Participants will be effected in accordance with DTC's procedures, and will be settled in same-day funds, and transfers between participants in Euroclear and Clearstream will be effected in accordance with their respective rules and operating procedures.

Cross-market transfers between the Participants, on the one hand, and Euroclear or Clearstream participants, on the other hand, will be effected through DTC in accordance with DTC's rules on behalf of Euroclear or Clearstream, as the case may be, by their respective depositories; however, such cross-market transactions will require delivery of instructions to Euroclear or Clearstream, as the case may be, by the counterparty in such system in accordance with the rules and procedures and within the established deadlines (Brussels time) of such system. Euroclear or Clearstream, as the case may be, will, if the transaction meets its settlement requirements, deliver instructions to its respective depository to take action to effect final settlement on its behalf by delivering or receiving interests in the relevant global note in DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Euroclear participants and Clearstream participants may not deliver instructions directly to the depositories for Euroclear or Clearstream.

DTC has advised the Issuer that it will take any action permitted to be taken by a holder of notes only at the direction of one or more Participants to whose account DTC has credited the interests in the global notes and only in respect of such portion of the aggregate principal amount of the notes as to which such Participant or Participants has or have given such direction. However, if there is an Event of Default under the notes, DTC reserves the right to exchange the global notes for legended notes in certificated form, and to distribute such notes to its Participants.

Although DTC, Euroclear and Clearstream have agreed to the foregoing procedures to facilitate transfers of interests in the global notes among participants in DTC, Euroclear and Clearstream, they are under no obligation to perform or to continue to perform such procedures, and may discontinue such procedures at any time. None of the Issuer, the trustee and any of their respective agents will have any responsibility for the performance by DTC, Euroclear or Clearstream or their respective participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

#### **Exchange of Global Notes for Certificated Notes**

A global note is exchangeable for Certificated Notes if:

- (1) DTC (a) notifies the Issuer that it is unwilling or unable to continue as depository for the global notes and the Issuer fails to appoint a successor depository within ninety (90) days of delivery of such notice or (b) has ceased to be a clearing agency registered under the Exchange Act and the Issuer fails to appoint a successor depository within ninety (90) days of delivery of such notice;
- (2) the Issuer, at its option, notifies the trustee in writing that it elects to cause the issuance of the Certificated Notes; or
- (3) there has occurred and is continuing a Default or Event of Default with respect to the notes and a Holder requests that its global note be exchanged for a Certificated Note.

In addition, beneficial interests in a global note may be exchanged for Certificated Notes upon prior written notice given to the trustee by or on behalf of DTC in accordance with the indenture. In all cases, Certificated Notes

delivered in exchange for any global note or beneficial interests in global notes will be registered in the names, and issued in any approved denominations, requested by or on behalf of the depository (in accordance with its customary procedures) and will bear the applicable restrictive legend referred to in “Notice to Investors” in the offering memorandum dated December 16, 2009 or February 8, 2010, respectively, unless that legend is not required by applicable law.

#### **Exchange of Certificated Notes for Global Notes**

Certificated Notes may not be exchanged for beneficial interests in any global note unless the transferor first delivers to the trustee a written certificate (in the form provided in the indenture) to the effect that such transfer will comply with the appropriate transfer restrictions applicable to such notes.

#### **Same-Day Settlement and Payment**

The Issuer will make payments in respect of the notes represented by the global notes, including principal, premium, if any, and interest (including Special Interest, if any), by wire transfer of immediately available funds to the accounts specified by the holder of the global note. The Issuer will make all payments of principal, interest (including Special Interest, if any) and premium, if any, with respect to Certificated Notes by wire transfer of immediately available funds to the accounts specified by the holders of the Certificated Notes or, if no such account is specified, by mailing a check to each such holder’s registered address. The notes represented by the global notes are expected to be eligible to trade in DTC’s Same-Day Funds Settlement System, and any permitted secondary market trading activity in such notes will, therefore, be required by DTC to be settled in immediately available funds. The Issuer expects that secondary trading in any Certificated Notes will also be settled in immediately available funds.

Because of time zone differences, the securities account of a Euroclear or Clearstream participant purchasing an interest in a global note from a Participant will be credited, and any such crediting will be reported to the relevant Euroclear or Clearstream participant, during the securities settlement processing day (which must be a business day for Euroclear and Clearstream) immediately following the settlement date of DTC. DTC has advised the Issuer that cash received in Euroclear or Clearstream as a result of sales of interests in a global note by or through a Euroclear or Clearstream participant to a Participant will be received with value on the settlement date of DTC but will be available in the relevant Euroclear or Clearstream cash account only as of the business day for Euroclear or Clearstream following DTC’s settlement date.

#### **Certain Definitions**

Set forth below are certain defined terms used in the indenture. Reference is made to the indenture for a full disclosure of all such terms, as well as any other capitalized terms used herein for which no definition is provided.

## **CERTAIN MATERIAL UNITED STATES FEDERAL TAX CONSIDERATIONS**

The following summary describes certain material United States federal income tax consequences and, in the case of a Non-U.S. Holder (as defined below), certain material United States federal estate tax consequences, of exchanging outstanding notes for exchange notes, and purchasing, owning and disposing of exchange notes. This summary applies to you only if you are a beneficial owner of an outstanding note or an exchange note and you hold your note as a capital asset within the meaning of the Internal Revenue Code of 1986, as amended (the “Internal Revenue Code”) (generally, investment property).

This summary does not discuss considerations or consequences relevant to persons subject to special provisions of United States federal tax law, such as:

- dealers in securities or currencies;
- traders in securities;
- U.S. Holders (as defined below) whose functional currency is not the United States dollar;
- persons holding outstanding notes or exchange notes as part of a conversion, constructive sale, wash sale or other integrated transaction or a hedge, straddle or synthetic security;
- persons subject to the alternative minimum tax;
- certain United States expatriates;
- financial institutions;
- insurance companies;
- controlled foreign corporations and passive foreign investment companies, and shareholders of such corporations;
- regulated investment companies;
- real estate investment trusts;
- entities that are tax-exempt for United States federal income tax purposes and retirement plans, individual retirement accounts and tax-deferred accounts; and
- pass-through entities, including partnerships and entities and arrangements classified as partnerships for United States federal tax purposes, and beneficial owners of pass-through entities.

If a partnership or an entity or arrangement classified as a partnership for United States federal tax purposes holds outstanding notes or exchange notes, the United States federal income tax treatment of a partner in the partnership generally will depend on the status of the partner and the activities of the partnership. If you are a partnership (or an entity or arrangement classified as a partnership for United States federal tax purposes) or a partner in a partnership, you should consult your own tax advisor regarding the United States federal income and estate tax consequences of exchanging outstanding notes for exchange notes, and purchasing, owning and disposing of exchange notes.

This summary does not discuss all of the aspects of United States federal income and estate taxation that may be relevant to you in light of your particular investment or other circumstances. In addition, this summary does not discuss any United States state or local or non-U.S. income or other tax consequences, nor does it discuss the recently enacted Medicare tax on certain investment income. This summary is based on United States federal income and estate tax law, including the provisions of the Internal Revenue Code, Treasury regulations, administrative rulings and judicial authority, all as in effect or in existence as of the date of this prospectus. Subsequent developments in United States federal income and estate tax law, including changes in law or differing interpretations, which may be applied retroactively, could have a material effect on the United States federal income and estate tax consequences of exchanging outstanding notes for exchange notes, and purchasing, owning and disposing of exchange notes. Before you exchange your outstanding notes for exchange notes or purchase exchange notes, you should consult your own tax advisor regarding the particular United States federal, state and local and

non-U.S. income and other tax consequences of exchanging outstanding notes for exchange notes, and purchasing, owning and disposing of exchange notes.

### **Exchange Offer**

The exchange of outstanding notes for exchange notes in the exchange offer will not be a taxable event for United States federal income tax purposes. Your tax basis in your exchange notes immediately after the exchange will be the same as your tax basis in your outstanding notes immediately before the exchange, and your holding period for your exchange notes will include your holding period for your outstanding notes.

### **Qualified Reopening**

We issued \$1,000,000,000 and \$50,000,000 aggregate principal amount of our 9.50% senior secured notes due December 15, 2016 on December 21, 2009 and February 11, 2010, respectively. We have taken the position that the issuance of outstanding notes on February 11, 2010 (the “outstanding February notes”) constituted a “qualified reopening” of our 9.50% senior secured notes due December 15, 2016 for United States federal income tax purposes. Accordingly, we have treated all of the outstanding February notes as having the same issue price as the outstanding notes issued on December 21, 2009 (the “outstanding December notes”) and therefore as having been issued with the same amount of original issue discount (“OID”) as the outstanding December notes for United States federal income tax purposes. However, the application of the qualified reopening rules is not entirely clear, and it is possible that the outstanding February notes could be treated as a separate issue from the outstanding December notes, with an issue price determined by the first price at which a substantial amount of the outstanding February notes was sold (other than to bond houses, brokers, or similar persons or organizations acting in the capacity of underwriters, placement agents, or wholesalers). In that event, the outstanding February notes would have been issued with OID in an amount different from the amount of OID on the outstanding December notes, the outstanding February notes would not have been fungible with the outstanding December notes for United States federal income tax purposes and the exchange notes received in exchange for the outstanding February notes would not be fungible with the exchange notes received in exchange for the outstanding December notes for United States federal income tax purposes. The remainder of this summary assumes that the issuance of the outstanding February notes constituted a qualified reopening of our 9.50% senior secured notes due December 15, 2016 for United States federal income tax purposes.

### **Pre-Issuance Accrued Interest**

A portion of the offering price of the outstanding February notes included interest accrued from December 21, 2009 (the “pre-issuance accrued interest”). We have taken the position that a portion of the first interest payment on the outstanding February notes equal to the pre-issuance accrued interest was a return of the pre-issuance accrued interest rather than an amount payable on the outstanding February notes. Assuming this treatment is respected, the portion of the first interest payment on your outstanding February notes equal to the pre-issuance accrued interest would not have been treated as taxable interest income and your adjusted tax basis in the outstanding February notes would have been reduced by a corresponding amount. Holders of outstanding February notes should consult their own tax advisors about the tax treatment of the pre-issuance accrued interest on the outstanding February notes.

### **U.S. Holders**

The following summary applies to you only if you are a “U.S. Holder”. As used in this summary, the term U.S. Holder means a beneficial owner of an outstanding note or an exchange note that is for United States federal income tax purposes:

- an individual citizen or resident of the United States;
- a corporation (or other entity classified as a corporation) created or organized in or under the laws of the United States, any State thereof or the District of Columbia;
- an estate, the income of which is subject to United States federal income taxation regardless of the source of such income; or

- a trust, if (1) a United States court is able to exercise primary supervision over the trust's administration and one or more "United States persons" (within the meaning of the Internal Revenue Code) has the authority to control all of the trust's substantial decisions, or (2) the trust has a valid election in effect under applicable Treasury regulations to be treated as a "United States person".

### ***Stated Interest and Original Issue Discount***

Stated interest on your exchange notes will be taxable to you as ordinary interest income at the time it is paid or accrued in accordance with your usual method of accounting for United States federal income tax purposes.

The outstanding notes were issued with OID for United States federal income tax purposes. Generally, a debt instrument is issued with OID if the excess of the stated redemption price at maturity of the debt instrument (which, in the case of the outstanding notes, equals the stated principal amount) over its issue price is equal to or greater than a de minimis amount (generally  $\frac{1}{4}$  of 1 percent of the debt instrument's stated redemption price at maturity multiplied by the number of complete years from its issue date to its maturity date). The exchange notes will be treated as issued with the same amount of OID as the outstanding notes exchanged therefor and will have the same issue date, issue price and adjusted issue price as the outstanding notes exchanged therefor.

You will be required to include OID in gross income, as ordinary income, as the OID accrues on a constant yield basis, in advance of the receipt of the cash payment attributable to the OID, regardless of your usual method of accounting for United States federal income tax purposes. The amount of OID that you must include in gross income for each taxable year is the sum of the daily portions of OID that accrue on your exchange notes (including the sum of the daily portions of OID that accrue on the outstanding notes exchanged therefor) for each day of the taxable year during which you hold the exchange notes (and the outstanding notes exchanged therefor). The daily portion of OID is determined by allocating to each day of an accrual period (generally, the period between interest payment dates or compounding dates), other than an initial short accrual period or the final accrual period, a pro rata portion of the OID allocable to such accrual period. The amount of OID allocable to an accrual period is the product of the "adjusted issue price" of the exchange notes (or the adjusted issue price of the outstanding notes exchanged therefor) at the beginning of the accrual period multiplied by the yield to maturity of the exchange notes (determined on the basis of compounding at the close of each accrual period and appropriately adjusted to reflect the length of the accrual period), reduced by the amount of any stated interest allocable to such accrual period. The "adjusted issue price" of the exchange notes (or, the outstanding notes exchanged therefor) at the beginning of an accrual period generally will equal their issue price, increased by the aggregate amount of OID that has accrued on the exchange notes (including the aggregate amount of OID that has accrued on the outstanding notes exchanged therefor) in all prior accrual periods and decreased by the amount of any payments other than of stated interest. The "yield to maturity" is the discount rate that, when applied to all principal and interest payments under the exchange notes, produces a present value equal to the issue price. As explained above, we have treated all of the outstanding notes (that is, both the outstanding December notes and the outstanding February notes) as having the same amount of OID for United States federal income tax purposes, and we intend to treat all of the exchange notes as having the same amount of OID for United States federal income tax purposes. The amount of OID included in your gross income will increase your adjusted tax basis in the exchange notes. Under these rules, you will have to include increasingly greater amounts of OID in successive accrual periods. You should consult your own tax advisor concerning the consequences of, and accrual of, OID on the exchange notes.

### ***Market Discount***

If you purchase an exchange note (or if you purchased an outstanding note for which the exchange note was exchanged, as the case may be) for an amount (in the case of an outstanding February note, excluding any amount attributable to the pre-issuance accrued interest described above) that is less than its adjusted issue price as of the date of the purchase, the excess of the adjusted issue price over your purchase price will be treated as market discount. However, the market discount will be considered to be zero if it is less than  $\frac{1}{4}$  of 1 percent of the principal amount of the exchange note multiplied by the number of complete years to maturity from the date you purchase the exchange note (or the date you purchased the outstanding note for which the exchange note was exchanged, as the case may be).

Under the market discount rules of the Internal Revenue Code, if you purchase an exchange note (or if you purchased an outstanding note for which the exchange note was exchanged, as the case may be) with market discount, you will generally be required to include any gain realized on the sale, exchange, retirement, redemption or other disposition of the exchange note as ordinary income (generally treated as interest income) to the extent of the market discount which accrued but was not previously included in your gross income. In addition, you may be required to defer, until the maturity of the exchange note or its earlier disposition in a taxable transaction, the deduction of all or a portion of the interest expense on any indebtedness incurred or continued to purchase or carry the exchange note (or an outstanding note for which the exchange note was exchanged, as the case may be). In general, market discount will be considered to accrue ratably during the period from the date of the purchase of the exchange note (or the date you purchased the outstanding note for which the exchange note was exchanged, as the case may be) to the maturity date of the exchange note, unless you make an irrevocable election (on an instrument-by-instrument basis) to accrue market discount under a constant yield method. However, you may elect to include market discount in income currently as it accrues (under either a ratable or constant yield method), in which case the rules described above regarding the treatment as ordinary income of gain upon the disposition of the exchange note and the deferral of interest deductions will not apply. Your election to include market discount in income currently, once made, applies to all market discount obligations acquired by you on or after the first day of the first taxable year to which the election applies, and may not be revoked without the consent of the Internal Revenue Service.

### ***Acquisition Premium***

If you purchase an exchange note (or if you purchased an outstanding note for which the exchange note was exchanged, as the case may be) for an amount (in the case of an outstanding February note, excluding any amount attributable to the pre-issuance accrued interest described above) that exceeds the exchange note's adjusted issue price as of the date of the purchase and is less than or equal to the exchange note's stated redemption price at maturity, you will be considered to have purchased the exchange note with acquisition premium. Under the acquisition premium rules, you are permitted to reduce your OID accruals on such exchange note by a fraction, the numerator of which is the excess of your adjusted tax basis in the exchange note immediately after its purchase over the exchange note's adjusted issue price at the time of purchase (or in the case of an exchange note received in exchange for an outstanding note pursuant to the exchange, the excess of your adjusted tax basis in the outstanding note immediately after purchase over the outstanding note's adjusted issue price at the time of purchase) and the denominator of which is the total amount of unaccrued OID remaining on the exchange note.

### ***Bond Premium***

If you purchase an exchange note (or if you purchased an outstanding note for which the exchange note was exchanged, as the case may be) for an amount (in the case of an outstanding February note, excluding any amount attributable to the pre-issuance accrued interest described above) in excess of the amount payable at maturity of the exchange note, you will be considered to have purchased the exchange note with bond premium equal to the excess of your purchase price over the amount payable at maturity (or on an earlier call date if it results in a smaller amortization premium), and you will not be required to include any OID in income. It may be possible for you to elect to amortize the premium using a constant yield method over the remaining term of the exchange note (or until an earlier call date, as applicable). The amortized amount of the premium for a taxable year generally will be treated first as a reduction of interest on the exchange note (or on the outstanding note for which the exchange note was exchanged, as the case may be) includible in gross income in such taxable year to the extent thereof, then as a deduction allowed in that taxable year to the extent of your prior interest inclusions on the exchange note (or on the outstanding note for which the exchange note was exchanged, as the case may be), and finally as a carryforward allowable against your future interest inclusions on the exchange note. If you make such an election, your tax basis in the exchange note will be reduced by the amount of the allowable amortization. If you do not elect to amortize bond premium, the premium will decrease the gain or increase the loss you would otherwise recognize on a disposition of your exchange note. Your election to amortize premium on a constant yield method will apply to all debt obligations held or subsequently acquired by you on or after the first day of the first taxable year to which the election applies. You may not revoke the election without the consent of the Internal Revenue Service. You should consult your own tax advisor before making this election.

### **Constant Yield Method Election**

As an alternative to the above-described rules for including interest payments, OID and any market discount in income and amortizing any bond premium, you may elect to include in gross income all interest that accrues on your exchange notes, including stated interest, OID, any market discount (including any de minimis market discount), and any adjustments for bond premium, on the constant yield method. If you make such an election with respect to an exchange note with amortizable bond premium, you are deemed to have made the election to amortize bond premium currently with respect to all other debt instruments held or subsequently acquired by you. If you make such an election with respect to an exchange note with market discount, you are deemed to have made the election to include market discount currently in income on all debt instruments held or subsequently acquired by you. Particularly if you are on the cash method of accounting, a constant yield election may have the effect of causing you to include interest in income earlier than would be the case if no such election were made, and the election may not be revoked without the consent of the Internal Revenue Service. You should consult your own tax advisor before making this election.

### **Sale or Other Taxable Disposition of Exchange Notes**

Upon the sale, redemption, exchange or other taxable disposition of exchange notes, you generally will recognize taxable gain or loss equal to the difference, if any, between:

- the amount realized on the disposition (less any amount attributable to accrued interest, which will be taxable as ordinary interest income to the extent not previously included in gross income, in the manner described under “Certain Material United States Federal Tax Considerations—U.S. Holders—Stated Interest and Original Issue Discount”); and
- your adjusted tax basis in the exchange notes.

In the absence of a constant yield election, your adjusted tax basis in an exchange note generally will be its cost (or in the case of an exchange note received in exchange for an outstanding note in the exchange offer, the cost of the outstanding note which should, in the case of an outstanding February note, exclude for this purpose the amount of any pre-issuance accrued interest paid by you upon acquisition of the note) increased by the amount of OID and any market discount on the exchange note (and in the case of an exchange note received in exchange for an outstanding note in the exchange offer, the outstanding note) previously included in your income and decreased by the amount of any previously amortized bond premium and the amount of any payment, other than a payment of stated interest, on the exchange note (and in the case of an exchange note received in exchange for an outstanding note in the exchange offer, the outstanding note). Your gain or loss generally will be capital gain or loss. This capital gain or loss will be long-term capital gain or loss if at the time of the disposition you have held the exchange note for more than one year (taking into account for this purpose, in the case of an exchange note received in exchange for an outstanding note in the exchange offer, the period of time you held such outstanding note). The deductibility of capital losses is subject to limitations. If you are a non-corporate U.S. Holder, your long-term capital gain generally will be subject to tax at preferential rates.

### **Backup Withholding**

In general, “backup withholding” (currently at a rate of 28 percent) may apply:

- to any payments made to you of principal of and interest on your exchange note, and
- to payment of the proceeds of a sale or other disposition of your exchange note,

if you are a non-corporate U.S. Holder and you fail to provide a correct taxpayer identification number or otherwise fail to comply with applicable requirements of the backup withholding rules or otherwise establish an exemption.

The backup withholding tax is not an additional tax and may be credited against your United States federal income tax liability, provided that correct information is timely provided to the Internal Revenue Service.

## **Non-U.S. Holders**

The following summary applies to you if you are a beneficial owner of an outstanding note or an exchange note and you are neither a U.S. Holder (as defined above) nor a partnership (or an entity or arrangement classified as a partnership for United States federal tax purposes) (a “Non-U.S. Holder”).

### **United States Federal Withholding Tax**

Under current United States federal income tax laws, and subject to the discussion below, United States federal withholding tax will not apply to payments by us or our paying agent (in its capacity as such) of principal of and interest on your exchange notes under the “portfolio interest” exception of the Internal Revenue Code, provided that in the case of interest:

- you are not a controlled foreign corporation for United States federal income tax purposes that is related, directly or indirectly, to us through sufficient stock ownership (as provided in the Internal Revenue Code);

- such interest is not effectively connected with your conduct of a United States trade or business; and
- you provide a signed written statement, on an Internal Revenue Service Form W-8BEN (or other applicable form) which can reliably be related to you, certifying under penalties of perjury that you are not a United States person within the meaning of the Internal Revenue Code and providing your name and address to:

(A) us or our paying agent; or

(B) a securities clearing organization, bank or other financial institution that holds customers’ securities in the ordinary course of its trade or business and holds your exchange notes on your behalf and that certifies to us or our paying agent under penalties of perjury that it, or the bank or financial institution between it and you, has received from you your signed, written statement and provides us or our paying agent with a copy of this statement.

The applicable Treasury regulations provide alternative methods for satisfying the certification requirement described above. In addition, under these Treasury regulations, special rules apply to pass-through entities and this certification requirement may also apply to beneficial owners of pass-through entities.

If you cannot satisfy the requirements of the “portfolio interest” exception described above, payments of interest made to you will be subject to 30 percent United States federal withholding tax unless you provide us or our paying agent with a properly executed (1) Internal Revenue Service Form W-8ECI (or other applicable form) stating that interest paid on your exchange notes is not subject to withholding tax because it is effectively connected with your conduct of a trade or business in the United States, or (2) Internal Revenue Service Form W-8BEN (or other applicable form) claiming an exemption from or reduction in this withholding tax under an applicable income tax treaty.

### **United States Federal Income Tax**

Except for the possible application of United States federal withholding tax (see “Certain Material United States Federal Tax Considerations— Non-U.S. Holders — United States Federal Withholding Tax” above) and backup withholding tax (see “Certain Material United States Federal Tax Considerations— Non-U.S. Holders— Backup Withholding and Information Reporting” below), you generally will not have to pay United States federal income tax on payments of principal of and interest on your exchange notes, or on any gain realized from (or

accrued interest treated as received in connection with) the sale, redemption, retirement at maturity or other taxable disposition of your exchange notes unless:

- in the case of interest payments or disposition proceeds representing accrued interest, you cannot satisfy the requirements of the “portfolio interest” exception described above or claim a complete exemption from United States federal income tax on such interest under an applicable income tax treaty (and your United States federal income tax liability has not otherwise been fully satisfied through the United States federal withholding tax described above);
- in the case of gain, you are an individual who is present in the United States for 183 days or more during the taxable year of the sale or other disposition of your exchange notes and specific other conditions are met (in which case, except as otherwise provided by an applicable income tax treaty, the gain, which may be offset by United States source capital losses, generally will be subject to a flat 30 percent United States federal income tax, even though you are not considered a resident alien under the Internal Revenue Code); or
- the interest or gain is effectively connected with your conduct of a United States trade or business and, if required by an applicable income tax treaty, is attributable to a United States “permanent establishment” maintained by you.

If you are engaged in a trade or business in the United States and interest or gain in respect of your exchange notes is effectively connected with the conduct of your trade or business (and, if required by an applicable income tax treaty, is attributable to a United States “permanent establishment” maintained by you), the interest or gain generally will be subject to United States federal income tax on a net basis at the regular graduated rates and in the manner applicable to a U.S. Holder (although the interest will be exempt from the withholding tax discussed under “Certain Material United States Federal Tax Considerations— Non-U.S. Holders — United States Federal Withholding Tax” if you provide a properly executed Internal Revenue Service Form W-8ECI (or other applicable form) on or before any payment date to claim the exemption). In addition, if you are a foreign corporation, you may be subject to a branch profits tax equal to 30 percent of your effectively connected earnings and profits for the taxable year, as adjusted for certain items, unless a lower rate applies to you under an applicable United States income tax treaty.

#### **United States Federal Estate Tax**

If you are an individual and are not a United States citizen or a resident of the United States (as specially defined for United States federal estate tax purposes) at the time of your death, your exchange notes generally will not be subject to the United States federal estate tax, unless, at the time of your death:

- you directly or indirectly, actually or constructively, own ten percent or more of the total combined voting power of all classes of our stock entitled to vote within the meaning of section 871(h)(3) of the Internal Revenue Code and the Treasury regulations thereunder; or
- your interest on the exchange notes is effectively connected with your conduct of a United States trade or business.

#### **Backup Withholding and Information Reporting**

Under current Treasury regulations, backup withholding and information reporting generally will not apply to payments made by us or our paying agent (in its capacity as such) to you if you have provided the required certification that you are a Non-U.S. Holder as described in “Certain Material United States Federal Tax Considerations— Non-U.S. Holders — United States Federal Withholding Tax” above, and provided that neither we nor our paying agent has actual knowledge or reason to know that you are a U.S. Holder (as described in “Certain Material United States Federal Tax Considerations— U.S. Holders” above). However, we or our paying agent may be required to report to the IRS and you payments of interest on the exchange notes and the amount of tax, if any, withheld with respect to those payments. Copies of the information returns reporting such interest payments and any withholding may also be made available to the tax authorities in the country in which you reside under the provisions of a treaty or agreement.

The gross proceeds from the disposition of your exchange notes may be subject to information reporting and backup withholding tax (currently at a rate of 28 percent). If you sell your exchange notes outside the United States through a non-U.S. office of a non-U.S. broker and the sales proceeds are paid to you outside the United States, then the U.S. backup withholding and information reporting requirements generally will not apply to that payment. However, U.S. information reporting, but not backup withholding, will apply to a payment of sales proceeds, even if that payment is made outside the United States, if you sell your exchange notes through a non-U.S. office of U.S. broker or a foreign broker with certain United States connections unless the broker has documentary evidence in its files that you are a non-U.S. person and certain other conditions are met or you otherwise establish an exemption. If you receive payments of the proceeds of a sale of your exchange notes to or through a U.S. office of a broker, the payment is subject to both U.S. backup withholding and information reporting unless you provide a Form W-8BEN certifying that you are a non-U.S. person or you otherwise establish an exemption, provided that the broker does not have actual knowledge or reason to know that you are not a U.S. person or the conditions of any other exemption are not, in fact, satisfied.

You should consult your own tax advisor regarding application of backup withholding in your particular circumstance and the availability of and procedure for obtaining an exemption from backup withholding under current Treasury regulations. Any amounts withheld under the backup withholding rules from a payment to you will be allowed as a refund or credit against your United States federal income tax liability, provided the required information is timely furnished to the Internal Revenue Service.

## PLAN OF DISTRIBUTION

Based on interpretations by the staff of the SEC set forth in no-action letters issued to third parties, we believe that the exchange notes issued pursuant to the exchange offer in exchange for the outstanding notes may be offered for resale, resold and otherwise transferred by holders thereof, other than any holder which is (A) an “affiliate” of our company within the meaning of Rule 405 under the Securities Act, (B) a broker-dealer who acquired notes directly from our company or (C) broker-dealers who acquired notes as a result of market-making or other trading activities, without compliance with the registration and prospectus delivery provisions of the Securities Act provided that such exchange notes are acquired in the ordinary course of such holders’ business, and such holders are not engaged in, and do not intend to engage in, and have no arrangement or understanding with any person to participate in, a distribution of such exchange notes. However, broker-dealers receiving the exchange notes in the exchange offer will be subject to a prospectus delivery requirement with respect to resales of such exchange notes. To date, the staff of the SEC has taken the position that these broker-dealers may fulfill their prospectus delivery requirements with respect to transactions involving an exchange of securities such as the exchange pursuant to the exchange offer, other than a resale of an unsold allotment from the sale of the outstanding notes to the initial purchasers thereof, with the prospectus contained in the exchange offer registration statement. Pursuant to the exchange and registration rights agreements, we have agreed to permit these broker-dealers to use this prospectus in connection with the resale of such exchange notes. We have agreed that, for a period of 90 days after the expiration date of the exchange offer, we will make this prospectus, and any amendment or supplement to this prospectus, available to, and promptly send additional copies of this prospectus, and any amendment or supplement to this prospectus, to, any broker-dealer that requests such documents in the letter of transmittal for use in connection with any such resale. In addition, until , all dealers effecting transactions in the exchange notes may be required to deliver a prospectus.

Each holder of the outstanding notes who wishes to exchange its outstanding notes for exchange notes in the exchange offer will be required to make certain representations to us as set forth in “The Exchange Offer.”

Each broker-dealer that receives exchange notes for its own account pursuant to the exchange offer must acknowledge that it will deliver a prospectus in connection with any resale of such exchange notes. This prospectus, as it may be amended or supplemented from time to time, may be used by a broker-dealer in connection with resales of exchange notes received in exchange for outstanding notes where such outstanding notes were acquired as a result of market-making activities or other trading activities.

We will not receive any proceeds from any sale of exchange notes by broker-dealers. Exchange notes received by broker-dealers for their own account pursuant to the exchange offer may be sold from time to time in one or more transactions in the over-the-counter market, in negotiated transactions, through the writing of options on the exchange notes or a combination of such methods of resale, at market prices prevailing at the time of resale, at prices related to such prevailing market prices or negotiated prices. Any such resale may be directly to purchasers or to or through brokers or dealers who may receive compensation in the form of commissions or concessions from any such broker-dealer or the purchasers of any such exchange notes. Any broker-dealer that resells exchange notes that were received by it for its own account in the exchange offer and any broker or dealer that participates in a distribution of such exchange notes may be deemed to be an “underwriter” within the meaning of the Securities Act, and any profit on any such resale of exchange notes and any commissions or concessions received by any such persons may be deemed to be underwriting compensation under the Securities Act. The letter of transmittal states that, by acknowledging that it will deliver and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an “underwriter” within the meaning of the Securities Act.

We have agreed to pay the expenses incident to the exchange offer (including the expenses of one counsel for the holders of the notes) other than commissions or concessions of any brokers or dealers and will indemnify the holders of the exchange notes, including any broker-dealers, against certain liabilities, including liabilities under the Securities Act, as set forth in the exchange and registration rights agreements.

## WHERE YOU CAN FIND MORE INFORMATION

We and the guarantors have filed with the SEC a registration statement on Form S-4 under the Securities Act with respect to the exchange notes. As allowed by SEC rules, this prospectus, which is a part of the registration statement, omits certain information included in that registration statement and the exhibits thereto. For further information with respect to us and the exchange notes, we refer you to the registration statement, including all amendments, supplements, schedules and exhibits thereto.

We are not currently subject to the informational requirements of the Securities Exchange Act of 1934, as amended. However, under the indenture for the notes, we have agreed to furnish to holders of the notes (1) all quarterly and annual reports that would be required to be filed the SEC on Forms 10-Q and 10-K if we were required to file such reports and (2) all current reports that would be required to be filed with the SEC on Form 8-K if we were required to file such reports.

After consummation of the exchange offer, the indenture for the notes provides that, if we are no longer subject to the periodic reporting requirements of the Exchange Act for any reason, we will nonetheless continue to file the reports specified in the immediately preceding paragraph unless the SEC will not accept such a filing. The indenture for the notes also provides that McJunkin Red Man Holding Corporation may comply with the reporting requirements of the indenture in lieu of us. In accordance therewith, McJunkin Red Man Holding Corporation, and not McJunkin Red Man Corporation, will file reports and other information with the SEC.

In addition, we have agreed that, for so long as any notes remain outstanding, if at any time we are not required to file with the SEC the reports required by the preceding paragraphs, we will furnish to the holders and to securities analysts and prospective investors, upon their request, the information required to be delivered pursuant to Rule 144A(d)(4) under the Securities Act.

You may read and copy any document we file or furnish with the SEC at the SEC's Public Reference Room at 100 F Street, N.E., Washington, DC 20549. You may also obtain copies of the documents at prescribed rates by writing to the Public Reference Section of the SEC. Please call the SEC at 1-800-SEC-0330 to obtain information on the operation of the Public Reference Room. In addition, the SEC maintains an internet site that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC. You can review the registration statement, as well as our future SEC filings, by accessing the SEC's Internet site at <http://www.sec.gov>. **REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

The Board of Directors  
McJunkin Red Man Holding Corporation and Subsidiaries

We have audited the accompanying consolidated balance sheets of McJunkin Red Man Holding Corporation and subsidiaries as of December 31, 2010 and 2009, and the related consolidated statements of income, stockholders' equity, and cash flows for each of the three years in the period ended December 31, 2010. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of McJunkin Red Man Holding Corporation and subsidiaries at December 31, 2010 and 2009, and the consolidated results of their operations and their cash flows for each of the three years in the period ended December 31, 2010, in conformity with U.S. generally accepted accounting principles.

**McJUNKIN RED MAN HOLDING CORPORATION**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**December 31, 2010**

**NOTE 1 — SIGNIFICANT ACCOUNTING POLICIES**

**Business Operations:** McJunkin Red Man Holding Corporation is a holding company headquartered in Houston, Texas, with administrative offices in Charleston, West Virginia; Tulsa, Oklahoma; Calgary, Alberta, Canada; and Bradford, United Kingdom. We are a majority owned subsidiary of PVF Holdings LLC. Our wholly owned subsidiaries, McJunkin Red Man Corporation and its subsidiaries (“MRC”), are global distributors of pipe, valves, fittings and related products and services across each of the upstream (exploration, production and extraction of underground oil and gas), midstream (gathering and transmission of oil and gas, gas utilities, and the storage and distribution of oil and gas) and downstream (crude oil refining, petrochemical processing and general industrials) markets. We have branches in principal industrial, hydrocarbon producing and refining areas throughout the United States, Canada, Europe, Asia and Australasia. Our products are obtained from a broad range of suppliers.

**Basis of Presentation:** PVF Holdings LLC (formerly known as McJ Holding LLC) was formed on November 20, 2006 by affiliates of the Goldman Sachs Group, Inc. (“Goldman Sachs”) and certain shareholders of McJunkin Corporation (“McJunkin”) for the purposes of acquiring McJunkin on January 31, 2007. The affiliates of Goldman Sachs referred to in the previous sentence are GS Capital Partners V Fund, L.P., GS Capital Partners V Offshore Fund, L.P., GS Capital Partners V GmbH & Co. KG, and GS Capital Partners V Institutional, L.P. (collectively, the “GSCP V Funds”). In connection with the business combination transaction with Red Man Pipe & Supply Co. (“Red Man”) in October 2007, the GSCP V Funds and GS Capital Partners VI Fund, L.P., GS Capital Partners VI Offshore Fund, L.P., GS Capital Partners VI GmbH & Co. KG, and GS Capital Partners VI Parallel, L.P. (collectively, the “GSCP VI Funds,” and together with the GSCP V Funds, the “Goldman Sachs Funds”) and certain existing members of PVF Holdings LLC and certain shareholders of Red Man made cash and noncash equity contributions to PVF Holdings LLC in exchange for common units of PVF Holdings LLC. Management and control of all of the Goldman Sachs Funds is vested exclusively in their general partners and investment managers, which are affiliates of Goldman Sachs. The investment manager of certain of the Goldman Sachs Funds is Goldman, Sachs & Co., which is a wholly owned subsidiary of Goldman Sachs.

The consolidated financial statements include the accounts of McJunkin Red Man Holding Corporation and its wholly owned and majority owned subsidiaries (collectively referred to as “the Company” or by such terms as “we,” “our” or “us”). All material intercompany balances and transactions have been eliminated in consolidation. Investments in our unconsolidated joint ventures, over which we exercise significant influence, but do not control, are accounted for by the equity method. Our unconsolidated joint ventures, along with our percentage of ownership of each, are: (a) TFCX Finland Oy (50%), (b) MRC Transmark Middle East FZCO (50%) and (c) Transmark DRW GmbH (50%). As of December 31, 2010 and 2009, our total investment in these entities was insignificant.

**Use of Estimates:** The preparation of financial statements in conformity with the accounting principles generally accepted in the United States of America requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. We believe that our most significant estimates and assumptions are related to estimated losses on accounts receivable, estimated realizable value on excess and obsolete inventories, goodwill, intangibles, deferred taxes and self-insurance programs. Actual results could differ materially from those estimates.

**Cash Equivalents:** We consider all highly liquid investments with maturities of three months or less at the date of purchase to be cash equivalents.

**Allowance for Doubtful Accounts:** We evaluate the adequacy of the allowance for losses on receivables based upon periodic evaluation of accounts that may have a higher credit risk using information available about the customer and other relevant data. This formal analysis is inherently subjective and requires us to make significant estimates of factors affecting doubtful accounts, including customer specific information, current economic

**McJUNKIN RED MAN HOLDING CORPORATION**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

conditions, volume, growth and composition of the account, and other factors such as financial statements, news reports and published credit ratings. The amount of the allowance for the remainder of the trade balance is not evaluated individually but is based upon historical loss experience.

Because this process is subjective and based on estimates, ultimate losses may differ from those estimates. Receivable balances are written off when we determine that the balance is uncollectible. Subsequent recoveries, if any, are credited to the allowance when received. The provision for losses on receivables is included in selling, general and administrative expenses in the accompanying consolidated statements of income.

**Inventories:** Our inventories are generally valued at the lower of cost, principally last-in, first-out method (LIFO) or market. We record an estimate each month, if necessary, for the expected annual effect of inflation and estimated year-end inventory volume. These estimates are adjusted to actual results determined at year-end. This practice excludes certain inventories, which are held outside of the United States, approximating \$140 million and \$163 million at December 31, 2010 and 2009, which are valued at the lower of weighted-average cost or market.

Our inventory is substantially finished goods. The amount of general and administrative costs charged to inventory was immaterial for the years ended December 31, 2010, 2009, and 2008.

Allowances for excess and obsolete inventories are determined based on analyses comparing inventories on hand to sales trends. The allowance, which totaled \$11 million and \$8 million at December 31, 2010 and 2009, is the amount deemed necessary to reduce the cost of the inventory to its estimated realizable value.

**Assets Held for Sale:** Certain of our assets, consisting principally of certain available-for-sale securities and two parcels of real estate, were designated as noncore assets under the terms of the acquisition of McJunkin Corporation by certain affiliates of the Goldman Sachs Group, Inc. In accordance with the acquisition agreement, we classified these as assets held for sale in the consolidated balance sheet. A corresponding liability to shareholders (of our predecessor company, McJunkin Corporation) was recognized to reflect the obligation to the shareholders of record at the date of the acquisition. In the second quarter of 2010, we sold the available-for-sale securities. In September 2010, a portion of the proceeds from this sale, less selling expenses, other expenses and the related tax liability, was paid to the former shareholders of our predecessor company, net of administrative cost reimbursement retained by us. We paid the remainder, net of expected expenses, in December 2010. In the third quarter of 2010, we retained one of the parcels of real estate for our future use and paid the former shareholders the fair market value of the property, net of administrative cost reimbursement retained by us.

In January 2011, we sold our measurement fabrication business to a third party, while retaining the distribution portion of the business. The fabrication business was a noncore business of our North American segment and was not material to our consolidated financial statements; therefore, we have not reported this portion of the business as discontinued operations. As a result of this agreement, we recorded an \$0.2 million loss on the sale, as a result of the estimated fair value being less than the carrying value. The assets that were sold in this transaction were not material to our consolidated balance sheet.

**Debt Issuance Costs:** We defer costs directly related to obtaining financing and amortize them over the term of the indebtedness on a straight-line basis. The use of the straight-line method does not produce results that are materially different from those which would result from the use of the effective interest method. Such amounts are reflected in the consolidated income statement as a component of interest expense. Debt issuance costs are shown net of accumulated amortization of \$14 million and \$6 million at December 31, 2010 and 2009.

**Fixed Assets:** Land, buildings and equipment are stated on the basis of cost. For financial statement purposes, depreciation is computed over the estimated useful lives of such assets principally by the straight-line method; accelerated depreciation and cost recovery methods are used for income tax purposes. Leasehold improvements are amortized using the straight-line method over the shorter of the remaining lease term or the estimated useful life of the improvements. When assets are retired or otherwise disposed of, the cost and related

**McJUNKIN RED MAN HOLDING CORPORATION**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

accumulated depreciation are removed from the accounts and any gain or loss is reflected in income for the period. Maintenance and repairs are charged to expense as incurred.

**Goodwill and Other Intangible Assets:** Goodwill represents the excess of cost over the fair value of net assets acquired. Goodwill and intangible assets with indefinite useful lives are tested for impairment annually or more frequently if circumstances indicate that impairment may exist. We evaluate goodwill for impairment at two reporting units that mirror our two reportable segments (North America and International).

The goodwill impairment test compares the carrying value of the reporting unit that has the goodwill with the estimated fair value of that reporting unit. If the carrying value is more than the estimated fair value, we then calculate the implied fair value of goodwill by deducting the fair value of all tangible and intangible net assets of the reporting unit from the estimated fair value of the reporting unit. Impairment losses are recognized to the extent that recorded goodwill exceeds implied goodwill. Our impairment methodology uses discounted cash flow and multiples of cash earnings valuation techniques, plus valuation comparisons to similar businesses. These valuation methods require us to make certain assumptions and estimates regarding future operating results, the extent and timing of future cash flows, working capital, sales prices, profitability, discount rates and growth trends. While we believe that such assumptions and estimates are reasonable, the actual results may differ materially from the projected results (see Note 6 for more information regarding goodwill).

Other intangible assets primarily include customer bases and noncompetition agreements resulting from business acquisitions. Other intangible assets are recorded at fair value at the date of acquisition. Amortization is provided using the straight-line method over their estimated useful lives, ranging from one to twenty years.

The carrying value of intangible assets is subject to an impairment test when events or circumstances indicate a possible impairment. When events or circumstances indicate a possible impairment, we assess recoverability from future operations using undiscounted cash flows derived from the lowest appropriate asset group. To the extent the carrying value exceeds the undiscounted cash flows, an impairment charge would be recognized to the extent that the carrying value exceeds the fair value, which is determined based on a discounted cash flow analysis. While we believe that assumptions and estimates utilized in the impairment analysis are reasonable, the actual results may differ materially from the projected results. These impairments are determined prior to performing our goodwill impairment test.

**Derivatives and Hedging:** We utilize interest rate swaps to reduce our exposure to potential interest rate increases. Changes in the fair values of our derivative instruments are based upon independent market quotes. We record all derivatives on the consolidated balance sheets at fair value. Prior to June 29, 2009, if a derivative was designated as a cash flow hedge, we measured the effectiveness of the hedge, or the degree that the gain (loss) for the hedging instrument offset the loss (gain) on the hedged item, at each reporting period. The effective portion of the gain (loss) on the derivative instrument, net of deferred taxes, was recognized in other comprehensive income as a component of equity and, subsequently, reclassified into earnings when the forecasted transaction affected earnings. The ineffective portion of a derivative's change in fair value was recognized in earnings immediately. Derivatives that did not qualify for hedge treatment were recorded at fair value with gains (losses) recognized in earnings in the period of change. On June 29, 2009, we removed the designation of our swap as a cash flow hedge. Accordingly, changes in the fair value of the derivative are recorded in earnings in the period of change; and the fair value that was previously included in other comprehensive income was amortized over the remaining life of the agreement or until the forecasted transaction expires. At December 31, 2009, we determined that the forecasted transaction was not going to occur (due to the fact that we terminated the interest rate swap agreement in January 2010), therefore, the fair value that remained in other comprehensive income was charged to interest expense in our consolidated statements of income.

We utilize foreign exchange forward contracts (exchange contracts) to manage our foreign exchange rate risks resulting from purchase commitments and sales orders. Changes in the fair values of our exchange contracts are based upon independent market quotes. We do not designate our exchange contracts as hedging instruments;

**McJUNKIN RED MAN HOLDING CORPORATION**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

therefore, we record our exchange contracts on the consolidated balance sheets at fair value, with the gains and losses recognized in earnings in the period of change.

**Fair Value:** We measure certain of our assets and liabilities at fair value on a recurring basis. Fair value is an exit price, representing the amount that would be received to sell an asset or be paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that is determined based on assumptions that market participants would use in pricing an asset or a liability. A three-tier fair value hierarchy is established as a basis for considering such assumptions for inputs used in the valuation methodologies to measuring fair value:

**Level 1:** Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity has the ability to access at the measurement date.

**Level 2:** Significant observable inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

**Level 3:** Significant unobservable inputs for the asset or liability. Unobservable inputs reflect our own assumptions about the assumptions that market participants would use in pricing an asset or liability (including all assumptions about risk).

Certain assets and liabilities are measured at fair value on a nonrecurring basis. Our assets and liabilities measured at fair value on a nonrecurring basis include property, plant and equipment, goodwill and other intangible assets. We do not measure these assets at fair value on an ongoing basis; however, these assets are subject to fair value adjustments in certain circumstances, such as when there is evidence of impairment.

Our impairment methodology for goodwill and other intangible assets uses both (i) a discounted cash flow analysis requiring certain assumptions and estimates to be made regarding the extent and timing of future cash flows, discount rates and growth trends and (ii) valuation comparisons to a group of similar, publicly traded companies. As all of the assumptions employed to measure these assets and liabilities on a nonrecurring basis are based on management's judgment using internal and external data, these fair value determinations are classified as Level 3. We have not elected to apply the fair value option to any of our eligible financial assets and liabilities.

**Insurance:** We are self-insured for first party automobile coverage, product recall, ocean cargo shipments and portions of employee healthcare and asbestos claims. In addition, we maintain a nonmaterial deductible program as it relates to workers' compensation, automobile liability, property and general liability claims including, but not limited to, product liability claims, which are secured by various letters of credit totaling \$5 million. Our estimated liability and related expenses for claims are based in part upon estimates provided by insurance carriers, third-party administrators, and actuaries. Insurance reserves are deemed by us to be sufficient to cover outstanding claims, including those incurred but not reported as of the estimation date. Further, we maintain a commercially reasonable umbrella/excess policy that covers liabilities in excess of the primary limits.

**Income Taxes:** Deferred tax assets and liabilities are recorded for differences between the financial reporting and tax bases of assets and liabilities using the tax rate expected to be in effect when the taxes will actually be paid or refunds received. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. Each reporting period, we assess the likelihood that we will be able to recover our deferred tax assets. If recovery is not likely, we record a valuation allowance against the deferred tax asset that we believe will not be recoverable. The ultimate recovery of our deferred tax asset is dependent on various factors and is subject to change.

The benefit of an uncertain tax position that meets the "probable recognition threshold" is recognized in the financial statements. Recognized income tax positions are measured at the largest amount that is greater than 50% likely of being realized. Changes in recognition or measurement are reflected in the period in which the change in

**McJUNKIN RED MAN HOLDING CORPORATION**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

judgment occurs. We record interest related to unrecognized tax benefits in interest expense and penalties related to unrecognized tax benefits in income tax expense.

**Foreign Currency Translation and Transactions:** The functional currency of our foreign operations is the applicable local currency. The cumulative effects of translating the balance sheet accounts from the functional currency into the U.S. dollar at current exchange rates are included in accumulated other comprehensive income. The balance sheet accounts (with the exception of retained earnings) are translated using current exchange rates as of the balance sheet date. Retained earnings are translated at historical exchange rates and revenue and expense accounts are translated using a weighted-average exchange rate during the year. Historically, gains or losses resulting from foreign currency transactions have been immaterial and are recognized in the consolidated statements of income within other, net.

**Equity-Based Compensation:** Our equity-based compensation consists of (1) restricted common units and profit units of PVF Holdings LLC and (2) restricted stock and nonqualified stock options of our Company. The cost of employee services received in exchange for an award of an equity instrument is measured based on the grant-date fair value of the award. Our policy is to expense equity-based compensation using the fair-value of awards granted, modified or settled. Restricted common units, profit units and restricted stock are credited to equity as they are expensed over their vesting periods based on the then current market value of the shares vested.

The fair value of nonqualified stock options is measured on the grant date of the related equity instrument using the Black-Scholes option-pricing model and is recognized as compensation expense over the applicable vesting period.

**Revenue Recognition:** Sales to our principal customers are made pursuant to agreements that normally provide for transfer of legal title and risk upon shipment. We recognize revenue as products are shipped, title has transferred to the customer and the customer assumes the risks and rewards of ownership, and collectability is reasonably assured. Freight charges billed to customers are reflected in revenues. Return allowances, which are not material, are estimated using historical experience. Amounts received in advance are deferred and recognized as revenue when the products are shipped and title transfers.

Sales taxes collected from customers and remitted to governmental authorities are accounted for on a net basis and therefore are excluded from net sales in the accompanying consolidated statements of income.

**Cost of Goods Sold:** Cost of goods sold includes the cost of inventory sold and related items, such as vendor rebates, inventory allowances, and shipping and handling costs associated with outbound freight.

**Earnings per Share:** Basic earnings per share are computed based on the weighted-average number of common shares outstanding, excluding any dilutive effects of unexercised stock options and unvested restricted stock. Diluted earnings per share are computed based on the weighted-average number of common shares outstanding including any dilutive effect of unexercised stock options and unvested restricted stock. The dilutive effect of unexercised stock options and unvested restricted stock is calculated under the treasury stock method.

**Concentration of Credit Risk:** Most of our business activity is with customers in the energy and industrial sectors. In the normal course of business, we grant credit to these customers in the form of trade accounts receivable. These receivables could potentially subject us to concentrations of credit risk; however, we minimize such risk by closely monitoring extensions of trade credit. We generally do not require collateral on trade receivables.

We maintain the majority of our cash and cash equivalents with several reputable financial institutions. These financial institutions are located in many different geographical regions with varying economic characteristics and risks. Deposits held with banks may exceed insurance limits. We believe the risk of loss associated with our cash equivalents to be remote.

We have a broad customer base doing business in all regions of the world. During 2010, 2009 and 2008, we did not have sales to any one customer in excess of 10% of gross sales, and at those respective year-ends no individual

**McJUNKIN RED MAN HOLDING CORPORATION**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

customer balances exceeded 10% of gross accounts receivable. Accordingly, no significant concentration of credit risk is considered to exist.

We have a broad supplier base, sourcing our products in most regions of the world. During 2010, we had purchases from one vendor in excess of 10% of our gross purchases (11%), while during 2009 and 2008, we did not have any purchases from any one vendor in excess of 10% of our gross purchases, and at those respective year-ends no individual vendor balance exceeded 10% of gross accounts payable. Accordingly, no significant concentration is considered to exist.

**Segment Reporting:** We operate as two reportable segments, one consisting of our North American operations and one consisting of our other International operations. Our North American segment consists of our operations in the United States and Canada and has operations in four geographical regions, which have similar economic characteristics, products and services, types of customers, distribution methods and regulatory environments in each region. Our International segment has operations in Europe, Asia and Australasia. These segments represent our global business of providing pipe, valves, fittings and related products and services to the energy and industrial sectors, across each of the upstream (exploration, production and extraction of underground oil and gas), midstream (gathering and transmission of oil and gas, gas utilities, and the storage and distribution of oil and gas) and downstream (crude oil refining and petrochemical processing) markets, through our distribution operations located throughout the world.

**Recent Accounting Pronouncements:** In October 2009, the Financial Accounting Standards Board (“FASB”) issued an amendment to Accounting Standards Codification (“ASC”) 605, *Revenue Recognition*, related to the accounting for revenue in arrangements with multiple deliverables including how the arrangement consideration is allocated among delivered and undelivered items of the arrangement. Among the amendments, this standard eliminated the use of the residual method for allocating arrangement considerations and requires an entity to allocate the overall consideration to each deliverable based on an estimated selling price of each individual deliverable in the arrangement in the absence of having vendor-specific objective evidence or other third-party evidence of fair value of the undelivered items. This standard also provides further guidance on how to determine a separate unit of accounting in a multiple-deliverable revenue arrangement and expands the disclosure requirements about the judgments made in applying the estimated selling price method and how those judgments affect the timing or amount of revenue recognition. This standard will become effective on January 1, 2011. We do not expect that the adoption of this standard will have a material impact on our consolidated financial statements.

In January 2010, FASB issued Accounting Standards Update (“ASU”) No. 2010-06, *Improving Disclosures about Fair Value Measurements*, an amendment to ASC Topic 820, *Fair Value Measurement and Disclosures*. This amendment will require us to disclose separately the amounts of significant transfers in and out of Levels 1 and 2 fair value measurements and describe the reasons for the transfers and present separate information for Level 3 activity pertaining to gross purchases, sales, issuances and settlements. This amendment is effective for reporting periods beginning after December 31, 2009, except for the disclosures about purchases, sales, issuances and settlements in the rollforward activity in Level 3 fair value measurements, which are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. Our adoption of this amendment, pertaining to the Level 1 and Level 2 disclosures on January 1, 2010, did not have a material impact on our consolidated financial statements. We do not believe that the Level 3 amendment disclosures will have a material impact on our consolidated financial statements.

In February 2010, FASB issued ASU No. 2010-09, *Amendments to Certain Recognition and Disclosure Requirements*, an amendment to ASC Topic 855, *Subsequent Events*, that removed the requirements for SEC registrants to disclose the date through which subsequent events were evaluated. There were no changes to the accounting for or disclosure of events that occur after the balance sheet date but before the financial statements are issued. Our adoption of this amendment on January 1, 2010 did not have a material impact on our consolidated financial statements.

**McJUNKIN RED MAN HOLDING CORPORATION**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

In July 2010, FASB issued ASU No. 2010-20, *Disclosures about the Credit Quality of Financing Receivables and the Allowance for Credit Losses*, which amended ASC Topic 310, *Receivables*. This amendment enhances the disclosure requirements regarding the nature of credit risk inherent in our portfolio of accounts receivable, how that risk is assessed in arriving at our allowance for doubtful accounts and the changes and reasons for those changes in the allowance for doubtful accounts. The adoption of this amendment did not have a material impact on our consolidated financial statements.

In December 2010, FASB issued ASU No. 2010-29, *Disclosure of Supplementary Pro Forma Information for Business Combinations*, which amended ASC Topic 805, *Business Combinations*. This ASU amended certain existing and added additional pro forma disclosure requirements. The standard will become effective on January 1, 2011. We do not expect that the adoption of this standard will have a material impact on our consolidated financial statements.

**NOTE 2 — TRANSACTIONS**

**Acquisitions**

On October 9, 2008, we acquired LaBarge Pipe & Steel Company (“LaBarge”) for \$154.2 million. LaBarge was engaged in the sale and distribution of carbon steel pipe (predominately large diameter pipe) for use primarily in the North American energy infrastructure market. The purchase price has been allocated in the following table. Transaction costs capitalized in connection with the acquisition of LaBarge totaled \$3.8 million and included \$1.6 million paid to an affiliate of the Goldman Sachs Funds as reimbursement of their costs associated with due diligence and advisory services. On January 21, 2010, LaBarge was legally merged into MRC.

On October 30, 2009, we acquired Transmark Fcx Group BV (together with its subsidiaries, “Transmark”) for \$147.9 million. Headquartered in Bradford, United Kingdom, Transmark is a global distributor of specialty valves and flow control equipment, with a network of 37 distribution and service facilities in 13 countries throughout Europe, Asia and Australasia. The purchase price has been allocated in the following table. In connection with this transaction, we expensed approximately \$17.4 million in transaction costs, including \$5.8 million paid to an affiliate of the Goldman Sachs Funds as reimbursement of their costs associated with due diligence and advisory services. These expenses are included within selling, general and administrative expenses in our consolidated statements of income. As a part of the acquisition, we renamed Transmark Fcx Group BV as MRC Transmark Group B.V. (“MRC Transmark”).

On May 28, 2010, we acquired The South Texas Supply Company, Inc. (“South Texas Supply”) for \$3.9 million. South Texas operates two branches in southern Texas, within the Eagle Ford Shale region. The impact of this acquisition was not material to our consolidated financial statements.

On August 31, 2010, we acquired operations and assets from Dresser Oil Tools, Inc. (“Dresser”) for \$9.3 million. Dresser operates five branches in North Dakota and Montana, within the Bakken Shale region. The impact of this acquisition was not material to our consolidated financial statements.

Our accounts receivable is also presented net of other volume related allowances. Those allowances approximated \$4.7 million and \$4.0 million at December 31, 2010 and 2009.

**NOTE 4 — INVENTORIES**

The composition of our inventory is as follows (in thousands):

	<u>December 31, 2010</u>	<u>2009</u>
Finished goods inventory at average cost:		
Energy carbon steel tubular products	\$ 396,611	\$ 503,948

Less: Other inventory reserves	(10,962)	(8,123)
	<u>\$ 765,367</u>	<u>\$871,653</u>

During 2010 and 2009, our inventory quantities were reduced, resulting in a liquidation of a LIFO inventory layer that was carried at a higher cost prevailing from a prior year, as compared with current costs in the current year (a “LIFO decrement”). A LIFO decrement results in the erosion of layers created in earlier years and therefore a LIFO layer is not created for years that have decrements. In 2010, the effect of this LIFO decrement decreased cost of sales by approximately \$11 million and in 2009, increased cost of sales by approximately \$45 million.

During 2009, our earnings progressively decreased due to the weakening of the U.S. and global economies, the reductions in oil and natural gas prices, and the reductions in our customers' expenditure programs (both new programs and recurring maintenance programs). These factors resulted in a reduced demand for our product; consequently, we revised our long-term projections, which in turn impacted the fair value of our business. As a result, we concluded that the carrying value of our reporting unit exceeded the fair value of our reporting unit and

thus, for the year ended December 31, 2009, we recorded a pretax impairment charge of \$310 million. No impairment charges were recorded in any of the other periods presented.

**Senior Secured Notes:** On December 21, 2009, our wholly owned subsidiary, MRC, issued \$1.0 billion aggregate principal amount of its 9.50% Senior Secured Notes (the “Notes”) maturing on December 15, 2016. On February 11, 2010, MRC issued an additional \$50 million aggregate amount of the Notes. MRC received proceeds of \$1.023 billion, resulting in an original issue discount (“OID”) of approximately \$27 million, which will be accreted over the life of the Notes in interest expense in our consolidated statements of income. The Notes rank equally in right of payment with all of MRC’s existing and future senior indebtedness. We guarantee the Notes, along with our wholly owned domestic subsidiaries. The Notes are secured by a senior lien on substantially all of the tangible and intangible assets of MRC and its wholly owned domestic subsidiaries, except for the collateral securing the Asset-Based Revolving Credit Facility (“ABL”), for which the Notes are secured on a junior basis. Assets owned by our non-guarantor subsidiaries are not part of the collateral securing the Notes.

Under the terms of the indenture governing the Notes, MRC must offer to repurchase the Notes at a price equal to 101% of their outstanding principal in the event of a change in control as defined in the indenture. At any time prior to December 15, 2012, MRC may redeem up to 35% of the aggregate principal amount of the Notes at 109.50% plus accrued and unpaid interest, with all or a portion of the net cash proceeds of one or more Qualified Equity Offerings (as defined in the indenture governing the Notes), provided that at least 65% of the aggregate principal amount of the Notes remains outstanding and the redemption occurs within 90 days of the date of the closing of such Qualified Equity Offering. Further, at any time prior to December 15, 2012, MRC may redeem all or part of the Notes, with 15 to 60 days notice, at a redemption price equal to 100% of the principal amount of the Notes redeemed, plus a make-whole premium defined in the indenture governing the Notes, and accrued and unpaid

interest to the date of redemption. On or after December 15, 2012, MRC may redeem all or part of the Notes, with 15 to 60 days notice, at the redemption prices set forth in the table below:

Year	Percentage
2012	107.125%
2013	104.750%
2014	102.375%
2015 and thereafter	100.000%

The indenture governing the Notes contains covenants that impose significant restrictions on MRC's business. The restrictions that these covenants place on MRC and its restricted subsidiaries include limitations on its ability and the ability of its restricted subsidiaries to, among other things, incur additional indebtedness, issue certain preferred stock or disqualified capital stock, create liens, pay dividends or make other restricted payments, make certain payments on debt that is subordinated or secured on a basis junior to the Notes, make investments, sell assets, create restrictions on the payment of dividends or other amounts to us from restricted subsidiaries, consolidate, merge, sell or otherwise dispose of all or substantially all of our assets, enter into transactions with our affiliates and designate its subsidiaries as unrestricted subsidiaries. We were in compliance with the covenants contained in our indenture as of and for the years ended December 31, 2010 and 2009.

MRC is required to register with the Securities and Exchange Commission notes having substantially identical terms as the Notes as part of an offer to exchange freely tradable exchange notes for MRC's Notes. We are required to file an exchange offer registration statement within 470 days after the issue date of the Notes ("filing deadline") and use our commercially reasonable efforts to cause the exchange offer registration statement to be declared effective within 110 days after the filing deadline ("effectiveness deadline"). The exchange offer is required to be completed within 30 business days of the effectiveness deadline. We may also be required to file a shelf registration statement in certain circumstances. If we fail to meet these deadlines, special interest will accrue and be payable with respect to the Notes.

In connection with the issuance of the Notes, we paid off our \$575 million Term Loan Facility and \$450 million Junior Term Loan Facility. These facilities bore interest at a rate per annum equal to, at our option, either (i) the greater of the prime rate and the federal funds rate effective rate plus 0.50%, plus, in either case, 2.25%; or (b) LIBOR plus 3.25% (Term Loan Facility) or LIBOR multiplied by the statutory reserve rate plus 3.25% (Junior Term Loan Facility). We were in compliance with the covenants contained in these facilities as of and during the periods prior to payoff. As a result of these payoffs, we wrote off approximately \$14 million of debt issuance costs, which are included in the gain on early extinguishment of debt in our consolidated statements of income. In 2009, prior to the payoff, we purchased and retired \$36 million of our Junior Term Loan Facility and recognized a gain on early extinguishment of \$16 million (\$10 million, net of deferred income taxes) in our consolidated statements of income.

**Asset-Based Revolving Credit Facility:** MRC is the borrower under a \$900 million Asset-Based Revolving Credit Facility ("ABL"). The ABL provides for the extension of both revolving loans and swingline loans and the issuance of letters of credit. The aggregate principal amount of revolving loans outstanding at any time under the ABL may not exceed \$900 million, subject to adjustments based on changes in the borrowing base and less the sum of all letters of credit outstanding and the aggregate principal amount of swingline loans outstanding. There is a \$60 million sub-limit on swingline loans and the total letters of credit outstanding at any time may not exceed \$60 million.

Availability under the \$900 million ABL is subject to a borrowing base. The borrowing base is equal to 85% of the sum of eligible accounts receivable and the net orderly liquidation value of eligible inventory, subject to customary reserves and eligibility criteria.

**McJUNKIN RED MAN HOLDING CORPORATION**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

Borrowings under the ABL bear interest at a rate per annum equal to, at our option, either (i) the greater of the prime rate as quoted in *The Wall Street Journal* and the federal funds effective rate plus 0.50%, plus in either case (a) 2.00% if MRC's consolidated total debt to consolidated adjusted EBITDA ratio is greater than or equal to 2.75 to 1.00, (b) 1.75% if such ratio is greater than or equal to 2.00 to 1.00 but less than 2.75 to 1.00, or (c) 1.50% if such ratio is less than 2.00 to 1.00; or (ii) LIBOR plus (a) 3.00% if the borrower's consolidated total debt to consolidated adjusted EBITDA ratio is greater than or equal to 2.75 to 1.00, (b) 2.75% if such ratio is greater than or equal to 2.00 to 1.00 but less than 2.75 to 1.00, or (c) 2.50% if such ratio is less than 2.00 to 1.00. Interest on swingline lines is calculated on the basis of the rate described in (i) of the preceding sentence.

In addition, MRC is required to pay a commitment fee with respect to unutilized commitments at a rate per annum equal to (i) 0.50% if our consolidated total debt to consolidated adjusted EBITDA ratio is greater than or equal to 2.75 to 1.00 and (ii) 0.375% if such ratio is less than 2.75 to 1.00. MRC is also required to pay customary letter of credit fees and agency fees.

The ABL provides that MRC has the right at any time to request incremental commitments, but the lenders are under no obligation to provide any such additional commitments. The increase in facility commitments may not exceed the sum of (i) \$150 million, plus (ii) only after the entire \$150 million is drawn, an amount such that on a pro forma basis, after giving effect to the new facility commitments and certain other specified transactions, the secured leverage ratio will be no greater than 4.75 to 1.00. If MRC were to request any such additional commitments and the existing lenders or new lenders were to agree to provide such commitments, the ABL size could be increased as described above, but our ability to borrow would still be limited by the amount of the borrowing base.

If at any time the aggregate amount of outstanding loans, unreimbursed letter of credit drawings and undrawn letters of credit under the ABL exceeds the lesser of (i) the total revolving credit commitments or (ii) the borrowing base, MRC will be required to repay outstanding loans or cash collateralize letters of credit in an aggregate amount equal to such excess, with no reduction of the commitment amount. If the amount available under the ABL is less than 7% of total revolving credit commitments, or an event of default pursuant to certain provisions of the credit agreement has occurred, MRC would then be required to deposit daily in a collection account managed by the agent under the ABL. MRC may voluntarily reduce the unutilized portion of the commitment amount and repay outstanding loans at any time without premium or penalty other than customary "breakage" costs with respect to LIBOR loans. There is no scheduled amortization under the ABL; the principal amount of the loans outstanding is due and payable in full on October 31, 2013.

All obligations under the ABL are guaranteed by MRC's existing and future wholly owned domestic subsidiaries. All obligations under the ABL are secured, subject to certain significant exceptions, by substantially all of MRC's assets, including:

- A first-priority security interest in personal property consisting of inventory and accounts receivable;
- A second-priority pledge of certain of the capital stock held by us or any subsidiary guarantor; and
- A second-priority security interest in, and mortgages on, substantially all of our other tangible and intangible assets and of each subsidiary guarantor.

The ABL contains customary covenants which restrict, subject to certain exceptions, the ability of MRC and its subsidiaries to incur additional indebtedness, create liens on assets, engage in mergers, consolidations or sales of assets, dispose of subsidiary interests, make investments, loans or advances, pay dividends, make payments with respect to subordinated indebtedness, enter into sale and leaseback transactions, change the business conducted by MRC and its subsidiaries taken as a whole, and enter into agreements that restrict subsidiary dividends or limit the ability of MRC and its subsidiaries to create or keep liens for the benefit of the lenders with respect to our obligations under the facility.

**McJUNKIN RED MAN HOLDING CORPORATION**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

The facility requires that we continue to maintain interest rate swap, cap and hedge agreements for the purpose of ensuring that no less than 50% of the aggregate principal amount of total indebtedness of MRC and its subsidiaries outstanding is either subject to such interest rate agreements or bears interest at a fixed rate.

Although the credit agreement governing the ABL does not require MRC to comply with any financial ratio maintenance covenants, if less than 7% of the then outstanding credit commitments were available to be borrowed under the ABL at any time, MRC would not be permitted to borrow any additional amounts unless its pro forma ratio of consolidated adjusted EBITDA to consolidated Fixed Charges (as such terms are defined in the credit agreement) were at least 1.0 to 1.0.

The credit agreement also contains customary affirmative covenants and events of default. We were in compliance with the covenants contained in our ABL as of and during the years ended December 31, 2010, 2009 and 2008.

**Midfield Revolving Credit Facility:** Midfield Supply ULC (“Midfield”), our Canadian subsidiary, has a Canadian dollar revolving credit facility (“Midfield Revolver”). On October 20, 2010, we increased the maximum limit of the facility to CAD \$80 million (USD \$80 million as of December 31, 2010) from CAD \$60 million (USD \$60 million), subject to adjustments based on the borrowing base and less the aggregate letters of credit outstanding under the facility. Letters of credit may be issued under the facility, subject to certain conditions, including a CAD \$10 million (USD \$10 million) sub-limit.

Borrowings through December 31, 2009 bore interest at either (i) the Canadian prime rate plus 2.00% or (ii) the greater of 2.00% and the rate of interest per annum equal to the rates applicable to Canadian Dollar Bankers’ Acceptances having a comparable term as the proposed loan displayed on the “CDOR Page” of Reuter Monitor Money Rates Services (the “BA Equivalent Rate”), plus 3.50%. After December 31, 2009, the borrowings will bear interest at a rate equal to either (i) the Canadian prime rate, plus (a) 2.25% if the “average daily availability” (as defined in the loan and security agreement for the facility) for the previous fiscal quarter was less than CAD \$30 million (USD \$30 million), (b) 2.00% if the average daily availability for the previous fiscal quarter was greater than or equal to CAD \$30 million (USD \$30 million) but less than CAD \$60 million (USD \$60 million), or (c) 1.75% if the average daily availability for the previous fiscal quarter was greater than or equal to CAD \$60 million (USD \$60 million), or, at our option, (ii) the BA Equivalent Rate plus (a) 3.75% if the average daily availability for the previous fiscal quarter was less than CAD \$30 million (USD \$30 million), (b) 3.50% if the average daily availability for the previous fiscal quarter was greater than or equal to CAD \$30 million (USD \$30 million) but less than CAD \$60 million (USD \$60 million), or (c) 3.25% if the average daily availability for the previous fiscal quarter was greater than or equal to CAD \$60 million (USD \$60 million).

The Midfield Revolver is secured by substantially all of Midfield’s and its subsidiary guarantors’ personal property assets including accounts receivable, chattel paper, bank accounts, general intangibles, inventory, investment property, cash and insurance proceeds. The balance of the Revolver is due at its maturity date, November 18, 2012.

The Midfield Revolver required Midfield to maintain adjusted EBITDA of (i) CAD \$1.5 million (USD \$1.4 million) for the two fiscal quarters ended December 31, 2009, (ii) CAD \$4.8 million (USD \$4.5 million) for the three fiscal quarters ending March 31, 2010 and (iii) CAD \$3.7 million (USD \$3.5 million) for the four fiscal quarters ending June 30, 2010. The facility also requires Midfield, beginning with the fiscal quarter ending March 31, 2011, to maintain a leverage ratio of no greater than 3.50 to 1.00 and, beginning with the fiscal quarter ending September 30, 2010, to maintain a fixed charge coverage ratio of at least 1.15 to 1.00. The facility prohibits Midfield and its subsidiaries from making capital expenditures in excess of CAD \$10 million (USD \$10 million) in the aggregate during any fiscal year, subject to exceptions for certain expenditures and provided that if the actual amount of capital expenditures made in any fiscal year is less than the amount permitted to be made in such fiscal year, up to CAD \$0.25 million (USD \$0.25 million) of such excess may be carried forward and used to make capital expenditures in the succeeding fiscal year.

**McJUNKIN RED MAN HOLDING CORPORATION**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

**Midfield Term Loan Facility:** Midfield also has a CAD \$15 million (USD \$15 million as of December 31, 2010) term loan facility. The facility provides for revolving loans until July 31, 2011, after which the revolving loans outstanding under the facility convert to term loans that mature on July 31, 2012. The facility is secured by substantially all of Midfield's and its subsidiary guarantors' real property and equipment.

The facility provides for two types of funding, (i) prime-based loans and/or (ii) guaranteed notes. The interest rates for the facility vary based on the type of funding: (i) the prime-based loans bear interest at the Canadian prime rate, plus 3.25% and (ii) the guaranteed notes bear interest at the Canadian Dealer Offered Rate, plus 4.50%.

The Midfield term loan facility contains similar covenants as the Midfield Revolver, as discussed above.

On September 10, 2010, we amended our Midfield Revolver to defer compliance with a leverage ratio covenant until March 31, 2011 and to modify the calculation of a fixed charge covenant ratio for the compliance period ended September 30, 2010. On September 16, 2010, we amended our Midfield term loan facility to defer compliance with a leverage covenant until March 31, 2011 and to defer compliance with a fixed charge coverage ratio until December 31, 2010. At December 31, 2010, we were in compliance with these covenants as amended.

**Transmark Revolving Credit Facility:** On September 17, 2010, MRC Transmark, our international subsidiary, refinanced its revolving credit facility ("MRC Transmark Revolver"). This facility provides for borrowings up to €60 million (USD \$80 million), with a €20 million (USD \$27 million) sub-limit on letters of credit. The facility matures on September 17, 2013.

The facility will be reduced by €10 million (USD \$13 million) over its term, as follows: €0.5 million (USD \$0.7 million) per quarter starting in the fourth quarter of 2010 through the third quarter of 2012, and then by €1.5 million (USD \$2.0 million) per quarter, starting in the fourth quarter of 2012 through the third quarter of 2013.

The facility bears interest at LIBOR or, in relation to any loan in Euros, EURIBOR, plus an applicable margin. The margin varies based on MRC Transmark's leverage as described in the following table:

<b>MRC Transmark's Leverage Ratio</b>	<b>Margin</b>
Less than or equal to 0.75:1	1.50%
Greater than 0.75:1, but less than or equal to 1.00:1	1.75%
Greater than 1.00:1, but less than or equal to 1.50:1	2.00%
Greater than 1.50:1, but less than or equal to 2.00:1	2.25%
Greater than 2.00:1	2.50%

The facility is secured by substantially all of the assets of MRC Transmark and its wholly owned subsidiaries.

The facility also requires MRC Transmark to maintain: (i) an interest coverage ratio not less than 3.50:1 and (ii) a leverage ratio not to exceed 2.50:1. We were in compliance with these covenants as of and for the year ended December 31, 2010.

In connection with the refinancing, MRC Transmark's existing revolving credit facility and term loan facility were paid off. The previous facilities bore interest at a rate, at our option, of either (i) EURIBOR plus the margin, or, in the case of any currency other than the Euro, (ii) LIBOR plus the margin, in each case for a period of one, three or six months. The margin was based on leverage and ranged from 1.50% to 2.50% (revolving credit facility) and 2.00% to 3.00% (term loan facility). We were in compliance with the covenants contained in these facilities as of and for the periods prior to payoff. Also, in conjunction with the refinancing, we paid approximately \$0.2 million to terminate interest rate swap agreements.

**Transmark Factoring Facility:** MRC Transmark also maintains a factoring facility for one of its wholly owned subsidiaries. The subsidiary factors all invoices for certain approved customers in transactions through which the lender will advance the face value of the invoices (subject to a 10% withholding deposit). The lender receives a commission of 0.18%. The interest rate on this facility is EURIBOR plus 0.45%.

**NOTE 8 — DERIVATIVE FINANCIAL INSTRUMENTS**

We use derivative financial instruments to help manage our exposure to interest rate risk and fluctuations in foreign currencies.

On December 3, 2007, we entered into a floating to fixed interest rate swap contract, effective December 31, 2007, for a notional amount of \$700 million to limit exposure to interest rate increases related to a portion of our floating rate indebtedness. Under the terms of this contract, we paid interest at a fixed rate of approximately 3.91% and received 3-month LIBOR variable interest rate payments monthly. The interest rate swap contract was set to terminate after three years. As of the effective date of the swap contracts, we designated the interest rate swap as a

cash flow hedge and the effective portion of the gain or loss on the derivative hedging instrument was reported in other comprehensive income, while the ineffective portion was recorded in current earnings. During the fourth quarter of 2008, one of the underlying participants in our interest rate swap contract declared bankruptcy, resulting in a loss of hedge accounting for that portion of the swap. As a result, the change in the fair value of that portion of the interest rate swap contract (\$175 million) was recorded in current earnings in 2008. Also, the portion of the swap that was previously included in other comprehensive income was being amortized over the remaining life of the agreement. On June 29, 2009, we removed the designation of the swap as a cash flow hedge. As a result, changes in the fair value of the interest rate swap contract were recorded in earnings. The remaining portion of the swap, that was previously included in other comprehensive income, was being amortized over the remaining life of the contract. On January 22, 2010, we paid \$25 million to terminate this interest rate swap contract.

Effective March 31, 2009, we entered into a freestanding, \$500 million interest rate swap contract to pay interest at a fixed rate of approximately 1.77% and receive 1-month LIBOR variable interest rate payments monthly through March 31, 2012. We also have other interest rate swap contracts and foreign exchange forward contracts, which are not material. All of our derivative instruments are freestanding and, accordingly, changes in their fair market value are recorded in earnings.

The table below provides data about the fair value of our interest rate swap derivatives that are recorded in our consolidated balance sheets (in thousands):

The valuation allowance is based on our estimate that the recovery of certain deferred tax assets will not be likely. At December 31, 2010, the valuation allowance related to net operating loss carryforwards in certain foreign jurisdictions.

In the United States, we had approximately \$0.4 million of federal and \$104 million of state net operating loss carryforwards as of December 31, 2010, which will expire in future years through 2030. In certain non-U.S. jurisdictions, we had \$13 million of net operating loss carryforwards, in which \$11 million have no expiration and \$2 million will expire in future years through 2015.

Undistributed earnings of our foreign subsidiaries were approximately \$126 million and \$105 million for the years ended December 31, 2010 and 2009. These earnings are expected to be indefinitely reinvested outside of the United States and, therefore, no provision for United States federal or state income taxes has been made. If we were to distribute these earnings, they would be taxed at approximately the U.S. statutory rate. Foreign tax credits may be available to reduce the resulting United States tax liability.

Income tax returns are filed in tax jurisdictions around the world. We are no longer subject to U.S. federal income tax examination for all years through 2006 and the statute of limitations at our international locations is generally six to seven years.

At December 31, 2010 and 2009, our unrecognized tax benefits were immaterial to our consolidated financial statements.

**NOTE 11 — EMPLOYEE BENEFIT PLANS**

**Stock Option and Restricted Stock Plans:** Under the terms of the 2007 Stock Option Plan, options may not be granted at prices less than their fair market value on the date of the grant, nor for a term exceeding ten years. Vesting generally occurs in one-third increments on the third, fourth and fifth anniversaries of the date specified in the employees' respective option agreements, subject to accelerated vesting under certain circumstances set forth in the option agreements. We expense the fair value of the stock option grants on a straight-line basis over the vesting period. A Black-Scholes option-pricing model is used to estimate the fair value of the stock options.

Under the terms of the restricted stock plan, restricted stock may be granted at the direction of the Board of Directors and vesting generally occurs in one-fourth increments on the second, third, fourth and fifth anniversaries of the date specified in the employees' respective restricted stock agreements, subject to accelerated vesting under certain circumstances set forth in the restricted stock agreements. We expense the fair value of the restricted stock grants on a straight-line basis over the vesting period.

*Stock Options*

Following are the weighted-average assumptions used to estimate the fair values of our stock options:

	Year Ended December 31,		
	2010	2009	2008
Risk-free interest rate	2.54%	2.45%	3.14%

Expected volatility	22.07%	22.07%	22.07%
Expected life (in years)	6.2	6.2	6.2

(1) The expected dividend yield reflects the restriction on our ability to pay dividends and does not anticipate “special” dividends.

During 2009, we modified the exercise price of approximately 1.8 million stock option grants from \$17.62 to \$12.50. Also, in conjunction with the \$3 million dividend paid during 2009, we reduced the exercise prices of the outstanding options by between \$0.01 and \$0.02 per option.

**Restricted Common Units:** Certain of our key employees received restricted common units of PVF Holdings LLC that vest over a three-to-five year requisite service period. At December 31, 2010, all of the restricted common units were either vested or forfeited. Prior to full vesting or forfeiture, the expense was being recognized on a straight-line basis over the vesting period.

**Profits Units:** Certain of our key employees received profit units in PVF Holdings LLC that vest over a five-year requisite service period. The holders of these units are entitled to a share of any distributions made by PVF Holdings LLC once common unit holders have received a return of their capital contributions (for purposes of the Amended and Restated Limited Liability Company Agreement of PVF Holdings LLC, dated October 31, 2007, as amended). Expense is being recognized on a straight-line basis over the vesting period.

**Defined Contribution Employee Benefit Plans:** Employees may participate in the McJunkin Red Man Retirement Plan, under which any employee who has completed at least six months of service may elect to defer a percentage of their base earnings, pursuant to Section 401(k) of the Internal Revenue Code. In addition, we make matching contributions with respect to participant contributions. Effective January 1, 2009, the six months of service requirement was eliminated and employees may immediately make a deferral election upon hire. The McJunkin Red Man Retirement Plan also features a discretionary profit-sharing component. This provides for annual employer contributions, generally based upon a formula related primarily to earnings, limited to 15% of the eligible compensation paid to all eligible employees. Employees must have at least six months of service to receive a profit-sharing contribution.

Eligible employees of Midfield Supply ULC located in Canada participate in a Registered Retirement Savings Plan after three months of service. Elective contributions are made on an employee-by-employee basis.

*Valuation:* We use the corridor approach in the valuation of our defined benefit plans. The corridor approach defers all actuarial gains and losses resulting from variances between actual results and economic estimates or actuarial assumptions. These unrecognized gains and losses are amortized when the net gains and losses exceed 10% of the greater of the market-related value of plan assets or the projected benefit obligation at the beginning of the year. The amount in excess of the corridor is amortized over the average remaining service period to retirement date for active plan participants or, for retired participants, the average remaining life expectancy.

The following table sets forth the principal weighted-average assumptions used to determine benefit obligation and benefit costs:

	Year Ended December 31,	
	2010	2009
Benefit obligation:		
Discount rate	5.00%	5.38%
Rate of compensation increase	2.00%	2.00%
Benefit cost:		
Discount rate	5.00%	5.38%
Rate of compensation increase	2.00%	2.00%
Expected return on plan assets	5.55%	5.93%

We determine our discount rates in the Euro zone using the iBoxx Euro Corporate AA Bond indices, with appropriate adjustments for the duration of the plan obligations.

The expected rate of return is assessed annually and is based on long-term relationships among major asset classes and the level of incremental returns that can be earned by investment management strategies. Equity returns are based on estimates of long-term inflation rates, real rates of return, fixed income premiums over cash and equity risk premiums. Fixed income returns are based on maturity, long-term inflation, real rates of return and credit spreads. Insurance contract returns are based upon the average fixed return on contracts and the historical supplemental profit sharing of the insurers.

*Plan Assets:* The investment objective for the plans are to earn a long-term expected rate of return, net of investment fees and transaction costs, to satisfy the benefit obligations of the plan, while at the same time maintaining sufficient liquidity to pay benefit obligations and expenses and meet any other cash needs, in the short-to-medium term.

The following table sets forth the weighted-average target asset allocations for our pension plans:

	2010	2009
Fixed income securities	73%	76%
Equity securities	22%	19%
Insurance contracts	5%	5%
Total	100%	100%

Our investment policies and strategies for the pension benefit plans do not use target allocations for the individual asset categories. Our goals are to maximize returns subject to specific risk management policies. We address diversification by the use of investments in domestic and international fixed income securities and domestic and international equity securities. These investments are readily marketable and can be sold to fund benefit obligations as they become payable.

Our defined benefit plan assets are measured at fair value on a recurring basis and include the following items:

*Cash and cash equivalents:* Foreign and domestic currencies, as well as short-term securities, are valued at cost plus accrued interest, which approximates fair value.

*Corporate stock and fixed income:* Valued at the closing price reported on the active market in which the individual securities are traded. Automated quotes are provided by multiple pricing services and validated by the plan custodian. These securities are traded on exchanges, as well as in the over-the-counter market.

*Insurance contracts:* Valued at contributions made, plus earnings, less participant withdrawals and administrative expenses, which approximates fair value.

The financial objectives of the qualified pension plans are estimated in conjunction with a comprehensive review of each plan's liability structure. Our asset allocation policy is based on detailed asset/liability analyses. In developing investment policy and financial goals, consideration is given to each plan's demographics, the returns and risks associated with alternative investment strategies and the current and projected cash, expense and funding ratios of each plan. Investment policies must also comply with local statutory requirements as determined by each country. We have adopted a long-term investment horizon such that the risk and duration of investment losses are weighed against the long-term potential for appreciation of assets. Although there cannot be complete assurance that these objectives will be realized, it is believed that the likelihood for their realization is reasonably high, based upon the asset allocation chosen and the historical and expected performance of the asset classes utilized by the plans. The intent is for investments to be broadly diversified across asset classes, investment styles, market sectors, investment managers, developed and emerging markets and securities in order to moderate portfolio volatility and risk. Investments may be in separate accounts, commingled trusts, mutual funds and other pooled asset portfolios provided they all conform to fiduciary standards.

External investment managers are hired to manage pension assets. Over the long-term, the investment portfolio is expected to earn returns that exceed a composite of market indices that are weighted to match each plan's target asset allocation. The portfolio return should also (over the long-term) meet or exceed the return used for actuarial calculations in order to meet the future needs of the plan.

We expect to contribute approximately \$0.7 million to our defined benefit pension plans in 2011.

The table below reflects pension benefits expected to be paid from the plan assets for the next ten years (in thousands). The expected benefits are based on the same assumptions used to measure our benefit obligation at December 31, 2010 and include estimated future employee service.

**NOTE 13 — SEGMENT, GEOGRAPHIC AND PRODUCT LINE INFORMATION**

We operate as two business segments, North America and International. Our North American segment consists of our operations in the United States and Canada. Our International segment consists of our operations outside of North America, principally Europe, Asia and Australasia. These segments represent our business of selling pipe, valves and fittings to the energy and industrial sectors, across each of the upstream (exploration, production and extraction of underground oil and gas), midstream (gathering and transmission of oil and gas, gas utilities, and the storage and distribution of oil and gas) and downstream (crude oil refining, petrochemical processing and general industrials) markets.

**NOTE 14 — FAIR VALUE MEASUREMENTS**

We used the following methods and significant assumptions to estimate fair value for assets and liabilities recorded at fair value.

**Assets Held for Sale:** Included in assets held for sale at December 31, 2009 were certain investments held for sale that were reported at fair value utilizing Level 1 inputs. The fair value of these investments held for sale was determined by obtaining quoted prices on nationally recognized securities exchanges. We sold these investments in June 2010.

**Interest Rate Contracts:** Interest rate contracts are reported at fair value utilizing Level 2 inputs. We obtain dealer quotations to value our interest rate swap agreements. These quotations rely on observable market inputs such as yield curves and other market-based factors.

**Foreign Exchange Forward Contracts:** Foreign exchange forward contracts are reported at fair value utilizing Level 2 inputs, as the fair value is based on broker quotes for the same or similar derivative instruments.

**McJUNKIN RED MAN HOLDING CORPORATION**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

The following table presents assets and liabilities measured at fair value on a recurring basis, and the basis for that measurement (in thousands):

Long-term debt	1,360,241	1,292,826	1,452,610	1,435,110

The carrying values of our financial instruments, including cash and cash equivalents, accounts receivable, trade accounts payable and accrued liabilities, approximate fair value because of the short maturity of these financial instruments.

We estimated the fair value of the senior secured notes using quoted market prices as of December 31, 2010 and 2009.

We estimated the fair value of our ABL based on dealer quotations as of December 31, 2010. The ABL was repriced late in December 2009; therefore, at December 31, 2009, the carrying value was deemed to approximate the fair value. The carrying values of the remaining portions of our long-term debt approximate their fair values.

***Litigation***

We are involved in various legal proceedings and claims, both as a plaintiff and a defendant, which arise in the ordinary course of business.

These legal proceedings include claims where we are named as a defendant in lawsuits brought against a large number of entities by individuals seeking damages for injuries allegedly caused by certain products containing asbestos. As of December 31, 2010, we are a defendant in lawsuits involving approximately 940 such claims. Each claim involves allegations of exposure to asbestos-containing materials by a single individual or an individual, his or her spouse and/or family members. The complaints typically name many other defendants. In a majority of these lawsuits, little or no information is known regarding the nature of the plaintiffs' alleged injuries or their connection with the products distributed by us. Through December 31, 2010, lawsuits involving over 11,700 claims have been brought against us with the majority being settled, dismissed or otherwise resolved. In total, since the first asbestos claim brought against us through December 31, 2010, approximately \$1.2 million has been paid to asbestos claimants in connection with settlements of claims against us without regard to insurance recoveries.

With the assistance of accounting and financial consultants and our asbestos litigation counsel, we conducted analyses of asbestos-related litigation in order to estimate the adequacy of the reserve for pending and probable asbestos-related claims. These analyses consist of separately estimating our reserve with respect to pending claims (both those scheduled for trial and those for which a trial date had not been scheduled), mass filings (including lawsuits brought in West Virginia each involving many — in some cases over a hundred — plaintiffs, which include little information regarding the nature of each plaintiff's claim and historically have rarely resulted in any payments to plaintiffs) and probable future claims. A key element of the analysis is categorizing our claims by the type of disease alleged by the plaintiffs and developing "benchmark" estimated settlement values for each claim category based on our historical settlement experience. These estimated settlement values are applied to each of our pending individual claims. With respect to pending claims where the disease type is unknown, the outcome is projected based on the historic ratio of disease types among filed claims (or "disease mix") and dismissal rate. The reserve with respect to mass filings is estimated by determining the number of individual plaintiffs included in the mass filings likely to have claims resulting in settlements based on our historical experience with mass filings. Finally, probable claims expected to be asserted against us over the next fifteen years are estimated based on public health estimates of future incidences of certain asbestos-related diseases in the general U.S. population. Estimated

**McJUNKIN RED MAN HOLDING CORPORATION**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

settlement values are applied to those projected claims. Our annual assessment, dated September 30, 2010, projected our payments to asbestos claimants over the next fifteen years are estimated to range from \$5 million to \$10 million. Given these estimates and existing insurance coverage that historically has been available to cover substantial portions of our past payments to claimants and defense costs, we believe that our current accruals and associated estimates relating to pending and probable asbestos-related litigation likely to be asserted over the next fifteen years are currently adequate. Our belief that our accruals and associated estimates are currently adequate, however, relies on a number of significant assumptions, including:

- That our future settlement payments, disease mix and dismissal rates will be materially consistent with historic experience;
- That future incidences of asbestos-related diseases in the U.S. will be materially consistent with current public health estimates;
- That the rates at which future asbestos-related mesothelioma incidences result in compensable claims filings against us will be materially consistent with its historic experience;
- That insurance recoveries for settlement payments and defense costs will be materially consistent with historic experience;
- That legal standards (and the interpretation of these standards) applicable to asbestos litigation will not change in material respects;
- That there are no materially negative developments in the claims pending against us; and
- That key co-defendants in current and future claims remain solvent.

If any of these assumptions prove to be materially different in light of future developments, liabilities related to asbestos-related litigation may be materially different than amounts accrued and/or estimated. Further, while we anticipate that additional claims will be filed in the future, we are unable to predict with any certainty the number, timing and magnitude of such future claims.

On July 30, 2010, an action was brought against the Company in Delaware Chancery Court by a former shareholder of our predecessor, McJunkin Corporation, on his own behalf and as trustee for a trust, alleging the Company has not fully complied with a contractual obligation to divest of certain noncore assets contained in the December 2006 merger agreement and seeking damages and equitable relief. We have also received written notice from other former shareholders who similarly claim the Company has not fully complied with that contractual obligation. We believe that this action, and the related claim of other shareholders, is without merit and we intend to vigorously defend ourselves against the allegations. On September 28, 2010, the Company filed a motion to dismiss the action in its entirety. On February 11, 2011, the Court granted the Company's motion to dismiss the claims for equitable relief with prejudice, but denied the motion to dismiss the contractual claims. The Company submitted its response to the remaining claims in March 2011.

There is a possibility that resolution of certain legal contingencies for which there are no liabilities recorded could result in a loss. Management is not able to estimate the amount of such loss, if any. However, in our opinion, after consultation with counsel, the ultimate resolution of all pending matters is not expected to have a material effect on our financial position, although it is possible that such resolutions could have a material adverse impact on results of operations in the period of resolution.

***Customer Contracts***

We have contracts and agreements with many of our customers that dictate certain terms of our sales arrangements (pricing, deliverables, etc.). While we make every effort to abide by the terms of these contracts, certain provisions are complex and often subject to varying interpretations. Under the terms of these contracts, our

**McJUNKIN RED MAN HOLDING CORPORATION**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

customers have the right to audit our adherence to the contract terms. Historically, any settlements that have resulted from these customer audits have been immaterial to our consolidated financial statements.

***Letters of Credit***

Our letters of credit outstanding at December 31, 2010 approximated \$16 million.

***Bank Guarantees***

Certain of our international subsidiaries have trade guarantees given by bankers on their behalf. The amount of these guarantees at December 31, 2010 was approximately €6 million (USD \$8 million).

***Purchase Commitments***

We have purchase obligations consisting primarily of inventory purchases made in the normal course of business to meet operating needs. While our vendors often allow us to cancel these purchase orders without penalty, in certain cases, cancellations may subject us to cancellation fees or penalties depending on the terms of the contract.

***Warranty Claims***

We are involved from time to time in various warranty claims, which arise in the ordinary course of business. Historically, any settlements that have resulted from these warranty claims have been immaterial to our consolidated financial statements.

**NOTE 16 — GUARANTOR AND NON-GUARANTOR FINANCIAL STATEMENTS**

***Delaware***

McJunkin Red Man Corporation (the “Company”), McJunkin Nigeria Limited, McJunkin-Puerto Rico Corporation, McJunkin Red Man Development Corporation, McJunkin Red Man Holding Corporation, McJunkin-West Africa Corporation and MRC Management Company are Delaware corporations. Section 145 of the Delaware General Corporation Law, or DGCL, provides that a corporation may indemnify directors and officers as well as other employees and individuals against expenses (including attorneys’ fees), judgments, fines and amounts paid in settlement in connection with specified actions, suits and proceedings, whether civil, criminal, administrative or investigative (other than action by or in the right of the corporation — a “derivative action”), if they acted in good faith and in a manner they reasonably believed to be in or not opposed to the best interests of the corporation and, with respect to any criminal action or proceeding, had no reasonable cause to believe their conduct was unlawful.

A similar standard is applicable in the case of derivative actions, except that indemnification only extends to expenses (including attorneys’ fees) incurred in connection with the defense or settlement of such action, and the statute requires court approval before there can be any indemnification where the person seeking indemnification has been found liable to the corporation. The statute provides that it is not exclusive of other indemnification that may be granted by a corporation’s certificate of incorporation, bylaws, disinterested director vote, stockholder vote, agreement, or otherwise.

The DGCL further authorizes a corporation to purchase and maintain insurance on behalf of any person who is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation or enterprise, against any liability asserted against him and incurred by him in any such capacity, arising out of his status as such, whether or not the corporation would otherwise have the power to indemnify him under Section 145.

The bylaws of the Company and McJunkin Red Man Holding Corporation provide for the indemnification of directors and officers to the fullest extent permitted by Delaware law. The bylaws of McJunkin Nigeria Limited provide for indemnification of directors and officers for acts in good faith and in a manner reasonably believed to be in or not opposed to the best interests of the corporation and, with respect to criminal matters, for which such person did not have reasonable cause to believe such conduct was unlawful. The bylaws of McJunkin-Puerto Rico Corporation, McJunkin Red Man Development Corporation and McJunkin-West Africa Corporation provide that the corporation has the power to indemnify of directors and officers for acts in good faith and in a manner reasonably believed to be in or not opposed to the best interests of the corporation and, with respect to criminal matters, for which such person did not have reasonable cause to believe such conduct was unlawful. The bylaws of MRC Management Company provide for indemnification of directors and officers in accordance with the provisions of Section 145 of the DGCL. The certificates of incorporation of the Company and McJunkin Red Man Holding Corporation provide that a director shall have no personal liability for monetary damages for breach of fiduciary duty as a director, except (i) for any breach of the director’s duty of loyalty, (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (iii) under Section 174 of the DGCL, or (iv) for any transaction from which the director derived an improper personal benefit.

***West Virginia***

Greenbrier Petroleum Corporation, Milton Oil & Gas Company and Ruffner Realty Company are West Virginia corporations. The West Virginia Business Corporation Act (“WVBCA”) empowers a corporation to indemnify an individual made a party to a proceeding because he is or was a director against liability incurred in the proceeding if: (1)(A) he conducted himself in good faith; and (B) he reasonably believed (i) in the case of conduct in his official capacity with the corporation, that his conduct was in its best interests; and (ii) in all other cases, that his conduct was at least not opposed to its best interests; and (C) in the case of any criminal proceeding, he had no

reasonable cause to believe his conduct was unlawful; or (2) he engaged in conduct for which broader indemnification has been made permissible or obligatory under a provision of the articles of incorporation. A corporation may not indemnify a director (1) in connection with a proceeding by or in the right of the corporation, except for reasonable expenses incurred in connection with the proceeding; or (2) in connection with any other proceeding with respect to conduct for which he was adjudged liable on the basis that he received financial benefit to which he was not entitled, whether or not involving action in his official capacity. A corporation must indemnify a director who was wholly successful, on the merits or otherwise, in the defense of any proceeding to which he was a party because he is or was a director of the corporation against reasonable expenses incurred by him in connection with the proceeding. Under the WVBCA, a corporation may pay for or reimburse the reasonable expenses incurred by a director who is a party to a proceeding in advance of the final disposition of the proceeding if: (1) the director furnishes the corporation a written affirmation of his good faith belief that he has met the relevant standard of conduct; and (2) the director furnishes the corporation a written undertaking to repay the advance if the director is not entitled to mandatory indemnification under the WVBCA and it is ultimately determined that he did not meet the relevant standard of conduct. A corporation may indemnify and advance expenses to an officer of the corporation to the same extent as to a director. A corporation may also purchase and maintain on behalf of a director or officer of the corporation insurance against liabilities incurred in such capacities, whether or not the corporation would have the power to indemnify him against the same liability under the WVBCA.

The bylaws of Greenbrier Petroleum Corporation provide for indemnification of directors and officers for acts in good faith and in a manner reasonably believed to be in or not opposed to the best interests of the corporation and, with respect to criminal matters, for which such person did not have reasonable cause to believe such conduct was unlawful. The bylaws of Milton Oil & Gas Company and Ruffner Realty Company provide for indemnification of directors and officers except in relation to matters as to which such person is adjudged to be liable for such person's own negligence or misconduct in the performance of such person's duties.

### ***New York***

Midway-Tristate Corporation is a New York corporation. Section 722(a) of the New York Business Corporation Law ("NYBCL") provides that a corporation may indemnify any officer or director made, or threatened to be made, a party to an action or proceeding (other than one by or in the right of the corporation to procure judgment in its favor), whether civil or criminal, including an action by or in the right of any other corporation, or other enterprise, which any director or officer of the corporation served in any capacity at the request of the corporation, by reason of the fact that he was a director or officer of the corporation, or served such other corporation or other enterprise in any capacity, against judgments, fines, amounts paid in settlement and reasonable expenses, including attorneys' fees actually and necessarily incurred as a result of such action or proceeding, or any appeal therein, if such director or officer acted, in good faith, for a purpose which he reasonably believed to be in, or, in the case of service for any other corporation or other enterprise, not opposed to, the best interests of the corporation and, in criminal actions or proceedings, had no reasonable cause to believe that his conduct was unlawful.

Section 722(c) of the NYBCL provides that a corporation may indemnify any officer or director made, or threatened to be made, a party to an action by or in the right of the corporation to procure judgment in its favor by reason of the fact that he is or was a director or officer of the corporation, or is or was serving at the request of the corporation as a director or officer of any other corporation of any type or kind, or other enterprise, against amounts paid in settlement and reasonable expenses, including attorneys' fees, actually and necessarily incurred by him in connection with the defense or settlement of such action, or in connection with an appeal therein, if such director or officer acted, in good faith, for a purpose which he reasonably believed to be in, or, in the case of service for another corporation or other enterprise, not opposed to, the best interests of the corporation. The corporation may not, however, indemnify any officer or director pursuant to Section 722(c) in respect of (1) a threatened action, or a pending action which is settled or otherwise disposed of, or (2) any claim, issue or matter as to which such person shall have been adjudged to be liable to the corporation, unless and only to the extent that the court in which the action was brought or, if no action was brought, any court of competent jurisdiction, determines upon application, that the person is fairly and reasonably entitled to indemnity for such portion of the settlement and expenses as the court deems proper.

Section 723 of the NYBCL provides that an officer or director who has been successful, on the merits or otherwise, in the defense of a civil or criminal action or proceeding of the character set forth in Section 722 is entitled to indemnification as permitted in such section. Section 724 of the NYBCL permits a court to award the indemnification required by Section 722.

Section 721 of the NYBCL provides that, in addition to indemnification provided in Article 7 of the NYBCL, a corporation may indemnify a director or officer by a provision contained in the certificate of incorporation or by-laws or by a duly authorized resolution of its shareholders or directors or by agreement, provided that no indemnification may be made to or on behalf of any director or officer if a judgment or other final adjudication adverse to the director or officer establishes that his acts were committed in bad faith or were the result of active and deliberate dishonesty and were material to the cause of action so adjudicated, or that such director or officer personally gained in fact a financial profit or other advantage to which he was not legally entitled.

Section 402(b) of the NYBCL provides that a corporation's certificate of incorporation may include a provision eliminating or limiting the personal liability of its directors to the corporation or its shareholders for damages for any breach of duty in such capacity, except (i) liability of a director if a judgment or other final adjudication adverse to such director establishes that the director's acts or omissions were in bad faith or involved intentional misconduct or a knowing violation of law or that he personally gained in fact a financial profit or other advantage to which he was not legally entitled or that his acts violated Section 719 of the NYBCL or (ii) liability of any director for any act or omission prior to the adoption of a provision authorized by Section 402(b) of the NYBCL.

The bylaws of Midway-Tristate Corporation provide for indemnification to the fullest extent permitted by New York law except if it is adjudged that such persons acts were committed in bad faith or were the result of active and deliberate dishonesty and, in either case, were material to the cause of action so adjudicated or such person gained a financial profit or other advantage to which such person was not legally entitled. The certificate of incorporation of Midway-Tristate Corporation provides for indemnification of all persons whom it shall have power to indemnify under Article 7 of the NYBCL to the fullest extent permitted under said Article and that no director of the corporation shall be liable for any breach of duty except if such person's actions are adjudged to be in bad faith or involved intentional misconduct or a knowing violation of the law or such person personally gained a financial profit or other advantage to which such person was not legally entitled or that such person's acts violated Section 719 of the NYBCL.

### *Texas*

The South Texas Supply Company, Inc. is a Texas corporation. The Texas Business Corporation Act ("TBCA") permits a Texas corporation to indemnify any present or former director, officer, employee or agent of the corporation against judgments, penalties, fines, settlements and reasonable expenses incurred in connection with a proceeding in which any such person was, is or is threatened to be, made a party by reason of holding such office or position, provided that he conducted himself in good faith and reasonably believed that, in the case of conduct in his official capacity as a director or officer of the corporation, such conduct was in the corporation's best interests and, in the case of a criminal proceeding, a director or officer may be indemnified only if he had no reasonable cause to believe his conduct was unlawful. However, indemnification is limited to reasonable expenses actually incurred where (a) a person is found liable on the basis that a personal benefit was improperly received or (b) the person is found liable in a derivative suit brought on behalf of the corporation and the person was not liable for willful or intentional misconduct. Under the TBCA, a director or officer must be indemnified in cases in which he is wholly successful on the merits or in the defense of the proceedings. The TBCA provides that indemnification pursuant to its provisions is not exclusive of other rights of indemnification to which a person may be entitled under any bylaw, agreement, vote of shareholders or disinterested directors, or otherwise. The TBCA authorizes corporations to maintain insurance to cover indemnification expenses on behalf of any person who is or was a director, officer, agent or employee of the corporation or was serving at the request of the corporation, regardless of whether the corporation would have the power to indemnify such person against liability under the TBCA.

The bylaws of The South Texas Supply Company, Inc. provide that the board of directors of the corporation may authorize the corporation to pay expenses incurred by, or to satisfy a judgment or fine rendered or levied against directors and officers as provided by Article 2.02(A)(16) of the TBCA.

## ***Insurance***

The company has also obtained officers' and directors' liability insurance which insures against liabilities that officers and directors of each of the registrants may, in such capacities, incur.

## Item 22. *Undertakings.*

Each of the undersigned registrants hereby undertake:

(a) (1) to file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) to include any prospectus required by Section 10(a)(3) of the Securities Act;

(ii) to reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the SEC pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in effective registration statement; and

(iii) to include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

(2) that, for the purpose of determining any liability under the Securities Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof;

(3) to remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering;

(4) that, for the purpose of determining liability under the Securities Act of 1933 to any purchaser, each prospectus filed pursuant to Rule 424(b) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A, shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. *Provided, however*, that no statement made in a registration statement or prospectus that is part of the

registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use; and

(5) that, for the purpose of determining liability of the registrant under the Securities Act to any purchaser in the initial distribution of the securities the undersigned registrant undertakes that in a primary offering of securities of the undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

- (i) any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424;
- (ii) any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;
- (iii) the portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and
- (iv) any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.

(b) Each of the undersigned registrants hereby undertakes to respond to requests for information that is incorporated by reference in to the prospectus pursuant to Items 4, 10(b), 11 or 13 of this form, within one business day of receipt of such request, and to send the incorporated documents by first class mail or equally prompt means. This includes information contained in documents filed subsequent to the effective date of the registration statement through the date of responding to the request.

(c) Each of the undersigned registrants hereby undertakes to supply by means of a post-effective amendment all information concerning a transaction, and the company being acquired involved therein, that was not the subject of and included in the registration statement.

(d) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been informed that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act of 1933 and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer, or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

SECTION 7. Proxies and Voting. At any meeting of the stockholders, every stockholder entitled to vote may vote in person or by proxy authorized by an

instrument in writing or by a transmission permitted by law filed in accordance with the procedure established for the meeting. Any copy, facsimile telecommunication or other reliable reproduction of the writing or transmission created pursuant to this paragraph may be substituted or used in lieu of the original writing or transmission for any and all purposes for which the original writing or transmission could be used, provided that such copy, facsimile telecommunication or other reproduction shall be a complete reproduction of the entire original writing or transmission.

The Corporation may, and to the extent required by law, shall, in advance of any meeting of stockholders, appoint one or more inspectors to act at the meeting and make a written report thereof. The Corporation may designate one or more alternate inspectors to replace any inspector who fails to act. If no inspector or alternate is able to act at a meeting of stockholders, the person presiding at the meeting may, and to the extent required by law, shall, appoint one or more inspectors to act at the meeting. Each inspector, before entering upon the discharge of his or her duties, shall take and sign an oath faithfully to execute the duties of inspector with strict impartiality and according to the best of his or her ability. Every vote taken by ballots shall be counted by an inspector or inspectors appointed by the chairman of the meeting.

All elections shall be determined by a plurality of the votes cast, and except as otherwise required by law, all other matters shall be determined by a majority of the votes cast affirmatively or negatively.

SECTION 8. Stock List. A complete list of stockholders entitled to vote at any meeting of stockholders, arranged in alphabetical order for each class of stock and showing the address of each such stockholder and the number of shares registered in his or her name, shall be open to the examination of any such stockholder for a period of at least ten (10) days prior to the meeting in the manner provided by law.

The stock list shall also be open to the examination of any stockholder during the whole time of the meeting as provided by law. This list shall presumptively determine the identity of the stockholders entitled to vote at the meeting and the number of shares held by each of them.

SECTION 9. Consent of Stockholders in Lieu of Meeting. Any action required to be taken at any annual or special meeting of stockholders of the Corporation, or any action which may be taken at any annual or special meeting of the stockholders, may be taken without a meeting, without prior notice and without a vote, if a consent or consents in writing, setting forth the action so taken, shall be signed by the holders of outstanding stock having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares entitled to vote thereon were present and voted and shall be delivered to the Corporation by delivery to its registered office in Delaware, its principal place of business, or an officer or agent of the Corporation having custody of the book in which proceedings of meetings of stockholders

are recorded. Delivery made to the Corporation's registered office shall be made by hand or by certified or registered mail, return receipt requested.

Every written consent shall bear the date of signature of each stockholder who signs the consent and no written consent shall be effective to take the corporate action referred to therein unless, within sixty (60) days of the date the earliest dated consent is delivered to the Corporation, a written consent or consents signed by a sufficient number of holders to take action are delivered to the Corporation in the manner prescribed in the first paragraph of this Section. A telegram, facsimile or other electronic transmission consenting to an action to be taken and transmitted by a stockholder or proxyholder, or by a person or persons authorized to act for a stockholder or proxyholder, shall be deemed to be written, signed and dated for the purposes of this Section to the extent permitted by law. Any such consent shall be delivered in accordance with Section 228(d)(1) of the Delaware General Corporation Law.

Any copy, facsimile or other reliable reproduction of a consent in writing may be substituted or used in lieu of the original writing for any and all purposes for which the original writing could be used, provided that such copy, facsimile or other reproduction shall be a complete reproduction of the entire original writing.

### ARTICLE III

SECTION 1. Number and Term of Office. The number of directors constituting the initial Board of Directors shall be one. Thereafter, the number of directors may be fixed, from time to time, by the affirmative vote of a majority of the entire Board of Directors or by action of the stockholders of the Corporation. Any decrease in the number of directors shall be effective at the time of the next succeeding annual meeting of stockholders unless there shall be vacancies in the Board of Directors, in which case such decrease may become effective at any time prior to the next succeeding annual meeting to the extent of the number of such vacancies. Directors need not be stockholders. Except as otherwise provided by statute or these By-laws, the directors (other than members of the initial Board of Directors) shall be elected at the annual meeting of stockholders. Each director shall hold office until his successor shall have been elected and qualified, or until his death, or until he shall have resigned, or have been removed, as hereinafter provided in these By-laws.

SECTION 2. Removal. Any director may be removed, either with or without cause, at any time, by the holders of a majority of the voting power of the issued and outstanding capital stock of the Corporation entitled to vote at an election of directors.

SECTION 3. Resignation. Any director of the Corporation may resign at any time by giving written notice of his resignation to the Corporation. Any such resignation shall take effect at the time specified therein or, if the time when it shall

become effective shall not be specified therein, immediately upon its receipt. Unless otherwise specified therein, the acceptance of such resignation shall not be necessary to make it effective.

SECTION 4. Vacancies. Any vacancy in the Board of Directors, whether arising from death, resignation, removal (with or without cause), an increase in the number of directors or any other cause, may be filled by the vote of a majority of the directors then in office, though less than a quorum, or by the sole remaining director or by the stockholders at the next annual meeting thereof or at a special meeting thereof. Each director so elected shall hold office until his successor shall have been elected and qualified.

SECTION 5. Regular Meetings. Regular meetings of the Board of Directors shall be held at such place or places, on such date or dates, and at such time or times as shall have been established by the Board of Directors and publicized among all directors. A notice of each regular meeting shall not be required.

SECTION 6. Special Meetings. Special meetings of the Board of Directors may be called by one-third (1/3) of the directors then in office (rounded up to the nearest whole number) or by the President and shall be held at such place, on such date, and at such time as they or he or she shall fix. Notice of the place, date, and time of each such special meeting shall be given to each director by whom it is not waived by mailing written notice not less than five (5) days before the meeting or by telegraphing or telexing or by facsimile or electronic transmission of the same not less than twenty-four (24) hours before the meeting. Unless otherwise indicated in the notice thereof, any and all business may be transacted at a special meeting.

SECTION 7. Quorum. At any meeting of the Board of Directors, a majority of the total number of the whole Board of Directors shall constitute a quorum for all purposes. If a quorum shall fail to attend any meeting, a majority of those present may adjourn the meeting to another place, date, or time, without further notice or waiver thereof.

SECTION 8. Participation in Meetings By Conference Telephone. Members of the Board of Directors, or of any committee thereof, may participate in a meeting of such Board of Directors or committee by means of conference telephone or other communications equipment by means of which all persons participating in the meeting can hear each other and such participation shall constitute presence in person at such meeting.

SECTION 9. Conduct of Business. At any meeting of the Board of Directors, business shall be transacted in such order and manner as the Board of Directors may from time to time determine, and all matters shall be determined by the vote of a majority of the directors present, except as otherwise provided herein or required by law. Action may be taken by the Board of Directors without a meeting if all members thereof

consent thereto in writing or by electronic transmission, and the writing or writings or electronic transmission or transmissions are filed with the minutes of proceedings of the Board of Directors. Such filing shall be in paper form if the minutes are maintained in paper form and shall be in electronic form if the minutes are maintained in electronic form.

In the absence or disqualification of any member of any committee and any alternate member in his or her place, the member or members of the committee present at the meeting and not disqualified from voting, whether or not he or she or they constitute a quorum, may by unanimous vote appoint another member of the Board of Directors to act at the meeting in the place of the absent or disqualified member.

SECTION 2. Conduct of Business. Each committee may determine the procedural rules for meeting and conducting its business and shall act in accordance therewith, except as otherwise provided herein or required by law. Adequate provision shall be made for notice to members of all meetings; one-third (1/3) of the members shall constitute a quorum unless the committee shall consist of one (1) or two (2) members, in which event one (1) member shall constitute a quorum; and all matters shall be determined by a majority vote of the members present. Action may be taken by any committee without a meeting if all members thereof consent thereto in writing or by electronic transmission, and the writing or writings or electronic transmission or transmissions are filed with the minutes of the proceedings of such committee. Such filing shall be in paper form if the minutes are maintained in paper form and shall be in electronic form if the minutes are maintained in electronic form.

SECTION 1. Certificates of Stock. Each holder of stock represented by certificates shall be entitled to a certificate signed by, or in the name of the Corporation by, the President or a Vice President, and by the Secretary or an Assistant Secretary, or the Treasurer or an Assistant Treasurer, certifying the number of shares owned by him or her. Any or all of the signatures on the certificate may be by facsimile.

SECTION 2. Transfers of Stock. Transfers of stock shall be made only upon the transfer books of the Corporation kept at an office of the Corporation or by transfer agents designated to transfer shares of the stock of the Corporation. Except where a certificate is issued in accordance with Section 4 of Article VI of these By-laws, an outstanding certificate, if one has been issued, for the number of shares involved shall be surrendered for cancellation before a new certificate, if any, is issued therefor.

SECTION 3. Record Date. In order that the Corporation may determine the stockholders entitled to notice of or to vote at any meeting of stockholders, or to receive payment of any dividend or other distribution or allotment of any rights or to exercise any rights in respect of any change, conversion or exchange of stock or for the purpose of any other lawful action, the Board of Directors may fix a record date, which record date shall not precede the date on which the resolution fixing the record date is adopted and which record date shall not be more than sixty (60) nor less than ten (10) days before the date of any meeting of stockholders, nor more than sixty (60) days prior to the time for such other action as hereinbefore described; provided, however, that if no record date is fixed by the Board of Directors, the record date for determining stockholders entitled to notice of or to vote at a meeting of stockholders shall be at the close of business on the day next preceding the day on which notice is given or, if notice is waived, at the close of business on the day next preceding the day on which the meeting is held, and, for determining stockholders entitled to receive payment of any dividend or other distribution or allotment of rights or to exercise any rights of change, conversion or exchange of stock or for any other purpose, the record date shall be at the close of business on the day on which the Board of Directors adopts a resolution relating thereto.

A determination of stockholders of record entitled to notice of or to vote at a meeting of stockholders shall apply to any adjournment of the meeting; provided, however, that the Board of Directors may fix a new record date for the adjourned meeting.

In order that the Corporation may determine the stockholders entitled to consent to corporate action without a meeting, (including by telegram, cablegram or other electronic transmission as permitted by law), the Board of Directors may fix a record date, which shall not precede the date upon which the resolution fixing the record date is adopted by the Board of Directors, and which record date shall be not more than ten (10) days after the date upon which the resolution fixing the record date is adopted. If no record date has been fixed by the Board of Directors and no prior action by the Board of Directors is required by the Delaware General Corporation Law, the record date shall be the first date on which a consent setting forth the action taken or proposed to be taken is delivered to the Corporation in the manner prescribed by Article II, Section 9 hereof. If no record date has been fixed by the Board of Directors and prior action by the Board of Directors is required by the Delaware General Corporation Law with respect to the proposed action by consent of the stockholders without a meeting, the record date for determining stockholders entitled to consent to corporate action without a meeting shall be at the close of business on the day on which the Board of Directors adopts the resolution taking such prior action.

SECTION 4. Lost, Stolen or Destroyed Certificates. SECTION 2. Waivers. A written waiver of any notice, signed by a stockholder or director, or waiver by electronic transmission by such person, whether given before or after the time of the event for which notice is to be given, shall be deemed

equivalent to the notice required to be given to such person. Neither the business nor the purpose of any meeting need be specified in such a waiver.

## ARTICLE VIII

### Miscellaneous

In addition to the provisions for use of facsimile signatures elsewhere specifically authorized in these By-laws, facsimile signatures of any officer or officers of the Corporation may be used whenever and as authorized by the Board of Directors or a committee thereof.

SECTION 2. Corporate Seal. The Board of Directors may provide a suitable seal, containing the name of the Corporation, which seal shall be in the charge of the Secretary. SECTION 3. Reliance upon Books, Reports and Records. Each director, each member of any committee designated by the Board of Directors, and each officer of the Corporation shall, in the performance of his or her duties, be fully protected in relying in good faith upon the books of account or other records of the Corporation and upon such information, opinions, reports or statements presented to the Corporation by any of its officers or employees, or committees of the Board of Directors so designated, or by any other person as to matters which such director or committee member reasonably believes are within such other person's professional or expert competence and who has been selected with reasonable care by or on behalf of the Corporation.

SECTION 4. Fiscal Year. The fiscal year of the Corporation shall be as fixed by the Board of Directors.

SECTION 5. Time Periods. In applying any provision of these By-laws which requires that an act be done or not be done a specified number of days prior to an event or that an act be done during a period of a specified number of days prior to an event, calendar days shall be used, the day of the doing of the act shall be excluded, and the day of the event shall be included.

## ARTICLE IX

### Indemnification of Directors and Officers

SECTION 1. Right to Indemnification. Each person who was or is made a party or is threatened to be made a party to or is otherwise involved in any action, suit or proceeding, whether civil, criminal, administrative or investigative (hereinafter a "proceeding"), by reason of the fact that he or she is or was a director or an officer of the

Corporation or is or was serving at the request of the Corporation as a director, officer, or trustee of another corporation or of a partnership, joint venture, trust or other enterprise, including service with respect to an employee benefit plan (hereinafter an "indemnatee"), whether the basis of such proceeding is alleged action in an official capacity as a director, officer or trustee, or in any other capacity while serving as a director, officer or trustee, shall be indemnified and held harmless by the Corporation to the fullest extent permitted by Delaware law, as the same exists or may hereafter be amended (but, in the case of any such amendment, only to the extent that such amendment permits the Corporation to provide broader indemnification rights than such law permitted the Corporation to provide prior to such amendment), against all expense, liability and loss (including attorneys' fees, judgments, fines, ERISA excise taxes or penalties and amounts paid in settlement) reasonably incurred or suffered by such indemnatee in connection therewith; provided, however, that, except as provided in Section 3 of this ARTICLE IX with respect to proceedings to enforce rights to indemnification, the Corporation shall indemnify any such indemnatee in connection with a proceeding (or part thereof) initiated by such indemnatee only if such proceeding (or part thereof) was authorized by the Board of Directors of the Corporation.

SECTION 2. Right to Advancement of Expenses. In addition to the right to indemnification conferred in Section 1 of this ARTICLE IX, an indemnatee shall also have the right to be paid by the Corporation the expenses (including attorney's fees) incurred in defending any such proceeding in advance of its final disposition (hereinafter an "advancement of expenses"); provided, however, that, if the Delaware General Corporation Law requires, an advancement of expenses incurred by an indemnatee in his or her capacity as a director or officer (and not in any other capacity in which service was or is rendered by such indemnatee, including, without limitation, service to an employee benefit plan) shall be made only upon delivery to the Corporation of an undertaking (hereinafter an "undertaking"), by or on behalf of such indemnatee, to repay all amounts so advanced if it shall ultimately be determined by final judicial decision from which there is no further right to appeal (hereinafter a "final adjudication") that such indemnatee is not entitled to be indemnified for such expenses under this Section 2 or otherwise.

SECTION 3. Right of Indemnatee to Bring Suit. If a claim under Section 1 or 2 of this ARTICLE IX is not paid in full by the Corporation within sixty (60) days after a written claim has been received by the Corporation, except in the case of a claim for an advancement of expenses, in which case the applicable period shall be twenty (20) days, the indemnatee may at any time thereafter bring suit against the Corporation to recover the unpaid amount of the claim. If successful in whole or in part in any such suit, or in a suit brought by the Corporation to recover an advancement of expenses pursuant to the terms of an undertaking, the indemnatee shall be entitled to be paid also the expense of prosecuting or defending such suit. In (i) any suit brought by the indemnatee to enforce a right to indemnification hereunder (but not in a suit brought by the indemnatee to enforce a right to an advancement of expenses) it shall be a defense that, and (ii) in any suit brought by the Corporation to recover an advancement of expenses pursuant to the terms of an

undertaking, the Corporation shall be entitled to recover such expenses upon a final adjudication that, the indemnitee has not met any applicable standard for indemnification set forth in the Delaware General Corporation Law. Neither the failure of the Corporation (including its directors who are not parties to such action, a committee of such directors, independent legal counsel, or its stockholders) to have made a determination prior to the commencement of such suit that indemnification of the indemnitee is proper in the circumstances because the indemnitee has met the applicable standard of conduct set forth in the Delaware General Corporation Law, nor an actual determination by the Corporation (including its directors who are not parties to such action, a committee of such directors, independent legal counsel, or its stockholders) that the indemnitee has not met such applicable standard of conduct, shall create a presumption that the indemnitee has not met the applicable standard of conduct or, in the case of such a suit brought by the indemnitee, be a defense to such suit. In any suit brought by the indemnitee to enforce a right to indemnification or to an advancement of expenses hereunder, or brought by the Corporation to recover an advancement of expenses pursuant to the terms of an undertaking, the burden of proving that the indemnitee is not entitled to be indemnified, or to such advancement of expenses, under this ARTICLE IX or otherwise shall be on the Corporation.

SECTION 4. Non-Exclusivity of Rights. The rights to indemnification and to the advancement of expenses conferred in this ARTICLE IX shall not be exclusive of any other right which any person may have or hereafter acquire under any statute, the Corporation's Certificate of Incorporation, By-laws, agreement, vote of stockholders or disinterested directors or otherwise.

SECTION 5. Insurance. The Corporation may maintain insurance, at its expense, to protect itself and any director, officer, employee or agent of the Corporation or another corporation, partnership, joint venture, trust or other enterprise against any expense, liability or loss, whether or not the Corporation would have the power to indemnify such person against such expense, liability or loss under the Delaware General Corporation Law.

SECTION 6. Indemnification of Employees and Agents of the Corporation. The Corporation may, to the extent authorized from time to time by the Board of Directors, grant rights to indemnification and to the advancement of expenses to any employee or agent of the Corporation to the fullest extent of the provisions of this Article with respect to the indemnification and advancement of expenses of directors and officers of the Corporation.

SECTION 7. Nature of Rights. The rights conferred upon indemnitees in this ARTICLE IX shall be contract rights and such rights shall continue as to an indemnitee who has ceased to be a director, officer or trustee and shall inure to the benefit of the indemnitee's heirs, executors and administrators. Any amendment, alteration or repeal of this ARTICLE IX that adversely affects any right of an indemnitee or its successors shall be prospective only and shall not limit or eliminate any such right with respect to any

proceeding involving any occurrence or alleged occurrence of any action or omission to act that took place prior to such amendment, alteration or repeal.

## ARTICLE II

Section 2.1 Registered Office and Registered Agent. ## ARTICLE III

Section 3.1 Purpose. The purpose of the Corporation is to engage in any lawful act or activity for which corporations may be organized under the DGCL.

## ARTICLE IV

Section 4.1 Capitalization. The total number of shares of all classes of stock that the Corporation is authorized to issue is 950,000,000 shares, consisting of (i) 800,000,000 shares of common stock, par value \$0.01 per share (the "Common Stock") and (ii) 150,000,000 shares of preferred stock, par value \$0.01 per share (the "Preferred Stock"). The number of authorized shares of Common Stock or Preferred Stock may be increased or decreased (but not below the number of shares thereof then outstanding) by the affirmative vote of the holders of a majority of the voting power of the then-outstanding shares of capital stock of the Corporation entitled to vote thereon irrespective of the provisions of Section 242(b)(2) of the DGCL (or any successor provision thereto), and no vote of the holders of any of the Common Stock or the Preferred Stock, or any series thereof, voting separately as a class shall be required therefor, unless a vote of any such holders is required pursuant to the terms of any Preferred Stock Designation.

Section 4.2 Preferred Stock. The Board of Directors is authorized, subject to any limitations prescribed by law, to provide for the issuance of shares of Preferred Stock in series, and by filing a certificate pursuant to the applicable law of the State of Delaware (such certificate being hereinafter referred to as a "Preferred Stock Designation"), to establish from time to time the number of shares to be included in each such series, and to fix the designation, powers, preferences, and rights of the shares of each such series and any qualifications, limitations or restrictions thereof.

Section 4.3 Common Stock. (a) Dividends. Subject to the preferential rights, if any, of the holders of Preferred Stock, the holders of Common Stock shall be entitled to receive, when, as and if declared by the Board of Directors, out of the assets of the Corporation which are by law available therefor, dividends payable either in cash, in property or in shares of capital stock.

(b) Voting Rights. At every annual or special meeting of stockholders of the Corporation, each outstanding share of Common Stock shall entitle the holder thereof to one vote, in person or by proxy, for each share of Common Stock held of record on the books of the Corporation.

(c) Liquidation, Dissolution or Winding Up. Section 4.4 Stock Split. Effective upon the filing of this Amended and Restated Certificate of Incorporation with the Secretary of State of the State of Delaware, a 500-for-1 stock split of the Corporation's Common Stock shall become effective, pursuant to which each share of Common Stock outstanding or held in treasury immediately prior to such time shall automatically and without any action on the part of the holders thereof be subdivided and reclassified into five hundred (500) fully-paid and non-assessable shares of Common Stock (the "Stock Split"). No fractional shares of Common Stock shall be issued upon the Stock Split. In lieu of any fractional shares of Common Stock to which the stockholder would otherwise be entitled upon the Stock Split, the Corporation shall pay to such stockholder cash equal to such fraction multiplied by the then fair value of the Common Stock as determined by the Board of Directors. All certificates representing shares of Common Stock outstanding immediately prior to the filing of this Amended and Restated Certificate of Incorporation shall immediately after the filing of this Amended and Restated Certificate of Incorporation represent the number of shares of Common Stock as provided above. Notwithstanding the foregoing, any holder of Common Stock may (but shall not be required to) surrender his, her or its stock certificate or certificates to the Corporation, and upon such surrender, the Corporation will issue a certificate for the correct number of shares of Common Stock to which the holder is entitled under the provisions of this Amended and Restated Certificate of Incorporation.

## ARTICLE V

Section 5.1 Board of Directors. (a) Composition. The stockholders shall elect a board of directors (the "Board of Directors") to oversee the Corporation's business. The Board of Directors shall initially consist of ten (10) directors, and thereafter shall be not less than three (3) nor more than fifteen (15) directors, the exact number of which shall be fixed in accordance with the By-Laws of the Corporation.

(b) Powers. The business and affairs of the Corporation shall be managed by or under the direction of the Board of Directors. In addition to the powers and authority expressly conferred upon them by statute or by this Amended and Restated Certificate of Incorporation or the By-Laws of the Corporation, the directors are hereby empowered to exercise all such powers and do all such acts and things as may be exercised or done by the Corporation.

(c) Removal. Any director or the entire Board of Directors may be removed with or without cause by the affirmative vote of the holders of the majority of the voting power of all of the then-outstanding shares of capital stock of the Corporation, voting together as a single class then entitled to vote at an election of directors.

(d) Newly-created Directorships and Vacancies. Any newly created directorships on the Board of Directors that result from an increase in the authorized number of directors and any vacancies in the Board of Directors resulting from the death, disability, resignation, disqualification, or removal of any director or from any other cause shall, unless otherwise required by law or by resolution of the Board of Directors, be filled only by the affirmative vote of a majority of the Board of Directors then in office, even if less than a quorum, or by a sole remaining director (and not by stockholders). Any director elected to fill a vacancy not resulting from an increase in the authorized number of directors shall have the same remaining term as that of his or her predecessor. No decrease in the authorized number of directors shall shorten the term of any incumbent director.

(e) Voting Rights of Preferred Stock. Notwithstanding the foregoing, whenever the holders of any one or more series of Preferred Stock issued by the Corporation shall have the right, voting separately as a series or separately as a class with one or more such other series, to elect directors at an annual or special meeting of stockholders, the election, term of office, removal, filling of vacancies and other features of such directorships shall be governed by the terms of this Amended and Restated Certificate of Incorporation (including any certificate of designations relating to any series of Preferred Stock) applicable thereto.

(f) The directors of the Corporation need not be elected by written ballot unless the By-Laws so provide.

(g) Advance notice of stockholder nominations for the election of directors and of business to be brought by stockholders before any meeting of the stockholders of the Corporation shall be given in the manner provided in the By-Laws of the Corporation.

#### ARTICLE VI

Section 6.1 Indemnification of Directors, Officers, Employees or Agents. The rights conferred upon indemnitees in Article VI of the By-Laws shall be contract rights and such rights shall continue as to an indemnitee who has ceased to be a director, officer or trustee and shall inure to the benefit of the indemnitee's heirs, executors and administrators. Any amendment, alteration or repeal of Article VI of the By-Laws or this Section 6.1 of the Amended and Restated Certificate of Incorporation that adversely affects any right of an indemnitee or its successors shall be prospective only and shall not limit or eliminate any such right with respect to any proceeding involving any occurrence or alleged occurrence of any action or omission to act that took place prior to such amendment or repeal.

#### ARTICLE VII

Section 7.1 Limited Liability of Directors. A director of the Corporation shall not be personally liable to the Corporation or its stockholders for monetary damages for breach of

fiduciary duty as a director, except for liability (i) for any breach of the director's duty of loyalty to the Corporation or its stockholders, (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (iii) under Section 174 of the DGCL, or (iv) for any transaction from which the director derived an improper personal benefit.

If the DGCL is amended to authorize corporation action further eliminating or limiting the personal liability of directors, then the liability of a director of the Corporation shall be eliminated or limited to the fullest extent permitted by the DGCL, as so amended. Any repeal or modification of this Article VII by the stockholders of the Corporation or otherwise shall not adversely affect any right or protection of a director of the Corporation existing at the time of such repeal or modification.

#### ARTICLE VIII

Section 8.1 Action by Written Consent. Any action required or permitted to be taken at any annual or special meeting of stockholders of the Corporation may be effected only upon the vote of the stockholders at an annual or special meeting duly called and may not be effected by written consent of the stockholders, provided that such actions may be effected by written consent of the stockholders if Goldman, Sachs & Co. and its affiliates ("Goldman") beneficially own, directly or indirectly, more than 25.0% of the outstanding shares of Common Stock.

Section 8.2 Special Meetings. Special meetings of stockholders may be called at any time only by the Board of Directors pursuant to a resolution adopted by the affirmative vote of a majority of the Board of Directors then in office or by the Chairman of the Board of Directors; provided, that, if Goldman beneficially owns, directly or indirectly, 25.0% or more of the outstanding shares of Common Stock, then special meetings of the stockholders also may be called by holders of not less than 25.0% of the outstanding shares of Common Stock.

#### ARTICLE IX

Section 9.1 Business Opportunities. To the fullest extent permitted by applicable law, the Corporation, on behalf of itself and its subsidiaries, renounces any interest or expectancy of the Corporation and its subsidiaries in, or in being offered an opportunity to participate in, business opportunities that are from time to time presented to Goldman or any of their respective officers, directors, agents, stockholders, members, partners, affiliates and subsidiaries (other than the Corporation and its subsidiaries), even if the opportunity is one that the Corporation or its subsidiaries might reasonably be deemed to have pursued or had the ability or desire to pursue if granted the opportunity to do so and such person shall have no duty to communicate or offer such corporate opportunity to the Corporation and, to the fullest extent permitted by applicable law, shall not be liable to the Corporation or any of its subsidiaries for breach of any fiduciary or other duty, as a director or officer or otherwise, by reason of the fact that such person pursues or acquires such business opportunity, directs such business opportunity to another person or fails to present such business opportunity, or information regarding such business opportunity, to the Corporation or its subsidiaries unless, in the case of any such person who is a director or officer of the Corporation, such business

opportunity is expressly offered to such director or officer in writing solely in his or her capacity as a director or officer of the Corporation. Any person purchasing or otherwise acquiring any interest in any shares of stock of the Corporation shall be deemed to have notice of and consented to the provisions of this Article IX. Neither the alteration, amendment or repeal of this Article IX nor the adoption of any provision of this Amended and Restated Certificate of Incorporation inconsistent with this Article IX shall eliminate or reduce the effect of this Article IX in respect of any matter occurring, or any cause of action, suit or claim that, but for this Article IX, would accrue or arise, prior to such alteration, amendment, repeal or adoption.

#### ARTICLE X

Section 10.1 Section 203 of the DGCL. Section 203 of the DGCL shall not apply to the Corporation.

#### ARTICLE XI

Section 11.1 By-Laws. The Board of Directors is expressly authorized to adopt, amend, or repeal the By-Laws of the Corporation without the assent or vote of the stockholders, in any manner not inconsistent with the laws of the State of Delaware or this Amended and Restated Certificate of Incorporation of the Corporation. The stockholders shall also have power to adopt, amend or repeal the By-Laws of the Corporation in accordance with the By-Laws of the Corporation.

#### ARTICLE XII

Section 12.1 Reservation of Right to Amend the Amended and Restated Certificate of Incorporation. The Corporation reserves the right to amend, alter, change, or repeal any provision contained in this Amended and Restated Certificate of Incorporation, in the manner now or hereafter prescribed by statute, and all rights conferred upon stockholders herein are granted subject to this reservation.

#### ARTICLE XIII

Section 13.1 Severability. If any provision or provisions of this Amended and Restated Certificate of Incorporation shall be held to be invalid, illegal or unenforceable as applied to any circumstance for any reason whatsoever: (i) the validity, legality and enforceability of such provisions in any other circumstance and of the remaining provisions of this Amended and Restated Certificate of Incorporation (including, without limitation, each portion of any paragraph of this Amended and Restated Certificate of Incorporation containing any such provision held to be invalid, illegal or unenforceable that is not itself held to be invalid, illegal or unenforceable) shall not in any way be affected or impaired thereby and (ii) to the fullest extent possible, the provisions of this Amended and Restated Certificate of Incorporation (including, without limitation, each such portion of any paragraph of this Amended and Restated Certificate of Incorporation containing any such provision held to be invalid, illegal or unenforceable) shall be construed so as to permit the Corporation to protect

SECTION 1. Registered Office. The registered office of the Corporation within the State of Delaware shall be The Corporation Trust Company, 1209 Orange Street, Wilmington, New Castle County, Delaware 19801.

SECTION 2. Other Offices. The Corporation may also have an office or offices other than said registered office at such place or places, either within or without the State of Delaware, as the Board of Directors shall from time to time determine or the business of the Corporation may require.

SECTION 3. Books. The books of the Corporation may be kept within or without the State of Delaware as the Board of Directors may from time to time determine or the business of the Corporation may require.

ARTICLE II

Meetings of Stockholders

SECTION 1. Place of Meetings. All meetings of the stockholders for the election of directors or for any other purpose shall be held at any such place, either within or without the State of Delaware, as shall be designated from time to time by the Board of Directors and stated in the notice of meeting or in a duly executed waiver thereof.

SECTION 2. Annual Meeting. The annual meeting of stockholders shall be held at such date and time as shall be designated from time to time by the Board of Directors and stated in the notice of meeting.

SECTION 3. Special Meetings. Special meetings of stockholders may be called at any time only by the Board of Directors pursuant to a resolution adopted by the affirmative vote of a majority of the Board of Directors then in office or by the Chairman of the Board of Directors; provided, that, if Goldman, Sachs & Co. and its affiliates ("Goldman") beneficially own, directly or indirectly, 25.0% or more of the outstanding shares of the Corporation's common stock, then special meetings of the stockholders also may be called by holders of not less than 25.0% of the outstanding shares of the Corporation's common stock.

---

SECTION 4. Notice of Meetings. Written notice of each annual and special meeting of stockholders stating the date, place, if any, and time of the meeting, the means of remote communications, if any, by which stockholders and proxyholders may be deemed to be present in person and vote at such meeting and, in the case of a special meeting, the purpose or purposes for which the meeting is called, shall be given to each stockholder of record entitled to vote at the meeting at such address as appears on the records of the Corporation not less than ten nor more than sixty days before the date of the meeting, except as required from time to time by the Delaware General Corporation Law (the "DGCL") or the Restated Certificate of Incorporation. Business transacted at any special meeting of stockholders shall be limited to the purposes stated in the notice. Notice of any meeting shall not be required to be given to (i) any person who attends such meeting, except when such person attends the meeting in person or by proxy for the express purpose of objecting, at the beginning of the meeting, to the transaction of business because the meeting is not lawfully called or convened or (ii) any person who, either before or after the meeting, shall submit a signed written waiver of notice, or a waiver by electronic transmission, in person or by proxy. Neither the business to be transacted at, nor the purpose of, an annual or special meeting of stockholders need be specified in any waiver of notice.

SECTION 5. List of Stockholders. A complete list of the stockholders entitled to vote at the meeting, arranged in alphabetical order (for each class of stock), showing the address of and the number of shares registered in the name of each stockholder shall be open to the examination of any such stockholder for a period of at least ten days prior to the meeting in the manner provided by law. The stockholder list shall also be open to the examination of any stockholder during the whole time of the meeting as provided by law. This list shall presumptively determine the identity of the stockholders entitled to vote at the meeting and the number of shares held by each of them.

SECTION 6. Quorum, Adjournments. Stockholders holding a majority of the voting power of all of the shares of the Corporation entitled to vote, present in person or by proxy, shall constitute a quorum for the transaction of business at all meetings of stockholders, except as otherwise provided by statute or by the Restated Certificate of Incorporation or by these By-Laws. Where a separate vote by a class or classes or series is required, a majority of the voting power of the shares of such class or classes or series present in person or represented by proxy shall constitute a quorum entitled to take action with respect to that vote on that matter. If, however, such quorum shall not be present at any meeting of stockholders, the chairman of the meeting or a majority in interest of stockholders entitled to vote thereat, present in person or by proxy, shall have the power to adjourn the meeting from time to time, without notice, provided, however, that if the date of any adjourned meeting is more than thirty (30) days after the date for which the meeting was originally noticed, or if a new record date is fixed for the adjourned meeting, notice of the place, if any, date, and time of the adjourned meeting and the means of remote communications, if any, by which stockholders and proxyholders may be deemed to be present in person and vote at such adjourned meeting, shall be given in conformity herewith. At such later or rescheduled meeting at which the requisite amount of shares entitled to vote shall be represented, any business may be transacted which might have been transacted at the meeting as originally called.

SECTION 7. Organization. At each meeting of stockholders, the Chairman of the Board of Directors, or such person as the Chairman of the Board of Directors may have designated, or, in his or her absence, the Chief Executive Officer or, in his or her absence, such person as the Board of Directors may have designated shall act as chairman of the meeting. The Secretary or, in his absence or inability to act, the person whom the chairman of the meeting shall appoint secretary of the meeting shall act as secretary of the meeting and keep the minutes thereof.

SECTION 8. Conduct of Business. The chairman of any meeting of stockholders shall determine the order of business and the procedure at the meeting, including such regulation of the manner of voting and the conduct of discussion as seems to him or her in order. The chairman shall have the power to adjourn the meeting to another place, if any, date and time. The date and time of the opening and closing of the polls for each matter upon which the stockholders will vote at the meeting shall be announced at the meeting.

SECTION 9. Voting. (a) Except as otherwise provided by statute or the Restated Certificate of Incorporation, at all meetings of the stockholders, each stockholder entitled to vote under the Restated Certificate of Incorporation and these By-Laws shall be entitled to one vote, in person or by proxy, for each share of voting stock owned by such stockholder of record on the record date for the meeting.

Each stockholder entitled to vote at any meeting of stockholders may authorize another person or persons to act for him by a proxy which is in writing or transmitted as permitted by law, including, without limitation, electronically, via telegram, internet, interactive voice response system, or other means of electronic transmission executed or authorized by such stockholder or his attorney-in-fact, but no proxy shall be voted after (3) three years from its date, unless the proxy provides for a longer period. Any such proxy shall be delivered to the secretary of the meeting at or prior to the time designated in the order of business for so delivering such proxies. Any proxy transmitted electronically shall set forth information from which it can be determined by the secretary of the meeting that such electronic transmission was authorized by the stockholder.

When a quorum is present at any meeting, the vote of the holders of a majority of the voting power of the issued and outstanding stock of the Corporation entitled to vote thereon, present and voting, in person or represented by proxy, shall decide any question brought before such meeting, unless the question is one upon which by express provision of statute or of the Restated Certificate of Incorporation or of these By-Laws, a different vote is required, in which case such express provision shall govern and control the decision of such question. Unless required by statute, or determined by the chairman of the meeting to be advisable, the vote on any question need not be by ballot. On a vote by ballot, each ballot shall be signed by the stockholder voting, or by his proxy, if there be such proxy, and shall state the number of shares voted and the number of votes to which each share is entitled.

(b) A nominee for director shall be elected to the Board of Directors at a meeting if the votes cast for such nominee's election exceed the votes cast against such nominee's election; *provided, however*, that directors shall be elected by a plurality of the votes cast at any meeting of stockholders for which (i) the Secretary receives a notice that a stockholder has

nominated a person for election to the Board of Directors in compliance with the advance notice requirements for stockholder nominees for director set forth in Article II, Section 10 of these By-Laws and (ii) such nomination has not been withdrawn by such stockholder on or before the tenth (10<sup>th</sup>) day before the Corporation first mails its notice of meeting for such meeting to the stockholders. If directors are to be elected by a plurality of the votes cast, stockholders shall not be permitted to vote against a nominee.

**SECTION 10. Notice of Stockholder Business and Nominations.**

(a) Annual Meetings of Stockholders. (i) Nominations of persons for election to the Board of Directors and the proposal of other business to be considered by the stockholders may be made at an annual meeting of stockholders (A) pursuant to the Corporation's proxy materials with respect to such meeting, (B) by or at the direction of the Board of Directors or (C) by any stockholder of the Corporation who (x) was a stockholder of record at the time of giving of notice provided for in this By-Law and at the time of the annual meeting, (y) is entitled to vote at the meeting and (z) complies with the notice procedures set forth in this By-Law as to such business or nomination; clause (C) shall be the exclusive means for a stockholder to make nominations or submit other business (other than matters properly brought under Rule 14a-8 under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) and included in the Corporation's proxy materials) before an annual meeting of stockholders.

(ii) Without qualification, for any nominations or business to be properly brought before an annual meeting by a stockholder pursuant to Section 10(a)(i)(C) of this By-Law, (a) the stockholder must have given timely notice thereof in writing to the Secretary, (b) such other business must otherwise be a proper matter for stockholder action, and (c) the record stockholder and the beneficial owner, if any, on whose behalf any such proposal or nomination is made, must have acted in accordance with the representations set forth in the Solicitation Statement required by these By-Laws. To be timely, a stockholder's notice shall be delivered to the Secretary at the principal executive offices of the Corporation not earlier than the close of business on the 120<sup>th</sup> day and not later than the close of business of the 90<sup>th</sup> day prior to the first anniversary of the preceding year's annual meeting; provided, however, subject to the last sentence of this first paragraph of Section 10(a)(ii), that in the event that the date of the annual meeting is more than 30 days before or more than 30 days after such anniversary date, notice by the stockholder to be timely must be so delivered not earlier than the close of business on the 120<sup>th</sup> day prior to the date of such annual meeting and not later than the close of business on the later of the 90<sup>th</sup> day prior to the date of such annual meeting or, if the first public announcement of the date of such annual meeting is less than 100 days prior to the date of such annual meeting, the 10<sup>th</sup> day following the date on which public announcement of the date of such meeting is first made by the Corporation. In no event shall any adjournment or postponement of an annual meeting or the announcement thereof commence a new time period for the giving of a stockholder's notice as described above.

To be in proper form, a stockholder's notice (whether given pursuant to this Section 10(a)(ii) or Section 10(b)) to the Secretary must:

(A) set forth, as to (1) the record stockholder giving the notice and (2) the beneficial owner, if any, on whose behalf the nomination or proposal is made (each, a "party"):

(w) the name and address of each such party as they appear on the Corporation's books,

(x) (I) the class, series, and number of shares of the Corporation that are, directly or indirectly, owned beneficially and of record by each such party, (II) any option, warrant, convertible security, stock appreciation right, or similar right with an exercise or conversion privilege or a settlement payment or mechanism at a price related to any class or series of shares of the Corporation or with a value derived in whole or in part from the value of any class or series of shares of the Corporation, whether or not such instrument or right shall be subject to settlement in the underlying class or series of capital stock of the Corporation or otherwise (a "Derivative Instrument") directly or indirectly owned beneficially by each such party, and any other direct or indirect opportunity to profit or share in any profit derived from any increase or decrease in the value of shares of the Corporation, (III) any proxy, contract, arrangement, understanding, or relationship pursuant to which either party has a right to vote any shares of any security of the Corporation, (IV) any short interest in any security of the Corporation held by each such party (for purposes of this By-Law, a person shall be deemed to have a short interest in a security if such person directly or indirectly, through any contract, arrangement, understanding, relationship or otherwise, has the opportunity to profit or share in any profit derived from any decrease in the value of the subject security), (V) any rights to dividends on the shares of the Corporation owned beneficially by each such party that are separated or separable from the underlying shares of the Corporation, (VI) any proportionate interest in shares of the Corporation or Derivative Instruments held, directly or indirectly, by a general or limited partnership in which either party is a general partner or, directly or indirectly, beneficially owns an interest in a general partner and (VII) any performance-related fees (other than an asset-based fee) that each such party is entitled to based on any increase or decrease in the value of shares of the Corporation or Derivative Instruments, if any, as of the date of such notice, including without limitation any such interests held by members of each such party's immediate family sharing the same household (which information set forth in this paragraph shall be supplemented by such stockholder or such beneficial owner, as the case may be, not later than 10 days after the record date for the meeting to disclose such ownership as of the record date),

(y) any other information relating to each such party that would be required to be disclosed in a proxy statement or other filings required to be made in connection with solicitations of proxies for, as applicable, the proposal and/or for the election of directors in a contested election pursuant to Section 14 of the Exchange Act and the rules and regulations promulgated thereunder, and

(z) a statement whether or not each such party will deliver a proxy statement and form of proxy to holders of, in the case of a proposal, at least the percentage of voting power of all of the shares of capital stock of the Corporation required under applicable law to carry the proposal or, in the case of a nomination or nominations, at least the percentage of voting power of all of the shares of capital stock of the Corporation reasonably believed by the record stockholder or beneficial holder, as the case may be, to be sufficient to elect the nominee or nominees proposed to be

nominated by the record stockholder (such statement, a “Solicitation Statement”);

(B) if the notice relates to any business that the stockholder proposes to bring before the meeting, set forth

(y) a brief description of the business desired to be brought before the meeting, the reasons for conducting such business at the meeting and any material interest of each such party, in such business and

(z) a description of all agreements, arrangements and understandings between each such party, and any other person or persons (including their names) in connection with the proposal of such business by such stockholder; and

(C) set forth, as to each person, if any, whom the stockholder proposes to nominate for election or reelection to the Board of Directors:

(y) all information relating to such person that would be required to be disclosed in a proxy statement or other filings required to be made in connection with solicitations of proxies for election of directors in a contested election pursuant to Section 14 of the Exchange Act and the rules and regulations promulgated thereunder (including such person’s written consent to being named in the proxy statement as a nominee and to serving as a director if elected), and

(z) a description of all direct and indirect compensation and other material monetary agreements, arrangements and understandings during the past three years, and any other material relationships, between or among such stockholder and beneficial owner, if any, and their respective affiliates and associates, or others acting in concert therewith, on the one hand, and each proposed nominee, and his or her respective affiliates and associates, or others acting in concert therewith, on the other hand, including, without limitation all information that would be required to be disclosed pursuant to Rule 404 promulgated under Regulation S-K if the stockholder making the nomination and any beneficial owner on whose behalf the nomination is made, if any, or any affiliate or associate thereof or person acting in concert therewith, were the “registrant” for purposes of such rule and the nominee were a director or executive officer of such registrant.

(iii) The Corporation may require any proposed nominee to furnish such other information as it may reasonably require to determine the eligibility of such proposed nominee to serve as a director of the Corporation. The Corporation may also require any proposed nominee to furnish such other information as may reasonably be required by the Corporation to determine the eligibility of such proposed nominee to serve as an independent director of the Corporation or that could be material to a reasonable stockholder’s understanding of the independence, or lack thereof, of such nominee. In addition, a stockholder seeking to bring an item of business before the annual meeting shall promptly provide any other information reasonably requested by the Corporation. A person shall not be eligible for election or re-election as a director at an annual meeting unless (i) the person is nominated by a record stockholder in accordance with

Section 10(a)(i)(C) or (ii) the person is nominated by or at the direction of the Board of Directors. Only such business shall be conducted at an annual meeting of stockholders as shall have been brought before the meeting in accordance with the procedures set forth in this section.

(iv) Notwithstanding anything in paragraph (a)(ii) to the contrary, in the event that the number of directors to be elected to the Board of Directors at an annual meeting is increased and there is no public announcement by the Corporation naming the nominees for the additional directorships at least 100 days prior to the first anniversary of the preceding year's annual meeting, a stockholder's notice required by this Section shall also be considered timely, but only with respect to nominees for the additional directorships, if it shall be delivered to the Secretary at the principal executive offices of the Corporation not later than the close of business on the tenth day following the day on which such public announcement is first made by the Corporation.

(b) Special Meetings of Stockholders. Only such business shall be conducted at a special meeting of stockholders as shall have been brought before the meeting pursuant to the Corporation's notice of meeting. Nominations of persons for election to the Board of Directors may be made at a special meeting of stockholders at which directors are to be elected pursuant to the Corporation's notice of meeting (i) by or at the direction of the Board of Directors; or (ii) provided that the Board of Directors has determined that directors shall be elected at such meeting, by any stockholder of the Corporation who is a stockholder of record at the time the notice provided for in this Section is delivered to the Secretary, who is entitled to vote at the meeting and upon such election and who delivers a written notice to the Secretary setting forth the information set forth in Section 10(a)(ii) of this Article II. In the event the Corporation calls a special meeting of stockholders for the purpose of electing one or more directors to the Board of Directors, any such stockholder may nominate a person or persons (as the case may be) for election to such position(s) as specified in the Corporation's notice of meeting, if the stockholder's notice required by the preceding sentence with respect to any nomination shall be delivered to the Secretary at the principal executive offices of the Corporation not earlier than the close of business on the later of the 90<sup>th</sup> day prior to the date of such special meeting or, if the first public announcement of the date of such special meeting is less than 100 days prior to the date of such special meeting, the 10<sup>th</sup> day following the day on which public announcement is first made of the date of the special meeting and of the nominees proposed by the Board of Directors to be elected at such meeting. In no event shall any adjournment or postponement of a special meeting or the announcement thereof commence a new time period for the giving of a stockholder's notice as described above.

(c) (i) General. Notwithstanding the foregoing provisions of this Section 10, a stockholder who seeks to have any proposal included in the Corporation's proxy materials must provide notice as required by and otherwise comply with the applicable requirements of the rules and regulations under the Exchange Act. Nothing in this Section 10 shall be deemed to affect any rights (a) of stockholders to request inclusion of proposals or nominations in the Corporation's proxy statement pursuant to applicable rules and regulations promulgated under the Exchange Act; or (b) of the holders of any series of Preferred Stock to elect directors pursuant to any applicable provisions of the Certificate of Incorporation.

(ii) The chairman of an annual meeting shall determine all matters relating to the conduct of the meeting, including, but not limited to, determining whether any nomination or item of business has been properly brought before the meeting in accordance with these By-Laws, and if the chairman should so determine and declare that any nomination or item of business has not been properly brought before an annual or special meeting, then such business shall not be transacted at such meeting and such nomination shall be disregarded.

(iii) Notwithstanding the foregoing provisions of this Section 10, if the stockholder (or a qualified representative of the stockholder) does not appear at the annual or special meeting of stockholders of the Corporation to present a nomination or item of business, such proposed business shall not be transacted and such nomination shall be disregarded, notwithstanding that proxies in respect of such vote may have been received by the Corporation.

SECTION 11. Action by Consent. As long as Goldman beneficially owns, directly or indirectly, more than 25.0% of the outstanding shares of Common Stock, then any action required or permitted to be taken at any annual or special meeting of the stockholders may be taken without a meeting, without prior notice and without a vote, if a consent in writing, setting forth the action so taken, shall be signed by the holders of outstanding shares having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares entitled to vote thereon were present and voted. If Goldman beneficially owns, directly or indirectly, 25.0% or less of the outstanding shares of Common Stock, then any action required or permitted to be taken at any annual or special meeting of stockholders of the Corporation may be taken only upon the vote of the stockholders at an annual or special meeting duly called and may not be taken by written consent of the stockholders.

SECTION 12. Inspectors. The Board of Directors may, in advance of any meeting of stockholders, appoint one or more inspectors to act at such meeting or any adjournment thereof. If any of the inspectors so appointed shall fail to appear or act, the chairman of the meeting may, or if inspectors shall not have been appointed, the chairman of the meeting may, appoint one or more inspectors. Each inspector, before entering upon the discharge of his duties, shall take and sign an oath faithfully to execute the duties of inspector at such meeting with strict impartiality and according to the best of his ability. The inspectors shall determine the number of shares of capital stock of the Corporation outstanding and the voting power of each, the number of shares represented at the meeting, the existence of a quorum, and the validity and effect of proxies, and shall receive votes, ballots or consents, hear and determine all challenges and questions arising in connection with the right to vote, count and tabulate all votes, ballots or consents, determine the results, certify such determinations and do such acts as are otherwise required by law or as are proper to conduct the election or vote with fairness to all stockholders. On request of the chairman of the meeting, the inspectors shall make a report in writing of any challenge, request or matter determined by them and shall execute a certificate of any fact found by them. No director or candidate for the office of director shall act as an inspector of an election of directors. Inspectors need not be stockholders.

## ARTICLE III

### Board of Directors

SECTION 1. General Powers. The business and affairs of the Corporation shall be managed by or under the direction of the Board of Directors. The Board of Directors may exercise all such authority and powers of the Corporation and do all such lawful acts and things as are not by statute or the Certificate of Incorporation directed or required to be exercised or done by the stockholders.

Any such resignation shall be made in writing and shall take effect at the time specified therein or, if the time when it shall become effective shall not be specified therein, immediately upon its receipt. Unless otherwise specified therein, the acceptance of such resignation shall not be necessary to make it effective.

SECTION 5. Removal of Directors. Any director may be removed in the manner provided in and to the extent permitted under the Restated Certificate of Incorporation.

SECTION 6. Vacancies. Any vacancy in the Board of Directors, however resulting, may be filled in the manner provided in and to the extent permitted under the Restated Certificate of Incorporation.

SECTION 8. Regular Meetings. Regular meetings of the Board of Directors shall be held at such time and place as the Board of Directors may fix or as may be specified in a notice of meeting. Notice of regular meetings of the Board of Directors need not be given except as otherwise required by statute or these By-Laws.

SECTION 9. Special Meetings. Special meetings of the Board of Directors may be held at any time upon the call by the Chairman of the Board of Directors, the Chief Executive Officer, two or more directors of the Corporation, or by one director in the event that there is only a single director in office.

SECTION 10. Notice of Meetings. Notice of regular meetings of the Board of Directors need not be given except as otherwise required by statute or these By-Laws. Notice of each special meeting of the Board of Directors (and of each regular meeting for which notice shall be required) shall be given at least one business day before each special meeting, in writing or orally (either in person or by telephone), including the time, date and place of the meeting; provided that notice of any meeting need not be given to any Director who shall be present at such meeting (in person or by telephone) or who shall waive notice thereof in writing either before or after such meeting. Neither notice of a meeting nor a waiver of a notice need specify the purposes of the meeting.

SECTION 11. Quorum and Manner of Acting. A majority of the entire Board of Directors shall constitute a quorum for the transaction of business at any meeting of the Board of Directors. In the absence of a quorum at any meeting of the Board of Directors, a majority of the directors present thereat may adjourn such meeting until such quorum is present, and no further notice thereof need be given other than by announcement at the meeting which shall be so adjourned. All matters shall be determined by the vote of a majority of the total number of directors present at such meeting at which there is a quorum, except as otherwise provided in the Restated Certificate of Incorporation or these By-Laws or as required by law.

SECTION 12. Organization. At each meeting of the Board of Directors, the Chairman of the Board, if one has been elected, or, in the absence of the Chairman of the Board or if one shall not have been elected, the Chief Executive Officer (or, in his absence, another director chosen by a majority of the directors present) shall act as chairman of the meeting and preside thereat. The Secretary or, in his absence, any person appointed by the chairman, shall act as secretary of the meeting and keep the minutes thereof.

SECTION 13. Compensation. The Board of Directors shall have authority to fix or establish policies for the compensation, including fees and reimbursement of expenses, for services provided by directors to the Corporation.

SECTION 14. Committees. The Board of Directors may, by resolution passed by a majority of the entire Board of Directors, designate one or more committees, including an executive committee, each committee to consist of one or more of the directors of the Corporation. The Board of Directors may designate one or more directors as alternate members of any committee, who may replace any absent or disqualified member at any meeting of the committee. Except to the extent restricted by statute or the Restated Certificate of Incorporation, each such committee, to the extent provided in the resolution creating it, shall have and may exercise all the powers and authority of the Board of Directors; but no such committee shall have the power or authority to (i) approve, adopt or recommend to the stockholders any action or matter expressly required by Delaware law to be submitted to the stockholders for approval or (ii) adopt, amend or repeal any By-Law of the Corporation. Each committee shall keep regular minutes of its meetings and report the same to the Board of Directors.

SECTION 15. Action by Consent. Unless restricted by the Restated Certificate of Incorporation or these By-Laws, any action required or permitted to be taken by the Board of Directors or any committee thereof may be taken without a meeting if all members of the Board of Directors or such committee, as the case may be, consent thereto in writing, and the writing or

writings are filed with the minutes of the proceedings of the Board of Directors or such committee, as the case may be.

SECTION 16. Telephonic Meeting. Any one or more members of the Board of Directors or any committee thereof may participate in a meeting of the Board of Directors or such committee by means of a conference call or using any communications equipment by means of which all persons participating in the meeting can hear each other. Participation by such means shall constitute presence in person at a meeting.

## ARTICLE V

### Capital Stock

SECTION 1. Issuance of Stock. Unless otherwise voted by stockholders and subject to the provisions of the Restated Certificate of Incorporation and the DGCL, the whole or any part of any unissued balance of the authorized capital stock of the Corporation or the whole or any part of any unissued balance of the authorized capital stock of the Corporation held in its treasury may be issued, sold, transferred or otherwise disposed of by vote of the Board of Directors in such manner, for such consideration and on such terms as the Board of Directors may determine.

SECTION 2. Stock Certificates. The stock of the Corporation shall be represented by certificates, provided that the Board of Directors of the Corporation may provide by resolution or resolutions that some or all of any or all classes or series of its stock shall be uncertificated shares. Any such resolution shall not apply to shares represented by a certificate until such certificate is surrendered to the Corporation. Every holder of stock represented by certificates shall be entitled to have a certificate signed by, or in the name of the Corporation by the Chairman of the Board, or the President or Vice President, and by the Treasurer or an

Assistant Treasurer, or the Secretary or an Assistant Secretary of the Corporation.

SECTION 3. Facsimile Signatures. Any or all of the signatures on a certificate may be a facsimile. In case any officer, transfer agent or registrar who has signed or whose facsimile signature has been placed upon a certificate shall have ceased to be such officer, transfer agent or registrar before such certificate is issued, it may be issued by the Corporation with the same effect as if he were such officer, transfer agent or registrar at the date of issue.

SECTION 4. Lost Certificates. No certificate for shares of stock in the Corporation shall be issued in place of any certificate alleged to have been lost, stolen or destroyed, except upon production of such evidence of such loss, theft or destruction and upon delivery to the Corporation of a bond of indemnity in such amount, upon such terms and secured by such surety, as the Board of Directors in its discretion may require.

SECTION 5. Transfers of Stock. Transfers of stock shall be made on the books of the Corporation by the holder of the shares in person or by such holder's attorney upon surrender and cancellation of certificates for a like number of shares, or as otherwise provided by law with respect to uncertificated shares.

SECTION 6. Fixing the Record Date. In order that the Corporation may determine the stockholders entitled to notice of or to vote at any meeting of stockholders, or to express consent to corporate action in writing without a meeting (to the extent permitted by the Restated Certificate of Incorporation and By-Laws), or entitled to receive payment of any dividend or other distribution or allotment of any rights, or entitled to exercise any rights in respect of any change, conversion or exchange of stock or for the purpose of any other lawful action, the Board of Directors may establish, in advance, a record date, which shall not be more than sixty nor less than ten days before the date of such meeting of stockholders, nor more than sixty days prior to any other action as hereinbefore described.

If no record date is fixed, the record date for determining stockholders entitled to notice of or to vote at a meeting of stockholders shall be at the close of business on the day before the day on which notice is given, or, if notice is waived, at the close of business on the day before the day on which the meeting is held. The record date for determining stockholders for any other purpose shall be at the close of business on the day on which the Board of Directors adopts the resolution relating to such purpose.

A determination of stockholders of record entitled to notice of or to vote at a meeting of stockholders shall apply to any adjournment of the meeting; provided, however, that the Board of Directors may fix a new record date for the adjourned meeting.

SECTION 7. Registered Stockholders. The names and addresses of the holders of record of the shares of stock of the Corporation's capital, together with the number of shares of each class and series held by each record holder and the date of issue of such shares, shall be entered on the books of the Corporation. The Corporation shall be entitled to recognize the exclusive right of a person registered on its records as the owner of shares of stock as the person entitled to exercise the rights of a stockholder, including to receive dividends and to vote as such owner. The Corporation shall not be bound to recognize any equitable or other claim to or

interest in such share or shares of stock on the part of any other person, whether or not it shall have express or other notice thereof, except as otherwise provided by the laws of Delaware.

SECTION 8. Dividends. Subject to applicable law and the Certificate of Incorporation, the Board of Directors may, out of funds legally available therefor at any regular or special meeting, declare dividends upon the capital stock of the Corporation as and when it deems expedient. Dividends may be paid in cash, in property or in shares of stock of the Corporation, unless otherwise provided by statute or the Restated Certificate of Incorporation. Before declaring any dividend there may be set apart out of any funds of the Corporation available for dividends, such sum or sums as the directors from time to time in their discretion deem proper for working capital or as a reserve fund to meet contingencies or for equalizing dividends or for such other purposes as the directors shall deem conducive to the interests of the Corporation.

SECTION 9. Transfer Agents and Registrars. The Board of Directors may appoint, or authorize any officer or officers to appoint, one or more transfer agents and one or more registrars.

SECTION 10. Regulations. The Board of Directors may make such additional rules and regulations, not inconsistent with these By-Laws, as it may deem expedient concerning the issue, transfer and registration of certificates for shares of stock or with respect to uncertificated shares of stock of the Corporation.

## ARTICLE VI

### Indemnification

SECTION 1. Right to Indemnification. Each person who was or is made a party or is threatened to be made a party to or is otherwise involved in any action, suit or proceeding, whether civil, criminal, administrative or investigative (hereinafter a "proceeding"), by reason of the fact that he or she is or was a director or an officer of the Corporation or is or was serving at the request of the Corporation as a director, officer or trustee of another corporation or of a partnership, joint venture, trust or other enterprise, including service with respect to an employee benefit plan (hereinafter an "indemnitee"), whether the basis of such proceeding is alleged action in an official capacity as a director, officer or trustee or in any other capacity while serving as a director, officer or trustee, shall be indemnified and held harmless by the Corporation to the fullest extent permitted by Delaware law, as the same exists or may hereafter be amended (but, in the case of any such amendment, only to the extent that such amendment permits the Corporation to provide broader indemnification rights than such law permitted the Corporation to provide prior to such amendment), against all expense, liability and loss (including attorneys' fees, judgments, fines, ERISA excise taxes or penalties and amounts paid in settlement) reasonably incurred or suffered by such indemnitee in connection therewith; provided, however, that, except as provided in Section 3 of this Article VI with respect to proceedings to enforce rights to indemnification, the Corporation shall indemnify any such indemnitee in connection with a proceeding (or part thereof) initiated by such indemnitee only if such proceeding (or part thereof) was authorized by the Board of Directors of the Corporation.

SECTION 2. Right to Advancement of Expenses. In addition to the right to indemnification conferred in Section 1 of this Article VI, an indemnitee shall also have the right to be paid by the Corporation the expenses (including attorney's fees) incurred in defending any such proceeding in advance of its final disposition (hereinafter an "advancement of expenses"); provided, however, that, if the DGCL requires, an advancement of expenses incurred by an indemnitee in his or her capacity as a director or officer (and not in any other capacity in which service was or is rendered by such indemnitee, including, without limitation, service to an employee benefit plan) shall be made only upon delivery to the Corporation of an undertaking (hereinafter an "undertaking"), by or on behalf of such indemnitee, to repay all amounts so advanced if it shall ultimately be determined by final judicial decision from which there is no further right to appeal (hereinafter a "final adjudication") that such indemnitee is not entitled to be indemnified for such expenses under this Section 2 or otherwise.

SECTION 3. Right of Indemnitee to Bring Suit. If a claim under Section 1 or 2 of this Article VI is not paid in full by the Corporation within sixty (60) days after a written claim has been received by the Corporation, except in the case of a claim for an advancement of expenses, in which case the applicable period shall be twenty (20) days, the indemnitee may at any time thereafter bring suit against the Corporation to recover the unpaid amount of the claim. If successful in whole or in part in any such suit, or in a suit brought by the Corporation to recover an advancement of expenses pursuant to the terms of an undertaking, the indemnitee shall be entitled to be paid also the expense of prosecuting or defending such suit. In (i) any suit brought by the indemnitee to enforce a right to indemnification hereunder (but not in a suit brought by the indemnitee to enforce a right to an advancement of expenses) it shall be a defense that, and (ii) in any suit brought by the Corporation to recover an advancement of expenses pursuant to the terms of an undertaking, the Corporation shall be entitled to recover such expenses upon a final adjudication that, the indemnitee has not met any applicable standard for indemnification set forth in the Delaware General Corporation Law. Neither the failure of the Corporation (including its directors who are not parties to such action, a committee of such directors, independent legal counsel, or its stockholders) to have made a determination prior to the commencement of such suit that indemnification of the indemnitee is proper in the circumstances because the indemnitee has met the applicable standard of conduct set forth in the Delaware General Corporation Law, nor an actual determination by the Corporation (including its directors who are not parties to such action, a committee of such directors, independent legal counsel, or its stockholders) that the indemnitee has not met such applicable standard of conduct, shall create a presumption that the indemnitee has not met the applicable standard of conduct or, in the case of such a suit brought by the indemnitee, be a defense to such suit. In any suit brought by the indemnitee to enforce a right to indemnification or to an advancement of expenses hereunder, or brought by the Corporation to recover an advancement of expenses pursuant to the terms of an undertaking, the burden of proving that the indemnitee is not entitled to be indemnified, or to such advancement of expenses, under this Article VI or otherwise shall be on the Corporation.

SECTION 4. Non-Exclusivity of Rights. The rights to indemnification and to the advancement of expenses conferred in this Article VI shall not be exclusive of any other right which any person may have or hereafter acquire under any statute, the Restated Certificate of

Incorporation, these By-laws, agreement, vote of stockholders or directors or otherwise.

SECTION 5. Insurance. The Corporation may maintain insurance, at its expense, to protect itself and any director, officer, employee or agent of the Corporation or another corporation, partnership, joint venture, trust or other enterprise against any expense, liability or loss, whether or not the Corporation would have the power to indemnify such person against such expense, liability or loss under the DGCL.

SECTION 6. Indemnification of Employees and Agents of the Corporation. The Corporation may, to the extent authorized from time to time by the Board of Directors, grant rights to indemnification and to the advancement of expenses to any employee or agent of the Corporation to the fullest extent of the provisions of this Article VI with respect to the indemnification and advancement of expenses of directors and officers of the Corporation.

SECTION 7. Nature of Rights. The rights conferred upon indemnitees in this Article VI shall be contract rights and such rights shall continue as to an indemnitee who has ceased to be a director, officer or trustee and shall inure to the benefit of the indemnitee's heirs, executors and administrators. Any amendment, alteration or repeal of this Article VI that adversely affects any right of an indemnitee or its successors shall be prospective only and shall not limit or eliminate any such right with respect to any proceeding involving any occurrence or alleged occurrence of any action or omission to act that took place prior to such amendment or repeal.

## ARTICLE VII

SECTION 7. Severability and Inconsistency. Any determination that any provision of these By-Laws is for any reason inapplicable, illegal or ineffective shall not affect or invalidate any other provision of these By-Laws. In the event that any provision of these By-Laws is or becomes inconsistent with any provision of the Restated Certificate of Incorporation, the DGCL or any other applicable law, the provision of these By-Laws shall not be given any effect to the extent of such inconsistency, but shall otherwise be given full force and effect.

SECTION 8. Notice and Waiver of Notice. Whenever any notice is required by these By-Laws to be given to the stockholders, personal notice is not meant unless expressly so stated, and any notice so required shall be deemed to be sufficient if made in the manner prescribed by these By-Laws or if given by depositing the same in the United States mail, postage prepaid, addressed to the person entitled thereto at his or her address as it appears on the records of the Corporation, and such notice shall be deemed to have been given on the day of such mailing. Stockholders not entitled to vote shall not be entitled to receive notice of any meetings except as otherwise required by law.

Whenever any notice whatever is required to be given under the provisions of any law, or under the provisions of the Restated Certificate of Incorporation of the Corporation or these By-Laws, a waiver thereof in writing, signed by the person or persons entitled to said notice, whether before or after the time stated therein, shall be deemed equivalent thereto.

SECTION 9. Voting of Stock in Other Corporations. Unless otherwise provided by resolution of the Board of Directors, the Chairman of the Board, the Chief Executive Officer, the Chief Operating Officer or the Chief Financial Officer, from time to time, may (or may appoint one or more attorneys or agents to) cast the votes which the Corporation may be entitled to cast as a shareholder or otherwise in any other corporation, any of whose shares or securities may be held by the Corporation, at meetings of the holders of the shares or other securities of such other corporation.

**Section 1.02 Change of Location.** In the manner permitted by law, the Board of Directors or the registered agent may change the address of the Corporation’s registered office in the State of Delaware and the Board of Directors may make, revoke or change the designation of the registered agent.

**ARTICLE II — MEETINGS OF STOCKHOLDERS**

**Section 2.01 Annual Meeting.** The annual meeting of the stockholders of the Corporation for the election of directors and for the transaction of such other business as may properly come before the meeting shall be held at the registered office of the Corporation, or at such other place within or without the State of Delaware as the Board of Directors may designate, on the date specified in the notice of such annual meeting.

**Section 2.02 Special Meetings.** Special meetings of stockholders, unless otherwise prescribed by law, may be called at any time by the President, by order of the Board of Directors, or at the request of stockholders owning a majority of the voting stock. Special meetings of stockholders shall be held at such place within or without the State of Delaware as shall be designated in the notice of such special meeting.

**Section 2.03 List of Stockholders Entitled to Vote.** The officer who has charge of the stock ledger of the Corporation shall prepare and make, at least ten (10) days before every meeting of stockholders, a complete list, based upon the record date for such meeting determined pursuant to Section 5.06, of the stockholders entitled to vote at the meeting, and showing the address of each stockholder and the number of shares registered in the name of each stockholder. Such list shall be open, for at least ten (10) days prior to the meeting, during ordinary business hours, to the examination of any stockholder for any purpose germane to the meeting. For purposes of stockholder examination, the list shall be either at a place within the city where the meeting is to be held, which place shall be specified in the notice of the meeting or, if such place shall not be so specified, at the place where said meeting is to be held. The list shall also be produced and kept during the entire meeting, and may be inspected by any stockholder who is present.

The stock ledger shall be the only evidence as to who are the stockholders entitled (i) to examine the stock ledger, the list of stockholders entitled to vote at any meeting, or the books of the Corporation; or (ii) to vote in person or by proxy at any meeting of stockholders.

**Section 2.04 Notice of Meeting.** Whenever stockholders are required or permitted to take any action at a meeting, a written notice of the meeting shall be given which shall state the place, date and hour of the meeting and, in the case of a special meeting, the purpose or purposes for which the meeting is called. If one or more directors shall resign from the Board of Directors effective at a future date, a majority of the directors then in office, including those who have so resigned at a future date, shall have the power to fill such vacancy or vacancies. The vote thereon shall take

effect and the vacancy shall be filled when such resignation or resignations shall become effective, and each director so chosen shall hold office as provided in this section.

Each director chosen to fill a vacancy on the Board of Directors shall hold office until the next annual election of directors and until his successor shall be elected and qualified, except in the event of the earlier termination of his office by reason of death, resignation, removal or other reason.

A director interested in a contract or transaction may be counted in determining the presence of a quorum at a meeting of the Board of Directors which authorizes the contract or transaction. In the absence of a quorum, a majority of the directors present may adjourn the meeting until a quorum shall be present.

Members of the Board of Directors or any committee designated by the Board of Directors may participate in a meeting of the Board of Directors or such committee by means of conference telephone or similar communications equipment by means of which all persons participating in a meeting can hear each other. The participation in such a meeting shall constitute presence in person at such meeting for all purposes. A person holding a general power of attorney for a member of the Board of Directors or a person holding a special power of attorney empowering such person to act for such member on the Board of Directors may participate in a meeting of the Board of Directors or in a meeting of any Committee of the Board of Directors on behalf of such member.

The vote of the majority of the directors present at a meeting at which a quorum is present shall be the act of the Board of Directors unless applicable law, the Certificate of Incorporation, these Bylaws, or an agreement of the stockholders shall require a vote of a greater number.

**Section 3.09 Rules and Regulations.** The Board of Directors may adopt such rules and regulations for the conduct of the business and management of the Corporation, not inconsistent with law or the Certificate of Incorporation or these Bylaws, as the Board of Directors may deem proper. A member of the Board of Directors shall, in the performance of his duties, be fully protected in relying in good faith upon the books of account or reports made to the Corporation by any of its officers, by an independent certified public accountant, or by an appraiser selected with reasonable care by the Board of Directors or any committee of the Board of Directors, or in relying in good faith upon other records of the Corporation.

**Section 3.10 Annual Meeting of Board of Directors.** An annual meeting of the Board of Directors shall be called and held for the purpose of organization, election of officers and transaction of any other business. No notice of the annual meeting of the Board of Directors need be given if such meeting is held promptly after and at the place specified for the annual meeting of stockholders. Otherwise, such annual meeting shall be held at such time (but

not more than thirty (30) days after the annual meeting of stockholders) and place as may be specified in a notice of the meeting.

**Section 3.11 Regular Meetings.** Regular meetings of the Board of Directors shall be held at least quarterly, at the time and place, within or without the State of Delaware, as shall from time to time be determined by the Board of Directors. Except as provided below, notice of any special meeting of the Board of Directors, stating the time, place and purpose of such special meeting, shall be given to each director.

**Section 3.13 Notice of Meetings; Waiver of Notice.** Except as provided in this Section 3.13 and in Section 3.09, notice of any meeting of the Board of Directors must be given to all directors. Notice of any meeting of the Board of Directors shall be deemed to be duly given to a director (i) if mailed to such director, addressed to him at his address as it appears upon the books of the Corporation, or at the address last made known in writing to the Corporation by such director as the address to which such notices are to be sent, at least four (4) days before the day on which such special meeting is to be held; or (ii) if sent to him at such address by facsimile, telegraph or cable, not later than the day before the day on which such meeting is to be held; or (iii) if delivered to him personally or orally, by telephone or otherwise, not later than the day before the day on which such special meeting is to be held. Each such notice shall state the time and place of the meeting and the purposes thereof.

Notice of any meeting of the Board of Directors need not be given to any director if waived by him in writing (or by telegram or cable and confirmed in writing), whether before or after the holding of such meeting, or if such director is present at such meeting. Any meeting of the Board of Directors shall be a legal meeting without any notice thereof having been given if all directors then in office shall be present thereat.

**Section 3.14 Compensation of Directors.** The Compensation Committee of the Board of Directors may from time to time, in its discretion, fix the amounts which shall be payable to outside directors and to members of any committee of the Board of Directors for attendance at the meetings of the Board of Directors or of such committee and for services rendered to the Corporation.

**Section 3.15 Action Without Meeting.** Any action required or permitted to be taken at any meeting of the Board of Directors or of any committee thereof may be taken without a meeting if a written consent thereto is signed by all members of the Board of Directors or of such committee, as the case may be, and such written consent is filed with the minutes of proceedings of the Board of Directors or such committee.

**Section 3.16 Committees.** The Board of Directors may, by resolution passed by a majority of the whole Board of Directors, designate one or more committees, each committee

to consist of one or more of the directors or the corporation. The Board of Directors may designate one or more directors as alternate members of any committee, who may replace any absent or disqualified member at any meeting of the committee. In the absence or disqualification of a member of the committee, the member or members thereof present at any meeting and not disqualified from voting, whether or not he or they constitute a quorum, may unanimously appoint another member of the Board of Directors to act at the meeting in place of any such absent or disqualified member. Any such committee, to the extent permitted by law and to the extent provided in the resolution of the Board of Directors, shall have and may exercise all the powers and authority of the Board of Directors in the management of the business and affairs of the corporation, and may authorize the seal of the corporation to be affixed to all papers which may require it.

Indemnification will, however, only apply if he acted in good faith and in a manner he believed in good faith to be in or not opposed to the best interests of the Corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe his conduct was unlawful. The termination of any action, suit or proceeding by judgment, order, settlement, conviction, or upon a plea of *nolo contendere* or its

equivalent, shall not, of itself, create a presumption that the person did not act in good faith and in a manner which he reasonably believed to be in or not opposed to the best interests of the Corporation and, with respect to any criminal action or proceeding, had reasonable cause to believe that his conduct was unlawful.

**Section 6.02 Indemnification Insurance.** The Corporation shall have the power to purchase and maintain insurance on behalf of any person who is or was a director, officer, employee or agent of the Corporation, or is or was serving at the request of the Corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against any liability asserted against him and incurred by him in any such capacity, or arising out of his status as such, whether or not the Corporation would have the power to indemnify him against such liability under applicable law.

Neither the business to be transacted at, nor the purpose of, any regular or special meeting of the stockholders, directors or members of a committee of directors need be specified in any written waiver of notice unless so required by the Certificate of Incorporation or these Bylaws.

Attendance of a person at a meeting shall constitute a waiver of notice of such meeting, except when the person attends a meeting for the express purpose of objecting, at the beginning of the meeting, to the transaction of any business because the meeting is not lawfully called or convened.

**Section 7.04 Execution of Instruments and Contracts.** All checks, drafts, bills of exchange, notes or other obligations or orders for the payment of money shall be signed in the name of the Corporation by such officer or officers or person or persons as the Board of Directors may from time to time designate.

Except as otherwise provided by law, the Board of Directors, any committee given specific authority in the premises by the Board of Directors, or any committee given authority to exercise generally the powers of the Board of Directors during the intervals between meetings of the Board of Directors, may authorize any officer, employee or agent, in the name of and on behalf of the Corporation, to enter into or execute and deliver deeds, bonds, mortgages,

contracts and other obligations or instruments, and such authority may be general or confined to specific instances.

All applications, written instruments and papers required by any department of the United States government or by any state, county, municipal or other governmental authority, may be executed in the name of the Corporation by any principal officer or subordinate officer of the Corporation, or, to the extent designated for such purpose from time to time by the Board of Directors, by an employee or agent of the Corporation. **SECTION 6. Closing of Transfer Books or Fixing of Record Date.** For the purpose of determining shareholders entitled to notice of or to vote at any meeting of shareholders or any adjournment thereof, or shareholders entitled to receive payment of any dividend, or in order to make a determination of shareholders for any other proper purpose, the board of directors of the corporation may provide that the stock transfer books shall be closed for a stated period but not to exceed, in any case, fifty (50) days. If the stock transfer books shall be closed for the purpose of determining shareholders entitled to notice of or to vote at a meeting of shareholders, such books shall be closed for at least ten (10) days immediately preceding such meeting. In lieu of closing the stock transfer books, the board of directors may fix in advance a date as the record date for any such determination of shareholders, such date in any case to be not more than fifty (50) days and, in case of a meeting of shareholders, not less than ten (10) days prior to the date on which the particular action, requiring such determination of shareholders, is to be taken. If the stock transfer books are not closed and no record date is fixed for the determination of shareholders entitled to notice of or to vote at a meeting of shareholders, or shareholders entitled to receive payment of a dividend, the date on which notice of the meeting is mailed or the date on which the resolution of the board of directors declaring such dividend is adopted, as the case may be, shall be the record date for such determination of shareholders. When a determination of shareholders entitled to vote at any meeting of shareholders has been made as provided in this section, such determination shall apply to any adjournment thereof.

**SECTION 7. Voting Lists.** The officer or agent having charge of the stock transfer books for shares of the corporation shall make a complete list of the shareholders entitled to vote at each meeting of shareholders or any adjournment thereof, arranged in alphabetical order, with the address of and the number of shares held by each. Such list shall be produced and kept open at the time and place of the meeting and shall be subject to the inspection of any shareholder during the whole time of the meeting for the purposes thereof.

**SECTION 8. Quorum.** At all meetings of the shareholders, a quorum of the shareholders shall consist of a majority of all the shares of stock entitled to vote, represented by the holders thereof in person or represented by proxy. If a quorum is present, the affirmative vote of a majority of the shares represented at the meeting and entitled to vote on the subject matter shall be the act of the shareholders.

If less than a majority of the outstanding shares are represented at a meeting, a majority of the shares so represented may adjourn the meeting from time to time without further notice. At such adjourned meeting at which a quorum shall be present or represented, any business may be transacted which might have been transacted at the meeting as originally noticed. The shareholders present at a duly organized meeting may continue to transact business until adjournment, notwithstanding the withdrawal of enough shareholders to leave less than a quorum.

**SECTION 9. Organization.** The president shall call meetings of the shareholders to order and shall act as chairman of such meeting. The shareholders present may appoint any shareholder to act as chairman of any meeting in the absence of the president or with his consent if present.

The secretary of the corporation shall act as secretary of all meetings of the shareholders. In the absence of the secretary at any such meeting, the presiding officer may appoint any person to act as secretary thereof and to keep a record of the proceedings.

**SECTION 10. Voting.** At each election for directors every shareholder entitled to vote at such election shall have the right to vote, in person or by proxy, the number of shares owned by him for as many persons as there are directors to be elected and for whose election he has a right to vote, or to cumulate his votes by giving one candidate as many votes as the number of such directors multiplied by the number of his shares shall equal, or by distributing such votes on the same principle among any number of such candidates, and the directors shall not be elected in any other manner, except as provided in Article III, Section 2, of the bylaws.

Except as otherwise provided in the preceding paragraph, or in the Articles of Incorporation of the corporation, each outstanding share entitled to vote shall be entitled to one vote upon each matter submitted to a vote at a meeting of shareholders.

**SECTION 11. Proxies.** At all meetings of shareholders, a shareholder may vote in person or by proxy executed in writing by the shareholder or by his duly authorized attorney in fact. Such proxy shall be filed with the secretary of the corporation before or at the time of the meeting. No proxy shall be valid after eleven (11) months from the date of its execution, unless otherwise provided in the proxy.

**SECTION 12. Voting of Shares by Certain Holders.** Shares standing in the name of another corporation may be voted by such officer, agent or proxy as the bylaws of such corporation may prescribe, or, in the absence of such provisions, as the board of directors of such corporation may determine.

Shares held by an administrator, executor, guardian or conservator may be voted by him, either in person or by proxy, without a transfer of such shares into his name. Shares standing in the name of a trustee may be voted by him, either in person or by proxy, but no trustee shall be entitled to vote shares held by him without a transfer of such shares into his name.

Shares standing in the name of a receiver may be voted by such receiver, and shares held by or under the control of a receiver may be voted by such receiver without the transfer thereof into his name if authority so to do be contained in an appropriate order of the court by which such receiver was appointed.

A shareholder whose shares are pledged shall be entitled to vote such shares until the shares have been transferred into the name of the pledgee, and thereafter the pledgee shall be entitled to vote the shares so transferred.

Shares of its own stock belonging to the corporation shall not be voted, directly or indirectly, at any meeting, and shall not be counted in determining the total number of outstanding shares at any given time.

### **ARTICLE III. BOARD OF DIRECTORS**

**SECTION 1. Powers, Qualifications, Number and Term of Office.** The business and property of the corporation shall be managed and controlled by the board of directors to be elected at each regular annual meeting of the corporation. The number of directors of the corporation shall be the number elected by the shareholders at each annual meeting, but may be more in the interim between such annual meetings as

determined by a vote of the existing directors from time to time. Each director shall hold office from the time of his election until the next regular annual meeting of the shareholders of the corporation, or until his successor is elected and qualified, or until he is removed by a vote of the stockholders. No director need be a resident of the State of West Virginia or a shareholder of the corporation in order to hold said office.

**SECTION 2. Vacancies.** Any vacancies existing in the board of directors and any directorship to be filled by reason of an increase in the number of directors unless the Articles of Incorporation or bylaws provide that a vacancy shall be filled in some other manner, may be filled by the affirmative vote of a majority of the remaining directors though less than a quorum of the board of directors. A director elected to fill a vacancy shall be elected for the unexpired term of his predecessor in office. Any directorship to be filled by reason of an increase in the number of directors may be filled by the board of directors for a term of office continuing only until the next election of directors by the shareholders.

**SECTION 3. Regular Meetings.** A regular meeting of the board of directors shall be held without other notice than these bylaws immediately after, and at the same place as, the annual meeting of shareholders. The board of directors may provide, by resolution, the time and place for the holding of additional regular meetings without other notice than such resolution.

**SECTION 4. Special Meetings.** Special meetings of the board of directors may be called by or at the request of the president or not less than ten percent (10%) of the existing directors. The person or persons authorized to call special meetings of the board of directors may fix the place for holding any special meeting of the board of directors called by them.

**SECTION 5. Notice.** No notice shall be required of the regular meeting of the board of directors. Notice of any special meeting shall be given at least three (3) days previously thereto by written notice delivered personally or mailed to each director at his last known address, or by telegram. If mailed, such notice shall be deemed to be delivered when deposited in the United States Mail so addressed, with postage thereon prepaid. If notice be given by telegram, such notice shall be deemed to be delivered when the telegram is delivered to the telegraph company. Any director may waive notice of any meeting.

**SECTION 6. Written Agreement in Lieu of Meeting.** Whenever the vote of directors at a meeting thereof is required or permitted to be taken in connection with any corporate action, the meeting and vote of such directors may be dispensed with if all of the directors shall consent and agree in writing to such corporate action being taken, and such agreement (which shall set forth the action so taken and be signed by all of the directors) shall have like effect and validity as though the action were duly taken by the unanimous action of all directors at a meeting of such directors duly called and legally held.

**SECTION 7. Manner of Acting.** The act of the majority of the directors present at a meeting at which a quorum is present shall be the act of the board of directors.

**SECTION 8. Quorum.** A majority of the number of directors fixed by Section 1 of this Article III shall constitute a quorum for the transaction of business at any meeting of the board of directors, but if less than such majority is present at a meeting, a majority of the directors present may adjourn the meeting from time to time and place to place without further notice and until a quorum is present.

**SECTION 9. Presiding Officer, Recording Officer.** At all meetings of the board of directors, the president or a vice president, or in the absence of them, any director elected by the directors present, shall preside. The secretary or any person appointed by the directors present, shall keep a record

of the proceedings. The records shall be verified by the signature of the person acting as chairman of the meeting.

**SECTION 10. Compensation.** By resolution of the board of directors, each director may be paid his expenses, if any, of attendance at each meeting of the board of directors, and may be paid a stated salary as director or a fixed sum for attendance at each meeting of the board of directors or both. No such payment shall preclude any director from serving the corporation in any other capacity and receiving compensation therefor.

**SECTION 11. Presumption of Assent.** A director of the corporation who is present at a meeting of the board of directors at which action on any corporate matter is taken shall be presumed to have assented to the action taken unless his dissent shall be entered in the minutes of the meeting or unless he shall file his written dissent to such action with the person acting as the secretary of the meeting before the adjournment thereof or shall forward such dissent by registered mail to the secretary of the corporation immediately after the adjournment of the meeting. Such right to dissent shall not apply to a director who voted in favor of such action.

**SECTION 12. Ratification by Shareholders.** The board of directors, in its discretion, may submit any contract or act for approval or ratification at any annual meeting of the shareholders or any general or special meeting called for the purpose of considering any contract or act; and any contract or act which shall be approved and ratified by the vote of the holders of a majority in interest of the capital stock of the corporation that is represented in person or by proxy at such meeting, providing only that a quorum of the shareholders be either so represented in person or by proxy, shall be as valid and binding upon the corporation and upon all the stockholders as though it had been approved and ratified by each and every shareholder of the corporation.

**SECTION 13. General Powers.** The board of directors shall elect the officers hereinafter provided for in Article IV, Section 1 of these bylaws, and in case of the absence of the president and/or the vice president, the board may appoint a president pro tempore who for the time shall discharge the official duties of the president, and the board of directors shall determine what is such absence as will justify the election of the president pro tempore.

The board of directors, by resolution adopted by a majority of the full board of directors, may designate from among its members an executive committee and one or more other committees, each of which, to the extent provided in such resolution, shall have and may exercise all the authority of the board of directors, except in reference to amending the Articles of Incorporation, adopting a plan of merger or consolidation, recommending to the shareholders the sale, lease, exchange or other disposition of all or substantially all the property and assets of the corporation otherwise than in the usual and regular course of its business, recommending to the shareholders a voluntary dissolution of the corporation or a revocation thereof, or amending the bylaws of the corporation. The designation of any such committee and the delegation thereto of authority shall not operate to relieve the board of directors, or any member thereof, of any responsibility imposed by law.

**SECTION 14. Removal.** At a meeting of shareholders called expressly for that purpose, any director or the entire board of directors may be removed, with or without cause, by a vote of the holders of a majority of the shares entitled to vote at an election of directors. If less than the entire board is to be removed, no one of the directors may be removed if the votes cast against his removal would be sufficient to elect him.

## ARTICLE IV. OFFICERS

**SECTION 1. Number.** The officers of the corporation shall be a president, a secretary and a treasurer, and may be one or more vice presidents, each of whom shall be elected by the board of directors. Such other officers and assistant officers as may be deemed necessary may be elected or appointed by the board of directors.

One person may hold more than one office, except that the president and secretary shall not be the same person. No officer shall execute, acknowledge or verify any instrument in more than one capacity, if such instrument is required by law or the bylaws to be executed, acknowledged and verified or countersigned by two or more officers.

**SECTION 2. Election and Term of Office.** The officers of the corporation to be elected by the board of directors shall be elected annually by the board of directors at the annual meeting of the board of directors held after each annual meeting of the shareholders. If the election of officers shall not be held at such meeting, such election shall be held as soon thereafter as conveniently may be. Each officer shall hold office until his successor shall have been duly elected and shall have qualified or until his death or until he shall resign or shall have been removed in the manner hereinafter provided.

None of the directors or officers of the corporation need be shareholders. All appointees, agents, and employees, other than officers, shall hold office at the discretion of the president.

**SECTION 3. Removal.** Any officer or agent may be removed by the board of directors whenever in its judgment, the best interests of the corporation would be served thereby, but such removal shall be without prejudice to the contract rights, if any, of the person so removed. Election or appointment of an officer or agent shall not of itself create contract rights.

**SECTION 4. Vacancies.** A vacancy in any office because of death, resignation, removal, disqualification or otherwise, may be filled by the board of directors at a special meeting for the unexpired portion of the term.

**SECTION 5. President.** The president shall be the principal executive officer of the corporation and, subject to the control of the board of directors, shall in general supervise and control all of the business and affairs of the corporation. He shall, when present, preside at all meetings of the shareholders and of the board of directors. He may sign, with the secretary or any other proper officer of the corporation thereunto authorized by the board of directors, certificates for shares of the corporation, any deeds, mortgages, bonds, contracts, or other instruments which the board of directors has authorized to be executed, except in cases where the signing and execution thereof shall be expressly delegated by the board of directors or by these bylaws to some other officer or agent of the corporation, or shall be required by law to be otherwise signed or executed; and in general shall perform all duties incident to the office of the president and such other duties as may be prescribed by the board of directors from time to time.

**SECTION 6. Vice President.** Each vice president, if any, shall, concurrently with the president, but subject to his superior right and authority, have all the right, power and authority to perform all the duties of the president of the corporation. In the absence of the president or in event of his death, inability or refusal to act, the senior vice president, if any, as designated by the board of directors prior to such absence of the president, shall perform the duties of the president until such time as the board of directors may appoint a successor president pursuant to Section 4, above, and when so acting, shall have all the

powers of and be subject to all the restrictions upon the president. Each vice president shall perform such other duties as from time to time may be assigned to him by the president or by the board of directors.

**SECTION 7. Secretary.** The secretary shall: (a) keep the minutes of the proceedings of the shareholders and of the board of directors in one or more books provided for that purpose; (b) see that all notices are duly given in accordance with the provisions of these bylaws or as required by law; (c) be custodian of the corporate records and of the seal of the corporation and see that the seal of the corporation is affixed to all documents the execution of which on behalf of the corporation under its seal is duly authorized; (d) keep a register of the post office address of each shareholder which shall be furnished to the secretary by such shareholder; (e) sign with the president, certificates for shares of the corporation, the issuance of which shall have been authorized by resolution of the board of directors; (f) have general charge of the stock transfer books of the corporation; and (g) in general perform all duties incident to the office of secretary and such other duties as from time to time may be assigned to him by the president or by the board of directors.

**SECTION 8. Treasurer.** The treasurer shall: (a) have charge and custody of and be responsible for all funds and securities of the corporation; (b) receive and give receipts for moneys due and payable to the corporation from any source whatsoever, and deposit all such moneys in the name of the corporation in such banks, trust companies or other depositories as shall be selected in accordance with the provisions of Article V of these bylaws; (c) keep accurate accounts, in such form as may be approved by the board of directors, of all the financial transactions of the corporation, and shall close said accounts and balance said books of account at least once in each year; (d) whenever required by the president, the vice president, or by the board of directors, render a report of all moneys received and disbursed by the corporation and of the financial condition of the corporation; and (e) in general perform all of the duties as from time to time may be assigned to him by the president or by the board of directors. If required by the board of directors, the treasurer shall give a bond for the faithful discharge of his duties in such sum and with such surety or sureties as the board of directors shall determine.

**SECTION 9. General Provisions.** All books, records and files of the corporation shall at all times be open to the inspection of the president, the vice president, and the board of directors.

Any or all of the officers shall give such bond or bonds for the faithful discharge of their respective duties in such sum or sums as and when the board of directors may from time to time in its discretion require.

Any duty authorized, provided and/or required to be performed by any officer of this corporation may be performed by his duly authorized assistant.

**SECTION 10. Salaries.** The salaries of the officers shall be fixed from time to time by the board of directors and no officer shall be prevented from receiving such salary by reason of the fact that he is also a director of the corporation.

## **ARTICLE V. CONTRACTS AND ACCOUNTS**

**SECTION 1. Receipts.** The president, vice president, secretary and treasurer are each authorized to receive and receipt for all moneys due and payable to the corporation from any source whatsoever, and to endorse for deposit checks, drafts, and other money orders in the name of the corporation or on its behalf, and to give full discharge and receipt therefore.

**SECTION 2. Contracts.** The board of directors may authorize any officer or officers, agent or agents, to enter into any contract or execute and deliver any instrument in the name of and on behalf of the corporation, and such authority may be general or confined to specific instances.

**SECTION 3. Loans.** No loans shall be contracted on behalf of the corporation and no evidence of indebtedness shall be issued in its name unless authorized by a resolution of the board of directors. Such authority may be general or confined to specific instances.

**SECTION 4. Deposits.** All funds of the corporation not otherwise employed shall be deposited from time to time to the credit of the corporation in such banks, trust companies or other depositories as the board of directors may select.

**SECTION 5. Checks, Drafts, etc.** All checks, drafts or other orders for the payment of money, notes or other evidences of indebtedness issued in the name of the corporation shall be signed by such officer or officers, agent or agents of the corporation and in such manner as shall from time to time be determined by resolution of the board of directors.

## **ARTICLE VI. CERTIFICATES FOR SHARES AND THEIR TRANSFER**

**SECTION 1. Certificates for Shares.** Certificates representing shares of the corporation shall be in such form as shall be determined by the board of directors. Such certificates shall be signed by the president and by the secretary or by such other officers authorized by law and by the board of directors so to do, and sealed with the corporate seal or a facsimile thereof. The signatures of the president or vice president and the secretary or assistant secretary upon a certificate may be facsimiles if the certificate is manually signed on behalf of a transfer agent or a registrar, other than the corporation itself or an employee of the corporation. In case any officer who has signed or whose facsimile signature has been placed upon such certificate shall have ceased to be such officer before such certificate is issued, it may be issued by the corporation with the same effect as if he were such officer at the date of its issue. All certificates for shares shall be consecutively numbered or otherwise identified. The name and address of the person to whom the shares represented thereby are issued, with the number of shares and date of issue, shall be entered on the stock transfer books of the corporation. All certificates surrendered to the corporation for transfer shall be canceled and no new certificate shall be issued until the former certificate for a like number of shares shall have been surrendered and canceled, except that in case of a lost, destroyed or mutilated certificate a new one may be issued pursuant to Section 4 of this Article.

**SECTION 2. Transfer of Shares.** Transfer of shares of the corporation shall be made only on the stock transfer books of the corporation by the holder of record thereof or by his legal representative, who shall furnish proper evidence of authority to transfer, or by his attorney thereunto authorized by power of attorney duly executed and filed with the secretary of the corporation, and on surrender for cancellation of title certificate for such shares. The person in whose name shares stand on the books of the corporation shall be deemed by the corporation to be the owner thereof for all purposes.

**SECTION 3. Dividends.** Dividends may be declared by the board of directors, from time to time, and paid in cash or property only out of the unreserved and unrestricted earned surplus of the corporation, except that no dividend may be paid when the corporation is insolvent or where the payment thereof would render it insolvent or when the declaration or payment thereof would be contrary to any restriction

contained in the Articles of Incorporation. Dividends may be declared and paid in the corporation's own treasury shares or out of any treasury shares that have been reacquired out of corporate surplus. Dividends may be declared and paid in the corporation's own authorized but unissued shares out of any unreserved and unrestricted surplus, provided: (1) in the case of par value shares, such shares shall be issued at not less than par value thereof and an amount equal to the aggregate par value of the shares issued as a dividend shall be transferred to stated capital from surplus; and (2) in the case of shares without par value, such shares shall be issued at such stated value as fixed by the board of directors and there shall be transferred from surplus to stated capital an amount equal to the stated value fixed for such shares and the amount per share so transfer-red shall be disclosed to the shareholders receiving the dividends.

**SECTION 4. Lost, Destroyed or Stolen Certificates.** A shareholder requesting the issuance of a stock certificate of the corporation in lieu of a lost, destroyed or stolen certificate shall promptly give notice to the corporation of such loss, destruction or theft, and publish in a newspaper of general circulation published in the County within which the corporation then has its principal place of business, a notice of such loss once a week for two (2) successive weeks. Such shareholder shall file with the officers of this corporation, first, an affidavit setting forth the time, place and circumstances of the loss to the best of his knowledge and belief and, second, proof of the required publication. He shall also, in the discretion of the board of directors, execute and deliver to the corporation a bond with good security in a penalty of an amount deemed reasonable and necessary by the board of directors, which, amount may be an unlimited amount, conditioned to indemnify the corporation and all persons whose rights may be affected by the issuance of the new certificates against any loss in consequence of the new certificate being issued.

The corporation will issue the new stock certificate if the above requirements are completed before the corporation has notice that the certificate has been acquired by a bona fide purchaser.

The board of directors, in its discretion, may authorize the issuance of a new certificate in lieu of the one lost, destroyed or stolen without requiring the publication of said notice or the giving of a bond.

#### **ARTICLE VII. ACCOUNTING PERIOD**

The accounting period of the corporation shall begin on the 1st day of January, and end on the 31st day of December, in each year.

#### **ARTICLE VIII. CORPORATE SEAL**

The board of directors shall provide a corporate seal which shall be circular in form and shall have inscribed thereon the name of the corporation, the state of incorporation and the words, "Corporate Seal."

#### **ARTICLE IX. MISCELLANEOUS**

**SECTION 1. Voting Upon Stocks.** Unless otherwise ordered by the board of directors, the president shall have full power and authority on behalf of the corporation, whether in person or by proxy, to attend and to act and to vote at any meeting of stockholders of any corporation in which this corporation may hold stock, and at any such meeting shall possess and may exercise any and all the rights and powers incident to the ownership of such stock, and which, as the owner thereof, this corporation

might have possessed and exercised if present. The board of directors by resolution may, from time to time, confer like powers upon any other person or persons.

**SECTION 2. Contracts With Directors and Officers.** No contract or other transaction between a corporation and one or more of its directors or any other corporation, firm, association or entity in which one or more of its directors are directors or officers or are financially interested, shall be either void or voidable because of such relationship or interest or because such director or directors are present at the meeting of the board of directors or a committee thereof which authorizes, approves or ratifies such contract or transaction or because his or their votes are counted for such purpose, if: (1) the fact of such relationship or interest is disclosed or known to the board of directors or committee which authorizes, approves or ratifies the contract or transaction by a vote or consent sufficient for the purpose without counting the votes or consents of such interested directors; or (2) the fact of such relationship or interest is disclosed or known to the stockholders entitled to vote and they authorize, approve or ratify such contract or transaction by vote or written consent; or (3) the contract or transaction is fair and reasonable to the corporation.

Common or interested directors may be counted in determining the presence of a quorum at a meeting of the board of directors or a committee thereof, which authorizes, approves or ratifies such contract or transaction.

On any question involving the authorization, approval or ratification of any such contract or transaction, the names of those voting each way shall be entered on the record of the proceedings.

**SECTION 3. Indemnification of Directors and Officers.** The corporation shall indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation) by reason of the fact that he is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys fees), judgments, fines, taxes and penalties and interest thereon, and amounts paid in settlement actually and reasonably incurred by him in connection with such action or proceeding, if he acted in good faith and in a manner which he reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, that such person did not have reasonable cause to believe that this conduct was unlawful. The termination of any action or proceeding by judgment, order, settlement, conviction, or upon a plea of nolo contendere or its equivalent, shall not, of itself, create a presumption that the person did not act in good faith and in a manner which he reasonably believed to be in or not opposed to the best interest of the corporation, and, with respect to any criminal action or proceeding, that such person did have reasonable cause to believe that his conduct was unlawful.

The corporation shall indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or proceeding by or in the right of the corporation to procure judgment in its favor by reason of the fact that he is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust, or other enterprise, against expenses (including attorneys' fees) actually and reasonably incurred by him in connection with the defense or settlement of such action or proceeding, if he acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the corporation. Provided, however, that no indemnification shall be made in respect of any matter described in the immediately preceding sentence, including, but not limited to

taxes or any interest or penalties thereon, as to which such person shall have been adjudged to be liable for negligence or misconduct in the performance of his duty to the corporation unless and only to the extent that the court in which such action or proceeding was brought shall determine upon application that, despite the adjudication of liability but in view of all circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which such court shall deem proper. To the extent that a director, officer, employee or agent of a corporation has been successful on the merits or otherwise in defense of any action or proceeding heretofore referred to, or in defense of any claim, issue or matter therein, he shall be indemnified against expenses (including attorneys' fees) actually and reasonably incurred by him in connection therewith.

Any indemnification provided for herein shall be made by the corporation only as authorized in the specific case upon a determination that indemnification of the director, officer, employee or agent is proper in the circumstances because he has met the applicable standard of conduct set forth. Such determination shall be made: (1) by the board of directors by a majority vote of a quorum consisting of directors who were not parties to such action or proceeding; or (2) if such a quorum is not obtainable, or even if obtainable, a quorum of disinterested directors so directs, by independent legal counsel in a written opinion; or (3) by the stockholders.

Expenses (including attorneys' fees) incurred in defending a civil or criminal action or proceeding may be paid by the corporation in advance of the final disposition of such action or proceeding as authorized in the manner herein provided, upon receipt of an undertaking by or on behalf of the director, officer, employee or agent to repay such amount unless it shall ultimately be determined that he is entitled to be indemnified by the corporation as authorized in this section.

The indemnification provided for herein shall not be deemed exclusive of any other rights to which any stockholder or member may be entitled under any bylaw, agreement, vote of stockholders, members or disinterested directors or otherwise, both as to action in his official capacity and as to action in another capacity while holding such office and shall continue as to a person who has ceased to be a director, officer, employee or agent and shall inure to the benefit of the heirs, executors and administrators.

The directors of the corporation may, from time to time by resolution, provide for such additional indemnification or advancement of expenses as they deem appropriate to any person, acting for or on behalf of the corporation by reason of the fact that he is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise. Such indemnification or advancement of expenses may be authorized in such resolution or resolutions to the extent the directors deem appropriate under the circumstances, but at no time may the directors of the corporation provide for additional indemnification or advancement of expenses that is contrary to the laws of the State of West Virginia.

**SECTION 4. Inspection of Books and Records.** Any person who shall have been a holder of record of shares or of voting trust certificates therefor at least six months immediately preceding his demand or shall be the holder of record of, or the holder of record of voting trust certificates for, at least five percent (5%) of all the outstanding shares of the corporation, upon written demand stating the purpose thereof, shall have the right to examine, in person, or by agent or attorney, at any reasonable time or times, for any proper purpose its relevant books and records of accounts, minutes, and record of stockholders and to make extracts therefrom.

**SECTION 5. Waiver of Notice.** Unless otherwise provided by law, whenever any notice is required to be given to any shareholder or directors of the corporation under the provisions of these bylaws or under the provisions of the Articles of Incorporation or under the provisions of the West Virginia Corporation Act, a waiver thereof in writing, signed by the person or persons entitled to such notice, whether before or after the time stated therein, shall be deemed equivalent to the giving of such notice and attendance of the person at a meeting shall constitute a waiver of notice, unless the person attends for the express purpose of objecting to the transaction of any business because the meeting is not lawfully called or convened.

**SECTION 6. Telephonic Attendance and Voting at Meetings.** Notwithstanding anything herein contained to the contrary, one or more directors or shareholders may participate in a meeting of the board, a committee of the board or of the shareholders by means of conference telephonic or similar electronic communication equipment by means of which all persons participating in the meeting can hear each other.

Whenever a vote of the shareholders or directors is required or permitted in connection with any corporate action this vote may be taken orally during this electronic conference. The agreement thus reached shall have like effect and validity as though the action were duly taken by the action of the shareholders or directors at a meeting of shareholders or directors if the agreement is reduced to writing and approved by the shareholders or directors at the next regular meeting of the shareholders or directors after the conference.

**SECTION 7. Usage of Terms.** Except as otherwise specifically provided, for the purposes of these bylaws, the term majority shall mean a number greater than one-half (1/2) of the total.

Except as otherwise specifically provided, for the purposes of these bylaws, and as the context may require, the use of pronouns of the masculine gender shall be deemed to include pronouns of the feminine and neuter genders, and the use of pronouns of the feminine gender shall be deemed to include pronouns of the masculine and neuter genders.

## **ARTICLE X AMENDMENTS**

These bylaws may be altered, amended or repealed and new bylaws may be adopted by the board of directors at any regular or special meeting of the board of directors, subject to repeal or alteration by action of the shareholders.

The Corporation may also have other offices at such places within or without the State of Delaware as the Board of Directors may from time to time designate or the business of the Corporation may require.

**Section 1.02 Change of Location.** In the manner permitted by law, the Board of Directors or the registered agent may change the address of the Corporation’s registered office in the State of Delaware and the Board of Directors may make, revoke or change the designation of the registered agent.

**ARTICLE II — MEETINGS OF STOCKHOLDERS**

**Section 2.01 Annual Meeting.** The annual meeting of the stockholders of the Corporation for the election of directors and for the transaction of such other business as may properly come before the meeting shall be held at the registered office of the Corporation, or at such other place within or without the State of Delaware as the Board of Directors may designate, on the date specified in the notice of such annual meeting.

**Section 2.02 Special Meetings.** Special meetings of stockholders, unless otherwise prescribed by law, may be called at any time by the President, by order of the Board of Directors, or at the request of stockholders owning a majority of the voting stock. Special meetings of stockholders shall be held at such place within or without the State of Delaware as shall be designated in the notice of such special meeting.

**Section 2.03 List of Stockholders Entitled to Vote.** The officer who has charge of the stock ledger of the Corporation shall prepare and make, at least ten (10) days before every meeting of stockholders, a complete list, based upon the record date for such meeting determined pursuant to Section 5.06, of the stockholders entitled to vote at the meeting, and showing the address of each stockholder and the number of shares registered in the name of each stockholder. Such list shall be open, for at least ten (10) days prior to the meeting, during ordinary business hours, to the examination of any stockholder for any purpose germane to the meeting. For purposes of stockholder examination, the list shall be either at a place within the city where the meeting is to be held, which place shall be specified in the notice of the meeting or, if such place shall not be so specified, at the place where said meeting is to be held. The list shall also be produced and kept during the entire meeting, and may be inspected by any stockholder who is present.

---

The stock ledger shall be the only evidence as to who are the stockholders entitled (i) to examine the stock ledger, the list of stockholders entitled to vote at any meeting, or the books of the Corporation; or (ii) to vote in person or by proxy at any meeting of stockholders.

**Section 2.04 Notice of Meeting.** Whenever stockholders are required or permitted to take any action at a meeting, a written notice of the meeting shall be given which shall state the place, date and hour of the meeting and, in the case of a special meeting, the purpose or purposes for which the meeting is called. The written notice shall be given not less than five (5) nor more than sixty (60) days before the date of the meeting to each stockholder entitled to vote thereat. If mailed, such notice shall be deposited in the United States mail, postage prepaid, directed to such stockholder at his address as the same appears on the records of the Corporation.

**Section 2.05 Adjourned Meetings and Notice Thereof.** Any meeting of stockholders may be adjourned to another time or place, and the Corporation may transact at any adjourned meeting any business which might have been transacted at the original meeting. Notice need not be given of the adjourned meeting if the time and place thereof are announced at the meeting at which the adjournment is taken. If the adjournment is for more than thirty (30) days, or if after adjournment a new record date is fixed for the adjourned meeting, a notice of the adjourned meeting shall be given to each stockholder of record entitled to vote at the meeting.

**Section 2.06 Quorum.** At any meeting of stockholders, except as otherwise expressly required by law, the holders of record of at least a majority of the outstanding shares of capital stock entitled to vote or act at such meeting shall be present or represented by proxy in order to constitute a quorum for the transaction of any business. Less than a quorum shall have power to adjourn any meeting until a quorum shall be present. When a quorum is once present to organize a meeting, the quorum cannot be destroyed by the subsequent withdrawal or revocation of the proxy of any stockholder.

**Section 2.07 Voting.** At any meeting of stockholders, each stockholder entitled to vote at such meeting shall have one (1) vote for each share of stock held by such stockholder.

Unless otherwise provided by law, the Certificate of Incorporation, these Bylaws or agreement of the stockholders, the vote of the holders of a majority of shares present at a meeting which has a quorum is required for action by the stockholders.

Each stockholder entitled to vote at a meeting of stockholders, or to express consent or dissent to corporate action in writing without a meeting, may authorize another person or persons to act for him by proxy, provided that no proxy shall be voted or acted upon after eleven (11) months from its date, unless the proxy provides for a longer period. A duly executed proxy shall be irrevocable if it states that it is irrevocable and if, and only so long as, it is coupled with an interest, whether in the stock itself or in the Corporation, sufficient in law to support an irrevocable power.

**Section 2.08 Action by Consent of Stockholders.** Unless otherwise provided or prevented by law, the Certificate of Incorporation, these Bylaws or agreement of the stockholders, any action required or permitted to be taken at any annual or special meeting of

the stockholders of the Corporation may be taken without a meeting, without prior notice and without a vote, if a consent in writing, setting forth the action so taken, shall be executed by the stockholders entitled to vote thereon in accordance with Section 228 of the Delaware General Corporation Law.

### ARTICLE III — BOARD OF DIRECTORS

**Section 3.01 General Powers.** The property, business and affairs of the Corporation shall be managed by the Board of Directors. The Board of Directors may exercise all such powers of the Corporation and have such authority and do all such lawful acts and things as are permitted by law, the Certificate of Incorporation or these Bylaws.

**Section 3.02 Number of Directors.** The Board of Directors of the Corporation shall consist of one or more members, the number thereof to be determined from time to time by resolution of the Board of Directors.

**Section 3.03 Qualification.** Directors need not be stockholders of the Corporation.

**Section 3.04 Election.** Except as otherwise provided by law, the Certificate of Incorporation, these Bylaws or agreement of the stockholders, directors of the Corporation shall be elected each year at the annual meeting of stockholders, or at a special meeting in lieu of the annual meeting called for such purpose, by a majority of votes cast at such meeting.

**Section 3.05 Term.** The Board of Directors shall initially consist of the persons named as directors by the incorporator, and each director so elected shall hold office until the first annual meeting of stockholders or until his successor is elected and qualified. Except as otherwise provided by law, the Certificate of Incorporation, these Bylaws or agreement of the stockholders, each director shall hold office for a term of one year or until his successor is elected and qualified, except in the event of the earlier termination of his term of office by reason of death, resignation, removal or other reason.

**Section 3.06 Resignation and Removal.** Any director may resign at any time upon written notice to the Board of Directors, the President and the Secretary. The resignation of any director shall take effect upon receipt of notice thereof or at such later time as shall be specified in such notice. Unless otherwise specified therein, the acceptance of such resignation shall not be necessary to make it effective. Except as otherwise provided by law, any director may be removed at any time with or without cause by the stockholders at a special meeting called for such purpose by a majority vote cast at such meeting.

**Section 3.07 Vacancies.** Vacancies in the Board of Directors and newly-created directorships resulting from an increase in the authorized number of directors shall be filled by a majority of the directors then in office, though less than a quorum, or by a sole remaining director.

If one or more directors shall resign from the Board of Directors effective at a future date, a majority of the directors then in office, including those who have so resigned at a future date, shall have the power to fill such vacancy or vacancies. The vote thereon shall take

effect and the vacancy shall be filled when such resignation or resignations shall become effective, and each director so chosen shall hold office as provided in this section.

Each director chosen to fill a vacancy on the Board of Directors shall hold office until the next annual election of directors and until his successor shall be elected and qualified, except in the event of the earlier termination of his office by reason of death, resignation, removal or other reason.

**Section 3.08 Quorum and Voting.** A majority of the total number of directors shall constitute a quorum for the transaction of business. A director interested in a contract or transaction may be counted in determining the presence of a quorum at a meeting of the Board of Directors which authorizes the contract or transaction. In the absence of a quorum, a majority of the directors present may adjourn the meeting until a quorum shall be present.

Members of the Board of Directors or any committee designated by the Board of Directors may participate in a meeting of the Board of Directors or such committee by means of conference telephone or similar communications equipment by means of which all persons participating in a meeting can hear each other. The participation in such a meeting shall constitute presence in person at such meeting for all purposes. A person holding a general power of attorney for a member of the Board of Directors or a person holding a special power of attorney empowering such person to act for such member on the Board of Directors may participate in a meeting of the Board of Directors or in a meeting of any Committee of the Board of Directors on behalf of such member.

The vote of the majority of the directors present at a meeting at which a quorum is present shall be the act of the Board of Directors unless applicable law, the Certificate of Incorporation, these Bylaws, or an agreement of the stockholders shall require a vote of a greater number.

**Section 3.09 Rules and Regulations.** The Board of Directors may adopt such rules and regulations for the conduct of the business and management of the Corporation, not inconsistent with law or the Certificate of Incorporation or these Bylaws, as the Board of Directors may deem proper. The Board of Directors may hold its meetings and cause the books and records of the Corporation to be kept at such place or places within or without the State of Delaware as the Board of Directors may from time to time determine. A member of the Board of Directors shall, in the performance of his duties, be fully protected in relying in good faith upon the books of account or reports made to the Corporation by any of its officers, by an independent certified public accountant, or by an appraiser selected with reasonable care by the Board of Directors or any committee of the Board of Directors, or in relying in good faith upon other records of the Corporation.

**Section 3.10 Annual Meeting of Board of Directors.** An annual meeting of the Board of Directors shall be called and held for the purpose of organization, election of officers and transaction of any other business. No notice of the annual meeting of the Board of Directors need be given if such meeting is held promptly after and at the place specified for the annual meeting of stockholders. Otherwise, such annual meeting shall be held at such time (but

not more than thirty (30) days after the annual meeting of stockholders) and place as may be specified in a notice of the meeting.

**Section 3.11 Regular Meetings.** Regular meetings of the Board of Directors shall be held at least quarterly, at the time and place, within or without the State of Delaware, as shall from time to time be determined by the Board of Directors. Except as otherwise provided by law, any business may be transacted at any regular meeting.

**Section 3.12 Special Meetings.** Special meetings of the Board of Directors may be called from time to time by the President, and shall be called by the President or the Secretary upon written request of a majority of the entire Board of Directors directed to the President or Secretary. Except as provided below, notice of any special meeting of the Board of Directors, stating the time, place and purpose of such special meeting, shall be given to each director.

**Section 3.13 Notice of Meetings; Waiver of Notice.** Except as provided in this Section 3.13 and in Section 3.09, notice of any meeting of the Board of Directors must be given to all directors. Notice of any meeting of the Board of Directors shall be deemed to be duly given to a director (i) if mailed to such director, addressed to him at his address as it appears upon the books of the Corporation, or at the address last made known in writing to the Corporation by such director as the address to which such notices are to be sent, at least four (4) days before the day on which such special meeting is to be held; or (ii) if sent to him at such address by facsimile, telegraph or cable, not later than the day before the day on which such meeting is to be held; or (iii) if delivered to him personally or orally, by telephone or otherwise, not later than the day before the day on which such special meeting is to be held. Each such notice shall state the time and place of the meeting and the purposes thereof.

Notice of any meeting of the Board of Directors need not be given to any director if waived by him in writing (or by telegram or cable and confirmed in writing), whether before or after the holding of such meeting, or if such director is present at such meeting. Any meeting of the Board of Directors shall be a legal meeting without any notice thereof having been given if all directors then in office shall be present thereat.

**Section 3.14 Compensation of Directors.** The Compensation Committee of the Board of Directors may from time to time, in its discretion, fix the amounts which shall be payable to outside directors and to members of any committee of the Board of Directors for attendance at the meetings of the Board of Directors or of such committee and for services rendered to the Corporation.

**Section 3.15 Action Without Meeting.** Any action required or permitted to be taken at any meeting of the Board of Directors or of any committee thereof may be taken without a meeting if a written consent thereto is signed by all members of the Board of Directors or of such committee, as the case may be, and such written consent is filed with the minutes of proceedings of the Board of Directors or such committee.

**Section 3.16 Committees.** The Board of Directors may, by resolution passed by a majority of the whole Board of Directors, designate one or more committees, each committee

to consist of one or more of the directors or the corporation. The Board of Directors may designate one or more directors as alternate members of any committee, who may replace any absent or disqualified member at any meeting of the committee. In the absence or disqualification of a member of the committee, the member or members thereof present at any meeting and not disqualified from voting, whether or not he or they constitute a quorum, may unanimously appoint another member of the Board of Directors to act at the meeting in place of any such absent or disqualified member. Any such committee, to the extent permitted by law and to the extent provided in the resolution of the Board of Directors, shall have and may exercise all the powers and authority of the Board of Directors in the management of the business and affairs of the corporation, and may authorize the seal of the corporation to be affixed to all papers which may require it.

#### **ARTICLE IV — OFFICERS**

**Section 4.01 Principal Officers.** The principal officers of the Corporation shall be elected by the Board of Directors and shall include a President and Chief Executive Officer, one or more Vice Presidents, a Secretary and a Treasurer and may, at the discretion of the Board of Directors, also include a Chairman of the Board. One person may hold the offices and perform the duties of any two (2) or more of said principal offices except the offices and duties of President and Secretary. None of the principal officers need be directors of the Corporation.

**Section 4.02 Election of Principal Officers; Term of Office.** The principal officers of the Corporation shall be elected annually by the Board of Directors at each annual meeting of the Board of Directors. Failure to elect any principal officer annually shall not dissolve the Corporation.

If the Board of Directors shall fail to fill any principal office at an annual meeting, or if any vacancy in any principal office shall occur, or if any principal office shall be newly created, such principal office may be filled at any regular or special meeting of the Board of Directors.

**Section 4.03 Subordinate Officers, Agents and Employees.** In addition to the principal officers, the Corporation may have one or more Assistant Treasurers, Assistant Secretaries and such other subordinate officers, agents and employees as the Board of Directors may deem advisable. Each shall hold office for such period and have such authority and perform such duties as the Board of Directors, the President or any officer designated by the Board of Directors may from time to time determine. The Board of Directors at any time may appoint and remove, or may delegate to any principal officer the power to appoint and to remove, any subordinate officer, agent or employee of the Corporation.

**Section 4.04 Delegation of Duties of Officers.** The Board of Directors may delegate the duties and powers of any officer of the Corporation to any other officer or to any director for a specified period of time for any reason that the Board of Directors may deem sufficient.

**Section 4.05 Removal of Officers.** Any officer of the Corporation may be removed with or without cause by resolution adopted by a majority of all of the directors then in

office at any regular or special meeting of the Board of Directors or by a written consent signed by all of the directors then in office.

**Section 4.06 Resignations.** Any officer may resign at any time by giving written notice of resignation to the Board of Directors, to the President or to the Secretary. Any such resignation shall take effect upon receipt of such notice or at any later time specified therein. Unless otherwise specified in the notice, the acceptance of a resignation shall not be necessary to make the resignation effective.

The President shall be the Chief Executive Officer of the Corporation unless the Board of Directors shall designate another officer to be the Chief Executive Officer. If there is no President, and the Board of Directors has not designated any other officer to be the Chief Executive Officer, then the Chairperson of the Board of Directors shall be the Chief Executive Officer.

**Section 4.08 President.** The President shall be the Chief Executive Officer of the Corporation unless the Board of Directors shall have designated another officer as the Chief Executive Officer of the Corporation. Subject to the provisions of these Bylaws and to the direction of the Board of Directors, and subject to the supervisory powers of the Chief Executive Officer (if the Chief Executive Officer is an officer other than the President), and subject to such supervisory powers and authority as may be given by the Board of Directors to the Chairperson of the Board of Directors, and/or to any other officer, the President shall have the responsibility for the general management the control of the business and affairs of the Corporation and the general supervision and direction of all of the officers, employees and agents of the Corporation (other than the Chief Executive Officer, if the Chief Executive Officer is an officer other than the President) and shall perform all duties and have all powers that are

commonly incident to the office of President or that are delegated to the President by the Board of Directors.

**Section 4.09 Vice Presidents.** In the absence or disability of the President or if the office of President is vacant, the Vice Presidents, in the order determined by the Board of Directors, or if no such determination has been made in the order of their seniority, shall perform the duties and exercise the powers of the President, subject to the right of the Board of Directors at any time to extend or confine such powers and duties or to assign them to others. Any Vice President may have such additional designations in his title as the Board of Directors may determine. The Vice Presidents shall generally assist the President in such manner as the President shall direct. Each Vice President shall have such other powers and perform such other duties as may be assigned to him from time to time by the Board of Directors or the President.

The Secretary shall be empowered to affix the corporate seal to documents, the execution of which on behalf of the Corporation under its seal is duly authorized, and when so affixed may attest the same. The Secretary shall have all powers and duties usually incident to the office of the Secretary, except as specifically limited by a resolution of the Board of Directors. ## ARTICLE V — CAPITAL STOCK

**Section 5.01 Certificates for Stock.** Each stockholder of the Corporation shall be entitled to a certificate signed by, or in the name of, the Corporation by the President or a Vice President and by either the Treasurer, an Assistant Treasurer, the Secretary or an Assistant Secretary of the Corporation, certifying the number of shares of capital stock of the Corporation

owned by such stockholder. The certificate shall bear the seal of the Corporation or a printed or engraved facsimile thereof

In case any officer, transfer agent or registrar who has signed or whose facsimile signature has been placed upon a certificate shall have ceased to be such officer, transfer agent or registrar before such certificate is issued, such certificate may be issued by the Corporation with the same effect as if such signer were such officer, transfer agent or registrar at the date of issue.

**Section 5.02 Stock Ledger.** A record of all certificates for capital stock issued by the Corporation shall be kept by the Secretary or any other officer, employee or agent designated by the Board of Directors. Such record shall show the name and address of the person, firm or corporation in which certificates for capital stock are registered, the number of shares represented by each such certificate, the date of each such certificate and, in the case of certificates which have been cancelled, the dates of cancellation thereof.

The Corporation shall be entitled to treat the holder of record of shares of capital stock as shown on the stock ledger as the owner thereof and as the only person entitled to receive dividends thereon, to vote such shares and to receive notice of meetings, and for all other purposes. The Corporation shall not be bound to recognize any equitable or other claim to or interest in any share of capital stock on the part of any person who is not a stockholder of record whether or not the Corporation shall have express or other notice thereof.

**Section 5.03 Regulations Relating to Transfer.** The Board of Directors may make such rules and regulations as it may deem expedient, not inconsistent with law, the Certificate of Incorporation or these Bylaws, concerning issuance, transfer and registration of certificates for shares of capital stock of the Corporation. The Board of Directors may appoint, or authorize any principal officer to appoint, one or more transfer clerks or one or more transfer agents and one or more registrars and may require all certificates for capital stock to bear the signature or signatures of any of them.

**Section 5.04 Cancellation.** Each certificate for capital stock surrendered to the Corporation for exchange or transfer shall be cancelled and no new certificate or certificates shall be issued in exchange for any existing certificate (other than pursuant to Section 5.05) until such existing certificate shall have been cancelled.

**Section 5.05 Lost, Stolen, Destroyed or Mutilated Certificates.** In the event that any certificate for shares of capital stock of the Corporation shall be mutilated, the Corporation shall issue a new certificate in place of such mutilated certificate. In case any such certificate shall be lost, stolen or destroyed the Corporation may, in the discretion of the Board of Directors or a committee designated thereby with power so to act, issue a new certificate for capital stock in the place of any such lost, stolen or destroyed certificate. The applicant for any substituted certificate or certificates shall surrender any mutilated certificate or, in the case of any lost, stolen or destroyed certificate, furnish satisfactory proof of such loss, theft or destruction of such certificate and of the ownership thereof. The Board of Directors or such committee may, in its discretion, require the owner of a lost, stolen or destroyed certificate, or his representatives, to furnish to the Corporation a bond with an acceptable surety or sureties and in such sum as will be sufficient to indemnify the Corporation against any claim that may be made

against it on account of the lost, stolen or destroyed certificate or the issuance of such new certificate. A new certificate may be issued without requiring a bond when, in the judgment of the Board of Directors, it is proper to do so.

**Section 5.06 Fixing of Record Dates.** The Board of Directors may fix, in advance, a record date, which shall not be more than sixty (60) nor less than ten (10) days before the date of any meeting of stockholders, nor more than sixty (60) days prior to any other action, for the purpose of determining stockholders entitled to notice of or to vote at such meeting of stockholders or any adjournment thereof, or to express consent to dissent to corporate action in writing without a meeting, or to receive payment of any dividend or other distribution or allotment of any rights, or to exercise any rights in respect to any change, conversion or exchange of stock or for the purpose of any other lawful action.

If no record date is fixed by the Board of Directors:

- (ii) The record date for determining stockholders entitled to express consent to Corporate action in writing without a meeting, when no prior action by the Board of Directors is necessary, shall be the day on which the first written consent is expressed;

- (iv) A determination of stockholders of record entitled to notice of or to vote at a meeting of stockholders shall apply to any adjournment of the meeting, provided that the Board of Directors may fix a new record date for the adjourned meeting.

## ARTICLE VI — INDEMNIFICATION

**Section 6.01 Indemnification.** The Corporation shall have power to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or contemplated action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the Corporation), by reason of the fact that he is or was a director, officer, employee or agent of the Corporation, or is or was serving at the request of the Corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorney's fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by him in connection with such action, suit or proceeding. Indemnification will, however, only apply if he acted in good faith and in a manner he believed in good faith to be in or not opposed to the best interests of the Corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe his conduct was unlawful. The termination of any action, suit or proceeding by judgment, order, settlement, conviction, or upon a plea of *nolo contendere* or its equivalent, shall not, of itself, create a presumption that the person did not act in good faith and in a manner which he reasonably believed to be in or not opposed to the best interests of the

Corporation and, with respect to any criminal action or proceeding, had reasonable cause to believe that his conduct was unlawful.

**Section 6.02 Indemnification Insurance.** The Corporation shall have the power to purchase and maintain insurance on behalf of any person who is or was a director, officer, employee or agent of the Corporation, or is or was serving at the request of the Corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against any liability asserted against him and incurred by him in any such capacity, or arising out of his status as such, whether or not the Corporation would have the power to indemnify him against such liability under applicable law.

## **ARTICLE VII — MISCELLANEOUS PROVISIONS**

**Section 7.01 Corporate Seal.** The seal of the Corporation shall be circular in form with the name of the Corporation inscribed thereon and shall be in such form as may be approved from time to time by the Board of Directors. The seal may be used by causing it to be affixed or impressed, or a facsimile thereof may be reproduced or otherwise used, in such manner as the Board of Directors may determine.

**Section 7.02 Fiscal Year.** The fiscal year of the Corporation shall be determined by resolution of the Board of Directors.

**Section 7.03 Waiver of Notice.** Whenever any notice is required to be given under any provision of law, the Certificate of Incorporation or these Bylaws, a written waiver thereof, signed by the person or persons entitled to such notice, whether before or after the time stated therein, shall be deemed equivalent to notice. Neither the business to be transacted at, nor the purpose of, any regular or special meeting of the stockholders, directors or members of a committee of directors need be specified in any written waiver of notice unless so required by the Certificate of Incorporation or these Bylaws.

Attendance of a person at a meeting shall constitute a waiver of notice of such meeting, except when the person attends a meeting for the express purpose of objecting, at the beginning of the meeting, to the transaction of any business because the meeting is not lawfully called or convened.

**Section 7.04 Execution of Instruments and Contracts.** All checks, drafts, bills of exchange, notes or other obligations or orders for the payment of money shall be signed in the name of the Corporation by such officer or officers or person or persons as the Board of Directors may from time to time designate.

Except as otherwise provided by law, the Board of Directors, any committee given specific authority in the premises by the Board of Directors, or any committee given authority to exercise generally the powers of the Board of Directors during the intervals between meetings of the Board of Directors, may authorize any officer, employee or agent, in the name of and on behalf of the Corporation, to enter into or execute and deliver deeds, bonds, mortgages, contracts and other obligations or instruments, and such authority may be general or confined to specific instances.

All applications, written instruments and papers required by any department of the United States government or by any state, county, municipal or other governmental authority, may be executed in the name of the Corporation by any principal officer or subordinate officer of the Corporation, or, to the extent designated for such purpose from time to time by the Board of Directors, by an employee or agent of the Corporation. Such designation may contain the power to substitute, in the discretion of the person named, one or more persons.

**Section 7.05 Relation to Certificate of Incorporation.** These Bylaws are subject to, and governed by, the Certificate of Incorporation.

#### **ARTICLE VIII — AMENDMENTS**

Indemnification will, however, only apply if he acted in good faith and in a manner he believed in good faith to be in or not opposed to the best interests of the Corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe his conduct was unlawful. The termination of any action, suit or proceeding by judgment, order, settlement, conviction, or upon a plea of *nolo contendere* or its

equivalent, shall not, of itself, create a presumption that the person did not act in good faith and in a manner which he reasonably believed to be in or not opposed to the best interests of the Corporation and, with respect to any criminal action or proceeding, had reasonable cause to believe that his conduct was unlawful.

**Section 6.02 Indemnification Insurance.** The Corporation shall have the power to purchase and maintain insurance on behalf of any person who is or was a director, officer, employee or agent of the Corporation, or is or was serving at the request of the Corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against any liability asserted against him and incurred by him in any such capacity, or arising out of his status as such, whether or not the Corporation would have the power to indemnify him against such liability under applicable law.

**Section 7.04 Execution of Instruments and Contracts.** All checks, drafts, bills of exchange, notes or other obligations or orders for the payment of money shall be signed in the name of the Corporation by such officer or officers or person or persons as the Board of Directors may from time to time designate.

Section 1 - Annual Meeting.

The regular annual meeting of the stockholders of the corporation for the election of directors and for the transaction of the lawful business of the corporation shall be held on the third Wednesday in October each year, either at the principal office of the corporation, or at such other place in or outside West Virginia as shall be designated in

---

the notice or waiver of notice of such regular annual meeting. Should said date fall on a legal holiday, the regular annual meeting shall be on the first business day following.

Section 2 - General or Special Meeting.

A general, regular or special meeting of the stockholders may be held at the principal office of the corporation, or at such other place in or outside West Virginia as shall be designated in the notice or waiver of notice of such special or general meeting whenever called by the board of directors, by the president and secretary, or by any number of stockholders owning in the aggregate at least one-tenth of the number of shares outstanding.

Section 3 - Notice of Meetings.

Notice of the regular annual meeting of the stockholders shall be given in writing by the president or vice president or secretary of the corporation.

Notice of a general or special meeting of the stockholders shall be given by notice in writing signed by the stockholders making the call for said meeting, or if called by the board of directors shall be signed by the president or vice president or secretary of the corporation, and/or if called by the president and secretary shall be signed by them. Said written notice shall state the place, day and hour of the meeting, and, in case of a special meeting, the purpose or purposes for which the meeting is called, and shall be delivered not less than ten (10) nor more than fifty (50) days before the date of the meeting, either personally or by mail, by or at the direction of the president, secretary, or the officer or persons calling the meeting, to each stockholder of record or member entitled to vote at such meeting. If such notice shall be mailed, the postage shall be prepaid, and it shall be addressed to each of the stockholders of record at the post office address of each of the stockholders appearing on the books of the corporation, or, if an address is specified for this purpose by a stockholder, then to such address.

Section 4 - Waiver of Notice.

Any meeting of the stockholders may be held without notice and publication of notice if a written waiver thereof be signed by all of the stockholders and filed with

---

the records of the meeting either before or after the holding thereof. When, however, it is required by statute that notice shall be given in a particular manner and such notice cannot be legally waived, then such notice shall be given in the manner provided by such statute.

Section 5 - Written Agreement in Lieu of Meeting.

Whenever the vote of stockholders at a meeting thereof is required or permitted to be taken in connection with any corporate action, the meeting and vote of such stockholders may be dispensed with if all of the stockholders who would have been entitled to vote upon the action, if such meeting were held, shall agree in writing to such corporate action being taken, and such agreement shall have like effect and validity as though the action were duly taken by the unanimous action of all stockholders entitled to vote at a meeting of such stockholders duly called and legally held.

Section 6 - Quorum.

At all meetings of the stockholders, a quorum of the stockholders shall consist of a majority of all the shares of stock entitled to vote, represented by the holders thereof in person or represented by proxy, but in no event shall a quorum consist of less than one-third (1/3rd) of the shares entitled to vote at the meeting. If a quorum is present, the affirmative vote of a majority of the shares represented at the meeting and entitled to vote on the subject matter shall be the act of the stockholders.

Section 7 - Adjournment and Recesses.

Any number of shares less than a quorum present and/or represented by proxy at any stockholders' meeting may adjourn said meeting from time to time until a quorum is present.

Every meeting of the stockholders may adjourn or recess from time to time until its business is completed.

Section 8 - Organization.

The president shall call meetings of the stockholders to order and shall act as chairman of such meeting.

---

The stockholders present may appoint any stockholder to act as chairman of any meeting in the absence of the president or with his consent if present.

The secretary of the corporation shall act as secretary of all meetings of the stockholders. In the absence of the secretary at any such meeting, the assistant secretary present shall act as secretary thereof; and if neither the secretary nor an assistant secretary be present, the presiding officer may appoint any person to act as secretary thereof and to keep a record of the proceedings.

#### Section 9 - Voting

At each election for directors every stockholder entitled to vote at such election shall have the right to vote, in person or by proxy, the number of shares owned by him for as many persons as there are directors to be elected and for whose election he has a right to vote, or to cumulate his votes by giving one candidate as many votes as the number of such directors multiplied by the number of his shares shall equal, or by distributing such votes on the same principle among any number of such candidates, and the directors shall not be elected in any other manner, except as provided in Article IV, Section 2, of the by-laws.

On any other question to be determined by a vote of shares of any meeting of stockholders, each stockholder shall be entitled to one vote for each share of stock owned by him and entitled to vote and he may exercise this right in person or by proxy.

### ARTICLE IV

#### BOARD OF DIRECTORS

##### Section 1 - Powers, Qualifications, Number and Term of Office.

The business and property of the corporation shall be managed and controlled by the board of directors to be elected at each regular annual meeting of the corporation. The board of directors shall consist of one or more persons as may be provided for by the stockholders at the regular annual meeting. Each director shall hold office from the time of his election until the next regular annual meeting

---

of the stockholders of the corporation or until his successor is elected and qualified or until he is removed by a vote of the stockholders. No director need be a resident of the State of West Virginia or a stockholder of the corporation in order to hold said office.

Section 2 - Vacancies.

Any vacancies occurring in the board of directors and any directorship to be filled by reason of an increase in the number of directors, unless the articles of incorporation or by-laws provide that a vacancy shall be filled in some other manner, may be filled by the affirmative vote of a majority of the remaining directors though less than a quorum of the board of directors. A director elected to fill a vacancy shall be elected for the unexpired term of his predecessor in office. Any directorship to be filled by reason of an increase in the number of directors may be filled by the board of directors for a term of office continuing only until the next election of directors by the stockholders.

Section 3 - Place of Meeting.

Meetings of the board of directors, regular or special, may be held either within or without this State.

Section 4 - Regular Meetings.

The regular meetings of the board of directors shall be held annually on the third Wednesday in October of each year following the annual meeting of stockholders.

Special meetings of the board of directors shall be held whenever called by direction of the president, vice president, or any two of the directors.

Section 6 - Notice; Waiver of Notice.

No notice shall be required of the regular meetings of the board of directors. Notice of special meetings of the board of directors shall be given by mailing a written notice to each director at his last known post office address

---

at least two days before the time of the meeting. Such notice shall state the time, place and purpose of such special meeting.

Notice of such special meetings of the board of directors shall be considered waived if a director shall attend in person or if every director shall in writing file with the records of the meeting either before or after the holding of such meeting a written waiver of such notice, except that attendance of a director at a meeting shall not constitute a waiver of notice if such director attends for the express purpose of objecting to the transaction of any business because the meeting is not lawfully called or convened.

Section 7 - Written Agreement in Lieu of Meeting.

Whenever the vote of directors at a meeting thereof is required or permitted to be taken in connection with any corporate action, the meeting and vote of such directors may be dispensed with if all of the directors shall consent and agree in writing to such corporate action being taken, and such agreement (which shall set forth the action so taken and be signed by all of the directors) shall have like effect and validity as though the action were duly taken by the unanimous action of all directors at a meeting of such directors duly called and legally held.

Section 8 - Quorum.

A majority of the members of the board of directors shall constitute a quorum thereof for the transaction of business, but if at any meeting of said board of directors there shall be less than a quorum present, any number of said directors may adjourn said meeting from time to time and place to place until a quorum is present.

Section 9 - Presiding Officer; Recording Officer.

At all meetings of the board of directors, the president or a vice president, or in the absence of them, any director elected by the directors present, shall preside. The secretary or an assistant secretary, or in the absence of both, any person appointed by the directors present, shall keep a record of the proceedings. The records shall be verified by the signature of the person acting as chairman of the meeting.

---

#### Section 10 - Voting When Interested.

No contract or other transaction between a corporation and one or more of its directors or any other corporation, firm, association or entity in which one or more of its directors are directors or officers or are financially interested, shall be void or voidable solely because of such relationship or interest or because such director or directors were present at the meeting of the board of directors which authorizes, approves or ratifies such contract or transaction or because his or their votes are counted for such purpose if (a) the fact of such relationship or interest is disclosed or known to the board of directors which authorizes, approves or ratifies the contract or transaction by a vote or consent sufficient for the purpose without counting the votes or consents of such interested directors; or (b) the fact of such relationship is disclosed or known to the stockholders entitled to vote and they authorize, approve or ratify such contract or transaction by vote or written consent; or (c) the contract or transaction is fair and reasonable to the corporation. Interested directors may be counted in determining the presence of a quorum at a meeting of the board of directors which authorizes, approves or ratifies such contract or transaction. On any question involving the authorization, approval or ratification of any such contract or transaction, the names of those voting each way shall be entered on the record of their proceedings.

#### Section 11 - Compensation of Directors.

For attendance at any meeting of the board of directors or any committee thereof, each director shall receive such compensation as may be fixed from time to time by the board. If no compensation be fixed by the board in such cases, no director shall be entitled to receive any compensation for his attendance.

#### Section 12 - Ratification of Stockholders.

The board of directors, in its discretion, may submit any contract or act for approval or ratification at any annual meeting of the stockholders or any general or special meeting called for the purpose of considering any contract or act; and any contract or act which shall be approved and ratified by the vote of the holders of a majority in interest of the capital stock of the corporation that is represented in person or by proxy at such meeting,

---

providing only that a quorum of the stockholders be either so represented in person or by proxy, shall be as valid and binding upon the corporation and upon all the stockholders as though it had been approved and ratified by each and every stockholder of the corporation.

Section 13 - General Powers.

The board of directors shall elect the officers hereinafter provided for in Article V, Section 1 of the by-laws, and in case of the absence of the president and/or the vice president, the board may appoint a president pro tempore who for the time shall discharge the official duties of the president, and the board of directors shall determine what is such absence as will justify the election of the president pro tempore.

The board of directors, by resolution adopted by a majority of the full board of directors, may designate from among its members an executive committee and one or more other committees each of which, to the extent provided in such resolution, shall have and may exercise all the authority of the board of directors, except in reference to amending the articles of incorporation, adopting a plan of merger or consolidation, recommending to the stockholders the sale, lease, exchange or other disposition of all or substantially all the property and assets of the corporation otherwise than in the usual and regular course of its business, recommending to the stockholders a voluntary dissolution of the corporation or a revocation thereof, or amending the by-laws of the corporation. The designation of any such committee and the delegation thereto of authority shall not operate to relieve the board of directors, or any member thereof, of any responsibility imposed by law.

Section 14 - Removal.

At a meeting of stockholders called expressly for that purpose, any director or the entire board of directors may be removed, with or without cause, by a vote of the holders of a majority of the shares entitled to vote at an election of directors. If less than the entire board is to be removed, no one of the directors may be removed if the votes cast against his removal would be sufficient to elect him.

---

## ARTICLE V

### OFFICERS

#### Section 1 - Officers.

The officers of the corporation shall consist of a president, vice president, secretary and treasurer. The board of directors may, from time to time, also appoint or elect such other additional officers and agents, and prescribe the duties thereof, as the board of directors shall deem expedient. One person may hold more than one office, except that the president and secretary shall not be the same person. No officer shall execute, acknowledge or verify any instrument in more than one capacity, if such instrument is required by law or by the by-laws to be executed, acknowledged and verified or countersigned by two or more officers.

#### Section 2 - Election and Terms of Office.

The board of directors shall elect the aforementioned officers, who shall hold office until the next regular annual meeting of the stockholders, or until their successors are elected and qualified. The board of directors shall fix the salary and compensation for all officers, agents and employees.

#### Section 3 - Removal.

Any officer or agent may be removed by the board of directors whenever in its judgement the best interests of the corporation will be served thereby, but such removal shall be without prejudice to the contract rights, if any, of the person so removed. Election or appointment of an officer or agent shall not of itself create contract rights.

#### Section 4 - Powers and Duties of the President.

The president shall be the chief executive officer and the head of the corporation; he shall have general charge and supervision over the business and affairs of the corporation, subject to the control of the board of directors. The president shall annually prepare a full and true statement of the affairs of the corporation which shall be

submitted by him at the annual meeting of the stockholders and filed within twenty (20) days thereafter at the principal office of the corporation in this State, where it shall during the usual business hours of each secular day be open for inspection by any stockholder of the corporation. Section 5 - Vice President.

The vice president shall, concurrently with the president, but subject to his superior right and authority, have all the rights, powers and authority and perform all the duties of the president of the corporation. Any additional vice president shall have the powers conferred by and perform the duties assigned by the board of directors.

Section 6 - Secretary.

The secretary shall attend all meetings of the stockholders and of the board of directors and shall keep correct minutes of all the proceedings of all such meetings and record the same in a book or books to be kept by him for such purpose. He shall have power to affix the seal of the corporation to all instruments by him attested, and, together with the president or vice president, to execute all conveyances or other formal instruments requiring formal execution by the corporation under its corporate name and seal. He shall be the custodian of all records and files of the corporation, and shall, from time to time, whenever requested to do so, make full detailed reports regarding the same to the president, the vice president, the board of directors, and to the stockholders when in meeting lawfully assembled.

Section 7 - Treasurer.

The treasurer shall have custody of all the funds and securities of the corporation which shall come into his hands. He shall keep accurate accounts, in such form as may

---

be approved by the board of directors, of all the financial transactions of the corporation, and shall close said accounts and balance said books of account at least once in each year. He shall, whenever required by the president, the vice president, or by the board of directors, render a report of all moneys received and disbursed by the corporation and of the financial condition of the corporation, and shall perform such other appropriate duties and have such power as may be required of, or conferred upon him, by the board of directors.

Section 8 - General Provisions.

CERTIFICATES OF STOCK

Section 1 - Issue and Registration.

The shares of a corporation shall be represented by certificates signed by the president or a vice president and the secretary or an assistant secretary of the corporation, and may be sealed with the seal of the corporation or a facsimile thereof. The signatures of the president or vice president and the secretary or assistant secretary upon a certificate may be facsimiles if the certificate is manually signed on behalf of a transfer agent or a registrar, other than the corporation itself or an employee of the corporation. In case any officer who has signed or whose facsimile signature has been placed upon such certificate shall have ceased to be such officer before such certificate is issued, it may be issued by the corporation with the same effect as if he were such officer at the date of its issue.

The certificates shall be numbered and shall be entered on the stock register in the name of the person owning the shares represented by such certificate, and in case of cancellation, the date of cancellation also shall be entered on the stock register and the statement of cancellation as required by the law shall be filed. Every certificate surrendered to the corporation for transfer shall be cancelled and preserved by the officer or agent of the corporation having custody of the stock certificates, and a statement of cancellation shall be filed, and no new certificate shall be

---

issued until the old certificate has been thus cancelled, except as provided in Section 4 of this Article.

Section 2 - Transfer.

Title to a certificate of stock and to the shares represented thereby shall be transferred only as provided by Article 8, Chapter 46 of the Code of West Virginia.

Section 3 - Dividends.

Dividends may be declared by the board of directors, from time to time, and paid in cash or property only out of the unreserved and unrestricted earned surplus of the corporation, except that no dividend may be paid when the corporation is insolvent or where the payment thereof would render it insolvent or when the declaration or payment thereof would be contrary to any restriction contained in the articles of incorporation. Dividends may be declared and paid in the corporation's own treasury shares out of any treasury shares that have been reacquired out of corporate surplus. Dividends may be declared and paid in the corporation's own authorized but unissued shares out of any unreserved and unrestricted surplus, provided (1) in the case of par value shares, such shares shall be issued at not less than par value thereof and an amount equal to the aggregate par value of the shares issued as a dividend shall be transferred to stated capital from surplus; and (2) in the case of shares without par value, such shares shall be issued at such stated value as fixed by the board of directors and there shall be transferred from surplus to stated capital an amount equal to the stated value fixed for such shares and the amount per share so transferred shall be disclosed to the stockholders receiving the dividends.

Section 4 - Lost, Destroyed or Stolen Certificates.

A stockholder requesting the issuance of a stock certificate of the corporation in lieu of a lost, destroyed or stolen certificate shall promptly give notice to the corporation of such loss, destruction or theft, and publish in a newspaper of general circulation published in the County within which the corporation then has its principal place of business, a notice of such loss once a week for two successive weeks. Such stockholder shall file with the officers of this corporation, first, an affidavit setting forth the time, place and circumstances of the loss to the

---

He shall also execute and deliver to the corporation a bond with good security in a penalty of unlimited amount conditioned to indemnify the corporation and all persons whose rights may be affected by the issuance of the new certificates against any loss in consequence of the new certificate being issued.

The corporation will issue the new stock certificate if the above requirements are completed before the corporation has notice that the certificate has been acquired by a bona fide purchaser.

The board of directors, in its discretion, may authorize the issuance of a new certificate in lieu of the one lost, destroyed or stolen without requiring the publication of said notice or the giving of a bond.

#### ARTICLE VIII

##### FISCAL YEAR

The fiscal year of the corporation shall begin August 1st and end July 31st each year.

#### ARTICLE IX

##### MISCELLANEOUS

###### Section 1 - Voting Upon Stocks.

Unless otherwise ordered by the board of directors, the president shall have full power and authority on behalf of the corporation, whether in person or by proxy, to attend and to act and to vote at any meeting of stockholders of any corporation in which this corporation may hold stock, and at any such meeting shall possess and may exercise any and all the rights and powers incident to the ownership of

---

such stock, and which, as the owner thereof, this corporation might have possessed and exercised if present. The board of directors by resolution may, from time to time, confer like powers upon any other person or persons.

Section 2 - Contracts with Directors and Officers.

No contract or other transaction between a corporation and one or more of its directors or any other corporation, firm, association or entity in which one or more of its directors are directors or officers or are financially interested, shall be either void or voidable because of such relationship or interest or because such director or directors are present at the meeting of the board of directors or a committee thereof which authorizes, approves or ratifies such contract or transaction or because his or their votes are counted for such purpose, if (1) the fact of such relationship or interest is disclosed or known to the board of directors or committee which authorizes, approves or ratifies the contract or transaction by a vote or consent sufficient for the purpose without counting the votes or consents of such interested directors; or (2) the fact of such relationship or interest is disclosed or known to the stockholders entitled to vote and they authorize, approve or ratify such contract or transaction by vote or written consent; or (3) the contract or transaction is fair and reasonable to the corporation.

Common or interested directors may be counted in determining the presence of a quorum at a meeting of the board of directors or a committee thereof which authorizes, approves or ratifies such contract or transaction.

On any question involving the authorization, approval or ratification of any such contract or transaction, the names of those voting each way shall be entered on the record of their proceedings.

Section 3 - Indemnification of Directors and Officers.

The corporation shall indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation) by reason of the fact that he is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer,

---

employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys' fees), judgments, fines, taxes and penalties and interest thereon, and amounts paid in settlement actually and reasonably incurred by him in connection with such action or proceeding if he acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe his conduct was unlawful. The termination of any action or proceeding by judgment, order, settlement, conviction, or upon a plea of nolo contendere or its equivalent, shall not, of itself, create a presumption that the person did not act in good faith and in a manner which he reasonably believed to be in or not opposed to the best interest of the corporation, and, with respect to any criminal action or proceeding, that such person did have reasonable cause to believe that his conduct was unlawful.

The corporation shall indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or proceeding by or in the right of the corporation to procure judgment in its favor by reason of the fact that he is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys' fees) actually and reasonably incurred by him in connection with the defense or settlement of such action or proceeding if he acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the corporation, except that no indemnification shall be made in respect of any claim, issue or matter, including, but not limited to, taxes or any interest or penalties thereon, as to which such person shall have been adjudged to be liable for negligence or misconduct in the performance of his duty to the corporation unless and only to the extent that the court in which such action or proceeding was brought shall determine upon application that, despite the adjudication of liability but in view of all circumstances of the case, such person is fairly and reasonably entitled to indemnify for such expenses which such court shall deem proper.

To the extent that a director, officer, employee or agent of a corporation has been successful on the merits or otherwise in defense of any action or proceeding heretofore referred to, or in defense of any claim, issue or matter therein, he shall be indemnified against expenses

---

(including attorneys' fees) actually and reasonably incurred by him in connection therewith.

Any indemnification provided for herein shall be made by the corporation only as authorized in the specific case upon a determination that indemnification of the director, officer, employee or agent is proper in the circumstances because he has met the applicable standard of conduct set forth. Such determination shall be made (1) by the board of directors by a majority vote of a quorum consisting of directors who were not parties to such action or proceeding, or (2) if such a quorum is not obtainable, or even if obtainable a quorum of disinterested directors so directs, by independent legal counsel in a written opinion, or (3) by the stockholders.

Expenses (including attorneys' fees) incurred in defending a civil or criminal action or proceeding may be paid by the corporation in advance of the final disposition of such action or proceeding as authorized in the manner herein provided, upon receipt of an undertaking by or on behalf of the director, officer, employee or agent to repay such amount unless it shall ultimately be determined that he is entitled to be indemnified by the corporation as authorized in this section.

The indemnification provided for herein shall not be deemed exclusive of any other rights to which any stockholder or member may be entitled under any by-law, agreement, vote of stockholders, members or disinterested directors or otherwise, both as to action in his official capacity and as to a person who has ceased to be a director, officer, employee or agent and shall inure to the benefit of the heirs, executors and administrators of such a person.

#### Section 4 - Keeping Books and Records.

The corporation shall keep correct and complete books and records of account and shall keep minutes of the proceedings of its stockholders and board of directors; and shall keep at its principal office, or at the office of its transfer agent or registrar, a record of its stockholders, giving the names and addresses of all stockholders and the number and class of the shares held by each.

#### Section 5 - Inspection of Books and Records.

Any person who shall have been a holder of record of shares or of voting trust certificates therefor at least

---

six months immediately preceding his demand or shall be the holder of record of, or the holder of record of voting trust certificates for, at least five percent (5%) of all the outstanding shares of the corporation, upon written demand stating the purpose thereof, shall have the right to examine, in person, or by agent or attorney, at any reasonable time or times, for any proper purpose its relevant books and records of accounts, minutes, and record of stockholders and to make extracts therefrom.

The Corporation may have offices at such other places within or without the State of New York or within or without the United States as the Board of Directors from time to time may designate or the business of the Corporation may require.

ARTICLE II

Shareholders

Section 2.1. Place of Meetings. Special and annual meetings of shareholders shall be held at the principal office of the Corporation or at such other place within or without the State of New York as fixed by the Board of Directors and set forth in the notice of the meeting.

Section 2.2. Annual Meetings. The annual meeting of shareholders shall be held for the election of directors and the transaction of such other business as properly may come before it at the time and on the 120th

---

day of each year at ten o'clock in the morning, local time, if not a legal holiday and, if a legal holiday, on the next following business day not a legal holiday.

Section 2.3. Special Meetings. Special meetings of shareholders other than those regulated by statute may be called at any time by a majority of the members of the Board of Directors, the Chairman of the Board of Directors or the President and shall be called by any one of them or by the Secretary upon receipt of a written request to do so, specifying the matter or matters, appropriate for action at such a meeting proposed to be presented at the meeting and signed by holders of record of a majority of the shares of the Corporation issued and outstanding that would be entitled to vote on such matters if the meeting were held on the day such request is received and the record date for such meeting were the close of business on the preceding day. No business other than that specified in the notice of the meeting shall be transacted at any meeting of shareholders except with the unanimous consent of all shareholders entitled to notice thereof.

Section 2.4. Notices. Written notice of the annual meeting of shareholders stating the place, date and hour shall be given personally or by mail not less than ten (10) nor more than fifty (50) days before the date of the meeting to each shareholder entitled to vote at such

meeting. Written notice of each special meeting of shareholders stating the place, date and hour and indicating that it is issued by or at the direction of the person or persons calling the meeting and stating the purpose or purposes for which the meeting is called shall be given personally or by mail not less than ten (10) nor more than fifty (50) days before the date of the meeting to each shareholder entitled to vote at such meeting. Written notice of a meeting, if mailed, shall be deemed given when deposited in the United States mail, postage prepaid, and directed to a shareholder at his address as it appears on the record of shareholders. At any meeting at which any shareholders are present without protesting prior to the conclusion of the meeting the lack of notice of such meeting or of which shareholders not present have waived notice in writing, the giving of the notice specified above may be dispensed with.

Section 2.5. Quorum. Except as otherwise provided in the Certificate of Incorporation or as otherwise required by law, at any meeting of shareholders the holders of a majority of the shares entitled to vote thereat present in person or by proxy shall constitute a quorum for the transaction of any business; provided, however, when a specified item of business is required to be voted on by a class or series, voting as a class, the holders of

a majority of the shares of such class or series shall constitute a quorum for the transaction of such specified item of business. Once a quorum is present in person or by proxy to organize a meeting, such quorum shall not be broken by the subsequent withdrawal of any shareholders. Shareholders present in person or by proxy at any meeting may adjourn the meeting despite the absence of a quorum. At any adjourned meeting, any business may be transacted which might have been transacted at the meeting as originally called.

Section 2.6. Voting. At every meeting of shareholders each shareholder shall be entitled to vote in person or by proxy appointed by a written instrument. Every shareholder of record shall be entitled to one vote for every share standing in his name on the record of shareholders on the record date. Except as otherwise provided in the Certificate of Incorporation and these By-Laws, all corporate action to be taken by vote of the shareholders shall be authorized by a majority of the votes cast at a meeting of shareholders by the holders of shares entitled to vote thereon.

Section 2.7. Record Date. For the purpose of determining the shareholders entitled to notice of or to vote at any meeting of shareholders or any adjournment

thereof, or to express consent to or dissent from any proposal without a meeting, or for the purpose of determining shareholders entitled to receive payment of any dividend or the allotment of any rights, or for the purpose of any other action, the Board of Directors may fix, in advance, a date as the record date for any such determination of shareholders. Such date shall not be more than fifty nor less than ten days before the date of such meeting, nor more than fifty days prior to any other action. If no record date is fixed, the record date for determining shareholders entitled to notice of or to vote at a shareholders' meeting shall be at the close of business on the day next preceding the day on which notice is given, or, if notice is waived, at the close of business on the day next preceding the day on which the meeting is held; the record date for any other purpose shall be at the close of business on the day on which the Board of Directors adopts the resolution relating thereto.

Section 2.8. Proxies. Every shareholder entitled to vote at a meeting of shareholders or to express consent or dissent or action without a meeting may authorize another person or persons to act for him by proxy. Every proxy shall be in writing and shall be signed by the shareholder or his attorney-in-fact. No proxy shall be valid after the expiration of eleven (11) months from the

date thereof unless otherwise provided in the proxy. Every proxy shall be revocable at the option of the shareholder executing the proxy except as otherwise provided by law.

Section 2.9. Written Consents. Whenever under any provision of law, the Certificate of Incorporation or the By-Laws, shareholders are required or permitted to take any action by vote, such action may be taken without a meeting on written consent setting forth the action so taken signed by the holders of all outstanding shares entitled to vote thereon; provided, however, this provision shall not alter or modify any provision of law, the Certificate of Incorporation or the By-Laws under which the written consent of the holders of less than all outstanding shares is sufficient for corporate action.

Section 2.10. Shareholders' List. A list of shareholders as of the record date, certified by the corporate officer responsible for its preparation or by a transfer agent, shall be produced at any meeting of shareholders upon the request thereat or prior thereto of any shareholder. If the right to vote at any meeting is challenged, the inspectors of election, or person presiding thereat, shall require such list of shareholders to be produced as evidence of the right of the persons challenged to vote at such meeting, and all persons who appear

from such list to be shareholders entitled to vote thereat may vote at such meeting.

### ARTICLE III

#### Directors

Section 3.1. Duties and Powers. The Board of Directors shall have control and management of the affairs and business of the Corporation. Directors in all cases shall act as a board, regularly convened. Except as otherwise provided by law or the Certificate of Incorporation, in the transaction of business the act of a majority of the directors present at the time of the vote at a meeting at which a quorum is present shall be the act of the Board of Directors.

Section 3.2. Qualifications. Each director shall be at least eighteen (18) years of age.

Section 3.3. Number. The number of directors constituting the entire board shall be three (3), except that where all the shares of the Corporation are owned beneficially and of record by less than three shareholders, the number may be less than three but not less than the number of shareholders of the Corporation.

Section 3.4. Election and Term. Directors shall be elected at each annual meeting of shareholders by a plurality of the votes cast at said meeting by the holders of shares entitled to vote in such an election. Each

director shall hold office until the expiration of the term for which he is elected and until his successor has been elected and qualified or he resigns or is removed.

Section 3.5. Meetings. The annual meeting of each newly elected Board of Directors shall be held at the place of the annual meeting of shareholders immediately following the annual meeting of shareholders for the purpose of electing officers and for the transaction of such other business as properly may come before the meeting. Regular meetings of the Board of Directors may be held without notice at such time and place as may be fixed by the Board of Directors. Special meetings of the Board of Directors shall be held upon notice to the members of the Board of Directors. A majority of the directors present, whether or not a quorum is present, may adjourn any meeting of directors to another time and place.

Section 3.6. Quorum. A majority of the entire Board of Directors shall constitute a quorum for the transaction of business or of any specified item of business. The vote of a majority of the Board of Directors present at the time of a vote, if a quorum is present at such time, shall be the act of the Board of Directors.

Section 3.7. Notices. The annual meeting of each newly elected Board of Directors and each regular meeting of the Board of Directors may be held without

notice to the directors. Special meetings of the Board of Directors shall be held upon written notice to the directors at the call of the President, the Secretary or any two or more directors. Notice of a special meeting of the Board of Directors shall state the place, date and hour of the meeting and shall indicate it is issued by or at the direction of the person or persons calling the meeting. Written notice to each director shall be given personally or by mail not less than ten (10) nor more than twenty (20) days before the date of the meeting. If given by mail, such notice shall be deemed given when deposited in the United States mail, postage prepaid and addressed to each director at his address as it appears on the Corporation's records or at such other address as the director may have furnished the Corporation for that purpose.

Section 3.8. Newly Created Directorships and Vacancies. Except as otherwise provided by law, newly created directorships resulting from an increase in the number of members of the Board of Directors and vacancies occurring in the Board of Directors for any reason may be filled by vote of a majority of the directors then in office, although less than a quorum. A director elected to fill a vacancy shall be elected to hold office for the unexpired term of his predecessor and until his successor

has been elected and qualified or his resignation or removal.

Section 3.9. Removal. Any or all of the directors may be removed for cause or without cause by vote of the shareholders. If the Certificate of Incorporation provides for the election of directors by cumulative voting, then the removal of a director with or without cause may not be effected when the votes cast against the removal of the director would be sufficient to elect him if voted cumulatively at an election at which the same total number of votes were cast and the entire board was being elected.

Section 3.10. Resignation. Any director may resign at any time. A resignation shall be written and shall take effect at the time specified therein. If no time is so specified, a resignation shall take effect at the time of its receipt by the President or Secretary of the Corporation. The acceptance of a resignation shall not be necessary to make it effective. No resignation shall discharge any accrued obligation or duty of a director.

Section 3.11. Compensation. Directors, at such, shall not receive any salary for their services as directors. By resolution of the Board of Directors, a

fixed sum and expense of attendance, if any, may be allowed for attendance at each regular or special meeting of the Board of Directors. Nothing contained in the By-Laws shall preclude any director from serving the Corporation in any capacity in addition to a director and receiving compensation therefor.

Section 3.12. Contracts or Other Transactions with Directors. No contract or other transaction between the Corporation and one or more of its directors or between the Corporation and any other corporation, firm, association or other entity in which one or more of its directors are directors or officers or have a substantial financial interest shall be either void or voidable for such reason alone or by reason alone that such director or directors are present at the meeting of the Board of Directors, or of a committee thereof, which approves such contract or transaction or by reason alone that his or their votes are counted for such purpose:

(a) If the fact of such common directorship, officership or financial interest is disclosed in good faith or known to the Board of Directors or committee and the Board of Directors or committee approves such contract or transaction by a vote sufficient for such purpose without counting the vote or votes of such interested

director or directors or, if the votes of the disinterested directors are insufficient to constitute an act of the Board, by unanimous vote of the disinterested directors; or

(b) If such common directorship, officership or financial interest is disclosed in good faith or known to the shareholders entitled to vote thereon and such contract or transaction is approved by vote of the shareholders; or

(c) If the contract or transaction is fair and reasonable as to the Corporation at the time it is approved by the Board of Directors, a committee or the shareholders.

Common or interested directors may be counted in determining the presence of a quorum at a meeting of the Board or a committee which approves such contract or transaction.

Section 3.13. Chairman. At all meetings of the Board of Directors the Chairman of the Board of Directors, elected at the annual meeting of the Board of Directors, shall preside.

Section 3.14. Committees. The Board of Directors, by resolution adopted by a majority of the entire board, may designate from among its members an executive committee and other committees each consisting of three

(3) or more directors. Each committee shall serve at the direction and at the pleasure of the Board of Directors. To the extent provided in the resolution adopted by the Board of Directors, each committee may have all the authority of the Board of Directors except as prohibited by law.

Section 3.15. Written Consents. Any action required or permitted to be taken by the Board of Directors or any Committee thereof may be taken without a meeting if all the members of the Board of Directors or the Committee consent in writing to the adoption of a resolution authorizing the action.

Section 3.16. Participation by Telephone. Any one or more members of the Board of Directors or any committee thereof may participate in a meeting of the Board of Directors or such committee by means of a conference telephone or similar communications equipment allowing all persons participating in the meeting to hear each other at the same time. Participation by such means shall constitute presence in person at a meeting.

If such certificate is countersigned by (a) a transfer agent other than the Corporation or its employee, or (b) by a registrar other than the Corporation or its employee, the officers' signatures on the certificate may be facsimiles. Each certificate shall state upon the face thereof: (a) that the Corporation is formed under the laws of the State of New York; (b) the name of the

person or persons to whom issued; (c) the number and class of shares, and the designation of the series, if any, which such certificate represents; and (d) the par value of each share represented by such certificate or a statement that the shares are without par value. If the Corporation is authorized to issue shares of more than one class, each certificate representing shares shall set forth upon the face or back of the certificate, or shall state that the Corporation will furnish to any shareholder upon request and without charge, a full statement of the designations, relative rights, preferences and limitations of the shares of each class authorized to be issued and, if the Corporation is authorized to issue any class of preferred shares in series, the designations, relative rights, preferences and limitations of each such series so far as the same have been fixed and the authority of the board to designate and fix the relative rights, preferences and limitations of other series.

Section 5.2. Lost, Destroyed and Stolen Certificates. Any person claiming a certificate representing shares to be lost, apparently destroyed or wrongfully taken shall execute an affidavit or affirmation of such fact, shall advertise the same in such manner as the Board of Directors may require, and shall give the Corporation

an indemnity bond in such form and with one or more sureties satisfactory to the Board in such amount as the Board of Directors may determine, which shall be at least double the par value of the shares represented by such certificate, to protect it or any person injured by the issue of the new certificate from any liability or expense which it or they may incur by reason of the original certificate remaining outstanding. Thereupon a new certificate may be issued of the same tenor and for the same number of shares as the one alleged to be lost, destroyed or wrongfully taken if the claimant so requests prior to notice to the Corporation that the lost, apparently destroyed or wrongfully taken certificate has been acquired by a bona fide purchaser.

Section 5.3. Transfer. Shares of the Corporation shall be transferable only upon the books of the Corporation by the holders thereof in person or by their duly authorized attorneys or legal representatives. Upon any transfer, the old certificates duly endorsed or accompanied by evidence of succession, assignment or authority to transfer shall be surrendered to the Corporation by delivery thereof for cancellation to the person in charge of

the list of shareholders and the transfer books and ledgers or to such other person as the directors may designate. New certificates thereupon shall be issued. A record shall be made of each transfer. Whenever a transfer is made for collateral security, and not absolutely, such fact shall be expressed in the entry of the transfer on the record of shareholders of the Corporation. No shares will be transferred on the books of the Corporation in violation of a share transfer restriction imposed by the Corporation or a private share transfer restriction known to the Corporation and conspicuously endorsed on the share certificate.

Section 5.4 Record. The Corporation shall keep its office in this state or at the office of the transfer agent or registrar in this state, a record containing the names and addresses of all shareholders, the number and class of shares held by each and the dates when they respectively became the owners of record thereof in written form or in any other form capable of being converted into written form within a reasonable time. The Corporation shall be protected in treating the persons in whose names shares stand on the record of shareholders as the owners thereof for all purposes.

Participation by such means shall constitute presence in person at a meeting.

SECTION 2.7 *Committees*. The Board of Directors may, by resolution adopted by a majority of the entire Board of Directors, designate from among its members an executive committee and other committees, each committee to consist of one or more of the directors, and each of which, to the extent provided in the resolution or in the Certificate of Incorporation or these By-Laws, shall have all the authority of the Board of Directors, except as restricted by New York Law. Whenever under the provisions of these By-Laws or New York Law, the Board of Directors or any Committee is authorized to take any action after notice or after lapse of a prescribed period of time, such action may be taken without notice and without the lapse of any period of time, if such action be authorized or approved and the requirements waived by each member entitled to notice. Such authorization or approval and such waiver shall be filed with the Secretary of the Company.

SECTION 2.10 *Resignation*. Any director may resign at any time by giving written notice to the Board of Directors or to the Secretary of the Corporation. The resignation of any director shall take effect upon receipt of notice thereof or at such later time as shall be

specified in such notice; and unless otherwise specified therein, the acceptance of such resignation shall not be necessary to make it effective.

SECTION 2.11 *Vacancies*. Newly created directorships resulting from an increase in the number of directors may be filled by vote of the directors. If the number of directors then in office is less than a quorum, such newly created directorships and vacancies may be filled by vote of a majority of the directors then in office. BYLAWS  
OF  
MRC MANAGEMENT COMPANY  
formerly known as  
MRM WEST VIRGINIA MANAGEMENT COMPANY

ARTICLE I. OFFICES

The principal office of the corporation in the State of Delaware shall be located in the City of Wilmington, County of New Castle. The corporation may have such other office or offices, and transact business, either within or without the State of Delaware, as the board of directors may designate or as the business of the corporation may require from time to time.

ARTICLE II. SHAREHOLDERS

SECTION 1. Annual Meeting. The annual meeting of the shareholders shall be held on the third Thursday in the month of April, in each year, beginning with the year 2008, at the hour of 10:00 o'clock A.M., for the purpose of electing directors and for the transaction of such other business as may come before the meeting. If the day fixed for the annual meeting shall be a legal holiday in the State of Delaware, such meeting shall be held on the next succeeding business day. If the election of directors shall not be held on the day designated herein for an annual meeting of the shareholders, or at any adjournment thereof, the board of directors shall cause the election to be held at an annual meeting of the shareholders as soon thereafter as conveniently may be held.

SECTION 2. Special Meetings. Special meetings of the shareholders, for any purpose or purposes, unless otherwise prescribed by statute, may be called by the president or by and at the request of the holders of not less than ten percent (10%) of all the outstanding shares of the corporation entitled to vote at the meeting.

SECTION 3. Place of Meeting. The board of directors may designate in a notice, or in a waiver of notice of a meeting signed by all shareholders entitled to vote at a meeting, unless otherwise prescribed by statute, any place, either within or without the State of Delaware unless otherwise prescribed by statute, as the place of meeting for any annual meeting or for any special meeting called by the board of directors. If no designation is made, or if a special meeting be otherwise called, the place of meeting shall be the principal office of the corporation in the State of Delaware.

SECTION 4. Notice of Meeting. Written notice stating the place, if any, day and hour of the meeting, the means of remote communications, if any, by which shareholders and proxy holders may be deemed to be present in person and vote at such meeting and, in the case

---

of a special meeting, the purpose or purposes for which the meeting is called shall, unless otherwise prescribed by statute, be delivered not less than ten (10) nor more than sixty (60) days before the date of the meeting, either personally or by mail, by or at the direction of the president, or the secretary, or the persons calling the meeting, to each shareholder of record entitled to vote at such meeting. If mailed, such notice shall be deemed to be delivered when deposited in the United States mail, addressed to the shareholder at his address as it appears on the stock transfer books of the corporation, with postage thereon prepaid.

When a meeting is adjourned to another time or place, unless the bylaws otherwise require, notice need not be given of the adjourned meeting if the time, place, if any, thereof, and the means of remote communications, if any, by which stockholders and proxy holders may be deemed to be present in person and vote at such adjourned meeting are announced at the meeting at which the adjournment is taken. At the adjourned meeting the corporation may transact any business which might have been transacted at the original meeting. If the adjournment is for more than 30 days, or if after the adjournment a new record date is fixed for the adjourned meeting, a notice of the adjourned meeting shall be given to each stockholder of record entitled to vote at the meeting.

SECTION 5. Written Agreement in Lieu of Meeting. Whenever the vote of shareholders at a meeting thereof is required or permitted to be taken in connection with any corporate action, the meeting and vote of such shareholders may be dispensed with if all of the shareholders who would have been entitled to vote upon the action, if such meeting were held, shall agree in writing to such corporate action being taken, and such agreement shall have like effect and validity as though the action were duly taken by the unanimous action of all shareholders entitled to vote at a meeting of such shareholders duly called and legally held.

SECTION 6. Closing of Transfer Books or Fixing of Record Date. For the purpose of determining shareholders entitled to notice of or to vote at any meeting of shareholders or any adjournment thereof, or shareholders entitled to receive payment of any dividend, or in order to make a determination of shareholders for any other proper purpose, the board of directors of the corporation may provide that the stock transfer books shall be closed for a stated period but not to exceed, in any case, sixty (60) days. If the stock transfer books shall be closed for the purpose of determining shareholders entitled to notice of or to vote at a meeting of shareholders, such books shall be closed for at least ten (10) days immediately preceding such meeting. In lieu of closing the stock transfer books, the board of directors may fix in advance a date as the record date for any such determination of shareholders, such date in any case to be not more than sixty (60) days and, in case of a meeting of shareholders, not less than ten (10) days prior to the date on which the particular action, requiring such determination of shareholders, is to be taken. If the stock transfer books are not closed and no record date is fixed for the determination of shareholders entitled to notice of or to vote at a meeting of shareholders, or shareholders entitled to receive payment of a dividend, the date on which notice of the meeting is mailed or the date on which the resolution of the board of directors declaring such dividend is adopted, as the case may be, shall be the record date for such determination of shareholders. When a determination of shareholders entitled to vote at any meeting of shareholders has been made as provided in this section, such determination shall apply to any adjournment thereof.

SECTION 7. Voting Lists. The officer or agent having charge of the stock transfer books for shares of the corporation shall make a complete list of the shareholders entitled to vote at each meeting of shareholders or any adjournment thereof, arranged in alphabetical order, with the address of and the number of shares held by each. Such list shall be produced and kept open to the examination of any shareholder at least ten (10) days prior to the date of the meeting and at the place of the meeting and shall be subject to the inspection of any shareholder.

SECTION 8. Quorum. At all meetings of the shareholders, a quorum of the shareholders shall consist of a majority of all the shares of stock entitled to vote, represented by the holders thereof in person or represented by proxy. If a quorum is present, the affirmative vote of a majority of the shares represented at the meeting and entitled to vote on the subject matter shall be the act of the shareholders.

If less than a majority of the outstanding shares are represented at a meeting, a majority of the shares so represented may adjourn the meeting from time to time without further notice. At such adjourned meeting at which a quorum shall be present or represented, any business may be transacted which might have been transacted at the meeting as originally noticed. The shareholders present at a duly organized meeting may continue to transact business until adjournment, notwithstanding the withdrawal of enough shareholders to leave less than a quorum.

SECTION 9. Organization. The president shall call meetings of the shareholders to order and shall act as chairman of such meeting. The shareholders present may appoint any shareholder to act as chairman of any meeting in the absence of the president or with his consent if present.

The secretary of the corporation shall act as secretary of all meetings of the shareholders. In the absence of the secretary at any such meeting, the presiding officer may appoint any person to act as secretary thereof and to keep a record of the proceedings.

SECTION 10. Voting. At each election for directors every shareholder entitled to vote at such election shall have the right to vote, in person or by proxy, the number of shares owned by him for as many persons as there are directors to be elected and for whose election he has a right to vote, or to cumulate his votes by giving one candidate as many votes as the number of such directors multiplied by the number of his shares shall equal, or by distributing such votes on the same principle among any number of such candidates, and the directors shall not be elected in any other manner, except as provided in Article III, Section 2, of the bylaws.

Except as otherwise provided in the preceding paragraph, or in the Articles of Incorporation of the corporation, each outstanding share entitled to vote shall be entitled to one vote upon each matter submitted to a vote at a meeting of shareholders.

SECTION 11. Proxies. At all meetings of shareholders, a shareholder may vote in person or by proxy executed in writing by the shareholder or by his duly authorized attorney in fact. Such proxy shall be filed with the secretary of the corporation before or at the time of the

meeting. No proxy shall be valid after three (3) years from the date of its execution, unless otherwise provided in the proxy.

SECTION 12. Voting of Shares by Certain Holders. Shares standing in the name of another corporation may be voted by such officer, agent or proxy as the bylaws of such corporation may prescribe, or, in the absence of such provisions, as the board of directors of such corporation may determine.

Shares held by an administrator, executor, guardian or conservator may be voted by him, either in person or by proxy, without a transfer of such shares into his name. Shares standing in the name of a trustee may be voted by him, either in person or by proxy, but no trustee shall be entitled to vote shares held by him without a transfer of such shares into his name.

Shares standing in the name of a receiver may be voted by such receiver, and shares held by or under the control of a receiver may be voted by such receiver without the transfer thereof into his name if authority so to do be contained in an appropriate order of the court by which such receiver was appointed.

A shareholder whose shares are pledged shall be entitled to vote such shares until the shares have been transferred into the name of the pledgee, and thereafter the pledgee shall be entitled to vote the shares so transferred.

Shares of its own stock belonging to the corporation shall not be voted, directly or indirectly, at any meeting, and shall not be counted in determining the total number of outstanding shares at any given time.

### ARTICLE III. BOARD OF DIRECTORS

SECTION 1. Powers, Qualifications, Number and Term of Office. The business and property of the corporation shall be managed and controlled by the board of directors to be elected at each regular annual meeting of the corporation. The number of directors of the corporation shall be the number elected by the shareholders at each annual meeting, but may be more in the interim between such annual meetings as determined by a vote of the existing directors from time to time. Each director shall hold office from the time of his election until the next regular annual meeting of the shareholders of the corporation, or until his successor is elected and qualified, or until he is removed by a vote of the stockholders. No director need be a resident of the State of Delaware or a shareholder of the corporation in order to hold said office.

SECTION 2. Vacancies. Any vacancies existing in the board of directors and any directorship to be filled by reason of an increase in the number of directors unless the Articles of Incorporation or bylaws provide that a vacancy shall be filled in some other manner, may be filled by the affirmative vote of a majority of the remaining directors though less than a quorum of the board of directors. A director elected to fill a vacancy shall be elected for the unexpired term of his predecessor in office. Any directorship to be filled by reason of an increase in the number of directors may be filled by the board of directors for a term of office continuing only until the next election of directors by the shareholders.

SECTION 3. Regular Meetings. A regular meeting of the board of directors shall be held without other notice than these bylaws immediately after, and at the same place as, the annual meeting of shareholders. The board of directors may provide, by resolution, the time and place for the holding of additional regular meetings without other notice than such resolution.

SECTION 4. Special Meetings. Special meetings of the board of directors may be called by or at the request of the president or not less than ten percent (10%) of the existing directors. The person or persons authorized to call special meetings of the board of directors may fix the place for holding any special meeting of the board of directors called by them.

SECTION 5. Notice. No notice shall be required of the regular meeting of the board of directors. Notice of any special meeting shall be given at least three (3) days previously thereto by written notice delivered personally or mailed to each director at his last known address, or by telegram. If mailed, such notice shall be deemed to be delivered when deposited in the United States Mail so addressed, with postage thereon prepaid. If notice be given by telegram, such notice shall be deemed to be delivered when the telegram is delivered to the telegraph company. Any director may waive notice of any meeting.

SECTION 6. Written Agreement in Lieu of Meeting. Whenever the vote of directors at a meeting thereof is required or permitted to be taken in connection with any corporate action, the meeting and vote of such directors may be dispensed with if all of the directors shall consent and agree in writing to such corporate action being taken, and such agreement (which shall set forth the action so taken and be signed by all of the directors) shall have like effect and validity as though the action were duly taken by the unanimous action of all directors at a meeting of such directors duly called and legally held.

SECTION 7. Manner of Acting. The act of the majority of the directors present at a meeting at which a quorum is present shall be the act of the board of directors.

SECTION 8. Quorum. A majority of the number of directors fixed by Section 1 of this Article III shall constitute a quorum for the transaction of business at any meeting of the board of directors, but if less than such majority is present at a meeting, a majority of the directors present may adjourn the meeting from time to time and place to place without further notice and until a quorum is present.

SECTION 9. Presiding Officer; Recording Officer. At all meetings of the board of directors, the president or a vice president, or in the absence of them, any director elected by the directors present, shall preside. The secretary or any person appointed by the directors present, shall keep a record of the proceedings. The records shall be verified by the signature of the person acting as chairman of the meeting.

SECTION 10. Compensation. By resolution of the board of directors, each director may be paid his expenses, if any, of attendance at each meeting of the board of directors, and may be paid a stated salary as director or a fixed sum for attendance at each meeting of the board of directors or both. No such payment shall preclude any director from serving the corporation in any other capacity and receiving compensation therefor.

SECTION 11. Presumption of Assent. A director of the corporation who is present at a meeting of the board of directors at which action on any corporate matter is taken shall be presumed to have assented to the action taken unless his dissent shall be entered in the minutes of the meeting or unless he shall file his written dissent to such action with the person acting as the secretary of the meeting before the adjournment thereof or shall forward such dissent by registered mail to the secretary of the corporation immediately after the adjournment of the meeting. Such right to dissent shall not apply to a director who voted in favor of such action.

SECTION 12. Ratification by Shareholders. The board of directors, in its discretion, may submit any contract or act for approval or ratification at any annual meeting of the shareholders or any general or special meeting called for the purpose of considering any contract or act; and any contract or act which shall be approved and ratified by the vote of the holders of a majority in interest of the capital stock of the corporation that is represented in person or by proxy at such meeting, providing only that a quorum of the shareholders be either so represented in person or by proxy, shall be as valid and binding upon the corporation and upon all the stockholders as though it had been approved and ratified by each and every shareholder of the corporation.

SECTION 13. General Powers. The board of directors shall elect the officers hereinafter provided for in Article IV, Section 1 of these bylaws, and in case of the absence of the president and/or the vice president, the board may appoint a president pro tempore who for the time shall discharge the official duties of the president, and the board of directors shall determine what is such absence as will justify the election of the president pro tempore.

The board of directors, by resolution adopted by a majority of the full board of directors, may designate from among its members an executive committee and one or more other committees, each of which, to the extent provided in such resolution, shall have and may exercise all the authority of the board of directors, except in reference to amending the Articles of Incorporation, adopting a plan of merger or consolidation, recommending to the shareholders the sale, lease, exchange or other disposition of all or substantially all the property and assets of the corporation otherwise than in the usual and regular course of its business, recommending to the shareholders a voluntary dissolution of the corporation or a revocation thereof, or amending the bylaws of the corporation. The designation of any such committee and the delegation thereto of authority shall not operate to relieve the board of directors, or any member thereof, of any responsibility imposed by law.

SECTION 14. Removal. At a meeting of shareholders called expressly for that purpose, any director or the entire board of directors may be removed, with or without cause, by a vote of the holders of a majority of the shares entitled to vote at an election of directors. If less than the entire board is to be removed, no one of the directors may be removed if the votes cast against his removal would be sufficient to elect him.

#### ARTICLE IV. OFFICERS

SECTION 1. Number. The officers of the corporation shall be a president, one or more vice-presidents, a chief financial officer, and a secretary, each of whom shall be elected by

the board of directors. Such other officers and assistant officers as may be deemed necessary may be elected or appointed by the board of directors.

One person may hold more than one office. No officer shall execute, acknowledge or verify any instrument in more than one capacity, if such instrument is required by law or the bylaws to be executed, acknowledged and verified or countersigned by two or more officers.

SECTION 2. Election and Term of Office. The officers of the corporation to be elected by the board of directors shall be elected annually by the board of directors at the annual meeting of the board of directors held after each annual meeting of the shareholders. If the election of officers shall not be held at such meeting, such election shall be held as soon thereafter as conveniently may be. Each officer shall hold office until his successor shall have been duly elected and shall have qualified or until his death or until he shall resign or shall have been removed in the manner hereinafter provided.

None of the directors or officers of the corporation need be shareholders. All appointees, agents, and employees, other than officers, shall hold office at the discretion of the president.

SECTION 3. Removal. Any officer or agent may be removed by the board of directors whenever in its judgment, the best interests of the corporation would be served thereby, but such removal shall be without prejudice to the contract rights, if any, of the person so removed. Election or appointment of an officer or agent shall not of itself create contract rights.

SECTION 4. Vacancies. A vacancy in any office because of death, resignation, removal, disqualification or otherwise, may be filled by the board of directors at a special meeting for the unexpired portion of the term.

SECTION 5. President. The president shall be the principal executive officer of the corporation and, subject to the control of the board of directors, shall in general supervise and control all of the business and affairs of the corporation. He shall, when present, preside at all meetings of the shareholders and of the board of directors. He may sign, with the secretary or any other proper officer of the corporation thereunto authorized by the board of directors, certificates for shares of the corporation, any deeds, mortgages, bonds, contracts, or other instruments which the board of directors has authorized to be executed, except in cases where the signing and execution thereof shall be expressly delegated by the board of directors or by these bylaws to some other officer or agent of the corporation, or shall be required by law to be otherwise signed or executed; and in general shall perform all duties incident to the office of the president and such other duties as may be prescribed by the board of directors from time to time.

SECTION 6. Vice President. Each vice president, shall, concurrently with the president, but subject to his superior right and authority, have all the right, power and authority to perform all the duties of the president of the corporation. In the absence of the president or in event of his death, inability or refusal to act, the senior vice president, if any, as designated by the board of directors prior to such absence of the president, shall perform the duties of the president until such time as the board of directors may appoint a successor president pursuant to

Section 4, above, and when so acting, shall have all the powers of and be subject to all the restrictions upon the president. Each vice president shall perform such other duties as from time to time may be assigned to him by the president or by the board of directors.

SECTION 7. Secretary. The secretary shall: (a) keep the minutes of the proceedings of the shareholders and of the board of directors in one or more books provided for that purpose; (b) see that all notices are duly given in accordance with the provisions of these bylaws or as required by law; (c) be custodian of the corporate records and of the seal of the corporation and see that the seal of the corporation is affixed to all documents the execution of which on behalf of the corporation under its seal is duly authorized; (d) keep a register of the post office address of each shareholder which shall be furnished to the secretary by such shareholder; (e) sign with the president, certificates for shares of the corporation, the issuance of which shall have been authorized by resolution of the board of directors; (f) have general charge of the stock transfer books of the corporation; and (g) in general perform all duties incident to the office of secretary and such other duties as from time to time may be assigned to him by the president or by the board of directors.

SECTION 8. Chief Financial Officer. The chief financial officer shall: (a) have charge and custody of and be responsible for all funds and securities of the corporation; (b) receive and give receipts for moneys due and payable to the corporation from any source whatsoever, and deposit all such moneys in the name of the corporation in such banks, trust companies or other depositories as shall be selected in accordance with the provisions of Article V of these bylaws; (c) keep accurate accounts, in such form as may be approved by the board of directors, of all the financial transactions of the corporation, and shall close said accounts and balance said books of account at least once in each year; (d) whenever required by the president, the vice president, or by the board of directors, render a report of all moneys received and disbursed by the corporation and of the financial condition of the corporation; and (e) in general perform all of the duties as from time to time may be assigned to him by the president or by the board of directors. If required by the board of directors, the chief financial officer shall give a bond for the faithful discharge of his duties in such sum and with such surety or sureties as the board of directors shall determine.

SECTION 9. General Provisions. All books, records and files of the corporation shall at all times be open to the inspection of the president, the vice president, and the board of directors.

Any or all of the officers shall give such bond or bonds for the faithful discharge of their respective duties in such sum or sums as and when the board of directors may from time to time in its discretion require.

Any duty authorized, provided and/or required to be performed by any officer of this corporation may be performed by his duly authorized assistant.

SECTION 10. Salaries. The salaries of the officers shall be fixed from time to time by the board of directors and no officer shall be prevented from receiving such salary by reason of the fact that he is also a director of the corporation.

## ARTICLE V. CONTRACTS AND ACCOUNTS

SECTION 1. Receipts. The president, vice president, secretary and chief financial officer are each authorized to receive and receipt for all moneys due and payable to the corporation from any source whatsoever, and to endorse for deposit checks, drafts, and other money orders in the name of the corporation or on its behalf, and to give full discharge and receipt therefore.

SECTION 2. Contracts. The board of directors may authorize any officer or officers, agent or agents, to enter into any contract or execute and deliver any instrument in the name of and on behalf of the corporation, and such authority may be general or confined to specific instances.

SECTION 3. Loans. No loans shall be contracted on behalf of the corporation and no evidence of indebtedness shall be issued in its name unless authorized by a resolution of the board of directors. Such authority may be general or confined to specific instances.

SECTION 4. Deposits. All funds of the corporation not otherwise employed shall be deposited from time to time to the credit of the corporation in such banks, trust companies or other depositories as the board of directors may select.

SECTION 5. Checks, Drafts, etc. All checks, drafts or other orders for the payment of money, notes or other evidences of indebtedness issued in the name of the corporation shall be signed by such officer or officers, agent or agents of the corporation and in such manner as shall from time to time be determined by resolution of the board of directors.

## ARTICLE VI. CERTIFICATES FOR SHARES AND THEIR TRANSFER

SECTION 1. Certificates for Shares. Certificates representing shares of the corporation shall be in such form as shall be determined by the board of directors. Such certificates shall be signed by the president and by the secretary or by such other officers authorized by law and by the board of directors so to do, and sealed with the corporate seal or a facsimile thereof. The signatures of the president or vice president and the secretary or assistant secretary upon a certificate may be facsimiles if the certificate is manually signed on behalf of a transfer agent or a registrar, other than the corporation itself or an employee of the corporation. In case any officer who has signed or whose facsimile signature has been placed upon such certificate shall have ceased to be such officer before such certificate is issued, it may be issued by the corporation with the same effect as if he were such officer at the date of its issue. All certificates for shares shall be consecutively numbered or otherwise identified. The name and address of the person to whom the shares represented thereby are issued, with the number of shares and date of issue, shall be entered on the stock transfer books of the corporation. All certificates surrendered to the corporation for transfer shall be canceled and no new certificate shall be issued until the former certificate for a like number of shares shall have been surrendered and canceled, except that in case of a lost, destroyed or mutilated certificate a new one may be issued pursuant to Section 4 of this Article.

SECTION 2. Transfer of Shares. Transfer of shares of the corporation shall be made only on the stock transfer books of the corporation by the holder of record thereof or by his legal representative, who shall furnish proper evidence of authority to transfer, or by his attorney thereunto authorized by power of attorney duly executed and filed with the secretary of the corporation, and on surrender for cancellation of title certificate for such shares. The person in whose name shares stand on the books of the corporation shall be deemed by the corporation to be the owner thereof for all purposes.

SECTION 3. Dividends. Dividends may be declared by the board of directors, from time to time, and paid in cash or property only out of (1) the surplus of the corporation, as determined in accordance with §§154 and 244 of the Delaware General Corporate Law, or (2) in case there shall be no such surplus, out of the corporation's net profits for the fiscal year in which the dividend is declared and/or the preceding fiscal year. If the dividend is to be paid in shares of the corporation's theretofore unissued capital stock, the board of directors shall by resolution, direct that there be designated as capital in respect of such shares an amount which is not less than the aggregate par value of par value shares being declared as a dividend and, in the case of shares without par value being declared as a dividend, such amount as shall be determined by the board of directors. No such designation as capital shall be necessary if shares are being distributed by a corporation pursuant to split-up or division of its stock rather than as payment of a dividend declared payable in stock of the corporation.

SECTION 4. Lost, Destroyed or Stolen Certificates. A shareholder requesting the issuance of a stock certificate of the corporation in lieu of a lost, destroyed or stolen certificate shall promptly give notice to the corporation of such loss, destruction or theft, and publish in a newspaper of general circulation published in the County within which the corporation then has its principal place of business, a notice of such loss once a week for two (2) successive weeks. A Note will not be valid until authenticated by the manual signature of the Trustee. The signature will be conclusive evidence that the Note has been authenticated under this Indenture.

The Trustee will, upon receipt of a written order of the Company signed by two Officers (an "*Authentication Order*"), authenticate Notes for original issue that may be validly issued under this Indenture, including any Additional Notes. The aggregate principal amount of Notes outstanding at any time may not exceed the aggregate principal amount of Notes authorized for issuance by the Company pursuant to one or more Authentication Orders, except as provided in Section 2.07 hereof.

The Trustee may appoint an authenticating agent acceptable to the Company to authenticate Notes. An authenticating agent may authenticate Notes whenever the Trustee may do so. Each reference in this Indenture to authentication by the Trustee includes authentication by such agent. An authenticating agent has the same rights as an Agent to deal with Holders or an Affiliate of the Company.

#### Section 2.03 *Registrar and Paying Agent.*

The Company will maintain an office or agency where Notes may be presented for registration of transfer or for exchange ("*Registrar*") and an office or agency where Notes may be presented for payment ("*Paying Agent*"). The Registrar will keep a register of the Notes and of their transfer and exchange. The Company may appoint one or more co-registrars and one or more additional paying agents. The term "Registrar" includes any co-registrar and the term "Paying Agent" includes any additional paying agent. The Company may change any Paying Agent or Registrar without notice to any Holder. The Company

will notify the Trustee in writing of the name and address of any Agent not a party to this Indenture. If the Company fails to appoint or maintain another entity as Registrar or Paying Agent, the Trustee shall act as such. The Company or any of its Subsidiaries may act as Paying Agent or Registrar.

The Company initially appoints The Depository Trust Company ( “DTC”) to act as Depository with respect to the Global Notes.

The Company initially appoints the Trustee to act as the Registrar and Paying Agent and to act as Custodian with respect to the Global Notes.

#### Section 2.04 *Paying Agent to Hold Money in Trust.*

The Company will require each Paying Agent other than the Trustee to agree in writing that the Paying Agent will hold in trust for the benefit of Holders or the Trustee all money held by the Paying Agent for the payment of principal of, premium on, if any, interest or Special Interest, if any, on, the Notes, and will notify the Trustee of any default by the Company in making any such payment. While any such default continues, the Trustee may require a Paying Agent to pay all money held by it to the Trustee. The Company at any time may require a Paying Agent to pay all money held by it to the Trustee. Upon payment over to the Trustee, the Paying Agent (if other than the Company or a Subsidiary) will have no further liability for the money. If the Company or a Subsidiary acts as Paying Agent, it will segregate and hold in a separate trust fund for the benefit of the Holders all money held by it as Paying Agent. Upon any bankruptcy or reorganization proceedings relating to the Company, the Trustee will serve as Paying Agent for the Notes.

#### Section 2.05 *Holder Lists.*

The Trustee will preserve in as current a form as is reasonably practicable the most recent list available to it of the names and addresses of all Holders and shall otherwise comply with TIA §312(a). If the Trustee is not the Registrar, the Company will furnish to the Trustee at least seven Business Days before each interest payment date and at such other times as the Trustee may request in writing, a list in such form and as of such date as the Trustee may reasonably require of the names and addresses of the Holders of Notes and the Company shall otherwise comply with TIA §312(a).

(2) the Company in its sole discretion determines that the Global Notes (in whole but not in part) should be exchanged for Definitive Notes and delivers a written notice to such effect to the Trustee; *provided* that in no event shall the Regulation S Temporary Global Note be exchanged by the Company for Definitive Notes prior to (A) the expiration of the Restricted

Period and (B) the receipt by the Registrar of any certificates required pursuant to Rule 903(b)(3)(ii)(B) under the Securities Act; or

(3) there has occurred and is continuing a Default or Event of Default with respect to the Notes and a Holder requests that its Global Note be exchanged for a Definitive Note.

Global Notes also may be exchanged or replaced, in whole or in part, as provided in Sections 2.07 and 2.10 hereof. Every Note authenticated and delivered in exchange for, or in lieu of, a Global Note or any portion thereof, pursuant to this Section 2.06 or Section 2.07 or 2.10 hereof, shall be authenticated and delivered in the form of, and shall be, a Global Note except for Definitive Notes issued subsequent to any of the events in Section 2.06(a)(1), 2.06(a)(2) or 2.06(a)(3) hereof and pursuant to Section 2.06(c) hereof. *provided* that in no event shall Definitive Notes be issued upon the transfer or exchange of beneficial interests in the Regulation S Temporary Global Note prior to (A) the expiration of the Restricted Period and (B) the receipt by the Registrar of any certificates required pursuant to Rule 903 under the Securities Act.

Upon consummation of an Exchange Offer by the Company in accordance with Section 2.06(f) hereof, the requirements of this Section 2.06(b)(2) shall be deemed to have been satisfied upon receipt by the Registrar of the instructions contained in the Letter of Transmittal delivered by the Holder of such beneficial interests in the Restricted Global Notes or an Agent's Message delivered through the DTC Automated Tender Offer Program. Upon satisfaction of all of the requirements for transfer or exchange of beneficial interests in Global Notes contained in this Indenture and the Notes or otherwise applicable under the Securities Act, the Trustee shall adjust the principal amount of the relevant Global Note(s) pursuant to Section 2.06(h) hereof.

(3) *Regulation S Temporary Global Note Legend.* The Regulation S Temporary Global Note will bear a Legend in substantially the following form:

"THE RIGHTS ATTACHING TO THIS REGULATION S TEMPORARY GLOBAL NOTE, AND THE CONDITIONS AND PROCEDURES GOVERNING ITS EXCHANGE FOR CERTIFICATED NOTES, ARE AS SPECIFIED IN THE INDENTURE (AS DEFINED HEREIN)."

(4) *Original Issue Discount Legend.* Each Note issued with original issue discount will bear a legend in substantially the following form:

"FOR THE PURPOSES OF SECTIONS 1272, 1273 AND 1275 OF THE INTERNAL REVENUE CODE OF 1986, AS AMENDED, THIS SECURITY IS BEING ISSUED WITH ORIGINAL ISSUE DISCOUNT; FOR EACH \$1,000 PRINCIPAL AMOUNT OF THIS SECURITY, THE ISSUE PRICE IS \$\_\_\_\_, THE AMOUNT OF ORIGINAL ISSUE DISCOUNT IS \$\_\_\_\_, THE ISSUE DATE IS \_\_\_\_\_, 20\_\_ AND THE YIELD TO MATURITY IS \_\_\_\_% PER ANNUM."

(h) *Cancellation and/or Adjustment of Global Notes.* At such time as all beneficial interests in a particular Global Note have been exchanged for Definitive Notes or a particular Global Note has been redeemed, repurchased or canceled in whole and not in part, each such Global Note will be returned to or retained and canceled by the Trustee in accordance with Section 2.11 hereof. At any time prior to such cancellation, if any beneficial interest in a Global Note is exchanged for or transferred to a Person who will take delivery thereof in the form of a beneficial interest in another Global Note or for Definitive Notes, the principal amount of Notes represented by such Global Note will be reduced accordingly and an endorsement will be made on such Global Note by the Trustee or by the Depositary at the direction of the Trustee to reflect such reduction; and if the beneficial interest is being exchanged for or transferred to a Person who will take delivery thereof in the form of a beneficial interest in another Global Note, such other Global Note will be increased accordingly and an endorsement will be made on such Global Note by the Trustee or by the Depositary at the direction of the Trustee to reflect such increase.

(i) *General Provisions Relating to Transfers and Exchanges.*

(1) To permit registrations of transfers and exchanges, the Company will execute and the Trustee will authenticate Global Notes and Definitive Notes upon receipt of an Authentication Order in accordance with Section 2.02 hereof or at the Registrar's request.

(2) No service charge will be made to a Holder of a beneficial interest in a Global Note or to a Holder of a Definitive Note for any registration of transfer or exchange, but the Company may require payment of a sum sufficient to cover any transfer tax or similar governmental charge payable in connection therewith (other than any such transfer taxes or similar governmental charge payable upon exchange or transfer pursuant to Sections 2.10, 3.06, 3.09, 4.10, 4.14 and 9.05 hereof).

(3) The Registrar will not be required to register the transfer of or exchange of any Note selected for redemption in whole or in part, except the unredeemed portion of any Note being redeemed in part.

(4) All Global Notes and Definitive Notes issued upon any registration of transfer or exchange of Global Notes or Definitive Notes will be the valid obligations of the Company, evidencing the same debt, and entitled to the same benefits under this Indenture, as the Global Notes or Definitive Notes surrendered upon such registration of transfer or exchange.

(5) Neither the Registrar nor the Company will be required:

(A) to issue, to register the transfer of or to exchange any Notes during a period beginning at the opening of business 15 days before the day of any selection of Notes for redemption under Section 3.02 hereof and ending at the close of business on the day of selection;

(B) to register the transfer of or to exchange any Note selected for redemption in whole or in part, except the unredeemed portion of any Note being redeemed in part; or

(C) to register the transfer of or to exchange a Note between a record date and the next succeeding interest payment date.

(6) Prior to due presentment for the registration of a transfer of any Note, the Trustee, any Agent and the Company may deem and treat the Person in whose name any Note is registered as the absolute owner of such Note for the purpose of receiving payment of principal of and interest on such Notes and for all other purposes, and none of the Trustee, any Agent or the Company shall be affected by notice to the contrary.

(7) The Trustee will authenticate Global Notes and Definitive Notes in accordance with the provisions of Section 2.02 hereof.

(8) All certifications, certificates and Opinions of Counsel required to be submitted to the Registrar pursuant to this Section 2.06 to effect a registration of transfer or exchange may be submitted by facsimile.

*Section 2.07 Replacement Notes.*

If any mutilated Note is surrendered to the Trustee or the Company and the Trustee receives evidence to its satisfaction of the destruction, loss or theft of any Note, the Company will issue and the Trustee, upon receipt of an Authentication Order, will authenticate a replacement Note if the Trustee's requirements are met. If required by the Trustee or the Company, an indemnity bond must be supplied by the Holder that is sufficient in the judgment of the Trustee and the Company to protect the Company, the Trustee, any Agent and any authenticating agent from any loss that any of them may suffer if a Note is replaced. The Company may charge for its expenses in replacing a Note.

Every replacement Note is an additional obligation of the Company and will be entitled to all of the benefits of this Indenture equally and proportionately with all other Notes duly issued hereunder.

*Section 2.08 Outstanding Notes.*

The Notes outstanding at any time are all the Notes authenticated by the Trustee except for those canceled by it, those delivered to it for cancellation, those reductions in the interest in a Global Note effected by the Trustee in accordance with the provisions hereof, and those set forth in this Section 2.08 as not outstanding. Except as set forth in Section 2.09 hereof, a Note does not cease to be outstanding because the Company or an Affiliate of the Company holds the Note; however, Notes held by the Company or a Subsidiary of the Company shall not be deemed to be outstanding for purposes of Section 3.07(a) hereof.

If a Note is replaced pursuant to Section 2.07 hereof, it ceases to be outstanding unless the Trustee receives proof satisfactory to it that the replaced Note is held by a protected purchaser.

If the principal amount of any Note is considered paid under Section 4.01 hereof, it ceases to be outstanding and interest on it ceases to accrue.

If the Paying Agent (other than the Company, a Subsidiary or an Affiliate of any thereof) holds, on a redemption date or maturity date, money sufficient to pay Notes payable on that date, then on and after that date such Notes will be deemed to be no longer outstanding and will cease to accrue interest.

*Section 2.09 Treasury Notes.*

In determining whether the Holders of the required principal amount of Notes have concurred in any direction, waiver or consent, Notes owned by the Company or any Guarantor, or by any Person directly or indirectly controlling or controlled by or under direct or indirect common control with the Company or any Guarantor, will be considered as though not outstanding, except that for the purposes of determining whether the Trustee will be protected in relying on any such direction, waiver or consent, only Notes that the Trustee knows are so owned will be so disregarded.

*Section 2.10 Temporary Notes.*

Until certificates representing Notes are ready for delivery, the Company may prepare and the Trustee, upon receipt of an Authentication Order, will authenticate temporary Notes. Temporary Notes will be substantially in the form of certificated Notes but may have variations that the Company considers appropriate for temporary Notes and as may be reasonably acceptable to the Trustee. Without unreasonable delay, the Company will prepare and the Trustee will authenticate definitive Notes in exchange for temporary Notes.

Holders of temporary Notes will be entitled to all of the benefits of this Indenture.

Section 2.11 *Cancellation.*

The Company at any time may deliver Notes to the Trustee for cancellation. The Registrar and Paying Agent will forward to the Trustee any Notes surrendered to them for registration of transfer, exchange or payment. The Trustee and no one else will cancel all Notes surrendered for registration of transfer, exchange, payment, replacement or cancellation and will destroy canceled Notes (subject to the record retention requirement of the Exchange Act). Certification of the destruction of all canceled Notes will be delivered to the Company. The Company may not issue new Notes to replace Notes that it has paid or that have been delivered to the Trustee for cancellation.

Section 2.12 *Defaulted Interest.*

If the Company defaults in a payment of interest on the Notes, it will pay the defaulted interest in any lawful manner plus, to the extent lawful, interest payable on the defaulted interest, to the Persons who are Holders on a subsequent special record date, in each case at the rate provided in the Notes and in Section 4.01 hereof. The Company will notify the Trustee in writing of the amount of defaulted interest proposed to be paid on each Note and the date of the proposed payment. The Company will fix or cause to be fixed each such special record date and payment date; *provided* that no such special record date may be less than 10 days prior to the related payment date for such defaulted interest. At least 15 days before the special record date, the Company (or, upon the written request of the Company, the Trustee in the name and at the expense of the Company) will mail or cause to be mailed to Holders a notice that states the special record date, the related payment date and the amount of such interest to be paid.

ARTICLE 3  
REDEMPTION AND PREPAYMENT

Section 3.01 *Notices to Trustee.*

If the Company elects to redeem Notes pursuant to the optional redemption provisions of Section 3.07 hereof, it must furnish to the Trustee, at least 15 days but not more than 60 days before a redemption date, an Officers' Certificate setting forth:

- (1) the clause of this Indenture pursuant to which the redemption shall occur;
- (2) the redemption date;
- (3) the principal amount of Notes to be redeemed; and
- (4) the redemption price.

Section 3.02 *Selection of Notes to Be Redeemed or Purchased.*

If less than all of the Notes are to be redeemed or purchased in an offer to purchase at any time, the Trustee will select Notes for redemption or purchase on a *pro rata* basis (or, in the case of Global Notes, based on a method that most nearly approximates a *pro rata* selection as the Trustee deems fair and appropriate) unless otherwise required by law or applicable stock exchange or depositary requirements.

The Trustee shall promptly notify the Company in writing of the Notes selected for redemption or purchase and, in the case of any Note selected for partial redemption or purchase, the principal amount thereof to be redeemed or purchased. No Notes of \$2,000 or less shall be redeemed in part. Notes and portions of Notes selected will be in amounts of \$2,000 or integral multiples of \$1,000 in excess thereof; except that if all of the Notes of a Holder are to be redeemed or purchased, the entire outstanding amount of Notes held by such Holder shall be redeemed or purchased. Except as provided in the preceding sentence, provisions of this Indenture that apply to Notes called for redemption or purchase also apply to portions of Notes called for redemption or purchase.

*Section 3.03 Notice of Redemption.*

At least 15 days but not more than 60 days before a redemption date, the Company shall send electronically or mail by first class mail or as otherwise provided in accordance with the procedures of DTC, a notice of redemption to each Holder whose Notes are to be redeemed at its registered address, except that redemption notices may be mailed more than 60 days prior to a redemption date if the notice is issued in connection with a defeasance of the Notes or a satisfaction and discharge of this Indenture pursuant to Articles 8 or 12 hereof.

The notice will identify the Notes to be redeemed and shall state:

- (1) the redemption date;
- (2) the redemption price;
- (3) if any Note is being redeemed in part, the portion of the principal amount of such Note to be redeemed and that, after the redemption date upon surrender of such Note, a new Note or Notes in principal amount equal to the unredeemed portion will be issued in the name of the holder thereof upon cancellation of the original Note;
- (4) the name and address of the Paying Agent;
- (5) that Notes called for redemption must be surrendered to the Paying Agent to collect the redemption price;
- (6) that, unless the Company defaults in making such redemption payment, interest on Notes called for redemption ceases to accrue on and after the redemption date;
- (7) the paragraph of the Notes and/or Section of this Indenture pursuant to which the Notes called for redemption are being redeemed;
- (8) that no representation is made as to the correctness or accuracy of the CUSIP or ISIN number, if any, listed in such notice or printed on the Notes; and
- (9) any condition to such redemption as permitted by the last sentence of Section 3.04 hereof.

At the Company's request, the Trustee will give the notice of redemption in the Company's name and at its expense; *provided, however*, that the Company has delivered to the Trustee, at least 30 days (or such shorter time period as may be acceptable to the Trustee) prior to the redemption date, an Officers' Certificate requesting that the Trustee give such notice and setting forth the information to be stated in such notice as provided in Section 3.03.

Section 3.04 *Effect of Notice of Redemption.*

Once notice of redemption is mailed in accordance with Section 3.03 hereof, Notes called for redemption become due and payable on the redemption date at the redemption price. Interest, if any, on Notes called for redemption ceases to accrue on and after the redemption date, unless the Company defaults in making the applicable redemption payment. Notices of redemption may be given prior to the completion thereof, and any redemption or notice may, at the Company's discretion, be subject to one or more conditions precedent, including, but not limited to, completion of the Qualified Equity Offering.

Section 3.05 *Deposit of Redemption or Purchase Price.*

Prior to 12:00 p.m. Eastern Time (or such later time as has been agreed to by Paying Agent or the Trustee) on the redemption or purchase date, the Company will deposit with the Trustee or with the Paying Agent money sufficient to pay the redemption or purchase price of and accrued interest and Special Interest, if any, on all Notes to be redeemed or purchased on that date. The Trustee or the Paying Agent will promptly return to the Company any money deposited with the Trustee or the Paying Agent by the Company in excess of the amounts necessary to pay the redemption or purchase price of and accrued interest and Special Interest, if any, on all Notes to be redeemed or purchased.

If the Company complies with the provisions of the preceding paragraph, on and after the redemption or purchase date, interest will cease to accrue on the Notes or the portions of Notes called for redemption or purchase. If a Note is redeemed or purchased on or after an interest record date but on or prior to the related interest payment date, then any accrued and unpaid interest shall be paid to the Person in whose name such Note was registered at the close of business on such record date. If any Note called for redemption or purchase is not so paid upon surrender for redemption or purchase because of the failure of the Company to comply with the preceding paragraph, interest shall be paid on the unpaid principal, from the redemption or purchase date until such principal is paid, and to the extent lawful on any interest not paid on such unpaid principal, in each case at the rate provided in the Notes and in Section 4.01 hereof.

Section 3.06 *Notes Redeemed or Purchased in Part.*

Upon surrender of a Note that is redeemed or purchased in part, the Company will issue and, upon receipt of an Authentication Order, the Trustee will authenticate for the Holder at the expense of the Company a new Note equal in principal amount to the unredeemed or unpurchased portion of the Note surrendered. No Notes in denominations of \$2,000 or less shall be redeemed in part.

Section 3.07 *Optional Redemption.*

(a) At any time prior to December 15, 2012, the Company may, on any one or more occasions, redeem up to 35% of the aggregate principal amount of Notes issued under this Indenture (together with any Additional Notes), upon not less than 15 nor more than 60 days' notice, at a redemption price equal to 109.5% of the principal amount of the Notes redeemed, *plus* accrued and unpaid interest and Special Interest (if any) to the date of redemption (subject to the rights of Holders of Notes on the relevant record date to receive interest on the relevant interest payment date), with all or a portion of the net cash proceeds of one or more Qualified Equity Offerings; *provided that*:

(1) at least 65% of the aggregate principal amount of Notes issued under this Indenture (including any Additional Notes) remains outstanding immediately after the occurrence of such redemption (excluding Notes held by the Company and its Subsidiaries); and

(2) the redemption must occur within 90 days of the date of the closing of such Qualified Equity Offering.

(b) At any time prior to December 15, 2012, the Company may, on any one or more occasions, redeem all or a part of the Notes, upon not less than 15 nor more than 60 days' notice, at a redemption price equal to 100% of the principal amount of the Notes redeemed, *plus* the Applicable Premium as of, and accrued and unpaid interest and Special Interest (if any) to the date of redemption, subject to the rights of Holders on the relevant record date to receive interest due on the relevant interest payment date.

(c) Reserved.

(d) Except pursuant to Sections 3.07(a) and 3.07(b), the Notes will not be redeemable at the Company's option prior to December 15, 2012.

(e) On or after December 15, 2012, the Company may redeem all or a part of the Notes upon not less than 15 nor more than 60 days' notice, at the redemption prices (expressed as percentages of principal amount) set forth below *plus* accrued and unpaid interest and Special Interest, if any, on the Notes redeemed, to the applicable redemption date, if redeemed during the twelve-month period beginning on December 15 of the years indicated below, subject to the rights of Holders on the relevant record date to receive interest on the relevant interest payment date:

Year	Percentage
2012	107.125%
2013	104.750%
2014	102.375%
2015 and thereafter	100.000%

Unless the Company defaults in the payment of the redemption price, interest will cease to accrue on the Notes or portions thereof called for redemption on the applicable redemption date.

(f) Any redemption pursuant to this Section 3.07 shall be made in accordance with the provisions of Sections 3.01 through 3.06 hereof.

#### Section 3.08 *Mandatory Redemption.*

The Company shall not be required to make mandatory redemption or sinking fund payments with respect to the Notes.

#### Section 3.09 *Offer to Purchase by Application of Excess Proceeds.*

In the event that, pursuant to Section 4.10 hereof, the Company is required to commence an offer to all Holders to purchase Notes (an "*Asset Sale Offer*"), it will follow the procedures specified below.

The Asset Sale Offer shall be made to all Holders and all holders of other Priority Lien Debt containing provisions similar to those set forth in this Indenture with respect to offers to purchase, prepay or redeem with the proceeds of sales of assets. The Asset Sale Offer will remain open for a period of at least 20 Business Days following its commencement and not more than 30 Business Days, except to the extent that a longer period is required by applicable law (the "*Offer Period*"). No later than five Business Days after the termination of the Offer Period (the "*Purchase Date*"), the Company will apply all Excess Proceeds (the "*Offer Amount*") to the purchase of Notes and such other Priority Lien Debt (on a *pro rata*

basis based on the principal amount of Notes and such other Priority Lien Debt surrendered, if applicable) or, if less than the Offer Amount has been tendered, all Notes and other Indebtedness tendered in response to the Asset Sale Offer. Payment for any Notes so purchased will be made in the same manner as interest payments are made.

If the Purchase Date is on or after an interest record date and on or before the related interest payment date, any accrued and unpaid interest and Special Interest, if any, will be paid to the Person in whose name a Note is registered at the close of business on such record date, and no additional interest will be payable to Holders who tender Notes pursuant to the Asset Sale Offer.

Upon the commencement of an Asset Sale Offer, the Company will send electronically or mail by first class mail or as otherwise provided in accordance with the procedures of DTC, a notice to the Trustee and each of the Holders, with a copy to the Trustee. The notice will contain all instructions and materials necessary to enable such Holders to tender Notes pursuant to the Asset Sale Offer. The notice, which will govern the terms of the Asset Sale Offer, will state:

- (1) that the Asset Sale Offer is being made pursuant to this Section 3.09 and Section 4.10 hereof and the length of time the Asset Sale Offer will remain open;
- (2) the Offer Amount, the purchase price and the Purchase Date;
- (3) that any Note not tendered or accepted for payment will continue to accrue interest;
- (4) that, unless the Company defaults in making such payment, any Note accepted for payment pursuant to the Asset Sale Offer will cease to accrue interest after the Purchase Date;
- (5) that Holders electing to have a Note purchased pursuant to an Asset Sale Offer may elect to have Notes purchased in denominations of \$2,000 or an integral multiple of \$1,000 in excess thereof;
- (6) that Holders electing to have Notes purchased pursuant to any Asset Sale Offer will be required to surrender the Note, with the form entitled "Option of Holder to Elect Purchase" attached to the Notes completed, or transfer by book-entry transfer, to the Company, a Depositary, if appointed by the Company, or a Paying Agent at the address specified in the notice at least three days before the Purchase Date;
- (7) that Holders will be entitled to withdraw their election if the Company, the Depositary or the Paying Agent, as the case may be, receives, not later than the expiration of the Offer Period, a facsimile transmission or letter setting forth the name of the Holder, the principal amount of the Note the Holder delivered for purchase and a statement that such Holder is withdrawing his election to have such Note purchased;
- (8) that, if the aggregate principal amount of Notes and other Priority Lien Debt surrendered by holders thereof exceeds the Offer Amount, the Company will select the Notes and other Priority Lien Debt to be purchased on a *pro rata* basis based on the principal amount of Notes and such other Priority Lien Debt surrendered (with such adjustments as may be deemed appropriate by the Company so that only Notes in denominations of \$2,000, or an integral multiple of \$1,000 in excess thereof, will be purchased); and

(9) that Holders whose Notes were purchased only in part will be issued new Notes equal in principal amount to the unpurchased portion of the Notes surrendered (or transferred by book-entry transfer).

On or before the Purchase Date, the Company will, to the extent lawful, accept for payment, on a *pro rata* basis to the extent necessary, the Offer Amount of Notes or portions thereof tendered pursuant to the Asset Sale Offer, or if less than the Offer Amount has been tendered, all Notes tendered, and will deliver or cause to be delivered to the Trustee the Notes properly accepted together with an Officers' Certificate stating that such Notes or portions thereof were accepted for payment by the Company in accordance with the terms of this Section 3.09. The Company, the Depositary or the Paying Agent, as the case may be, will, not later than three Business Days after the Purchase Date, mail or deliver to each tendering Holder an amount equal to the purchase price of the Notes tendered by such Holder and accepted by the Company for purchase, and the Company will promptly issue a new Note, and the Trustee, upon written request from the Company, will authenticate and mail or deliver (or cause to be transferred by book entry) such new Note to such Holder, in a principal amount equal to any unpurchased portion of the Note surrendered; *provided* that such Note shall be in a principal amount of \$2,000 or an integral multiple of \$1,000 in excess thereof. Any Note not so accepted shall be promptly mailed or delivered by the Company to the Holder thereof. The Company will publicly announce the results of the Asset Sale Offer on or as soon as practicable after the Purchase Date.

Other than as specifically provided in this Section 3.09, any purchase pursuant to this Section 3.09 shall be made in accordance with the provisions of Sections 3.01 through 3.06 hereof.

#### ARTICLE 4 COVENANTS

##### Section 4.01 *Payment of Notes.*

The Company will pay or cause to be paid all principal, interest, premium and Special Interest, if any, on the Notes on the dates and in the manner provided in the Notes. Principal, premium, if any, interest and Special Interest, if any, will be considered paid on the date due if the Paying Agent, if other than the Company or a Subsidiary thereof, holds as of 12:00 p.m. Eastern Time on the due date money deposited by the Company in immediately available funds and designated for and sufficient to pay all principal, premium, if any, and interest, if any, then due. The Company will pay all Special Interest, if any, in the same manner on the dates and in the amounts set forth in the Registration Rights Agreement.

The Company will pay interest (including post-petition interest in any proceeding under any Bankruptcy Law) on overdue principal at the then applicable interest rate on the Notes to the extent lawful; it will pay interest (including post-petition interest in any proceeding under any Bankruptcy Law) on overdue installments of interest and Special Interest, if any (without regard to any applicable grace period), at the same rate to the extent lawful.

##### Section 4.02 *Maintenance of Office or Agency.*

The Company will maintain in the Borough of Manhattan, the City of New York, an office or agency (which may be an office of the Trustee or an affiliate of the Trustee, Registrar or co-registrar) where Notes may be surrendered for registration of transfer or for exchange and where notices and demands to or upon the Company in respect of the Notes and this Indenture may be served. The Company will give prompt written notice to the Trustee of the location, and any change in the location, of such office or agency. If at any time the Company fails to maintain any such required office or agency or

fails to furnish the Trustee with the address thereof, such presentations, surrenders, notices and demands may be made or served at the Corporate Trust Office of the Trustee.

The Company may also from time to time designate one or more other offices or agencies where the Notes may be presented or surrendered for any or all such purposes and may from time to time rescind such designations; *provided, however*, that no such designation or rescission will in any manner relieve the Company of its obligation to maintain an office or agency in the Borough of Manhattan, the City of New York for such purposes. The Company will give prompt written notice to the Trustee of any such designation or rescission and of any change in the location of any such other office or agency.

The Company hereby designates the Corporate Trust Office of the Trustee as one such office or agency of the Company in accordance with Section 2.03 hereof.

#### Section 4.03 *Reports.*

(a) Whether or not the Company is subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act, so long as any Notes are outstanding, the Company will furnish to the Holders of Notes or cause the Trustee to furnish to the Holders of Notes or post on its website or file with the SEC for public availability:

(1) all quarterly and annual reports that would be required to be filed with the SEC on Forms 10-Q and 10-K if the Company were required to file such reports, including a “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and, with respect to the annual information only, a report (whether or not unqualified) thereon by the Company’s certified independent accountants, which reports shall be filed (a) in the case of quarterly reports, within 15 days after the time period specified in the SEC’s rules and regulations and (b) in the case of annual reports, within 30 days after the time period specified in the SEC’s rules and regulations; and

(2) as soon as practicable, and in any event five days after the time periods specified in the SEC’s rules and regulations, all current reports that would be required to be filed with the SEC on Form 8-K if the Company were required to file such reports;

*provided, however*, that if the last day of any such time period is not a Business Day, such report will be due on the next succeeding Business Day.

(b) All such reports will be prepared in all material respects in accordance with all of the rules and regulations applicable to such reports, except that such reports will not be required to contain separate financial information for Subsidiary Guarantors or Subsidiaries whose securities are pledged to secure the Notes that would be required under Rule 3-10 or Rule 3-16 of Regulation S-X promulgated by the SEC, except to the extent required by the rules and regulations of the SEC actually applicable to the Company at such time.

(c) If, at any time after consummation of the Exchange Offer contemplated by the Registration Rights Agreement, the Company is no longer subject to the periodic reporting requirements of the Exchange Act for any reason, the Company will nevertheless continue filing the reports specified in the preceding paragraphs of this Section 4.03 with the SEC within the time periods specified above unless the SEC will not accept such a filing. The Company will not take any action for the purpose of causing the SEC not to accept any such filings. If, notwithstanding the foregoing, the SEC will not accept the Company’s filings for any reason, the Company will post the reports referred to in this Section 4.03 on its website within the time periods specified above.

(d) If the Company has designated any of its Subsidiaries as Unrestricted Subsidiaries, then the quarterly and annual financial information required by Section 4.03(a) hereof will include a reasonably detailed presentation, either on the face of the financial statements or in the footnotes thereto, and in Management's Discussion and Analysis of Financial Condition and Results of Operations, of the financial condition and results of operations of the Company and its Restricted Subsidiaries separate from the financial condition and results of operations of the Unrestricted Subsidiaries of the Company.

(e) In the event that (1) the rules and regulations of the SEC permit the Company and Parent, or any other direct or indirect parent of the Company, to report at such parent entity's level on a consolidated basis and (2) such parent entity of the Company is not engaged in any business in any material respect other than incidental to its ownership, directly or indirectly, of the Capital Stock of the Company, the information and reports required by this Section 4.03 may be those of such parent company on a consolidated basis.

(f) Notwithstanding the foregoing, prior to completion of the Exchange Offer or effectiveness of the Shelf Registration Statement contemplated by the Registration Rights Agreement, the requirements above will be deemed satisfied (1) by the filing with the SEC of the Exchange Offer Registration Statement or Shelf Registration Statement and any amendments thereto, within the time periods set forth above, with such financial information that satisfies Regulation S-X of the Securities Act or (2) by posting reports that would be required to be filed substantially in the form required by the SEC on the Company's website (or the website of Parent or other direct or indirect parent of the Company) or providing such reports to the Trustee, subject to exceptions consistent with the presentation of financial information in the Offering Circular.

(g) In addition, the Company and the Guarantors agree that, for so long as any Notes remain outstanding, if at any time they are not required to file with the SEC the reports required by Sections 4.03(a) and (b) hereof, they will furnish to the Holders and to securities analysts and prospective investors, upon their request, the information required to be delivered pursuant to Rule 144A(d)(4) under the Securities Act.

(h) Notwithstanding anything herein to the contrary, the Company will not be deemed to have failed to comply with any of its agreements set forth in this Section 4.03 for purposes of Section 6.01(4) until 90 days after the date any report required to be provided by this Section 4.03 is due.

#### Section 4.04 *Compliance Certificate.*

(a) The Company and each Guarantor (to the extent that such Guarantor is so required under the TIA) shall deliver to the Trustee, within 120 days after the end of each fiscal year, an Officers' Certificate stating that a review of the activities of the Company and its Subsidiaries during the preceding fiscal year has been made under the supervision of the signing Officer with a view to determining whether the Company has kept, observed, performed and fulfilled its obligations under this Indenture, and further stating, as to each such Officer signing such certificate, that to the best of his or her knowledge the Company has kept, observed, performed and fulfilled each and every covenant contained in this Indenture and is not in default in the performance or observance of any of the terms, provisions and conditions of this Indenture (or, if a Default or Event of Default has occurred, describing all such Defaults or Events of Default of which he or she may have knowledge and what action the Company is taking or proposes to take with respect thereto).

(b) So long as any of the Notes are outstanding, the Company will deliver to the Trustee, within 30 days of any Officer becoming aware of any Default or Event of Default, an Officers' Certificate specifying such Default or Event of Default, unless such Default or Event of Default has been cured

before the end of the 30 day period, and what action the Company is taking or proposes to take with respect thereto.

#### Section 4.05 *Taxes.*

The Company will pay or discharge, and will cause each of its Restricted Subsidiaries to pay or discharge, prior to delinquency, all material taxes, assessments, and governmental levies except such as are contested in good faith and by appropriate negotiations or proceedings or where the failure to effect such payment is not adverse in any material respect to the Holders of the Notes.

#### Section 4.06 *Stay, Extension and Usury Laws.*

The Company and each of the Guarantors covenants (to the extent that it may lawfully do so) that it will not at any time insist upon, plead, or in any manner whatsoever claim or take the benefit or advantage of, any stay, extension or usury law wherever enacted, now or at any time hereafter in force, that may affect the covenants or the performance of this Indenture; and the Company and each of the Guarantors (to the extent that it may lawfully do so) hereby expressly waives all benefit or advantage of any such law, and covenants that it will not, by resort to any such law, hinder, delay or impede the execution of any power herein granted to the Trustee, but will suffer and permit the execution of every such power as though no such law has been enacted.

#### Section 4.07 *Restricted Payments.*

(a) The Company will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly:

(1) declare or pay any dividend or make any other payment or distribution on account of the Company's or any of its Restricted Subsidiaries' Equity Interests (including, without limitation, any payment in connection with any merger or consolidation involving the Company or any of its Restricted Subsidiaries) or to the direct or indirect holders of the Company's or any of its Restricted Subsidiaries' Equity Interests in their capacity as such (other than dividends, payments or distributions (A) payable in Equity Interests (other than Disqualified Stock) of the Company or to the Company or a Restricted Subsidiary of the Company or (B) payable by a Restricted Subsidiary so long as, in the case of any dividend, payment or distribution payable on or in respect of any class or series of securities issued by a Restricted Subsidiary other than a Wholly Owned Restricted Subsidiary, the Company or a Restricted Subsidiary receives at least its pro rata share of such dividend or distribution in accordance with its Equity Interests in such class or series of securities);

accrued interest, due within one year of the date of such payment, purchase, redemption, defeasance, acquisition or retirement; or

(4) make any Restricted Investment

(all such restricted payments and other restricted actions set forth in clauses (1) through (4) above (other than any exceptions thereto) being collectively referred to as “*Restricted Payments*”), unless, at the time of and after giving effect to such Restricted Payment:

(1) no Default or Event of Default shall have occurred and be continuing or would occur as a consequence thereof;

(2) the Company would, at the time of such Restricted Payment and after giving *pro forma* effect thereto as if such Restricted Payment had been made at the beginning of the applicable four-quarter period, have been permitted to incur at least \$1.00 of additional Indebtedness pursuant to the Fixed Charge Coverage Ratio test set forth in Section 4.09(a) hereof; and

(3) such Restricted Payment, together with the aggregate amount of all other Restricted Payments made by the Company and its Restricted Subsidiaries after the date of this Indenture permitted by the provisions set forth in clauses (1), (6), (7), (9), (10), (12), (18) and (19) of Section 4.07(b), is less than the sum, without duplication, of:

(A) 50% of the Consolidated Net Income of the Company for the period (taken as one accounting period) from the first day of the first fiscal quarter beginning after the date of this Indenture to the end of the Company’s most recently ended fiscal quarter for which internal financial statements are available at the time of such Restricted Payment (or, if such Consolidated Net Income for such period is a deficit, less 100% of such deficit), *plus*

(B) 100% of the aggregate net cash proceeds and the Fair Market Value of assets other than cash received by the Company since the date of this Indenture as a contribution to its equity capital or from the issue or sale of Equity Interests of the Company or from the issue or sale of Equity Interests of any direct or indirect parent of the Company to the extent such net cash proceeds are actually contributed to the Company as equity (other than Excluded Contributions, Refunding Capital Stock, Disqualified Stock and Designated Preferred Stock) or from the issue or sale of convertible or exchangeable Disqualified Stock or convertible or exchangeable debt securities of the Company that have been converted into or exchanged for such Equity Interests (other than Equity Interests (or Disqualified Stock or debt securities) sold to a Restricted Subsidiary of the Company), *plus*

(C) the net cash proceeds and the Fair Market Value of assets other than cash received by the Company or any Restricted Subsidiary of the Company from (i) the disposition, sale, liquidation, retirement or redemption of all or any portion of any Restricted Investment made after the date of this Indenture, net of disposition costs and repurchases and redemptions of such Restricted Investments from the Company or its Restricted Subsidiaries and repayments of loans or advances, and releases of guarantees which constitute Restricted Investments by the Company or its Restricted Subsidiaries, and (ii) the sale (other than to the Company or a Restricted Subsidiary of the Company) of the Capital Stock of an Unrestricted Subsidiary, *plus*

(D) without duplication, (i) to the extent that any Unrestricted Subsidiary of the Company that was designated as such after the date of this Indenture is redesignated as a Restricted Subsidiary, the Fair Market Value of the Company's direct or indirect Investment in such Subsidiary as of the date of such redesignation, *plus* (ii) an amount equal to the net reduction in Investments in Unrestricted Subsidiaries resulting from payments of dividends, repayments of the principal of loans or advances or other transfers of assets from Unrestricted Subsidiaries of the Company to the Company or any Restricted Subsidiary of the Company after the date of this Indenture, except, in each case, to the extent that any such Investment or net reduction in Investment is included in the calculation of Consolidated Net Income, *plus*

(E) without duplication, in the event the Company or any Restricted Subsidiary of the Company makes any Investment in a Person that, as a result of or in connection with such Investment, becomes a Restricted Subsidiary of the Company, an amount equal to the Fair Market Value of the existing Investment in such Person that was previously treated as a Restricted Payment.

(b) The provisions of Section 4.07(a) hereof will not prohibit:

(1) the payment of any dividend or distribution or the consummation of any redemption within 60 days after the date of declaration thereof or the giving of a redemption notice related thereto, as the case may be, if at said date of declaration or notice such payment would have complied with the provisions of this Indenture;

(2) (A) the making of any Restricted Payment in exchange for, or out of the proceeds of the substantially concurrent sale of, Equity Interests of the Company or any direct or indirect parent of the Company (other than any Disqualified Stock or any Equity Interests sold to a Restricted Subsidiary of the Company or to an employee stock ownership plan or any trust established by the Company) or from substantially concurrent contributions to the equity capital of the Company (collectively, including any such contributions, "*Refunding Capital Stock*"); *provided*, that for the purposes hereof, Restricted Payments will be deemed to be made substantially concurrent with any such sale or contributions if the Restricted Payment occurs within 45 days of such sale or contribution; and

(B) the declaration and payment of accrued dividends on any Equity Interests redeemed, repurchased, retired, defeased or acquired out of the proceeds of the sale of Refunding Capital Stock within 45 days of such sale;

*provided* that the amount of any such proceeds or contributions that are utilized for any Restricted Payment pursuant to this clause (2) shall be excluded from the amount set forth in clause (3)(B) of Section 4.07(a) hereof and clause (4) of this Section 4.07(b) and shall not constitute Excluded Contributions;

(3) the payment, defeasance, redemption, repurchase, retirement or other acquisition of (a) Indebtedness of the Company or any Subsidiary Guarantor that is contractually subordinated to the Notes or to any Note Guarantee or (b) any Subordinated Lien Debt or (c) any Indebtedness of the Company or any Subsidiary Guarantor that is unsecured or (d) Disqualified Stock of the Company or any Restricted Subsidiary thereof, in each such case of (a) through (d), in exchange for, or out of the net cash proceeds from, an incurrence of Permitted Refinancing Indebtedness;

(4) Restricted Investments acquired (a) as a capital contribution to, or out of the net cash proceeds of substantially concurrent contributions to, the equity capital of the Company or (b) from the net cash proceeds of the substantially concurrent sale (other than to a Restricted Subsidiary of the Company or to an employee stock ownership plan or any trust established by the Company) of, or in exchange for Equity Interests of the Company (other than Disqualified Stock); *provided*, that for the purposes hereof, Restricted Investments will be deemed to be acquired substantially concurrent with such contribution or the sale of any such Equity Interests if the acquisition occurs within 45 days of such contribution or sale; *provided further*, that the amount of any such net cash proceeds that are utilized for any such acquisition and the Fair Market Value of any assets so acquired or exchanged shall be excluded from the amount set forth in clause (3)(B) of Section 4.07(a) hereof and clause (2) of this Section 4.07(b) and shall not constitute Excluded Contributions;

(5) the repurchase of Equity Interests deemed to occur (i) upon the exercise of options or warrants if such Equity Interests represent all or a portion of the exercise price thereof and (ii) in connection with the withholding of a portion of the Equity Interests granted or awarded to a director or an employee to pay for the taxes payable by such director or employee upon such grant or award;

(6) the payment of dividends on the Company's common stock (or the payment of dividends to Parent or any other direct or indirect parent of the Company to fund the payment of dividends on its common stock) following any public offering of common stock of the Company or Parent or any other direct or indirect parent of the Company, in an aggregate amount of up to 6.0% per annum of the net proceeds received by the Company (or by Parent or any other direct or indirect parent of the Company and contributed to the Company) from such public offering; *provided, however* that the aggregate amount of all such dividends pursuant to this clause (6) since the date of this Indenture shall not exceed the aggregate amount of net proceeds received by the Company (or by a direct or indirect parent of the Company and contributed to the Company) from such public offering;

(7) the purchase, redemption, retirement or other acquisition for value of any Equity Interests of the Company, Parent or any other direct or indirect parent of the Company held by any current, future or former director, officer, consultant or employee of the Company, Parent or any other direct or indirect parent of the Company or any Restricted Subsidiary of the Company, or their estates or the beneficiaries of such estates (including the payment of dividends and distributions to Parent to enable Parent to repurchase Equity Interests owned by Parent's parent at the same time as Parent's parent repurchases Equity Interests from their directors, officers, consultants and employees), in an amount not to exceed \$10.0 million in any calendar year prior to a Qualified Equity Offering (and \$15.0 million in any calendar year following a Qualified Equity Offering); *provided* that the Company may carry over and make in subsequent calendar years, in addition to the amounts permitted for such calendar year, the amount of purchases, redemptions, acquisitions or retirements for value permitted to have been but not made in any preceding calendar year up to a maximum of \$20.0 million in any calendar year prior to a Qualified Equity Offering (and \$25.0 million in any calendar year following a Qualified Equity Offering), *provided, further*, that such amounts will be increased by (a) the cash proceeds from the sale after the date of this Indenture of Equity Interests of the Company or, to the extent contributed to the Company, Equity Interests of Parent or any other direct or indirect parent of the Company, in each case to directors, officers, consultants or employees of the Company, Parent or any other direct or indirect parent of the Company or any Restricted Subsidiary of the Company after the date of this Indenture, plus (b) the cash proceeds of key man life insurance policies received by the Company, its Restricted Subsidiaries, Parent or any other direct or indirect parent

(8) the distribution, as a dividend or otherwise, of Equity Interests of, or Indebtedness owed to the Company or a Restricted Subsidiary thereof by, any Unrestricted Subsidiary;

(12) the payment of cash in lieu of the issuance of fractional shares of Equity Interests upon exercise or conversion of securities exercisable or convertible into Equity Interests of the Company;

(18) the declaration and payment of dividends or distributions:

(A) to holders of any class or series of Designated Preferred Stock (other than Disqualified Stock) of the Company issued after the date of this Indenture;

(B) to Parent or any other direct or indirect parent of the Company, the proceeds of which will be used to fund the payment of dividends to holders of any class or series of Designated Preferred Stock (other than Disqualified Stock) of Parent or any other direct or indirect parent of the Company issued after the date of this Indenture; *provided, however*, that the aggregate amount of dividends declared and paid pursuant to this clause (18)(B) does not exceed the net cash proceeds (other than net cash proceeds constituting Excluded Contributions) actually received by the Company from any such sale of Designated Preferred Stock; and

(c) The amount of all Restricted Payments (other than cash) shall be the Fair Market Value on the date of the Restricted Payment of the asset(s) or securities proposed to be transferred or issued to or by the Company or such Restricted Subsidiary, as the case may be, pursuant to the Restricted Payment. In determining whether any Restricted Payment is permitted by this Section 4.07, the Company and its Restricted Subsidiaries may allocate all or any portion of such Restricted Payment among the categories set forth in clauses (1) through (20) of Section 4.07(b) or among such categories and the types of Restricted Payments set forth in Section 4.07(a) (including categorization as a Permitted Investment); *provided* that, at the time of such allocation, all such Restricted Payments, or allocated portions thereof, would be permitted under the various provisions of this Section 4.07 *and provided further* that the Company and its Restricted Subsidiaries may reclassify all or a portion of such Restricted Payment or Permitted Investment in any manner that complies with this Section 4.07, and following such reclassification such Restricted Payment or Permitted Investment shall be treated as having been made pursuant to only one of such clauses of this Section 4.07.

#### Section 4.08 *Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries.*

(a) The Company will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, create or permit to exist or become effective any consensual encumbrance or consensual restriction on the ability of any Restricted Subsidiary to:

(1) pay dividends or make any other distributions on its Capital Stock (or with respect to any other interest or participation in, or measured by, its profits) to the Company or any of its Restricted Subsidiaries or pay any Indebtedness owed to the Company or any of its Restricted Subsidiaries;

(2) make loans or advances to the Company or any of its Restricted Subsidiaries; or

(3) transfer any of its properties or assets to the Company or any of its Restricted Subsidiaries.

(b) The restrictions in section 4.08(a) hereof will not apply to encumbrances or restrictions:

(1) existing under, by reason of or with respect to the ABL Credit Facility, Existing Indebtedness, or any other agreements in effect on the date of this Indenture and any amendments, modifications, restatements, renewals, extensions, increases, supplements, refundings, replacements or refinancings thereof; *provided* that the encumbrances and restrictions in any such amendments, modifications, restatements, renewals, extensions, increases, supplements, refundings, replacements or refinancings are not materially more restrictive, taken as a whole, than those in effect on the date of this Indenture;

(2) existing under, by reason of or with respect to any other Credit Facility of the Company permitted under this Indenture ; *provided* that the applicable encumbrances and restrictions contained in the agreement or agreements governing the other Credit Facility are not materially more restrictive, taken as a whole, than those contained in the ABL Credit Facility (with respect to other credit agreements) or this Indenture (with respect to other indentures), in each case as in effect on the date of this Indenture;

(3) existing under, by reason of or with respect to applicable law, rule, regulation or administrative or court order;

(4) with respect to any Person or the property or assets of a Person acquired by the Company or any of its Restricted Subsidiaries existing at the time of such acquisition and not incurred in connection with or in contemplation of such acquisition, which encumbrance or restriction is not applicable to any Person or the properties or assets of any Person, other than the Person, or the property or assets of the Person, so acquired and any amendments, modifications, restatements, renewals, extensions, increases, supplements, refundings, replacements or refinancings thereof ; *provided* that the encumbrances and restrictions in any such amendments, modifications, restatements, renewals, extensions, increases, supplements, refundings, replacement or refinancings are entered into in the ordinary course of business or not materially more restrictive, taken as a whole, than those contained in the ABL Credit Facility, this Indenture, Existing Indebtedness or such other agreements as in effect on the date of the acquisition;

(5) in the case of the provision set forth in clause (3) of Section 4.08(a) hereof:

(A) that restrict in a customary manner the subletting, assignment or transfer of any property or asset that is a lease, license, conveyance or contract or similar property or asset,

(B) existing by virtue of any transfer of, agreement to transfer, option or right with respect to, or Lien on, any property or assets of the Company or any Restricted Subsidiary thereof not otherwise prohibited by this Indenture,

(C) existing under, by reason of or with respect to (i) purchase money obligations for property acquired in the ordinary course of business or (ii) capital leases or operating leases that impose encumbrances or restrictions on the property so acquired or covered thereby, or

(D) arising or agreed to in the ordinary course of business, not relating to any Indebtedness, and that do not, individually or in the aggregate, detract from the value of property or assets of the Company or any Restricted Subsidiary thereof in any manner material to the Company or any Restricted Subsidiary thereof;

(6) existing under, by reason of or with respect to customary provisions in joint venture, operating or similar agreements, asset sale agreements and stock sale agreements arising in connection with the entering into of such transactions;

(7) existing under, by reason of or with respect to any agreement for the sale or other disposition of some or all of the Capital Stock of, or any property and assets of, a Restricted Subsidiary that restricted distributions by that Restricted Subsidiary pending the closing of such sale or other disposition;

(8) existing under, by reason of or with respect to Permitted Refinancing Indebtedness ; *provided* that the encumbrances and restrictions contained in the agreements governing that Permitted Refinancing Indebtedness are not materially more restrictive, taken as a whole, than those contained in the agreements governing the Indebtedness being refinanced;

(9) restricting cash or other deposits or net worth imposed by customers under contracts entered into in the ordinary course of business;

(10) existing under, by reason of or with respect to customary provisions contained in leases or licenses of intellectual property and other agreements, in each case, entered into in the ordinary course of business;

(11) existing under, by reason of or with respect to this Indenture, the Notes (and the Exchange Notes), the Note Guarantees and the Security Documents; and

(12) existing under, by reason of or with respect to Indebtedness of a Restricted Subsidiary not prohibited to be incurred under this Indenture; *provided* that (a) such encumbrances or restrictions are ordinary and customary in light of the type of Indebtedness being incurred and the jurisdiction of the obligor and (b) such encumbrances or restrictions will not affect in any material respect the Company's or any Subsidiary Guarantor's ability to make principal and interest payments on the Notes, as determined in good faith by the Company.

For purposes of determining compliance with this Section 4.08, (a) the priority of any preferred stock in receiving dividends or liquidating distributions prior to distributions being paid on common stock shall not be deemed a restriction on the ability to make distributions on Capital Stock and (b) the subordination of loans or advances made to the Company or a Restricted Subsidiary of the Company to other Indebtedness incurred by the Company or any such Restricted Subsidiary shall not be deemed a restriction on the ability to make loans or advances.

*Section 4.09 Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock.*

(a) The Company will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, incur any Indebtedness (including Acquired Debt) or issue any shares of Disqualified Stock, and the Company will not permit any of its Restricted Subsidiaries to issue any preferred stock (other than in each case Disqualified Stock or preferred stock of Restricted Subsidiaries held by the Company or a Restricted Subsidiary, so long as so held); *provided, however*, that (i) the Company or any Restricted Subsidiary may incur Indebtedness (including Acquired Debt) and issue Disqualified Stock and (ii) any

Restricted Subsidiary may issue preferred stock, if the Fixed Charge Coverage Ratio for the Company's most recently ended four full fiscal quarters for which internal financial statements are available immediately preceding the date on which such additional Indebtedness is incurred or Disqualified Stock or preferred stock is issued would have been at least 2.0 to 1, determined on a *pro forma* basis (including a *pro forma* application of the net proceeds therefrom), as if the additional Indebtedness had been incurred or the Disqualified Stock or preferred stock had been issued, as the case may be, and the application of proceeds therefrom had occurred, at the beginning of such four-quarter period; *provided further*, that the amount of Indebtedness (excluding Acquired Debt not incurred in connection with or in contemplation of the applicable merger, acquisition or other similar transaction), Disqualified Stock and preferred stock that may be incurred or issued, as applicable, by Restricted Subsidiaries that are not Guarantors, pursuant to the foregoing, shall not exceed \$60.0 million at any one time outstanding.

(b) The provisions of Section 4.09(a) hereof will not prohibit the incurrence or issuance of any of the following (collectively, "*Permitted Debt*"):

(1) Indebtedness incurred by the Company or any Subsidiary Guarantor under Credit Facilities (and the incurrence by the Subsidiary Guarantors of Guarantees thereof) in an aggregate principal amount at any one time outstanding under the provision set forth in this clause (1) (with letters of credit being deemed to have a principal amount equal to the maximum potential liability of the Company and its Restricted Subsidiaries thereunder) not to exceed (as of any date of incurrence of Indebtedness under the provision set forth in this clause (1) and after giving *pro forma* effect to such incurrence and the application of the net proceeds therefrom) the greater of (a) \$1.25 billion and (b) the amount of the Borrowing Base as of the date of such incurrence;

(2) Indebtedness incurred by the Company and the Subsidiary Guarantors represented by the Notes and the Note Guarantees issued on the date of this Indenture and the Exchange Notes and related exchange guarantees to be issued in exchange for the Notes and the Note Guarantees pursuant to the Registration Rights Agreement (other than any Additional Notes, but including Exchange Notes and related exchange guarantees to be issued in exchange for Additional Notes otherwise permitted to be incurred hereunder pursuant to a registration rights agreement);

(3) Existing Indebtedness;

(4) Indebtedness of the Company or any of its Restricted Subsidiaries (including without limitation Capital Lease Obligations, mortgage financings or purchase money obligations), Disqualified Stock issued by the Company or any Restricted Subsidiary and preferred stock issued by any Restricted Subsidiary, in each case incurred for the purpose of financing all or any part of the purchase price or cost of design, construction, installation, repair or improvement of property (real or personal), plant or equipment or other fixed or capital assets used in the business of the Company or such Restricted Subsidiary or in a Permitted Business (whether through the direct purchase of assets or the Capital Stock of any Person owning such assets (but no other material assets)), in an aggregate principal amount at any time outstanding, including all Permitted Refinancing Indebtedness incurred to refund, refinance or replace any Indebtedness incurred pursuant to the provision set forth in this clause (4), not to exceed as of any date of incurrence the greater of (a) 1.0% of the Company's Consolidated Total Assets and (b) \$30.0 million;

(5) Permitted Refinancing Indebtedness incurred by the Company or any of its Restricted Subsidiaries in exchange for, or the net proceeds of which are used to refund, refinance or replace, Indebtedness (other than intercompany Indebtedness) that was permitted by this

Indenture to be incurred or Disqualified Stock or preferred stock permitted to be issued under Section 4.09(a) hereof or clauses (2), (3), (4), (5), (8), (9), (10), (15), (16) or (17) of this Section 4.09(b);

(6) intercompany Indebtedness incurred by the Company or any of its Restricted Subsidiaries and owing to and held by the Company or any of its Restricted Subsidiaries; *provided, however*, that:

(A) if the Company or any Subsidiary Guarantor is the obligor on such Indebtedness, such Indebtedness must be unsecured and expressly subordinated to the prior payment in full in cash of all Obligations with respect to the Notes, in the case of the Company, or the Note Guarantee, in the case of a Subsidiary Guarantor; and

(B) (i) any subsequent issuance or transfer of Equity Interests that results in any such Indebtedness being held by a Person other than the Company or a Restricted Subsidiary thereof and (ii) any sale or other transfer of any such Indebtedness to a Person that is not either the Company or a Restricted Subsidiary thereof, shall be deemed, in each case, to constitute an incurrence of such Indebtedness by the Company or such Restricted Subsidiary, as the case may be, that was not permitted by the provisions set forth in this clause (6);

(7) (A) the Guarantee by the Company or any of the Subsidiary Guarantors of Indebtedness of the Company or a Restricted Subsidiary of the Company that was permitted to be incurred by another provision of this Section 4.09, (B) the Guarantee by any Foreign Subsidiary of Indebtedness of another Foreign Subsidiary of the Company that was permitted to be incurred by another provision of this Section 4.09 or (C) any Guarantee by a Restricted Subsidiary of Indebtedness of the Company (so long as such Restricted Subsidiary also guarantees the Notes if required pursuant to Section 4.17 hereof);

(8) (x) Indebtedness, Disqualified Stock or preferred stock of the Company or any of its Restricted Subsidiaries incurred to finance an acquisition or (y) Acquired Debt; *provided* that, in either case, after giving effect to the transactions that result in the incurrence or issuance thereof, on a *pro forma* basis, either (A) the Company would be permitted to incur at least \$1.00 of additional Indebtedness pursuant to the Fixed Charge Coverage Ratio test set forth in the first paragraph of this Section 4.09 or (B) the Fixed Charge Coverage Ratio for the Company would not be less than immediately prior to such transactions;

(9) preferred stock of a Restricted Subsidiary of the Company issued to the Company or another Restricted Subsidiary of the Company; *provided* that (a) any subsequent issuance or transfer of Equity Interests that results in any such preferred stock being held by a Person other than the Company or a Restricted Subsidiary thereof and (b) any sale or other transfer of any such preferred stock to a Person that is not either the Company or a Restricted Subsidiary thereof will be deemed, in each case, to constitute an issuance of such preferred stock that was not permitted by the provision set forth in this clause (9);

(10) additional Indebtedness of the Company or any of its Restricted Subsidiaries incurred in an aggregate principal amount at any time outstanding, including all Permitted Refinancing Indebtedness incurred to refund, refinance or replace any Indebtedness incurred pursuant to the provision set forth in this clause (10), not to exceed as of any date of incurrence the greater of 4.0% of the Company's Consolidated Total Assets and \$125.0 million;

(11) Indebtedness incurred by the Company or any Restricted Subsidiary to the extent that the net proceeds thereof are promptly deposited to defease or to satisfy and discharge the Notes;

(12) Indebtedness of the Company or any Restricted Subsidiary consisting of obligations to pay insurance premiums or take-or-pay obligations contained in supply arrangements incurred in the ordinary course of business;

(13) Indebtedness in respect of any bankers' acceptance, bank guarantees, letter of credit, warehouse receipt or similar facilities, and reinvestment obligations related thereto, entered into in the ordinary course of business;

(14) Guarantees (A) incurred in the ordinary course of business in respect of obligations of (or to) suppliers, customers, franchisees, lessors and licensees that, in each case, are non-Affiliates or (B) otherwise constituting Investments permitted under this Indenture;

(15) (A) Indebtedness of Foreign Subsidiaries outstanding on the date of this Indenture and (B) additional Indebtedness of Foreign Subsidiaries incurred in an aggregate principal amount at any time outstanding, including all Permitted Refinancing Indebtedness incurred to refund, refinance or replace any Indebtedness incurred pursuant to the provision set forth in this clause (15)(B), not to exceed as of any date of incurrence the greater of 4.0% of the Company's Consolidated Total Assets and \$125.0 million;

(16) Indebtedness issued by the Company or any of its Restricted Subsidiaries to any current, future or former director, officer, consultant or employee of the Company, the direct or indirect parent of the Company or any Restricted Subsidiary of the Company (or any of their Affiliates), or their estates or the beneficiaries of such estates to finance the purchase, redemption, acquisition or retirement for value of Equity Interests permitted by clause (2) of Section 4.07(b) in an aggregate principal amount at any time outstanding, including all Permitted Refinancing Indebtedness incurred to refund, refinance or replace any Indebtedness incurred pursuant to the provision set forth in this clause (16), not to exceed \$5.0 million as of any date of incurrence;

(17) Contribution Indebtedness;

(18) (A) Indebtedness incurred in connection with any permitted Sale and Leaseback Transaction and (b) any refinancing, refunding, renewal or extension of any Indebtedness specified in subclause (a) above, *provided* that, except to the extent otherwise permitted hereunder, the principal amount of any such Indebtedness is not increased above the principal amount thereof outstanding immediately prior to such refinancing, refunding, renewal or extension and the direct and contingent obligors with respect to such Indebtedness are not changed;

(B) Indebtedness in respect of overdraft facilities, employee credit card programs and other cash management arrangements in the ordinary course of business; and

(C) Indebtedness representing deferred compensation to employees of the Company (or any direct or indirect parent thereof) and its Restricted Subsidiaries incurred in the ordinary course of business; and

(19) cash management obligations and other Indebtedness in respect of netting services, automatic clearinghouse arrangements, overdraft protections and similar arrangements in each case in connection with deposit accounts.

For purposes of determining compliance with this Section 4.09, in the event that any proposed Indebtedness or preferred stock meets the criteria of more than one of the categories of Permitted Debt set forth in clauses (1) through (19) above, or is entitled to be incurred or issued pursuant to the first paragraph of this Section 4.09, the Company, in its sole discretion, will be permitted to divide and classify at the time of its incurrence or issuance, and may from time to time divide or reclassify, all or a portion of such item of Indebtedness or Disqualified Stock or preferred stock such that it will be deemed to have been incurred pursuant to another of such clauses or Section 4.09(a) to the extent that such reclassified Indebtedness could be incurred pursuant to such new clause or Section 4.09(a) at the time of such reclassification (including in part pursuant to one or more clauses and/or in part pursuant to Section 4.09(a)), *provided, however*, that Indebtedness under the ABL Credit Facility outstanding on the date of this Indenture will be deemed to have been incurred on that date in reliance on the exception provided by clause (1) of the definition of Permitted Debt.

For the purpose of determining compliance with any U.S. dollar-denominated restriction on the incurrence of Indebtedness, the U.S. dollar-equivalent principal amount of Indebtedness denominated in a foreign currency shall be calculated based on the relevant currency exchange rate in effect on the date such Indebtedness was incurred or first committed (in the case of revolving credit debt); *provided* that if such Indebtedness denominated in a foreign currency is incurred to refinance other Indebtedness denominated in a foreign currency, and such refinancing would cause the applicable U.S. dollar denominated restriction to be exceeded if calculated at the relevant currency exchange rate in effect on the date of such refinancing, such U.S. dollar-denominated restriction shall be deemed not to have been exceeded so long as the principal amount of such Permitted Refinancing Indebtedness does not exceed the principal amount of such Indebtedness being refinanced, plus the amount of any reasonable premium (including reasonable tender premiums), defeasance costs and any reasonable fees and expenses incurred in connection with the issuance of such new Indebtedness. The principal amount of any Indebtedness incurred to refinance other Indebtedness, if incurred in a different currency from the Indebtedness being refinanced, shall be calculated based on the currency exchange rate applicable to the currencies in which such respective Indebtedness is denominated that is in effect on the date of such refinancing.

(c) Notwithstanding any other provision of this Section 4.09, the maximum amount of Indebtedness that may be incurred pursuant to this Section 4.09 will not be deemed to be exceeded, with respect to any outstanding Indebtedness, due solely to the result of fluctuations in the exchange rates of currencies. In addition, for purposes of determining any particular amount of Indebtedness, any Guarantees, Liens or obligations with respect to letters of credit, in each case, supporting Indebtedness otherwise included in the determination of such particular amount, will not be included.

#### Section 4.10 *Asset Sales.*

(a) The Company will not, and will not permit any of its Restricted Subsidiaries to, consummate an Asset Sale unless:

(1) the Company (or the Restricted Subsidiary, as the case may be) receives consideration at the time of such Asset Sale at least equal to the Fair Market Value of the assets or Equity Interests issued or sold or otherwise disposed of;

(2) with respect to Asset Sales involving aggregate consideration in excess of \$25.0 million, such Fair Market Value is determined in good faith by the Board of Directors of the Company or Parent; and

(3) at least 75% of the consideration therefor received by the Company or such Restricted Subsidiary is in the form of cash, Cash Equivalents or Replacement Assets or a combination of cash, Cash Equivalents or Replacement Assets; *provided* that, for purposes of this provision, each of the following shall be deemed to be cash:

(A) any liabilities (as shown on the Company's or such Restricted Subsidiary's most recent balance sheet or in the footnotes thereto), of the Company or any Restricted Subsidiary (other than contingent liabilities, Indebtedness that is by its terms contractually subordinated in right of payment to the Notes or any Note Guarantee and liabilities to the extent owed to the Company or any Restricted Subsidiary of the Company) that are assumed by the transferee of any such assets or Equity Interests pursuant to an agreement that releases the Company or such Restricted Subsidiary, as the case may be, from further liability;

(B) any securities, notes or other obligations received by the Company or any such Restricted Subsidiary, as the case may be, from such transferee that are converted by the Company or such Restricted Subsidiary into cash or Cash Equivalents within 180 days (to the extent of the cash or Cash Equivalents received in that conversion); and

(C) any Designated Non-Cash Consideration received by the Company or any Restricted Subsidiary in such Asset Sale having an aggregate Fair Market Value, taken together with all other Designated Non-Cash Consideration received pursuant to this clause (C) that is at the time outstanding, not to exceed the greater of (x) \$75.0 million and (y) 2.5% of the Company's Consolidated Total Assets at the time of the receipt of such Designated Non-Cash Consideration, with the Fair Market Value of each item of Designated Non-Cash Consideration being measured at the time received and without giving effect to subsequent changes in value.

(b) Within 365 days after the receipt of any Net Proceeds from an Asset Sale other than (1) a Sale of Notes Priority Collateral or (2) a Sale of a Subsidiary Guarantor, the Company or such Restricted Subsidiary may apply such Net Proceeds at its option and to the extent it so elects:

(1) to repay, repurchase or redeem Priority Lien Obligations (including Priority Lien Obligations under the Notes) or ABL Debt Obligations;

(2) to repay any Indebtedness secured by a Permitted Prior Lien;

(3) to repay Indebtedness and other obligations of a Restricted Subsidiary that is not a Guarantor, other than Indebtedness owed to the Company or another Restricted Subsidiary;

(4) to repay other Indebtedness of the Company or any Subsidiary Guarantor (other than any Disqualified Stock or any Indebtedness that is contractually subordinated in right of payment to the Notes), other than Indebtedness owed to Parent, the Company or a Restricted Subsidiary of the Company; *provided* that the Company shall equally and ratably redeem or repurchase the Notes as set forth in Section 3.07 hereof through open market purchases (to the extent such purchases are at or above 100% of the principal amount thereof) or by making an offer (in accordance with the procedures set forth below for an Asset Sale Offer) to all Holders to

purchase the Notes at 100% of the principal amount thereof, *plus* the amount of accrued but unpaid interest, if any, on the amount of Notes that would otherwise be prepaid;

(5) to acquire all or substantially all of the assets of, or any Capital Stock of, another Permitted Business, if, after giving effect to any such acquisition of Capital Stock, the Permitted Business is or becomes a Restricted Subsidiary of the Company;

(6) to make an Investment in Replacement Assets or make a capital expenditure in or that is used or useful in a Permitted Business; or

(7) any combination of the foregoing;

*provided* that the Company will be deemed to have complied with the provisions set forth in clauses (5) and (6) of this Section 4.10(b) if and to the extent that, within 365 days after the Asset Sale that generated the Net Proceeds, the Company has entered into and not abandoned or rejected a binding agreement to acquire the assets or Capital Stock of a Permitted Business, make an Investment in Replacement Assets or make a capital expenditure in compliance with the provision set forth in clauses (5) and (6) of this Section 4.10(b), and that acquisition, purchase or capital expenditure is thereafter completed within 180 days after the end of such 365-day period. Pending the final application of any such Net Proceeds, the Company may temporarily reduce revolving credit borrowings or otherwise invest such Net Proceeds in any manner that is not prohibited by this Indenture.

(c) Within 365 days after the receipt of any Net Proceeds from an Asset Sale that constitutes (i) a Sale of Notes Priority Collateral or (ii) a Sale of a Subsidiary Guarantor, the Company (or the applicable Restricted Subsidiary, as the case may be) may apply an amount equal to such Net Proceeds:

(1) to make an Investment in other assets or property that would constitute Notes Priority Collateral;

(2) to make an Investment in Capital Stock of another Permitted Business if, after giving effect to such Investment, the Permitted Business becomes a Subsidiary Guarantor or is merged into or consolidated with the Company or any Subsidiary Guarantor;

(3) to make a capital expenditure with respect to assets that constitute Notes Priority Collateral;

(4) to repay Indebtedness secured by a Permitted Prior Lien on any Notes Priority Collateral that was sold in such Asset Sale;

(5) to repay, repurchase or redeem Priority Lien Obligations (including Priority Lien Obligations under the Notes); *provided* that the Company shall equally and ratably redeem or repurchase the Notes as set forth in Section 3.07 hereof through open market purchases (to the extent such purchases are at or above 100% of the principal amount thereof) or by making an offer (in accordance with the procedures set forth below for an Asset Sale Offer) to all Holders to purchase the Notes at 100% of the principal amount thereof, *plus* the amount of accrued but unpaid interest, if any, on the amount of Notes that would otherwise be prepaid; or

(6) any combination of the foregoing;

*provided* that the Company will be deemed to have complied with the provision set forth in clauses (1), (2) and (3) of this Section 4.10(c) if, and to the extent that, within 365 days after the Asset Sale that

generated the Net Proceeds, the Company has entered into and not abandoned or rejected a binding agreement to make an Investment in assets or property that would constitute Notes Priority Collateral or make an Investment in Capital Stock of another Permitted Business or to make a capital expenditure with respect to assets that constitute Notes Priority Collateral in compliance with the provisions set forth in clauses (1), (2) and (3) of this Section 4.10(c), and that purchase or capital expenditure is thereafter completed within 180 days after the end of such 365-day period.

(d) Any Net Proceeds from Asset Sales that are not applied or invested as set forth in Section 4.10(b) or Section 4.10(c) will constitute “*Excess Proceeds*.” Within 10 Business Days after the aggregate amount of Excess Proceeds exceeds \$35.0 million, the Company will make an Asset Sale Offer to all Holders of Notes and all holders of other Priority Lien Debt pursuant to the provisions of Section 3.09 of this Indenture, to purchase the maximum principal amount of Notes and such other Priority Lien Debt that may be purchased out of the Excess Proceeds. The offer price for the Notes and any other Priority Lien Debt in any Asset Sale Offer will be equal to 100% of the principal amount of the Notes and such other Priority Lien Debt purchased, *plus* accrued and unpaid interest and Special Interest (if any) on the Notes and any other Priority Lien Debt to the date of purchase, and will be payable in cash. If any Excess Proceeds remain after consummation of an Asset Sale Offer, the Company may use such Excess Proceeds for any purpose not otherwise prohibited by this Indenture. If the aggregate principal amount of Notes and such other Priority Lien Debt tendered into such Asset Sale Offer exceeds the amount of Excess Proceeds, the Notes and such other Priority Lien Debt shall be purchased on a *pro rata* basis based on the principal amount of Notes and such other Priority Lien Debt tendered. Upon completion of each Asset Sale Offer, the amount of Excess Proceeds shall be reset at zero. The Company may satisfy the foregoing obligation with respect to any Net Proceeds prior to the expiration of the relevant 365 day period (as such period may be extended in accordance with this Indenture) or with respect to Excess Proceeds of \$35.0 million or less.

(e) The Company will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent such laws and regulations are applicable in connection with each repurchase of Notes pursuant to an Asset Sale Offer. To the extent that the provisions of any securities laws or regulations conflict with provisions of Section 3.09 hereof or this Section 4.10, the Company will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under Section 3.09 hereof or this Section 4.10 by virtue of such compliance.

#### Section 4.11 *Transactions with Affiliates.*

(a) The Company will not, and will not permit any of its Restricted Subsidiaries to, make any payment to, or sell, lease, transfer or otherwise dispose of any of its properties or assets to, or purchase any property or assets from, or enter into, make, amend, renew or extend any transaction, contract, agreement, understanding, loan, advance or Guarantee with, or for the benefit of, any Affiliate involving aggregate consideration in excess of \$3.5 million (each, an “*Affiliate Transaction*”), unless:

(1) such Affiliate Transaction is on fair and reasonable terms not materially less favorable to the Company or the relevant Restricted Subsidiary than it would obtain in a hypothetical comparable arm’s-length transaction by the Company or such Restricted Subsidiary with a Person that was not an Affiliate of the Company; and

(2) the Company delivers to the Trustee with respect to any Affiliate Transaction or series of related Affiliate Transactions involving aggregate consideration in excess of \$25.0 million, a resolution of the Board of Directors of Parent set forth in an Officers’ Certificate certifying that such Affiliate Transaction or series of related Affiliate Transactions complies with

this Section 4.11 and that such Affiliate Transaction or series of related Affiliate Transactions has been approved by a majority of the disinterested members of Parent's Board of Directors.

(b) The following items will not be deemed to be Affiliate Transactions and, therefore, will not be subject to the provisions of Section 4.11(a) hereof:

- (1) transactions between or among the Company and/or its Restricted Subsidiaries;
